¹In connection with its consideration of the subject proposals, the Board has by letters of today's date notified both Sierra and K&B that, upon consummation of the proposals, the Board has determined, on the basis of the record, that Sierra and K&B would be capable of exercising a "controlling influence" over the management or policies of Twin Lakes within the meaning of section 2 (a) (2) (C) of the Act. Accordingly, upon consummation of the proposals, Sierra and K&B are required to report Twin Lakes, as well as its subsidiaries, as subsidiaries of Sierra and K&B and to comply with the applicable provisions of the Act with respect to such subsidiaries. Sierra and K&B have waived the requirement of notice and opportunity for a hearing provided in the statute, and this determination becomes final upon consummation of the proposals.

²Dissenting statements of Governor Coldwell filed as part of the original document. Copies are available upon request to Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Kansas City.

³Voting for this action: Governors Wallich, Jackson, Partee, and Lilly. Voting against this action: Governor Coldwell. Absent and not voting: Chairman Burns and Governor Gardner.

[6210-01]

SUN BANK OF OCALA, SUN BANK OF SOUTH OCALA

Order Approving Application for Merger of Banks

Sun Bank of Ocala, Ocala, Fla. ("Applicant Bank") has applied for the Board's approval, pursuant to the Bank Merger Act (12 U.S.C. 1828(c)), of the merger of Applicant Bank with the Sun Bank of South Ocala, Ocala, Fla. ("Other Bank"), under the charter and title of Applicant Bank. Incident to the proposed merger, the existing office of Other Bank would become a branch office of the resulting bank.

Both banks involved are wholly owned subsidiaries (except for Directors' qualifying shares) of Sun Banks of Florida, Inc., Orlando, Fla., a registered bank holding company under the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1841, et seq.).

As required by the Bank Merger Act, notice of the proposed transactions in a form approved by the Board was published, and reports on competitive factors from the U.S. Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation were requested. The Board has considered the applications and all comments and reports received in the light of the factors set forth in the Bank Merger Act.

Applicant Bank holds deposits of \$61 million and is the largest of seven banks (including Other Bank), in the market.¹ Other Bank holds deposits of \$18 million and is the fifth largest bank in the market. Applicant Bank and Other Bank together hold 36.5 percent of market deposits.

Since the banks are both wholly owned subsidiaries of the same bank holding company, and have been since 1972, the proposed transaction is essentially a corporate reorganization and would have no effect on competition. Nor does it appear that approval will have any adverse effects on any other banks in the market. Therefore, the Board concludes that competitive considerations are consistent with approval of the application.

This is essentially a corporate reorganization, and the Board finds the financial condition and managerial resources of the institutions involved as being satisfactory and consistent with approval of the application.

It is contemplated that the present office of Other Bank will be converted into a branch office of Applicant Bank, incident to and subject to approval of this application, and it is anticipated that the merger will result in more efficient operation of the two banks.

Applicant proposes no new services in connection with the merger. Concurrently, Applicant Bank has received approval to expand a "cast facility" into a full branch and to establish yet another branch. Accordingly, convenience and needs considerations are consistent with approval. It is the Board's judgment that consummation of the proposal would be in the public interest and that the application should be approved.

On the basis of the record and for the reasons summarized above, the application to merge and, incident thereto, to establish a branch, is approved. The transactions shall not be made (a) before the thirtieth calendar day following the date of this order or (b) later than three months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,³ effective September 29, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.
[FR Doc. 77-29350 Filed 10-5-77; 8:45 am]

[6210-01]

TENNESSEE HOMESTEAD CO.

Retention of Bank Shares

Tennessee Homestead Co., Ogden, Utah, has applied for the Board's approval under section 3(a) (3) of the Bank Holding Company Act (12 U.S.C. 1842 (a) (3)) to retain 0.47 percent of the voting shares of Bank of Utah, Ogden, Utah, which would result in the ownership of 46.72 percent of the voting shares of that bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 28, 1977.

Board of Governors of the Federal Reserve System, September 30, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[6210-01]

TWIN LAKES FINANCIAL CORP.

Order Approving Formation of Bank Holding Company

Twin Lakes Financial Corp., Wichita, Kans., has applied for the Board's approval under section 3(a) (1) of the Bank Holding Company Act (12 U.S.C. 1842(a) (1)) of formation of a bank holding company through acquisition of 98.9 percent of the voting shares of Twin Lakes State Bank, Wichita, Kans. ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b)

³Voting for this action: Vice Chairman Gardner and Governors Wallich, Jackson, Partee, and Lilly. Absent and not voting: Chairman Burns and Governor Coldwell.

of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received, in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a newly formed corporation organized under the laws of Kansas for the purpose of becoming a bank holding company through the acquisition of Bank Bank (\$28.4 million in deposits) ranks 84th among the 616 commercial banks in Kansas and controls 0.3 percent of the total commercial bank deposits in the State.¹ Bank is the 14th largest of 28 commercial banks in the Wichita banking market (the relevant market) and controls approximately 1.9 percent of the total deposits held by commercial banks in that market.² In addition to Bank, there are two other banks in the Wichita banking market affiliated with Applicant's principals.³ Applicant's principals also are affiliated with a bank in Iola, Kans., Allen County State Bank (\$30.7 million in deposits), which is located over 100 miles east of Wichita, in a separate banking market. It appears that the proposal would result in some elimination of existing competition; however, on the basis of all the facts of record, including the relative size of the affiliated banking organizations in the Wichita market (in the aggregate they control 5.75 percent of total market deposits and together would rank as the fifth largest banking organization therein), the number of banking alternatives remaining in the market, the fact that consummation of the proposal would not alter the competitive relationship between Bank and the two other affiliated banks in the Wichita market, and the proposed transactions is essentially a reorganization of existing ownership interests, the Board concludes that consummation of this proposal would not have any significant adverse effects upon either existing or potential competition within the relevant market.

Applicant proposes to sell 24.9 percent of its voting shares to Sierra Petroleum Co., Inc., Wichita, Kans., and 24.9 percent of its voting shares to K&B Producers, Inc., Wichita, Kans.⁴ As a result, Applicant will receive additional funding which it appears will allow Applicant to have the necessary financial resources available to service its debt without impairment of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received, in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant proposes to sell 24.9 percent of its voting shares to Sierra Petroleum Co., Inc., Wichita, Kans., and 24.9 percent of its voting shares to K&B Producers, Inc., Wichita, Kans.⁴ As a result, Applicant will receive additional funding which it appears will allow Applicant to have the necessary financial resources available to service its debt without im-

¹All banking data are as of December 31, 1976, and reflect bank holding company formations and acquisitions approved as of July 31, 1977.

²The Wichita banking market is approximately by Sedgewick County, Kans.

³Wichita State Bank (\$28.5 million in deposits) and United American Bank & Trust Co. (\$29.9 million in deposits), with 1.9 and 2.0 percent, respectively, of the total commercial bank deposits in the Wichita banking market.

⁴Applicant's principals are also controlling shareholders in Sierra Petroleum Co. Inc. and K&B Producers, Inc., registered bank holding companies by virtue of their control, respectively, of United American Bank & Trust Co. and Allen County State Bank.

pairing the financial condition of Bank.¹ In addition, as part of this proposal, Bank's capital will be increased. Accordingly, the financial and managerial resources and future prospects of Applicant and Bank are considered to be satisfactory and consistent with approval of the application.

Although there will be no immediate changes in the operations or services of Bank as a result of this proposal, considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. Based upon the foregoing and other considerations reflected in the record, it is the Board's judgment that the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record,² the application is approved for the reasons summarized above. The acquisition of Bank shall not be made: (a) before the thirtieth calendar day following the effective date of this order, or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,³ effective September 29, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA 2398]

CALIFORNIA

Opportunity for Public Hearing and Republishing of Notice of Proposed Withdrawal

SEPTEMBER 28, 1977.

The Forest Service, U.S. Department of Agriculture, filed application Serial No. CA 2398 on October 24, 1974, amended on February 17, 1976, for a withdrawal in relation to the following described lands:

MOUNT DIABLO MERIDIAN, CALIFORNIA
T. 17 N., R. 11 E.,
Sec. 30, Lot 5;
Sec. 31, Lot 44 (Mineral Survey C-10);
Sec. 32, Lot 44 (Mineral Survey C-10).

¹In a related action, the Board today approved the applications by Sierra Petroleum Co., Inc., Wichita, Kans., and K&B Producers, Inc., Wichita, Kans., to acquire 24.9 percent each of the voting shares of Applicant.

²Dissenting Statement of Governor Coldwell filed as part of the original document. Copies are available upon request to Board of Governors of the Federal Reserve System, Washington, D.C. 20551 or to the Federal Reserve Bank of Kansas City.

³Voting for this action: Governors Wallich, Jackson, Partee, and Lilly. Voting against this action: Governor Coldwell. Absent and not voting: Chairman Burns and Governor Gardner.

The area described aggregates 104.13 acres in Nevada County, California.

The applicant desires the land be added to the Tahoe National Forest in order to promote the efficient management of land and to effect national resource conservation in the area.

A notice of the proposed withdrawal was published in the FEDERAL REGISTER on October 29, 1975, page 50293, FR Doc. 75-28975, and on March 23, 1976, page 12072, FR Doc. 76-8173.

Pursuant to Sec. 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2754, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing to the State Director, Bureau of Land Management, E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825, on or before November 7, 1977. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before November 7, 1977.

The proposed withdrawal temporarily segregates the lands from any form of disposal or appropriation under the public land laws. The proposed action, when consummated, will transfer jurisdiction to national forest status, subject to all laws and regulations applicable to national forest lands. In accordance with Section 204(g) of the Federal Land Policy and Management Act of 1976, the effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with the pending withdrawal application should be addressed to the undersigned, Bureau of Land Management, Department of the Interior, Room E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

JOAN B. RUSSELL,
Chief, Lands Section Branch of

INTERNATIONAL TRADE COMMISSION

MALLEABLE CAST-IRON PIPE AND FITTINGS

[Inv. TA-201-26]

Report to the President

SEPTEMBER 29, 1977.

To the President:

In accordance with section 201(d)(1) of the Trade Act of 1974 (Trade Act), the United States International Trade Commission herein reports the results of an investigation relating to malleable cast-iron pipe and tube fittings.

The investigation (Inv. No. TA-201-26) was undertaken to determine whether cast-iron pipe and tube fittings, malleable, provided for in items 610.70, 610.71, and 610.74 of the Tariff Schedules of the United States (TSUS), are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing articles like or directly competitive with the imported articles.

The Commission instituted the investigation, under the authority of section 201(b)(1) of the Trade Act, on April 13, 1977, following receipt on March 29, 1977, of a petition for import relief under section 201 of the Trade Act of 1974 (19 U.S.C. 2251) filed by the American Pipe Fittings Association, representing the eight domestic producers of malleable cast-iron pipe and tube fittings.

The Commission held a public hearing on this matter in Washington, D.C., on June 21, 1977.

Notice of the institution of the investigation and time and place of the hearing was published in the FEDERAL REGISTER of April 19, 1977 (42 FR 20355).

The information for this report was obtained from field work and interviews by members of the Commission's staff, from other Federal agencies, from responses to the Commission's question-

nares, from information presented at the public hearings, from briefs submitted by interested parties, and from the Commission's files.

A transcript of the hearing and copies of briefs submitted by interested parties in connection with the investigation are attached.¹

DETERMINATION OF THE COMMISSION

On the basis of the investigation, the Commission unanimously determines that cast-iron pipe and tube fittings, malleable, provided for in items 610.70, 610.71, and 610.74 of the TSUS, are not being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing articles like or directly competitive with the imported articles.

VIEWS OF THE COMMISSION

On March 29, 1977, the American Pipe Fittings Association petitioned the United States International Trade Commission for import relief under section 201 of the Trade Act of 1974. The Commission instituted an investigation on April 13, 1977, to determine whether cast-iron pipe and tube fittings, malleable, provided for in items 610.70, 610.71, and 610.74 of the Tariff Schedules of the United States, are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing articles like or directly competitive with the imported articles.

Section 201(b)(1) of the Trade Act requires that each of the following conditions must be satisfied before an affirmative determination can be made:

- (1) Imports of an article into the United States are increasing (either actually or relative to domestic production);
- (2) The domestic industry producing an article like or directly competitive with the imported article is being seriously injured, or threatened with serious injury; and
- (3) Increased imports are a substantial cause (i.e., an important cause and not less than any other cause) of serious injury, or the threat thereof, to the domestic industry producing an article like or directly competitive with the imported article.

DETERMINATION

On the basis of information obtained in the present investigation, we have determined that malleable cast-iron pipe and tube fittings are not being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing articles like or directly competitive with the imported articles.

THE DOMESTIC INDUSTRY

We have determined that the domestic industry in the present investigation consists of facilities in the United States de-

¹ Attached to the original report sent to the President, and available for inspection at the U.S. International Trade Commission, except for material submitted in confidence.

voted to the production of malleable cast-iron pipe and tube fittings (hereinafter referred to as the domestic industry). There are eight firms operating such facilities.

NO SERIOUS INJURY OR THE THREAT THEREOF CAUSED BY IMPORTS

Section 201(b)(2) of the Trade Act outlines certain guidelines which the Commission is to take into account in determining whether serious injury, or the threat thereof, exists. In determining whether serious injury exists, the Commission is directed by the Trade Act to take into account all economic factors which it considers relevant, including the significant idling of productive facilities in the industry, the inability of a significant number of firms to operate at a reasonable level of profit, and significant unemployment or under employment within the industry. When evaluated in light of the foregoing, imports of malleable cast-iron pipe and tube fittings are not causing serious injury to the domestic industry within the meaning of the act.

Information obtained in this investigation establishes that the domestic industry supplied about 85 percent of domestic consumption of malleable cast-iron pipe and tube fittings in 1976. This is about the same percentage supplied by the domestic industry in 1972 and only slightly below the 1972-76 average of approximately 88 percent.

The net sales of the domestic industry in 1976 were the highest in the last five years, with the exception of 1974, a recession year. Responses to the Commission's questionnaire show that although the ratio of net operating profit to net sales declined between 1972 and 1975, it increased from 1975 to 1976, when imports were increasing. Moreover, if the poor financial performance of a domestic producer that experienced a five-month strike in 1976 is excluded from the aggregate industry profit-and-loss data, the domestic industry projected an even stronger profit image, recording a higher average profit ratio than that reported for all fabricated metal products producers in 1976.

The recent domestic financial picture is complemented by domestic price trends for the articles covered in this investigation. For the period 1972 through the first quarter of 1977, trends indicate that domestic prices have nearly doubled.

During 1972-76 no firms left the domestic industry, and the only plant closing was temporary and due to a strike. During the same period, there was a rise in the production capacity of the domestic industry. The increase in capacity is the result of new more efficient equipment being installed by a number of the members of the domestic industry. Capacity utilization has declined from the high level reached in 1973; however, the decline occurred in part because the increase in capacity noted above took place during a concurrent slump in demand which began in 1974.

Information obtained during the investigation shows that although there

was some reduction in employment in 1975 and 1976, employment increased during January-April 1977. The decline in employment in 1975 and 1976 reflected the reduced consumption during those years while the industry's productivity reached an all-time high in 1976.

In determining whether there is a threat of serious injury, the Commission is directed to take into account all economic factors it considers relevant, including a decline in sales, a higher and growing inventory, and a downward trend in production, profits, wages, or employment. An evaluation of the information obtained in the Commission's investigation does not support a finding of threat of serious injury. Sales of domestic malleable cast-iron pipe and tube fittings increased 9.3 percent from 1975 to 1976. As noted earlier, profit also climbed in that period. Production rose by 4.6 percent in the same period. Inventories were at a five-year low at the end of 1976 having declined by over 11 percent from 1972 levels. In addition, new construction activity, to which the production of malleable cast-iron pipe and tube fittings is closely related, appears to be maintaining its upward trend.

CONCLUSION

From the foregoing, we have determined that malleable cast-iron pipe and tube fittings are not being imported in such increased quantities as to be a substantial cause of serious injury or the threat thereof to the domestic industry.

By order of the Commission.

Issued: October 3, 1977.

KENNETH R. MASON,
Secretary.

DEPARTMENT OF JUSTICE

UNITED STATES V. NATIONAL BLANK BOOK CO.

Proposed Consent Decree in Action to Enjoin Discharge of Water Pollutants

In accordance with Departmental Policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that a proposed consent decree in *United States v. National Blank Book Company*, Civil Action No. 77-585-C, will be lodged with the District Court for the District of Massachusetts that will require the Company to bring its discharges into compliance with its previously issued NPDES permit by October 1, 1977 or to pay a \$1,000 a day penalty for failing to do so. The decree also compels the Company to pay a \$10,000 civil penalty for failing to meet the effluent limitations set forth in its previously issued NPDES permit.

The Department of Justice will receive written comments relating to the proposed judgment on or before November 2, 1977. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and refer to "United States v. Na-

tional Blank Book Company," D.J. Ref. No. 90-5-1-1-712.

The proposed consent decree may be examined at the office of the United States Attorney, 1107 John W. McCormack Post Office and Courthouse, Boston, Mass. 02109; at the Region I Office of the Environmental Protection Agency, Enforcement Division, J. F. Kennedy Federal Building, Boston, Mass. 02203; and at the Pollution Control Section, Land and Natural Resources Division of the Department of Justice, Room 2630, Washington, D.C. 20530. A copy of the proposed consent decree may be obtained in person or by mail from the Pollution Control Section, Land and Natural Resources Division of the Department of Justice.

JAMES W. MOORMAN,
Assistant Attorney General,
Land and Natural Resources Division.

NATIONAL COMMISSION FOR MANPOWER POLICY

FIELD REVIEW ON NET EMPLOYMENT EFFECTS OF PUBLIC SERVICE EMPLOYMENT

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770) notice is hereby given that the National Commission for Manpower Policy will conduct a field review on the net employment effects of the public service employment (PSE) program on November 10 and November 11, 1977. The reviews will be held at the Hilton Airport Inn, No. 1 International Plaza, Nashville, Tennessee. On November 10, the review will be held in the Stratosphere Room and on November 11, ber 10, the review will be held in the Room. The reviews will commence at 9 a.m. and conclude at 4 p.m. on both days.

The National Commission for Manpower Policy was established pursuant to Title V of the Comprehensive Employment and Training Act of 1973 (Pub. L. 92-203). The Act charges the Commission with the broad responsibility of advising the Congress, the President, the Secretary of Labor, and other Federal agency heads on national manpower issues. The Commission is specifically charged with reporting annually to the President and the Congress on its findings and recommendations with respect to the Nation's manpower policies and programs. The Emergency Jobs Programs Extension Act of 1976 directs the Commission to study and report to Congress on the net employment effects of PSE programs under Title II and Title VI of the Comprehensive Employment and Training Act.

The purpose of the review is to elicit the views of those at the state and local level (in and out of government) on the effects and effectiveness of the public service employment program. Among the issues to be addressed are:

1. What goals and objectives are developed by state and local governments for the PSE programs? How are these goals developed so that they are supportive of national goals; provide needed public services; and are supportive of other public services?

2. To what extent has PSE resulted in an increase in the provision of services by state or local governments? Has PSE been instrumental in maintaining the level of services where they would have otherwise been curtailed due to revenue reductions, increased costs or other factors? What types of services are being provided through the PSE programs? What types of agencies (e.g., public safety, sanitation, education) received PSE jobs? If the PSE program were reduced or phased out, to what extent would these services also be reduced or terminated?

3. To what extent has PSE resulted in an increase in the services provided by nonprofit community organizations? How has this changed as a result of the requirements of the Emergency Jobs Program Extension Act of 1976? What types of services are being provided by community organizations with the employment provided by PSE?

4. What is the ability of state and local governments to absorb additional PSE jobs? To what extent can this be expanded by increased utilization of nonprofit community organizations? What has been the experience in implementing and increasing the PSE programs to date? What are the constraints to further increasing the size of the program?

5. What effect has the presence of the PSE program had on the personnel practices of state and local governments? Have changes been made to provide PSE employees with improved access to regular (i.e., non-PSE) jobs? Has the PSE program resulted in any changes in the composition of the regular employment of the employing jurisdiction in terms of race, sex, education, experience, or other characteristics? Can PSE be used as a means of training the hard-to-employ and then obtaining access for them to permanent, unsubsidized employment?

6. What should be the areas of concern in consideration of phasing out or phasing down the current PSE programs? What areas should be considered if the target populations or mode of operation of the current programs are to be modified? To what extent and how do changes in the scale, mode of operation, target population and/or continuity of the program effect the delivery of needed public services?

Members of the general public or other interested individuals may attend the Commission field reviews. Members of the public desiring to submit written statements to the Commission that are germane to the agenda may do so, provided such statements are in reproducible form and are submitted to the Director no later than two days before and seven days after the meeting.

Additionally, members of the general public may request to make oral statements to the Commission to the extent that the time available for the meeting

permits. Such oral statements must be directly germane to the announced agenda items and written application must be submitted to the Director of the Commission three days before the meeting. This application shall identify the following: The name and address of the applicant, the subject of his or her presentation and its relationship to the agenda; the amount of time requested; the individual's qualifications to speak on the subject matter; and shall include a justifying statement as to why a written presentation would not suffice. The Chairman reserves the right to decide to what extent public oral presentation will be permitted at the meeting. Oral presentations shall be limited to statements of fact and views and shall not include any question of Commission members or other participants unless these questions have been specifically approved by the Chairman.

Minutes of the meeting, working papers and other documents prepared for the meeting will be available for public inspection five working days after the field review at the Commission's headquarters located at 1522 K Street NW., Room 300, Washington, D.C.

Signed at Washington, D.C., this 27th day of September 1977.

ISABEL V. SAWHILL,
Director, National Commission
for Manpower Policy.

NATIONAL SCIENCE FOUNDATION

SUBCOMMITTEE ON ECOLOGICAL SCIENCES OF THE ADVISORY COMMITTEE FOR ENVIRONMENTAL BIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation announces the following meeting:

Name: Subcommittee on Ecological Sciences of the Advisory Committee for Environmental Biology.

Date and time: October 26 and 27, 1977, 8:30 a.m. to 5 p.m. each day.

Place: Room 643, National Science Foundation, 1800 G Street, NW., Washington, D.C. 20550.

Type of meeting: Closed.

Contact person: Dr. Wayne T. Swank, Program Director, Ecosystem Studies Program, Room 336, National Science Foundation, Washington, D.C. 20550, telephone 202-632-5854.

Purpose of subcommittee: To provide advice and recommendations concerning support for research in the ecological sciences.

Agenda: To review and evaluate research proposals as part of the selection process for awards.

Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c). Government in the Sunshine Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,
Acting Committee
Management Officer.

OCTOBER 3, 1977.

SUBCOMMITTEE ON REGULATORY BIOLOGY OF THE ADVISORY COMMITTEE FOR PHYSIOLOGY, CELLULAR & MOLECULAR BIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, P.L. 92-463, as amended, the National Science Foundation announces the following meeting:

Name: Subcommittee on Regulatory Biology of the Advisory Committee for Physiology, Cellular and Molecular Biology.

Date and time: October 24, 25 and 26, 1977—9 a.m. to 6 p.m. each day.

Place: Room 338, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of meeting: Closed.

Contact person: Dr. Betty M. Twarog, Program Director, Regulatory Biology Program, Room 333, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4298.

Purpose of subcommittee: To provide advice and recommendations concerning support for research in regulatory biology.

Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.

Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of P.L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,
Acting Committee
Management Officer.

[7590-01]

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, WORKING GROUP NO. 4 OF THE SUBCOMMITTEE ON REACTOR SAFETY RESEARCH

Meeting

In accordance with the purposes of Section 29 and 182b. of the Atomic En-

ergy Act (42 U.S.C. 2039, 2232 b.), Working Group No. 4 of the ACRS Subcommittee on Reactor Safety Research will hold an open meeting on October 25, 1977 in Room 1162, 1717 H Street NW., Washington, D.C. 20555. The purpose of this meeting is to review the NRC sponsored research on advanced reactor technology.

The agenda for the subject meeting shall be as follows:

TUESDAY, OCTOBER 25, 1977

8:30 A.M. UNTIL CONCLUSION OF BUSINESS

The Working Group may meet in Executive Session, with any of its consultants who may be present, to explore their preliminary opinions regarding matters which should be considered in order to formulate a report and recommendations to the full Committee.

At the conclusion of the Executive Session, the Working Group will hear presentations by and hold discussions with representatives of the NRC Staff, their consultants, and with representatives of other organizations participating in research on advanced reactor technology.

At the conclusion of these sessions, the Working Group may caucus to determine whether the matters identified in the initial session have been adequately covered and whether the project is ready for review by the full Committee.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Working Group is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incomplete open session from one day to the next.

The Advisory Committee on Reactor Safeguards is an independent group established by Congress to review and report on each application for a construction permit and on each application for an operating license for a reactor facility and on certain other nuclear safety matters. The Committee's reports become a part of the public record. Although ACRS meetings are ordinarily open to the public and provide for oral or written statements to be considered as a part of the Committee's information gathering procedure concerning the health and safety of the public, they are not adjudicatory type hearings such as are conducted by the Nuclear Regulatory Commission's Atomic Safety & Licensing Board as part of the Commission's licensing process. ACRS meetings do not normally treat matters pertaining to environmental impacts outside the radiological safety area.

With respect to public participation in the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda may do so by providing a readily reproducible copy to the Working Group at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily

reproducible copy addressed to Dr. Richard P. Savio, ACRS, NRC, Washington, D.C. 20555. Comments postmarked no later than October 18, 1977 will normally be received in time to be considered at this meeting.

(b) Persons desiring to make an oral statement at the meeting should make a request to do so prior to the beginning of the meeting, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Working Group will receive oral statements on topics relevant to its purview at an appropriate time chosen by the Chairman.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on October 24, 1977 to the Office of the Executive Director of the Committee (telephone 202/634-1394, Attn: Dr. Richard P. Savio) between 8:15 a.m. and 5 p.m. EDT.

(d) Questions may be asked only by members of the Working Group, its consultants, and the Staff.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will be allowed while the meeting is in session at the discretion of the Chairman of a degree that is not disruptive to the meeting. When use of such equipment is permitted, appropriate measures will be taken to protect proprietary or privileged information which may be in documents, folders, etc. being used during the meeting. Recordings will be permitted only during those sessions of the meeting when a transcript is being kept.

(f) A copy of the transcript of the portion(s) of the meeting where factual information is presented and a copy of the minutes of the meeting will be available for inspection on or after November 1, 1977 and January 25, 1978, respectively, at the NRC Public Document Room, 1717 H Street NW., Washington, D.C. 20555. Copies may be obtained upon payment of appropriate charges.

Date October 4, 1977.

JOHN C. HOYLE,
Advisory Committee,
Management Officer.

[7590-01]

[Docket No. 50-313]

ARKANSAS POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 27 to Facility Operating License No. DPR-51, issued to Arkansas Power & Light Company (the li-

censee), which revised Technical Specifications for operation of Arkansas Nuclear One, Unit No. 1 (ANO-1) (the Facility) located in Pope County, Arkansas. The amendment was effective as of August 26, 1977.

The amendment revised the Technical Specifications for the facility to authorize operation with the total hydrogen purge system inoperable for a period up to 30 days. An emergency technical specification change, authorizing the requested change, had been issued by letter dated August 26, 1977 and authorized by telephone call that same day. This action supersedes that change.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice was not required since these actions do not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 26, 1977, (2) change authorization letter dated August 26, 1977, (3) Amendment No. 27 to License No. DPR-51 and (4) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Arkansas Polytechnic College, Russellville, Ark. 72801. A single copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland this 22nd day of September, 1977.

For the Nuclear Regulatory Commission.

DON K. DAVIS,
Acting Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

COMMONWEALTH EDISON CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 29 to Facility Operating License No. DPR-25 issued to Commonwealth Edison Company (the licensee) for operation of Dresden Station Unit No. 3 (the facility) located in Grundy County, Illinois. The amendment is effective as of its date of issuance.

The amendment authorized operation of the reactor beyond the previously analyzed end-of-cycle scram reactivity conditions in accordance with Commonwealth Edison's request dated August 17, 1977.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 17, 1977, (2) Amendment No. 29 to License No. DPR-25 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Morris Public Library, 604 Liberty St., Morris, Ill. 60451. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

[Docket No. 50-265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO.
Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 39 to Facility Operating License No. DPR-30, issued to Commonwealth Edison Company (acting for itself and on behalf of the Iowa-Illinois Gas and Electric Company) (the licensee), for operation of Quad Cities Unit No. 2 (the facility) located in Rock Island County, Illinois. The amendment is effective as of its date of issuance.

The amendment authorized operation of the reactor beyond the previously analyzed end-of-cycle scram reactivity conditions in accordance with Commonwealth Edison's request dated August 17, 1977.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission had made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 17, 1977, (2) Amendment No. 39 to License No. DPR-30, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Moline Public Library, 504 17th Street, Moline, Ill. 60265. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 23rd day of September, 1977.

For the Nuclear Regulatory Commission,

DON K. DAVIS,
Acting Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

NOTICES

[7590-01]

[Docket No. 50-286]

CONSOLIDATED EDISON CO. OF NEW YORK, INC., AND POWER AUTHORITY OF THE STATE OF NEW YORK

Issuance of Amendment to Facility Operating License

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 7 to Facility Operating License No. DPR-64, issued to Consolidated Edison Co. of New York, Inc., and the Power Authority of the State of New York (the licensees), which revised Technical Specifications for operation of the Indian Point Nuclear Generating Unit No. 3 (the facility) located in Buchanan, Westchester County, N.Y. The amendment is effective as of its date of issuance.

This amendment revises the Technical Specifications to clarify the surveillance interval applicable for refueling outage tests and to make surveillance interval requirements for testing of containment isolation valves consistent with Appendix J, 10 CFR Part 50.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment transmitted by letter dated August 15, 1977, (2) Amendment No. 7 to License No. DPR-64, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the White Plains Public Library, 100 Martine Avenue, White Plains, N.Y. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 26th day of September 1977.

For the Nuclear Regulatory Commission,

MORTON B. FAIRFAX,
Acting Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[Docket Nos. STN 50-568, 50-569]

NEW ENGLAND POWER COMPANY, ET AL. (NEP-1 AND NEP-2)

Notice and Order Regarding Second Special Prehearing Conference

SEPTEMBER 28, 1977.

By its Order entered on September 15, 1977, the Licensing Board ruled upon all pending petitions for leave to intervene, and identified 51 admissible issues or contentions which have been pleaded by one or more parties. This proceeding is now ripe for the commencement of discovery in relation to those identified issues, and to that end an appropriate discovery schedule should be developed.

A motion to consolidate was filed on September 20, 1977 by Intervenor New England Council for Economic Development, Blackstone Valley Chamber of Commerce, Greater Providence Chamber of Commerce, and Labor and Management Plan for Economic Development (LAMP) together with those Intervenor already consolidated with LAMP. This motion is in accordance with the desire of the Board to encourage consolidation in order to expedite discovery and the presentation of evidence, and the motion is granted.

Please Take Notice that a Second Special Prehearing Conference pursuant to the provisions of § 2.751a of the Commission's Rules of Practice (10 CFR 2.751a), will be held at 9 a.m. on November 15, 1977 at the Cranston Hilton Inn Ballroom, Route 1-A, Cranston, Rhode Island. All parties and counsel are requested to be prepared to advise the Board regarding their recommendations for a firm discovery schedule related to the issues in this proceeding. All parties are also requested to consider the further consolidation of issues and parties in the interest of orderly and expeditious procedure. Written stipulations to accomplish these ends will be given consideration.

Members of the public are invited to attend this conference. However, the conference will be limited to the purpose specified in this notice. No evidence or testimony will be received, and there will not be an opportunity to present statements by persons who have made applications for permission to make limited appearances. Such applications will be ruled on by the Board at the evidentiary hearing to be held at a later date, notice of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland this 28th day of September 1977.

It is ordered.

The Atomic Safety and Licensing Board,

EMMETH A. LUEBKE,
Member.

OSCAR H. PARIS,
Member.

MARSHALL E. MILLER,
Chairman.

[Docket No. 50-338]

VIRGINIA ELECTRIC AND POWER CO., NORTH ANNA POWER STATION, UNIT NO. 1

Order Extending Construction Completion Date

Virginia Electric & Power Company is the holder of Construction Permits No. CPPR-77 and CPPR-78 issued by the Atomic Energy Commission¹ on February 19, 1971, for the construction of the North Anna Power Station, Units 1 and 2, presently under construction at the Company's site in Louisa County, Virginia. By letter, dated July 28, 1977, the company filed a request for an extension of the latest construction completion date for Unit No. 1 from September 1, 1977 to December 31, 1977, because construction has been delayed due to (1) the completion of hot functional testing which necessitated repairs to the three reactor coolant loop cold leg isolation valves, replacement to the reactor coolant pump motor, completion of repairs to service water reservoir spray headers, addition of residual heat removal and refueling pool purification systems and modifications to the steam generator support heating system, (2) completion of tie-ins for the bearing cooling system modifications were determined to be required prior to fuel loading, (3) structural steel nonconformities were identified in the Unit No. 1 main steam valve house and repairs completed, (4) conduit color separation deficiencies in the reactor containment cubicles were identified and corrective activity is continuing, (5) inspection, evaluation and repair program related to Category I piping systems in connection with an identified hanger base plate flexibility problem, and (6) modification to the main feedwater recirculation piping and reactor containment cubicle structural steel and ventilation seals.

This action involves no significant hazards consideration; good cause has been shown for the delay; and the requested extension is for a reasonable period, the bases for which are set forth in the staff evaluation, dated September 28, 1977.

Copies of the above documents and other related material are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the local public document rooms established for the North Anna facility in the Alderman Library, Manuscripts Department, University of Virginia, Charlottesville, Va. 22901 and County Administrator's Office, Board of Supervisors, Louisa County Courthouse, Louisa, Virginia 23093.

It is hereby ordered, That the latest completion date for CPPR-77 be ex-

¹ Effective January 20, 1975, the Atomic Energy Commission became the Nuclear Regulatory Commission and permits in effect on that day continued under the authority of the Nuclear Regulatory Commission.

NOTICES

tended from September 1, 1977 to December 31, 1977.

[Docket No. 50-282]

NORTHERN STATES POWER CO.

Granting of Relief From ASME Section XI Inservice Inspection (Testing) Requirements

The U.S. Nuclear Regulatory Commission (the Commission) has granted relief from certain requirements of the ASME Code, Section XI, "Rules for Inservice Inspection of Nuclear Power Plant Components" to Northern States Power Company. The relief relates to the inservice inspection (testing) program for the Prairie Island Nuclear Generating Plant Unit No. 1 located in Goodhue County, Minnesota. The ASME Code requirements are incorporated by reference into the Commission's rules and regulations in 10 CFR Part 50. The relief is effective as of its date of issuance.

The relief consists of permitting alternate inservice testing and inspection methods in certain cases where the Section XI inservice inspection requirements have been found to be impractical by the licensee.

The request for relief complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the letter granting relief. Prior public notice of this action was not required since the granting of this relief from ASME Code requirements does not involve a significant hazards consideration.

The Commission has determined that the granting of this relief will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with this action.

For further details with respect to this action, see (1) the request for relief dated March 1, 1977, and the April 7, 1977 supplement, (2) the Commission's letters to the licensee dated April 28, 1976 and July 20, 1977.

These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Environmental Conservation Library, Minneapolis Public Library, 300 Nichollet Mall, Minneapolis, Minnesota 55401. A copy of

item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 16th day of September, 1977.

NUCLEAR REGULATORY COMMISSION ISSUANCES

Availability of Semiannual Hardbound Volume

The Nuclear Regulatory Commission has issued Volume 4 of the Nuclear Regulatory Commission Issuances, covering the period July 1, 1976, to December 31, 1976. This publication is a semiannual compilation of adjudicatory decisions and other issuances of the Commission, the Atomic Safety and Licensing Appeal Boards, and the Atomic Safety and Licensing Boards.

A copy of Volume 4 is available for inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. This publication, designated Nuclear Regulatory Commission Issuances, Volume 4, Opinions and Decisions, July 1, 1976, to December 31, 1976, may also be purchased at a cost of \$8.75 from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The GPO stock number is 052-010-00496-4.

Dated at Bethesda, Md. this 30th day of September 1977.

[Docket Nos. 50-354; 50-355]

PUBLIC SERVICE ELECTRIC AND GAS CO. AND ATLANTIC CITY ELECTRIC CO.; (HOPE CREEK GENERATING STATION, UNITS 1 AND 2)

Order

Joint Intervenor's September 22, 1977, "Motion for Setting Hearing Schedule" is hereby denied. The further evidentiary hearing directed to be held by ALAB-429 will commence on Tuesday, November 1, 1977, at 9:30 a.m., at the Salem County Courthouse (Courtroom No. 3), 92 Market Street, Salem, N.J. The hearing will continue, if necessary, at the Salem County Courthouse through Friday, November 4, 1977.

The parties shall make their submissions as follows:

- (a) October 11, 1977, filing of direct testimony by Applicants and Staff;
- (b) October 25, 1977, filing of direct testimony by Joint Intervenors;
- (c) November 16, 1977, filing by all parties of their proposed findings of fact and conclusions of law;
- (d) November 23, 1977, filing of reply proposed findings and conclusions.

So ordered.

The Atomic Safety and Licensing Board.

Dated at Bethesda, Maryland, this 27th day of September 1977.

[7590-01]

REGULATORY GUIDE Withdrawal

Regulatory Guide 1.66, "Nondestructive Examination of Tubular Products," is being withdrawn. It was issued in October 1973 to supplement the examination specified in Section III of the ASME Code for tubular products intended for use in safety-related systems. Since that time, all important regulatory positions of the guide have been incorporated in the ASME Code, and the guide is no longer needed.

Regulatory guides are developed to describe and make available to the public methods acceptable to the NRC staff for implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems. Guides may be withdrawn when they are superseded by the Commission's regulations, when equivalent recommendations have been incorporated in applicable and approved codes and standards, or when changing methods and techniques have made them obsolete.

(5 U.S.C. 552(a).)

Dated at Rockville, Maryland, this 26th day of September 1977.

SHIRLEY BASIN URANIUM MILL, UTAH INTERNATIONAL, INC. (LUCKY MC URANIUM CORP.)

[Docket No. 40-6622]

Negative Declaration Regarding Renewal of License No. SUA-442

The Nuclear Regulatory Commission (the Commission) is considering the renewal of Source Material License SUA-442 for the continued operation of the Shirley Basin uranium mill at Shirley Basin, Wyoming.

The Commission's Division of Fuel Cycle and Material Safety has prepared an environmental impact appraisal for the proposed renewal of license SUA-442. On the basis of this appraisal, the Commission has concluded that an environmental impact statement for this renewal action is not warranted because there will be no significant increase of environmental impact attributable to the proposed action other than which has already been predicted and described in the Commission's Final Environmental Impact Statement and the Environmental Impact Appraisal for Utah International, Inc., Uranium Mill published in December 1974 and March 1976, respectively. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C.

Dated at Silver Spring, Maryland, this 29th day of September, 1977.

[Docket No. 50-338]

VIRGINIA ELECTRIC AND POWER CO.

Negative Declaration Supporting Order Relating to the Extension of Dates for Completion of Construction North Anna Power Station Unit No. 1 (CPR-77)

The U.S. Nuclear Regulatory Commission (the Commission) has reviewed the Order relating to the construction permit for the North Anna Power Station, Unit 1 (CPR-77) located in Louisa County, Virginia, issued to Virginia Electric and Power Company. The Order would au-

thorize the extension for four months of the date for completion of construction of Unit No. 1.

The Commission's Division of Site Safety and Environmental Analysis has prepared an environmental impact appraisal for the Order and has concluded that an environmental impact statement for this particular action is not warranted because there will be no environmental impact attributable to the Order other than that which has already been predicted and described in the Commission's Final Environmental Statement for North Anna Power Station, Units Nos. 1, 2, 3 and 4, published in April 1973 and the addendum to the Final Environmental Statement published in November 1976.

The environmental impact appraisal is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Board of Supervisors, Louisa County Courthouse, Louisa, Va. 23093 and Alderman Library, Manuscripts Department, University of Virginia, Charlottesville, Va. 22901. A copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

[4910-58]

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 77-40]

ACCIDENT REPORT; SAFETY RECOMMENDATIONS AND RESPONSES Availability and Receipt

Railroad Accident Report NTSB-RAR-77-6.—The National Transportation Safety Board on September 29 released its narrative report of the head-on collision of two Norfolk & Western Railway Company freight trains last October 19 at New Haven, Ind.

The Safety Board's investigation revealed that each train was traveling at about 10 mph when the westbound freight and eastbound yard train collided on the single track main line. The freight train's front brakeman was killed and four crewmembers were injured when the caboose, coupled immediately behind the locomotive, jackknifed and was crushed between the locomotive and following cars. Estimated damages were \$168,400.

Probable cause of the accident was determined by the Safety Board to be the failure of the westbound train's crewmembers to couple the airbrake hoses

between the fifth and sixth cars from the rear, and to test the brakes as required by company rules and the Federal Power Brake Law of 1958.

As a result of its investigation, the Safety Board on August 19 recommended that Norfolk & Western establish policy and procedures to insure that all trains are operated in compliance with company rules and the Federal power brake regulations (Recommendation R-77-25). (See 42 FR 42935, August 25, 1977.)

Aviation Safety Recommendations A-77-63 through 67.—Board investigation into the crash last April 4 of Southern Airways, Inc., Flight 242, a DC-9-31, at New Hope, Ga., resulted in issuance last week to the Federal Aviation Administration of five new safety recommendations.

Investigation disclosed that Flight 242 had entered a relatively small precipitation area classified by the National Weather Service (NWS) as intense, or level-5; the intense area was part of a considerably larger area of lesser intensities. By the time the flight had left this small intense area, the level had risen to a level-6, the highest level currently used by NWS. The Board believes that had this intense area been identified adequately and in real-time to both the pilot and controller, the flightpath of Flight 242 might have differed from that actually flown.

After penetrating the area of severe thunderstorms, the aircraft crashed as its crew attempted an emergency landing on a highway—70 persons died and 24 persons were injured.

The Safety Board believes that the NWS six-level scale—based on the strength of the received radar signal which has been related to precipitation intensity and thus to thunderstorm intensity—should be adopted and promoted as a standard of description of thunderstorm intensity. This would be of use with severe weather forecasts, ground observations, and pilot reports and would provide pilots with a clearer picture of potential and actual thunderstorm activity. Pilots could also benefit by the use of this standard if used as a reference for the capability of their present-day airborne radar.

To encourage FAA's early implementation of the results of various severe weather-related research projects and to foster the more timely transmission of vital weather information to the cockpit, the Safety Board on September 27 recommended that FAA—

Expedite the development and implementation of an aviation weather subsystem for both en route and terminal area environments, which is capable of providing a real-time display of either precipitation or turbulence, or both and which includes a multiple-intensity classification scheme; transmit this information to pilots either via the controller as a safety advisory or via an electronic data link. (A-77-63)

Establish a standard scale of thunderstorm intensity based on the NWS' six-level scale and promote its widespread use as a common language to describe thunderstorm precipitation intensity; also, indoctrinate pilots and air traffic control personnel in the use of this system. (A-77-64)

Investigation of the Southern Airways accident also disclosed two problems involving the dissemination and use of meteorological information which the Safety Board believes warrant corrective action.

One primary method of alerting pilots to potential severe weather is by issuance of SIGMET's (Significant Meteorological Information), now transmitted over navigation aid (NAVAID) radio frequencies upon receipt and at 15-minute intervals for the first hour and at 30-minute intervals for the remainder of the effective period of the advisory. Air traffic controllers notify pilots of SIGMET's. NAVAID transmissions are live broadcasts, occasionally interrupted, delayed, or missed if other work required of the flight service specialists takes precedence. The time interval between broadcasts is such that, at jet speeds, a flight may cross a SIGMET area between transmissions and miss the opportunity of being advised of severe weather within the area.

In view of the severity of the weather phenomena described in SIGMET's and the shortcomings of current procedures for relaying them to pilots, the Safety Board believes that each SIGMET should be transmitted more often in order to make the advisory immediately available to the pilot. One method might involve the repetitive transmission of a recorded SIGMET at more frequent intervals than are currently prescribed.

The Severe Thunderstorm Watch Bulletin or Tornado Watch Bulletin (WW), issued by the Severe Local Storms Unit of the National Severe Storms Forecast Center, delineates area of potentially severe weather. These watches are transmitted on teletype by FAA through the Weather Message Switching Center. Testimony at the Safety Board hearing indicates that WW's are not made automatically available on circuits used by air traffic control facilities, because they are transmitted for the entire Nation simultaneously and cost of communications time for receipt of WW's and man-hours to sort them was judged prohibitive.

The Safety Board believes that information in the WW's is vital to aviation safety and should be made available to controllers and relayed to flightcrews. The Board also believes that improved availability could be achieved by coding the watch bulletins based on geographic applicability; watch bulletins transmitted to any one air traffic control facility would apply to that facility's area of responsibility.

Accordingly, the Safety Board on September 28 recommended that FAA—

Transmit SIGMET's more frequently on NAVAID's so that pilots can receive more timely information about hazardous weather. (A-77-65)

Code, according to geographic applicability, Severe Thunderstorm Watch Bulletins and Tornado Watch Bulletins issued by the National Severe Storms Forecast Center so that they may be transmitted to appropriate air traffic control facilities by the FAA Weather Message Switching Center; thus, air traffic control facilities can relay the earliest

warning of severe weather to flightcrews. (A-77-66)

Further in connection with the Southern Airways accident, investigation indicated that following failure of both engines and as the flight descended through 7,000 feet, the crew requested "a vector to the nearest place." The Atlanta Approach Controller told the flight to turn right, issued a vector for Dobbins Air Force Base, and advised the flight that it was 20 miles west of Dobbins. Before this turn instruction was issued, the aircraft was 6 miles from Cornelius Moore Airport and headed in that direction. The airport has a published instrument approach procedure. Investigation revealed that the airport was not included on the video map of the radar display and that the Atlanta Approach Controller and his Handoff Controller did not know that the Cornelius Moore Airport existed.

The Board recognizes that although Cornelius Moore Airport may not have been suitable for a DC-9 type aircraft in this situation, had that airport been depicted on the radar display of Atlanta Approach Control, the Board believes that it would have been available for immediate consideration by the controllers. Also, in an emergency situation involving a smaller aircraft, the depiction of similar adjacent airports would provide controllers greater latitude in assessing their options and facilitate coordination with adjacent facilities.

Since a portion of adjacent airspace is normally displayed on a facility's radar scope, the Board believes that the video mapping for this adjacent airspace should then contain the same airport information as the adjacent facility, thus increasing the air traffic controller's capability to assist aircraft during emergencies. Specifically, those airports outside a facility's boundary, but within the area in which handoffs normally are accomplished, should be included on the video display.

In view of the above, the Safety Board also on September 28 recommended that FAA—

Require that each air traffic control facility depict on the map portion of its radar displays, those airports immediately outside of that facility's jurisdiction to the extent that adjacent facilities depict those airports on their displays. (A-77-67)

Each of the above five safety recommendations resulting from the Southern Airways accident investigation is designated "Class II, Priority Followup."

Pipeline Safety Recommendations P-77-24 through 26.—Three recommendations, resulting from the Safety Board's investigation of the May 25, 1977, natural gas explosion in Greenwich, Conn., were issued by the Board on September 27.

The explosion and fire destroyed three buildings and heavily damaged another building. Ten persons required medical treatment for injuries caused by the accident. Before the accident, a Connecticut Natural Gas Corporation crew had installed a 3-inch insulating tapping sleeve, but the crew was not aware that the 3-

V

9
4

O
C
T

6

7
7
U
M
I

inch pipe they exposed was not the gas main itself but actually was a sleeve containing a 2-inch gas main. When the crew cut through the 3-inch sleeve with a drilling machine, the 2-inch carrier pipe was also cut. This allowed natural gas at 30-psig to fill the annular space between the 3-inch sleeve and the 2-inch pipe and to escape from the unsealed ends of the sleeve, 11 feet away. The gas migrated through the soil and cracks in the stone foundation of the building, 5½ feet from the severed gas main. The gas was ignited by an unknown source.

The Safety Board notes that the gas company is aware of its incomplete records and has begun a 3-year program to verify and update those records. However, because of the potential for another accident of this type, the Board believes that a 3-year program is too long for a record update. Accordingly, on September 27, the Board recommended that the Connecticut Natural Gas Corporation—

Expedite the updating of its gas piping records as soon as possible to eliminate uncertainties on future system maintenance work. (P-77-24)

Instruct its crews to ascertain positively by all possible means the type and size of existing gas line facilities before working on them. (P-77-26)

In a separate letter, also issued September 27, the Safety Board recommended that the American Gas Association—

Advise its member companies of the circumstances of this accident and urge them to keep accurate records of facilities and to instruct maintenance crews in the importance of verifying these facilities before working on them. (P-77-26)

Each of the above recommendations is designated "Class II, Priority Followup."

Response from the United States Coast Guard to Marine Safety Recommendation M-76-14.—Letter of September 20 is in answer to one of nine recommendations issued by the Safety Board following investigation of the sinking of the SS SILVER DOVE on April 2, 1973, in the Pacific Ocean. (See 41 FR 53874, December 9, 1976.)

The recommendation asked Coast Guard to develop, with assistance of the Portland Cement Association, guidelines for the use of cement for making watertight temporary repairs aboard ship and inspection of such repairs, and to issue such guidelines in a Navigation and Vessel Inspection Circular.

Coast Guard reports that field testing programs, to evaluate the effectiveness of various types of compounds for making temporary repairs to unmanned barges operating on inland waters, have been implemented by the Commander, Second Coast Guard District, and the Commander, Eighth Coast Guard District. The programs will be in effect for approximately one year. Coast Guard will further respond to recommendation M-76-14 after evaluating results of the field testing programs which are outlined in two attachments to Coast Guard's letter; these attachments are titled CCGD2 In-

struction 16711.1 of August 18, 1977, and CCGD8 Instruction 16711.1 of August 5, 1977.

Response from Alyeska Pipeline Service Company to Pipeline Safety Recommendations P-77-21 through 23.—Letter dated September 16 reports on action to implement the recommendations issued by the Safety Board on September 9 during investigation into the explosion and fire which occurred July 8, 1977, at Alyeska's Pump Station No. 8 on the Trans-Alaska pipeline. (See 42 FR 46425, September 15, 1977.)

In answer to P-77-21, which recommended installation of a control in the pump room to shut down the pumps from that location, Alyeska reports installation in early July of a study of possible changes in pump control locations and plans to install an "emergency stop" button positioned locally for each pump. These control buttons will actually be an extension of the button in the control room and will initiate the same logic so that a safe shutdown of each pump can be accomplished. Alyeska's study further includes all booster pumps and the Pump Station 5 injection pumps, as well as the mainline pumps recommended by the Safety Board. Alyeska has started installing additional wiring and controls and expects to have the mainline pump controls completed by mid-October; the remainder will be completed sequentially.

Recommendation P-77-22 asked Alyeska to install a control in the pump room to operate the pump valves from that location at any time. Alyeska considers that the intent of the recommendation has been met by "a logic change that now has the mainline pump suction and discharge valves normally closed when the pump is shutdown and not running." According to Alyeska, this change, in conjunction with changes for local control of pump shutdown, now provides local closing of these valves via the pump shutdown and precludes the possibility of action from a remote location causing either valve to reopen if the pump is not running. "The operator would now have to put the control in 'local' and then go to the valve location and manually hold-in the 'open' button to open the valve; the 'close' button is on the same control box to enable immediate response in the event of inadvertent or accidental opening," Alyeska stated.

With reference to P-77-23, which asked Alyeska to install a closed circuit-type video camera in the pump room and turbine room to allow the pump station control center to monitor visually all activities at these locations, Alyeska reports that design work is essentially complete and they plan to install the first camera by mid-October. The video system will consist of two cameras covering opposite ends of the pump room; one camera will have remote control for "pan, tilt and zoom." A third camera will cover the pump room sump, and cameras four and five will cover the manifold building. Stations with scraper

trap or launcher will have an additional camera, and a similar provision will be made for stations have topping units. Alyeska states that the control room will have two monitor screens, one on steady for any selected camera and the other will rotate through all cameras.

Note.—The above notice consists of summaries of Safety Board documents made available, and recommendation responses received, during the week preceding publication of the notice in the *Federal Register*. The accident report and the safety recommendation letters in their entirety are available to the general public; single copies are obtainable without charge while limited supplies last. Copies of the full text of the response letters may be obtained at a cost of \$4.00 for service and 10c per page for reproduction. All requests must be in writing, identified by recommendation number and date of publication of this notice. Address inquiries to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident report may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

OFFICE OF MANAGEMENT AND BUDGET

COST OF HOSPITAL AND MEDICAL CARE AND TREATMENT FURNISHED BY THE UNITED STATES

Certain Rates Regarding Recovery From Tortiously Liable Third Persons

By virtue of the authority vested in the President by Section 2(a) of the Act of September 25, 1962, (76 Stat. 593; 42 U.S.C. 2652), and delegated to the Director of the Office of Management and Budget by Executive Order No. 11541 of July 1, 1970, (35 FR 10737), the following three sets of rates are established for use in connection with the recovery, as authorized by such Act, from tortiously liable third persons of the cost of hospital and medical care and treatment furnished by the United States (Part 43 of Chapter I of Title 28 of the Code of Federal Regulations) through three separate Federal agencies. These rates have been determined to represent the reasonable cost of hospital, nursing home, medical, surgical or dental care and treatment (including prostheses and medical appliances) furnished or to be furnished:

(a) For such care and treatment furnished by the United States in Federal hospitals, nursing homes, administered by any of the three Federal agencies—Department of Defense, Veterans Administration, or Department of Health, Education, and Welfare—with the exception of Canal Zone Government hospitals.

Effective Oct. 1, 1977
and thereafter

DOD VA HEW

Hospital care per inpatient day:			
General medical, surgical, and tuberculosis care	\$206	\$188	\$142
Psychiatric care		84	
Nursing home care		60	
Outpatient medical and dental treatment: Per outpatient visit	30	41	29

(b) For such care and treatment furnished at Government expense in a facility not operated by the United States, the rates shall be the amounts expended by the United States for such care and treatment.

(c) For such care and treatment at Canal Zone Government hospitals, the rates shall be those established, and in effect at the time the care and treatment is furnished, by the Canal Zone Government for such care and treatment furnished to beneficiaries of other United States Government agencies.

For the period beginning October 1, 1977, the rates prescribed herein supersede those established by the Director of the Office of Management and Budget on June 29, 1976, (41 FR 18802).

Dated: September 28, 1977.

JAMES T. MCINTYRE, Jr.,
Acting Director, Office
of Management and Budget.

DEPARTMENT OF STATE SHIPPING COORDINATING COMMITTEE Meeting

The working group on ship design and equipment of the Subcommittee on Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 8 a.m. on Wednesday, November 16, 1977, in Rooms 8236 and 8238 of the Department of Transportation, 400 Seventh Street SW., Washington, D.C.

The purpose of the meeting is to prepare for the intersessional meetings of the Intergovernmental Maritime Consultative Organization (IMCO) Ad Hoc Group on Mobile Offshore Drilling Units and the IMCO Ad Hoc Group on Machinery and Electrical Installations regarding the development of a Code for the Construction and Equipment of Mobile Offshore Drilling Units. The intersessional meetings will be held in London during the week of November 28 and December 2, 1977. The work of the Code will include consideration of a draft Assembly Resolution, Preamble, General Provisions, Fire Protection, Lifting Devices, Helicopter Facilities, and Electrical Installations, and the Form of Certificate. The meeting will also include the consideration of requirements for Offshore Supply Vessels for preparation of a paper for the 18th Session of the IMCO Subcommittee on Ship Design and Equipment.

Requests for further information on the meeting should be directed to CAPT J. W. Kime, United States Coast Guard. He may be reached by telephone on (area code 202) 426-2167.

The Chairman will entertain comments from the public as time permits.

RICHARD K. BANK,
Chairman,

Shipping Coordinating Committee.

SEPTEMBER 26, 1977.

[FR Doc.77-29319 Filed 10-5-77; 8:45 am]

[4710-01]

SHIPPING COORDINATING COMMITTEE (CM-7/115) Meeting

The Ad-hoc Working Group on Nuclear Ships of the Working Group on Design and Equipment, part of the Subcommittee on Safety of Life at Sea of the Shipping Coordinating Committee, will conduct open meetings on Wednesday and Thursday, October 26 and 27, 1977 at 9:30 a.m. Both meetings will be held in room 8236 of the Department of Transportation, 400 Seventh Street SW., Washington, D.C.

The purpose of the meetings is to discuss Chapters 3, 4, and 6 of the proposed Code of Safety for Nuclear Merchant Ships of the Intergovernmental Maritime Consultative Organization (IMCO) with regard to comments received from participating governments.

Requests for further information on the meetings should be directed to CDR John Deck III, United States Coast Guard. He may be reached by telephone on (area code 202) 426-2197.

The Chairman will entertain comments from the public as time permits.

RICHARD K. BANK,
Chairman,

Shipping Coordinating Committee.

DEPARTMENT OF TRANSPORTATION

Coast Guard

(CGD 77-177)

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting, and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during

the period from June 30, 1977, to July 20, 1977 (List No. 14-77). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46 (b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

GAS MASKS, SELF-CONTAINED BREATHING APPARATUS, AND SUPPLIED-AIR RESPIRATORS FOR MERCHANT VESSELS

Approval No. 160.011/31/0, M-S-A chemox one-half hour self-contained oxygen-generating breathing apparatus, with or without quick start cartridge, Bureau of Mines Approval No. 13D-13, dwg. No. A-84600, Rev. 11, dated January 26, 1965, manufactured by Mine Safety Appliances Co., 201 North Braddock Avenue, Pittsburgh, Pa. 15208, effective July 19, 1977. (It is an extension of Approval No. 160.011/31/0, dated May 2, 1972.)

Approval No. 160.011/33/0, M-S-A chemox one-hour self-contained oxygen-generating breathing apparatus, Bureau of Mines Approval No. 1307, dwg. No. A87500, Rev. 8, dated August 3, 1966, manufactured by Mine Safety Appliances Co., 201 North Braddock Avenue, Pittsburgh, Pa. 15208, effective July 19, 1977. (It is an extension of Approval No. 160.011/33/0, dated May 2, 1972.)

LIFEBOAT WINCHES FOR MERCHANT VESSELS

Approval No. 160.015/118/0, Type 55G-MK IV lifeboat winch; limited to mechanical components only and for a maximum working load of 11,000 lbs. pull at the drums (5,500 lbs. per fall); identified by general arrangement drawing WI-F-025, dated February 23, 1977, and drawing list, dated February 23, 1977, trackway-mounted winch, manufactured by Marine Safety Equipment Corp., foot of Wyckoff Road, Farmingdale, N.J. 07727, effective June 30, 1977.

LADDERS, EMBARKATION-DEBARKATION (FLEXIBLE), FOR MERCHANT VESSELS

Approval No. 160.017/47/0, Type I, embarkation-debarkation ladder, rope suspension, wooden ears and rungs, identified by dwg. No. 160.017-1(b) of U.S.C.G. Specification 160.017, manufactured by A. L. Don Co., foot of Dock Street, Matawan, N.J. 07747, effective July 19, 1977. (It is a nextension of Approval No. 160.017/47/0, dated September 29, 1972.)

LIFE FLOATS FOR MERCHANT VESSELS

Approval No. 160.027/73/0, 6.16' x 3.66' (6" x 9" body section) peripheral-body type life float fibrous glass reinforced plastic (FRP) shell with unicellular polyurethane core, 12-person capacity, identified by dwg. No. 9012/5/72, dated May 25, 1972, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective July 19, 1977. (It is an extension of Approval No. 160.027/73/0, dated September 29, 1972.)

Approval No. 160.027/74/0, 4.16' x 3.0' (8" x 8" body section) peripheral-body type life float, fibrous glass reinforced plastic (FRP) shell with unicellular polyurethane core, 6-person capacity, identified by dwg. No. 9006/5/72, dated May 25, 1972, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective July 19, 1977. (It is an extension of Approval No. 160.027/74/0, dated September 27, 1972.)

DAVITS FOR MERCHANT VESSELS

Approval No. 160.032/210/0. Type GPD-80 gravity pivot davit; approved for a maximum working load of 16,000 lbs. per set (8,000 lbs. per arm) using 2-part falls; identified by general arrangement drawing D1-F-309, revision B, dated January 12, 1977, and drawing list, Revision A, dated June 15, 1977, manufactured by Marine Safety Equipment Corp., foot of Wyckoff Road, Farmingdale, N.J. 07727, effective June 30, 1977. (It supersedes Approval No. 160.032/210/0, dated February 10, 1977, to show minor revisions.)

BUOYS, LIFE, RING, UNICELLULAR PLASTIC

Approval No. 160.050/100/0, 24-inch, Model No. A-24, coated unicellular plastic foam ring life buoy, manufactured in accordance with U.S.C.G. Specification Subpart 160.050 and Approval No. 160.050/89/ revision number in effect on date of manufacture, Type IV PFD, manufactured by the Massalite Co., Box 214, Winnetka, Ill. 60093, for Billy Pugh Co., Inc., P.O. Box 802, Corpus Christi, Tex. 78403, effective July 1, 1977.

Approval No. 160.050/101/0, 30-inch, Model No. A-30, coated unicellular plastic foam ring life buoy, manufactured in accordance with U.S.C.G. Specification Subpart 160.050 and Approval No. 160.050/89/revision number in effect on date of manufacture, Type IV PFD, manufactured by the Massalite Co., Box 214, Winnetka, Ill. 60093, for Billy Pugh Co., Inc., P.O. Box 802, Corpus Christi, Tex. 78403, effective July 1, 1977.

MARINE BUOYANT DEVICE

Approval No. 160.064/1165/0, adult small, Model No. BV-Y, cloth covered unicellular plastic foam "Boating Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 7, Type III PFD, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective July 19, 1977.

Approval No. 160.064/1166/0, adult small, Model No. BV-S, cloth covered unicellular plastic foam "Boating Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 7, Type III PFD, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective July 19, 1977.

Approval No. 160.064/1167/0, adult medium, Model BV-M, cloth covered unicellular plastic foam "Boating Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 7, Type III PFD, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective July 19, 1977.

Approval No. 160.064/1168/0, adult large, Model No. BV-L, cloth covered unicellular plastic foam "Boating Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 7, Type III PFD, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective July 19, 1977.

Approval No. 160.064/1280/0, child large, Model No. 750, cloth covered unicellular plastic foam "Boating Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 266, Type III PFD, manufactured by Swan Products Co., Inc., 25 Brighton Avenue, Passaic, N.J. 07055, effective July 1, 1977.

Approval No. 160.064/1281/0, child medium, Model No. 750, cloth covered unicellular plastic foam "Boating Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 266, Type III PFD, manufactured by Swan Products Co., Inc., 25 Brighton Avenue, Passaic, N.J. 07055, effective July 1, 1977.

Approval No. 160.064/1282/0, child small, Model No. 750, cloth covered unicellular plastic foam "Boating Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 266, Type III PFD, manufactured by Swan Products Co., Inc., 25 Brighton Avenue, Passaic, N.J. 07055, effective July 1, 1977.

Approval No. 160.064/1299/0, adult X-large, Model No. BV-XL, cloth covered unicellular plastic foam "Boating Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 7, Type III PFD, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, N.Y. 11201, effective July 19, 1977.

Approval No. 160.064/1300/0, adult small, Model Nos. 5113, 5123, or 5133, cloth covered unicellular plastic foam "Marine Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 289, Type III PFD with additional inflatable Type II characteristics, manufactured by Soniform, Inc., 8400 Alvarado Road, La Mesa, Calif. 92041, effective July 1, 1977.

Approval No. 160.064/1301/0, adult medium, Model Nos. 5114, 5124, or 5134, cloth covered unicellular plastic foam "Marine Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 289, Type III PFD with additional inflatable Type II characteristics, manufactured by Soniform, Inc., 8400 Alvarado Road, La Mesa, Calif. 92041, effective July 1, 1977.

Approval No. 160.064/1302/0, adult large, Model Nos. 5116, 5126, or 5136, cloth covered unicellular plastic foam "Marine Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 289, Type III PFD with additional inflatable Type II characteristics, manufactured by Soniform, Inc., 8400 Alvarado Road, La Mesa, Calif. 92041, effective July 1, 1977.

Approval No. 160.064/1303/0, adult medium, Model Nos. 5214, 5224, or 5234, cloth covered unicellular plastic foam "Marine Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 289, Type III PFD with additional inflatable Type II characteristics, manufactured by Soniform, Inc., 8400 Alvarado Road, La Mesa, Calif. 92041, effective July 1, 1977.

Approval No. 160.064/1304/0, adult large, Model Nos. 5216, 5226, or 5236, cloth covered unicellular plastic foam "Marine Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 289, Type III PFD with additional inflatable Type II characteristics, manufactured by Soniform, Inc., 8400 Alvarado Road, La Mesa, Calif. 92041, effective July 1, 1977.

Approval No. 160.064/1305/0, youth, Model Nos. 5213, 5223, or 5233, cloth covered unicellular plastic foam "Marine Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 289, Type III PFD with additional inflatable bladder, manufactured by Soniform, Inc., 8400 Alvarado Road, La Mesa, Calif. 92041, effective July 1, 1977.

Approval No. 160.064/1308/0, adult small, Model No. 1661, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1309/0, adult medium, Model No. 1661, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1310/0, adult large, Model No. 1661, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1311/0, adult X-large, Model No. 1661, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1312/0, adult medium, Model No. 1662, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1313/0, adult large, Model No. 1662, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1314/0, adult small, Model No. 101, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1315/0, adult medium, Model No. 101, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1316/0, adult large, Model No. 101, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1317/0, adult X-large, Model No. 101, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1318/0, adult medium, Model No. 202, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

Approval No. 160.064/1319/0, adult large, Model No. 202, cloth covered unicellular plastic foam "Float Coat," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 269, Type III PFD, manufactured by Mustang Sportswear, Ltd., 540 Beatty Street, Vancouver, B.C. V6B2L3, effective July 20, 1977.

RELIEF VALVES (HOT WATER HEATING BOILERS)

Approval No. 162.013/13/1, Type No. 2240, multiple relief valve assembly for hot water heating boilers, two (2) No. 240-1 inch-30 relief valves mounted on common base, maximum set pressure 30 p.s.i., combined relieving capacity of 1,820,000 BTU/Hr., base inlet size 2" nominal pipe diameter, relief valves were formerly 230-30, manufactured by McDonnell & Miller, Inc., 3500 North Spaulding Avenue, Chicago, Ill. 60618, effective July 20, 1977. (It is an extension of Approval No. 162.013/13/1, dated August 14, 1972, and minor changes.)

Approval No. 162.013/14/1, Type No. 3240, multiple relief valve assembly for hot water heating boilers, three (3) No. 240-1 inch-30 relief valves mounted on common base, maximum set pressure 30 p.s.i., combined relieving capacity 2,730,000 BTU/Hr., base inlet size 2" nominal pipe diameter, relief valves were formerly 230-30, manufactured by McDonnell & Miller, Inc., 3500 North Spaulding Avenue, Chicago, Ill. 60618, effective July 20, 1977. (It is an extension of Approval No. 162.013/14/1, dated August 14, 1972, and minor changes.)

PRESSURE VACUUM RELIEF VALVES FOR TANK VESSELS

Approval No. 162.017/118/1, Waukesha Bearings Type HS-M venting valve with cast iron or bronze valve body and flame screen body as indicated for groups A, B, and C on dwg. C-991-308, Rev. C pressure setting from 1 to 3 p.s.i.g. and vacuum settings from 0.5 to 1 p.s.i.g. vacuum are acceptable, sizes, 4", 6", 8", and 10", flame screen body and valve body must be bolted together, use of a spool piece or other separation is not permitted, manufactured by Waukesha Bearings Corp., P.O. Box 798, Waukesha, Wis. 53166, effective July 20, 1977. (It supersedes Approval No. 162.017/118/0, dated December 17, 1976, to show addition of new materials of construction.)

Dated: September 28, 1977.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard
Chief, Office of Merchant Marine Safety.

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and mis-

cellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the Outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from July 20, 1977 to August 2, 1977 (List No. 15-77). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

SEA ANCHORS, LIFEBOAT

Approval No. 160.019/11/0, Type JF lifeboat sea anchor, U.S.C.G. dwg. No. MMI-562 and specification dated November 1, 1943, revised August 24, 1944, manufactured by Samuel Fassman Co., 2776 Atlantic Avenue, Brooklyn, N.Y. 11207, effective July 27, 1977. (It is an extension of Approval No. 160.019/11/0 dated June 5, 1972.)

DAVITS FOR MERCHANT VESSELS

Approval No. 160.032/202/0, Type 26-16 gravity davit, approved for a working load of 16,000 lbs. per set (8,000 lbs. per arm) using 2-part falls; identified by general arrangement drawing D1-E-292, revision A dated May 25, 1977, and drawing list dated July 5, 1977, manufactured by Marine Safety Equipment Corp., foot of Wyckoff Road, Farmingdale, N.J. 07727, effective August 1, 1977.

MECHANICAL DISENGAGING APPARATUS, LIFEBOAT, FOR MERCHANT VESSELS

Approval No. 160.033/64/0, Rottmer type releasing gear, approved for maximum working load of 25,100 pounds per hook, identified by disengaging apparatus drawing No. 502-111, Revision B, dated March 3, 1977, and disengaging apparatus master drawing list CA5000-111, Revision B, dated April 22, 1977, manufactured by Whittaker Corp., Survival Systems Division, 5159 Baltimore Drive, La Mesa, Calif. 92041, effective August 1, 1977. (It supersedes Approval No. 160.033/64/0 dated January 12, 1977, revised to show new drawing list incorporating minor changes.)

Approval No. 160.033/65/1, Rottmer type releasing gear, approved for maxi-

mum working load of 7,860 pounds per hook, apparatus is Welin Size 299 releasing gear, approval No. 160.033/28/7, modified in accordance with Viking Marine Co., Ltd., drawing 8EL-135 dated September 17, 1976, 8EL-136 dated September 16, 1976, and 8EL-137 dated September 16, 1976, alternate hook; Lane drawing R-146, size 0-1-C2 release gear, Approval No. 160.033/51/0, satisfactory for use with Watercraft "MRD" type cradle davit system, as well as vertical lifting davit systems, manufactured by Watercraft America, Inc., P.O. Box 307, Mims, Fla. 32754, effective August 1, 1977. (It supersedes Approval No. 160-033/65/0 dated November 22, 1976 to show alternate hook.)

MARINE BUOYANT DEVICE

Approval No. 160.064/1240/0, child medium, Model No. 1001, vinyl dipped unicellular plastic foam "Sailing & Water Ski Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160-064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective July 27, 1977.

Approval No. 160.064/1241/0, adult universal (woman's), Model No. 1002, vinyl dipped unicellular plastic foam "Sailing & Water Ski Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160-064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective July 27, 1977.

Approval No. 160.064/1242/0, adult small, Model No. 1003, vinyl dipped unicellular plastic foam "Sailing & Water Ski Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160-064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective July 27, 1977.

Approval No. 160.064/1243/0, adult medium, Model No. 1004, vinyl dipped unicellular plastic foam "Sailing & Water Ski Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160-064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective July 27, 1977.

Approval No. 160.064/1244/0, adult large, Model No. 1005, vinyl dipped unicellular plastic foam "Sailing & Water Ski Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160-064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective July 27, 1977.

Approval No. 160.064/1245/0, adult X-large, Model No. 1006, vinyl dipped unicellular plastic foam "Sailing & Water Ski Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160-064 and UL/MD report file No. MQ 278,

Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective July 27, 1977.

Approval No. 160.064/1347/0, adult X-small, Model No. 101, vinyl dipped unicellular plastic foam "General Purpose Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective August 2, 1977.

Approval No. 160.064/1348/0, adult small, Model No. 102, vinyl dipped unicellular plastic foam "General Purpose Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective August 2, 1977.

Approval No. 160.064/1349/0, adult medium, Model No. 103, vinyl dipped unicellular plastic foam "General Purpose Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective August 2, 1977.

Approval No. 160.064/1350/0, adult large, Model No. 104, vinyl dipped unicellular plastic foam "General Purpose Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective August 2, 1977.

Approval No. 160.064/1351/0, adult X-large, Model No. 105, vinyl dipped unicellular plastic foam "General Purpose Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective August 2, 1977.

Approval No. 160.064/1352/0, adult XX-large, Model No. 106, vinyl dipped unicellular plastic foam "General Purpose Buoyant Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 278, Type III PFD, manufactured by H. H. Bremen Manufacturing Co., Inc., 405 N. Industrial Drive, Bremen, Ind. 46506, effective August 2, 1977.

CLASS A EPIRB

Approval No. 161.011/6/0, Model DB-2051, Class A, float free, Emergency Position Indicating Radio Beacon, FCC Type Acceptance issued on July 16, 1975, under 46 CFR 83, Jotron U.S. Agent: The Jover Corp., P.O. Box 386, Park Ridge, N.J. 07656, manufactured by A/S Jotron Elektronikk, 7600 Levanger, Norway, effective July 27, 1977. (It supersedes Approval No. 161.011/6/0 dated July 23, 1975.)

FLAME ARRESTERS FOR TANK VESSELS

Approval No. 162.016/8/0, Figure No. 50, Varec flame arrester, aluminum body, aluminum multiple plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes No. 162.016/8/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/9/0, Figure No. 50A, Varec flame arrester, aluminum body, aluminum plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162-016/9/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/10/0, Figure No. 50ACU, Varec flame arrester, grey iron ASTM 126-73 body, copper multiple plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162.016/10/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/11/0, Figure No. 50ABCU, Varec flame arrester, grey iron ASTM 126-73 body, copper multiple plate bank, vertical type, female pipe thread connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162.016/11/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/12/0, Figure No. 50ACCU, Varec flame arrester, grey iron ASTM 126-73 body, copper multiple plate bank, vertical type, flanged and screwed connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boule-

vard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162.016/12/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/13/0, Figure No. 50AN, Varec flame arrester, grey iron ASTM 126-73 and aluminum body, aluminum multiple plate bank, vertical type, square flange connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162.016/13/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/14/0, Figure No. 50B, Varec flame arrester, aluminum body, aluminum multiple plate bank, vertical type, female threaded connections, fitted with extensible banks and removable cover plates, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162.016/14/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/15/0, Figure No. 50C, Varec flame arrester, aluminum body, aluminum multiple plate bank, vertical type, flanged and screwed connections, fitted with extensible banks and removable cover plate, approved for use with 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Company, 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162-016/15/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/16/0, Figure No. 50CU, Varec flame arrester, grey iron ASTM 126-73 body, copper multiple plate bank, vertical type, flanged connections fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Company, 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162-016/16/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/17/0, Figure No. 50S, Varec flame arrester, grey iron ASTM 126-73 body, aluminum multiple

plate bank, vertical type, flanged connection, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162.016/17/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/18/0, Figure No. 50SA, Varec flame arrester, grey iron ASTM 126-73 body, small aluminum multiple plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 20, 1977. (It supersedes Approval No. 162-016/18/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/19/0, Figure No. 50SG, Varec flame arrester, grey iron ASTM 126-73 body, aluminum multiple plate bank, vertical type, flanged connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/19/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/20/0, Figure No. 50SB, Varec flame arrester, grey iron ASTM 126-73 body, aluminum multiple plate bank, vertical type, threaded connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/20/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/21/0, Figure No. 50SC, Varec flame arrester, grey iron ASTM 126-73 body, aluminum multiple plate bank, vertical type, flanged and screwed connections fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Company, 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/21/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

July 26, 1977. (It supersedes Approval No. 162.016/21/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/22/0, Figure No. 53, Varec flame arrester, aluminum body, aluminum multiple plate bank, horizontal type, flanged connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/22/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/23/0, Figure No. 53A, Varec flame arrester, aluminum body, aluminum multiple plate bank, horizontal type, flanged connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Company, 301 E. Alondra Boulevard, Gardena, California 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/23/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/24/0, Figure No. 53B, Varec flame arrester, aluminum body, aluminum multiple plate bank, horizontal type, screwed connections, fitted with extensible banks and removable cover plate, approved for 2½", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Company, 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/24/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/25/0, Figure No. 53C, Varec flame arrester, aluminum body, aluminum multiple plate bank, horizontal type, flanged and screwed connections, fitted with extensible banks and removable cover plate, approved for use with 2½", 3", 4", 6", 8", 10", and 12" pipe sizes for use with inflammable or combustible liquids of Grade A or lower, manufacturer by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/25/0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/26/0, Figure No. 53S, Varec flame arrester, grey iron ASTM 126-73 body, aluminum multiple plate bank, horizontal type, flanged connections, fitted with extensible banks and removable cover plate, approved for

2 1/2", 3", 4", 6", 8", 10", and 12" pipe sizes, for use with inflammable or combustible liquids of Grade A or lower, manufactured by VAREC, Division Emerson Electric Company, 301 E. Alondra Boulevard, Gardena, California 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016.26.0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016.27.0, Figure No. 53SA, VAREC flame arrester, grey iron ASTM 126-73 body, aluminum multiple plate bank, horizontal type, flanged connections, fitted with extensible banks and removable cover plate, approved for 2 1/2", 3", 4", 6", 8", 10", and 12" pipe sizes for use with inflammable or combustible liquids of Grade A or lower, manufactured by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/27.0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/28.0, Figure No. 53SB, VAREC flame arrester, grey iron ASTM 126-73 body, aluminum multiple plate bank, horizontal type, screwed connections, fitted with extensible banks and removable cover plate, approved for 2 1/2", 3", 4", 6", 8", 10", and 12" pipe sizes for use with inflammable or combustible liquids of Grade A or lower, manufactured by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/28.0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

Approval No. 162.016/29.0, Figure No. 53SC, VAREC flame arrester, grey iron ASTM 126-73 body, aluminum multiple plate bank, horizontal type, flanged and screwed connections, fitted with extensible banks and removable cover plate, approved for 2 1/2", 3", 4", 6", 8", 10", and 12" pipe sizes for use with inflammable or combustible liquids of Grade A or lower, manufactured by VAREC, Division Emerson Electric Co., 301 E. Alondra Boulevard, Gardena, Calif. 90247, formerly VAREC, Inc., effective July 26, 1977. (It supersedes Approval No. 162.016/29.0 dated June 6, 1972 to show change of name of manufacturer and revision of identifying data.)

BACKFIRE FLAME CONTROL, GASOLINE ENGINES; FLAME ARRESTERS; FOR MERCHANT VESSELS

Approval No. 162.041/190.4 Barbronn all brass flame arresters, Model No. suffixed by "B" Barbronn all aluminum flame arresters, Model No. suffixed by "AA" Model No. indicates units size: first two digits indicate units diameter (57=5.7"); second two digits indicate element height (15=1.5") last two digits are base code, 571501, 571503, 572004, 571510, 571513, 571517, 572522, 572524, 572001, 572003, 572005, 572010, 572013,

571518, 573022, 573024, 572201, 573003, 572006, 575010, 571113, 572018, 571721, 573010, 572501, 575003, 571507, 572011, 571213, 571519, 571023, 573001, 571004, 572007, 572012, 572014, 571520, 571523, 575001, 571204, 572008, 571112, 572015, 572020, 572023, 572002, 571304, 571509, 571212, 571516, 572520, 571524, 571003, 571504, 572009, 571512, 571317, 572022, 572024, the majority of these models were previously approved units, due to their similarities, these units are grouped together to eliminate the long list of approval numbers which now exist for Barbronn Corp. Note: last two digits of drawing No. indicate particular base, manufactured by Barbronn Corp., 14580 Lesure Avenue, Detroit, Mich. 48227, effective August 1, 1977. (It supersedes Approval No. 162.041.190.4 dated September 2, 1976.)

BULKHEAD PANELS FOR MERCHANT VESSELS

Approval No. 164.008/29/1, "Marinitite-23", inorganic composition board type bulkhead panel, identical to that described in Protexol Testing Laboratory Report No. 193 dated February 24, 1950, approved as meeting Class B-15 requirements in a 3/4" thickness, when veneered with combustible material not meeting the requirements of 46 CFR Subpart 164.012 the restrictions of Subpart 72.05-15 apply, manufactured by Johns-Manville Sales Corp., Denver, Colo. 80217, effective August 2, 1977. (It is an extension of Approval No. 164.008/29/1 dated August 2, 1972.)

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/13/0, "Transite", asbestos cement board type incombustible material identical to that described in National Bureau of Standards Test Report No. TG3610-1495:FP2573 dated November 28, 1947, formerly approved under the name of "J-M TRANSITE", manufactured by Johns-Manville Sales Corp., Denver, Colo. 80217, effective August 2, 1977. (It is an extension of Approval No. 164.009/13/0 dated August 2, 1972.)

Approval No. 164.009/25/0, "J-M Six-Pound Reinforced Asbestos Paper", asbestos paper type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210-1643:FP2833, dated October 13, 1949, approved in a weight of 6 pounds per 100 square feet, manufactured by Johns-Manville Sales Corp., Denver, Colo. 80217, effective August 2, 1977. (It is an extension of Approval No. 164.009/25/0 dated August 2, 1972.)

Approval No. 164.009/26/0, "J-M 32-lb. Commercial Grade Asbestos Paper", asbestos paper type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210-1660:FP2861, dated December 21, 1949, approved in a weight of 32 pounds per one hundred square feet, manufactured by Johns-Manville Sales Corp., Denver, Colo. 80217, effective August 2, 1977. (It is an extension of Approval No. 164.009/26/0 dated August 2, 1972.)

Approval No. 164.009/32/0, "Thermoflex Felt RF 400", mineral wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210-1944:FP3305 dated December 13, 1954, approved in a 4-pound per cubic foot density, manufactured by Johns-Manville Sales Corp., Denver, Colo. 80217, effective August 2, 1977. (It is an extension of Approval No. 164.009/32/0 dated August 2, 1972.)

Approval No. 164.009/72/3, "Incombustible Microlite" fibrous glass insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210-2151:FR3688 dated June 27, 1967 and Johns-Manville letter dated July 20, 1967, approved in densities of 0.6 through 2 pounds per cubic foot, manufactured by Johns-Manville Sales Corp., Denver, Colo. 80217, Plant: Parkersburg, W. Va., effective August 2, 1977. (It is an extension of Approval No. 164.009/72/3 dated August 2, 1972.)

Dated: September 28, 1977.

W. M. BANKERT,
Rear Admiral, U.S. Coast Guard
Chief, Office of Merchant
Marine Safety.

Federal Aviation Administration

AIR TRAFFIC PROCEDURES ADVISORY COMMITTEE

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the Federal Aviation Administration Air Traffic Procedures Advisory Committee to be held October 26 through October 28, 1977, from 9 a.m. e.d.t. to 4 p.m. daily, except for the last day which will terminate at 1 p.m., in conference rooms 7A and B at FAA Headquarters, 800 Independence Ave. SW., Washington, D.C.

The agenda for this meeting is as follows: A continuation of the Committee's review of present air traffic control procedures and practices for standardization, clarification, and upgrading of terminology and procedures.

Attendance is open to the interested public but limited to the space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from Mr. Franklin L. Cunningham, Executive Director, Air Traffic Procedures Advisory Committee, Air Traffic Service, AAT-300, 800 Independence Ave. SW., Washington, D.C. 20591, telephone 202-426-3725.

Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C., on September 27, 1977.

F. L. CUNNINGHAM,
Executive Director, ATPAC.

[4910-13]

DEVELOPMENT OF AN AUTOMATED LOW-COST WEATHER OBSERVATION SYSTEM (ALWOS)

Meeting

Notice is hereby given that on October 13, 1977, at 10:00 a.m., an informal public meeting will be held in Room 6 A&B, FAA Headquarters Building (FOB-10A), 800 Independence Avenue SW., Washington, D.C. The purpose of this meeting is to obtain information and suggestions from the public concerning the development of ALWOS.

Interested persons are invited to attend and make individual presentations. Interested persons are also invited to submit written statements to FAA, Systems Research and Development Service, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590. Further information can be obtained from Glenn Glassburn or Eric Mandel at 202-426-8427.

Issued in Washington, D.C., on September 29, 1977.

ROBERT W. WEDAN,
Acting Director, Systems Research and Development Service, ARD-1.

RADIO TECHNICAL COMMISSION FOR AERONAUTICS (RTCA)

Executive Committee Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the RTCA Executive Committee to be held October 28, 1977, RTCA Conference Room 261, 1717 H Street NW., Washington, D.C. commencing at 9:30 a.m.

The agenda for this meeting is as follows: (1) Approval of Minutes of September 16, 1977 Meeting; (2) Special Activities Report for September 1977; (3) Chairman's Report of RTCA Administration and Activities; (4) Consideration of MPS/MOC Informal Review Group Report; (5) Consideration of Establishing New Special Committees; (6) Report on International Standards Organization TC-20/SC-5 Activities and (7) Discuss Agenda Items for November 16, 1977 Executive Committee Meeting with International Associates.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the hearing. Persons wishing to attend and persons wishing to present oral statements should notify,

not later than the day before the meeting, and information may be obtained from, RTCA Secretariat, 1717 H Street NW., Washington, D.C. 20006; (202) 296-0484. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C. on September 28, 1977.

KARL F. BIERACH,
Designated Officer.

RADIO TECHNICAL COMMISSION FOR AERONAUTICS (RTCA), SEPARATION STUDY REVIEW GROUP

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the RTCA Separation Study Review Group to be held November 1-2, 1977, Main Conference Room, Building 11, National Aviation Facilities Experimental Center, Tilden Road, Pleasantville, N.J. commencing at 9:30 a.m.

The agenda for this meeting is as follows: (1) Chairman's Comments; (2) Approval of Minutes of First Meeting held May 10-11, 1977; (3) Discussion of Terms of Reference; (4) Status Report on FAA Separation/Navigation Standards Program; (5) Presentation of Initial Information on Data Collected in Cleveland Area; (6) Discussion of Data Correlation, Processing and Reduction Procedures; (7) Review of Data Collection Specification Supplement; (8) Status Report on Definition of Alternate Separation Analysis Methods, and (9) General Discussion.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the hearing. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from, RTCA Secretariat, 1717 H Street NW., Washington, D.C. 20006 (202-296-0484). Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C. on September 28, 1977.

KARL F. BIERACH,
Designated Officer.

[4910-60]

Materials Transportation Bureau ASSOCIATED UNIVERSITIES, INC.; APPLICATION FOR INCONSISTENCY RULING Public Hearing and Extension of Comment Period

Associated Universities, Inc. (AUI) has applied for an administrative ruling

pursuant to 49 CFR 107.203-211 on whether Section 175.111 of the New York City Health Code, which restricts the transportation of radioactive materials in and through the City of New York, is inconsistent with and thus preempted by the Hazardous Materials Transportation Act (HMTA) (Title I of Pub. L. 93-633, 88 Stat. 2156, 49 U.S.C. 1801-1812) or regulations issued thereunder.

On August 15, 1977, the Materials Transportation Bureau (MTB) published a public notice (42 FR 41204) summarizing the issues raised in AUI's application and the City's response and soliciting public comment until September 30, 1977. In the notice it was noted that New York City and others had requested a public hearing and at that time the request was denied.

However, in light of the substantial public interest expressed on this issue, additional requests received, the possible significance to State and local governments elsewhere in the United States of a ruling on the AUI application, and the fact that such a ruling will be the first issued under 49 CFR Part 107, the MTB has decided to extend the time for public comment until November 30, 1977, and to schedule a public hearing on the matter. The MTB is considering Thursday, November 10, 1977, and a New York City location for the hearing. A final date, time and location will be announced in the Federal REGISTER in the near future. The hearing will be informal and will not be a judicial or evidentiary-type hearing. There will be no cross-examination of persons presenting statements.

During the hearing, opportunity will be provided for both proponents and opponents of AUI's application to present their views. Any public official or representative of a civic, public interest, or industry group may request to testify. Participants will be permitted a maximum of ten minutes for each presentation. If requests received exceed the available time, we will ask prospective witnesses with similar views to combine their presentations. In the event that accommodation cannot be made, witnesses will be assigned by lot.

Any public official or organizational representative desiring to participate must write to Dockets Section, Room 6500, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590 (phone 202-426-2077). The letter must be received no later than October 28, 1977, and provide the following information:

1. Name and address.
2. Telephone number during normal working hours.
3. Capacity in which presentation will be made (i.e., public official or organizational representative, with name of group represented).
4. Position—pro or con AUI's application.
5. Time desired, if less than ten minutes.

Shortly before the hearing a schedule will be prepared listing the partici-

pants in the order in which their presentations will be made.

Written comments by any interested persons, including those who may not have sufficient time to express their full views at the hearing, are invited through November 30, 1977. These should be sent, preferably five copies, to the Dockets Section at the address indicated above. Additionally, as required by regulation (49 CFR 107.205(b)), a copy of each written comment must be sent to Mr. N. Peter Rathvon, Jr., Associated Universities, Inc., Upton, N.Y. 11873, and that fact noted on the comment sent to MTB.

All written comments, as well as a transcript of the hearing, will become a part of the record of the proceeding. The entire record which includes the AUI application, the City of New York's response, and all comments received to date may be reviewed in the Dockets Section at the address indicated above.

Comments presented at the hearing and those submitted in writing should be restricted to the specific question of whether Section 175.111 of the New York City Health Code is inconsistent with the HMTA or regulations issued thereunder. Information which is not pertinent to an inconsistency ruling or which is expressive of the relationship of Section 175.111 to other Federal laws and regulations is not to be considered by the Director, Office of Hazardous Materials Operations (OHMO) in making his ruling. Supplementary information is provided in the August 15, 1977, FEDERAL REGISTER publication and potential commenters are urged to refer to that document.

Any questions relating to this notice should be addressed to Douglas A. Crockett, Office of the Assistant General Counsel for Materials Transportation Law, Room 6222, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590 (phone 202-755-4972). As previously noted, requests for time to speak at the hearing must be addressed to the Dockets Section.

AUTHORITY: 49 U.S.C. 1811, 49 CFR 1.53(e), 49 CFR Part 107 Subpart C.

Issued in Washington, D.C. on October 3, 1977.

ALAN I. ROBERTS,
Director, Office of Hazardous
Materials Operations.

DEPARTMENT OF THE TREASURY

Customs Service

BROMINE AND BROMINATED COMPOUNDS FROM ISRAEL

Receipt of Countervailing Duty Petition and Initiation of Investigation

AGENCY: U.S. Customs Service, Treasury Department.

ACTION: Initiation of Countervailing Duty Investigation.

SUMMARY: This notice is to advise the public that a countervailing duty petition has been received in proper form and that an investigation is being initiated in order to determine whether or not bounties or grants are being paid by the Government of Israel on bromine and brominated compounds. A preliminary determination will be made no later than January 11, 1978, and a final determination no later than July 11, 1978.

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CONTACT:

William T. Trujillo, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229 (202-566-5492).

SUPPLEMENTARY INFORMATION: A petition was received in proper form on July 11, 1977, from Velsicol Chemical Corp., alleging that payments or bestowals conferred by the Government of Israel upon the manufacture, production, or exportation of bromine and brominated compounds constitute the payment or bestowal of a bounty or grant within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303). Bromine is provided for in the Tariff Schedules of the United States under item 415.05. Brominated compounds are classified under various item numbers including items 429.28, 420.82, and 403.60.

Pursuant to section 303(a)(4), of the Trade Act of 1930, as amended (19 U.S.C. 1303(a)(4)), the Department of the Treasury is required to issue a preliminary determination as to whether or not any bounty or grant is being paid or bestowed within the meaning of the countervailing duty law within 6 months of the date of receipt, in satisfactory form, of the petition alleging the payment or bestowal of a bounty or grant. A final decision must be issued within 12 months of the receipt of such petition.

Therefore, a preliminary determination on this petition will be made no later than January 11, 1978, as to whether the alleged payments or bestowals conferred by the Government of Israel upon the manufacture, production, or exportation of the above-described merchandise constitute the payment or bestowal of a bounty or grant within the meaning of section 303, Tariff Act of 1930, as amended. A final determination will be issued no later than July 11, 1978.

This notice is published pursuant to section 303(a)(3) of the Tariff Act of 1930, as amended (19 U.S.C. 1303(a)(3)).

Pursuant to Reorganization Plan No. 26 of 1950 and Treasury Department Order 190 Revision 14, July 1, 1977, the provisions of Treasury Department Order No. 165, Revised, November 2, 1954, and section 159.47(c) of the Customs Regulations (19 CFR 159.47(47)), insofar as they pertain to the initiation of a

countervailing duty investigation by the initiation of a countervailing duty investigation by the Commissioner of Customs, are hereby waived.

Dated: October 3, 1977.

ROBERT H. MUNDHEIM,
General Counsel of the Treasury.

IMPORTATION FROM THE EUROPEAN COMMUNITIES OF FERROCHROMIUM AND CHROMIUM-BEARING STEEL WILL PRODUCTS UNDER THE RHODESIAN SANCTIONS REGULATIONS

Availability of Special Certificates for
Imports From Denmark, Ireland, and Italy

Special certificates issued under the Certification Agreement between the United States and the Commission of the European Communities are available as of September 18, 1977 for imports from Denmark, Ireland, and Italy of ferrochromium and chromium-bearing steel mill products. Materials shipped after September 18, 1977 may only be imported if a special certificate is presented to Customs at the time of entry.

Imports of certifiable materials shipped prior to September 18, 1977 but arriving after that date may continue to be made under the interim certificates. However, the entry will not be liquidated until the importer presents a special certificate on or before October 18, 1977.

Importers are reminded that a special certificate must be procured and filed with Customs on or before October 18, 1977 to complete liquidation of entries covering certifiable materials imported under interim certificates prior to September 18, 1977.

Dated: September ??, 1977.

STANLEY L. SOMMERFIELD,
Acting Director.

Approved:

BETTE B. ANDERSON,
Under Secretary.

Office of the Secretary

CARBON STEEL PLATE FROM JAPAN

Antidumping; Withholding of Appraisement Notice

AGENCY: U.S. Treasury Department.

ACTION: Withholding of Appraisement.

SUMMARY: This notice is to advise the public that an antidumping investigation has resulted in a preliminary determination that carbon steel plate from Japan is being sold at less than fair value. (Sales at less than fair value generally occur when the price of merchandise sold for exportation to the United States is less than the price of such or similar merchandise sold in the home market or to third countries or the constructed value of the merchandise). Appraisement for the purpose of determining the proper duties applicable to entries of this merchandise will be suspended for 6 months. Interested parties are invited to comment on this action.

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Stephen Nyschot, Operations Officer, U.S. Customs Service, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue, NW., Washington, D.C. 20229, telephone 202-566-5492.

SUPPLEMENTARY INFORMATION:

On March 8, 1977, information was received in proper form pursuant to sections 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from counsel acting on behalf of Oregon Steel Mills, Division of Gilmore Steel Corporation, indicating a possibility that carbon steel plate from Japan is being, or is likely to be sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). An "Antidumping Proceeding Notice" was published in the FEDERAL REGISTER on March 30, 1977 (42 FR 16883). That notice indicated that there was evidence on record concerning injury to or likelihood of injury to, or prevention of establishment of, an industry in the United States.

For purposes of this notice, the term "carbon steel plate" means hot-rolled carbon steel plate, 0.1875 ($\frac{3}{16}$) inches or more in thickness, over 8 inches in width, not in coils, not pickled, not coated or plated with metal, not clad, and not cut, pressed or stamped to non-rectangular shape.

TENTATIVE DETERMINATION OF SALES AT LESS THAN FAIR VALUE

On the basis of the information developed in the Customs Service investigation and for the reasons noted below, pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), I hereby determine that there are reasonable grounds to believe or suspect that the purchase price or the exporter's sales price of carbon steel plate from Japan is less, or is likely to be less, than the fair value of such or similar merchandise.

STATEMENT OF REASONS ON WHICH THIS DETERMINATION IS BASED

a. *Scope of the Investigation.* It appears that during the period of investigation covering October 1, 1976 to March 31, 1977, over 70 percent of the imports of the subject merchandise from Japan were manufactured by Nippon Steel Corporation (Nippon Steel), Nippon Kokan K.K. (NEK), Sumitomo Metal Industries, Ltd. (Sumitomo), Kawasaki Steel Corporation (Kawasaki), and Kobe Steel, Ltd. (Kobe). Therefore, the investigation was limited to these five manufacturers.

b. *Basis of Comparison.* For the purpose of considering whether the merchandise in question is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison appears to be between purchase price and constructed value on all sales by Nippon Steel, NEK, and Kobe, and on most sales by Sumitomo and Kawasaki. Purchase price, as defined in section 203 of the Act (19 U.S.C. 162), was used since those export sales were made to unrelated Japanese trading companies. On the remaining sales by Sumitomo and Kawasaki, the proper basis of comparison appears to be between exporter's sales prices, as defined in section 204 of the Act (19 U.S.C. 163), and constructed value, since those sales in the United States are made by importers who are related to those manufacturers. Constructed value, as defined in section 206 of the Act (19 U.S.C. 165) was used pursuant to section 205(b) of the Act (19 U.S.C. 164(b)), since on the basis of the best evidence available at this time sales in the home market which were at not less than the cost of production appear to be inadequate as a basis for comparison. As the exporters declined to provide any information concerning their sales in third countries and no other information to the contrary was available, it has been assumed that sales to third countries which were at not less than the cost of production would also provide an inadequate basis for comparison.

In accordance with section 153.31(b), Customs Regulations (19 CFR 153.31(b)), home market pricing information was obtained for the period October 1, 1976, through March 31, 1977. Since the question of sales prices below cost was raised, cost information was requested but was not provided.

c. *Purchase Price.* For the purpose of this tentative determination of sales at less than fair value, purchase price has been calculated on the basis of the f.o.b. or f.a.s. price to the unrelated trading company for export to the United States. A deduction has been made for inland transportation costs included in the price.

d. *Exporter's Sales Price.* For the purpose of this tentative determination of sales at less than fair value, exporter's sales price has been calculated on the basis of the price to the first unrelated purchaser in the United States. Deductions have been made for ocean freight and insurance, brokerage charges, import duties, and for expenses incurred in selling the merchandise in the United States.

e. *Constructed Value.* For the purpose of this tentative determination of sales at less than fair value, constructed value has been calculated on the basis of the best information available concerning the cost of materials and of fabrication or other processing involved in producing the merchandise, plus an amount for general expenses usually reflected in sales of merchandise of the same general class or kind, plus an amount for profit equal to that required by section 206 (a)(2)(B) of the Act (19 U.S.C. 165(a)(2))

(B)), plus the cost of all containers and coverings and all other expenses incidental to placing the merchandise in condition, packed ready for shipment to the United States.

Counsel for petitioner has claimed that sales of this merchandise for home consumption or to third countries have been made in substantial quantities over an extended period of time at prices which are less than the cost of production within the meaning of section 205(b) of the Act and which do not permit recovery of all costs within a reasonable period of time in the normal course of trade.

Information concerning sales in the home market has been submitted. Information requested concerning sales to third countries has not been received. Information requested in order to establish the actual cost of production of the aforementioned Japanese manufacturers of the subject merchandise also has not been received. Therefore, for purposes of this tentative determination, the best information available has been utilized for the purpose of deriving the cost of production of carbon steel plate within the meaning of section 205(b) of the Act. The best information available has been determined to consist of the published financial reports of the Japanese producers subject to this investigation, which earn no less than 90 percent of total revenue from the sale of all steel products, and of information submitted by petitioner in connection with the cost of production of Japanese carbon steel plate.

It has further been determined that the cost of production thus derived exceeds, in virtually all instances, the prices at which carbon steel plate has been sold in the home market during the investigatory period. Further, it has been determined that in the absence of requested information with respect to prices of this merchandise applicable to sales to third countries, such sales may be presumed to have been made at less than the cost of production. Fair value comparisons have therefore been made on the basis of constructed value.

The derived cost of production includes an amount shown on the published financial statements of the producers for "non-operating expenses". In the absence of proof from respondents that all or certain of these expenses are not, according to accounting principles generally accepted in the United States, properly allocable to the cost of production of all carbon steel products in general, and carbon steel plate in particular, such expenses are properly allocable to the cost of production of this merchandise.

In determining whether sales have been below the cost of production under section 205(b), the Secretary must determine whether below-cost sales have been made in substantial quantities over an extended period of time, and "are not at prices which permit recovery of all costs within a reasonable period of time in the normal course of trade." It has tentatively been determined that a majority of home market sales during the period of investigation were made below the cost of production and that, in the context of this industry, three years represents a reasonable period of time within which all cost must be recovered in the normal course of trade. Three years appears to be the approximate length of the historic business cycle in the Japanese steel industry within which all but extraordinary costs (and no information as to any such costs has been presented), should be recovered. It has therefore been determined that sales of carbon steel plate in Japan have been made over an extended period of time in substantial quantities at prices which do not permit recovery of all costs within a reasonable period of time in the normal course of trade.

U
M
I

Counsel for petitioner has claimed that possible additional dumping margins may have been created by sales below the cost of acquisition by trading companies which export carbon steel plate from Japan and also sell this merchandise to ultimate users and other home market purchasers. Some information has been received indicating a possibility that this practice may be occurring. Prior to any Final Determination, therefore, additional information relevant to this claim will be requested, and such information as is received will be taken into account for the purposes of making the Final Determination.

1. *Result of Fair Value Comparisons.* Using the above criteria, preliminary analysis suggests that purchase price or exporter's sales price probably will be lower than the constructed value of such merchandise. Comparisons were made on approximately 83 percent of the subject merchandise sold to the United States by the five manufacturers during the investigative period. Margins were tentatively found ranging from 1 to 48 percent for sales made by Nippon Steel on 100 percent of sales compared, from 6 to 55 percent for sales made by NKK on 100 percent of sales compared, from 8 to 52 percent for sales made by Sumitomo on 100 percent of sales compared, from 0.4 to 52 percent for sales made by Kawasaki on 97 percent of sales compared, and from 7 to 44 percent for sales made by Kobe on 100 percent of sales compared. Weighted average margins over the total sales compared for each firm were approximately 31 percent for Nippon Steel, 38 percent for NKK, 32 percent for Sumitomo, 27 percent for Kawasaki, and 32 percent for Kobe.

Accordingly, Customs officers are being directed to withhold appraisement of carbon steel plate from Japan in accordance with section 153.48, Customs Regulations (19 CFR 153.48).

In accordance with section 153.40, Customs Regulations (19 CFR 153.40), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any request that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 1301 Constitution Avenue NW., Washington, D.C. 20229, in time to be received by his office no later than October 17, 1977. Such requests must be accompanied by a brief statement outlining the issues wished to be discussed, which issues may be discussed in greater detail in a written brief.

All written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received in his office no later than November 7, 1977. All persons submitting written views or arguments should avoid repetitions and merely cumulative material. Counsel for the petitioner and the respondents are requested to serve all written submissions on all other counsel and to file their submissions with the Commissioner of Customs in ten copies.

This notice, which is published pursuant to section 153.35(b), Customs Regulations (19 CFR 153.35(b)), shall become effective October 6, 1977. It shall

cease to be effective April 6, 1978, unless previously revoked.

PETER D. EHRENIHAFT,
Deputy Assistant
Secretary (Tariff Affairs).

Office of the Secretary

POLYVINYL CHLORIDE SHEET AND FILM FROM THE REPUBLIC OF CHINA

Antidumping; Withholding of Appraisement Notice

AGENCY: United States Treasury Department.

ACTION: Withholding of appraisement.

SUMMARY: This notice is to advise the public that there are reasonable grounds to believe or suspect that there are or are likely to be sales of polyvinyl chloride sheet and film from the Republic of China at less than fair value within the meaning of the Antidumping Act of 1921. (Sales at less than fair value generally occur when the price of merchandise sold for exportation to the United States is less than the price of such or similar merchandise sold in the home market or to third countries.) Appraisement for the purpose of determining the proper duties applicable to entries of this merchandise will be suspended for 6 months. Interested persons are invited to comment on this action.

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CONTACT:

David R. Chapman or Richard Rimlinger, Operations Officers, Duty Assessment Division, United States Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229. Telephone: 202-566-5492.

SUPPLEMENTARY INFORMATION: On February 24, 1977, information was received in proper form pursuant to sections 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from counsel acting on behalf of the Plastic Imports Action Committee (PIAC), alleging that polyvinyl chloride sheet and film from the Republic of China are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). The PIAC is an ad hoc group consisting of the following United States producers of the subject merchandise: The Goodyear Tire and Rubber Co.; Harte and Co., Inc., a subsidiary of the Diamond Shamrock Corp.; Tenneco Chemicals, Inc., a subsidiary of Tenneco; Pantasote Co. of New York, Inc.; W. R. Grace and Co.; Hatco Plastics Division; and Hooker Chemicals and Plastic Corp., Ruco Division. An "Anti-

dumping Proceeding Notice" indicating that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States was published in the FEDERAL REGISTER of April 1, 1977 (42 FR 17558).

For purposes of this notice the term "polyvinyl chloride sheet and film" means unsupported, flexible, calendared polyvinyl chloride sheet, film and strips over 6 inches in width and over 18 inches in length, and at least 0.002 inches, but not over 0.020 inches in thickness.

TENTATIVE DETERMINATION OF SALES AT LESS THAN FAIR VALUE

On the basis of the information developed in Customs' investigation and for the reasons noted below, pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), I hereby determine that there are reasonable grounds to believe or suspect that the purchase price of polyvinyl chloride sheet and film from the Republic of China is less, or likely to be less, than the fair value, and thereby the foreign market value of such or similar merchandise.

STATEMENT OF REASONS ON WHICH THIS DETERMINATION IS BASED

a. *Scope of the Investigation.* It appears that approximately 90 percent of the imports of the subject merchandise from the Republic of China is sold for export to the United States by Nan Ya Plastics (Nan Ya), China Gulf Plastics Corp. (China Gulf), Cathay Plastic Industry, Ltd. (Cathay Plastics) and Ocean Plastics Co., Ltd. (Ocean Plastics), all of Taipei, Republic of China. The investigation therefore was limited to sales by these four exporters.

b. *Basis of Comparison.* For the purposes of considering whether the merchandise in question is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison appears to be between the purchase price and the home market price of such or similar merchandise. Purchase price, as defined in section 203 of the Act (19 U.S.C. 162) was used since the great preponderance of export sales to the United States appears to be made to non-related customers.

Home market price as defined in § 153.2, Customs Regulations (19 CFR 153.2), was used since such or similar merchandise appears to have been sold by the manufacturers in the home market in sufficient quantities to provide a basis for fair value comparisons.

In accordance with section 153.31(b), Customs Regulations (19 CFR 153.31(b)), pricing information was sought concerning imports and home market sales during the period October 1, 1976, through March 31, 1977. Because the manufacturers subject to this investigation did not submit responses in sufficient time to be verified and analyzed for use in making a tentative determination in this case, the best information available has been utilized for purposes of this determination. In this case the best information available is that submitted by the petitioner. The data submitted by the petitioner covered the period February-August 1976.

Since the responses of the respondent manufacturers were not timely submitted and therefore could not be utilized for pur-

poses of this tentative determination, counsel for the manufacturers withdrew their responses for the purpose of refinement and review. If the information requested is re-submitted in sufficient time for verification and analysis prior to the final determination in this proceeding, it will be used to form the basis of that determination.

c. *Purchase Price.* For the purpose of this tentative determination of sales at less than fair value, the purchase price has been calculated on the basis of the sales price to the unrelated United States purchasers with deduction for inland freight.

d. *Home Market Price.* For the purpose of this tentative determination of sales at less than fair value, the home market price has been calculated on the basis of the delivered prices to unrelated purchasers in the Republic of China. Adjustments have been made for inland freight and for differences in packing costs.

e. *Results of Fair Value Comparisons.* Using the above criteria, comparisons were made on all sales of the subject merchandise to the United States listed in the petition. The petition contained comparisons on approximately 10 percent of the subject exports from the Republic of China to the United States during the period covered. Margins were found on 100 percent of the sales compared. The results of those comparisons, by manufacturer, are shown below in terms of the range and weighted average, respectively (in percent):

1. Nan Ya—5.8 to 29.0, 26.2.
2. Cathay Plastic—6.0 to 37.0, 31.5.
3. China Gulf—10.2 to 44.4, 23.6.
4. Ocean Plastics—12.7 to 46.5, 37.4.

Accordingly, Customs officers are being directed to withhold appraisement of polyvinyl chloride sheet and film from the Republic of China, in accordance with § 153.48 Customs Regulations (19 CFR 153.48).

In accordance with § 153.40, Customs Regulations (19 CFR 153.40), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any request that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 1301 Constitution Avenue NW., Washington, D.C. 20229, in time to be received in his office no later than 10 days after the date of publication of this notice in the Federal Register. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received in his office no later than November 7, 1977. All persons submitting written views or arguments should avoid repetitions and merely cumulative material. Counsel for the petitioner and the respondents are requested to serve all written submissions on all other counsel and to file their submissions with the Commissioner of Customs in ten copies.

This notice, which is published pursuant to § 153.35(b), Customs Regulations (19 CFR 153.35(b)), shall become effective October 6, 1977. It shall cease

to be effective 6 months from the date of publication, unless previously revoked.

ROBERT H. MUNDHEIM,
General Counsel of the Treasury.

OCTOBER 3, 1977.

[4810-25]

WELDED STAINLESS STEEL PIPE AND TUBING FROM JAPAN

Antidumping; Extension of Investigatory Period

AGENCY: Customs Service, Treasury.

ACTION: Extension of Antidumping Investigatory Period

SUMMARY: This notice is to advise the public that the Secretary of the Treasury has determined that a tentative determination as to whether sales at less than fair value of welded stainless steel pipe and tubing from Japan have occurred cannot reasonably be made in six months. This decision will be made in not longer than nine months from the date of the initiation of the investigation. Sales at less than fair value generally occur when the price of merchandise sold for exportation to the United States is less than the price of such or similar merchandise sold in the home market or to third countries.

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Rimlinger, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229 (202-566-5492).

SUPPLEMENTARY INFORMATION: On March 2, 1977, the United States International Trade Commission notified the Secretary of the Treasury that a petition filed on November 15, 1976, pursuant to section 337 of the Tariff Act of 1930, as amended, concerning welded stainless steel pipe and tubing from Japan may involve matters within the purview of the Antidumping Act of 1921, as amended (19 U.S.C. 160 et seq.) (hereinafter referred to as "the Act").

This product had previously been subject to an antidumping investigation in 1972 which resulted in a notice of "Discontinuance of Antidumping Investigation," published in the FEDERAL REGISTER of November 27, 1972 (37 FR 24838). After examination, it was concluded that the information was sufficient to renew an investigation and a notice of "Reopening of Discontinued Antidumping Investigation" was published in the FEDERAL REGISTER of March 30, 1977 (42 FR 16883).

In reopened discontinued antidumping investigations, the procedures and time periods specified in section 201(b) of the Act are generally followed. In the in-

stant case, six months have been inadequate to collect and analyze all the data and information regarding production costs in the home market necessary to determine whether substantial sales have been made at less than the cost of production in the home market or to third countries over an extended period and at prices which do not permit the recovery of all costs within a reasonable period of time in the normal course of trade as required by section 205(b) of the Act (19 U.S.C. 164(b)).

Accordingly, pursuant to section 201(b)(2) of the Act (19 U.S.C. 160(b)(2)), notice is hereby given that the Secretary concludes that the determination provided for in section 201(b)(1) of the Act (19 U.S.C. 160(b)(1)), cannot reasonably be made within six months. The determination under 201(b)(1) of the Act (19 U.S.C. 160(b)(1)) will therefore be made within not more than nine months, although it is not expected that the entire additional three-month period will be required.

This notice is published pursuant to section 201(b)(2) of the Act (19 U.S.C. 160(b)(2)).

PETER D. EHRENIHAFT,
Deputy Assistant Secretary
(Tariff Affairs).

VETERANS ADMINISTRATION

NEW YORK NATIONAL CEMETERY AT CALVERTON, N.Y. (LONG ISLAND)

Availability of Final Environmental Impact Statement

Notice is hereby given that a document entitled "Final Environmental Impact Statement for the Proposed New York National Cemetery, Calverton, N.Y. (Long Island)," dated September 1977, has been prepared as required by the National Environmental Policy Act of 1969.

The proposed National Cemetery is to be located on 900± acres near Calverton, N.Y. (Long Island). This proposed development will provide for approximately 370,000 gravesites and will have an administration building, a memorial center, a committal service center and a maintenance complex to provide for all associated cemetery functions.

The Final Statement discusses the significant environmental impact of the proposed New York National Cemetery and responds to comments on the Draft Statement (January 1977). The document is being placed for public examination in the Veterans Administration Office of Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office: Mr. Jack Westall, Assistant Chief Medical Director for Administration (13) Room 600, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420.

Single copies of the Final Statement may be obtained on request to the above office.

Dated: September 29, 1977.

MAX CLELAND,
Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice No. 491]

ASSIGNMENT OF HEARINGS

OCTOBER 3, 1977.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 135195 (Sub-3), Stover Air Cargo, Inc. now being assigned January 30, 1978 (2 weeks) at Chicago, Illinois in a hearing room to be later designated.

MC 141949 K.M.O., Inc., Contract Carrier Application, now assigned October 18, 1977 is postponed to November 21, 1977 at the Offices of the Interstate Commerce Commission in Washington, D.C.

No. MC 143129, B.J.T. Transport, Inc., now being assigned for Prehearing conference on October 31, 1977 (1 day), at Providence, R.I., in a hearing room to be later designated.

MC-F 12991, System 99—Purchase (Portion)—Compton Transfer and Storage Co. and MC 98327 Sub 22, System 99 now assigned October 12, 1977 at San Francisco, California and will be held in Room 510, 5th Floor, 211 Main Street.

MC-F 13203, Allied Van Lines, Inc., d.b.a. Allied Van Lines—Control—Eleveid Chicago Furniture Service, Inc. now being assigned January 17, 1978 (9 days) at Chicago, Illinois in a hearing room to be later designated.

MC 1515 (Sub-229), Greyhound Lines, Inc. now being assigned January 17, 1978 at Detroit, Michigan in a hearing room to be later designated.

MC 141511 (Sub-1), Robert W. Rettig, d.b.a. Protein Express now being assigned January 24, 1978 (1 day) at Chicago, Illinois in a hearing room to be later designated.

MC 124078 (Sub-728), Scherman Trucking Co. now being assigned January 25, 1978 (1 day) at Chicago, Illinois in a hearing room to be later designated.

MC 113651 (Sub-217), Indiana Refrigerated Lines, Inc. now being assigned January 26, 1978 (2 days) at Chicago, Illinois in a hearing room to be later designated.

MC 135236 (Sub-17), Legan Trucking, Inc. now being assigned January 30, 1978 (1 week) at Chicago, Illinois in a hearing room to be later designated.

MC 96925 (Sub-7), Crown Motor Lines, Inc. now being assigned December 12, 1977 (1 week) at Tallahassee, Florida in a hearing room to be later designated.

MC 138875 (Sub-No. 51), Shoemaker Trucking Co., now being assigned December 13, 1977 (2 days) at Salem, Oregon, in a hearing room to be later designated.

MC-C 9522, Texas Oklahoma Express, Inc. v. Caddo Express, Inc., now being assigned December 1, 1977 (2 days) at Oklahoma City, Oklahoma in a hearing room to be later designated.

MC 129994 (Sub-23), Ray Bethers Trucking, Inc. now being assigned December 14, 1977 (3 days) at Salt Lake City, Utah in a hearing room to be later designated.

MC 119864 (Sub-No. 69), Craig Transportation Co., now being assigned December 13, 1977 (2 days) at Lansing, Michigan, in a hearing room to be later designated.

MC 143041, Byron G. Davenport, dba Drilling & Mining International now assigned November 29, 1977 (3 days), at Denver, Colo., in a hearing room to be later designated.

MC 124211 (Sub-31), John F. Oliver, now assigned December 5, 1977, (2 days), at Indianapolis, Ind., in a hearing room to be later designated.

MC 109891 (Sub-31), Infinger Transportation Co., Inc., now assigned December 13, 1977 (3 days), at Columbia, S.C., in a hearing room to be later designated.

MC 142258 (Sub-2), Dale Bland Trucking, Inc. now being assigned December 14, 1977 (3 days), at Indianapolis, Indiana in a hearing room to be later designated.

MC 514 (Sub-5), United Warehouse & Transfer, Inc., now assigned December 14, 1977 (3 days), at Nashville, Tenn., in a hearing room to be later designated.

MC 9812 (Sub-No. 5), C. F. Kolb Trucking Co., Inc., now being assigned December 12, 1977 (2 days), at Indianapolis, Ind., in a hearing room to be later designated.

MC 2900 (Sub-301), Ryder Truck Lines, Inc., now being assigned January 17, 1978 (3 days), at Knoxville, Tennessee in a hearing room to be later designated.

MC 2900 (Sub-296), Ryder Truck Lines, Inc., now assigned January 23, 1978 (1 week) at Charleston, W. Va., and continued to January 30, 1978 (1 week), at Pittsburgh, Pa., in a hearing room to be later designated.

MC 133937 (Sub-No. 19), Carolina Cartage Co., Inc., now being assigned December 7, 1977 (3 days), at Columbia, South Carolina in a hearing room to be later designated.

MC 45363 (Sub-9), Stones Express, Inc., now being assigned January 18, 1978 (3 days), at New York, New York in a hearing room to be later designated.

MC 141076 (Sub-10), Rogers Motor Lines, Inc., now being assigned January 17, 1978 (1 day), at New York, New York in a hearing room to be later designated.

MC 125978 (Sub-9), Dependable Car Travel Service, Inc. now being assigned January 23, 1978 (1 week) at New York, New York in a hearing room to be later designated.

MC 63973 (Sub-No. 17), Kaler Freight Lines, Inc., now being assigned December 12, 1977 (1 week) at Des Moines, Iowa, in a hearing room to be later designated.

MC 134477 (Sub-175), Schanno Transportation, Inc. now being assigned January 24, 1978 (1 day) at Boston, Massachusetts in a hearing room to be later designated.

MC 142177 (Sub-1), B.W.C.S., Inc. now being assigned January 25, 1978 (3 days) at Boston, Massachusetts in a hearing room to be later designated.

MC 1934 (Sub-40), The Arrow Line, Inc. now being assigned January 30, 1978 (1 week) at Boston, Massachusetts in a hearing room to be later designated.

MC 70470 (Sub-8), Film Transit Co., now assigned January 23, 1978, at Lincoln, Neb., (1 week) in a hearing room to be later designated.

MC 134493 (Sub-3), Chicago-St. Louis Transport, Inc., now assigned January 16, 1978, (2 days), at Chicago, Ill., in a hearing room to be later designated.

MC 40978 (Sub-31), Chair City Motor Express, Co., now being assigned January 18, 1978, (3 days), at Chicago, Ill., in a hearing room to be later designated.

MC 142957 (Sub-1), Network Transportation Systems, Inc. now being assigned February 31, 1978 (1 day) at New York, New York in a hearing room to be later designated.

MC 125770 (Sub-10), Spiegel Trucking, Inc. now being assigned January 20, 1978 (1 day) at New York, New York in a hearing room to be later designated.

MC-F 13050, J. B. Williams Express, Inc.—Purchase (Portion)—National Transportation Co., dba National Transport 101 and MC 95336 (Sub-9), J. B. Williams Express, Inc. now being assigned February 1, 1978 (3 days) at New York, New York in a hearing room to be later designated.

MC 125368 (Sub-No. 17), Continental Coast Trucking Co., Inc., and MC 14130 Sub No. 4 Trans-Contental Express, Inc., now being assigned December 6, 1977 (1 day) for hearing in Dallas, Texas, in a hearing room to be later designated.

MC 142672 (Sub-No. 2), David Beneux Produce & Trucking, Inc., now being assigned December 7, 1977 (3 days) for hearing in Dallas, Texas, in a hearing room to be later designated.

MC 141033 (Sub-No. 21), Content Contract Carrier Corp., now being assigned December 12, 1977 (1 day) for hearing in Dallas, Texas, in a hearing room to be later designated.

MC 116004 (Sub-42), Texas Oklahoma Express, Inc. now assigned November 7, 1977 at Oklahoma City, Oklahoma is cancelled and reassigned for November 7, 1977 (2 weeks) at Lawton, Oklahoma in a hearing room to be later designated.

MC 123407 (Sub-No. 362), Sawyer Transport, Inc. now being assigned December 13, 1977 (1 day) for hearing in Dallas, Texas, in a hearing room to be later designated.

MC 139577 (Sub-No. 3), Adams Transit, Inc., now being assigned December 14, 1977 (3 days) for hearing in Dallas, Texas in a hearing room to be later designated.

MC 114457 (Sub-No. 293), Dart Transit Co., now assigned October 12, 1977 at St. Paul, Minnesota, will be held in St. Paul Hotel, Queens Room, 363 St. Peter Street.

MC 720 (Sub-No. 29), Bird Trucking Co., Inc., now assigned October 13, 1977 at St. Paul, Minnesota, will be held in St. Paul Hotel, Queens Room, 363 St. Peter Street.

MC 134477 (Sub-No. 137), Schanno Transportation, Inc., now assigned October 14, 1977 at St. Paul, Minn., will be held in St. Paul Hotel, Queens Room, 363 St. Peter Street.

MC 133189 (Sub-No. 9), Vant Transfer, Inc., now assigned October 17, 1977 at St. Paul, Minn., will be held in Court Room 4, 5th Floor Federal Bldg., 316 North Robert Street.

MC 123407 (Sub-No. 343), Sawyer Transport, Inc., now assigned October 18, 1977 at St. Paul, Minnesota, will be held in Court Room 4, 5th Floor Federal Bldg., 316 North Robert Street.

MC 124813 (Sub-No. 160), Umthun Trucking Co., and MC 127187 Sub No. 21 Floyd Due-now, Inc., now assigned October 20, 1977 at St. Paul, Minnesota, will be held in Court Room 4, 5th Floor Federal Bldg., 316 North Robert Street.

MC 117119 (Sub-633), Willis Shaw Frozen Express, Inc., now being assigned December 12, 1977, (1 day) at Philadelphia, Pa., in a hearing room to be later designated.

MC 136786 (Sub-116), Robco Transportation, Inc., now being assigned December 13, 1977 (1 day), at Philadelphia, Pa., in a hearing room to be later designated.

MC 138157 (Sub-38), Southwest Equipment Rental, Inc., dba Southwest Motor Freight, now being assigned December 12, 1977, (1 day) at Philadelphia, Pa., in a hearing room to be later designated.

MC 106398 (Sub-774), National Trailer Convey, Inc., now being assigned December 15, 1977, (2 days) at Philadelphia, Pa., in a hearing room to be later designated.

MC 32779 (Sub-13), Silver Eagle Company now assigned November 28, 1977 at Portland, Oregon is being postponed to January 16, 1978 (2 weeks) at Yakima, Washington in a hearing room to be later designated.

MC 40235 (Sub-33), I.R.C. & D. Motor Freight, Inc. now being assigned January 23, 1978 (1 week) at Indianapolis, Indiana in a hearing room to be later designated.

MC 129537 (Sub-22), Reeves Transportation Company now being assigned January 23, 1978 (1 week) at Tallahassee, Florida in a hearing room to be later designated.

MC 113908 (Sub-394), Erickson Transportation Corporation now assigned October 13, 1977 at Chicago, Illinois is cancelled, application dismissed.

[7035-01]

FOURTH SECTION APPLICATION FOR RELIEF

OCTOBER 3, 1977.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than

those sought to be established at more distant points.

Protest to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43439—*Joint Water-Rail Container Rates—Korea Shipping Corporation*. Filed by Korea Shipping Corporation. (No. 1), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Korea, Hong Kong and Taiwan, and rail carriers terminals on the U.S. Atlantic and Gulf Coasts.

Grounds for relief—Water competition.

Tariff—Korea Shipping Corporation tariff No. 1, I.C.C. No. 1, F.M.C. No. 16. Rates are published to become effective on November 1, 1977.

FSA No. 43440—*Sand, Gravel, Stone and Related Articles Between Points in Southern Territory*. Filed by M.B. Hart, Jr., Agent. (No. A6350), for interested rail carriers. Rates on chert, gravel, sand, slag, stone and related articles, in carloads, as described in the application, between points in southern territory.

Grounds for relief—Short-line distance formula and grouping; also rate relationship.

Tariff Supplement 133 to Southern Freight Association, Agent, tariff 388-L, I.C.C. No. S-1188. Rates are published to become effective on November 10, 1977.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[Volume No. 37]

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), RAILROAD ABANDON- MENTS, ALTERNATE ROUTE DEVI- ATIONS, AND INTRASTATE APPLICA- TIONS

Petitions for Modification, Interpretation, or Reinstatement of Operating Rights Authority

SEPTEMBER 30, 1977.

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

The Commission has recently provided for easier identification of substantive petition matters and all documents should clearly specify the "docket", "sub", and "suffix" (e.g. M1, M2) numbers identified by the Federal Register notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this Federal Register notice. Such protest shall comply with Special Rule 247(d)

of the Commission's *General Rules of Practice* (49 CFR 1100.247) and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 52574 (Sub-No. 37) M-1) (Notice of filing of petition to add an additional contracting shipper, filed August 22, 1977. Petitioner: ELIZABETH FREIGHT FORWARDING CORP., 120 S. 20th St., Irvington, N.J. 07111. Petitioner's representative: Edward F. Bowes, P.O. Box 1409, Fairfield, N.J. 07006. Petitioner holds a motor contract carrier permit in No. MC 52574 (Sub-No. 37) issued September 18, 1968, authorizing transportation, over irregular routes, of *Bakery products, potato chips, and popcorn* (except such commodities in bulk), from points in that part of Pennsylvania on and east of U.S. Highway 15, to Linden, N.J.; and from Linden, N.J., to Baltimore, Md., and Washington D.C., under a continuing contract or contracts with Gourmet Bakers, Inc. of Linden, N.J. By the instant petition, petitioner seeks to add Clem's Snacks as an additional contracting shipper.

No. MC 89021 (M1) (Notice of filing of petition to add an additional commodity) filed August 19, 1977. Petitioner: JOHN WEIGERT, doing business as LEVINE'S EXPRESS & TRUCKING CO., 1001 Roosevelt Avenue, P.O. Box 237, Carteret, N.J. 07008. Petitioner's representative: Robert B. Pepper, The Forest Park Building, 168 Woodbridge Avenue, Highland Park, N.J. 08904. Petitioner holds a motor common carrier certificate in No. MC 89021, issued August 10, 1977, authorizing transportation, over irregular routes, of: *Advertising display materials*, between New York, N.Y., on the one hand, and, on the other, points in California, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, Pennsylvania, Ohio, Indiana, Illinois, and Michigan. By the instant petition, petitioner seeks to modify the above authority by adding "sheetings" as an additional commodity.

No. MC 107304 (Sub-No. 9) (M1) (Notice of filing of petition to delete restriction), filed August 29, 1977. Petitioner: TRANSWAY, INC., 2411 Edenborn Avenue, Metairie, La. 70001. Petitioner's representative: Thomas A. Stroud, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, Tenn. 38137. Petitioner holds a motor common carrier certificate in No. MC 107304 (Sub-No. 9), issued October 15, 1965, authorizing transportation, over irregular routes of: *General commodities*, (except commod-

¹ Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary Interstate Commerce Commission, Washington, D.C. 20423.

ities of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, and those requiring special equipment), having an immediately prior or subsequent movement by air.

(1) Between New Orleans, La., on the one hand, and, on the other, points in Louisiana, Arkansas, Mississippi, Alabama and Florida on and within a boundary line beginning at the Gulf of Mexico at the Louisiana-Texas State line and extending along the Louisiana-Texas State line to the Arkansas-Texas State line thence along the Arkansas-Texas State line to and including Texarkana, Tex.-Ark., thence along U.S. Highway 82 to Strong, Ark., thence along Arkansas Highway 129 to the Arkansas-Louisiana State line, thence along the Arkansas-Louisiana State line to the Arkansas-Mississippi State line, thence along the Arkansas-Mississippi State line to junction U.S. Highway 82, thence along U.S. Highway 82 to the Alabama-Mississippi State line, thence along the Alabama-Mississippi State line to junction U.S. Highway 278, thence along U.S. Highway 278 to Guin, Ala., thence along U.S. Highway 43 to Tuscaloosa, Ala., thence along Alabama Highway 61 to Greensboro, Ala., thence along Alabama Highway 61 to Uniontown, Ala., thence along U.S. Highway 80 to junction Alabama Highway 28, thence along Alabama Highway 28 to Camden, Ala., thence along Alabama Highway 10 to Luverne, Ala., thence along U.S. Highway 29 to Brantley, Ala., thence along Alabama Highway 189 to Elba, Ala., thence along U.S. Highway 84 to Dothan, Ala., and thence along U.S. Highway 231 to the Gulf of Mexico at Panama City, Fla.; (2) Between Shreveport, La., on the one hand, and, on the other, points in that part of Arkansas (except El Dorado), on and south of U.S. Highway 82 and on and west of Arkansas Highway 129, and points in De Soto, Caddo, Bossier, Webster, Bienville, Red River, Union and Jackson Parishes, La.; (3) Between Baton Rouge, La., on the one hand, and, on the other, points in Pointe Coupee, St. Martin, Iberville, Assumption, St. James, St. John the Baptist, Ascension, Livingston, West Baton Rouge, East Baton Rouge, West Feliciana, East Feliciana, St. Helena, Terrebonne, St. Charles, and Tangipahoa Parishes, La., and Wilkenson, Franklin, and Amite Counties, Miss.; (4) Between Monroe, La., on the one hand and, on the other, points in Union, Lincoln, Jackson, Winn, Ouachita, Caldwell, Franklin, Tensas, Madison, Richland, East Carroll, West Carroll, Catahoula, La Salle, Concordia, Clairborne, and Morehouse Parishes, La.

(5) Between Jackson, Miss., on the one hand, and, on the other, points in that part of Mississippi on and bounded by a line beginning at the Mississippi-Louisiana State line and extending eastwardly along U.S. Highway 84 to the Mississippi-Alabama State line, thence northwardly extending along the Mississippi-Alabama State line to junction U.S. Highway 82,

thence westwardly along U.S. Highway 82 to the Mississippi-Arkansas State line, and thence southwardly along the Mississippi-Arkansas-Louisiana State lines to U.S. Highway 84, except Natchez, Miss.; (6) Between Mobile, Ala. on the one hand, and, on the other, points in that part of Alabama and Florida located on and within a boundary line beginning at the Gulf of Mexico at the Mississippi-Alabama State line and extending along the Mississippi-Alabama State line to junction U.S. Highway 278 (near Gattman, Miss.), thence along U.S. Highway 278 to Guin, Ala., thence along U.S. Highway 43 to Tuscaloosa, Ala., thence along Alabama Highway 61 to Greensboro, Ala., thence along Alabama Highway 61 to Uniontown, Ala., thence along U.S. Highway 80 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction Alabama Highway 28, thence along Alabama Highway 28 to Camden, Ala., thence along Alabama Highway 10 to Luverne, Ala., thence along U.S. Highway 29 to Brantley, Ala., thence along Alabama Highway 189 to Elba, Ala., thence along U.S. Highway 84 to Dothan, Ala., and thence along U.S. Highway 231 to the Gulf of Mexico at Panama City, Fla., and points in that part of Mississippi on and east of U.S. Highway 11; (7) Between Pensacola, Fla., on the one hand, and, on the other, points in that part of Florida located on and within a boundary line beginning at the Gulf of Mexico at the Alabama-Florida State line and extending along the Alabama-Florida State line to junction U.S. Highway 231 (a point south of Dothan, Ala.), thence along U.S. Highway 231 to the Gulf of Mexico at Panama City, Fla., and points in that part of Alabama on and south of a line beginning at the Alabama-Florida State line and extending northwardly along U.S. Highway 231 to junction U.S. Highway 84, thence northwesterly along U.S. Highway 84 to junction Alabama Highway 129, thence over Alabama Highway 129 to junction U.S. Highway 29, thence over U.S. Highway 29 to junction Alabama Highway 10, thence northwesterly along Alabama Highway 10 to junction Alabama Highway 21, thence southwesterly along Alabama Highway 21 to junction U.S. Highway 31, thence southwesterly along U.S. Highway 31 to junction U.S. Highway 90 and thence westwardly along U.S. Highway 90 to the Alabama-Mississippi State line, restricted against the interline or interchange of any shipments handled under such rights with other common carriers by motor vehicles. By the instant petition, petitioner seeks to modify the above authority by deleting the restriction.

No. MC 111651 (Sub-No. 3) (M-1). (Notice of filing of petition to delete restriction), filed August 22, 1977. Petitioner: MIDDLEWEST FREIGHTWAYS, INC., 6810 Prescott, St. Louis, Mo. 63147. Petitioner's representative: Frank W. Taylor, Jr., Suite 600, 1221 Baltimore Avenue, Kansas, City, Mo. 64105. Petitioner holds a motor common carrier certificate in No. MC 111651 (Sub-No. 3) issued January 28, 1966, authorizing, as

pertinent, transportation, over regular routes, of General commodities, except Classes A and B explosives (except fireworks and small-arms ammunition), livestock, corpses, currency, bullion, articles of virtu, exposed motion picture film, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between St. Louis, Mo., and Kansas City, Mo., serving intermediate and off-route points within 15 miles of St. Louis, Mo. (except Belleville, Ill., and St. Charles, Mo.), and those in the Kansas City, Mo.-Kans., Commercial Zone as defined by the Commission, and the off-route point of Leavenworth, Kans.; From St. Louis, over U.S. Highway 40 to Kansas City, and return over the same route; and (2) between St. Louis, Mo., and Chicago, Ill., serving the intermediate and off-route points within 15 miles of St. Louis, Mo. (except Belleville, Ill., and St. Charles, Mo.), and the off-route points of Hammond and Gary, Ind., and Aurora, Waukegan, Elgin, and Woodstock, Ill.; (a) From St. Louis over U.S. Highway 66 to Chicago, and return over the same route; and (b) From St. Louis over U.S. Highway 66 to junction Illinois Highway 48, thence over Illinois Highway 48 to junction U.S. Highway 54, thence over U.S. Highway 54 to Chicago, and return over the same route, restricted against shipments originating at or destined to Belleville, Ill., and Perryville, St. Charles, St. Clair, and Sullivan, Mo. By the instant petition, petitioner seeks to modify the above authority by deleting the restriction.

No. MC 116763 (Sub-No. 87) (M1) (notice of filing of petition to add an origin county), filed August 17, 1977. Petitioner: CARL SUBLER TRUCKING, INC., P.O. Box 81, Northwest Street, Versailles, Ohio 45380. Petitioner's representative: H. M. Richters (same address as petitioner). Petitioner holds a motor common carrier certificate in No. MC 116763 (Sub-No. 87), issued May 29, 1967, authorizing transportation, over irregular routes, as pertinent, of *Canned goods*, from Sandusky, Ohio, and points in the Lower Peninsula of Michigan (except Fennville, and South Haven, and points in Berrien County, Mich.), to points in that part of Pennsylvania east of U.S. Highway 220, those points in that part of New York east of Interstate Highway 81, points in New Jersey, and Baltimore, Md., and the District of Columbia. By the instant petition, petitioner seeks to delete Berrien County, Mich. from the exception, thereby adding Berrien County, Mich. as an additional origin.

No. MC 124004 (Sub-No. 16) M1 (notice of filing of petition to delete facility limitation), filed August 16, 1977. Petitioner: RICHARD DAHN, INC., 620 W. Mountain Road, Sparta, N.J. 07871. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Petitioner holds motor common carrier certificate in No. MC 124004 (Sub-No. 16) issued March 27, 1977, authorizing transportation over irregular routes, of: *Dry salt, and dry salt prod-*

ucts, from the facilities of the Morton Salt Company, Division of Morton International, Inc., located at Milo, N.Y., to points in Connecticut, Delaware, New York, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, Pennsylvania, Rhode Island, Vermont, and the District of Columbia. By the instant petition, petitioner seeks to delete the phrase "the facilities of the Morton Salt Co., Division of Morton International, Inc., located at," so that the origin will read "from Milo, N.Y."

No. MC 134043 (Sub-No. 5) (M1) (notice of filing of petition to add an additional contracting shipper) filed August 10, 1977. Petitioner: ART KNIGHT, INC., 316 SE. Market, P.O. Box 14626, Portland, Oreg. 97214. Petitioner's representative: Philip G. Skofstad, P.O. Box 594, Gresham, Oreg. 97030. Petitioner holds a motor contract carrier permit in No. MC 134043 (Sub-No. 5), issued February 25, 1973, authorizing transportation, over irregular routes, of: *Such commodities as are dealt in or sold by department stores*, between points in Washington, Oregon, California, and Arizona, under a continuing contract, or contracts, with Baza'r Inc. By the instant petition, petitioner seeks to modify the above authority by adding Pacific Gamble Robinson, doing business as Pacific Fruit and Produce as an additional contracting shipper.

No. MC 140986 (Sub-No. 3) (M1) (notice of filing of petition to add an additional contracting shipper and origin point), filed August 5, 1977. Petitioner: GREAT NORTHERN TRUCK LINES, INC., Bank Street, Netcong, N.J. 07857. Petitioner's representative: Robert B. Pepper, The Forrest Park Building, 168 Woodbridge Avenue, Highland Park, N.J. 08904. Petitioner holds a motor contract carrier permit in No. MC 140986 (Sub-No. 3), issued September 13, 1977, authorizing transportation, over irregular routes, of *Materials, and supplies used in the construction of tennis courts*, (except commodities in bulk), from the facilities of Robert Lee Co., Inc., at Charlottesville, Va., to points in Connecticut, Delaware, Kentucky, Massachusetts, Maryland, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, and Vermont, under a continuing contract, or contracts, with Robert Lee Co., Inc., of Charlottesville, Va. By the instant petition, petitioner seeks to modify the above authority by adding Har-Tru Corp., of Hagerstown, Md. as an additional contracting shipper and also to add the facility and origin point of Har-Tru Corp., at Charmian, Pa.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

NOTICE

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such pleading shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 66531 (Sub-No. 7), (republication), filed November 26, 1976, published in the FEDERAL REGISTER issue of December 30, 1976, and republished this issue. Applicant: INTERSTATE GROCERY DISTRIBUTION SYSTEM, INC., 2200 48th Street, North Bergen, N.J. 07047. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. An Order of the Commission, Review Board Number 3, dated August 29, 1977, and served September 23, 1977, finds that operation, by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *drugs, chemicals, cleaning compounds, paper impregnated with cleansing agents, non-medicated corn syrup, dental instruments, needles, glassware (except cut glassware), vermin exterminators, non-agricultural insecticides, petroleum naphtha, coal tar dyes (except indigo), lavatory fixtures (except china fixtures), flour enriching compounds, dry flavoring compounds, advertising materials, glass or plastic bottles, steel, aluminum or plastic bottle caps, paper and paperboard, and cellulose film tubes*, from East Brunswick, N.J., to points in the Harbor of New York, N.Y., as defined by the Commission, located in New Jersey. Restrictions: (1) Restricted against the transportation of the above-described commodities in bulk; (2) Restricted to the transportation of shipments having a subsequent movement by water; and (3) any portion of the above authority and any portion of the other operating authority of the carrier which is duplicated confer only a single operating right; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the additional grants of paper impregnated with cleansing agents, vermin exterminators and insecticide other than agricultural.

No. MC 118831 (Sub-No. 116), (supplemental notice), filed January 20, 1975, published in the FEDERAL REGISTER March 12, 1975, and republished this issue. Applicant: CENTRAL TRANSPORT, INC., P.O. Box 7007, High Point,

N.C. 27264. Applicant's representative: E. Stephen Helsley, 666 Eleventh St., NW., Washington, D.C. 20001. A Report of the Commission, decided September 7, 1977, and served September 21, 1977, finds on further consideration, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from Grasselli and Passaic, N.J., and Philadelphia, Pa., to points in that part of North Carolina east of U.S. Highway 21 and north of U.S. Highway 74; and *liquid chemicals*, in bulk, in tank or hopper-type vehicles, from Grasselli and Passaic, N.J., and Philadelphia, Pa., to points in Mississippi, South Carolina, Alabama, Florida, Georgia, and to points in that part of Virginia on and west of a line beginning at the North Carolina-Virginia State line, thence northward along U.S. Highway 301 to Emporia, Va., thence over U.S. Highway 58 to Lawrenceville, thence over Virginia Highway 46 to Blackstone, thence over Virginia Highway 460 to Farmville, thence over U.S. Highway 15 to a point 2 miles north of Sprouses' Corner, thence over Virginia Highway 20 to Charlottesville, thence over U.S. Highway 29 to Culpeper, thence over U.S. Highway 522 to Winchester, thence over U.S. Highway 11 to the West Virginia-Virginia State line; that applicant is fit, willing and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations.

NOTE.—Previous notice of this transaction was filed as a matter directly related to finance proceeding in No. MC-F-12377, Central Transport Incorporation—Purchase (Portion)—Piedmont Petroleum Products, Inc.; said notice is being supplemented to add Norfolk, Va. commercial zone as a gateway proposed to be eliminated. This notice is being published pursuant to a report and order of the Commission (127 M.C.C. 1), which granted the proposed application in part. Pursuant to directives in said report, any person having an interest in or who would be prejudiced by grant of authority as awarded by the report, may file an original and six copies of a petition or other pleading within 30 days from the date of publication of this notice. Such petitions shall set forth the precise manner in which the party has been prejudiced by the grant of such authority. Applicants shall file their replies to said petitions within 50 days from the date of publication of this notice.

No. MC 119619 (Sub-No. 88) (republication), filed May 18, 1976, published in the FEDERAL REGISTER issue of June 17, 1976, and republished this issue. Applicant: DISTRIBUTORS SERVICE CO., a Corporation, 2000 West 43rd Street, Chicago, Ill. 60609. Applicant's representative: Arthur J. Piken, One LeFrak City Plaza, Flushing, N.Y. 11368. An order of the Commission, Review Board Number 2, dated March 18, 1977, and served April 4, 1977, finds that the present and future public convenience and necessity require operation by applicant,

in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, in the transportation of meats, meat products and meat byproducts, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides, and commodities in bulk, in tank vehicles), from the facilities used by Dinner Bell Foods, Inc., located at Archbold, Defiance, and Troy, Ohio, to King George, Va., and points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and the District of Columbia, restricted to the transportation of traffic originating at the named origins and destined to the named destination territory.

NOTE.—The purpose of this republication is to add the additional origin point of Defiance, Ohio.

No. MC 136611 (Sub-No. 1) (republication), filed June 24, 1976, published in the *FEDERAL REGISTER* issues of August 12, 1976, as corrected October 21, 1976, and republished this issue. Applicant: RED & WHITE MARKET & TRANSFER, INC., 1214 East South Street, Hastings, Nebr. 68901. Applicant's representative: Gallyn L. Larsen, P.O. Box 81849, Lincoln, Nebr. 68501. An Order by the Commission, Review Board No. 1, dated September 15, 1977, and served September 20, 1977, finds on further consideration that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier, by motor vehicle, over irregular routes, in the transportation of: (1) (a) *Agricultural machinery, and equipment, between Hastings, Nebr., on the one hand, and, on the other, points in Colorado, Iowa, Kansas, Minnesota, and South Dakota*; (b) *agricultural implements and parts thereof, between Hastings, Nebr., on the one hand, and, on the other, points in Missouri, Oklahoma, and Texas*; (c) *farm machinery and parts thereof, from Hastings, Nebr., to St. Paul, Minn.; Sioux Falls, S.D., points in that part of Iowa on and north of U.S. Highway 6 and on and west of U.S. Highway 65, and those in that part of Minnesota on and west of U.S. Highway 65 and on and south of U.S. Highway 14*; and (d) *farm implements and parts thereof, from St. Paul, Minn., to Algona, Charles City, and Spencer, Iowa; and Hastings and Omaha, Nebr.*; (2) *farm truck bodies, from Hastings, Nebr., to points in Idaho, Illinois, Indiana, Kentucky, Louisiana, Missouri, Montana, North Dakota, Oklahoma, Texas, Utah, and Wyoming*; (3) *lumber, sheet metal, and hardware, from points in Illinois, Indiana, Kentucky, and Louisiana, to Hastings, Nebr.*; (4) *lumber, nuts, bolts, rivets, and sheet metal, from points in Missouri, Oklahoma, Texas, Utah, and Idaho, to Hastings, Nebr.*; (5) *farm truck body parts, from Louisville, Ky., to Hastings, Nebr.*; (6) *farm machinery, and parts, from Hastings, Nebr., to points in Iowa, Illinois, Missouri, Kansas, Colorado, South Dakota, North Dakota, Min-*

nesota, Wyoming, Montana, and Indiana; (7) *machinery parts, supplies, and materials used in the manufacture of farm machinery, from points in Iowa, Illinois, Missouri, Kansas, Colorado, North Dakota, South Dakota, Minnesota, Wyoming, Montana, and Indiana, to Hastings, Nebr.*; and

(8) (a) *agricultural and industrial machinery and equipment and parts thereof, between Hastings, Nebr., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii and Nebraska)*; and (b) *tubing from Delta, Ohio to Hastings, Nebr.*; restricted in parts (1) through (8) above to the transportation of traffic originating at the named origin points and destined to the named destination points, provided, however, that the said restriction shall not preclude the transportation of traffic originating at or destined to Hastings, Nebr., when such traffic has had an immediately prior or subsequent movement in foreign commerce; that applicant is fit, willing and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to include the District of Columbia in part (8) (a) of the application and to change the restriction to read: "restricted in parts (1) through (8) above, to the transportation of traffic originating at the named origin points and destined to the named destination points, provided, however, that the said restriction shall not preclude the transportation of traffic originating at or destined to Hastings, Nebr., when such traffic has had an immediately prior or subsequent movement in foreign commerce", in lieu of restriction as previously published.

No. MC 140743 (Sub-No. 3) (republication), filed March 17, 1975, published in the *FEDERAL REGISTER* issue of April 24, 1975, and republished this issue. Applicant: GORSKI BULK TRANSPORT, INC., 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080. Applicant's representative: William B. Elmer (same address as applicant). An Order of the Commission, Review Board Number 3, dated July 15, 1977, and served August 19, 1977, orders that Gorski Bulk Transport, Inc., of Harrow, Ontario, Canada (a Canadian corporation) be substituted as applicant in lieu of Gorski Bulk Transport, Inc., of St. Clair Shores, Mich. (a Michigan corporation). An Order of the Commission, Review Board Number 3, dated September 12, 1977, and served September 29, 1977, finds that the present and future public convenience and necessity require operation by the substituted applicant, in foreign commerce, as a common carrier by motor vehicle, over irregular routes, in the transportation of alcoholic beverages, in bulk, in tank vehicles, from the ports of entry on the International boundary line between the United States and Canada located at or near Port Huron, Marine City, and Detroit, Mich., Buffalo, Niagara Falls, Ogdensburg, Rooseveltown, Champlain, Rouses Point, and Alexandria Bay, N.Y.,

Derby Line, Vt., and West Stewartstown, N.H., to the facilities of Joseph E. Seagram & Sons, Inc., at or near Lawrenceburg, Ind., restricted to the transportation of shipments originating at Waterloo, Ontario, and Montreal, Quebec, Canada. The substituted applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is (1) to indicate the addition of Derby Line, Vt., and West Stewartstown, N.H., as additional ports of entry; and (2) to indicate the grant of Montreal, Canada as an additional origin point.

MOTOR CARRIER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the *FEDERAL REGISTER*. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with Section 247(d) (3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d) (4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for

good cause shown, and restrictive amendments will not be entertained following publication in the *Federal Register* of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 531 (Sub-No. 348), filed August 15, 1977. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road (P.O. Box 14048), Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid Animal Feed Supplements*, in bulk, in tank vehicles, from Westwego, La., to Nacogdoches, Tex.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Houston, Tex. Common control may be involved.

No. MC 1117 (Sub-No. 13) (Amendment), filed March 21, 1977, published in the *FEDERAL REGISTER* issue of May 19, 1977, and republished as amended this issue. Applicant: M.G.M. TRANSPORT CORP., 70 Maltese Drive, Totowa, N.J. 07512. Applicant's representative: Morton E. Kiel, 5 World Trade Center, Suite 6193, New York, N.Y. 10048. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *New furniture*, from Liberty, Salisbury, Troy, Brisco, Greensboro, Lexington, Ashboro, Lincolnton, Mount Airy, Pleasant Gardens and Winston-Salem, N.C., to Connecticut, New Jersey, New York, and Philadelphia, Pa.; (2) *furniture frames*, from Greensboro, N.C., to Connecticut, New Jersey, New York, and Philadelphia, Pa.; and (3) *new furniture and furniture parts*, from the plantsite of Contemporary Shells, Inc., located in Garden City, N.Y., to points in North Carolina.

NOTE.—The purpose of this republication is to amend applicant's origin point in (1) above and to add a plantsite in (3) above. Hearing is assigned to commerce on November 10, 1977, at 9:30 a.m. Local Time, at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. MC 8535 (Sub-No. 59), filed August 30, 1977. Applicant: GEORGE TRANSFER AND RIGGING CO., INC., P.O. Box 500, Parkton, Md. 21120. Applicant's representative: John Guandolo, 1000 16th Street, NW., Washington, D.C. 20036. NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 106557 (Sub-No. 7) (Correction), filed July 25, 1977, published in the FEDERAL REGISTER issue of September 1, 1977 and republished as corrected this issue. Applicant: PAMCO, INC., P.O. Box 926, Columbus, Ohio 43216. Applicant's

representative: Boyd B. Ferris, 50 West Broad St., Columbus, Ohio 43215. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Rendering products, by-products, and hides* between Columbus, Ohio, on the one hand, and, on the other, points in Wisconsin, New Jersey, New Hampshire, Massachusetts, New York, and Maine, under a continuing contract or contracts with Inland-Ohio Hide, Inc., and Inland Products, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Columbus, Ohio. The purpose of this correction is to include Inland-Ohio Hide, Inc. as a contracting shipper.

No. MC 106603 (Sub No. 156), filed August 25, 1977. Applicant: Direct Transit Lines, Inc., 200 Colrain St. SW., Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Levitt, 22375 Haggerty Rd., P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Roofing, building materials and siding and materials used in the installation and application of such commodities (except commodities in bulk)* from Franklin, Ohio to points in Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, Mississippi, Missouri, New Jersey, New York, Pennsylvania, Tennessee, West Virginia, and Wisconsin; (2) *Materials, equipment and supplies used in the manufacture, installation or application of roofing or building materials (except commodities in bulk)* from points in Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, Mississippi, Missouri, New Jersey, New York, Pennsylvania, Tennessee, West Virginia and Wisconsin to Franklin, Ohio.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Chicago, Illinois or Washington, D.C. Common control may be involved.

MC 106674 (Sub-No. 253), filed August 29, 1977. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Linda J. Sundy (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Part 1, Building materials, roofing and siding and materials used in the installation and application of such commodities (except commodities in bulk)*. From Franklin, Ohio to points in Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, New Jersey, New York, North Carolina, South Carolina, Pennsylvania, Tennessee, Virginia, West Virginia, Wisconsin and the District of Columbia. Part 2, *Materials, equipment and supplies used in the manufacture, installation or application of building, roofing or siding materials (except commodities in bulk)* from points in Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, New Jersey, New York, North Car-

olina, South Carolina, Pennsylvania, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia to Franklin, Ohio.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Illinois or Indianapolis, Indiana.

Docket No. MC 107012 (Sub-No. 250), filed August 29, 1977. Applicant: NORTH AMERICAN VAN LINES, INC., Lincoln Highway East and Meyer Rd., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representatives: Gerald A. Burns, P.O. Box 988, Fort Wayne, Ind. 46801. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *lawn mowers, rotary tillers, lawn and garden tractors, snow throwers, powered lawn and garden equipment, and parts and accessories* therefor from points in California, Connecticut, Florida, Illinois, Indiana, Iowa, Kansas, Maryland, Mississippi, Missouri, Nebraska, New Jersey, North Carolina, Ohio, South Carolina, Tennessee and Wisconsin, to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at either Chicago, Illinois, or Washington, D.C.

Docket No. MC 107012 (Sub-No. 251), filed August 31, 1977. Applicant: NORTH AMERICAN VAN LINES, INC., Lincoln Highway East and Meyer Rd., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representatives: Gerald A. Burns (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Carpet tile, cartoned from the plantsite and storage facilities of Ozite Corporation, located at or near Libertyville, Ill., to points in Alabama, Connecticut, District of Columbia, Florida, Georgia, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia and Wisconsin.*

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at either Chicago, Ill., or Washington, D.C.

No. MC 107460 (Sub-No. 69), filed August 26, 1977. Applicant: WILLIAM Z. GETZ, INC., 3055 Yellow Goose Rd., Lancaster, Pa. 17601. Applicant's representative: Donald D. Shipley (same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Metal roofing and fabricated metal products, (except commodities in bulk)* from the plant site of Fabral Corporation located at or near Jackson, Ga. to the plant site of Fabral Corporation located at or near Gridley, Illinois, under a continuing contract or contracts with Fabral Corporation.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Washington, D.C. or Harrisburg, Pa.

NOTICES

No. MC 107496 (Sub-No. 1102), filed August 29, 1977. Applicant: RUAN TRANSPORT CORPORATION, 3200 Ruan Center, 666 Grand Ave., Des Moines, Iowa 50309. Applicant's representative: E. Check, P.O. Box 855, Des Moines, Iowa 50304. Applicant seeks authority to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, from Butler County, Ohio to points in Indiana.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill. or Des Moines, Iowa.

No. MC 107839 (Sub-No. 173), filed September 12, 1977. Applicant: DENVER-ALBUQUERQUE MOTOR TRANSPORT, INC., 2121 E. 67th Ave., Denver, Colo. 80216. Applicant's representative: Edward L. Gordon, P.O. Box 16106, Denver, Colo. 80216. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs, pharmaceutical materials, chemicals, alcoholic beverages, tobacco products, pet foods, and commodities* generally dealt in by distribution warehouses, (a) from Denver, Colo., to points in the United States in and west of Minnesota, Iowa, Missouri, Arkansas and Louisiana (except Alaska and Hawaii); and (b) from points in the previously described area of the United States in (a) above to Denver, Colo., restricted to traffic originating at or destined to consolidated warehouses or distribution warehouses in Denver, Colo.

NOTE.—Applicant seeks to tack the requested authority in (a) and (b) above at Denver, Colo. Applicant requests that this application be consolidated with other similar applications set for hearing at Denver, Colo. on November 14, 1977.

No. MC 108119 (Sub-No. 67), filed August 25, 1977. Applicant: E. L. MURPHY TRUCKING CO., a corporation, P.O. Box 3010, St. Paul, Minn. 55165. Applicant's representative: Andrew R. Clark, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Cranes and bulk material handling systems*, and (2) *Parts and accessories for cranes and bulk material handling systems*. Between the plantsites and facilities of Paceco division of Fruehauf Corporation in Harrison County, Mississippi, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Los Angeles or San Francisco, Calif.

No. MC 109397 (Sub-No. 368), filed August 28, 1977. Applicant: TRI-STATE MOTOR TRANSIT CO., a corporation, P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs (same address as Applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron or steel articles*, from the plantsite of Nucor Steel Corporation lo-

cated at or near Darlington, South Carolina, to points in that part of the United States east of a line beginning at the mouth of the Mississippi River and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minnesota, thence northward along the western boundaries of Itasca and Koochiching Counties, Minnesota, to the United States-Canada Boundary line.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at either Charleston, South Carolina or Washington, D.C.

Docket No. MC 110686 (Sub-No. 52), filed September 12, 1977. Applicant: MC-CORMICKDRAY-LINE, INC., Avis, Pa. 17721. Applicant's representative: David A. Sutherland, 1150 Connecticut Ave., Suite 400, Washington, D.C. 20036. Authority is sought to operate as a common carrier by motor vehicle, over irregular routes transporting: *Aircraft and internal combustion engines, aircraft and internal combustion engine parts, and materials, supplies and equipment* used in or incidental to the manufacture, storage, sale, distribution or installation of aircraft and internal combustion engines, and aircraft and internal combustion engine parts, between the plant sites of Lycoming Division of AVCO Corporation, located at or near Williamsport, Pa., on the one hand, and, on the other, points in the United States in and east of the states of Wisconsin, Illinois, Kentucky, Tennessee, Mississippi, and Louisiana. Hearing: October 19, 1977 at 9:30 a.m. Local Time, at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. MC 111299 (Sub-No. 12), filed August 30, 1977. Applicant: KIRVAN TRUCK LINES, INC., P.O. Box 829, International Falls, Minn. 56649. Applicant's representative: F. H. Kroeger, 1745 University Ave., St. Paul, Minn. 55104. Authority sought to operate as a common carrier by motor vehicle over irregular routes, transporting (1) *Paper and paper products*; (2) *materials, equipment and supplies* used in the production and manufacture of paper and paper products, from (1) International Falls, Minnesota, to points in Minnesota and Wisconsin; and (2) from points in Minnesota and Wisconsin, to International Falls, Minnesota.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at St. Paul, Minnesota.

No. MC 111401 (Sub-No. 497), filed August 26, 1977. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Blvd., Post Office Box 632, Enid, Okla. 73701. Applicant's representative: Alvin L. Hamilton (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Molasses, liquid feeds and liquid feed supplements*, in bulk, in tank vehicles, from Garden City, Kans., to points in Colorado, Kansas, Nebraska, New Mexico, Oklahoma and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Wichita Kans., or Kansas City, Kans.

No. MC111401 (Sub No. 498), filed August 30, 1977. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Blvd., Post Office Box 632, Enid, Okla. 73701. Applicant's representative: Alvin L. Hamilton (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Hydrochloric (Muriatic) acid*, in bulk, in tank vehicles, from Norco, La., to points in Arkansas and Oklahoma.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New Orleans, La., or Memphis, Tenn.

No. MC111401 (Sub No. 499), filed August 29, 1977. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Blvd., Post Office Box 632, Enid, Okla. 73701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Sodium Bichromate Solution*, in bulk, in tank vehicles, from Corpus Christi, Texas to Telluride, Colorado; (2) *Toraphene Solution*, in bulk, in tank vehicles, from Los Fresnos, Texas to Altus, Oklahoma; (3) *Cresote Oil*, in bulk, in tank vehicles, from Lone Star, Texas to Bossier City, Louisiana; and (4) *Liquid Chemicals*, in bulk, in tank vehicles, from Pascagoula, Mississippi to Ports of Entry on the International Boundary line between the United States and Mexico located in Texas. Restriction: Restricted in Part (4) to shipments moving in foreign commerce only.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New Orleans, La., or Houston, Tex.

No. MC 112617 (Sub-No. 375), filed August 26, 1977. LIQUID TRANSPORTERS, INC., 1292 Fern Valley Rd., P.O. Box 21395, Louisville, Ky. 40221. Applicant's representative: Leonard A. Jaskiewicz, 1730 M Street, NW., Suite 501, Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Bisphenol*, in bulk, in tank or hopper type vehicles, from (1) the facilities of United States Steel Corporation at Haverhill, Scioto County, Ohio, to points in the United States (except Alaska and Hawaii); and (2) *returned and rejected shipments*, from the above named destination territory to the above named origin point.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Washington, D.C.

No. MC 112822 (Sub No. 426), filed August 26, 1977. Applicant: BRAY LINES INCORPORATED, 1401 N. Little St., P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Charles D. Midkiff (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular

routes, transporting: (1) *Foodstuffs*; (2) *pharmaceutical materials, supplies and products*; (3) *chemicals*; (4) *alcoholic beverages*; (5) *tobacco products*; (6) *pet foods*; (7) *such commodities as are dealt in by distribution or consolidation warehouses for the commodities described in (1), (2), (3), (4), (5) and (6)*; and (8) *except commodities when moving with regulated commodities, (a) from Denver, Colo., to points in the United States (except Alaska and Hawaii) in and west of Minnesota, Iowa, Missouri, Arkansas, and Louisiana, and (b) from points in the United States (except Alaska and Hawaii) in and west of Minnesota, Iowa, Missouri, Arkansas, and Louisiana, to Denver, Colo. Restricted against the transportation of commodities in bulk.*

NOTE.—Common control may be involved. Hearing scheduled for November 14, 1977 at 9:30 a.m. local time in Denver, Colo. To be consolidated with No. MC 111375 (Sub-No. 85) et al.

No. MC 113000 (Sub-No. 6), filed August 25, 1977. Applicant: RICHARD A. EVAVOLD, d.b.a. EVAVOLD TRUCKING, P.O. Box 166, Ashby, Minn. 56309. Applicant's representative: F. H. Kroeger, 1745 University Ave., St. Paul, Minn. 55104. Authority sought to operate as a Contract Carrier, by motor vehicle, over irregular routes, transporting: *Insulation materials*, from Underwood, Minnesota, to points in Colorado, Idaho, Kansas, Missouri, Montana, New Mexico, and Wyoming, under a continuing contract or contracts with Pal-O-Pak Insulation Co., Inc., located at Hartland, Wisconsin.

No. MC-113434 (Sub-No. 83), filed August 26, 1977. Applicant: GRA-BELL TRUCK LINE, INC., 679 Lincoln Ave., Holland, Mich. 49423. Applicant's representative: Wilhelmina Boersma, 1600 First Federal Bldg., Detroit, Mich. 48226. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, except in bulk, in vehicles equipped with mechanical refrigeration, from Greenville, Michigan to points in Illinois, Indiana, Ohio, those in New York on and West of Interstate Highway 81, Pennsylvania, West Virginia, Kentucky, Missouri, Iowa, Minnesota and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Chicago, Illinois or Washington, D.C.

No. MC 113651 (Sub-No. 228), filed August 4, 1977. Applicant: INDIANA REFRIGERATOR LINES, INC., Riggm Road, P.O. Box 552, Muncie, Ind. 47305. Applicant's representative: Bernard J. Kompare, 10 South LaSalle St., Suite 1600, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses (except hides and commodities in bulk)*, from Lexington, Kentucky to points in Florida, Georgia, Illinois, Indiana, Maryland, Massachusetts, Michigan, Louisi-

ana, Mississippi, Ohio, Pennsylvania, Tennessee and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Lexington, Ky., or Chicago, Ill.

No. MC 114194 (Sub-No. 196), filed August 31, 1977. Applicant: KREIDER TRUCK SERVICE, INC., 8003 Collinsville Rd., East St. Louis, Ill. 62201. Applicant's representative: Ernest A. Brooks, II, 1301-02 Ambassador Bldg., St. Louis, Mo. 63101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Clay, in bulk*, from High Hill, Missouri, to points in Maryland, Ohio and Pennsylvania.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either St. Louis, or Kansas City, Mo.

No. MC 114457 (Sub-No. 327), filed: August 23, 1977. Applicant: DART TRANSIT CO. (a corporation), 2102 University Avenue, St. Paul, Minn. 55114. Applicant's representative: James C. Hardman, 33 North LaSalle Street, Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Fibreboard cans and metal ends from the plant sites of Boise Cascade Corporation at or near Bradford, Pa.; Bristol, Pa.; East Greenville, Pa.; Forest Park, Ga.; Indianapolis, Ind.; Whiting, Ind.; Jackson, Tenn.; Memphis, Tenn.; Kansas City, Kans.; Orrville, Ohio; St. Louis, Mo.; and West Chicago, Ill. to points in the United States in and east of Minnesota, Iowa, Missouri, Kansas, Oklahoma, and Texas; and (2) Materials, equipment and supplies used in the production and manufacture of fibreboard cans and metal ends from points of destination to origins listed in (1) above.*

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at St. Paul, Minn., or Chicago, Ill.

Docket No. MC 114533 (Sub-No. 360), filed: August 26, 1977. Applicant: BANKERS DISPATCH CORP., 1106 West 35th St., Chicago, Ill. 60609. Applicant's representative: Warren W. Wallin, 1106 West 35th St., Chicago, Ill. 60609. Authority sought to operate as a common carrier by motor vehicle over irregular routes, transporting: *Radiopharmaceuticals, radioactive drugs and medical isotopes*, between points in Kansas, Missouri, and Nebraska. Restricted to traffic having a prior or subsequent movement by air.

NOTE.—Applicant holds motor contract carrier authority in No. MC 128816 and subs thereunder, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass. or Kansas City, Mo.

MC 114552 (Sub-No. 138), filed August 19, 1977. Applicant: SENN TRUCKING CO., a corporation, Post Office Drawer 220, Newberry, S.C. 29108. Applicant's representative: William P. Jackson, Jr., 3426 North Washington Boulevard, Post Office Box 1267, Arlington, Va. 22210. Authority sought to operate as a common carrier by motor vehicle, over irregular

routes, transporting: *Plywood, paneling, and composition board*, from Boston, Mass., to points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas, Louisiana, and Texas.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 114552 (Sub-No. 140), filed: August 31, 1977. Applicant: SENN TRUCKING CO., a corporation, P.O. Box 220, Newberry, S.C. 29108. Applicant's representative: Ken Simons (same address as applicant). Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: (1) *Roofing and building materials, and materials used in the installation and application of such commodities (except commodities in bulk)*, from Franklin, Ohio to points in Alabama, Delaware, District of Columbia, Florida, Georgia, Indiana, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia, and (2) *Materials, equipment and supplies used in the manufacture, installation or application of roofing or building materials (except commodities in bulk)* from points in Alabama, Delaware, District of Columbia, Florida, Georgia, Indiana, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia to Franklin, Ohio.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 114569 (Sub-No. 188), filed August 31, 1977. Applicant: SHAFFER TRUCKING, INC., P.O. Box 418, New Kingstown, Pa. 17072. Applicant's representative: N. L. Cummins (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *foodstuffs and related products*, (except in bulk, moving in vehicles equipped with mechanical refrigeration), between the warehouse sites of Louisville Freezer Center in Jefferson County, Kentucky, on one hand, and, on the other points in Alabama, Delaware, Georgia, Illinois, Indiana, Iowa, Maryland, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia. Restriction: Restricted to traffic originating and terminating at points in the above named states and to traffic originating and terminating at the warehouse sites of Louisville Freezer Center, in Jefferson County, Kentucky.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Louisville, Ky., or Washington, D.C.

No. MC 114569 (Sub-No. 189), filed August 31, 1977. Applicant: SHAFFER TRUCKING, INC., P.O. Box 418, New Kingstown, Pa. 17072. Applicant's representative: N. L. Cummins (same address as applicant). Authority sought to oper-

ate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen fruits and frozen vegetables*, from points in Cameron and Hidalgo Counties, Tex., to Cambridge, Md.; Jackson, Ohio; and Kansas City, Mo.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Winston-Salem, N.C., or Washington, D.C.

No. MC 115233 (Sub-No. 2), filed: August 22, 1977. Applicant: MARSHALL STORAGE CO., a corporation, Highway 19 East, P.O. Box 145, Marshall, Minn. 56258. Applicant's representative: Gene P. Johnson, P.O. Box 2471, Fargo, N. Dak. 58102. Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: (1) *Glass, glass products and glass cullet*, and (2) *Materials, equipment and supplies used in the manufacture and distribution of glass and glass products (except commodities in bulk, in tank vehicles)*, between the plantsites of PPG Industries, Inc. located at Marshall, Minnesota and at or near Wichita Falls, Texas.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Minneapolis, Minnesota.

No. MC 115311 (Sub-No. 239), filed August 22, 1977. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, Ga. 31061. Applicant's representative: K. Edward Wolcott, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes transporting: *Iron and steel articles*, from points in Chatham County, Ga., to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Savannah, Ga.

MC 115841 (Sub-No. 549), filed August 31, 1977. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 9041 Executive Park Drive, Suite 110, Knoxville, Tenn. 37919. Applicant's representative: E. Stephen Heisley, 666 11th Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: *Meats, meat products, and articles distributed by meat packing plants, as described in Sections A and C of Appendix 1 to the report in Descriptions in Motor Carrier Certificates; 61 M.C.C. 209 and 766 (except hides and commodities in bulk)*, from Rockville, Missouri to points in Alabama, Georgia, North Carolina, South Carolina, and Tennessee. Restricted to shipments originating at and destined to the above named points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Kansas City, Mo., or Washington, D.C.

No. MC 116254 (Sub-No. 185), filed August 26, 1977. Applicant: CHEM-HAULERS, INC., P.O. Box 339, Florence, Ala. 35630. Applicant's representative:

Hampton M. Mills (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Muriatic acid*, in bulk, in tank vehicles, from Gulfport, Miss., to points in Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Maine, Michigan, Minnesota, Missouri, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Mobile, Ala., or Washington, D.C.

No. MC 116325 (Sub-No. 76), filed August 29, 1977. Applicant: JENNINGS BOND d.b.a. BOND ENTERPRISES, P.O. Box 8, Lutesville, Missouri 63762. Applicant's representative: Robert E. Tate, P.O. Box 517, Evergreen, Alabama 36401. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Pre-cut timber homes, prefabricated buildings, building materials, parts, and accessories (except commodities in bulk)*, from points in Washington County, Mo., to points in the United States (except Alaska and Hawaii); and (2) *material, parts, supplies, and accessories used in the manufacture of pre-cut timber homes, prefabricated buildings, building materials, parts, and accessories (except commodities in bulk)*, from points in the United States (except Alaska and Hawaii), to points in Washington County, Mo.

NOTE.—If a hearing is deemed necessary the applicant requests it be held at either St. Louis, Mo. or Washington, D.C.

No. MC 116725 (Sub-No. 23) (Amendment), filed June 1, 1977, published in the FEDERAL REGISTER issue of July 8, 1977, and republished as amended this issue. Applicant: INDIAN VALLEY ENTERPRISES, INC., 855 Maple Avenue, Harleysville, Pa. 19438. Applicant's representative: John W. Frame, P.O. Box 626, 2207 Old Gettysburg Road, Camp Hill, Pa. 17011. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs*, in vehicles equipped with mechanical refrigeration, from the plantsites and facilities of Mayfair Creamery, Division of Beatrice Foods Co., located at or near Somerset, Pa., to points in New York and New Jersey; and (2) *milk, eggs, and exempt agricultural commodities originating at points in the above-destination states and destined to the above-origin point.*

NOTE.—The purpose of this republication is to indicate the correct name of the origin point as Mayfair Creamery, division of Beatrice Foods Co., located at or near Somerset, Pa., in lieu of Keller Creamery Co., a division of Beatrice Foods Co., and reduction of authority sought. If a hearing is deemed necessary, the applicant requests that it be held at Harrisburg, Pa.

No. MC 116763 (Sub-No. 390), filed August 22, 1977. Applicant: CARL SUBLER TRUCKING, INC., North West

Street, Versailles, Ohio 45380. Applicant's Representative: H. M. Richters, P.O. Box 81, Versailles, Ohio 45380. Authority south to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: Animal Feed (except in bulk), from the plantsite of Allied Foods, Inc. at Atlanta, Ga., to the warehouse and storage facilities of Weis Markets at or near Sunbury, Pa.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Pittsburgh, Pa.

No. MC 116763 (Sub-No. 392), filed August 26, 1977. Applicant: CARL SUBLER TRUCKING, INC., North West Street, Versailles, Ohio 45380. Applicant's Representative: H. M. Richters, P.O. Box 81, Versailles, Ohio 45380. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: Foodstuffs (except in bulk) from points in Maine, to points in Delaware, Maryland, New Jersey, New York, Virginia, points in Pennsylvania east of U.S. Highway 15, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Portland, Maine.

No. MC 117119 (Sub-No. 649), filed August 29, 1977. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., P.O. Box 188, Elm Springs, Arkansas 72728. Applicant's representative: L. M. McLean (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: Pigments, Paints, and Plastic Materials (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from Glens Falls, N.Y., to points in Texas.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Atlanta, Ga., or Washington, D.C.

No. MC 117940 (Sub-No. 226) (Correction), filed July 11, 1977, published in the FEDERAL REGISTER of September 1, 1977, and republished as corrected this issue. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Allan L. Timmerman, P.O. Box 104, Maple Plain, Minn. 55359. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by or used in the operation of retail department stores (except foodstuffs, commodities in bulk, and household goods as defined by the Commission) from New York, N.Y.; Boston, Mass.; and Philadelphia, Pa., Commercial Zones to the facilities of Nordstrom, Inc., in Tukwila, Wash.; and Nordstrom Stores in Seattle, Tacoma, Yakima, Spokane, Bremerton, Bellingham, and Bellevue, Wash., restricted to traffic originating at named origins and destined to the facilities of Nordstrom's at named destinations.

NOTE.—The purpose of this republication is to indicate the phrase "Nordstrom Stores" in applicant's territorial description, omitted

in the FEDERAL REGISTER publication of September 1, 1977. If a hearing is deemed necessary, the applicant requests it be held at Seattle, Wash. Applicant holds contract carrier authority in No. MC 114789 (Sub-No. 16 and other subs); therefore dual operations may be involved.

No. MC 118610 (Sub-No. 27), filed August 31, 1977. Applicant: GEORGE PARR TRUCKING SERVICE, INC., 829 Alsop Lane, Owensboro, Kentucky 42301. Applicant's representative: George M. Catlett, Suite 708 McClure Building, Frankfort, Kentucky 40601. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: Commodities in bulk, in dump vehicles, between the site of the Owensboro Riverport Authority, located at or near Owensboro, Ky., on the one hand, and, on the other, points in Illinois, Indiana, Kentucky, and Tennessee.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Owensboro, Ky., or Louisville, Ky.

No. MC 118811 (Sub-No. 7), filed August 31, 1977. Applicant: LAWRENCE MCKENZIE, d.b.a., MCKENZIE TRUCKING SERVICE, Route 5, Box 111, Winchester, Ky. 40391. Applicant's representative: William L. Willis, Suite 708 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, in the transportation of: *Scrap metal*, in dump vehicles, from points in Kanawha, Putnam, and Wood Counties, W. Va., to the plantsites of Kentucky Electric Steel Co., and Mansbach Metal Co., located at or near Ashland, Ky.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Lexington or Ashland, Ky.

No. MC 119094 (Sub-No. 6), filed August 29, 1977. Applicant: CLARENCE S. WINTERSTEEN, d.b.a., C. S. WINTERSTEEN COMPANY, 1st Street and Park Avenue, Bemidji, Minnesota 56601. Applicant's representative: Sheldon D. McRae, Sr., 204 Fifth Street, P.O. Box 684, Bemidji, Minnesota 56601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages in containers, and related advertising materials*, from Milwaukee, Wisc., to Bemidji, Minn., under a continuing contract or contracts with Bemidji Distributing Co., Inc., located at Bemidji, Minn.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Bemidji, Minn., or Fargo, N. Dak.

No. MC 119547 (Sub-No. 47), filed August 15, 1977. Applicant: EDGAR W. LONG, INC., 3815 Old Wheeling Rd., Zanesville, Ohio 43701. Applicant's representative: Richard H. Brandon, 220 West Bridge St., P.O. Box 97, Dublin, Ohio 43017. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Glassware*, from Jeanette, Pa., to points in Alabama, Georgia, Mississippi, Oklahoma, Texas, Kansas, Missouri, North Dakota, and South Dakota, (B) *plasticware*, from Lake City and Girard, Pa.,

to points in Alabama, Georgia, Mississippi, Oklahoma, Texas, Kansas, Missouri, North Dakota, South Dakota, and Florida; and (C) *chinaware*, porcelainware, and stoneware, from Sebring and Bedford Heights, Ohio, to points in Alabama, Georgia, Mississippi, Oklahoma, Texas, Kansas, Missouri, North Dakota, South Dakota, and Florida.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Columbus, Ohio.

No. MC 119726 (Sub-No. 102), filed August 22, 1977. Applicant: N. A. B. TRUCKING CO., INC., 1644 W. Edgewood Avenue, Indianapolis, IN 46217. Applicant's representative: James L. Beatty, 130 E. Washington Street, Suite One Thousand, Indianapolis, IN 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Porcelain and enamel sinks and basins, cartoned enameled sinks, sink tops, and skids, plate or sheet steel without legs not nested*, from the plantsite of Ingram-Richardson located at or near Frankfort, Ind., and the plantsite of Lawndale Products located at or near Aurora, Ill., to the plantsite of Alabama Metal Products Company, Inc., located at or near Rosedale, Miss.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Jackson, Miss. or Indianapolis, Ind.

No. MC 119726 (Sub-No. 103), filed August 25, 1977. Applicant: N. A. B. TRUCKING CO., INC., 1644 W. Edgewood Avenue, Indianapolis, IN 46217. Applicant's representative: James L. Beatty, 130 East Washington Street, Suite One Thousand, Indianapolis, IN 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers and closures therefor*, from the plant site of Midland Glass Company at or near Warner Robins, Ga., to points in Indiana, Virginia, Oklahoma, Illinois, Ohio, Wisconsin, Michigan, North Dakota, South Dakota, Kansas, Iowa, Minnesota, West Virginia, Pennsylvania, and New York.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at New York, N.Y., or Indianapolis, Ind.

No. MC 119789 (Sub-No. 368), filed August 29, 1977. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in containers, in mechanically refrigerated equipment, from LaPorte, Texas to Holland and Whitehall, Michigan, and Trenton, New Jersey.

NOTE.—If an oral hearing is deemed necessary, the applicant requests that it be held at Chicago or Detroit, Mich.

No. MC 119792 (Sub-No. 65), filed, August 26, 1977. Applicant: CHICAGO SOUTHERN TRANSPORTATION CO.

a Corporation, 3600 South Western Avenue, Chicago, Ill. 60609. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat and dairy products*, from Fond du Lac, Wis.; Harrodsburg, Russell Springs, Cynthiana, and Tompkinsville, Ky.; Valley City, Ill.; and Atlanta, Ga., to points in Alabama, Arkansas, Florida, Kentucky, Tennessee, Louisiana, Mississippi, North Carolina, South Carolina, and Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 120981 (Sub-No. 23), filed August 29, 1977. Applicant: BESTWAY EXPRESS, INC., 905 Visco Drive, Nashville, Tenn. 37210. Applicant's representative: George M. Catlett, Suite 708 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A & B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Lexington, Kentucky, and Cynthiana, Kentucky; from Lexington, Kentucky, over Interstate Highway 75 to junction of U.S. Highway 62, thence over U.S. Highway 62 to Cynthiana, Kentucky, and return over the same route, serving no intermediate points, restricted against the handling of traffic originating at, or destined to, points in Connecticut, Delaware, Illinois, Indiana, Iowa, Michigan, Maryland, Minnesota, Massachusetts, Maine, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia, Wisconsin and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Lexington, Ky., or Frankfort, Ky.

No. MC 121120 (Sub-No. 4) (amendment), filed June 9, 1977, published in the FEDERAL REGISTER issue of July 28, 1977, and republished as amended this issue. Applicant: SOUTHERN GARMENT DISTRIBUTING CORP., 1605 W. 33rd Place, Hialeah, Fla. 33012. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in or used by a retail department or discount store, between the terminal of Southern Garment Distributing Corp. located at Orlando, Fla., on the one hand, and, on the other, points in Alachua, Bradford, Brevard, Broward, Charlotte, Citrus, Clay, Collier, Dade DeSoto, Duval, Flagler, Glades, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Lake, Lee, Manatee, Marion, Martin, Nassau, Okeechobee, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, St. Johns, St. Lucie, Sarasota, Seminole, Sumter, and Volusia Coun-

ties, Fla., restricted to traffic having a prior or subsequent movement in interstate or foreign commerce by motor or air.

NOTE.—The purpose of this amendment is to indicate the modification in the base point. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y. Common control may be involved.

No. MC 121658 (Sub-No. 9), filed August 26, 1977. Applicant: Steve D. Thompson, 1205 Percy Street, P.O. Drawer 149, Winnsboro, La. 71295. Applicant's representative: Donald B. Morrison, 1500 Deposit Guaranty Plaza, P.O. Box 22628, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): (1) Between Memphis, Tenn. and Mer Rouge, La.; From Memphis, Tenn. over U.S. Highway 61 to its junction with U.S. Highway, 82 at or near Leland, Miss.; thence over U.S. Highway 82 to its junction with U.S. Highway 165 at or near Montrose, Ark.; thence over U.S. Highway 165 to Mer Rouge, La., and return over the same routes, serving no intermediate points except those in Louisiana lying on U.S. Highway 165 between the Arkansas-Louisiana State Line and Mer Rouge, La.; (2) between the junction of U.S. Highway 82 with U.S. Highway 65 south of Lake Village, Ark. and Lake Providence, La.; From the junction of U.S. Highway 82 with U.S. Highway 65; thence over U.S. Highway 65 to Lake Providence, La., and return over the same route, serving no intermediate points except those in Louisiana lying on U.S. Highway 65 between the Arkansas-Louisiana State line and Lake Providence, La.; (3) between the junction of U.S. Highway 82 with U.S. Highway 65 south of Lake Village, Ark. and Oak Grove, La.; From the junction of U.S. Highway 82 with U.S. Highway 65; thence over U.S. Highway 65 to its junction with Arkansas Highway 159 at Eudora, Ark.; thence over Arkansas Highway 159 and Louisiana Highway 17 to Oak Grove, La. and return over the same route, serving no intermediate points except those in Louisiana lying on Louisiana Highway 17 between the Arkansas-Louisiana State line and Oak Grove, La.; (4) between Winnfield, La. and Natchitoches, La.; From Winnfield, La. over U.S. Highway 84 to Clarence, La., thence over Louisiana Highway 6 to Natchitoches, La. and return over the same route, serving all intermediate points; and (5) between Memphis, Tenn. and Jackson, Miss. over Interstate 55 as an alternate route for operating convenience only, serving no intermediate points and serving Jackson, Miss. as a point of joinder only, restricted against the transportation of shipments moving from, to or through Memphis, Tenn. and its commercial zone which originate at or are destined to points in Mississippi.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Memphis, Tenn. and Monroe, La.

No. MC 123048 (Sub-No. 365), filed August 29, 1977. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 5021 21st Street, Post Office Box 1557, Racine, WI 53401. Applicant's representative: Paul C. Gartzke, 121 West Doty Street, Madison, WI 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Water heaters, boilers, garbage disposers and parts thereof, from garbage disposers and parts thereof*, from Kankakee, Illinois to points in Minnesota, North Dakota, South Dakota, Nebraska, Iowa, and Kansas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held either at Chicago, Illinois or Washington, D.C.

No. MC 123407 (Sub-No. 397), filed August 29, 1977. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: H. E. Miller, Jr. (same Address as Applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood, paneling, lumber and lumber products*, from Camden, N.J.; Philadelphia, Pa.; Norfolk, Va.; Baltimore, Md.; Charleston, S.C.; and New Orleans, La., to points in the United States in and east of Montana, Wyoming, Colorado, and New Mexico (except plywood, composition board, and wood moldings, from Charleston, South Carolina, to points in Illinois, Indiana, Iowa, Michigan, Minnesota, North Dakota, Ohio, South Dakota, and Wisconsin).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Detroit, Mich. or Toledo, Ohio.

No. MC 123407 (Sub-No. 400), filed August 29, 1977. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: H. E. Miller, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *building and construction materials, and iron and steel articles*, from the plant sites or warehouses of Penn-Dixie Steel Corporation at or near Albuquerque, N. Mex.; Denver, Colo.; Blue Island, Joliet, and Chicago, Ill.; Grand Rapids, Lansing, Petroskey, Holland, and Detroit, Mich.; Toledo and Columbus, Ohio; Winterset, Centerville, and West Des Moines, Iowa; Fort Wayne and Kokomo, Ind.; Jackson, Miss.; Kingsport, Knoxville, and South Pittsburg, Tenn.; Salisbury, N.C.; Atlanta, Ga.; Nazareth, Pa.; and Milwaukee, Wis.; to points in the United States (except Alaska and Hawaii) and (except iron and steel articles) from Kokomo, Ind., to Delaware, Ky., Louisiana, Michigan, Minnesota, Mississippi, Missouri, North Dakota, Pennsylvania, South Dakota, Texas, West Virginia, and Wisconsin; and (except iron and steel articles) from Joliet, Ill., to Kansas, Minnesota,

Nebraska, and South Dakota); and (2) *materials and supplies used in the manufacture of building and construction materials and iron and steel articles from points in the United States (except Alaska and Hawaii)*, to origin points listed in Part (1) above.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill., or Indianapolis, Ind.

No. MC 123544 (Sub-No. 11), filed August 17, 1977. Applicant: BERTSCH TRUCKING, INC., Hillsboro, N. Dak. 58045. Applicant's representative: James E. Ballenthin, 630 Osborn Building, St. Paul, Minn. 55102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *farm machinery and implements and parts thereof from Fargo, North Dakota to points in the United States (except Alaska and Hawaii)*; (2) *farm machinery and implements and parts thereof from ports of entry on the International Boundary line between the United States and Canada located at Neche and Pembina, N. Dak. and Noyes, Minn. to points in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, North Carolina, Rhode Island, South Carolina, Tennessee, Virginia, Vermont, and West Virginia*; (3) *damaged or defective farm machinery and implements and parts thereof from the destination points in (1) above to Fargo, N. Dak.; and (4) damaged or defective farm machinery and implements and parts thereof from the destination points in (2) above to ports of entry on the International Boundary line between the United States and Canada located at Neche and Pembina, N. Dak. and Noyes, Minn., under a continuing contract with Versatile Manufacturing, Ltd. located at Winnipeg, Manitoba, Canada. Restricted in (2) to traffic originating and (4) to traffic destined to points in Manitoba, Canada.*

NOTE.—Applicant holds common carrier authority in MC-135045 (Sub-No. 2) therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.

No. MC 123819 (Sub-No. 48), filed August 31, 1977. Applicant: ACE FREIGHT LINE, INC., P.O. Box 16589, Memphis, Tenn. 38116. Applicant's representative: Bill R. Davis, Suite 101, Emerson Center, 2814 New Spring Rd., Atlanta, Ga. 30339. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fish meal from Empire, La. to Port Arthur, Tex.*

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New Orleans, La.

No. MC 124078 (Sub-No. 743), filed August 29, 1977. Applicant: SCHWERTMAN TRUCKING CO., a Corporation, 611 South 28 Street, Milwaukee, Wis. 53215. Applicant's representative: Richard H. Prevette, P.O. Box 1601, Milwaukee, Wis. 53201. Authority sought to operate as a *common carrier*, by motor

vehicle, over irregular routes, transporting: *Fly ash, in bulk, (1) from Clinton, Iowa, to points in Illinois, and (2) from Lansing, Iowa, to points in Illinois, Minnesota, and Wisconsin.*

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Chicago, Ill. Common control may also be involved.

No. MC 124078 (Sub-No. 745), filed August 29, 1977. Applicant: SCHWERTMAN TRUCKING CO., a Corporation, 611 South 28 Street, Milwaukee, Wis. 53215. Applicant's representative: James R. Ziperski, P.O. Box 1601, Milwaukee, Wis. 53201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Phosphoric fertilizer solutions and spent phosphoric acid, in bulk, in tank vehicles, from Clinton and Cullman, Ala.; Magnolia, Ark.; Cleveland, Herando, McCormick and Pontotoc, Miss.; and Cleveland, Tenn., to points in Alabama, Arkansas, Florida, Illinois, Kentucky, Louisiana, Mississippi, and Texas.*

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill., or Atlanta, Ga. Common control may be involved.

No. MC 124211 (Sub-No. 304), filed August 17, 1977. Applicant: HILT TRUCK LINE, INC., P.O. Box 988, D.T.S., Omaha, Neb. 68101. Applicant's representative: Thomas L. Hilt (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grain handling equipment and related parts and accessories, and materials, equipment and supplies used in the manufacture and distribution of grain handling equipment and related parts and accessories. Between points in Cuming County, Nebr., on the one hand and, on the other, points in the United States in and west of Michigan, Ohio, Indiana, Illinois, Missouri, Arkansas, and Texas, except Alaska and Hawaii.*

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Lincoln or Omaha, Nebr.

No. MC 124306 (Sub-No. 32), filed August 29, 1977. Applicant: KENAN TRANSPORT CO. INC., P.O. Box 2729, Chapel Hill, N.C. 27514. Applicant's representative: Richard A. Mehley, 1000 16th Street, N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastics, in bulk, in tank vehicles, from Brunswick, Ga. to points in Alabama, Tennessee, North Carolina, and South Carolina.*

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held in Washington, D.C. or Atlanta, Ga.

No. MC 124692 (Sub-No. 179), filed August 26, 1977. Applicant: SAMMONS TRUCKING, A Corporation, P.O. Box 4347 Missoula, Mont. 59806. Applicant's representative: J. David Douglas (same address as applicant). Authority sought

to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Contractors' equipment, tools, materials and supplies between points in California, Idaho, Minnesota, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming*; and (2) *Contractors' equipment, tools, materials and supplies in shipper's own trailers between points in California, Idaho, Minnesota, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming.*

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 124947 (Sub-No. 70), filed August 25, 1977. Applicant: MACHINERY TRANSPORTS, INC., 116 Allied Road, Stroud, Okla. 74079. Applicant's representative: David J. Lister, 1945 South Redwood Road, Salt Lake City, Utah 84104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting iron and steel articles from the plantsite of Nucor Steel—Division of Nucor Corp., located at or near Norfolk, Nebr., to points in North Dakota, Minnesota, Wisconsin, Illinois, Indiana, Ohio, and Michigan.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr., or Denver, Colo.

No. MC 125023 (Sub-No. 49), filed August 30, 1977. Applicant: SIGMA-4 EXPRESS, INC., P.O. Box 9117, Erie, Pa. 16504. Applicant's representative: Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages, in containers, (1) from Chicago, Ill., to points in Virginia and West Virginia, and (2) from Monroe, Wis., to points in North Carolina, South Carolina, Virginia, and West Virginia.*

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in either Chicago, Ill., or Washington, D.C.

No. MC 125433 (Sub-No. 118), filed August 29, 1977. Applicant: F-B TRUCK LINE CO., a Corporation, 1945 South Redwood Road, Salt Lake City, Utah 84104. Applicant's representative: David J. Lister (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Extruded aluminum products (except those products the transportation of which because of size or weight require the use of special equipment), from Phoenix, Arizona, to points in the United States (except Alaska and Hawaii).*

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Salt Lake City, Utah.

No. MC 126899 (Sub-No. 116), filed August 22, 1977. Applicant: USHER TRANSPORT, INC., P.O. Box 3156, Paducah, Ky. 42001. Applicant's representative: George M. Catlett, Suite 708 McClure Building, Frankfort, Ky. 40601.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic liquors, in containers, from Paducah, Ky., to points in the United States (except Alabama, Arkansas, Georgia, Indiana, Kansas, Louisiana, Mississippi, Missouri, Oklahoma, South Carolina, Tennessee, Texas, Alaska, Hawaii, and those in Illinois on and south of U.S. Highway 136), restricted to the handling of traffic originating at Paducah, Ky.*

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Louisville, Ky., or Paducah, Ky.

No. MC 127337 (Sub-No. 18), filed August 26, 1977. Applicant: CHET'S TRANSPORT, INC., Charlotte, Maine 04666. Applicant's representative: Lawrence E. Lindeman, Suite 1032 Pennsylvania Building, Pennsylvania & 13 St. NW, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: (1) *Frozen blueberries, from points in Maine to ports of entry on the United States-Canada boundary line located in Maine, restricted to shipments destined to the Province of Quebec, Canada; (2) Meat and meat products, from Albany, N.Y., and Boston, Mass., to ports of entry on the United States-Canada boundary line located in Maine and Massachusetts, restricted to shipments destined to the Provinces of Nova Scotia and Newfoundland, Canada; (3) Preserved fish, and fish, the transportation of which is otherwise exempt from economic regulation pursuant to section 203(b) (6) of the Interstate Commerce Act in mixed loads with preserved fish, from ports of entry on the United States-Canada boundary line located in Maine and Massachusetts to points in the United States (except Alaska and Hawaii), restricted to shipments originating in the Provinces of New Brunswick, Nova Scotia, Newfoundland, and Prince Edward Island, Canada; and (4) Foodstuffs, and agricultural commodities, the transportation of which is otherwise exempt from economic regulations pursuant to section 203(b) (6) of the Interstate Commerce Act in mixed loads with foodstuffs, from points in Massachusetts to ports of entry on the United States-Canada boundary line located in Maine and Massachusetts, restricted to traffic destined to points in the Province of Newfoundland, Canada.*

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Boston, Mass., or Portland, Maine.

No. MC 127625 (Sub-No. 25), filed August 29, 1977. Applicant: SANTEE CEMENT CARRIERS, INC., P.O. Box 638, Holly Hill, S.C. 29059. Applicant's representative: Frank B. Hand, Jr., P.O. Drawer C, Berryville, Va. 22611. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer, in bulk, in tank trailers, from Spartanburg, S.C., to points in Georgia on and north of U.S. Highway 78.*

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Columbia, S.C.

No. MC 127810 (Sub-No. 3) (amendment), filed February 7, 1977, published in the FEDERAL REGISTER issue of April 14, 1977, and republished this issue. Applicant: SHERMAN & BODDIE, INC., Highway 158 South, P.O. Box 621, Oxford, N.C. 27565. Applicant's representative: Joseph E. Wall, 333 Fayetteville Street, Post Office Box 709, Raleigh, N.C. 27602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Yarns, between Henderson, N.C., on the one hand, and, on the other, points in Alabama, Florida, Georgia, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Tennessee, and Virginia; and (2) fibers, on return movements from points named in (1) above to Henderson, N.C.*

NOTE.—The purpose of this republication is to amend applicant's present contract carrier authority to a common carrier. If a hearing is deemed necessary, the applicant requests it be held at either Raleigh or Charlotte, N.C.

No. MC 127834 (Sub-No. 117), filed August 22, 1977. Applicant: CHEROKEE HAULING & RIGGING, INC., a corporation, Nashville, Tenn. 37202. Applicant's representative: Carl U. Hurst, P.O. Drawer "L", Madisonville, Ky. 42431. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *conduit or pipe, and fittings for conduit or pipe, from the plant site of Cement Asbestos Products Co. NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 138875 (Sub-No. 59), filed August 26, 1977. Applicant: SHOEMAKER

TRUCKING CO., a corporation, 11900 Franklin Road, Boise, Idaho 83705. Applicant's representative: Frank L. Sigloh (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Materials and supplies used in the manufacture and distribution of hosiery* (except products in bulk in tank vehicles) from Patterson, N.J.; Siler City, Burlington, High Point and Hickory, N.C.; Louisville, Ky.; and Indianapolis, Ind., to the facilities of Kellwood Co. at or near Twin Falls, Idaho, restricted to transportation of traffic originating at named origin points and destined to named destination points.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 138882 (Sub-No. 14), filed August 23, 1977. Applicant: WILEY SANDERS, INC., P.O. Box 161, Troy, Ala. 36081. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wheel weights, materials, equipment and supplies* used in the manufacture and sale of wheel weights (except commodities in bulk), between the facilities of Bada Co., Inc., Division of Hennessey Industries Co., located at Bowling Green, Ky., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), and (2) *Tire changers, jacks, tire balancers, materials, equipment and supplies* used in the manufacture and sale of tire changers, jacks, tire balancers (except commodities in bulk), between the facilities of Coats Co., Inc., Division of Hennessey Industries Co., located at Nashville, Tenn., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), restricted in (1) and (2) above, to shipments having originated at or destined to named facilities.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Birmingham, Ala. or Nashville, Tenn.

No. MC 138941 (Sub-No. 23) (Correction), filed July 5, 1977, published in the FEDERAL REGISTER issue of August 18, 1977, and republished as corrected this issue. Applicant: COUNTRY WIDE TRUCK SERVICE, INC., 1110 South Reservoir, Pomona, Calif. 91766. Applicant's representative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Kitchen accessories*, gum, gum and food dispensing machines, and exhibition equipment for same, from San Dimas, Calif., to points in the United States (except Alaska and Hawaii), (2) (a) *exhibition equipment* for kitchen accessories, gum, gum and food dispensing machines, (b) *materials and supplies* used in the manufacture of kitchen accessories, gum, gum and food dispensing machines, (c) *damaged, refused, rejected, or returned shipments* of kitchen accessories, gum, gum and

food dispensing machines, from points in the United States (except Alaska and Hawaii), to San Dimas, Calif., under a continuing contract, or contracts, with Knock On Wood Corp., located at Covina, Calif., restricted in (1) and (2) above against the transportation of commodities in bulk.

NOTE.—The purpose of this republication is to indicate the restriction against commodities in bulk and to exclude Alaska and Hawaii. If a hearing is deemed necessary, the applicant requests that it be held at Los Angeles, Calif.

No. MC 139108 (Sub-No. 4), filed August 30, 1977. Applicant: METRO SALES CORP., 1921 W. 1st Street, P.O. Box 1961, Sanford, Fla. 32771. Applicant's representative: Theodore Polydoroff, 1250 Connecticut Avenue, Suite 600, Washington, D.C. 20036. Authority is sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tires and tubes*, from Clarksdale, Miss.; Texarkana, Ark.; and Mansfield and Findlay, Ohio, to Sanford, Fla., restricted to service performed under a continuing contract with John Dickey, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Orlando, Fla.

No. MC 139206 (Sub-No. 2) (Amendment), filed August 11, 1977, published in the FEDERAL REGISTER issue of September 22, 1977, and republished, as amended, this issue. Applicant: F.M.S. TRANSPORTATION, INC., Box 1597, 2564 Harley Drive, Maryland Heights, Missouri 64043. Applicant's representative: E. Stephen Heasley, Suite 805, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought by applicant to operate as a *contract carrier* by motor vehicle, over irregular routes, transporting: *Textiles and textile products, chemicals, and materials, equipment, and supplies* used in the sale, manufacture, processing, production, and distribution of textiles and textile products and chemicals (except commodities in bulk), between Graniteville, S.C., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under a continuing contract or contracts with Chromalloy American Corporation.

NOTE.—(1) Applicant states it already holds contract carrier authority in No. MC 139206 to transport the identical commodities between Laredo, Brenham, Houston, and Arlington, Texas, Wellsville, Mo., and Johnson City, Tenn., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Applicant states that it is a commonly-controlled contract carrier for and on behalf of Chromalloy American Corporation and that the purpose of this application is to extend its operations for its commonly-controlled contracting shipper. (2) Common control and dual operations may be involved. The purpose of this amendment is to change "from • • • to" movement to "between" radial movement. If a hearing is deemed necessary applicant requests that it be held at St. Louis, Mo.

No. MC 139206 (Sub-No. 5), filed August 31, 1977. Applicant: F. M. S. TRANSPORTATION, INC., Box 1597,

2564 Harley Drive, Maryland Heights, Missouri 64043. Applicant's representative: E. STEPHEN HEISLEY, Suite 805, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought by applicant to operate as a *contract carrier* by motor vehicle, over irregular routes, transporting: *Textiles and textile products, chemicals, and materials, equipment, and supplies* used in the sale, manufacture, processing, production, and distribution of textiles and textile products and chemicals (except commodities in bulk), between Boston, Mass., and Kearny, N.J., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Restriction: The authority granted herein is limited to a transportation service to be performed under a continuing contract or contracts with Chromalloy American Corporation.

NOTE.—(1) Applicant states that it already holds contract carrier authority in No. MC 139206 to transport the identical commodities between Laredo, Brenham, Houston, and Arlington, Tex., Wellsville, Mo., and Johnson City, Tenn., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Applicant states that it is a commonly controlled contract carrier for and on behalf of Chromalloy American Corporation and that the purpose of this application is to extend its operations for its commonly-controlled contracting shipper. (2) Common control may be involved. If a hearing is deemed necessary it is requested at St. Louis, Mo.

No. MC 139274 (Sub-No. 3), filed August 8, 1977. Applicant: THE DANIEL COMPANY OF SPRINGFIELD, 419 E. Kearney, Springfield, MO 65803. Applicant's representative: Turner White, 910 Plaza Towers, Springfield, MO 65804. Authority sought to operate as a *contract carrier*, by motor vehicle over irregular routes, transporting: (1) Materials, supplies, and equipment used in manufacturing, packaging, and distributing products of the R. T. French Company and the commodities manufactured or distributed by the R. T. French Company; and (2) exempt commodities moving in mixed loads with those in (1), between Springfield, Mo., on the one hand, and, on the other, points in California, under a continuing contract or contracts with the R. T. French Company, Rochester, N.Y., and restricted to traffic originating at or destined to be plant sites, storage, shipping and receiving facilities of the R. T. French Company.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Kansas City, Mo.

No. MC 139298 (Sub-No. 2), filed August 29, 1977. Applicant: KEDNEY WAREHOUSE COMPANY (A Corporation), 4700 DeMers Avenue, Grand Forks, North Dakota 58201. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Used household goods, restricted to the transportation of traffic having a prior or subsequent movement, in containers, and further restricted to the performance of pickup and delivery service in connection with

unpacking, uncrating and decontainerization of such traffic; between points in: packing, crating and containerization or Grand Forks, Walsh, Trall, Steele, Griggs, Nelson, Pembina, Cavalier, Ramsey, Eddy, and Foster Counties, N. Dak., and Polk, Marshall, Norman, Pennington, Kittson, Roseau, Red Lake, and Clearwater Counties, Minn.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Grand Forks, N. Dak.

No. MC 139420 (Sub-No. 20), filed August 26, 1977. Applicant: ART GREENBERG d.b.a. GLACIER TRANSPORT, P.O. Box 428, Grand Forks, North Dakota 58201. Applicant's representative: James B. Hovland, P.O. Box 1637, 414 Gate City Building, Fargo, North Dakota 58102. Authority sought to operate as a *common carrier* by motor vehicle over irregular routes, transporting: *Confectionery*, from Jackson, Minn., to Harrisburg, Pa., and San Francisco, Calif.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Minneapolis or St. Paul, Minn.

No. MC 139420 (Sub-No. 21), filed August 26, 1977. Applicant: ART GREENBERG d.b.a. GLACIER TRANSPORT, an individual, P.O. Box 428, Grand Forks, North Dakota 58201. Applicant's representative: James B. Hovland, P.O. Box 1637, 414 Gate City Building, Fargo, North Dakota 58102. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Agricultural commodity processing equipment and agricultural commodity processing machinery*, from Thief River Falls, Minn., to points in California.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Fargo, N. Dak., or Minneapolis, Minn.

No. MC 139495 (Sub-No. 258), filed August 17, 1977. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Adhesives, sealants, solvents, stains, wood preservatives, and accessories, equipment, materials, and supplies* used in the installation, maintenance, and distribution of floors, floor coverings, walls, and wall coverings, in vehicles equipped with mechanical refrigeration (1) from the facilities of Roberts Consolidated Industries, Inc. located at Dayton and Piqua, Ohio to points east of Montana, Wyoming, Colorado, and New Mexico; and (2) from the facilities of Roberts Consolidated Industries, Inc. at Kalamazoo, Mich. to the warehouse facilities of Roberts Consolidated Industries located at Huntington Valley, Pa.; Georgia and Waco, Tex.; Dayton and Piqua, Ohio; City of Industry and Monrovia, Calif. and Vancouver, Wash.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C. Applicant holds contract carrier authority in No. MC 133106 and Subs thereunder, therefore dual operations may be involved.

No. MC 139495 (Sub-No. 259), filed August 17, 1977. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert A. Dubin, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Curtain rods, shelving, and bath accessories* from the plantsite and storage facilities of Kirsch Company at or near Sturgis, Mich. to points in Arizona, California, Colorado, Idaho, Kansas, Montana, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, Washington, and Wyoming.

NOTE.—Applicant holds contract carrier authority in MC 133106 and Subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139495 (Sub-No. 263), filed August 30, 1977. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, Suite 10000, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail, wholesale, and discount drug, food, and variety stores from the plantsite and storage facilities of Supreme Distributors Co., located at or near Detroit, Mich., to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant holds contract carrier authority in MC 133106 and Subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139577 (Sub-No. 8), filed August 26, 1977. Applicant: ADAMS TRANSIT, INC., P.O. Box 338, Friesland, Wis. 53935. Applicant's representative: Wayne W. Wilson, 329 West Wilson St., P.O. Box 8004, Madison, Wis. 53708. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *canned goods* and prepared foodstuffs from Pickett, Wis. to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Madison or Milwaukee, Wis.

No. MC 139973 (Sub-No. 26), filed August 29, 1977. Applicant: J. H. WARE TRUCKING, INC., P.O. Box 398, Fulton, Mo. 65251. Applicant's representative: Larry D. Knox, 600 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, and meat by-products, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766* (except hides, skins, and commodities in bulk), from the facilities of Farmland Foods, Falls, Iowa, to points in Maine, Foods, Inc. at or near Crete, Nebr., and

Denison, Carroll, and Iowa Falls, Iowa, to points in Maine, New Hampshire, Vermont, Rhode Island, Connecticut, Massachusetts, New Jersey, New York, Delaware, Maryland, Pennsylvania, and the District of Columbia, restricted to traffic originating at the named origins and destined to points in the destination states.

NOTE.—Applicant holds motor contract carrier authority in MC-138375 and sub numbers thereunder, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either Omaha, Nebr. or Kansas City, Mo.

No. MC 140612 (Sub-No. 34) (amendment), filed May 10, 1977, published in the FEDERAL REGISTER issue of June 16, 1977 as No. MC 138003 (Sub-No. 13), and republished as amended this issue. Applicant: ROBERT F. KAZIMOUK, P.O. Box 2207, Cedar Rapids, Iowa 52406. Applicant's representative: A. J. Swanson, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Appliances, furnaces and air conditioners, parts, materials, equipment and supplies* used in the manufacture thereof (except commodities in bulk), from the facilities of the Tappan Co., at or near Mansfield, Ohio, Nashville and Springfield, Tenn., Murray, Ky., Dalton, Ga., and Anaheim, Calif., to points in the United States in and West of Montana, Wyoming, Colorado, and New Mexico (except Alaska and Hawaii), and points in that part of Texas on and west of U.S. Highway 277, restricted to the transportation of traffic originating at the above named facilities and destined to the above named destinations.

NOTE.—The purpose of this republication is to amend applicant's territorial description, and to also indicate the change to common carrier authority in No. MC 140612 (Sub-No. 34), in lieu of contract carrier authority in No. MC 138003 (Sub-No. 13) as previously published. Applicant holds contract carrier authority in No. MC 138003 and other subs thereunder, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either Mansfield, Ohio or Lincoln, Nebr.

No. MC 141361 (Sub-No. 4), filed August 17, 1977. Applicant: LONSBURG TRUCKING AND MATERIALS, INC., 545 Broadway, Platteville, Wis. 53818. Applicant's representative: A. R. Hanson, P.O. Box 1229, Madison, Wis. 53701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in dump vehicles (1) From Dubuque, Iowa to Platteville, Wis.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Madison, or Milwaukee, Wis. or Chicago, Ill.

farm buildings, from points in Indiana, Iowa, Missouri, Wisconsin, Ohio, Michigan, Alabama, Oregon, Idaho, Colorado, Wyoming, Utah, and Nebraska, to the facilities of Huskee-Bilt Construction Co. located at Monmouth, Ill.; and (3) damaged or defective farm buildings or parts thereof, from points in the destination States named in part (1) above to the facilities of Huskee-Bilt Construction Co. located at Monmouth, Ill. Restricted in parts (1), (2), and (3) above to traffic originating at the named origins and destined to points in the named destination States.

(E) (1) Agricultural equipment, implements, machinery, supplies, parts, and accessories between the facilities of Tractor Supply Co. located at Indianapolis, Ind., and Omaha, Nebr., on the one hand, and, on the other, points in Arizona, Arkansas, Colorado, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri, Nebraska, New York, North Dakota, South Dakota, Ohio, Pennsylvania, Oklahoma, Wisconsin, Tennessee, Texas, and Mississippi; and (2) damaged or defective agricultural equipment, implements, machinery, supplies, and parts and accessories from points in the destination States named in part (1) above to the facilities of Tractor Supply Co. located at Indianapolis, Ind., and Omaha, Nebr. Restricted in parts (1) and (2) to traffic originating at the named origins and destined to points in the named States.

(F) Feed lot equipment and supplies, from points in Ohio, Indiana, and Tennessee, to the facilities of Robert C. Thompson Feed Store located at or near Monmouth, Ill. Restricted to traffic originating at the named origins and destined to the named destination point.

(G) Used agricultural implements, from points in Kentucky, Minnesota, Indiana, Ohio, Iowa, Missouri, Wisconsin, Nebraska, Kansas, Michigan, and Tennessee to Henderson Farms at or near Aledo, Ill. Restricted to traffic originating at the named origins and destined to the named destination point.

(H) Metal buildings and materials used in the construction of metal buildings, from points in Indiana to points in Illinois and Iowa, moving on bills of lading of Deane Frye, Inc., Aledo, Ill. Restricted to traffic originating at the named origin and destined to points in the named destination States.

(I) (1) Agricultural irrigation equipment, parts, and accessories, from the plantsite and storage facility of Ag-Rain, Inc., located at Havana, Ill., to points in Alabama, Colorado, Florida, Georgia, Indiana, Iowa, Kansas, Kentucky, Michigan, Missouri, Montana, Nebraska, New Jersey, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Texas, Wisconsin, California, Utah, Minnesota, Tennessee, Arkansas, and South Carolina; (2) materials and supplies used in the manufacture of irrigation equipment and parts, from points in Florida, Georgia, Indiana, Michigan, Texas, Wisconsin, and Maryland, to Havana, Ill.; and (3) damaged or defective agricultural irri-

gation systems, from points in the destination States named in (1) above to the facilities of Ag-Rain, Inc. located at Havana, Ill. Restricted in parts (1), (2), and (3) above to traffic originating at the named origins and destined to points in the named destination States.

(J) Farm equipment and farm implements, from points in Nebraska and Iowa to the facilities of Stahl Implements located at Mt. Pulaski, Ill. Restricted to traffic originating at the named origins and destined to the named destination point.

(K) Agricultural buildings and building materials, from the facilities of Tazewell Builders located at or near Tremont, Ill., to points in Iowa, Indiana, and Missouri. Restricted to traffic originating at the named origin and destined to points in the named destination States.

(L) (1) Agricultural implements from the facilities of Clay Equipment Co. located at Cedar Falls, Iowa, and Morton, Ill., to points in Iowa, Illinois, South Carolina, Wisconsin, Missouri, Georgia, Nebraska, Kansas, Kentucky, Tennessee, Michigan, Minnesota, North Carolina, and Ohio; (2) materials and supplies used in the manufacture of agricultural implements from points in Iowa, Illinois, and Missouri to the facilities of Clay Equipment Co. located at Cedar Falls, Iowa, and Morton, Ill.; and (3) damaged or defective agricultural implements from points in the destination States named in part (1) above to the facilities of Clay Equipment Co. located at Cedar Falls, Iowa, and Morton, Ill. Restricted in parts (1), (2), and (3) above to traffic originating at the named origins and destined to points in the named destination States.

(M) Agricultural equipment, from the facilities of Woll Implement Company located at San Jose, Ill., to points in Indiana, Iowa, Wisconsin, and Pennsylvania. Restricted to traffic originating at the named origin and destined to points in the named destination States.

(N) (1) Farm mowers, from the plant site and facility of Bachtold Brothers located at Forrest, Ill., to points in Indiana, Iowa, Wisconsin, Minnesota, Michigan, Kentucky, and Tennessee; and (2) materials and supplies used in the manufacturing of mowers, from Milwaukee and Kohlar, Wis., to Forrest, Ill. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named States.

(O) (1) Farm buildings, farm machinery, and supplies, from the facilities of United Agri-Services, Inc., located at Chenoa, Fairbury, Forrest, and Gridley, Ill., to points in Indiana, Iowa, Missouri, Wisconsin, Kentucky, Minnesota, Michigan, Ohio, Nebraska, South Dakota, Kansas, Tennessee, Arkansas, and Mississippi; and (2) materials used in the manufacture of farm buildings, from points in Indiana, Iowa, Missouri, Wisconsin, Kentucky, Minnesota, Michigan, Ohio, Nebraska, South Dakota, Tennessee, Arkansas, Mississippi, North Carolina, Georgia, Texas, Oklahoma, Pennsylvania, New York, New Jersey, Wash-

ington, Oregon, California, Utah, Montana, and Wyoming, to points in Chenoa, Fairbury, Forrest, and Gridley, Ill. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination States.

(P) (1) Machinery, parts, and accessories, from the facilities of Yetter Manufacturing Co. located at Colchester, Ill., to points in Ohio, Indiana, Michigan, Wisconsin, Missouri, Iowa, Minnesota, Alabama, Kentucky, North Carolina, South Carolina, Louisiana, Georgia, Tennessee, Texas, and Mississippi; and (2) damaged or defective machinery parts and accessories from points in the destination States named in (1) above to the facilities of Yetter Manufacturing Co. located at Colchester, Ill. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination States.

(Q) (1) Agricultural equipment, parts, and accessories, from the facilities of Painter Farm Equipment located at Monmouth, Ill., to points in Ohio, Missouri, and Iowa; and (2) agricultural equipment, parts, and accessories, from points in Missouri, North Dakota, Minnesota, Iowa, Wisconsin, and Pennsylvania, to the facilities of Painter Farm Equipment located at Monmouth, Ill. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination States.

(R) (1) Agricultural equipment, parts, and accessories, from the facilities of Mount Pleasant Ford Sales located at Mount Pleasant, Iowa, to points in Ohio and Missouri; and (2) agricultural equipment, parts, and accessories, from points in Michigan, Missouri, North Dakota, Minnesota, Wisconsin, Indiana, and Pennsylvania to the facilities of Mount Pleasant Ford Sales located at Mount Pleasant, Iowa. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination States.

(S) Fertilizer equipment, parts, and accessories, from Wilmar, Minn., to points in Illinois and Indiana. Restricted to traffic originating at the named origin and destined to points in the named destination States.

(T) (1) Agricultural implements, parts and accessories, from the facilities of M & W Gear located at Gibson City, Ill., to points in Georgia, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, New York, Ohio, Tennessee, Texas, Wisconsin, Colorado, Kansas, North Carolina, Pennsylvania, Louisiana, South Dakota, North Dakota, Mississippi, Arkansas, Montana, Arizona, Kentucky, Washington, New Jersey, Maryland, and California; (2) materials and supplies used in the manufacture of agricultural implements, parts, and accessories, from points in Iowa to the facilities of M & W Gear located at Gibson City, Ill.; (3) damaged or defective agricultural implements, from the destination States named in part (1) to the facilities of M & W Gear located at Gibson City, Ill.;

and (4) materials and supplies, agricultural implements, parts, and accessories, from the facilities of M & W Gear Co. located at Des Moines, Iowa, to points in Missouri, Nebraska, North Dakota, South Dakota, Minnesota, Montana, Arizona, Texas, and Utah, including California. Restricted in parts (1), (2), (3), and (4) above to traffic originating at the named origins and destined to points in the named destination States.

(U) (1) Agricultural equipment and parts, from the plantsite and facilities of DMI, Inc., located at Goodfield, Ill., to points in Alabama, Arkansas, California, Georgia, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Washington, and Wisconsin; (2) materials and supplies, used in the manufacture of agricultural equipment, from points in Alabama, Arkansas, California, Georgia, Florida, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Wisconsin, and Wisconsin to the facilities of DMI, Inc., of Goodfield, Ill.; and (3) damaged or defective agricultural equipment or parts thereof, from points in the destination States named in part (1) above to the facilities of DMI, Inc., located at Goodfield, Ill. Restricted in parts (1), (2), and (3) above to traffic originating at the named origins and destined to points in the named destination States.

(V) (1) Agricultural implements, parts, and accessories, from the plantsite and facilities of Avco-New Idea Corp., located at Coldwater, Ohio, to points in Illinois, Indiana, Wisconsin, Iowa, and Missouri; and (2) damaged or defective agricultural implements and parts, from points in the destination States named in part (1) above to the facilities of Avco-New Idea Corp., located at Coldwater, Ohio. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination States.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Springfield, or Chicago, Ill.

No. MC 143713 (Sub-No. 1), filed: September 15, 1977. Applicant: AGRICULTURAL TRANSPORTATION ASSOCIATION OF ILLINOIS, R.F.D. 8, 37 Forest Ridge, Springfield, Ill. 62707. Applicant's representative: Arlyn L. Westergren, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) Feed and feed ingredients, except in bulk, in tank vehicles, (1) from the facilities of Kane Molass Labs, Inc., located at Mt. Pulaski, Ill., to points in Georgia, Indiana, Iowa, Kentucky, Louisiana, Missouri, Ohio, Virginia, Wisconsin, and Pennsylvania; and (2) from points in

Ohio to the facilities of Kane Molass Labs, Inc., located at Mt. Pulaski, Ill. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination States. (B) (1) Feed and feed ingredients, from the facilities of Wells Div./National Pet Foods Co., located at Monmouth, Ill., and Springfield, Tenn., to points in Alabama, Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Pennsylvania, Maryland, New Mexico, Nebraska, Ohio, Tennessee, Virginia, and Wisconsin; (2) materials and supplies used in the manufacture and distribution of feed and feed ingredients and defective or damaged feed, and pallets, from points in Wisconsin, Illinois, Indiana, Iowa, Minnesota, Tennessee, and Ohio, to the facilities of Wells Div./National Pet Foods Co. located at Monmouth, Ill., and Springfield, Tenn.; and (3) equipment used in the manufacture of feed and feed ingredients, from Ohio, Tennessee, and Indiana, to the facilities of Wells Div./National Pet Foods Co. located at Monmouth, Ill. Restricted in parts (1), (2), and (3) above to traffic originating at the named origins and destined to points in the named destination States. (C) Fertilizer, from points in Indiana, Iowa, Missouri, and Wisconsin, to the facility of Boney Farm Store located at Aledo, Ill. Restricted to traffic originating at the named origins and destined to the named destination point.

(D) Feed, seeds, hog houses, hog feeders, and fertilizer, from points in Wisconsin, Iowa, Missouri, Indiana, and Ohio to the facilities of Joy Feed Mill located at Joy, Ill. Restricted to traffic originating at the named origins and destined to the named destination point.

(E) Feed and seeds, from points in Wisconsin, Iowa, and Missouri, to the facilities of Farmer's Grain & Coal Co. located at Aledo, Ill. Restricted to traffic originating at the named origins and destined to the named destination point. (F) Animal and poultry feeds and ingredients thereof, from the facilities of Murphy Products Co., Inc., located at Burlington, Wis., to points in Illinois, Missouri, and Iowa. Restricted to traffic originating at the named origin and destined to points in the named destination States. (G) Chemicals, in drums and bags, (1) from the facilities of Fisher-Calo Chemical Co. located at Chicago, Ill., to points in Indiana, Michigan, Wisconsin, Ohio, and Iowa; and (2) from points in Delaware, Indiana, Maryland, Minnesota, Florida, New Jersey, New York, Pennsylvania, Tennessee, and Virginia, to the facilities of Fisher-Calo Chemical Co. located at Chicago, Ill., and Kingsbury, Ind. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination States. (H) Feed and feed ingredients, bags, and equipment and supplies used in the manufacture of feed and feed ingredients, between the facilities of Honegger and Co. located at Fairbury, Ill., on the one hand, and, on the other, points in Alabama, Arkansas, Georgia, Indiana, Iowa, Kansas, Kentucky, Maryland, Minnesota, Missouri,

New Jersey, New York, North Carolina, South Carolina, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, West Virginia, and Wisconsin. Restricted to traffic originating at the named origin and destined to points in the named destination states.

(I) (1) *Agricultural chemicals, feed, feed ingredients, and fertilizer*, between the facilities of Diamond Shamrock Corp. located at Van Buren, Ark., Fresno, Calif., Franklin Park, Ill., Louisville, Ky., St. Louis, Mo., Harrison, N.J., and Des Moines, Iowa, on the one hand, and, on the other, points in the United States (except Alaska, Hawaii, Idaho, Montana, Nevada, and Wyoming); and (2) *Flavoring syrups, beverage preparations, stabilizers and emulsifiers, dry or liquid, chemicals, n.o.i., and cocoa powders*, between the facilities of Diamond Shamrock Corp. located at St. Louis, Mo., on the one hand, and, on the other, points in the United States (except Alaska, Hawaii, Idaho, Montana, Nevada, and Wyoming). Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination states. (J) (1) *Feed and feed ingredients*, from the facilities of Super Sweet Feeds located at Monmouth, Ill., to points in Missouri and Iowa; and (2) *damaged and defective feed bags and ingredients*, from points in Iowa and Missouri, to the facilities of Super Sweet Feed located at Monmouth, Ill. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination states. (K) (1) *Potash*, from Colfax, Byron, and Jerseyville, Ill., to points in Indiana, Illinois, Wisconsin, and Missouri; and (2) *liquid fertilizer*, from Lemont, Havana, Peoria, and Marseilles, Ill., Reynolds, Ind., and Dubuque, Iowa, to points in Illinois, Indiana, and Wisconsin. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination states. (L) (1) *Agricultural chemicals and equipment*, from the facilities of Heartland Chemicals, Inc., located at Farmer City, Ill., to points in Iowa, Minnesota, Nebraska, Wisconsin, Kentucky, Missouri, Indiana, Michigan, and Ohio; and (2) *Agricultural chemicals and equipment*, from points in Iowa, Nebraska, Minnesota, Indiana, Michigan, Georgia, and Kentucky, to the facilities of Heartland Chemicals, Inc., located at Farmer City, Ill. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination states.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Springfield, Ill., or Chicago, Ill.

No. MC 143713 (Sub-No. 2), filed: September 15, 1977. Applicant: AGRICULTURAL TRANSPORTATION ASSOCIATION OF ILLINOIS, R.F.D. 8, 37 Forest Ridge, Springfield, Ill. 62707. Applicant's representative: Arlyn L. Westergren, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a common carrier, by motor vehicle, over

irregular routes, transporting: (A) (1) *Cheese containers, bean pots, and stoneware*, from the facility of Western Stoneware located at Monmouth, Ill., to points in Michigan, Missouri, Virginia, Iowa, Minnesota, Kentucky, and Wisconsin; and (2) *empty cartons, pallets, and gas-kets, and materials and supplies used in the manufacture of stoneware*, from points in Iowa, Minnesota, Ohio, Kansas, Indiana, Michigan, Missouri, Virginia, and Wisconsin to Monmouth, Ill. Restricted in parts (1) and (2) to traffic originating at the named origins and destined to points in the named destination states. (B) (1) *Meats, meat products, meat byproducts and articles distributed by meat packinghouses* (except hides and commodities in bulk). (a) From the plant sites and storage facilities of Wilson Foods Corp., located at Monmouth, Ill., Albert Lea, Minn., Cherokee, Des Moines, and Cedar Rapids, Iowa, Marshall, Mo., and Logansport, Ind., to points in the United States (except Alaska, Arizona, Hawaii, California, Idaho, Montana, New Mexico, Utah, Washington, and Wyoming); and (b) from the storage facilities of Wilson Foods Corp., located at Dubuque, Iowa, Chicago and East Peoria, Ill., and Fairmont, Minn., to points in the United States (except Alaska, Arizona, Hawaii, California, Idaho, Montana, New Mexico, Utah, Washington, and Wyoming); and (2) *rejected shipments of meat and packinghouse products*, from the destination states named in parts 1 (a) and (b) above to the origins named in parts 1 (a) and (b) above. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination states.

(C) (1) *Canned goods*, from the facilities of Joan of Arc Co., located at St. Francisville, and Hessemer, La., Hooperston and Princeville, Ill., Maysville, Wis., and Turkey, N.C., to points in the United States (except Alaska, Hawaii, Idaho, Montana, Nevada, New Hampshire, Oregon, Utah, Vermont, Washington, and Wyoming); and (2) *empty cans, boxes, pallets, skids, starch, seasonings, and labels*, from the destinations named in part (1) above to the origins named in part (1) above. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination states. (D) (1) *Food seasonings, flour and meat binders, and food processing ingredients*, from the facilities of B. Heller and Co., located at Chicago and Decatur, Ill., and Mantiowac, Wis., to points in Arkansas, Colorado, California, Delaware, Florida, Georgia, Illinois, Louisiana, Michigan, Minnesota, Missouri, New Jersey, New Mexico, North Carolina, North Dakota, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, and Wisconsin; and (2) *food seasonings, flour fillers, and food ingredients*, from points in Delaware, Kansas, Georgia, New Jersey, New Mexico, North Carolina, Oklahoma, Texas, Virginia, and Wisconsin to the facilities of B. Heller and Co., located at Chicago and Decatur, Ill., and Mantiowac, Wis. Restricted in parts (1) and (2) above to

traffic originating at the named origins and destined to points in the named destination states. (E) (1) *Cheese*, from the facilities of Fisher Cheese Co., located at Wapokoneta, Ohio, and Artesia, Calif., to points in Alabama, California, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Minnesota, Michigan, Mississippi, Missouri, Nebraska, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, Utah, Virginia, Wisconsin, and the District of Columbia; and (2) *dairy products, powdered milk, starch, cheese casings, barrels, and cartons*, from points in Alabama, Arizona, Arkansas, Colorado, California, Illinois, Indiana, Iowa, Kansas, Kentucky, Minnesota, Missouri, Nebraska, New York, New Jersey, North Dakota, South Dakota, Ohio, Tennessee, and Wisconsin to the facilities of Fisher Cheese Co., located at Wapokoneta, Ohio, and Artesia, Calif. Restricted in parts (1) and (2) above to traffic originating at the named origins and destined to points in the named destination states.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Springfield, Ill., or Chicago, Ill.

FINANCE APPLICATIONS NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, or rail carriers, or motor carriers pursuant to sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this Federal Register notice. Such protests shall comply with Special Rules 240 (c) or 240(d) of the Commission's General Rules of Practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

No. MC-F-13316. Authority sought for purchase and consolidation by BAKER HI-WAY EXPRESS, INC., P.O. Box 506, 555 Commercial Parkway, Dover, Ohio 44622, of the operating rights and properties of Watkins Trucking, Inc., 203-207 Trenton Avenue, Uhrichsville, Ohio 44683, and for acquisition individually by Harold Baker, Sr., Stone Creek, Ohio, of control of such rights. Applicant's representative: Richard H. Brandon, 220 West Bridge Street, P.O. Box 97, Dublin, Ohio 43017. Operating rights to be transferred: *Clay products*, as a common carrier, over irregular routes, from Uhrichsville, Ohio, and points within three miles thereof, and from points in Jefferson County, Ohio, to points in that part of New York on and south of New York Highway 12F beginning at Black River Bay and extending to Watertown, N.Y., on and west of U.S. Highway 11 from Watertown, N.Y., to junction of

New York Highway 57 at Syracuse, N.Y., and east of New York Highway 57 from Syracuse, N.Y., to Oswego, N.Y., and that part of New York on and south of U.S. Highway 20 from the New York-Massachusetts State line to junction U.S. Highway 11, and east of U.S. Highway 11 from junction U.S. Highway 20 to the New York-Pennsylvania State line, points in New Jersey, Delaware, Virginia, Maryland, that part of West Virginia east of U.S. Highway 219 from the West Virginia-Maryland State line to junction U.S. Highway 60 and north of U.S. Highway 60 from junction U.S. Highway 219 to the West Virginia-Virginia State line, Kentucky (except points in Boyd, Greenup, Mason, Campbell, Kenton, Boone, and Jefferson Counties, Ky.), St. Louis, Mo., and points in St. Louis County, Mo., and the District of Columbia; and *pallets and lumber* used in connection with the manufacture or shipment of clay products, from points in the destination territory described immediately above, to Uhrichsville, Ohio, and points within three miles thereof, and points in Jefferson County, Ohio.

Fire clay and clay products, from Uhrichsville, Ohio, and points within four miles thereof, and points in Jefferson County, Ohio, to points in Pennsylvania, Ohio, Illinois, Indiana, the lower peninsula of Michigan, Boyd, Greenup, Mason, Campbell, Kenton, Boone, and Jefferson Counties, Ky., that part of New York on and west of a line beginning at Oswego, N.Y., and extending along New York Highway 57 to Syracuse, N.Y., and thence along U.S. Highway 11 to the New York-Pennsylvania State line and that part of West Virginia on and west of a line beginning at the West Virginia-Maryland State line and extending along U.S. Highway 219 to junction U.S. Highway 60 and thence along U.S. Highway 60 to the West Virginia-Virginia State line; and *empty containers* used in the transportation of clay products, from points in the destination territory described immediately above, to Uhrichsville, Ohio, and points within four miles thereof, and points in Jefferson County, Ohio; *clay products*, from points in Palmyra Township, Portage County, Ohio, to points in Illinois, Indiana, Kentucky, and St. Louis County, Mo.; *concrete sewer pipe and concrete manholes and fittings* therefor, *asphalt compound, and sulphur compound* from points in Palmyra Township, Portage County, Ohio, to points in New York, Pennsylvania, and West Virginia. *Sewer pipe forms (iron and steel), and reinforcing steel mesh*, between points in Palmyra Township, Portage County, Ohio, on the one hand, and on the other, Relay, Md., and Croydon, Pa.; *reinforcing steel mesh*, from Monessen and Donora, Pa., to points in Palmyra Township, Portage County, Ohio. *Asphalt compound*, from Chester, W. Va., to Uhrichsville, Ohio, and points within four miles thereof, and points in Palmyra Township, Portage County, Ohio. *Sulphur compound*, from Emmaus, Pa., to Uhrichsville, Ohio, and points within

four miles thereof, and points in Palmyra Township, Portage County, Ohio. *Clay products and fire clay*, from points in Tuscarawas County, Ohio, and points in Springfield Township, Summit County, Palmyra Township, Portage County, and Brown Township, Carroll County, Ohio, to points in Wisconsin. *Cardboard and lumber* used in the manufacture, packing, or shipping of clay products and fire clay, from points in Wisconsin, to points in Tuscarawas County, Ohio, and points in Palmyra Township, Portage County, Ohio, with restrictions.

Plastic pipe, fittings for plastic pipe, and pallets and containers and other shipping devices used therewith, from the site of the plant of the Evanite Plastic Co., near Carrollton, Ohio, to St. Louis, Mo., and points in St. Louis County, Mo., and points in Illinois, Indiana, Kentucky, New York, Pennsylvania, West Virginia, Maryland, Virginia, New Jersey, Delaware, Wisconsin, the lower peninsula of Michigan, and the District of Columbia; and *pallets, containers, and other shipping devices* used in the transportation of plastic pipe and fittings for plastic pipe, and damaged, defective, and returned shipments of plastic pipe and fittings for plastic pipe, from the destination points specified immediately above, to the site of the plant of the Evanite Plastic Co., near Carrollton, Ohio. *Clay products*, from Uhrichsville, Ohio, and points in Tuscarawas County, Ohio, within five miles of Uhrichsville, Ohio, and Goshen, Midvale, Parral, Strasburg, Mogadore, Diamond, and Malvern, Ohio, to points in Vermont, New Hampshire, and Maine; and *empty containers, pallets, cardboard, and lumber* used in packing or shipping, from points in Vermont, New Hampshire, and Maine, to Uhrichsville, Ohio, and points in Tuscarawas County, Ohio, within five miles of Uhrichsville, Ohio, Goshen, Midvale, Parral, Strasburg, Mogadore, Diamond, and Malvern, Ohio. *Clay products and fire clay*, from Uhrichsville, Ohio, and points within five miles thereof, to points in Iowa, Minnesota, Missouri, and the upper peninsula of Michigan; and *empty containers, pallets, cardboard, and lumber* used in the manufacture, packing, or shipping of clay products and fire clay, from points in Iowa, Minnesota, Missouri, and the upper peninsula of Michigan, to Uhrichsville, Ohio, and points within five miles thereof. Irregular routes: *Clay products and fire clay*, from points in Tuscarawas and Jefferson Counties, Ohio, to points in Connecticut, Rhode Island, and Massachusetts; from points in Jefferson County, Ohio, to points in New Hampshire, Vermont, and that part of Maine on and south of a line beginning at the Maine-New Hampshire State line, near Gilead, Maine, and extending along U.S. Highway 2 to Bangor, Maine, thence along Alternate U.S. Highway 1 to Ellsworth, Maine, thence along Maine Highway 3 to Bar Harbor, Maine.

Irregular routes: *Plastic pipe and fittings* therefor, from the plant site of the Evanite Plastic Co. near Carrollton, Ohio, to points in Alabama, Arkansas, Connecticut, Iowa, Kansas, Louisiana, Maine, Massachusetts, the upper peninsula of Michigan, Minnesota, Mississippi, Missouri (except St. Louis and St. Louis County), Nebraska, North Dakota, New Hampshire, Oklahoma, Rhode Island, South Dakota, Tennessee, and Texas. Irregular routes: *Plastic pipe, fittings for plastic pipe, and brick and clay products*, from the plant site of the Evanite Plastic Co. near Carrollton, Ohio, and points in Mill and Goshen Townships (Tuscarawas County), Ohio, to points in North Carolina and South Carolina. Irregular routes: *Plastic pipe and fittings for plastic pipe*, from the plant site of the Evanite Plastic Co. near Carrollton, Ohio, to points in Vermont. *Plastic pipe and fittings for plastic pipe*, in mixed loads with clay products, (presently authorized), from points in Mill Township (Tuscarawas County), Ohio, to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, West Virginia, Wisconsin, and the District of Columbia. Irregular routes: *Clay products* (when transported in mixed loads with plastic pipe and fittings for plastic pipe presently authorized), from the plant site of the Evanite Plastic Co., near Carrollton, Ohio, to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, West Virginia, Wisconsin, and the District of Columbia. *Plastic pipe and fittings for plastic pipe* (when transported in mixed loads with clay products), from points in Mill Township, Tuscarawas County, Ohio, to points in Vermont. Irregular routes: *Clay products*, from New Straitsville, Ohio, to points in Wisconsin, Illinois, Indiana, Michigan, West Virginia, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, Connecticut, Rhode Island, Vermont, Massachusetts, Maine, New Hampshire, and the District of Columbia, from Junction City, Ohio, to Detroit, Mich., and to points in Wisconsin, Illinois, Indiana, the upper peninsula of Michigan, New Jersey, Delaware, Maryland, Virginia, Connecticut, Rhode Island, Vermont, Massachusetts, Maine, New Hampshire, and the District of Columbia.

Irregular routes: *Firebrick and firebrick shapes*, from points in Yellow Creek Township, Columbiana County, Ohio, to points in Indiana, Illinois, Michigan, Kentucky, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Wisconsin, Iowa, Minnesota, Missouri, Vermont, New Hampshire, Maine, Connecticut, Rhode Island, Massachusetts, Tennessee, and the District of Columbia with restrictions. *Vitrified clay sewer pipe, sewer pipe fittings, and flue liners*, from East Liverpool, Ohio, to points in Illinois, Indiana, Iowa, Kentucky, and Missouri; *plastic pipe and fittings* therefor, from the facilities of

Olin Corp. at Canton, Ohio, to points in Illinois, Indiana, Kentucky, New York, Pennsylvania, West Virginia, Maryland, Virginia, New Jersey, Delaware, Wisconsin, Michigan, Alabama, Arkansas, Connecticut, Iowa, Kansas, Louisiana, Maine, Massachusetts, Missouri, Nebraska, North Dakota, New Hampshire, Oklahoma, Rhode Island, South Dakota, Tennessee, Texas, North Carolina, South Carolina, and the District of Columbia, with restrictions. The operations authorized under the commodity description next above are restricted against the transportation of pipe used in or in connection with the construction, operation, maintenance, servicing, dismantling, or stringing of pipe lines. Vendee is authorized to operate as a common carrier in Alabama, Arkansas, Connecticut, Delaware, the District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, and Wisconsin. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13320. Authority sought for purchase by MIDDLE-WEST FREIGHTWAYS, INC., 6810 Prescott Avenue, St. Louis, Mo. 63147, of a portion of the operating rights of Navajo Freight Lines, Inc., 1205 South Platte River Drive, Denver, Colo. 80223, and for acquisition by National Industries, Inc., 510 West Broadway, Louisville, Ky. 40202, of control of such rights through the purchase. Applicants' attorney: Leonard R. Kofkin, 39 South LaSalle Street, Chicago, Ill., 60603. Operating rights sought to be transferred: *General commodities*, with exceptions, as a common carrier, over regular routes, between Chicago, Ill., and Milwaukee, Wis., serving all intermediate points, and the off route points of Cudahy, Fox Point, Greendale, West Milwaukee, Shorewood, Wauwatosa, West Allis, and Whitefish Bay, Wis.: From Chicago over Illinois Highway 21 to junction Illinois Highway 83, thence over Illinois Highway 83 to the Illinois-Wisconsin State line, thence over Wisconsin Highway 83 to junction Wisconsin Highway 75, thence over Wisconsin Highway 75 to junction Wisconsin Highway 20 near Beaumont, Wis., thence over Wisconsin Highway 20 to junction U.S. Highway 45, thence over U.S. Highway 45 to Durham, Wis., thence over Wisconsin Highway 36 to Milwaukee, and return over the same route. Vendee is authorized to operate as a common carrier in Illinois, Indiana, Kansas, Kentucky, and Missouri. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13322. (Crouse Cartage Co.—Purchase (Portion)—Jack Link Truck Line, Inc.), published in the September 22, 1977, issue of the FEDERAL REGISTER. By application filed on September 20, 1977, CROUSE CARTAGE

COMPANY, P.O. 586, Carroll, Iowa 51401, seeks authority to temporarily lease a portion of the operating rights of Jack Link Truck Line, Inc., Dyersville, Iowa 52040, under section 210a(b).

No. MC-F-13324. Authority sought for merger into WATKINS MOTOR LINES, INC., 1144 West Griffin Road, Lakeland, Fla. 33801, of the operating rights and properties of Watkins Carolina Express, Inc., 1144 West Griffin Road, Lakeland, Fla. 33801, and for acquisition by Bill Watkins, also of Lakeland, Fla., of control of the rights and property through the merger. Applicant's attorney: Paul M. Daniell and K. Edward Wolcott, Watkins & Daniell, P.C., P.O. Box 872, Atlanta, Ga. 30301, Watkins Carolina Express, Inc., operates primarily as a common carrier of *general commodities* over irregular routes between New York, N.Y., in the northeast, and points in Georgia including Atlanta, Ga., in the southeast, serving numerous off-route and intermediate points in between as more fully described in certificate No. MC 30280. Said certificate additionally authorizes the transportation of specified commodities such as synthetic fibre, textile products, flat glass, from named points in the northeast and southeast to named states lying generally within the northeast and southeast. Vendee is authorized to operate as a common carrier of numerous specified commodities, primarily foodstuff items, over irregular routes from, to, and between specified points and states throughout the continental United States, and is further authorized to operate as a common carrier of general commodities over regular routes between points in Florida, California, and that part of Georgia on and south of U.S. Highway 80 serving intermediate points and off-route points in those named states as more fully described in MC 95540. Approval of the transaction will not result in (a) dual operations; (b) splitting of operating authority; or (c) duplicating authority. Application has been filed for temporary authority and under section 210a(b).

NOTE.—Under MC-F-7942, Watkins Motor Lines, Inc., was granted control of Johnson Transfer Co., Inc. (name later changed to Watkins Carolina Express, Inc.), on March 21, 1963, and the order was served March 26, 1963.

No. MC-F-13330. Authority sought for purchase by BEKINS MOVING & STORAGE CO., Aurora Avenue at North 95th Street, Seattle, Wash. 98103, of the operating rights of Pacific Movers, Inc., 750 East International Airport Road, Anchorage, Alaska 99502, and for acquisition by Claude Bekins, Fred Bekins, both of 9401 Aurora Avenue, North, Seattle, Wash. 98103, and the estate of Bruce J. Bekins, United States National Bank, Portland, Ore. 97208, of control of such rights through the transaction. Applicant's attorney: Russell S. Bernhard, 1625 K Street NW., Washington, D.C. 20006. Operating rights sought to be acquired: Certificate No. MC 129850 authorizing transportation, as a common carrier, over irregu-

lar routes, of *household goods* as defined by the Commission between points in Alaska within 25 miles of Anchorage, Alaska, including Anchorage. Vendee holds authority to operate as a common carrier in Washington, Oregon, and Idaho, as a broker of household goods and aeroplanes at Seattle, Tacoma, and Spokane, Wash., and of household goods only at Yakima and Pasco, Wash., Eugene and Portland, Ore., and Boise Idaho. No tacking or joinder is involved. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13333. Authority sought by SMITH'S TRANSFER CORP., P.O. Box 1000, Staunton, Va. 24401, to purchase a portion of the operating rights of Nelson Freightways, Inc., from M & M Transportation Co. (Debtor-in-possession), 750 Third Avenue, New York, N.Y. 10017, and for acquisition by R. R. Smith, P.O. Box 1000, Staunton, Va. 24401, of control of such rights through the transaction. Applicants' attorneys: Francis W. McInerney, 1000 Sixteenth Street NW., Washington, D.C. 20036, Donald L. Caldera, Vice President, M & M Transportation Co. (Debtor-in-possession), 750 Third Avenue, New York, N.Y. 10017, and John A. Vuono, Wick, Vuono & Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Operating rights sought to be purchased: *General commodities*, with exceptions, as a common carrier, over irregular routes, between points within the municipalities of Boston, Chelsea, Revere, Everett, Malden, Somerville, Medford, Cambridge, Newton, and Quincy, and points within the township limits of Winthrop Watertown, Needham, Dedham, Brookline, and Milton, Mass., excluding points in the commercial zones beyond the municipal and township limits thereof, on the one hand, and, on the other, points in New Hampshire. Vendee is authorized to operate as a common carrier in Alabama, Connecticut, Delaware, the District of Columbia, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Arkansas, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Virginia, West Virginia, and Wisconsin. Application has been filed for temporary authority under section 210a(b) of the Act.

NOTE.—M & M Transportation Co. (Debtor-in-possession) has assigned its contractual agreement to purchase that portion of Nelson Freightways, Inc., authority set out above to Smith's Transfer Corp.

No. MC-F-13338. Authority sought for purchase by PENNSYLVANIA TRUCK LINES, INC., 49th Street and Parkside Avenue, Philadelphia, Pa. 19101, of all of the motor carrier operating rights of Consolidated Rail Corp., 6 Penn Center Plaza, Philadelphia, Pa. 19104. Applicant's attorneys: S. Berne Smith, Esquire, and Robert H. Griswold, P.O. Box 1166, Harrisburg, Pa. 17108. Operating rights sought to be purchased: *General commodities*, with some excep-

tions, as a common carrier, over regular routes, as more fully described in certificates Nos. MC 101010 (Sub-Nos. 2, 21, 22, 23, 24, 25, 26, and 27), authorizing service between Corning, N.Y., and Painted Post, N.Y.; Passiac, N.J., and near Parsippany, N.J.; Passiac, N.J., and Patterson, N.J.; Passiac, N.J., and Montclair, N.J.; Passiac, N.J., and Orange, N.J.; Passiac, N.J., and Kingsland, N.J.; Morristown, N.J., and Bernardsville, N.J.; Dover, N.J., and Phillipsburg, N.J.; Netcong, N.J., and Branchville, N.J.; Washington, N.J., and East Stroudsburg, Pa.; Columbia, N.J., and Newton, N.J.; Dover, N.J., and Ledgewood, N.J.; Goshen, N.Y., and Pine Island, N.Y.; Goshen, N.Y., and Montgomery, N.Y.; Middletown, N.Y., and Pine Bush, N.Y.; Suffern, N.Y., and Great Bend, Pa.; Youngstown, Ohio, and Girard, Ohio; Portland, Pa., and Bath, Pa.; Bangor, Pa., and Martins Creek, Pa.; Norwich, N.Y., and Binghamton, N.Y.; Cortland, N.Y., and Binghamton, N.Y.; Binghamton, N.Y., and Owego, N.Y.; Buffalo, N.Y., and Rochester, N.Y.; Jersey City, N.J., and Port Jervis, N.Y.; Waverly, N.Y., and Corning, N.Y.; Wayland, N.Y., and Painted Post, N.Y.; Stroudsburg, Pa., and Scranton, Pa.; Scranton, Pa., and Binghamton, N.Y.; Scranton, Pa., and Northumberland, Pa.; Huntington, Ind., and Chicago, Ill.; Port Jervis, N.Y., and Binghamton, N.Y.; Lima, Ohio, and Huntington, Ind.; Norwich, N.Y., and Utica, N.Y.; Utica, N.Y., and Richfield Springs, N.Y.; Cortland, N.Y., and Syracuse, N.Y., and Oswego, N.Y.; Marion, Ohio, and Lima, Ohio; Marion, Ohio, and Mansfield, Ohio; Marion, Ohio, and Dayton, Ohio; Buffalo, N.Y., and Niagara Falls, N.Y.; Buffalo, N.Y., and Brockport, Pa.; Alexander, N.Y., and Painted Post, N.Y.; Painted Post, N.Y., and Blossburg, Pa.; and Waverly, N.Y., and Owego, N.Y. All service is limited to service which is auxiliary to, or supplemental of, rail service and other related restrictions. Service is generally authorized to intermediate points and named off route points. Vendee is authorized to operate pursuant to certificates at Nos. 1901 and subs in the states of Delaware, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, Missouri, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, and the District of Columbia, and also holds some contract carrier permits at Nos. MC 11879 and subs. Vendee is a wholly owned subsidiary of Consolidated Rail Corp., vendor. The rights being transferred to vendee were formerly held by the Erie Lackawanna Railway Co. Approval of this application will not create any new dual operations, nor result in the splitting of authority. The purpose is to consolidate all motor carrier authority controlled by ConRail into vendee, and duplicating rights are not sought. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13339. Authority sought for purchase by CLEMMER MOVING & STORAGE, INC., Clearview Road, Soud-

erton, Pa. 18964, of the operating rights of ALLSTATE VAN LINES, INC., 201 East Baltimore Pike, Media, Pa. 19063, and for acquisition by Norman C. Lemmer and Earl N. Mininger, both of Clearview Road, Souderton, Pa. 18964, of control of such rights through the transaction. Applicants' attorney: James W. Patterson, 1200 Western Savings Bank Building, Philadelphia, Pa. 19107. Operating rights sought to be transferred: *Household goods*, as defined by the Commission, as a common carrier, over irregular routes, between points in Philadelphia and Delaware Counties, Pa., on the one hand, and, on the other, points in New York, New Jersey, Massachusetts, Connecticut, Delaware, Maryland, Virginia, Ohio, and the District of Columbia. Vendee is authorized to operate as a common carrier in Connecticut, Delaware, the District of Columbia, Louisiana, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13343. Authority sought for purchase by KROBLIN REFRIGERATED XPRESS, INC. (KRK), 2125 Commercial Street, Waterloo, Iowa 50702, of a portion of the operating rights of SCHULTZ TRANSIT, INC., 323 Bridge Street, Winona, Minn. 55987, and for acquisition by Allen E. Krobilin, Loyal H. Frisch, and Kenneth L. Schadle, all of 2125 Commercial Street, Waterloo, Iowa 50702, of control of such rights through the transaction. Applicants' attorney: Thomas J. Beener, Box 5000, Waterloo, Iowa 50702. Operating rights sought to be purchased is that portion of MC 118202 (Sub 41) authorizing transportation of chemicals over irregular routes as a common carrier from Muscatine, Iowa, to points in Georgia, North Carolina, and South Carolina, restricted to traffic originating at the facilities of Monsanto Chemical Co. at or near Muscatine, Iowa, and destined to the named states. Vendee is authorized in Docket MC 30844 to transport specified commodities in all 48 continental states. Vendee is under approved common control with Takin Bros. Freight Line, Inc., a general commodity carrier between Twin Cities, Minn., points in Iowa and Kansas City, Mo., as authorized in MC 87909. Approval of the transaction will not result in dual operations or duplicating authority. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13344. Authority sought for purchase by MCGUIRE LUMBER & SUPPLY, INC., Wylliesburg, Va. 23976, of a portion of the operating rights of POTTER TRANSFER, INC., Waldorf, Md. 20601, and for acquisition by PENDLETON R. MCGUIRE, ELEANOR S. MCGUIRE, and RALEIGH E. OSBORNE, all of Wylliesburg, Va. 23976, of control of such rights through the transaction. Applicant's attorney: Francis J. Ortmann, 7101 Wisconsin Ave., Suite 605, Washington, D.C. 20423. Operating rights sought to be transferred: Lumber (except veneer and plywood), as a common carrier over

irregular routes, from points in Calvert, Charles, and St. Mary's Counties, Md., to points in North Carolina and Virginia, with no transportation for compensation on return except as otherwise authorized, as described in Certificate MC 127147 (Sub-No. 1). Vendee is presently authorized to transport lumber and other specified commodities from limited origins to points in eastern and central states. Application has not been filed for temporary authority under section 210a(b).

MOTOR CARRIERS OF PASSENGERS

No. MC-F 13346. Authority sought for control by ALFRED HEUBNER, an individual, P.O. Box 343, Ford Road, Rockaway, N.J. 07866, of REAL TRANSIT CO., Route 94, Blairstown, N.J. 07825, of control of such rights through the transaction. Applicant's attorney: Edward F. Bowes, P.O. Box 1409, 167 Fairfield, N.J. 07006. Operating rights sought to be controlled: Passengers and their baggage in the same vehicle with passengers, as a common carrier over regular routes between Blairstown, N.J., and the Port of New York Authority Terminal, New York, N.Y., serving all intermediate points between Blairstown and Stanhope, N.J., including Stanhope; from junction Carhart Street and New Jersey Highway 94 in Blairstown, thence over New Jersey Highway 94 to junction U.S. Highway 206, thence over U.S. Highway 206 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction U.S. Highway 46, thence over U.S. Highway 46 to junction New Jersey Highway 3 (Clifton, N.J.), thence over New Jersey Highway 3 to the Lincoln Tunnel approach, and thence through the Lincoln Tunnel to the Port of New York Authority Terminal and return over the same route. Vendee is authorized to operate as a common carrier in New York, Pennsylvania, New Jersey, Connecticut, Rhode Island, Delaware, the District of Columbia, and Virginia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F 13349. Authority sought for purchase by CARAVAN REFRIGERATED CARGO, INC., 605 South Loop 12, Irving, Tex. 75060, of the operating rights of SPECIALIZED TRUCK SERVICE, INC., Twin 6 Truck Stop, 4901 Old Dixie Highway, Forest Park, Ga., and for acquisition by CARAVAN MOTOR CARGO, INC., of control of such rights through the purchase. Applicant's attorneys: Ralph W. Pulley, Jr., 4555 First National Bank Bldg., Dallas, Tex. 75202, and Guy H. Postell, Suite 713, 3384 Peachtree Road, NE, Atlanta, Ga. 30326. Operating rights sought to be transferred: Heating, airconditioning, and environmental control systems, as a common carrier over irregular routes from the facilities of Brandt-Airflex Corp., at Champaign, Ill., to points in the United States (except Indiana, Missouri, Ohio, Wisconsin, Alabama, Florida, Georgia, South Carolina, Tennessee, Alaska, and Hawaii); malt beverages and related advertising materials when shipped at the same time, from Pabst, Houston County, Ga., to points in Louisiana, Tennessee,

Kentucky, and Virginia; to transport malt beverages, (1) from the facilities of Pabst Brewing Company, located in Houston County, Ga., to points in Texas, and (2) from the facilities of Lone Star Brewing Company, located at San Antonio, Tex., to points in Illinois, Tennessee, and Virginia, and to the District of Columbia; malt beverages, from Pabst (Houston County, Ga., to points in West Virginia; malt beverages, as a common carrier over regular routes from Atlanta, Ga., to Tusculumbia, Ala., serving the intermediate points of Huntsville, Gadsden, and Anniston, Ala.; from Atlanta, Ga., to Birmingham, Ala., serving the intermediate point of Anniston, Ala.; from Atlanta, Ga., to Montgomery, Ala., serving no intermediate points; from Atlanta, Ga., to Abbeville, Ala., serving no intermediate points, empty malt beverage containers, from Tusculumbia, Ala., to Atlanta, Ga., serving the intermediate points of Huntsville, Gadsden, and Anniston, Ala.; from Birmingham, Ala., to Atlanta, Ga., serving the intermediate point of Anniston, Ala.; from Montgomery, Ala., to Atlanta, Ga., serving no intermediate points; from Abbeville, Ala., to Atlanta, Ga., serving no intermediate points; malt beverages, as a common carrier over irregular routes from Atlanta, Ga., to Chattanooga, Lawrenceburg, Shelbyville, Cookeville, Harriman, Johnson City, Knoxville, and Nashville, Tenn., and points in Alabama, Florida, North Carolina, and South Carolina; and from Orlando, Fla., to points in Georgia, North Carolina, South Carolina, and Tennessee; and empty malt beverage containers, from Chattanooga, Lawrenceburg, Shelbyville, Cookeville, Harriman, Johnson City, Knoxville, and Nashville, Tenn., and points in Alabama, Florida, North Carolina, and South Carolina, to Atlanta, Ga.; from points in Georgia, North Carolina, South Carolina, and Tennessee, to Orlando, Fla. Advertising matter used in the sale and distribution of malt beverages, when moving in mixed shipments with malt beverages, from Atlanta, Ga., to Chattanooga, Lawrenceburg, Shelbyville, Cookeville, Harriman, Johnson City, Knoxville, and Nashville, Tenn., and points in Alabama, Florida, North Carolina, and South Carolina, with restrictions.

Malt beverages, in containers, and advertising matter when transported with malt beverages, from Atlanta, Ga., to points in Arkansas, Kentucky, Louisiana, Mississippi, Virginia, and Tennessee (except Chattanooga, Lawrenceburg, Shelbyville, Cookeville, Harriman, Johnson City, Knoxville, and Nashville, Tenn.); and empty malt beverage containers, from points in Arkansas, Kentucky, Louisiana, Mississippi, Virginia, and Tennessee (except Chattanooga, Lawrenceburg, Shelbyville, Cookeville, Harriman, Johnson City, Knoxville, and Nashville, Tenn.), to Atlanta, Ga.; Plywood and particleboard, from the plantsites of the Georgia-Pacific Corporation at or near Louisville and Gloster, Miss., to points in Alabama, Florida, Georgia, Arkansas, North Carolina, South Carolina, Tennessee, Louisiana, Texas, Oklahoma, Kansas,

Gypsum wallboard, gypsum lath, and gypsum wallboard products, from the plantsite of Dierks Forests, Inc., at Briar (Howard County), Ark., to points in Alabama, Florida, Georgia, Illinois, Indiana, Kentucky, Mississippi, North Carolina, Ohio, South Carolina, Tennessee, Virginia, and West Virginia; lumber and lumber products, from the plantsites of Dierks Forests, Inc., at Dierks (Howard County) and Mountain Pine (Garland County), Ark., to points in Alabama, Florida, Georgia, Illinois, Indiana, Kentucky, Michigan, Mississippi, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, and Wisconsin; posts, poles, piling, and lumber, from the plantsite of Dierks Forests, Inc., at Process City (Sevier County), Ark., to points in Alabama, Florida, Georgia, Illinois, Indiana, Kentucky, Michigan, Mississippi, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, and Virginia, with restrictions; malt beverages and related advertising materials, over irregular routes between the facilities of the Lone Star Brewing Company located at San Antonio, Tex., on the one hand, and, on the other, points in Georgia, Missouri, Maryland, and North Carolina; malt beverages, related advertising materials, and empty malt beverage containers,

over irregular routes, between the plantsite and storage facilities of Pabst Brewing Company (Georgia Division) located at or near Perry, Ga., on the one hand, and, on the other, points in Ohio, Wisconsin, Illinois, Indiana, Iowa, Michigan, Missouri, and Maryland; malt beverages, related advertising material and empty malt beverage containers, over irregular routes, from Fort Worth, Tex., to Panama City, Fla.; malt beverages, related advertising material and empty malt beverage containers, over irregular routes, from Fort Worth, Tex., to Dothan, Ala.; malt beverages, related advertising material and empty malt beverage containers, over irregular routes, from Fort Worth, Tex., to Macon, Albany, and Valdosta, Ga. Vendee is authorized to operate as a common carrier in all States except Alaska and Hawaii pursuant to Certificate No. MC 119789 and related subnumbers thereunder. Application has been filed for temporary authority under section 210 a(4).

ABANDONMENT APPLICATIONS

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6) (a) of the Interstate Commerce Act that orders have been entered in the following abandonment applications which are administratively final and which found that subject to conditions the present and future public convenience and necessity permit abandonment.

A Certificate of Abandonment will be issued to the applicant carriers 30 days after this FEDERAL REGISTER publication unless the instructions set forth in the notices are followed.

[Docket No. AB-12 (Sub-No. 27)]

SOUTHERN PACIFIC TRANSPORTATION COMPANY—ABANDONMENT BETWEEN NORTH STANTON AND WEST SANTA ANA IN ORANGE COUNTY, CALIF.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6) (a) of the Interstate Commerce Act (49 U.S.C. 1a(6) (a)) that by an order entered on August 10, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q. R. Co., Abandonment, 257 ICC 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Southern Pacific Transportation Company of its branch line extending from railroad milepost 507.811 to the end of the line at milepost 514.965 near West Santa Ana, Orange County, Calif. A certificate of abandonment will be issued to the Southern Pacific Transportation Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-12 (Sub-No. 29)]

SOUTHERN PACIFIC TRANSPORTATION COMPANY—ABANDONMENT OF ITS NAPOLEONVILLE BRANCH BETWEEN SUPREME AND GLENWOOD IN ASSUMPTION PARISH, LA.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6) (a) of the Interstate Commerce Act (49 U.S.C. 1a(6) (a)) that by an order entered on July 26, 1977, a finding, which is administratively final, was made by the Administrative Law Judge, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q. R. Co., Abandonment, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Southern Pacific Transportation Company of its branch line of railroad between milepost 15.28 at or near Supreme, Louisiana, and extending in a northerly direction to the end of the line at milepost 23.14 near Glenwood, Louisiana, in Assumption Parish, Louisiana, a distance of 7.86 miles. A certificate of abandonment will be issued to the Southern Pacific Transportation

Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-12 (Sub-No. 48)]

SOUTHERN PACIFIC TRANSPORTATION COMPANY—ABANDONMENT BETWEEN CULVER JUNCTION AND INGLEWOOD IN LOS ANGELES COUNTY, CALIF.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6) (a) of the Interstate Commerce Act (49 U.S.C. 1a(6) (a)) that by an order entered on August 2, 1977, a finding, which is administratively final, was made by the Commission, Commissioner Brown, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q. R. Co., Abandonment, 257 I.C.C. 700, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Southern Pacific Transportation Company of a line of railroad extending from milepost 494.249 near Culver Junction to milepost 498.017 near Alla on the Alla Branch and from milepost 498.112 to

milepost 502.200 near Inglewood on the Inglewood Branch, a distance of 8.571 miles in Los Angeles County, California. A certificate of abandonment will be issued to the Southern Pacific Transportation Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

Docket No. AB-33 (Sub-No. 11)

UNION PACIFIC RAILROAD CO.—ABANDONMENT—PORTION OF LEAVENWORTH BRANCH BETWEEN TONGANOXIE AND LAWRENCE IN LEAVENWORTH AND DOUGLAS COUNTIES, KANS.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6) (a) of the Interstate Commerce Act (49 U.S.C. 1a(6) (a)) that by an order entered on August 11, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q. R. Co., Abandonment, 257 ICC 700, and for public use as set forth in said order, the present and

future public convenience and necessity permit the abandonment by the Union Pacific Railroad Co. of the portion of the Leavenworth Branch line from railroad milepost 20.72 near Tonganoxie, Kans., to railroad milepost 34.15 near Lawrence, Kans., a distance of 13.43 miles in Leavenworth and Douglas Counties, Kans. A certificate of abandonment will be issued to the Union Pacific Railroad Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) a financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) it is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

[Docket No. AB-128]

EAST WASHINGTON RAILWAY CO.—ENTIRE LINE ABANDONMENT—IN THE DISTRICT OF COLUMBIA AND PRINCE GEORGES COUNTY, MD.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6) (a) of the Interstate Commerce Act (49 U.S.C. 1a(6) (a)) that by an order entered on July 28, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the condition for public use as set forth in said order, the present and future public convenience and necessity permit the

abandonment by the East Washington Railway Co. of its entire line of railroad extending from milepost 0 to Chesapeake Junction, D.C., easterly to milepost 3 at the Roundhouse, east of Seat Pleasant, Md., a distance of 2.631 miles, and a spur line extending westerly from milepost 0 to the Potomac Electric Power Co. Plant at Benning, D.C., a distance of .756 mile, the entire line encompassing a total distance of 3.387 miles in the District of Columbia and Prince Georges County, Md. A certificate of abandonment will be issued to the East Washington Railway Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) a financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) it is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

MOTOR CARRIER ALTERNATE ROUTES DEVIATIONS

NOTICE

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4 (c) (11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the

manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

No. MC-29910 (Deviation No. 38), ARKANSAS-BEST FREIGHT SYSTEM, INC., P.O. Box 48, Ft. Smith, Ark. 72902, filed July 5, 1977. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Scranton, Pa., over Interstate Highway 380 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Interstate Highway 280, thence over Interstate Highway 280 to Newark, N.J., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Scranton, Pa., over U.S. Highway 11 to junction New York Highway 281 near Homer, N.Y., thence over New York Highway 281 to junction U.S. Highway 11 near Tully, N.Y., thence over U.S. Highway 11 to Syracuse, N.Y., thence over New York Highway 5 to Albany, N.Y., thence over U.S. Highway 20 to Pittsfield, Mass., thence over U.S. Highway 7 to Norwalk, Conn., thence over U.S. Highway 1 to New York City, N.Y., thence over city streets to Newark, N.J., and return over the same route.

No. MC-29910 (Deviation No. 39), ARKANSAS-BEST FREIGHT SYSTEM, INC., P.O. Box 48, Ft. Smith, Ark. 72901, filed September 23, 1977. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Cincinnati, Ohio, over Ohio Highway 125 to junction U.S. Highway 68, thence over U.S. Highway 68 to junction U.S. Highway 52 near Ripley, Ohio, thence over U.S. Highway 52 to Portsmouth, Ohio and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Cincinnati, Ohio over U.S. Highway 52 to Portsmouth, Ohio and return over the same route.

No. MC 42487 (Deviation No. 114), CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, P.O. Box 5138, Chicago, Ill. 60680, filed September 22, 1977. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Birmingham, Ala., over Interstate Highway 59 to junction Interstate Highway 24, thence over Interstate Highway 24 to Chattanooga, Tenn., thence over Interstate Highway

124 to junction U.S. Highway 127, thence over U.S. Highway 127 to junction Interstate Highway 40 near Crossville, Tenn., thence over Interstate Highway 40 to junction Interstate Highway 81, thence over Interstate Highway 81 to junction U.S. Highway 30 near Chambersburg, Pa., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Birmingham, Ala., over U.S. Highway 31 to junction Alabama Highway 53, thence over Alabama Highway 53 to Ardmore, Tenn., thence over Tennessee Highway 110 to Fayetteville, Tenn., thence over U.S. Highway 231 to Murfreesboro, Tenn., thence over U.S. Highway 41 to Nashville, Tenn., thence over U.S. Highway 31W to Elizabethtown, Ky., thence over U.S. Highway 62 to Lexington, Ky., thence over U.S. Highway 25 to Cincinnati, Ohio, thence over U.S. Highway 22 to Pittsburgh, Pa., thence over U.S. Highway 30 to junction Interstate Highway 81 near Chambersburg, Pa., and return over the same route.

No. MC 89723 (Deviation No. 41), MISSOURI PACIFIC TRUCK LINES, INC., 210 N. 13th St., St. Louis, Mo. 63103, filed September 23, 1977. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Little Rock, Ark., over U.S. Highway 65 to junction U.S. Highway 165 near Halley, Ark., thence over U.S. Highway 165 to Monroe, La., thence over Interstate Highway 20 to Shreveport, La., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Little Rock, Ark., over U.S. Highway 65 to junction U.S. Highway 165 near Halley, Ark., thence over U.S. Highway 165 to Monroe, La., thence over Interstate Highway 20 to Shreveport, La., and return over the same route.

MOTOR CARRIER INTRASTATE APPLICATION (S)

NOTICE

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 206(a) (6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's General Rules of Practice (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. A57554 filed September 6, 1977. Applicant: KIMKRIS TRUCKING CO., INC., 1101 Wright Ave., Richmond, Calif. 94804. Applicant's representative: Randall M. Faccinto, 100 Pine St., Suite 2550, San Francisco, Calif. 94111. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of General commodities (1) Between all points and places in the San Francisco Territory, as described in Note A hereto; and (II) Between all points in the San Francisco Territory, on the one hand, and, on the other hand, points and places located on or within five miles laterally of the following routes: (a) U.S. Highway 101 between San Jose and Salinas, inclusive; (b) State Highway 17 between San Jose and Santa Cruz, inclusive; (c) State Highway 1 between San Francisco and Carmel, inclusive, including the off-route point of Carmel Valley; (d) State Highway 9 between Los Gatos and Santa Cruz, inclusive; (e) State Highway 152 between Gilroy and State Highway 1, at Watsonville, inclusive; (f) State Highway 156 between Watsonville and its intersection with U.S. Highway 101 south of Gilroy, inclusive; (g) State Highway 129 between its intersection with U.S. Highway 101 and State Highway 1 at Watsonville, inclusive; (h) State Highway 68 between Salinas and Monterey, inclusive; (III) Between all points and places in the San Francisco Territory, on the one hand, and, on the other hand, points and places located on or within twenty five miles laterally of the following routes: (a) Interstate Highway 80 between Richmond and Sacramento, inclusive; (b) Interstate Highway 5 between Sacramento and its intersection with State Highway 198, inclusive; (c) Interstate Highway 580 between Oakland and its junction with Interstate Highway 5, inclusive; (d) Interstate Highway 205 between its junction with Interstate Highway 5 and its junction with Interstate Highway 580 inclusive; (e) State Highway 198 between its intersection with Interstate Highway 5 and its intersection with State Highway 99, inclusive; (f) State Highway 9 between Sacramento and its intersection with State Highway 198, inclusive; and (g) State Highway 4 between its intersection with Interstate Highway 80 and Stockton, inclusive. (IV) In performing the service herein authorized, the carrier may make use of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service, (except that, pursuant to the authority herein granted, carrier shall not transport any shipments of:

(1) Used household goods, personal effects, and office, stores and institution furniture, fixtures and equipment not packed in salesmen's hand sample cases, suitcases, overnight or boston bags, brief cases, hat boxes, valises, traveling bags, trunks, lift vans, barrels, boxes, cartons, crates, cases, baskets, pails, kits, tubs, drums, bags (jute, cotton, burlap or gunny) or cotton, burlap, gunny, fibreboard, or straw matting. (2) Automobiles,

trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses, and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. (3) Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine or wethers. (4) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles. (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (7) Logs. (8) Articles of extraordinary value. (9) Trailer coaches and campers, including integral parts and contents when the contents are within the trailer coach or camper; and (10) Fresh fruit and vegetables. (11) The following commodities between points on or within twenty five miles laterally of routes specified in paragraph III above, (except between points in the San Francisco Territory on the one hand, and, Vallejo, Sacramento, Stockton and Modesto and points within five miles of those cities, on the other hand): (a) Commodities in ocean containers and empty ocean containers having an immediately prior or subsequent movement by water; and (b) Commodities having an immediately prior or subsequent movement in rail piggyback service.

NOTE.—A San Francisco Territory includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Line meets the Pacific Ocean; thence easterly along said County Line to a point one mile west of and paralleling State Highway 82 to its intersection with Southern Pacific Company right-of-way at Arastradero Road; southeasterly along the Southern Pacific Company right-of-way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately two miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Ave.; easterly along W. Parr Ave. to Capri Drive; southerly along Capri Drive to Division St.; easterly along Division St.; to the Southern Pacific Company right-of-way; southerly along the Southern Pacific right-of-way to the Campbell-Los Gatos City Limits; easterly along said limits and the prolongation thereof to South Bascom Ave., (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Ave.; to Foxworthy Ave.; easterly along Foxworthy Ave. to Almaden Road; southerly along Almaden Road to Hillside Ave.; easterly along Hillside Ave., to State Highway 82; northwesterly along State Highway 82 to Tully Road; northeasterly along Tully Road and the prolongation thereof to White Road; northwesterly along White Road to McKee Road; southerly along McKee Road to Capitol Ave.; northwesterly along Capitol Ave., to State Highway 238 (Oakland Road); northerly along State Highway 238 to Warm Springs; northerly along State Highway 238 (Mission Blvd.) via Mission San Jose and Niles to

Hayward; northerly along Foothill Blvd. and MacArthur Blvd. to Seminary Ave.; easterly along Seminary Ave. to Mountain Blvd.; northerly along Mountain Blvd. to Warren Blvd. (State Highway 13); northerly along Warren Blvd. to Broadway Terrace; westerly along Broadway Terrace to College Ave.; northly along College Ave. to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland Boundary Line; northerly along said boundary line to the Campus Boundary of the University of California; westerly, northerly and easterly along the campus boundary

to Euclid Ave.; northerly along Euclid Ave. to Marin Ave.; westerly along Marin Ave. to Arlington Ave.; northerly along Arlington Ave. to San Pablo Ave., (State Highway 123); northerly along San Pablo Ave., to and including the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market St.; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. Intrastate, interstate and foreign commerce authority sought.

Hearing: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 455 Golden Gate Ave., San Francisco, Calif. 94102 and should not be directed to the Interstate Commerce Commission.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

NOTICE OF DELETION OF ITEM AND CHANGE OF TIME AND DATE OF THE SEPTEMBER 29, 1977 MEETING

REVISED AGENDA

TIME AND DATE: 10 a.m., September 30, 1977.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 1. Dockets 31232, 31234, 31235, 31246, 31247, 31285, and 31305, Complaints of National Air Carrier Association, Brendan Tours, Inc., Charter Travel Corp., The Educational Cooperative, and Laker Airways Ltd. against Tariffs of Pan American World Airways, Inc., Trans World Airlines, Inc., British Airways, and Air India Proposing Stand-by, Budget, and Super-Apex Fares over the North Atlantic (President's letter dated September 26, 1977).

1a. Docket 25908 et al. Transatlantic Route Proceeding (OGC).

1b. Overseas National Airways, Inc., petition for review of staff action denying a request by Pan American World Airways, Inc. to transport ONA charter passenger on PAA's scheduled service at ONA's charter rate (Memo No. 7436, BFR).

2. Docket 31315, Continental Air Lines' application for an exemption to furnish domestic reduced-rate transportation for 794 World Airways overbooked Charter passengers (Memo No. 7238-B, BFR).

2a. Dockets 31302 and 31303, Ozark's proposal to reduce fares for multistop service (Memo No. 7262-E, BFR).

2b. Proposed Fare Increase of Aloha and Hawaiian Airlines (Memo No. 7371-A, BFR).

3. Board Comments on S. 1898, The Rural Transportation Act of 1977 (Memo No. 7443, BFR, BOR, OCCR, OGC).

3a. Docket 30226, Increase in Subsidy for Kodiak-Western Alaska Airlines, Inc. (Memo No. 6669-D, BFR, OC, BOR).

3b. Docket 31428, Exemption for Reeve Aleutian Airways, Inc. to Continue Carriage of Military Passengers on Certain Scheduled Services at less than its Tariff Rates (Memo No. 5333-D, BFR).

4. Dockets 29093, 29131, 29142, Applications of Braniff, Continental and East-

sunshine act meetings

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409), 5 U.S.C. 552b(e)(3).

ern for removal of single-plane restrictions in Pacific Northwest-Southeast markets (Memo No. 6916-C, BOR, OGC).

5. Docket 31123, Trans-Florida Airlines, Inc., Application for exemption to operate a 44- to 50-seat Convair 240 aircraft in air taxi passenger service (Memo No. 7441, BOR).

6. United Air Lines' Transaction Agreement UA-519 (No. 27A, filed August 31, 1977) (Memo No. 7440, BOR, BAS, OGC).

7. United Air Lines' Transaction Agreement UA-226 (No. 26, filed August 30, 1977) (Memo No. 6767-B, BOR, BAS, OGC).

8. Comments on proposed Executive Order on Environmental factors in decisionmaking, amending Executive Order 11514 (Memo No. 7444, OGC, BLJ, BOR).

9. Part 385—Expansion of Delegated Authority of Director, Bureau of Operating Rights (Memo No. 7434, OGC).

10. Docket 29684, Ephrata-Moses Lake Deletion Case, order making effective initial decision (Memo No. 7435, OGC).

11. Redesignated 1a.

12. Docket 29747, Foreign Air Carrier Permit Investigation, withdrawal of moot Board opinions, orders and permits of British carriers from the President (Memo No. 6355-G, OGC).

12a. Docket 28807, Petition for extension of time in Trans International Airlines, Inc., Enforcement Proceeding (Memo No. 7339-A, OGC).

12b. Docket 30746, Discretionary review on Board's initiative of the decision of the Director, BOE, declining to institute an enforcement proceeding in the complaint of LACO Travel Service v. Air Travel Conference of America (Memo No. 7456, OGC).

13. Docket 30742, Discretionary review on Board initiative of the decision of the Director, BOE, declining to institute an enforcement proceeding in the complaint of William B. Schultz v. Eastern Air Lines, Inc. (Memo No. 7439, OGC).

14. Deleted by MA-60.

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, The Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Item 14 on the September 29, 1977 meeting agenda was the Freedom of Information Act Request of Barbara Cook. On September 29, 1977, Ms. Cook agreed to one week's postponement of the Board's determination of her request. Accordingly, the following Members have voted that agency business requires that the Freedom of Information Act request of Barbara Cook be deleted from the September 29, 1977 meeting agenda and that

no earlier announcement of the change was possible:

Vice Chairman Richard J. O'Melia.
Member G. Joseph Minetti.
Member Lee R. West.
Member Elizabeth E. Bailey.

2

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., October 6, 1977

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 1. Ratification of items adopted by notation.

2. Docket 31158, Petition for investigation of TWA's charter cancellation rule by Hawaiian Holidays, Inc., and Adventure Holidays International Wholesale Tours, Inc., (Memo No. 7454, BFR).

3. Docket 31327, Transatlantic specific commodity rate proposed by Sabena (Memo No. 7455, BFR, BIA).

4. Docket 31378, Complaint of Air Tariff Corp. and request for suspension or rejection of local and joint passenger tariff No. VP-1 issued by Airline Tariff Publishing Co., filed on behalf of American, Eastern, and other carriers, effective October 10, 1977 (BFR).

5. Docket 30659, Institution of California-Nevada Low Fare Proceeding—PSA's Motion for immediate hearing and related pleadings (Memo No. 7433, BOR, BLJ, OGC, BFR, OEA).

6. Docket 30976, TWA fill-up authority in the New York-Boston/Detroit/Washington/Baltimore markets, order to show cause (Memo No. 7447, BOR).

7. Docket 28457, Reinstatement of Midland/Odessa's joint petition for an investigation of air service to the east (Memo No. 6130-C, BOR, OGC).

8. Dockets 30945 and 30972, Applications of Frontier and Texas International for Little Rock-Denver one-stop authority (Memo No. 7457, BOR).

9. Docket 30967, Eastern Air Lines' Application for Nonstop Authority between Milwaukee/Twin Cities and Louisville on Flights Serving Nashville or a Point South Thereof (Memo No. 7453, BOR, OGC).

10. Docket 31293, Delta's Exemption Request to Operate One Daily Round-trip Detroit-New Orleans-Houston Flight (Memo No. 7459, BOR).

11. Docket 30948, Rich International Airways—amendment to exemption request to operate as an air taxi operator (Memo No. 3047-E, BOR).

SUNSHINE ACT MEETINGS

[6750-01]

3

FEDERAL TRADE COMMISSION.

TIME AND DATE: 10 a.m., Tuesday, October 11, 1977.

PLACE: Room 632, Federal Trade Commission Building, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

NONADJUDICATIVE MATTERS

(1) Approval of Minutes of Nonadjudicative Matters Considered at Meetings of September 28, and October 4, 1977.

(2) Consideration of a proposed complaint in a nonpublic Part I investigation.

(3) Consideration of issuance of investigational resolution in nonpublic Part II matter.

ADJUDICATIVE MATTERS UNDER PART 3 OF THE RULES OF PRACTICE

The Commission has not yet scheduled any adjudicative items for discussion at this meeting.

CONTACT PERSON FOR MORE INFORMATION:

Leonard J. McEnnis, Jr., Office of Public Information, 202-523-3830; Recorded message: 202-523-3806.

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of October 11, 1977, in Room 825, 500 North Capitol Street, Washington, D.C.

A closed meeting will be held on Wednesday, October 12, 1977, at 10 a.m. An open meeting will be held on Thursday, October 13, 1977, at 10 a.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meeting may be so considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 551b(c) (4) (8) (9) A and (10) and 17 CFR 200.402 (a) (8) (9) (i) and (10).

Chairman Williams and Commissioners Loomis, Evans, Pollack, and Karmel determined to hold the aforesaid meeting in closed session.

SUNSHINE ACT MEETINGS

The subject matter of the closed meeting scheduled for Wednesday, October 12, 1977, at 10 a.m. will be:

Formal orders of investigation.
Institution of injunctive actions.
Institution of administrative proceedings.

Simultaneous institution and settlement of administrative proceeding.

Referral of investigative files to Federal, State, or Self Regulatory authorities.

Other litigation matter.

The subject matter of the open meeting scheduled for Thursday, October 13, 1977, at 10 a.m. will be:

1. Application of Sanford S. Trontz to allow him to be employed as a registered representative by Hornblower, Weeks, Noyes & Trask, Inc., a registered broker-dealer, in a non-supervisory, non-proprietary capacity, with adequate supervision.

2. Petition for review filed by Titan

Wells, Inc. of staff denial of extension of time to file Form 10-K pursuant to Rule 12b-25 under the Securities Exchange Act of 1934.

3. Proposed Amendments to New York Stock Exchange Rule 110 and Rules 109 and 112, which would remove several major direct restrictions on floor trading activity.

4. Proposed amendments to the net capital rule, Rule 15c3-1, which (1) would eliminate present exemption of certain specialists in listed options from the net capital and would require them to maintain net capital of at least \$25,000 and prescribe early warning and surveillance reports by firms that carry such specialists accounts and (2) would propose adjustments in the calculation of net capital with respect to specialists positions in options.

5. Proposed amendments to the Municipal Securities Rulemaking Board's recordkeeping and retention rules to elim-

inate the requirement that a municipal securities broker and dealer obtain evidences of authority to transact business for joint, corporate, partnership and certain other accounts. In lieu of this, the amended rule would prescribe that the broker or dealer enter the name (and address if other than that on the account) of the person entering the order on the trading ticket or a comparable record.

6. Applications of CMA Money Trust and Merrill Lynch, Pierce, Fenner & Smith Inc. for exemptive relief from the pricing provisions of Rule 22c-1 under the Investment Company Act of 1940 and the confirmation delivery requirements of Rules 10b-10 and 15c1-4 under the Securities Exchange Act of 1934.

FOR FURTHER INFORMATION CONTACT:

Glynn Mays at 202-755-1268.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Phone 523-5240
Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month. A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3510-25]

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 387—ENFORCEMENT

PART 388—DENIAL OF EXPORT PRIVILEGES AND IMPOSITION OF CIVIL PENALTIES

Limited Revision of Sanctions for Violations of Export Administration Act

AGENCY: Office of Export Administration, U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: This document reflecting amendments (effective June 22, 1977) to the Export Administration Act of 1969, as amended, increases the maximum fines that may be imposed for violations of the Act and any order, regulation or license issued thereunder and modifies certain other penalty provisions.

EFFECTIVE DATE: October 4, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Department of Commerce, Washington, D.C. 20230, telephone 202-377-4196.

SUPPLEMENTARY INFORMATION: The Export Administration Amendments of 1977 (P.L. 95-52) amended portions of section 6 of the Export Administration Act of 1969, as amended (the "Act"), to increase the maximum fines which may be imposed for violations of the Act. The fine which may be imposed in a criminal proceeding for a first violation of the Act or any order, regulation or license issued thereunder is increased from a maximum of \$10,000 to a maximum of \$25,000. The maximum fine which may be imposed in a criminal proceeding for a second or subsequent such violation is now three times the value of the exports involved or \$50,000 (increased from \$20,000), whichever is greater. In addition, the maximum fine which may be imposed in a criminal proceeding for a willful violation of the Act or any order, regulation or license issued thereunder, by exporting anything with knowledge that such exports will be used for the benefit of any country to which exports are restricted for national security or foreign policy purposes (formerly for the benefit of "any Communist-dominated nation"), is five times the

value of the exports involved or \$50,000 (increased from \$20,000), whichever is greater. Maximum periods of imprisonment which may be imposed in lieu of, or in addition to, such fines remain unchanged.

The civil penalty which may be imposed in an administrative proceeding is also increased from a maximum of \$1,000 to a maximum of \$10,000 for each violation of the Act or any order, regulation or license issued thereunder. These regulations, as revised, also reflect the statutory amendment which permits the deferral or suspension of payment of the civil penalty imposed in an administrative proceeding for a limited period of time, but does not bar the collection of the fine if conditions of the deferral, suspension or probation are not met.

1. Accordingly, § 387.1 (a)(1) and (b)(3) of the Export Administration Regulations (15 CFR 387.1) are revised as follows:

§ 387.1 Sanctions.

(a) *Criminal*—(1) *Violations of Export Administration Act.* Any person who knowingly violates the Export Administration Act or any order, regulation, or license issued thereunder is punishable for each violation by a fine of not more than \$25,000 or by imprisonment for not more than one year, or both. For a second or subsequent offense, the violator is punishable by a fine of not more than three times the value of the exports involved or \$50,000, whichever is greater, or by imprisonment for not more than five years, or both. In addition, a person who willfully exports any commodities or technical data contrary to any provision of the Act or any regulation, order, or license issued thereunder, with the knowledge that such exports will be used for the benefit of any country to which exports are restricted for national security or foreign policy purposes, is punishable by a fine of not more than five times the value of the exports involved or \$50,000, whichever is greater, or by imprisonment for not more than five years or both.

(b) *Administrative.* . . .

(3) *Civil penalty.* A civil penalty not to exceed \$10,000 for each violation of the

*The U.S. Department of Commerce is authorized, within its discretion, to compromise and settle any administrative proceedings brought with respect to such violations upon payment of a sum not to exceed \$10,000 for each violation.

Export Administration Act or any regulation, order or license issued thereunder may be imposed, either in addition to, or in lieu of, any other liability or penalty which may be imposed.¹ The payment of this penalty may be made a condition for a period not exceeding one year after the imposition of such penalty to the granting restoration, or continuing validity of any export licenses, permission, or privilege granted to the person upon whom such a penalty is imposed. The payment of such penalty may be deferred or suspended in whole or in part for a period of time no longer than any probation period (which may exceed one year) that may be imposed upon such person. Such deferral or suspension shall not operate as a bar to the collection of the penalty in the event that the conditions of the suspension, deferral or probation are not fulfilled. Upon failure of any person to pay a penalty, imposed pursuant to this § 387.1(b)(3), civil action for the recovery of the penalty may be brought in the name of the United States, in which action the court shall determine de novo all issues necessary to the establishment of liability. Once a penalty has been paid, no action for the refund thereof may be maintained in any court.²

2. Section 388.1(a)(4) of 15 CFR Part 388 is revised to read as follows:

§ 388.1 Denial of export privileges and imposition of civil penalties.

(a) . . .

(4) *Civil Penalty.* In addition to the administrative sanctions described in § 388.1(a), or in lieu thereof, a civil penalty not to exceed \$10,000 may be imposed for each violation. (See § 387.1(b)(3).)

(Secs. 4 and 6, Pub. L. No. 91-184, 83 Stat. 842 (50 U.S.C. App. § 2403, 2405), as amended; E.O. 12002, 42 FR 35623 (1977); Department Organization Order 10-3, dated November 17, 1975, 40 FR 58876 (1975), as amended; and Domestic and International Business Administration Organization and Function Orders 46-1, dated November 17, 1975, 40 FR 59764 (1975), as amended and 46-2, dated November 17, 1975, 40 FR 59761 (1975), as amended.)

*The U.S. Department of Commerce is authorized, within its discretion, however, to refund the penalty at any time within two years of payment if it is found that there was material error of fact or of law.

[3510-25]

PART 390—GENERAL ORDERS

Extensions of Terms for Technical Advisory Committee Members

AGENCY: Office of Export Administration, U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: This document, reflecting amendments (effective June 22, 1977) to the Export Administration Act of 1969, as amended, extends the term of industry members of Technical Advisory Committees established pursuant to the provisions of the Act from two to four years and defines more precisely the purpose for which such Committees are established.

EFFECTIVE DATE: October 4, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Department of Commerce, Washington, D.C. 20230 (Telephone: 202-377-4196)

SUPPLEMENTARY INFORMATION: The Export Administration Amendments of 1977 (Pub. L. 95-52) amended the Export Administration Act of 1969, as amended (the "Act"), to increase the term that industry members may serve on a Technical Advisory Committee established pursuant to Section 5(c) of the Act from two to four consecutive years. The Amendments also defined more precisely the matters on which Committees should be consulted to include questions involving "exports subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls." These regulations implement the foregoing amendments and, in addition, reflect the current Department of Commerce policy of publishing technical advisory committee meeting notices in the FEDERAL REGISTER at least 20 days (previously seven days) prior to the meeting. Accordingly, the introductory text to § 390.1(b), and § 390.1(b)(6) and § 390.1(c) of the Export Administration Regulations (15 CFR Part 368 et seq.) are revised as follows:

§ 390.1 Advisory Committees.

(b) *Technical Advisory Committees.* Any producer of articles, materials, or supplies, including technical data and other information which are subject to export controls, or are being considered for such controls because of their significance to the national security of the United States, may request the Secretary of Commerce to establish a technical advisory committee, under the provisions of

Section 5(c) of the Export Administration Act of 1969, as amended, to advise and assist the Department of Commerce and other appropriate U.S. Government departments, agencies, or officials with respect to questions involving: technical matters, worldwide availability and actual utilization of production technology, licensing procedures which affect the level of export controls applicable to a clearly defined grouping of articles, materials, or supplies, including technical data or other information, and exports subject to multilateral controls in which the United States participates, including proposed revisions of any such multilateral controls.

If producers of articles, materials, or supplies, including technical data, or other information which are subject to export controls, or are being considered for such controls because of their significance to the national security of the United States, wish a trade association or other representative to submit a written request on their behalf for the appointment of a technical advisory committee, such request shall be submitted in accordance with the provisions of § 390.1(b)(4).

(6) *Selection of industry members of committee.* Industry members of a technical advisory committee will be selected by the Department of Commerce from a list of nominees who have indicated their availability for service on the committee. To the extent feasible, the Department of Commerce will select a committee balanced to represent all significant facets of the industry involved, taking into consideration such factors as the size of the firms, their geographical distribution, and their product lines. No industry representative shall serve on such committee for more than four consecutive years.

(c) *Public notice.* Notice to the public of each meeting of a technical advisory committee shall be issued at least 20 days in advance and shall be published in the FEDERAL REGISTER. The notice shall include the time and place of the meeting and its agenda.

(Sec. 5(c), Pub. L. No. 91-184, 83 Stat. 842 (50 U.S.C. App. 2404(c), as amended; E.O. 12002, 42 FR 35623 (1977); Department Organization Order 10-3, dated No. 17, 1975, 40 FR 58876 (1975), as amended; and Domestic and International Business Administration Organization and Function Orders 46-1, dated November 17, 1975, 40 FR 59764 (1975), as amended and 46-2, dated November 17, 1975, 40 FR 59761 (1975), as amended)

RAUER H. MEYER,
Director,
Office of Export Administration.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 33-5871]

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

Small Issues Exemption—Abandoned Notifications

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Commission adopts a procedure whereby it may determine whether a filing pursuant to Regulation A, the small issues exemption from registration under Section 3(b) of the Securities Act of 1933, has been abandoned so that it may be removed from consideration as a pending matter, and the authority to order such filings abandoned is delegated to the Regional Administrators.

EFFECTIVE DATE: October 31, 1977.

FOR FURTHER INFORMATION CONTACT:

Ruth D. Appleton, Chief, Office of Tender Offers, Acquisitions and Small Issues, Division of Corporation Finance, Securities and Exchange Commission, Washington, D.C., (202-755-1290).

SUPPLEMENTARY INFORMATION: The Securities and Exchange Commission today announced the adoption of Rule 264 (17 CFR 230.264) and an amendment to its rule governing delegation of authority to Regional Administrators (17 CFR 200.306) establishing a procedure whereby the Commission may determine that a notification on Form 1-A (17 CFR 239.90) filed pursuant to the Regulation A exemption (17 CFR 230.251 to 230.264) from the registration requirements of the Securities Act of 1933, as amended ("the Securities Act") (15 U.S.C. 77a et seq.), has been abandoned. The Commission may then remove such filings from consideration as a pending matter.

BACKGROUND

At any given time, there are on file with the Commission a number of notifications on Form 1-A which the issuers appear to have abandoned. This situation may have developed either because the issuer has determined not to proceed with an offering due to changed market or other conditions or because the issuer has ceased operations due to its dissolu-

tion or bankruptcy. Whatever the reason, the filing is not up to date and should not be relied upon for the accuracy of the information therein. Therefore, the filing should be withdrawn by the issuer or otherwise removed from consideration as a pending filing.

To accomplish this purpose, the rule provides that when a Regulation A filing has become out of date by the passage of nine months from the filing date of the notification or from the filing date of the latest substantive amendment thereto, and the issuer has not furnished the Commission a satisfactory explanation why it has not amended or withdrawn the filing, the Commission may, in its discretion, follow the procedure set forth in the new rule. The rule also provides that an abandoned filing shall be marked as such and shall remain in the files of the Commission.

In order to simplify most effectively the procedure for ordering abandonment of Regulation A filings; the Commission delegates the authority to order such filings abandoned to the Regional Administrators.

The proposed rules were published for comment in Release No. 33-5831 on June 6, 1977, (42 FR 30378), and the comment period ended July 31, 1977. All of the Commission's Regional Offices have concurred with the proposed rules. No comments were received from members of the public.

TEXT OF AMENDMENTS

I. The Commission's Rules of Organization (17 CFR 200.1 to 200.30-12) are hereby amended by adding a new § 200.30-6(a) (4) to read as follows:

§ 200.30-6 Delegation of authority to Regional Administrators.

(a) . . .

(4) To issue orders declaring notifications on Form 1-A (§ 239.90 of this chapter) abandoned pursuant to Rule 264 (§ 230.264 of this chapter).

II. Regulation A [17 CFR 230.251 to 230.263] is amended by adding a new § 230.264, reading as follows:

§ 230.264 Procedure with respect to abandoned notifications on Form 1-A [§ 239.90].

When a notification on Form 1-A [239.90] under §§ 230.251 to 230.264, or the latest substantive amendment thereto, if any, has been on file with the Commission for a period of nine months from its filing date and the offering has not commenced, the Commission may, in its discretion, proceed in the following manner to determine whether such filing has been abandoned by the issuer:

(a) Notice will be sent to the issuer, and to any counsel for the issuer named in the notification, by registered or certified mail, return receipt requested, addressed to the most recent addresses for issuer and issuer's counsel as reflected in the notification. Such notice will inform the issuer and issuer's counsel that the notification or amendments thereto is

out of date and must be either amended to comply with applicable requirements of §§ 230.251 to 230.264 or be withdrawn within thirty days after the date of such notice.

(b) If the issuer or issuer's counsel fails to respond to such notice by filing a substantive amendment or withdrawing the notification or does not furnish a satisfactory explanation as to why the issuer has not done so within such thirty days, the Commission may, where consistent with the public interest and the protection of investors, enter an order declaring the notification abandoned.

(c) When such an order is entered by the Commission, the papers comprising the notification and any amendment thereto will not be removed from the files of the Commission but will be plainly marked in the following manner: "Declared abandoned by order dated _____"

(Secs. 3(b), 19(a), 48 Stat. 75, 85; Sec. 209, 48 Stat. 908; c. 122, 59 Stat. 167; Pub. L. 91-565, 84 Stat. 1480; 15 U.S.C. 77c(b), 77s(a).)

The Commission hereby adopts Rule 264 pursuant to Sections 3(b) and 19(a) of the Securities Act. The delegation of authority amendment is made pursuant to Public Law 87-592, 76 Stat. 394 (15 U.S.C. 78d-1, 78d-2).

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 29, 1977.

[Release Nos. 33-5870, 34-14003, AS-228]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Quarterly Reporting Requirements for Life Insurance Companies

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Commission is further deferring, until 1979, the effective date of the quarterly reporting requirements for life insurance companies whose shares are not actively traded. Such additional delay is necessary to allow sufficient time for the Commission to fully consider the recommendations of its Advisory Committee on Corporate Disclosure regarding the special problems of smaller companies.

EFFECTIVE DATE: Deferred from December 25, 1978, to December 25, 1979.

FOR FURTHER INFORMATION CONTACT:

Edward R. Cheramy, Office of the Chief Accountant, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 (202-376-8020).

SUPPLEMENTARY INFORMATION: On September 20, 1976, the Commission

issued Accounting Series Release No. 197 (41 FR 42645, September 28, 1976)¹ to require quarterly financial reporting, on Form 10-Q, by life insurance companies and holding companies having only life insurance subsidiaries. In that release the Commission stated:

Recognizing that some life insurers do not presently prepare quarterly financial information, the Commission believes that the quarterly reporting responsibilities imposed by these amendments should first be applied to those life insurance companies whose activities are most closely followed by analysts and investors. At the same time and taking into account the lead time and start-up requirements for those companies not currently preparing quarterly financial information on a generally accepted accounting principles (GAAP) basis, the Commission has decided to defer the effective date of these amendments until 1978 for life insurance companies whose shares are not actively traded. In addition, the Commission notes that its Advisory Committee on Corporate Disclosure is reviewing the overall question of the reporting responsibilities of smaller companies. The results of their work are anticipated in mid-1977 and could possibly impact the filing requirements of many smaller companies, including small public life insurance companies. Accordingly, the Commission will give notice no later than September 30, 1977, as to whether or not there will be any further delay of the effective date of these amendments or any change in these amendments with respect to those life insurance companies whose shares are not actively traded.

The Commission's Advisory Committee on Corporate Disclosure has not yet issued its final report. However, it has agreed on the following recommendations regarding the special problems of small companies.

The Commission should hold public hearings to determine: (1) Whether and to what extent, the Commission should attempt to define a category of "small companies" for the purpose of requiring less burdensome reporting; (2) how such a classification, if desirable and possible, should be defined; and (3) what reductions of reporting requirements are possible, consistent with the purposes of the Federal securities laws.

The Commission has not formally received the final report, but it believes that all recommendations of the Advisory Committee will warrant careful consideration. Accordingly, the Commission has decided to defer the effective date of the quarterly reporting requirements for life insurance companies whose shares are not actively traded until 1979. Notice will be given no later than September 30, 1978, as to whether or not there will be any further deferral of the effective date.

COMMISSION ACTION

The Commission hereby amends paragraphs (c) (1) of §§ 240.13a-13 and 240.15d-13 of 17 CFR Part 240, to defer the effective date specified therein as given below.

¹ Certain technical errors were corrected in Accounting Series Release No. 218 (42 FR 27879), May 23, 1977.

§ 240.13a-13 Quarterly reports on Form 10-Q (§ 249.308a of this chapter).

(1) Life insurance companies and holding companies having only life insurance subsidiaries for quarters in fiscal years ending on or before December 25, 1979, if they do not meet the tests specified in paragraph (b) (1) (i) of § 210.3-16; or

§ 210.15d-13 Quarterly reports on Form 10-Q (§ 249.308a of this chapter).

(1) Life insurance companies and holding companies having only life insurance subsidiaries for quarters in fiscal years ending on or before December 25, 1979, if they do not meet the tests specified in paragraph (b) (1) (i) of § 210.3-16; or

(Secs. 12, 13, 15(d), and 23(a) (15 U.S.C. 78l, 78a(d), and 78w) Securities Exchange Act of 1934.)

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 28, 1977.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 5—DELEGATIONS OF AUTHORITY AND ORGANIZATION

Subpart B—Re Delegations of Authority From the Commissioner of Food and Drugs Disclosure of Official Records and Information

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The agency is revising the delegations of authority relating to disclosure of official records and information. The amendment changes the delegation to bring it in accord with the agency's public information regulations and current policies and procedures being followed by officials for release of records and information under the Freedom of Information Act. The new delegations will provide needed guidance to agency officials and promote more effective and efficient operations.

EFFECTIVE DATE: October 7, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert L. Miller, Office of Administration (HFA-340), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857 (301-443-4976).

SUPPLEMENTARY INFORMATION: Further redelegation of the authority re-delegated by this amendment is not authorized. Authority re-delegated by this amendment to a position by title may be exercised by a person officially designated to serve in such position in an acting capacity or on a temporary basis, unless prohibited by a restriction written into the document designating him as "acting" or unless not legally permissible.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1), Part 5 is amended by revising § 5.23 to read as follows:

§ 5.23 Disclosure of official records.

(a) The following officials are authorized to make determinations to disclose official records and information under Part 20 of this chapter except that only the officials listed in this paragraph (a) (1) and (2) may disclose official records and information under §§ 20.82 and 20.85 of this chapter.

(1) Associate and Deputy Associate Commissioners.

(2) Assistant and Deputy Assistant Commissioners.

(3) Directors of Office of the Commissioner Staff Offices.

(4) The Director and Deputy Director of the Bureau of Drugs; and the Associate Director and Deputy Associate Director for Compliance and the Directors of the Divisions of: Methadone Monitoring; Drug Product Quality; Drug Labeling Compliance; and Drug Manufacturing of that Bureau.

(5) The Director and Deputy Director of the Bureau of Foods; and the Associate Director for Compliance and the Director of the Division of Regulatory Guidance of that Bureau.

(6) The Director of the Bureau of Veterinary Medicine; the Associate Director and Deputy Associate Director for Surveillance and Compliance; and the Director and Deputy Director of the Division of Compliance of that Bureau.

(7) The Director and Deputy Director of the Bureau of Radiological Health; and the Director of the Division of Electronic Products and the Director of the Division of Compliance of that Bureau.

(8) The Director and Deputy Director of the Bureau of Biologics; the Associate Director for Compliance; and the Director of the Division of Compliance of that Bureau.

(9) The Director and Deputy Director of the Bureau of Medical Devices; the Associate Director and Deputy Associate Director for Compliance; the Assistant Director for Regulations Policy; and the Directors of the Divisions of Compliance Operations and Product Surveillance of that Bureau.

(10) Director and Executive Director, National Center for Toxicological Research.

(11) Executive Director and Deputy Executive Director of Regional Operations.

(12) Regional Food and Drug Directors and District Directors.

(13) Freedom of Information Officers.

(b) The Chief of the Drug Listing Branch of the Division of Drug Labeling Compliance of the Bureau of Drugs is authorized to sign affidavits regarding the presence or absence of records of Registration of Drug Establishments.

(c) The Associate Director for Compliance and the Director of the Division of Product Surveillance of the Bureau of Medical Devices are authorized to sign affidavits regarding the presence or absence of medical device establishment registration records.

(d) The Chief of the Records Section of the Administrative Services Branch, Division of Management Services, Office of Administration, is authorized to sign affidavits regarding the presence or absence of records in the files of that section.

Effective date: This regulation shall be effective October 7, 1977.

(Sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a)).)

Dated: September 22, 1977.

WILLIAM F. RANDOLPH,
Acting Associate
Commissioner for Compliance.

[4110-03]

SUBCHAPTER B—FOOD FOR HUMAN CONSUMPTION

[Docket No. 76F-0445]

PART 177—INDIRECT FOOD ADDITIVES: POLYMERS

Mineral Reinforced Nylon Resins

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the food additive regulations to provide for the safe use of nylon 66 resins reinforced with calcium silicate for use as articles or components of articles intended for repeated use in contact with nonacidic food at temperatures not to exceed 212° F. E. I. duPont de Nemours & Co. filed a petition for such use.

EFFECTIVE DATE: October 7, 1977. Objections by November 7, 1977.

ADDRESS: Written objections to the Hearing Clerk, Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204, (202-472-5690).

SUPPLEMENTARY INFORMATION: A notice published in the FEDERAL REGISTER of November 23, 1976 (41 FR 51655) announced that a food additive petition (FAP 6B3243) had been filed by E. I. duPont de Nemours & Co., Wilmington, DE 19898 proposing that § 177.1500 Ny-

lon resins (21 CFR 177.1500, formerly § 121.2502 prior to recodification published in the FEDERAL REGISTER of March 15, 1977 (42 FR 14302)) be amended to provide for the use of nylon 66 resins reinforced with calcium silicate for use as articles or components of articles intended for repeated use in contact with nonacidic food.

A subsequent notice published in the FEDERAL REGISTER of August 5, 1977 (42 FR 39721) amended the filing of this petition to include 3-(triethoxysilyl) propylamine as a component of the subject resins.

The Commissioner of Food and Drugs, having evaluated data in the petition and other relevant material, concludes that the food additive regulations should be amended as set forth below to provide for the use of the petitioned additive.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c) (1), 72 Stat. 1786 (21 U.S.C. 348(c) (1))) and under authority delegated to the Commissioner (21 CFR 5.1), Part 177 is amended by adding new § 177.2355 to read as follows:

§ 177.2355 Mineral reinforced nylon resins.

Mineral reinforced nylon resins identified in paragraph (a) of this section may be safely used as articles or components of articles intended for repeated use in contact with nonacidic food (pH above 5.0) and at use temperatures not exceeding 212° F, in accordance with the following prescribed conditions:

(a) For the purpose of this section the mineral reinforced nylon resins consist of nylon 66, as identified in and complying with the specifications of § 177.1500, reinforced with up to 40 weight percent of calcium silicate and up to 0.5 weight percent 3-(triethoxysilyl) propylamine (Chemical Abstracts Service Registry No. 000919302) based on the weight of the calcium silicate.

(b) The mineral reinforced nylon resins may contain up to 0.2 percent by weight of titanium dioxide as an optional adjuvant substance.

(c) The mineral reinforced nylon resins with or without the optional substance described in paragraph (b) of this section, and in the form of 1/8-inch molded test bars, when extracted with the solvents, i.e., distilled water and 50 percent (by volume) ethyl alcohol in distilled water, at reflux temperature for 24 hours using a volume-to-surface ratio of 2 milliliters of solvent per square inch of surface tested, shall meet the following extractives limitations:

(1) Total extractives not to exceed 5.0 milligrams per square inch of food-contact surface tested for each solvent.

(2) The ash after ignition of the extractives described in paragraph (c) (1) of this section, not to exceed 0.5 milligram per square inch of food-contact surface tested.

(d) In accordance with good manufacturing practice, finished articles containing the mineral reinforced nylon resins shall be thoroughly cleansed prior to their first use in contact with food.

Any person who will be adversely affected by the foregoing regulation may at any time on or before November 7, 1977 submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Effective date: This regulation shall become effective October 7, 1977.

(Sec. 409(c) (1), 72 Stat. 1786 (21 U.S.C. 348(c) (1)).)

Dated: September 30, 1977.

WILLIAM F. RANDOLPH,
Acting Associate
Commissioner for Compliance.

[FR Doc. 77-29460 Filed 10-6-77; 8:45 am]

[4110-03]

SUBCHAPTER D—DRUGS FOR HUMAN USE

[Docket No. 75N-0063]

PART 436—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Safety Test; Correction

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the antibiotic drug regulations to correct an error that appears in a biological test method.

EFFECTIVE DATE: October 7, 1977.

FOR FURTHER INFORMATION CONTACT:

Joan M. Eckert, Bureau of Drugs (HFD-140), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857 (301-443-4292).

SUPPLEMENTARY INFORMATION: Through an editorial error, in 21 CFR

436.33(b) the route of administration for chloramphenicol is listed in the table incorrectly as "Do." (meaning Ditto) and should be changed to "Intravenous." This correction makes the route of administration for the next item on the list, chloramphenicol palmitate, also incorrect. It should therefore be changed to "Oral."

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 507, 59

Stat. 463, as amended (21 U.S.C. 357)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 436 is amended in § 436.33 (b) in the table therein by amending the entries for chloramphenicol and chloramphenicol palmitate, as follows:

§ 436.33 Safety test.

(b) . . .

Antibiotic drug	Diluent (diluent number listed in sec. 436.31)	Test dose		Route of administration as described in paragraph (c) of this section
		Concentration in units or milligrams of activity per milliliter	Volume in milliliters to be administered to each mouse	
Chloramphenicol	.	.	.	Intravenous.

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 510—NEW ANIMAL DRUGS

Shell Chemical Co.; Change of Sponsor Address

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect the change of corporate section name and address as requested by the sponsor, Shell Chemical Co.

EFFECTIVE DATE: October 7, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles E. Haines, Bureau of Veterinary Medicine (HFV-138), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, (301-443-3410).

SUPPLEMENTARY INFORMATION: In accordance with section 512(i) of the act (21 U.S.C. 360b(i)), § 510.600 of the animal drug regulations (21 CFR 510.600) is amended to reflect change of sponsor name and address. This amendment to the regulations reflects approval of the following supplemental new animal drug applications (NADA's).

NADA No.:

31-512 ----- Dichlorvos pellets.
33-803 ----- Dichlorvos capsules and pellets.
35-918 ----- Dichlorvos pellets.
40-848 ----- Dichlorvos medicated premix.
43-606 ----- Dichlorvos pellets.
48-237 ----- Dichlorvos paste (for oral use).
49-271 ----- Dichlorvos tablets.
49-032 ----- Dichlorvos medicated premix.

Amendment of the regulations to reflect these changes does not require a re-evaluation of the NADA's, nor does it constitute a reaffirmation of the safety and effectiveness.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), § 510.600 is amended in paragraphs (c) (1) and (c) (2) by revising the entries for Shell Chemical Co., to read as follows:

§ 510.600 Names, addresses, and code numbers of sponsors of approved applications.

(c) . . .

(1) . . .

Firm name and address	Drug Listing No.
Shell Chemical Co., Division of Shell Oil Co., Animal Health, One Shell Plaza, Houston, Tex. 77001.	011461

(2) . . .

Drug Listing No.:	Firm name and address
011461	Shell Chemical Co., Division of Shell Oil Co., Animal Health, One Shell Plaza, Houston, Tex. 77001.

Effective date: October 7, 1977.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))).

Dated: September 27, 1977.

FRED J. KINGMA,
Acting Director, Bureau
of Veterinary Medicine.

SUBCHAPTER F—BIOLOGICS

[Docket No. 75 N-0313]

PART 610—GENERAL BIOLOGICAL PRODUCTS STANDARDS

PART 660—ADDITIONAL STANDARDS FOR DIAGNOSTIC SUBSTANCES FOR LABORATORY TESTS

Blood Grouping Serum

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) issues additional standards for the manufacture of Blood Grouping Serum. This regulation is based on proposals issued to clarify labeling requirements and to establish production and testing standards reflecting advances in technology.

DATES: Effective December 6, 1977, except the labeling requirements become effective August 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Donna Williams, Bureau of Biologics (HFB-620), Food and Drug Administration, Department of Health, Education, and Welfare, 8800 Rockville Pike, Bethesda, Md. 20014 (301-443-1920).

SUPPLEMENTARY INFORMATION:

In two separate proposals published in the FEDERAL REGISTER of November 13, 1973 (38 FR 31312) and November 11, 1975 (40 FR 52623), the Commissioner of Food and Drugs proposed additional standards governing the manufacture of Blood Grouping Serum. This product consists of sterile preparations of sera containing one or more blood-grouping antibodies that are used to detect ABO, Rh and other antigens of red blood cells. Comments received after publication of the 1973 proposal suggested many substantive changes reflecting advances in technology. Therefore a second proposal was published to provide interested persons an opportunity for additional comment.

Thirty-one letters containing varying numbers of comments concerning the 1975 proposal were received. The comments and the Commissioner's responses are as follows:

1. The Commissioner is amending § 610.53 *Dating period for specified products*, to provide a heading designation for Blood Grouping Serum, followed by the names of each of the antibodies.

2. One comment recommended that § 610.53 be amended to change the storage temperature for Blood Grouping Serum from 2° to 8° C to 1° to 6° C to be consistent with "other requirements." Although the other requirements were not specified, the Commissioner assumes that they are the 1° to 6° C storage temperature for Whole Blood (Human).

The more restrictive storage temperature range of 1° to 6° C for Whole Blood (Human) was established to assure maintenance of red blood cell viability for transfusion. This temperature range is not required for Blood Grouping Serum to maintain its potency and effectiveness over the dating period. The Commissioner believes that the difference in these requirements will not present any undue hardships to those who wish to store Blood Grouping Serum in the same refrigerators used for Whole Blood (Human). Most establishments prefer to maintain their stored blood at a temperature no colder than 2° C to provide a margin of safety in normal temperature fluctuations. Accordingly, the comment is rejected.

3. One comment asked why the source of Blood Grouping Serum as defined in proposed § 660.20(b) did not include lectins of plant origin.

The Commissioner is aware that lectins, plant seed extracts, are reagents used in tests to determine whether human red blood cells have certain blood group antigens. However, these products are not biological products and thus are not subject to section 351 of the Public Health Service Act. Rather, lectins used as blood grouping reagents are in vitro diagnostic products subject to the Federal Food, Drug, and Cosmetic Act, as amended May 28, 1976.

4. One manufacturer suggested revising proposed § 660.21(a) (2) to permit bulk material to be mixed in one vessel and sterile filtered from that into several others rather than mixing and filtering into one vessel, as proposed.

The Commissioner advises that passage of Blood Grouping Serum through filters for purposes of sterilization may reduce the potency of the product. Consequently, if the suggested revision were adopted, the potency of the material in each of the second set of vessels may vary, resulting in differing potencies within one lot. Since the material in the recipient vessels could not be considered "uniform material," it would not be a "lot" as defined in § 600.3(x). The Commissioner finds no reason for making an exception to the definition of a lot applicable to all other biological products. Accordingly, the comment is rejected.

5. Two comments were received on proposed § 600.21(a) (3). One comment asked what volume of bulk material constitutes a "sublot," and one comment said that the term "sublot" should not be applied to those portions of a master lot placed in bulk containers for shipment to other manufacturers or for export as bulk material.

The Commissioner specified no minimum or maximum volumes for sublots because the total volume may vary sig-

nificantly depending on the specificity of the antiserum. The specifications established by the manufacturers to verify that sublots are identical are expected to demonstrate identity independent of volume. Subdivision of a lot into sublots for export or for shipment to another manufacturer shall be defined in specifications submitted by the manufacturer in its license application. Accordingly, no change is made.

6. Four comments suggested that proposed § 660.21(c) be revised to permit use of white dropper bulbs in addition to black. One comment said that black or white dropper bulbs did not constitute color coding.

The Commissioner did not propose the use of white dropper bulbs as an alternate to black dropper bulbs because white is being reserved for future use with Anti-Human Serum. Many technologists and laboratory directors have asked that Anti-Human Serum be clearly differentiated in some manner to distinguish it from all blood grouping sera, and the Commissioner concludes that this is a valid and useful purpose. Accordingly, the comments are rejected.

7. One comment on proposed § 660.21(d) suggested that translucent final containers and dropper pipettes be allowed for antisera for manual use as well as final containers for antisera for automated use. The comment said this would permit development of plastic containers for Blood Grouping Sera for manual use.

The Commissioner has no objection to the use of translucent plastic final containers and dropper pipettes if they are sufficiently transparent to permit observation of the contents, prevent leaking of contents, and have no adverse effect on the stability of the product during the dating period. Accordingly, § 660.21(d) of the final regulation is revised to permit use of final containers and dropper assemblies that are sufficiently transparent to permit observation of the contents for freedom from increased turbidity.

8. Three comments concerning proposed § 660.21(e) objected to the 10-milliliter volume restriction for Blood Grouping Serum for manual use. One comment asked why the volume limit was imposed. A second considered the 10-milliliter volume inconveniently small and unnecessarily expensive for large blood banks. A third comment requested some allowance to provide for overflow so that customers can withdraw the labeled volume.

The restriction of 10-milliliter volume of Blood Grouping Serum per final container was imposed to discourage the practice of users buying large-volume final containers issued by the manufacturers and subdividing the contents into smaller portions. This additional handling creates an unnecessary risk of errors in labeling and a potential for contamination. Safe use of the product outweighs any potential cost decrease created by larger fill volumes. The Commissioner accepts the comment that a small volume of overflow should be allowed to enable users to withdraw the

labeled volume. Accordingly, § 660.21(e) in the final regulation retains the 10-milliliter volume per final container restriction, but is revised to provide for an overflow volume sufficient to permit withdrawing the labeled volume. To accommodate this change, the format of proposed § 660.21(e) is amended and a new paragraph (e) (3) is added.

9. Three comments on proposed § 660.22 questioned the advisability of using Anti-CD as a reference for saline active Anti-D because such antibodies are likely also to contain Anti-G specificity. One comment recommended revision of the listing of Anti-CD for the saline tube test to specify its use for saline active Anti-D only.

The probable presence of Anti-G specificity in Anti-CD serum used as a reference for Anti-D saline activity has been recognized for many years, but experience demonstrates that it nevertheless successfully provides a comparison of the potencies of saline active Anti-D reagents. The Commissioner accepts the suggestion to revise the listing of Anti-CD for the saline tube test as a reference for saline active Anti-D only, and § 660.22 is revised accordingly.

10. One comment in regard to proposed § 660.22 recommended publication of the average titer values observed in tests performed at the Bureau of Biologics with the reference Blood Grouping Sera. The comment also recommended publication of a comparison of the reference sera to the international standards.

The Commissioner accepts the recommendation to publish the average titer values. Data comparing the reference sera with the international standards are not yet available, but they will be published when the studies are completed. The logarithmic average titer values observed in multiple tests of the reference sera in the Bureau of Biologics' immunohematology laboratory are as follows:

Reference serum specificity	Lot No.	Test cell phenotype	Observed titer value
Anti-A	6	A ₁	119
		A ₂ B	57
Anti-B	7	B	130
Anti-CD (for saline active Anti-D only)	9	cDE	13
Anti-D (rapid tube)	1a	C'De	29
		cDE	73
Anti-C (rapid tube)	10	CeDe	5
		CeDe	12
Anti-E (rapid tube)	11a	cdEe	4
Anti- \bar{c} (rapid tube)	12a	cdEe	4
Anti- \bar{c} (saline tube)	13	Cdees	18
Anti-C (saline tube)	14	Cdees	4
Anti-E (saline tube)	15	cedEe	3

11. Six comments on proposed § 660.22 recommended that reference Anti- \bar{c} and Anti-A, B Blood Grouping Sera be made available.

The Commissioner acknowledges the recommendation to provide an Anti-A,B reference but advises that there is no reference preparation of this specificity now available. The reference Anti- \bar{c} was prepared and made available in October 1976. Accordingly, Anti- \bar{c} is added to §§ 660.22, 660.24(b) and 660.24(b) (1)

(ii), and CcDEe cells are provided for in § 660.24(b)(1)(ii). Anti-c (rapid tube and slide) is deleted from § 660.25(a)(5)(i).

11a. The Commissioner is amending § 660.22 to add two new reference Blood Grouping Sera recently prepared. The reference sera are Anti-C for saline tube test and Anti-E for saline tube test. In adding these two reference sera, § 660.25(a)(5)(ii) is amended by deleting Anti-C (saline) and Anti-E (saline) from the potency requirements of sera without reference preparations. Although the titer value of the new reference sera is 8 and the potency requirement proposed in § 660.25(a)(5)(ii) was 4 (expressed as "at least a 1+ reaction with a 1:4 dilution of antiserum"), the titer value of 8 established with the new reference sera is lower than the titer values reported for the majority of lots submitted by manufacturers before the reference sera were prepared. Of the Anti-C sera submitted, 2 of 12 lots reported titer values with an average of 5-9 and the balance of 10 lots averaging titer values of 13-27. Of the Anti-E sera submitted, 1 of 10 lots reported titer values with an average of 5 and the balance of 9 lots averaging titer values of 16 to 40. A titer value of 8 is considered high enough to produce sera that will give clearly readable reactions with a variety of cells of varying antigenic reactivity and yet low enough to conserve these valuable antisera. The test procedure in § 660.24(b)(1)(ii) is amended by deleting cells CcDEe to be used in testing Anti-E Blood Grouping Serum and adding cells of ccdEe instead. A new lot of reference Anti-c Lot No. 12-a is now available that also contains Anti-rh₀. Therefore, cells of ccdEe specificity are satisfactory for use in comparing potency of Anti-c for release, while the cells previously listed would be likely to give falsely high titer values for the reference serum.

12. Three comments objected to the requirement in proposed § 660.23(a) that fresh red blood cells be used within 7 days of withdrawal from the donor. They recommended that licensed Reagent Red Blood Cells (Human) be permitted for use within the dating period of the cells. One comment suggested the use of test cells within 21 days be permitted in the transfusion service.

The Commissioner accepts the recommendation to permit use of licensed Reagent Red Blood Cells (Human) because data have demonstrated their stability during the dating period. Section 660.23(a) is revised to permit the use of licensed Reagent Red Blood Cells (Human) before their expiration date. The requirement to use fresh red blood cells within 7 days of withdrawal from the donor is retained for unlicensed fresh red blood cells used for specificity testing. The retention of antigenic reactivity depends in part on the temperature of storage, the presence or absence of anticoagulant, the type of anticoagulant used, and the type of red blood cell preservative used. Nonspecific reactivity in specificity testing is ordinarily demonstrated more readily with fresh red blood cells

than with older red blood cells. No restriction is placed on the age of red blood cells for potency testing because older cells would be less reactive and produce lower titer values. If titer values required for release of products were adequate in tests with older cells, the titer values obtained using fresh cells would be even greater. Accordingly, § 660.23(a) of the final regulation permits use of unlicensed red blood cells of any age for potency testing, but not for specificity testing. The suggestion to permit test cells up to 21 days in the transfusion service is not applicable to these regulations, which define standards for Blood Grouping Sera before release for sale to transfusion services or other professional services using these products.

13. Five comments objected to the 3-year limitation in use of frozen red blood cells, as proposed in § 660.23(b). The comments said this limitation would create an unnecessary hardship in procuring red cells of rare phenotypes required to establish specificity of certain antisera. The comments contended that 3-years storage at -20° C for frozen glycerolized red blood cells was too long a period of time and that 5 years was satisfactory for storage of red blood cells in liquid nitrogen. In most tests done in parallel with reference preparations, the cells for use would have such a common phenotype that frozen, thawed, processed cells would not be likely to be used or the phenotype of the cells would be so rare that it would be necessary to store the cells frozen for many years. The comments recommended that red blood cells be frozen within 7 days, and they recommended use of controls when testing thawed red blood cells rather than setting an arbitrary time limit for storage of frozen red blood cells.

The Commissioner accepts the comments that the proposed 3-year limitation might result in an unnecessary waste of red blood cells of rare phenotype where the method of freezing and conditions of storage were demonstrated to assure stability over a longer time. Accordingly, § 660.23(b) of the final regulation is revised to require use of red blood cells for freezing that meet the criteria for red blood cells that are not frozen. In lieu of the 3-year limitation for storage, appropriate controls are required to demonstrate the desired reactivity of the thawed red blood cells. The final regulations retain the requirement that manufacturers submit to the Director, Bureau of Biologics, a detailed description of the method of freezing, storage, and thawing of red blood cells for use in control testing.

14. One comment recommended that proposed § 660.23(c) be revised to require pretesting of all cells by the direct antiglobulin technique before they are used in testing antisera requiring the indirect antiglobulin technique.

The Commissioner accepts the comment. It is common practice to include these controls with any antiglobulin test using freshly collected blood or Reagent Red Blood Cells (Human), and the Commissioner had not specified this in

proposed § 660.23(c). To avoid any misinterpretation, § 660.23(c) is amended in the final order to require all red blood cells for use in control testing of antisera requiring indirect antiglobulin technique first be tested and found negative by direct antiglobulin technique on the day of use or each time frozen red blood cells are thawed, whichever is applicable.

15. One comment on proposed §§ 660.24(a)(1)(i) and (b)(1)(i) and 660.25(a)(1)(i) said that package insert directions should allow use of a 2-percent red blood cell suspension instead of the 5-percent suspension most manufacturers recommend because the required potency tests use a 2-percent suspension of cells. The comment further stated that if one followed the Good Manufacturing Practices GMP's, § 606.65(e) (21 CFR 606.65(e)), which requires reagents to be used in a manner consistent with instructions provided by the manufacturer, it would be illegal to use the 2-percent red blood cell suspension required in potency testing.

The Commissioner sees no conflict between the potency test methods prescribed in proposed § 660.24 and § 660.25 and compliance with § 606.65(e) of the GMP's. The red blood cell concentration defined in proposed § 660.24(a)(1)(i), 660.24(b)(1)(i) and 660.25(a)(1)(i) is part of the potency test performed by manufacturers of Blood Grouping Serum in evaluating each lot before release for sale to consumers. The potency test is only one of several tests required to evaluate the ability of the product to yield its expected results during the dating period. The manufacturers are also required to test each lot for specificity, using all test methods specified in the package insert to accompany the product. The manufacturers do not recommend in their package inserts that users perform potency tests. They recommend test methods by which their products may be used to identify the presence or absence of red blood cell antigens. Therefore, consumers using these reagents in a manner consistent with instructions provided by the manufacturer are complying with § 660.65(e). Accordingly, the comment is rejected.

15a. Four comments on proposed § 660.24(a)(1)(ii) recommended that tests with weak subgroups of A and B cells be required in potency testing of Anti-A,B Serum.

The Commissioner advises that the supply of weak subgroups of A and B cells is not adequate to furnish the large quantity of red blood cells that would be required in potency testing of all lots of Anti-A,B Blood Grouping Serum. Accordingly, the comments are rejected.

16. One comment on proposed § 660.24 said (1) that the regulations were not explicit—whether Anti-A,B Blood Grouping Serum would necessarily be obtained from Group O donors, or whether it could be a mixture of Anti-A and Anti-B from Group A and Group B donors; and (2) that it was not clear whether Anti-CD Blood Grouping Serum was obtained from monospecific Anti-C

and Anti-D sera or serum from donors with antibody of Anti-CD specificity.

The comment supplied no specific data. The Commissioner is therefore unable to respond directly to suggested alternatives. There is no apparent reason for making the regulations more explicit if the antibody designated on the label is capable of detecting those antigens. Further reply to these comments appears in paragraph number 34.

17. One comment on proposed § 660.24 wanted the potency requirements of ABO Grouping Sera reduced.

The potency titer of Blood Grouping Sera must be at least equal to that of the reference sera. Reference preparations for Anti-A and Anti-B are available to manufacturers and therefore establish the potency requirement for the licensed product. Those persons interested in having the potency of the ABO reference sera reduced should submit original data to the Director, Bureau of Biologics, demonstrating the safety and effectiveness of antisera at the reduced potency.

18. Nine comments addressed proposed §§ 660.24(a), (b), and (c) and 660.25(a). The comments questioned the need for manufacturers to use titration procedures to assure adequate reactivity of antisera, since such test methods are not necessary for users and therefore are not recommended in the manufacturer's package insert.

Requirements for the manufacture of a product often have a different purpose and serve a different function than the directions for the use of a product. They need not be parallel because they are not comparable. The Commissioner recognizes the limitations of the titration procedure; however, the procedure approximates actual conditions of use, i.e., reaction vessel, cell and serum volumes, centrifugation, and incubation time. The results provide a general assessment of quality, predictive stability and reactivity with antigens at the lower extremes of phenotypic expression. Titration procedures have been used for many years to evaluate effectiveness of immunization and potency of antisera. The procedure provides a more precise measurement of antiserum and cell concentration than do the drops recommended by manufacturers. Accordingly, the comments are rejected.

19. One comment on proposed § 660.24(a)(2)(i) and (c) said that the quantity of protein contributed by adding 1 to 2 percent AB serum or bovine albumin would not be sufficient and recommended revision to specify that the diluent should be prepared using isotonic saline containing 1 to 2 grams percent protein as provided by AB serum or bovine albumin. Three comments on proposed § 660.24(a)(2)(i) questioned the advisability of using AB serum as a diluent for ABO Blood Grouping Sera because the presence of soluble A and B substances may neutralize the antibodies at the higher dilutions.

The Commissioner is aware that there are some laboratories that prefer using AB serum and some that prefer bovine

albumin in the diluent to reduce the loss of antibody from adsorption of proteins on glass. There is no general scientific agreement on the optimum concentration of protein required; both 1 percent AB serum and 0.5 to 3.0 percent albumin have been successfully used as diluents in many laboratories. The presence of A and B soluble substances at a dilution of 1 to 2 percent is not expected to present any unusual problems. The products to be tested by this method require parallel titrations with reference preparations; therefore, any neutralization effect of the AB serum will be insignificant. In addition, these regulations provide for the use of 1 to 2 percent bovine albumin as a source of protein in the diluent by those laboratories that consider 1 to 2 percent AB serum to be an insufficient amount of protein. Accordingly, the comments are rejected.

20. One comment recommended that the wording of §§ 660.24(a)(2)(i) and 660.24(b)(2)(i) should be similar and suggested that the phrase "prepared in AB serum or bovine albumin diluted to 1 to 2 percent in isotonic saline" be used.

The Commissioner believes there is no substantive difference in the phraseology suggested from that used in §§ 660.24(a)(2)(i) of the proposal. Further, the wording suggested by the comment is unacceptable for § 660.24(b)(2)(i) because the required 20 to 22 percent bovine albumin to be used as a diluent may or may not have to be diluted by the person performing the test. Bovine albumin reagents are commonly distributed in 22 and 30 percent concentrations. Thus a 22 percent reagent could be used undiluted and a 30 percent reagent would need to be diluted. Accordingly, the comment is rejected.

21. One comment suggested that proposed § 660.24(b)(1)(ii) be revised to add C⁺cDee cells to the list of cells to be used in testing Anti-C Serum.

The Commissioner is aware that Anti-C Sera frequently are reactive with C⁺ positive cells, but finds no need to require potency testing of Anti-C Sera with C⁺ positive cells. If users wish to know whether cells are C⁺ positive, Anti-C⁺ serum is licensed and may be purchased to conduct the desired test. Accordingly, the comment is rejected.

22. One comment concerning proposed § 660.24(b)(1)(ii) recommended deleting CcDEE, CCDEE, and CCdEE cells from those required in potency testing of Anti-C Serum and revising the specificity test requirements proposed in § 660.26(a)(1) to deal with the presence of Anti-rh₀ by proper specificity testing. The comment further suggested that Anti-D Serum should be titrated against CCdEe cells, but gave no reason for the suggestion.

The Commissioner is aware that most Anti-C Sera also contain Anti-rh₀; the requirement to use cells of CcDEE, CCDEE and CCdEE specificity was to assure that potency tests performed with Ccdee cells would be measuring primarily the potency of Anti-C. The recommendation to use the cells in specificity testing instead would also assure

adequate reactivity of Anti-C Serum with C positive cells that are rh₀ negative. Accordingly, the cells of CcDEE, CCDEE, and CCdEE are deleted from those required in tests of Anti-C serum in § 660.24(b)(1)(ii), and C⁺rh₀ negative cells are added to the cells required in testing Anti-C Sera under § 660.26(b)(1) of the final regulation. (See paragraph 34.) The Commissioner knows of no reason why CCdEe cells would be particularly desirable in testing Anti-D Sera because such cells would be expected to give a higher titer value than the ccdEe cells required. Therefore, that suggestion is rejected.

23. Three comments concerning proposed § 660.24(a)(3)(ii) and (b)(3)(iii) suggested different time intervals for centrifugation of antiserum and cells. Another comment recommended specifying a fixed speed of 3,400 revolutions per minute (rpm) and calibrating each instrument for saline or high protein suspensions of cells and antiserum mixtures.

The Commissioner advises that the time intervals and relative centrifugal force (rcf) specified in proposed § 660.24(a)(3)(ii) and (b)(3)(iii) are based on many years of experience with two of the most commonly available types of laboratory centrifuges and the general density of the cell-suspending media. The proposed time and rcf will provide sufficient force to pack the red blood cells and still enable one to tap the cell button gently to dislodge it from the bottom of the test tube without breaking up weak agglutination. Relative centrifugal force is based on radius of the centrifugal arm and revolutions per minute. The shorter time intervals were based on centrifuges that operate at a fixed speed of approximately 3,400 revolutions per minute. Accordingly, the comments are rejected.

24. The Commissioner is amending proposed § 660.24(a)(4)(i) and (ii) to clarify the requirement that doubtful reactions be recorded as negative. A doubtful reaction cannot be considered a valid endpoint in determining a titer value. Accordingly, in § 660.24(a)(4)(i) of the final regulations, a new cell button reaction, designated "D", is added to the list of standard interpretations; and § 660.24(a)(4)(ii) is amended to delete the first sentence.

25. The Commissioner notes that proposed § 660.24(c), which defines the test procedure for Anti-D for the saline tube test, references the test method defined in paragraph (b)(1) through (4) of that section. The test method defined in paragraph (b)(1) through (4) specifies a time of centrifugation suitable for a method employing high protein medium; therefore, amendments are necessary to adapt the centrifugation time suitable for a method employing low protein medium. Accordingly, § 660.24 is amended by adding paragraphs (c)(1) and (2) creating exceptions to the method prescribed in paragraph (b)(1) through (4).

26. One comment on proposed § 660.24(d), on potency requirements, urged reduction of the titer of Anti-D in the

reference serum supplied by the Bureau of Biologics. The comment said that the titer of the reference Anti-D in the commentator's laboratory was 1:256 to 1:512; however, the test method was not described. And the comment said that pools of Anti-D Serum of comparable titer often showed a prozone, agglutinating Rh positive cells of various phenotypes less strongly with undiluted serum than with a 1:2 or 1:4 dilution of the serum. No data were submitted to support these conclusions.

The Commissioner is unable to determine how titer values of 1:256 and 1:512 were obtained. The logarithmic average titer values observed in multiple tests of the reference Anti-D Serum in the Bureau of Biologics' immunohematology laboratory when tested by the required test method defined in § 660.24(b), gave titer values of 29 with CDe cells, 32 with cDe cells, and 58 with cDE cells. The prozone phenomenon has not been evident in tests at the Bureau of Biologics. The Commissioner is willing to accept recommendations to adjust potency of the various reference preparations provided adequate data are submitted to support the lower level of potency recommended. Such data must demonstrate the potency level at which the antiserum would effectively detect the respective red blood cell antigens, including the weaker reacting phenotypes. Until adequate data are received, no adjustment can be made in the potency of the reference sera, and no change is made in § 660.24(d) in the final regulation.

27. Four comments recommended that proposed § 660.25(a) (1)(i) and (2)(i) include higher concentrations of bovine albumin in the diluent for both red blood cells and serum used in performing the potency test without reference preparations.

The Commissioner considers the higher concentrations of bovine albumin unnecessary now that the Anti-c reference preparation is available. The proposal was published in expectation that the Anti-c reference preparation would be made available before publication of the final regulations. Therefore, the comments recognizing the need for the higher concentrations of bovine albumin in the diluent are no longer applicable. Accordingly, the comments are rejected.

28. Four comments on proposed § 660.25(a) (1)(ii) suggested that cells of any ABO group should be permitted, and clarification was requested concerning the selection of cells of certain heterozygous phenotypes. One comment questioned the need to report the phenotypes to be used in the license application because the phenotypes are reported in the protocols submitted for release. One comment said that red blood cells heterozygous for P, I and U could not be determined without comprehensive family studies and claimed that this would place an undue burden on the manufacturers.

The Commissioner recognized the difficulty in locating rare phenotypes of certain red blood cell antigens by inserting the phrase "If heterozygous phenotypes are not available" in proposed

§ 660.25(a) (1)(ii). The suggestion to permit use of red blood cells of any ABO group is accepted; this should increase the probability of locating the rarer phenotypes. In addition, the statement concerning the selection of cells is revised to provide for the selection of heterozygous phenotypes if antisera defining antigens corresponding to products of all alleles of that blood group system exist. The Commissioner did not intend to require comprehensive family studies to locate rare phenotypes. The Commissioner considers it advisable that the use of red blood cells other than heterozygous phenotypes be reported in protocols to facilitate the development of standards relative to the specificity of the antiserum and the availability of certain phenotypes. Accordingly, § 660.25(a) (1)(ii) is revised in the final regulation to allow the use of red blood cells of any ABO group, the selection of cells of other than heterozygous phenotypes when required, and the reporting of this information in the protocols submitted for lot release.

29. Two comments noted that the phrase "and the reference serum" in proposed § 660.25(a) (2)(i) was in error.

The Commissioner is deleting the phrase "and the reference serum" in § 660.25(a) (2)(i) of the final regulation.

30. One comment referred to the requirement in proposed § 660.25(a) (3)(ii) and (iv) to follow the manufacturer's instructions for time of incubation and centrifugation of test tubes. The comment suggested that the shortest incubation time be required when the manufacturer recommended a range of time intervals, and that centrifugation at the lowest speed or the least time be required when more than one was recommended by the manufacturer.

The Commissioner accepts these suggestions because the intent of the regulations is to assure reactivity of the antisera with cells having the corresponding antigens, and it is therefore prudent to test under the least favorable conditions. In general, shorter incubation times and less centrifugal force will result in weaker agglutination reactions than longer incubation times and greater centrifugal force. Therefore, it is critical to assure effectiveness of the antisera under these conditions. Accordingly, § 660.25(a) (3)(ii) and (iv) is amended to require the shortest incubation time and the lowest relative centrifugal force (rcf) and the least time recommended in the manufacturer's package insert.

31. Six comments recommended changes in titer requirements proposed in § 660.25(a) (5) to avoid creating shortages of very rare reagents. The comments emphasized that some rare antisera of good titer now available from only one source will not be available in the future from any other source at a comparable titer.

The Commissioner accepts the comments, and changes are made in the titer requirements to avoid creating shortages of source material for these rare and necessary reagents. In § 660.25(a) (5) the following changes are made: Anti-c

(saline) is deleted from § 660.25(a) (5)(i) and added to § 660.25(a) (5)(ii); anti-Kp⁺, anti-Kp⁻, anti-U, anti-Js⁺, and anti-Fy⁺ are deleted from § 660.25(a) (5)(ii) and added to § 660.25(a) (5)(iii).

32. One comment on proposed § 660.25(b) recommended deletion of the requirement to test Blood Grouping Serum recommended for slide test with a 1:2 dilution of serum. The comment maintained that this was not the conventional method in which the products would be used.

The Commissioner believes that the requirement to test Blood Grouping Serum recommended for slide test with a 1:2 serum dilution is necessary to provide a margin of safety in routine use, since the size of drops delivered by pipettes and red blood cell concentration can vary significantly. Accordingly, the comment is rejected.

33. Six comments on proposed § 660.26(a) recommended extensive testing be done by manufacturers to assure absence of antibodies to leukocytes, serum proteins, low-incidence red blood cell antigens, drugs, and chemicals.

On the basis of his evaluation of the relative costs and benefits, the Commissioner concludes that such testing should not be required. There is no practical way to test for every possible interfering substance that may be found in reagent antisera on rare occasions. Imposing the suggested test requirements would either exhaust the valuable supply of rare antisera for more significant tests or make antisera prohibitively expensive without assuring that yet another previously unidentified substance might not be present. Accordingly, the comment is rejected.

34. Five comments on proposed § 660.26(a) recommended that specificity testing be amended to include tests for antibodies directed against low frequency antigens. The antigens recommended for inclusion were Kell, Lu^a, C⁺, Mi^a/Vw, M^a, Wr^a, Js^a, and Kp^a. Two comments recommended further that the presence of Anti-G in Anti-CD serum be demonstrated by tests with r⁺r cells; absence of Anti-E in Anti-c serum be demonstrated in tests with CCDEe, CCDEE, or CCdEE cells; and absence of Anti-C in Anti-c serum be demonstrated in tests with CcDEE, CCDEE, or CCdEE cells.

In addition, A_s and A_x cells were recommended for specificity testing of Anti-A,B serum. One comment recommended that specificity should be demonstrated for any antigen with a probability of at least one in one hundred, and referred to the book by Race and Sanger, "Blood Groups in Man," 3d ed., 1958. One comment maintained that use of only ccDee cells in specificity testing of Anti-D serum could be misleading owing to the variability of reactive strength of Anti-D serum with a variety of ccDee cells of varying genetic background. Cells of CcDee specificity were recommended as being less variable in reactivity than are ccDee cells.

The Commissioner believes that the increased availability of Reagent Red

Blood Cells with many antigens identified, supports the recommendation to increase the numbers of specificity tests. In recognizing the difficulties that can occur in finding red blood cells that have the antigens specified for specificity testing and lack the antigen for which the antiserum is specific, exceptions to this new testing requirement are also provided. Under such circumstances, the Specific Performance Characteristics in the package insert can list the antigens for which tests were not performed. Section 660.26 is revised to include paragraphs (a) through (d), changing the format to provide for new specificity testing. Provisions in proposed § 660.26(a) (1) and (2) and (b) (1)(v) are retained and revised as necessary. Section 660.26(b) (2) is amended to be consistent with revised requirements for testing antisera for Anti-Bg antibodies, discussed in paragraph 35 below. As discussed in paragraph 22, one respondent advised that the specificity test requirements for Anti-C should include tests with C positive, rh⁻, negative cells and that the potency test requirements could then be modified by deleting the requirement for titration with rh⁻ negative cells (CcDE, CCdEE, or CCdEE). The Commissioner agrees that reactivity with rh⁻ negative cells can be adequately demonstrated by specificity testing alone. The list of red blood cells to be used in testing ABO and Rh antisera is amended by (1) adding A cells from three different donors to those required for testing Anti-A,B serum when the labeling recommends such tests to detect the presence of group A variants; (2) adding CcDee cells to those required in testing Anti-D serum; (3) adding C⁺rh⁻ negative cells to use in tests of Anti-C serum; (4) adding r⁺r cells to those required in testing of Anti-CD and Anti-CDE when the antisera are recommended for detection of the G antigen; (5) adding CCDEe, CCDEE, or CCdEE cells to test specificity of Anti-c and (6) adding CCDEE, CCDEE, or CCdEE cells to test specificity of Anti-e serum. A list of red blood cells antigens to be included in specificity testing is added to § 660.26(c) (1) in the final regulation, and § 660.26(c) (2) provides an exception when the Blood Grouping Serum is specific for high incidence antigens.

35. Thirteen comments on proposed § 660.26(b) (2) were received. Proposed § 660.26(b) (2) required that all antisera recommended for use by the antiglobulin technique be tested for the presence of anti-Bg^a, anti-Bg^b, and anti-Bg^c using strongly reactive Bg(a⁺), Bg(b⁺), and Bg(c⁺) cells. Although consumers agreed that it would be desirable to eliminate unwanted Bg antibodies from antisera recommended for use by the antiglobulin technique, both consumers and manufacturers agreed that properly characterized Bg positive cells, particularly Bg^a and Bg^b, are not now available in adequate supply to perform the proposed testing.

The Commissioner has reevaluated the advantages and disadvantages of the proposed regulations. Moreover, since

publication of the proposal in 1975, survey data and other information reveal that Anti-Bg^a is the cause of most non-specific reactions attributable to contamination with Anti-Bg antibodies. Also, Bg^a and Anti-Bg^a are, at present, more clearly defined serologically than Bg^b, Bg^c, and their corresponding antibodies. It is believed that testing for the absence of Anti-Bg^a alone will eliminate nearly all of the unwanted reactions. There are documented cases in the scientific literature of Rh.(D) negative persons being falsely typed as Rh.(D) positive owing to the unexpected presence of Bg antibodies in the anti-D reagent used to test their cells. The references are available at the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857. There is a significant hazard to health in these cases since either the transfusion of Rh.(D) positive blood or the withholding of Rh.(D) Immune Globulin could cause irreversible immunization to the Rh.(D) factor. Such immunization could result in hemolytic disease of the newborn with its severe hazard to the health of afflicted infants. Current technology permits freezing cells for long use, thus assuring an adequate supply of cells for testing anti-D sera. Accordingly, § 660.26(b) (1) of the final regulation is amended to require that Anti-Bg^a be excluded only from Anti-D sera recommended for use in testing for D⁺ because erroneous D⁺ testing results are a much more significant hazard to health than any of the other factors requiring antiglobulin tests. The Commissioner believes, therefore, that the increased specificity testing requirements are justified for Anti-D but not for all of the other antisera used by antiglobulin technique.

36. Four comments questioned the need for performing the test proposed in § 660.26(b) (1). The comments said that any nonspecific qualities such as hemolysis or rouleaux would be detected in the other required tests for specificity.

The Commissioner agrees that the extensive required testing for specificity makes separate and "additional tests for nonspecific qualities" redundant. Therefore, the requirements (proposed § 660.26(b) (1) (i) through (iv)) are deleted.

37. Three comments on proposed § 660.27 (a) and (b) recommended that the 40-percent red blood cell suspension be changed to 35 to 45 percent to provide for the use of whole blood samples without adjustment in red blood cell concentrations normally encountered in whole blood.

The Commissioner agrees that the 35-to-45-percent red blood cell suspension normally occurring in whole blood is more representative of actual conditions of use, and § 660.27 (a) and (b) are amended accordingly.

38. One comment recommended amending proposed § 660.27 in the introductory paragraph and paragraphs (a) (4), (b) (4), and (c) (2) to clarify how the size of clumps or aggregates should be recorded.

The Commissioner intended that the size of clumps shall be not less than 1

millimeter in diameter, and the size shall be recorded as being either less or more than 1 millimeter in diameter. Accordingly, § 660.27 is amended in the last sentence of the introductory paragraph, by replacing the word "aggregates" with the phrase "size of the clumps"; and paragraphs (a) (4), (b) (4), and (c) (2) are amended to require that at the end of time specified, the size of the clumps be observed and recorded as less or more than 1 millimeter in diameter.

39. Two comments on proposed § 660.27 (a) and (b) objected to imposing a standard procedure for avidity testing rather than permitting use of the procedure recommended by the manufacturer of the antiserum. The comments provided no reason for the objections.

The Commissioner has conducted a review of the avidity test procedures described in the ABO and Rh sera package inserts of all licensed manufacturers and finds that the avidity test procedure required in § 660.27 (a) and (b) will provide equally satisfactory results with all of these reagents. The Commissioner considers the standardization of the ABO and Rh avidity testing procedure necessary to minimize variables and allow comparative testing of products. Accordingly, the comments are rejected and no change is made in the final regulation.

40. Five comments objected to the use of color coding as prescribed in proposed § 660.28(a) (1). One comment suggested that color coding be prohibited. Two comments recommended use of the existing color coding to preclude errors. Two comments objected strongly to the proposed use of lavender to color code Anti-c Serum labels because lavender has been used for 20 years to color code labels of Anti-c Serum. The comments said this change would invite error because of the long association of lavender color with Anti-c Serum and the similarity in printed appearance of Anti-c and Anti-e.

As stated in the preamble of the November 1975 proposal, the Commissioner believes that color coding of Blood Grouping Sera container labels will serve as a practical aid to the technologist to identify expeditiously the container contents. In addition, the Commissioner believes that the lettering size of the antibody designation on the labels of the container, required by § 660.28(a) (3), will eliminate the likelihood that the product will be identified solely by the container label color. Accordingly, the Commissioner rejects the comments suggesting that color coding be prohibited and that existing color coding alone be used to preclude error. But the Commissioner accepts the comments regarding possible errors caused by the similarity in printed appearance of Anti-c and Anti-e and the long association of lavender-colored labels with Anti-c Serum. Accordingly, to preclude such errors, the Commissioner is amending § 660.28(a) (1) in the final regulation by designating Lavender GP 234-P—40 percent tone to Anti-c and Green GP 270-G—70 percent tone to Anti-e.

41. One comment on proposed § 660.28(a)(1) recommended amendment to permit coloring of only a portion of the final container label.

The Commissioner has no objection to this, provided the remaining portion of the label is white. Accordingly, § 660.28(a)(1) is amended in the final regulation to permit all or a portion of the final container label to be color coded.

42. One comment on proposed § 660.28(a)(1) objected to the requirement that only black ink be used for printing.

The Commissioner proposed that only black ink be used for printing to assure legibility and to preclude the use of company colors. If color coding is to be effective, it is just as important to eliminate nondesignated colors as it is to adhere strictly to the colors selected. In addition, if color is to be used to designate a particular specificity of product, the use of color must be restricted to this use alone. The Commissioner is aware of the current use of color by some manufacturers to be representative of the particular manufacturer. But some of the colors used to identify the manufacturer are similar to those designated in § 660.28(a)(1) for a particular specificity of product and may cause confusion about the identity of the container contents. Accordingly, the comment is rejected.

43. Two comments on proposed § 660.28(a)(1) recommended that color coding of Whole Blood (Human) be consistent with the color coding of labels for Anti-A and Anti-B Blood Grouping Serum. Colors designated for Whole Blood (Human) are blue for Group O, yellow for Group A, pink for Group B, and white for Group AB. Colors designated for Blood Grouping Sera are blue for Anti-A and yellow for Anti-B.

The Commissioner acknowledges the recommendations to achieve consistency in color coding of labels of Blood Grouping Serum and Whole Blood (Human). No change is made in color coding designations of Anti-A and Anti-B in § 660.28(a)(1), however, because the consensus of workers in the field is that changing the colors of these vital reagents after many years experience with the existing colors could very possibly lead, through errors, to fatal transfusion reactions. The comment was directed at effecting a change in the Whole Blood (Human) color code which is not a part of these regulations. The Commissioner advises that he will consider future regulations for Whole Blood (Human) which may include a color code.

44. The Commissioner is amending proposed § 660.28 introductory paragraph and paragraph (c) by deleting the reference to § 328.10 and inserting therefor § 809.10 to reflect the recodification published in the FEDERAL REGISTER of February 13, 1976 (41 FR 6896). In addition, the phrase "§ 610.62 through § 610.65" is added to the introductory paragraph of § 660.28 to include the labeling requirements for all biological products, inadvertently omitted in the proposal.

45. The Commissioner is amending § 660.28(a)(1) in the final regulation to

refer to the final container label rather than the paper of the final container label.

46. The Commissioner is amending proposed § 660.28(a)(2) to make it clear that the proper name of the product, "Blood Grouping Serum," need not appear on the final container label, provided the final container is distributed in a package and the package label bears the proper name.

47. The Commissioner is amending proposed § 660.28(a)(2)(ii) to require the address of the manufacturer, inadvertently omitted in the proposal.

48. Two comments objected to the lettering size proposed in § 660.28(a)(3), maintaining that the type size requirement is too large.

The Commissioner advises that the type size specified in proposed § 660.28(a)(3) refers to the antibody designation only and not other required information. To relieve any potential crowding of labeling information, the prefix "Anti" in all the blood group designations need not appear in the same type size as that part of the name designating the specificity of the antiserum. The Commissioner believes that the correct identification of antibody specificity is of utmost importance. Since the other information required on the final container label does not vary significantly from the information currently required, no sound basis exists to alter the label and type sizes. Accordingly, § 660.28(a)(3) is amended in the final regulation by stating that only the specificity of antibody designations shall appear in the larger type size.

49. One comment suggested revising proposed § 660.28(a)(3) by designating the volume of contents in a final container instead of the capacity of the final container.

This is contrary to the intent of the regulation because the Commissioner believes that it is desirable to use the largest practical type size whenever possible. If the container is capable of holding 5 milliliters, the regulations require that the larger type size be used even if the manufacturer's fill volume is less than 5 milliliters. Accordingly, the comment is rejected.

50. One comment recommended revision of proposed § 660.28(b) to provide that the package label information requirements are fulfilled if the information is included on the final container label and is visible within the package if it is placed therein.

The Commissioner finds no prohibition in the general biologics label regulations to preclude this procedure. Accordingly, § 660.28(b) is amended in the final regulation to provide that the requisite information may appear either on the package label or on the final container label if it is visible within the package.

51. One comment concerning proposed § 660.28(b)(15) recommended including the word "CAUTION" before the required statement of the hepatitis B surface antigen (HBsAg) test results of source material, to better alert users to the hazards of hepatitis.

The Commissioner accepts the comment, and § 660.28(b)(15) is revised in the final regulation by adding "CAUTION:" before the required statement on hepatitis.

52. The Commissioner is revising the hepatitis warning statement proposed in § 660.28(b)(15) to agree with the labeling requirements of § 610.40(d)(2), which were revised in the FEDERAL REGISTER of February 13, 1976 (41 FR 6912), subsequent to the proposal on Blood Grouping Serum. Section 660.28(b)(15) of the final regulation prescribes two statements, one for source material reactive and another for source material nonreactive in a test for HBsAg. If there is not sufficient space on the package to bear the statement required for nonreactive source material, the statement may appear in the package insert, and the statement "CAUTION: HANDLE AS IF CAPABLE OF TRANSMITTING HEPATITIS" may be substituted on the package label.

53. One comment on proposed § 660.28(b)(6) recommended listing on the package label, all additives as well as any preservative.

The Commissioner advises that the listing of additives is required in the package insert in the "ingredient" section. The recommendation to include this information on the package label is impractical because of the limited space available. Accordingly, the comment is rejected.

54. Two comments recommended amending proposed § 660.28(c) to require one package insert per carton if several final containers requiring identical package inserts are packaged in a single carton, rather than the proposed requirement of one package insert per final container. One comment said that the amendment would reduce inflationary effects.

The Commissioner agrees that one package insert is necessary to supply the required information for identical packages. Therefore, § 660.28(c) is amended in the final regulation by adding a sentence to allow only one package insert per package if two or more final containers requiring identical package inserts are placed in a single package.

55. Two comments, concerning proposed § 660.28(d) recommended a small bar be placed over the lower case k of Anti-K, (Anti-Cellano) used in listing Blood Group designations to differentiate the lower case k from the capital K of anti-K (Anti-Kell). One comment recommended correcting the optional synonym listed for Anti-C^e from (Anti-rh^c) to (Anti-rh^a).

The Commissioner agrees with the comments, and § 660.28(d) is amended accordingly. The Commissioner also notes that Anti-Js^a Anti-(Sutter) was inadvertently omitted from the proposal although it is a currently licensed product. Section 660.28(d) is therefore amended to include the listing of Anti-Js^a (Anti-Sutter).

56. One comment regarding proposed § 660.28(d) recommended numerical designations as optional synonyms for anti-

sera, claiming that many of the more recently discovered antigens are named only in this way.

The Commissioner is aware of many changes in nomenclature in this field. But the proposed Blood Group designation and optional synonyms listed represent the terminology most generally recognized by the majority of users of products currently licensed. If, in the future, numerical designations or some other nomenclature gain widespread use and acceptance, further revisions can be made. This position does not preclude the use of numerical designations or other synonyms in package inserts in addition to those listed in § 660.28(d) if a manufacturer chooses to do so. Accordingly, the comment is rejected.

57. Four comments regarding proposed § 660.28(d) objected to the adoption of the Fisher-Race nomenclature and presented support for the Wiener nomenclature. On the other hand, five comments supported elimination of the Wiener nomenclature.

The Commissioner advises that the only purpose for requiring the Fisher-Race Nomenclature on the final container label is to communicate simply and clearly the identity of the contents. He believes this is best accomplished with the Fisher-Race symbols.

The Commissioner strongly supports the retention in the package insert of optional synonyms that serve a more "educational" purpose. Accordingly, the comments are rejected.

58. Three comments on proposed § 660.29(a)(1)(i) and (ii) were received. One comment recommended that samples of partial fillings of a lot (or subfillings), as well as samples filled from a sublot, be considered representative of the lot. One comment requested clarification regarding bulk release. One comment said that manufacturers should not be required to submit final container samples of each sublot to the Bureau of Biologics for release action.

The Commissioner advises that materials which manufacturers often refer to as "partial fillings" are defined in these additional standards as sublots. If a manufacturer wishes to fill part of a lot, the lot shall first be subdivided into sublots, and one sublot shall be filled in one continuous operation into final containers. Manufacturers' specifications for processing and testing must verify that each sublot is identical to other sublots of the lot as prescribed in § 660.21(a)(3). "Bulk release" in the past has referred to sampling a bulk lot and filling a sufficient number of final containers to enable a manufacturer and the Bureau of Biologics to complete their required testing. This has resulted in the Bureau of Biologics receiving final container samples that are not representative of the balance of the lot. The Commissioner believes that consistency in manufacturing shall have been demonstrated to the extent that "bulk release" is no longer desirable or necessary. The material submitted to the Bureau of Biologics should be representative of filled final contain-

ers intended for sale to users. Thus, § 660.29(a)(1)(ii) of the final regulation specifies that randomly selected final containers of a lot or sublot which have been filled in one continuous operation and packaged and labeled for distribution shall be sent to the Bureau of Biologics for testing. To assure that these samples are representative of the final containers prepared for distribution, § 660.29(a) is amended in the final regulation to require that 15 percent of the lot shall have been filled before final containers are submitted to the Bureau of Biologics for release action. In addition, § 660.29(a)(1)(ii) in the final regulation is amended to clearly state that final container samples of only one sublot are required to be submitted to the Director, Bureau of Biologics.

59. One comment on proposed § 660.29(a)(1)(iii) recommended that the quantity of final container material to be submitted to the Bureau of Biologics be expressed in milliliters rather than in the number of final containers required for release action.

The Commissioner advises that the number of final containers of the specified fill volumes is the minimum number required to complete sterility and serological testing and still have an adequate volume for retention throughout the dating period. Since receipt of samples in the final container form maximizes the effectiveness of the final product testing, there is no basis for expressing this amount in total milliliters. Accordingly, the comment is rejected.

60. Two comments on proposed § 660.29(a)(3)(ii) recommended that a lot of reprocessed material be defined as a lot previously submitted to the Bureau of Biologics and found unacceptable, or a lot voluntarily withdrawn by the manufacturer. One comment expressed the opinion that the inflationary effect of listing the required information outweighs the value of that information.

The Commissioner advises that the comments' recommended definition of a lot of reprocessed material is consistent with the intent of the proposed regulation. Accordingly, § 660.29(a)(3)(ii) is amended to define reprocessed material as all or part of a lot previously rejected by the Bureau of Biologics, or a lot withdrawn from distribution or release action by the manufacturer. The Commissioner does not agree that listing of lot numbers, dates of manufacture, and proportion of each such reprocessed lot on the protocol would be inflationary. The required information to be listed on the protocol is information currently required as a part of manufacturing records of each lot. Accordingly, that comment is rejected.

The Commissioner has carefully considered the environmental effects of the proposed regulation and, because the proposed action will not significantly affect the quality of the human environment, has concluded that an environmental impact statement is not required. A copy of the environmental impact assessment is on file with the Hearing Clerk, Food and Drug Administration.

Therefore, under the Public Health Service Act (sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262)) and under authority delegated to the Commissioner (21 CFR 5.1) Parts 610 and 660 are amended as follows:

§ 610.53 [Amended]

1. In Part 610, § 610.53 *Dating periods for specific products* is amended as follows:

a. By deleting the following items:

Adsorbed anti-A serum...	1 yr.
Anti-A blood grouping serum.	Liquid: 1 yr. dried: 5 yrs.
Anti-A, B blood grouping serum.	Do.
Anti-B blood grouping serum.	Do.
Anti-D ⁺ serum (anti-Diego).	1 yr.
Anti-Fy ^a serum (anti-Duffy).	Do.
Anti-Fy ^b serum.	Do.
Anti-Gr (Vw) serum.	Do.
Anti-I serum.	Do.
Anti-Jk ^a serum (anti-Kidd).	Do.
Anti-Jk ^b serum.	Do.
Anti-Js ^a serum (anti-Sutter).	Do.
Anti-k serum (anti-Cellano).	Do.
Anti-K serum (anti-Kell).	Do.
Anti-Kp ^a (anti-Penney).	Do.
Anti-Kp ^a and anti-K serum (anti-Rautenberg and anti-Kell).	Do.
Anti-Kp ^b serum (anti-Rautenberg).	Do.
Anti-Le ^a (anti-Lewis)...	Liquid: 1 yr. dried: 5 yrs.
Anti-Le ^b serum.	Do.
Anti-Lu ^a serum (anti-Lutheran).	1 yr.
Anti-M serum.	Do.
Anti-M ^a serum.	Do.
Anti-M ^b (anti-Miltnerberger).	Do.
Anti-N serum.	Do.
Anti-P serum.	Do.
Anti-Rh typing serum, anti-rh' (anti-c).	Do.
Anti-Rh typing serum, anti-rh'' (anti-e).	Do.
Anti-Rh typing serum, anti-rh' (anti-C).	Liquid: 1 yr. dried: 5 yrs.
Anti-Rh typing serum, anti-rh'' (anti-E).	Do.
Anti-Rh typing serum, anti-Rh' (anti-D).	Do.
Anti-Rh typing serum, anti-Rh' (anti-CD).	Do.
Anti-Rh typing serum, anti-Rh'' (anti-DE).	1 yr.
Anti-Rh typing serum, anti-Rh-rh'' (anti-CDE).	Do.
Anti-Rh typing serum, anti-Rh + (anti-D + D ⁺).	Do.
Anti-Rh typing serum, anti-rh* (anti-C*).	Do.
Anti-rh* and anti-K serum (anti-(C*+Kell)).	Do.
Anti-s serum.	Liquid 1 yr. dried: 5 yrs.
Anti-S serum.	1 yr.
Anti-U serum (anti-Uss).	Do.
Anti-Wr ^a serum (anti-Wright).	Do.

b. By adding after "BCG Vaccine" in the list, the heading "Blood Grouping

Serums" and alphabetically inserting thereunder new items as follows:

BLOOD GROUPING SERA	
Anti-A	Liquid 1 yr. dried: 5 yrs.
Anti-A1	1 yr.
Anti-A B	Liquid 1 yr. dried: 5 yrs.
Anti-B	Do.
Anti-C	Do.
Anti-c	1 yr.
Anti-CD	Liquid 1 yr. dried: 5 yrs.
Anti-CDE	1 yr.
Anti-C*	Do.
Anti-D	Liquid 1 yr. dried: 5 yrs.
Anti-DE	1 yr.
Anti-D*	Do.
Anti-E	Liquid 1 yr. dried: 5 yrs.
Anti-e	1 yr.
Anti-Fy ^a	Do.
Anti-Fy ^b	Do.
Anti-I	Do.
Anti-Jk ^a	Do.
Anti-Jk ^b	Do.
Anti-Js ^a	Do.
Anti-K	Do.
Anti-k	Do.
Anti-Kp ^a	Do.
Anti-Kp ^b	Do.
Anti-Le ^a	Liquid 1 yr. dried: 5 yrs.
Anti-Le ^b	Do.
Anti-M	1 yr.
Anti-M*	Do.
Anti-N	Do.
Anti-Pl	Do.
Anti-S	Do.

2. In Part 660, by adding new Subpart C, consisting of §§ 660.20 through 660.29, to read as follows:

Subpart C—Blood Grouping Serum

Sec.	
660.20	Blood Grouping Serum.
660.21	Processing.
660.22	Reference preparations.
660.23	Red blood cell preparations.
660.24	Potency test with reference preparations.
660.25	Potency test without reference preparations.
660.26	Specificity tests.
660.27	Avidity test.
660.28	Labeling.
660.29	Samples; protocols; official release.

AUTHORITY: Sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262).

Subpart C—Blood Grouping Serum

§ 660.20 Blood Grouping Serum.

(a) *Proper name and definition.* The proper name of this product shall be Blood Grouping Serum which shall consist of a sterile preparation of serum containing one or more blood grouping antibodies as set forth in § 660.28(d).

(b) *Source.* The source of this product shall be blood, plasma, or serum.

§ 660.21 Processing.

(a) *Processing method.* (1) The processing method shall be one that has been shown to consistently yield a specific, potent final product, free of properties

that would affect the product for its intended use throughout the dating period.

(2) Only that material which has been fully processed, sterile-filtered into a single vessel and thoroughly mixed in that vessel shall constitute a lot.

(3) A lot may be subdivided into clean, sterile vessels. Each subdivision shall constitute a subplot. If lots are to be subdivided, the manufacturer shall include this information in the license application. The manufacturer shall describe the test specifications to verify that each subplot is identical to other sublots of the lot and that each subplot is sterile as specified in § 610.12 of this chapter.

(4) Each lot of Blood Grouping Serum shall be identified by a lot number. Each subplot shall be identified by that lot number to which a distinctive prefix or suffix shall be added. Final container and package labels shall bear the lot number and all distinctive prefixes and suffixes that have been applied to identify the subplot from which filling was accomplished.

(b) *Color coding of antisera.* Blood Grouping Sera shall not be colored, except that anti-A may be colored blue, and anti-B may be colored yellow.

(c) *Color coding of dropper bulbs.* Dropper bulbs may be color coded to match the color of the label of each antiserum. If the dropper bulb is not color coded, it shall be black.

(d) *Final containers and dropper assemblies.* Final containers and dropper assemblies shall be sterile, colorless, and sufficiently transparent to permit observation of the contents for freedom from increases in turbidity during use.

(e) *Volume of final product.* A final container of Blood Grouping Serum shall contain no more than the following volumes, excluding overfill volume, to permit withdrawing the labeled volume:

(1) 150 milliliters of product for automated use for those sera to be used without dilution in automated equipment.

(2) 10 milliliters of product for automated use for those sera to be diluted for use in automated equipment.

(3) 10 milliliters of product for manual use.

(f) *Date of manufacture.* The date of manufacture shall be the date of initiation by the manufacturer of the last valid potency test reported on a protocol and submitted to the Director, Bureau of Biologics, Food and Drug Administration.

§ 660.22 Reference preparations.

The following reference Blood Grouping Sera shall be obtained from the Bureau of Biologics, Food and Drug Administration, 8800 Rockville Pike, Bethesda, MD 20014, and shall be used as described in the accompanying package insert for determining the potency of Blood Grouping Sera.

Anti-A	
Anti-B	
Anti-D for rapid tube test	
Anti-CD for saline tube test for saline active	
Anti-D only	
Anti-C for rapid tube test	
Anti-C for saline tube test	
Anti-E for rapid tube test	

Anti-E for saline tube test

Anti-c for rapid tube test

Anti-e for rapid tube test

§ 660.23 Red blood cell preparations.

Fresh or frozen red blood cells may be used for preparing cell suspensions for the testing of all Blood Grouping Sera under the following conditions:

(a) Unlicensed fresh red blood cells used for specificity testing shall be used within 7 days of withdrawal from the donor. Unlicensed red blood cells of any age may be used for potency testing. Licensed Reagent Red Blood Cells (Human) may be used for potency and specificity testing any time before their expiration date.

(b) Red blood cells meeting the criteria of paragraph (a) of this section may be frozen and thawed for use in the preparation of all cell suspensions for testing antisera. Frozen red blood cells shall be used on the day of thawing and appropriate controls shall be used to demonstrate the desired reactivity of the thawed red blood cells. The method of freezing, storing, and thawing red blood cells, including a description of the cryoprotective medium, shall be described in detail and must be approved by the Director, Bureau of Biologics, as a license amendment before use in control testing of antisera.

(c) Red blood cells for use in control testing of antisera requiring indirect antiglobulin technique shall first be tested and found negative by direct antiglobulin technique on the day of use or each time frozen blood cells are thawed, whichever is applicable.

§ 660.24 Potency test with reference preparations.

Products for which Reference Blood Grouping Sera are available shall be tested as follows:

(a) *Test procedures for ABO Blood Grouping Serum—(1) Cell suspension.*

(i) A 2-percent suspension of red blood cells in isotonic saline shall be prepared on the day of use. The red blood cells used shall have been washed with isotonic saline at least twice and shall result in a clear supernate.

(ii) As a minimum, the following cells shall be used:

Blood grouping serum	Cells
Anti-A	A ₁ , A ₂ B (A ₂ B cells from 3 different donors shall be used).
Anti-A B	A ₁ , A ₂ , B.
Anti-B	B.

(2) *Serum dilutions.* (i) Beginning with undiluted serum, separate two-fold dilutions (1:2, 1:4, etc.) of the test serum and the reference serum shall be prepared using isotonic saline containing 1 to 2 percent AB serum or bovine albumin.

(ii) A separate clean pipette shall be used for each dilution to avoid carryover of higher serum concentrations.

(iii) For anti-A,B serum, unpooled Reference Blood Grouping Sera anti-A and anti-B shall be used.

(3) *The test.* Using cells listed in paragraph (a) (1) (ii) of this section, Refer-

ence Blood Grouping Sera anti-A and anti-B shall be tested in parallel with the test serum.

(i) Place 0.1 milliliter of each serum dilution in a separate clean test tube approximately 10 x 75 millimeters. Add 0.1 milliliter of the appropriate 2 percent cell suspension to each test tube.

(ii) Mix contents of each test tube thoroughly and centrifuge immediately for 1 minute at approximately 150 relative centrifugal force (rcf) or 20 seconds at approximately 1,000 rcf.

(4) *Interpretation of the test.* (i) The cell buttons of each test tube shall be gently dislodged and observed macroscopically. The reactions shall be graded as follows:

- 4+ Cell button remains in one clump.
- 3+ Cell button dislodges into several clumps.
- 2+ Cell button dislodges into many small clumps of equal size.
- 1+ Cell button dislodges into finely granular, but definite, small clumps.

D Cell button dislodges into fine granules, but not definite small clumps. Results shall be recorded as doubtful. For purposes of this paragraph, doubtful reactions are deemed to be negative.

(ii) The potency titer value is the reciprocal of the greatest serum dilution for which the reaction is graded as 1+. The dilution caused by the addition of the cells shall not be considered as contributing to the dilution of the antiserum.

(b) *Test procedures for anti-D, anti-CD, anti-DE, anti-CDE, anti-C, anti-E, anti-c and anti-e for slide test or rapid tube test—(1) Cell suspensions.* (i) A 2-percent suspension of red blood cells in 11 to 15 percent bovine albumin shall be prepared on the day of use. The red blood cells used shall have been washed with isotonic saline at least twice and shall result in a clear supernate.

(ii) As a minimum, the following cells shall be used:

Blood grouping serum	Cells (A, B, AB, or O)
Anti-D	ccDee.
Anti-C	Ccdee.
Anti-E	ccDEe.
Anti-c	CcDee.
Anti-e	ccDEe.
Anti-CD	ccDee, Ccdee.
Anti-DE	ccDee, ccdEe.
Anti-CDE	ccDEe, ccDee, Ccdee.

(2) *Serum dilutions.* (i) Beginning with undiluted serum, separate two-fold dilutions (1:2, 1:4, etc.) of the test serum and the reference serum shall be prepared using 20 to 22 percent bovine albumin.

(ii) A separate clean pipette shall be used for each dilution to avoid carryover of higher serum concentrations.

(iii) For test sera containing multiple antibodies (e.g., anti-CDE) the corresponding unpooled Reference Blood Grouping Sera shall be used.

(3) *The test.* Using cells listed in paragraph (b) (1) (ii) of this section, Reference Blood Grouping Sera shall be tested in parallel with the test sera.

(i) Place 0.1 milliliter of each serum dilution in a separate clean test tube ap-

proximately 10 x 75 millimeters. Add 0.1 milliliter of the appropriate 2 percent cell suspension to each test tube.

(ii) Mix contents of each test tube thoroughly and incubate test tubes at 37° C for 1 hour.

(iii) Centrifuge test tubes for 2 minutes at approximately 150 relative centrifugal force (rcf) or for 45 seconds at approximately 1,000 rcf.

(4) *Interpretation of the test.* The interpretation of the test shall be the same as described in paragraph (a) (4) of this section.

(c) *Test procedure for anti-C, anti-D, and anti-E for saline tube test.* The test procedure shall be the same as that described in paragraph (b) (1) through (4) of this section except for the following:

(1) The 2-percent suspensions of red blood cells and the two-fold serum dilutions shall be made in isotonic saline containing 1 to 2 percent AB serum or bovine albumin.

(2) Test tubes shall be centrifuged for 1 minute at approximately 150 relative centrifugal force (rcf) or 20 seconds at approximately 1,000 rcf.

(d) *Potency requirements.* Products for which Reference Blood Grouping Sera are available shall have a potency titer value at least equal to that of the reference sera.

§ 660.25 Potency test without reference preparations.

Products for which Reference Blood Grouping Sera are not available shall be tested as follows:

(a) *Products recommended for tube tests—(1) Cell suspensions.* (i) A 2-percent suspension of red blood cells in isotonic saline or in AB serum shall be prepared on the day of use. The red blood cells used shall have been washed with isotonic saline at least twice and shall result in a clear supernate.

(ii) As a minimum, red blood cells from two donors shall be used. Heterozygous phenotypes shall be selected if antisera defining antigens corresponding to products of all alleles of that blood group system exist. When necessary, other cells may be used and reported on the protocol for that lot.

(2) *Serum dilutions.* (i) Beginning with undiluted serum, separate two-fold dilutions (1:2, 1:4, etc.) of the test serum shall be prepared using isotonic saline or AB serum.

(ii) A separate clean pipette shall be used for each dilution to avoid carryover of higher serum concentrations.

(3) *The test.* (i) Place 0.1 milliliter of each serum dilution in a separate clean test tube approximately 10 x 75 millimeters. Add 0.1 milliliter of the appropriate cell suspension to each test tube.

(ii) Mix contents of each test tube thoroughly and incubate test tubes at the temperature and for the shortest length of time recommended in the manufacturer's package insert for the product.

(iii) Perform antiglobulin test, if required in the manufacturer's package insert for the product.

(iv) Centrifuge test tubes according to the instructions that result in the lowest rcf and the least time recommended in the manufacturer's package insert.

(4) *Interpretation of the test.* The interpretation of the test shall be the same as described in § 660.24(a) (4).

(5) *Potency requirements.* Blood Grouping Sera recommended for the test tube methods, including the indirect antiglobulin test, shall have the following potency titer value when tested by the method defined in paragraph (a) (1) through (4) of this section.

(i) For Anti-K, Anti-k, Anti-Jk^a, Anti-Fy^a, Anti-C*, at least 1+ reaction with a 1:8 dilution of antiserum.

(ii) For Anti-S, Anti-s, Anti-P, Anti-M, Anti-I, Anti-e (saline), Anti-c (saline) and Anti-A, at least a 1+ reaction with a 1:4 dilution of the antiserum.

(iii) For Anti-U, Anti-Kp^a, Anti-Kp^b, Anti-Js^a, Anti-Fy^b, Anti-N^a, Anti-Le^a, Anti-Le^b, Anti-Di^a, Anti-M^a, Anti-Jk^b, and Anti-Xg^a, at least a 2+ reaction with undiluted serum.

(b) *Products recommended for slide tests.* Blood Grouping Serum recommended for slide test methods shall produce clumps of agglutinated cells at least 1 millimeter in diameter when both undiluted serum and a 1:2 dilution of serum are tested by all methods recommended in the manufacturer's package insert using red blood cells heterozygous for the corresponding antigen. The dilution shall be made with an equal volume of group compatible serum or AB serum.

(c) *Products recommended for use in automated system.* Blood Grouping Serum recommended for use in an automated system shall be sufficiently potent that a two-fold dilution will produce the same qualitative test result as the undiluted product tested in accordance with the manufacturer's package insert. This shall be demonstrated by preparing the two-fold dilution of the antiserum with an appropriate diluent and testing it against red blood cells which are heterozygous (except for A or B or D) for the corresponding antigen by the method described in the manufacturer's package insert.

§ 660.26 Specificity tests.

(a) *Test procedures.* (1) Each lot of Blood Grouping Serum shall be tested by all test methods described in the manufacturer's package insert.

(2) Red blood cell samples from four different donors whose cells have the antigen and red blood cell samples from four different donors whose cells lack the antigen corresponding to the specificity of the antibody shall be tested.

(3) Approval for exceptions to paragraph (a) (2) of this section may be requested from the Director, Bureau of Biologics, by a manufacturer at the time of submission of the first protocol if the Blood Grouping Serum is specific for high-incidence antigens.

(b) Red blood cells to be used as a minimum in specificity tests of the following antisera:

(1) ABO and Rh Blood Grouping Sera:

Blood grouping serum	Cells
Anti-A	A ₁ , A ₂ , B, O.
Anti-B	A, B, O.
Anti-A,B	A ₁ , A ₂ , B, O, A ₁ cells from 3 different donors. ¹
Anti-A ₁	A ₁ , A ₂ , A,B,A,B,O.
Anti-D	CcDce, ccDce, Ccddee, ccdDe, A ₁ ccddee, B ccddee, O ccddee.
Anti-D (recommended for use by indirect antiglobulin technique).	ccdee Bg(a+) cells from 3 different donors.
Anti-C	ccDce, Ccddee, ccdDeE, C+rh ₁ neg. cells, A ₁ ccddee, B ccddee, O ccddee.
Anti-E	ccDce, Ccddee, ccdDeE, A ₁ ccddee, B ccddee, O ccddee.
Anti-CD	ccDce, Ccddee, ccdDeE, A ₁ ccddee, B ccddee, O ccddee, r ₁ r ₂ .
Anti-DE	ccDce, Ccddee, ccdDeE, A ₁ ccddee, B ccddee, O ccddee.
Anti-CDE	ccDce, Ccddee, ccdDeE, A ₁ ccddee, B ccddee, O ccddee, r ₁ r ₂ .
Anti-c	Ccddee, A ₁ CCDee, B CCDee, O CCDee, and CCDee or CCDeE or CCDeE.
Anti-e	ccDeE, A ₁ ccDeE, B ccDeE, O ccDeE, and ccDeE or CCDeE or CCDeE.

¹ Only if the labeling recommends Anti-A,B Blood Grouping Serum for detection of Group A variants.

² Only if antiserum is recommended for detection of G antigen.

(2) All other Blood Grouping Sera:

(1) Red blood cells of any ABO blood group that are heterozygous phenotypes may be used if antisera defining antigens corresponding to the products of all alleles of that blood grouping system exist.

(ii) In addition, group O, A₁ and B red blood cells lacking the corresponding antigen shall be tested. A,B cells may be substituted for A₁ and B cells when either or both are unavailable.

(c) Specificity tests shall include red blood cells having the following antigens:

(1) Antigens: A, B, H, Le^a, Le^b, Le^c, Le^d, I, K, k, Kp^a, Kp^b, Js^a, P₁, D, C, E, c, e, C⁺, M, N, S, s, U, Lu^a, Lu^b, Jk^a, Jk^b, Fy^a, Fy^b, Xg^a, Do^a, Do^b, Yt^a, Yt^b, Lan, Co^a, Co^b, M^a, M^b, and Sd^a.

(2) Approval for exceptions to paragraph (c) (1) of this section may be requested from the Director, Bureau of Biologics, by a manufacturer at the time of submission of the first protocol if Blood Grouping Serum is specific for high incidence antigens.

(3) Red blood cell samples from four different donors may be used to confirm presumptively the absence of contaminating antibodies to antigens having an incidence of greater than 99 percent in the general population of the United States. If tests of all four blood samples are negative, absence of these contaminating antibodies is taken to have been confirmed.

(d) Specificity requirements. (1) Specificity tests shall demonstrate no hemolysis or rouleaux formation in all tests performed on the finished lot.

(2) If one of four red blood cell samples with the antigen corresponding to the specific antibody gives less than a 2+ reaction, additional red blood cell samples from four donors whose cells have the antigen shall be tested. The test is considered satisfactory if no more than one of eight red blood cell samples gives less than a 2+ reaction with the test serum.

(3) The manufacturer shall list on the protocol and in the "Specific Performance Characteristics" section of the package insert red blood cell antigens M^a and W^a and antigens having an incidence of 1 percent or greater in the general population of the United States for which no specificity tests have been performed. If desired, the red blood cell phenotype of the antibody donor(s) may also be listed as presumptive evidence that antibodies to those factors have been excluded.

(4) Specificity tests shall confirm the absence of significant contaminating antibodies reactive with red blood cell antigens M^a and W^a and antigens having an incidence of 1 percent or greater in the general U.S. population by the most sensitive test technique recommended by the manufacturer for use of the Blood Grouping Serum.

(5) Confirmation of nonspecific reactions by manufacturers after a lot of Blood Grouping Serum has been released shall be reported promptly by the manufacturer to the Director, Bureau of Biologics.

§ 660.27 Avidity test.

Blood Grouping Sera recommended for use by a slide method shall be tested for avidity by the appropriate test established in this section. Such sera shall be sufficiently avid that beginning agglutination occurs within 60 seconds. Agglutinated cells shall remain visible for the period of time required in this section for each serum, and at that time the size of the clumps shall be no less than 1 millimeter in diameter.

(a) Test procedure for ABO Blood Grouping Serum. (1) A 35 to 45 percent suspension of red blood cells in either AB serum or group-compatible serum or plasma shall be used.

(2) One drop of undiluted test serum shall be mixed with one drop of the cell suspension over an oval area of approximately 20 millimeters x 40 millimeters on an unheated glass slide.

(3) The time required for agglutination to begin shall be recorded.

(4) At the end of 2 minutes, the size of the clumps shall be observed and recorded as either less or more than 1 millimeter in diameter.

(5) As a minimum, the following cells shall be used:

Blood grouping serum	Cells
Anti-A	A ₁ , A ₂ , B
Anti-B	A, B, O
Anti-A,B	A ₁ , A ₂ , B

(b) Test procedure for Anti-D, Anti-CD, Anti-DE, Anti-CDE, Anti-C, Anti-E, Anti-c and Anti-e. (1) A 35 to 45 percent suspension of red blood cells in either AB serum or group-compatible serum or plasma shall be used.

(2) One drop of undiluted test serum shall be mixed with 2 drops of the cell suspension over an oval area of approximately 20 millimeters x 40 millimeters on a glass slide continuously heated at 40° C to 50° C.

(3) The time required for agglutination to begin shall be recorded.

(4) At the end of 2 minutes, the size of the clumps shall be observed and recorded as either less or more than 1 millimeter in diameter.

(5) As a minimum, the following cells shall be used:

Blood grouping serum	Cells (A, B, AB or O)
Anti-D	ccDce
Anti-C	CcdDee
Anti-E	ccdde
Anti-c	CcdDee
Anti-e	ccDee
Anti-CDE	ccDce, CcdDee, ccdDeE
Anti-CD	ccDce, CcdDee
Anti-DE	ccDce, ccdDeE

(c) Test procedure for other Blood Grouping Sera. All Blood Grouping Sera recommended for the slide test, except those listed in paragraphs (a) and (b) of this section, shall be tested for avidity following instructions in the manufacturer's package insert for performing the slide test with the following provisions:

(1) Cells of any ABO group which are heterozygous for the corresponding antigen shall be used.

(2) At the end of the recommended maximum observation period, the size of the clumps shall be observed and recorded as less or more than 1 millimeter in diameter.

§ 660.28 Labeling.

In addition to the applicable labeling requirements of §§ 610.62 through 610.65 and 809.10 of this chapter, and in lieu of the requirements in §§ 610.60 and 610.61 of this chapter, the following requirements shall be met:

(a) Final container label—(1) Color coding. The final container label of all Blood Grouping Sera shall be completely white, except that all or a portion of the final container label of the following antisera may be color coded with a visual match of the specific color samples identified below and in the Standard Ink Book for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Printing on all final container labels shall be in solid black.

Blood grouping serum	Color of label paper
Anti-A	Blue GP 251-B—70 pct tone.
Anti-B	Yellow GP 201-Y—100 pct tone.
Anti-C	Pink GP 218-R—70 pct tone.
Anti-D	Grey GP 298-G—70 pct tone.

Slide and rapid tube test sera only:
Anti-E—Brown GP 283-BR—70 pct tone.
Anti-CDE—Orange GP 204-Y—100 pct tone.
Anti-c—Lavender GP 234-P—40 pct tone.
Anti-e—Green GP 270-G—70 pct tone.

Slide and rapid tube test sera only:

Anti-E	Brown GP 283-BR—70 pct tone.
Anti-CDE	Orange GP 204-Y—100 pct tone.
Anti-c	Lavender GP 234-P—40 pct tone.
Anti-e	Green GP 270-G—70 pct tone.

(2) Required information. The proper name "Blood Grouping Serum" need not appear on the final container label provided the final container is distributed in a package and the package label bears the proper name. The final container label shall bear the following information:

(i) Name of the antibody or antibodies present as set forth in paragraph (d) of this section.

(ii) Name, address (including ZIP Code), and license number of the manufacturer.

(iii) Lot number, including subplot designations.

(iv) Expiration date.

(v) Source of product if other than human.

(vi) Test method(s) recommended.

(vii) Recommended storage temperature.

(viii) Volume of product if a liquid, or equivalent volume for a dried product if it is to be reconstituted.

(ix) If a dried product, the statement "RECONSTITUTION DATE EXPIRES 1 YEAR AFTER RECONSTITUTION DATE."

(3) Lettering size. The type size for the specificity of the antibody designation on the labels of a final container with a capacity of less than 5 milliliters shall be not less than 12 point. The type size for the specificity of the antibody designations on the label of a container with a capacity of 5 milliliters or more shall be not less than 18 point.

(4) Visual inspection. When the label has been affixed to the final container, a sufficient area of the container shall remain uncovered for its full length or no less than 5 millimeters of the lower circumference to permit inspection of the contents.

(b) Package label. The following information shall appear either on the package label or on the final container label if it is visible within the package.

(1) Proper name of the product.

(2) Name of the antibody or antibodies present as set forth in paragraph (d) of this section.

(3) Name, address (including ZIP Code), and license number of the manufacturer.

(4) Lot number, including subplot designations.

(5) Expiration date.

(6) Preservative used and its concentration.

(7) Number of containers, if more than one.

(8) Volume or equivalent volume for dried products when reconstituted, and precautions for adequate mixing when reconstituting.

(9) Recommended storage temperature.

(10) Source of the product if other than human.

(11) Reference to enclosed package insert.

(12) If a dried product, a statement indicating the period within which the product may be used after reconstitution.

(13) The statement: "IN VITRO DIAGNOSTIC REAGENT. FOR PROFESSIONAL USE ONLY."

(14) The statement: "MEETS FDA POTENCY REQUIREMENTS."

(15) The statement: "CAUTION: SOURCE MATERIAL FROM WHICH THIS PRODUCT WAS DERIVED WAS FOUND NONREACTIVE FOR HB₁Ag WHEN TESTED WITH LICENSED REAGENTS. NO KNOWN TEST METHOD CAN OFFER ASSURANCE THAT PRODUCTS DERIVED FROM HUMAN BLOOD WILL NOT TRANSMIT HEPATITIS." or "CAUTION: SOURCE MATERIAL FOR THIS PRODUCT WAS REACTIVE WHEN TESTED FOR HB₁Ag AND MAY TRANSMIT HEPATITIS", whichever is applicable. If the source material is nonreactive in a test for HB₁Ag and there is insufficient space on the package label to include the entire statement, the required statement may be included in the package insert and the statement "CAUTION: HANDLE AS IF CAPABLE OF TRANSMITTING HEPATITIS" shall be used on the package label.

(16) A statement of an observable indication of an alteration of the product, e.g., turbidity, color change, precipitate.

(c) Package insert. Each final container of Blood Grouping Serum shall be accompanied by a package insert meeting the requirements of § 809.10 of this chapter. If two or more final containers requiring identical package inserts are placed in a single package, only one package insert per package is required.

(d) Names of antibodies.

Blood group designation for container label	Optional synonym for package label and package insert
Anti-A	None.
Anti-A ₁	Do.
Anti-B	Do.
Anti-A,B	Do.
Anti-D ^a	(Anti-Diego ^a).
Anti-Py ^a	(Anti-Duffy ^a).
Anti-Py ^b	(Anti-Duffy ^b).
Anti-I	None.
Anti-Jk ^a	(Anti-Kidd ^a).
Anti-Jk ^b	(Anti-Kidd ^b).
Anti-K	(Anti-Kell).
Anti-k	(Anti-Cellano).
Anti-Kp ^a	(Anti-Penney).
Anti-Kp ^b	(Anti-Rautenberg).
Anti-Le ^a	(Anti-Lewis ^a).
Anti-Le ^b	(Anti-Lewis ^b).
Anti-M	None.

Anti-U	(Do).
Anti-Xg ^a	(Do).
Anti-Js ^a	(Anti-Sutter).

§ 660.29 Samples; protocols; official release.

(a) Samples and protocols. After no less than 15 percent of each lot has been filled into final containers, the following material for each lot shall be submitted to the Director, Bureau of Biologics, 8800 Rockville Pike, Bethesda, Md. 20014.

(1) Liquid products. (i) Randomly selected final container samples of the lot which have been filled in one continuous operation and packaged and labeled for distribution, or

(ii) If a lot of fully processed product is divided into sublots, randomly selected final container samples from one subplot that have been filled in one continuous operation and packaged and labeled for distribution shall be considered representative of the entire lot.

(iii) Not less than the following quantities shall be submitted:

LIQUID PRODUCTS		
Final container size (in milliliters)	Number of final containers to be submitted for serum recommended for—	
	Manual use	Automated use
1	5	5
2	3	3
5	2	2
10	2	2
More than 10	2	2

(2) Dried products. (i) Randomly selected final container samples of the dried product from each oven of each drying operation.

(ii) Not less than the following quantities shall be submitted:

DRIED PRODUCTS		
Final container size (in milliliters)	Number of final containers to be submitted for serum recommended for—	
	Manual use	Automated use
0.5	12	12
1.0	6	6
2.0	4	4
5.0	3	3
10.0	3	3
More than 10.0	3	3

(iii) At least 200 milligrams of dried product shall be submitted for a test to determine moisture content. Samples for moisture testing may be either (a) final container material of the product, or (b) dummy samples of material with the same composition and protein concentration as the product, filled in the same size vials, with the same volume as the product. Such samples shall be appropriately labeled before drying and placed in random locations throughout the drying equipment.

(3) Protocol. A protocol which shall consist of a summary of the history of manufacture of the lot. The history shall include: (i) Results of all tests

which are required by these regulations; and (ii) a listing of each lot of reprocessed material incorporated into the lot submitted for release including the lot number, date of manufacture, and the proportion of each reprocessed lot in the final product. A reprocessed lot is all or a portion of reprocessed material rejected by the Bureau of Biologics or withdrawn from distribution or release action by the manufacturer.

(b) *Official release.* A lot of Blood Grouping Serum shall not be issued by the manufacturer until written notification of official release of the lot is received from the Director, Bureau of Biologics, Food and Drug Administration.

Effective date. These regulations shall be effective December 6, 1977, except for the labeling requirements, which shall be effective August 7, 1978.

(Sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262).)

Dated: August 26, 1977.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Compliance.

[Docket No. 77N-0264]

PART 650—ADDITIONAL STANDARDS FOR DIAGNOSTIC SUBSTANCES FOR DERMAL TESTS

Bulk Tuberculin, PPD

AGENCY: Food and Drug Administration.

ACTION: Final Rule.

SUMMARY: This rule reduces the requirement for volume of bulk tuberculin, PPD, to be submitted for testing. The current required volume exceeds the amount used in testing. This amendment will eliminate surplus material and reduce cost to the agency.

EFFECTIVE DATE: October 7, 1977.

ADDRESS: Written comments to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Al Rothschild, Bureau of Biologics (HFB-620), Food and Drug Administration, Department of Health, Education, and Welfare, 8800 Rockville Pike, Bethesda, Md. 20014 (301-443-1920).

SUPPLEMENTARY INFORMATION: The Food and Drug Administration is conducting a continuing review of the existing regulations governing biological products to ensure that the criteria of safety, purity, potency, and effectiveness established by such regulations are updated to reflect current requirements for licensed products. Consistent with the review, the Commissioner of Food and Drugs is amending the regulations to reduce the volume of bulk tuberculin, PPD, to be submitted to the Bureau of Biologics for testing—from no less than

20 milliliters to a volume of no less than 6 milliliters.

The biologics regulations in § 650.11 (c) (2) (ii) require that manufacturers of tuberculin submit for each lot manufactured a sample totaling no less than 20 milliliters of bulk tuberculin to the Bureau of Biologics for testing.

The Commissioner has reviewed the current requirement and finds that the prescribed volume of bulk tuberculin, PPD, required to be submitted significantly exceeds that actually used for testing. The Commissioner has determined that the current requirement is wasteful; unnecessarily increases the cost to the Food and Drug Administration in processing, storing, and disposing of samples; and imposes an undue hardship on manufacturers in loss of the product. Accordingly, the Commissioner is revising § 650.11 (c) (2) (ii) to prescribe an appropriate smaller volume of bulk tuberculin, PPD, required to be submitted for testing.

Therefore, under the Public Health Service Act (section 351, 58 Stat. 702, as amended (42 U.S.C. 262) and the Administrative Procedure Act (sections 4, 10, 60 Stat. 238 and 243, as amended (5 U.S.C. 553, 702 et seq.)), and under authority delegated to the Commissioner (21 CFR 5.1), Part 650 is amended by revising § 650.11 (c) (2) (ii) to read as follows:

§ 650.11 Potency tests.

- (c)
- (2)

(ii) A total of no less than 6 milliliters of bulk tuberculin.

Under the Administrative Procedure Act (5 U.S.C. 553 (b) and (d)), the Commissioner concludes that notice, public procedure, and delayed effective date are unnecessary for the amendment of § 650.11 because it does not impose an additional duty or burden on any person but rather relieves unnecessary requirements and clarifies the intent of the regulations.

Effective date: October 7, 1977.

(Sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262).)

Dated: September 28, 1977.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Compliance.

CHAPTER II—DRUG ENFORCEMENT ADMINISTRATION, DEPARTMENT OF JUSTICE

PART 1308—SCHEDULES OF CONTROLLED SUBSTANCES

Placement of Lorazepam in Schedule IV
AGENCY: Drug Enforcement Administration.

ACTION: Final rule.

SUMMARY: This is a rule to place the drug lorazepam into schedule IV of the

Controlled Substances Act. This rule is issued in response to a letter from the Acting Assistant Secretary for Health, Department of HEW, and after the Administrator's own study of the drug. This rule requires that the manufacture, distribution, dispensing, importation, and exportation of lorazepam be subject to controls for schedule IV controlled substances.

EFFECTIVE DATE: October 3, 1977.

FOR FURTHER INFORMATION CONTACT:

Howard McClain, Chief, Regulatory Control Division, telephone 202-382-5676.

SUPPLEMENTARY INFORMATION: A Notice was published in the FEDERAL REGISTER on Tuesday, June 28, 1977 (42 FR 32805-06) proposing that schedule IV of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 812(c)) be amended to include lorazepam. All interested persons were given until July 28, 1977 to submit their comments or objections in writing regarding this proposal.

One comment was received in response to the proposal, from the American Society of Hospital Pharmacists, which supported the proposed schedule IV placement of lorazepam.

No further comments or objections were received, nor were there any requests for a hearing, and in view thereof, and based upon the investigations and review of the Drug Enforcement Administration and upon the scientific and medical evaluation and recommendation of the Acting Assistant Secretary in behalf of the Secretary of Health, Education, and Welfare, received pursuant to sections 201(a) and 201(b) of the Act (21 U.S.C. 811(a) and 811(b)), the Administrator of the Drug Enforcement Administration finds that:

1. Based on information now available, lorazepam has a low potential for abuse relative to the drugs or other substances currently listed in schedule III;

2. Lorazepam will, upon the issuance of a New Drug Application by the FDA, have a currently accepted medical use in treatment in the United States;

3. Abuse of lorazepam may lead to limited physical dependence or psychological dependence relative to the drugs or other substances in schedule III.

Therefore, under the authority vested in him by the Act and by regulations of the Department of Justice, the Administrator of the Drug Enforcement Administration hereby orders that § 1308.14(b) of Title 21 of the Code of Federal Regulations (CFR) be amended to read as follows:

§ 1308.14 Schedule IV.

(b) *Depressants.* Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is

possible within the specific chemical designation:

(11) Lorazepam	2885
(12) Mebutamate	2800
(13) Meprobamate	2820
(14) Methohexital	2264
(15) Methyphenobarbital (mephobarbital)	2250
(16) Oxazepam	2835
(17) Paraldehyde	2585
(18) Petrichoral	2591
(19) Phenobarbital	2285
(20) Prazepam	2764

The Food and Drug Administration issued a letter approving the New Drug Application on September 30, 1977.

Dated: October 3, 1977.

PETER B. BENSINGER,
Administrator, Drug
Enforcement Administration.

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

[DoD Instruction 7730.54]

PART 114—DEPARTMENT OF DEFENSE RESERVE COMPONENTS

Common Personnel Data System

AGENCY: Office of the Secretary of Defense.

ACTION: Final rule.

SUMMARY: This rule establishes Department of Defense (DoD) policies and procedures for the Reserve Components Common Personnel Data System (RCCPDS) to meet statutory requirements. The requirements provide that adequate and current personnel records be maintained to ensure proper management and mobilization readiness of Reserve Components. This rule outlines the processes and assigns responsibilities to comply with those requirements.

EFFECTIVE DATE: September 21, 1977.

FOR FURTHER INFORMATION CONTACT:

Major Donald L. McCabe, USAF, telephone: 697-4334 or 697-0624, Office of

the Deputy Assistant Secretary of Defense (Reserve Affairs), The Pentagon, Room 3C980, Washington, D.C. 20301.

SUPPLEMENTARY INFORMATION: In FR Doc. 77-22299 published in the FEDERAL REGISTER on August 3, 1977 (42 FR 39234), the Office of the Secretary of Defense published a proposed rule establishing DoD policies and procedures for the Reserve Components Common Personnel Data System (RCCPDS) to meet statutory requirements. The requirements provided that adequate and current personnel records be maintained to ensure proper management and mobilization readiness of Reserve Components. The proposed rule outlined the processes and assigned responsibilities to comply with those requirements. No substantive comments were received. Accordingly, 32 CFR Part 114 as proposed at 42 FR 39234, August 3, 1977 is formally adopted to read as set forth below.

MAURICE W. ROCHE,
Director, Correspondence and
Directives, Office of the
Assistant Secretary of Defense
(Comptroller).

OCTOBER 4, 1977.

Sec.	
114.1	Applicability and scope.
114.2	Statutory requirement.
114.3	Preservation of privacy.
114.4	Responsibilities.
114.5	Furnishing Selective Service with Information.
114.6	Effective date and implementation.

AUTHORITY: Title 10, U.S.C. section 275.

§ 114.1 Applicability and scope.

(a) The provisions of this part apply to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff and the Defense Agencies. Additionally, the Coast Guard of the Department of Transportation has agreed to provide information in conformance with this Part.

(b) Its provisions govern all male and female officers, warrant officers, and enlisted personnel assigned to the Ready Reserve, the Standby Reserve, and the Retired Reserve. Included are reservists on active duty for training who continue their assignment with a Reserve Component.

(c) Individuals who are enlisted members of a Regular component and also have a Reserve commission should not be reported in the Reserve Components Common Personnel Data System (RCCPDS).

(d) Individuals on extended active duty who are part of the active force should not be reported.

§ 114.2 Statutory requirement.

(a) Title 10, United States Code, section 275 requires the Armed Force to maintain adequate and current personnel records of Reserve Components, which shall include each member's:

- (1) Physical condition.
- (2) Dependence status.
- (3) Military qualifications.
- (4) Civilian occupation skills.

(5) Availability for service, and such other information as the Secretary of

the Military Department concerned may prescribe.

(b) *Common DoD Data Base.* A computerized common data base has been established to meet the above statutory requirement and to provide statistical tabulations of Reserve Components strengths and related data for use throughout the Department of Defense, by other Government Agencies and by the Congress, and for appropriate public release by the Assistant Secretary of Defense (Public Affairs).

(c) *Minimum data requirements.* The items of personnel data included in this reporting system partially satisfy the minimum essential data items needed to meet the statutory requirements of 10 U.S.C. Additionally, data falling within the following categories will be maintained in individual records (either in a manual or automated mode) to satisfy fully statutory requirements:

(1) Retirement Points Earnings (all point earning reservists).

(2) Retirement Authority (all retired reservists).

(3) Professional Military Education for Enlisted Members (all point earning enlisted members).

(4) Servicemen's Group Life Insurance Option Selected (all point earning reservists).

(d) *Data Maintenance Policy.* The Military Departments shall maintain only such additional items of data on an individual as necessary to (1) manage adequately their Guard and Reserve Forces, and (2) ensure mobilization readiness.

§ 114.3 Preservation of Privacy.

The requirements and procedures prescribed by the Privacy Act, 5 U.S.C. 552a, and 32 CFR Part 286a must be followed in order to safeguard the personnel data maintained in this reporting system. Individuals having access to identifiable personnel information may be held personally responsible and punishable under the law for making unauthorized disclosures.

§ 114.4 Responsibilities.

(a) The Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) or his designee, the Deputy Assistant Secretary of Defense (Reserve Affairs), shall be responsible for:

(1) Collecting, summarizing and publishing, on a periodic basis, the "Official Manpower Strengths and Statistics" report for the Reserve Components of the Department of Defense and, through the Office of the Assistant Secretary of Defense (Public Affairs), for public release.

(2) Providing access to the DoD Data Base to each of the Military Departments through an on-line time sharing terminal system. The Guard and Reserve Components will have access only to their portion of the data base by means of assigned passwords controlled by the Deputy Assistant Secretary of Defense (Reserve Affairs).

(b) The Secretaries of the Military Departments shall be responsible for:

(1) Implementing Directives.

(2) Providing their respective Guard and Reserve Components the necessary support to establish personnel data systems that support readiness requirements in addition to this reporting requirement.

(3) Preparing, at the end of each month, a Master Officer and Master Enlisted File reflecting the status of each member of the Guard and Reserve as of the last day of each month.

(4) Preparing, at the end of each month, an Officer Transaction File and an Enlisted Transaction File reflecting the gains, losses, reenlistment or extensions of Selected Reserve personnel that occurred during the reporting month.

(5) Editing monthly submissions in support of the editing concept.

(6) Performing a quality control validation of the data prior to submission to the Office of the Secretary of Defense.

(7) Assuring accuracy of data considered "critical data items" since they are required by either statutes, directives, or regulations, and should be 100 percent accurate to insure acceptability in the system.

(8) It is our policy that the data reliability objectives apply equally to the Ready, Standby and Retired Reserve Categories. If the data item must be reported. Similarly, the data reliability rates are goals of data accuracy which should eventually be achieved by each Reserve Component.

§ 114.5 Furnishing selective service with information.

Any information available in RCCPDS which is required by the Director of Selective Service will be provided by magnetic tape extracts of data submitted in compliance with this part.

NOTE.—This paragraph is effective after the requirements of the Privacy Act are fulfilled.

§ 114.6 Effective data and implementation.

(a) This part is effective 1 year from the date of issuance. Each Reserve Component shall be formally advised of the specific implementation date by separate correspondence.

(b) When implementation occurs, each record in the initial submission will be expanded to provide fields for all new data items. All new data which is available either directly or through data extrapolation will be provided at that time.

(c) The Retired Reserve data was incorporated into this reporting system during January 1977. Retired Reserve records will expand with all other Reserve Categories for the initial submission. Records in this category shall be considered as part of the parallel validation which will be conducted during the first 2 months following implementation.

(d) Beginning with the initial submission under this part, a complete record containing all new data items will be provided on accessions. The collection of new data on existing records will be handled incrementally after that time. Our goal is to have all new data

collected and in the system within a three-to-four year period.

(e) At the time of conversion to this part, unknown and unavailable data items will be left blank.

Title 36—Parks, Forests, and Public Property

CHAPTER I—NATIONAL PARK SERVICE, DEPARTMENT OF THE INTERIOR

PART 67—HISTORIC PRESERVATION CERTIFICATIONS PURSUANT TO THE TAX REFORM ACT OF 1976

AGENCY: National Park Service, Interior.

ACTION: Final rulemaking.

SUMMARY: This rule revises and makes final the interim regulations published for comment in the FEDERAL REGISTER of March 15, 1977 (42 FR 14121). The Tax Reform Act of 1976 requires the Secretary of the Interior to make certain certifications with respect to the historic character of buildings and structures and to the rehabilitation work undertaken on such buildings and structures.

EFFECTIVE DATE: November 7, 1977.

ADDRESS: Send comments to: Mr. Jerry L. Rogers, Chief, Office of Archeology and Historic Preservation, National Park Service, Department of the Interior, Washington, D.C. 20240 (202-523-5275).

SUPPLEMENTARY INFORMATION: On March 15, 1977, a notice of proposed rulemaking was published in the FEDERAL REGISTER (42 FR 14121) to amend Chapter I Title 36 of the Code of Federal Regulations by adding a new part 67 concerning historic preservation certifications pursuant to the Tax Reform Act of 1976 (Pub. L. 94-455 90 Stat. 1519) made by the Secretary of the Interior.

At that time, it was explained that under Section 2124, "Tax Incentives to Encourage the Preservation of Historic Structures," the Secretary of the Interior is required to make certain certifications with respect to the historic character of buildings and structures, the rehabilitation of historic buildings and structures, and the preservation criteria of State and Local statutes. The purpose of the proposed rulemaking was to regularize procedures, standards, and criteria for the making of such certifications. The Internal Revenue Service, pursuant to its regulatory authorities, has and will continue to issue all regulations necessary for implementation of Section 2124 of the Tax Reform Act of 1976 with respect to Federal income tax consequences, requirements, and procedures. However, the section 2124 tax incentive provisions are generally described as follows so as to permit a public understanding of the certifications required to be made by the Secretary:

1. Section 2124(a). (Section 191 of the Internal Revenue Code of 1954). Permits a 60-month amortization of certain rehabilitation expenses made in connection with qualified depreciable properties;

2. Section 2124(b). (Section 280B of the Internal Revenue Code of 1954). Disallows a deduction for demolition of qualified depreciable properties;

3. Section 2124(c). (Section 167(n) of the Internal Revenue Code of 1954). Generally precludes accelerated depreciation for structures built on the site of qualified depreciable properties;

4. Section 2124(d). (Section 167(o) of the Internal Revenue Code of 1954). Provides special depreciation rules for qualified rehabilitated property;

5. Section 2124(e). (Sections 170(f) (3), 2055(e) (2) and 2522(c) (2) of the Internal Revenue Code of 1954). Amends charitable contribution deductions on income, estate, and gift taxes to liberalize deductions for conservation purposes (including historic preservation).

The term "depreciable properties" as used above generally means those properties subject to the allowance for depreciation under Section 167 of the Internal Revenue Code of 1954 and generally excludes owner-occupied homes.

Sections (a)-(d) of Section 2124 as briefly described above require the Secretary of the Interior to make the following classes of certifications:

a. *Certified Historic Structures.* All the tax provisions described above (except subsection 2124(e)) are related to so-called "Certified Historic Structures," which, generally, are defined as qualified depreciable properties of historic character which are either listed in the National Register, or are located within a historic district listed in the National Register or created by or pursuant to a certified State or local statute. The Secretary, as a general rule, must certify that such structures are in fact "Certified Historic Structures" before the described tax consequences accrue.

b. *Certified Rehabilitation.* In order for the tax consequences described above relating to rehabilitation to accrue, the Secretary must determine not only that the rehabilitation was done to a certified historic structure but also that it meets certain standards with respect to the historic integrity of the rehabilitation work.

c. *Certified Statutes.* Qualified historic structures located in historic districts designated under a statute of the appropriate State or local government are subject to the tax consequences discussed above if located within a historic district created by or pursuant to a statute of local or State government certified by the Secretary as containing criteria which will substantially achieve the purposes of preserving and rehabilitating buildings of historic significance to the district. This rulemaking is developed under the authority of Section 101(a)(1) of the National Historic Preservation Act of 1966 U.S.C. 470a-1(a) (1970 ed.), as amended, and Section 2124 of the Tax Reform Act of 1976, 90 Stat. 1519. In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4331, et seq.) the National Park Service has prepared an environmental assessment of these regulations. Based on this assessment, it is determined that implementation of the regulations is not a

major Federal action that would have a significant effect on the quality of the human environment and that an environmental impact statement is not required. The assessment, on file in the office of the Chief, Office of Archeology and Historic Preservation, National Park Service, Department of the Interior, Washington, D.C. 20240, is available for public inspection. It has been administratively determined that this proposed rulemaking is not "major" within the intent of Section 2124 of the Tax Reform Act of 1976 and that an inflationary impact certification is therefore not required.

Changes have been incorporated in this final rulemaking both in response to the comments that were received and based upon National Park Service review. Consistent with the discussions below, no major changes in the certification process have been necessary. The minor changes are as follows:

1. Recognizing that active State participation in the certification process may not be possible at this time, Section 67.3 has been expanded to explain how in certain situations owners of record may apply for certifications directly to the Secretary and bypassing the State preservation office.

2. Recognizing that some completed rehabilitation projects may not require an onsite inspection, the revised regulations (Section 67.7) require the owner to provide photographs of the completed rehabilitation to the State Historic Preservation Officer and to attest that in the owner's opinion, the rehabilitation is consistent with the Secretary's "Standards for Rehabilitation." In some cases, this documentation will be sufficient to enable the Secretary to certify the rehabilitation without an onsite inspection being necessary.

3. In the interim regulations, reference was made to three application forms: "Application for Evaluation of Significance," "Application for Certified Rehabilitation," and "Request for Inspection" form. In an attempt to simplify the certification process, the decision was made to consolidate the information required by these three forms into a single application form. The resulting "Historic Preservation Certification Application" eliminates some of the duplication present in the three forms yet provides sufficient space for documentation on the historic character of the building and the nature of the rehabilitation work.

4. The Secretary's "Standards for Rehabilitation," set forth in Section 67.7, have been modified slightly and renumbered, reflecting the comments from State Historic Preservation Officers and others. The revised standards set forth herein have been reviewed and approved by the Committee on Rules and Regulations of the National Conference of State Historic Preservation Officers. There was some concern that the National Park Service was restricting the range of rehabilitation projects by requiring that all rehabilitated structures be used for their originally intended purpose. This was not the intent of the Secretary's "Standards

for Rehabilitation," and to clarify this point, the Standards were reworded to encourage compatible and creative adaptive use provided that the architectural and historical integrity of the structure is not irrevocably impaired.

Two new standards have been added, one dealing with the surface cleaning of structures, the other concerned with the protection of archaeological resources affected by rehabilitation projects. Both standards articulate concerns implied in the earlier set of standards.

5. Under temporary income tax regulations published on April 6, 1977 by the Department of the Treasury (26 CFR Part 7, 42 FR 18275), taxpayers may elect to amortize expenditures incurred in rehabilitating a structure prior to actual certification of the project by the Secretary, provided the taxpayer has requested certification in accord with these regulations. Sections 67.4 and 67.6 have been amended to enable owners of such structures to obtain a preliminary determination whether their structure contributes to the historic significance of the district in which it is included and a preliminary determination whether the rehabilitation work will meet the Secretary of Interior's "Standards for Rehabilitation." The regulations make it clear that taxpayers owning structures not yet determined to be "certified historic structures" will be proceeding at their own risk.

On August 10, 1977, Section 67 of the interim rules was amended by adding a new Section 67.9 entitled "Certification of State or Local Statutes." This particular section will remain as an interim regulation until such time as it may be amended and published in final. The originators of these regulations are Carol Shull, Ward Jandi, and Katherine Cole, National Park Service.

Accordingly, with minor changes and additions, and in consideration of the foregoing comments and the reasons given in the preamble to the proposed rulemaking on March 15, 1977, which is specifically hereto by reference, the proposed new part 67.1 through 67.8 of Chapter I of Title 36 of the Code of Federal Regulations is hereby adopted, effective November 7, 1977, as follows:

Sec. 67.1	The Tax Reform Act of 1976.
67.2	Definitions.
67.3	How to apply.
67.4	Certifications of historic significance.
67.5	Standards for evaluating structures within Registered Historic Districts.
67.6	Certification of rehabilitation.
67.7	Standards for rehabilitation.
67.8	Appeals.

AUTHORITY: Sec. 101(a)(1), 80 Stat. 915 as amended. (16 U.S.C. 470-1(a)); Sec. 2124, 90 Stat. 1519.

§ 67.1 The Tax Reform Act of 1976.

The Tax Reform Act of 1976, 90 Stat. 1519, requires the Secretary to make certifications of historic significance and certifications of rehabilitation in connection with certain tax incentives involving historic preservation. The procedures for obtaining such certifications are set forth below. The Internal Revenue

Service is responsible for all procedures, legal determinations and rules and regulations concerning the tax consequences of the historic preservation incentives of the Tax Reform Act of 1976. Any certifications made by the Secretary pursuant to this part shall not be considered as binding upon the Internal Revenue Service with respect to tax consequences or interpretations of the Internal Revenue Code of 1954. Certifications made by the Secretary do not constitute determinations that a structure is of the type subject to the allowance for depreciation under Section 167 of the Internal Revenue Code of 1954.

§ 67.2 Definitions.

As used in these procedures:

(a) "Certified Historic Structure" means a structure which is of a character subject to the allowance for depreciation provided in Section 167 of the Internal Revenue Code of 1954 which is either (1) listed in the National Register; or (2) located in a National Register historic district and certified by the Secretary of the Interior as being of historic significance to the district; or (3) located in a historic district designated under a statute of the appropriate State or local government if such a statute is certified by the Secretary to the Secretary of the Treasury pursuant to 36 CFR 67.9.

(b) "Certified Rehabilitation" means any rehabilitation of a certified historic structure occurring after June 14, 1976, and prior to June 15, 1981, which the Secretary has certified to the Secretary of the Treasury as being consistent with the historic character of such property or the district in which such property is located.

(c) "Historic District" means a geographically definable area, urban or rural, possessing a significant concentration, linkage, or continuity of sites, buildings, structures, or objects which are united by past events or aesthetically by plan or physical development.

(d) "Inspection" means a visit by an authorized representative of the Secretary of the Interior to a certified historic structure for the purposes of reviewing and evaluating the significance of the structures and the completed rehabilitation work.

(e) "National Register" means the national register of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, and culture that the Secretary is authorized to expand and maintain pursuant to Section 101(a)(1) of the National Historic Preservation Act of 1966.

(f) "National Register Program" means the survey, planning, and registration program that has evolved under the Secretary's authority pursuant to 101(a)(1) of the National Historic Preservation Act of 1966. The procedures of the National Register program appear in 36 CFR Part 60.

(g) "Registered Historic District" means any district listed in the National Register or any district designated under a State or local statute which has been

certified by the Secretary as containing criteria which will substantially achieve the purpose of preserving and rehabilitating buildings of historic significance to the district.

(h) "Rehabilitation" means the process of returning a property to a state of utility, through repair or alteration, which makes possible an efficient contemporary use while preserving those portions and features of the property which are significant to its historic, architectural and cultural values.

(i) "Secretary" means the Secretary of the Interior or the designee authorized to carry out his responsibilities.

(j) "Standards for Rehabilitation" mean the Secretary of the Interior's "Standards for Rehabilitation" as set forth in § 67.7, hereof.

(k) "State Historic Preservation Officer" means the official within each State, or his designated representative, authorized by the State at the request of the Secretary to act as liaison for purposes of implementing the requirements of the National Historic Preservation Act of 1966.

(l) "Structure" means a specific piece of real estate, including building(s) and other site improvements.

§ 67.3 How to apply.

(a) Ordinarily, only the record owner of the property in question may apply for the certifications described in §§ 67.4 and 67.6 hereof. However, upon request of a State Historic Preservation Officer, the Secretary may determine whether or not a particular structure located within a Registered Historic District qualifies as a certified historic structure. The Secretary shall do so, however, only after notifying the property owner of record of the request, informing such owner of the possible tax consequences of such decision, and permitting the property owner to submit written comments to the Secretary prior to decision.

(b) Requests for certifications shall be made through the appropriate State Historic Preservation Officer except in those cases when that official chooses not to participate in the certification process. The recommendations of the State Historic Preservation Officer are generally accepted and supported by the Secretary. If, however, a State Historic Preservation Officer has indicated to the Secretary his inability to participate in the certification process, or is unable to make recommendations to the Secretary within the period of time specified herein, the property owner may apply directly to the Secretary. In all other situations, requests for certification are to be made through the appropriate State Historic Preservation Officer.

§ 67.4 Certifications of historic significance.

(a) Requests for evaluation of historic significance as required by sections 2124(a), (b), (c), and (d) of the Tax Reform Act of 1976 should be made by the owner in accordance with respective procedures for the following categories of certifications: (1) That a structure is

listed in the National Register; (2) that a structure is located within a Registered Historic District but is or is not of historic significance to such district.

(b) If the property is individually listed in the National Register:

(1) To determine whether or not a property is individually listed in the National Register, the owner should consult the listing of National Register properties in the Federal Register (found in most large libraries). This listing generally appears the first Tuesday of February each year, with regular monthly updates. If access to the Federal Register is difficult, the owner shall contact the appropriate State Historic Preservation Officer for this information.

(2) If the property is individually listed in the National Register and the owner believes it has lost the characteristics which caused it to be nominated and therefore wishes it delisted, the owner should refer to the procedures outlined in 36 CFR 60.17.

(c) If the property is located within the boundaries of a Registered Historic District and the owner wishes the Secretary to certify as to whether the structure is of historic significance to the district, the owner must make written application to the appropriate State Historic Preservation Officer and provide the following minimum documentation on his request:

- (1) Name of owner;
- (2) Name and address of structure;
- (3) Name of historic district;
- (4) Current photographs of structure;
- (5) Brief description of appearance including alterations, distinctive features and spaces, and date(s) of construction;
- (6) Brief statement of significance (architectural and/or historical); and
- (7) Signature of property owner requesting the evaluation.

(d) The State Historic Preservation Officer will forward the information listed in paragraph (c) of this section, along with his written recommendation as to the significance of the structure, to the Keeper of the National Register. Part I of an "Historic Preservation Certification Application" shall be used in requesting an evaluation from the Secretary. Application forms are supplied to the State Historic Preservation Officers by the Keeper of the National Register at the address given above.

(e) The State Historic Preservation Officer shall forward Part I of the "Historic Preservation Certification Application" to the Keeper of the National Register within 45 days after the owner has submitted the required information. If this period has expired without such actions being taken the owner may request an evaluation of significance directly from the Keeper of the National Register pursuant to § 67.3(c) above.

(f) Structures within Registered Historic Districts will be evaluated for conformance with the Secretary's "Standards for Evaluating Historic Districts" as set forth in § 67.5 hereof. Once the significance of the structure has been determined by the Secretary, written no-

tification will be sent directly to the property owner in the form of a Certification of Significance or as a notice that the structure does not contribute to the historic significance of the district. Written notification will be made within 30 days of receipt of Part I of an "Historic Preservation Certification Application."

(g) Owners of structures which (1) appear to meet National Register criteria (36 CFR 60.6) but are not yet listed in the National Register; or (2) are located within a historic district which appears to meet National Register criteria but has not yet been listed in the National Register may request preliminary determinations, through the State Historic Preservation Officer, as to whether such structures may qualify as certified historic structures when and if the property or district is listed in the National Register. Any such determinations are preliminary only and will be reconsidered upon further review by the Secretary at the time the individual property or district is nominated to the National Register.

§ 67.5 Standards for evaluating structures within Registered Historic Districts.

Structures located within Registered Historic Districts are reviewed by the Secretary for conformance to the following "Standards for Evaluating Structures within Registered Historic Districts." These standards shall be used by the State Historic Preservation Officer in making recommendations to the Secretary.

(a) A structure contributing to the historic significance of a district is one which by location, design, setting, materials, workmanship, feeling and association adds to the district's sense of time and place and historical development.

(b) A structure not contributing to the historic significance of a district is one which detracts from the district's sense of time and place and historical development intrinsically; or when the integrity of the original design or individual architectural features or spaces have been irretrievably lost.

(c) Ordinarily structures that have been built within the past 50 years shall not be considered eligible unless a strong justification concerning their historical or architectural merit is given or the historical attributes of the district are considered to be less than 50 years old.

§ 67.6 Certification of rehabilitation.

Property owners desirous of having rehabilitations of certified historic structures certified by the Secretary as being consistent with the historic character of the structure or district in which the structure is located, thus qualifying as "certified rehabilitations," shall comply with the following procedures:

(a) Obtain from the appropriate State Historic Preservation Officer or from the Technical Preservation Services Division, National Park Service, Washington, D.C. 20240, an "Historic Preservation Certification Application" and a copy of the

Secretary's "Standards for Rehabilitation" and guidelines for applying these standards.

(b) Complete part 2 of the application form and submit it to the State Historic Preservation Officer. The application may be for proposed rehabilitation or completed rehabilitation.

(c) If the work described in part 2 of the application form has not commenced, the appropriate State Historic Preservation Officer shall review the proposed project as to whether or not the project is likely to meet the Secretary of the Interior's "Standards for Rehabilitation" and forward the application and recommendations to the Secretary within 45 days of receipt of the application and any additional information the State Historic Preservation Officer may request.

(d) Upon receipt of the application describing the proposed project and the recommendation of the State Historic Preservation Officer, the Secretary shall determine, normally within 45 days, if the proposed project is consistent with the "Standards for Rehabilitation." If the proposed project does not meet the "Standards for Rehabilitation," the owner shall be advised of necessary revisions to meet such standards.

(e) Upon completion of the rehabilitation project, the owner shall notify the appropriate State Historic Preservation Officer in writing of the project completion date and shall sign a statement that, in the owner's opinion, the completed rehabilitation meets the Secretary's "Standards for Rehabilitation" and is consistent with the work described in part 2 of the "Historic Preservation Certification Application." At this time the owner will be requested to provide photographs of the completed rehabilitation project and other documentation that the State Historic Preservation Officer believes is necessary to make a recommendation to the Secretary. The completed project may be inspected by an authorized representative of the Secretary to determine if the work meets the "Standards for Rehabilitation." Inspections, if made, will normally be completed within 30 days of receipt by the State Historic Preservation Officer of the project completion date. The Secretary reserves the right to make inspections at any time after completion of the rehabilitation and to withdraw certification if the project does not meet the Secretary's "Standards for Rehabilitation" as proposed and/or completed.

(f) The State Historic Preservation Officer shall forward his recommendations as to certification to the Secretary within 30 days of receipt of the project completion date and documentation described in paragraph (e) of this section.

(g) Notification as to certification shall be in writing and will normally be made by the Secretary within 15 days of receipt of the State Historic Preservation Officer's recommendations.

(h) In the event that the completed rehabilitation project does not meet the

"Standards for Rehabilitation," an explanatory letter will be sent to the owner. An appeal from this decision may be made by the owner pursuant to § 67.8.

(i) Although parts 1 and 2 of the "Historic Preservation Certification Application" may be submitted concurrently to the Secretary, no certifications of rehabilitation will be issued until the structure has been designated a "certified historic structure."

(j) (1) A determination that a rehabilitation project is consistent with the Secretary's "Standards for Rehabilitation" may be made for structures not yet designated "certified historic structures." Such determinations will be made only if the owner has requested certification in accord with these regulations and has obtained confirmation from the appropriate State Historic Preservation Officer (i) that the structure appears to meet National Register Criteria for Evaluation and will likely be nominated to the National Register in accordance with National Park Service procedures (36 CFR 60); or (ii) that the structure is located within a historic district that appears to meet National Register Criteria for Evaluation, will likely be nominated to the National Register in accordance with National Park Service procedures (36 CFR 60), and appears to contribute to the character of said district, in accordance with § 67.5 above.

(2) Taxpayers should understand that confirmation of intent to nominate does not constitute listing in the National Register nor does it constitute an evaluation of significance as required under Section 2124 (a), (b), (c), and (d) of the Tax Reform Act of 1976.

(3) Taxpayers should be aware that they are proceeding at their own risk, for when additional research on the structure is completed, it may become clear that the property does not meet National Register Criteria for Evaluation.

(4) Owners of record should fill out Parts 1 and 2 of the "Historic Preservation Certification Application" and submit the completed form to the State Historic Preservation Officer. Review of rehabilitation work undertaken on such a structure will be made in accord with procedures set forth above. Issuance of a certification of rehabilitation, however, will be made only for "certified historic structures." A determination that rehabilitation of a structure not yet designated a "certified historic structure" meets the Secretary's "Standards for Rehabilitation" does not constitute a certification of rehabilitation.

§ 67.7 Standards for rehabilitation.

(a) The following "Standards for Rehabilitation" shall be used by the Secretary to determine if rehabilitation of a certified historic structure qualifies as "certified rehabilitation." With respect to certified historic structures located within districts designated by State or local Statutes certified by the Secretary, the rehabilitated structure must be consistent with the historic character of the

district in which it is located to qualify as "certified rehabilitation."

(1) Every reasonable effort shall be made to provide a compatible use for a property which requires minimal alterations of the building structure, or site and its environment, or to use a property for its originally intended purpose.

(2) The distinguishing original qualities or character of a building structure or site and its environment shall not be destroyed. The removal or alteration of any historic material or distinctive architectural features should be avoided when possible.

(3) All buildings, structures, and sites shall be recognized as products of their own time. Alterations that have no historical basis and which seek to create an earlier appearance shall be discouraged.

(4) Changes which may have taken place in the course of time are evidence of the history and development of a building, structure, or site and its environment. These changes may have acquired significance in their own right, and this significance shall be recognized and respected.

(5) Distinctive stylistic features or examples of skilled craftsmanship which characterize a building, structure, or site shall be treated with sensitivity.

(6) Deteriorated architectural features shall be repaired rather than replaced, wherever possible. In the event replacement is necessary, the new material should match the material being replaced in composition, design, color, texture, and other visual qualities. Repair or replacement of missing architectural features should be based on accurate duplications rather than on conjectural designs or the availability of different architectural elements from other buildings or structures.

(7) The surface cleaning of structures shall be undertaken with the gentlest means possible. Sandblasting and other cleaning methods that will damage the historic building materials shall not be undertaken.

(8) Every reasonable effort shall be made to protect and preserve archaeological resources affected by, or adjacent to any rehabilitation project.

(9) Contemporary design for alterations and additions to existing properties shall not be discouraged when such alterations and additions do not destroy significant historical, architectural, or cultural material, and such design is compatible with the size, scale, color, material, and character of the property, neighborhood or environment.

(10) Wherever possible, new additions or alterations to structures shall be done in such a manner that if such additions or alterations were to be removed in the future, the essential form and integrity of the structure would be unimpaired.

(b) Guidelines to help property owners formulate plans for the rehabilitation, preservation, and continued use of historic properties consistent with the intent of the Secretary's "Standards for Rehabilitation," are available from the Technical Preservation Services Division.

National Park Service, Washington, D.C. 20240.

§ 67.8 Appeals.

An appeal may be made from any of the certifications or denials of certifications made pursuant to this part. Such appeals must be in writing and received by the Chief, Office of Archaeology and Historic Preservation, National Park Service, Department of the Interior, Washington, D.C. 20240 within 30 days of receipt by the appellant of the decision which is the subject of the appeal. The Chief, Office of Archaeology and Historic Preservation, will review such appeals and the written record of the decision in question and shall advise the appellant within 30 days of its receipt unless the appellant is required to submit additional information. The decision of the Chief, Office of Archaeology and Historic Preservation, shall be the final administrative decision on the matter. Appeals pursuant hereto should be mailed to the address noted above.

Dated: September 29, 1977.

ERNEST ALLEN CONNALLY,
Acting Director,
National Park Service.

[FRL 787-5]

CHAPTER 15—ENVIRONMENTAL PROTECTION AGENCY

PART 15-19—TRANSPORTATION

Subpart 15-19.3—Contract Delivery Terms

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This action revokes regulations pertaining to contract delivery

RULES AND REGULATIONS

terms, because of an improper interpretation of a Comptroller General Decision and GSA Bulletin.

EFFECTIVE DATE: October 7, 1977.

FOR FURTHER INFORMATION CONTACT:

John H. Dammeyer, Environmental Protection Agency, Contracts Management Division (PM-214), Washington, D.C. 20460 (202-755-0900).

SUPPLEMENTARY INFORMATION: The revision of the Environmental Protection Agency Procurement Regulations (EPPR) published in the FEDERAL REGISTER on June 15, 1977 (42 FR 30509), was based on Comptroller General Decision B-163758, dated August 14, 1975, and General Services Administration (GSA) Bulletin Federal Property Management Regulations (FPMR) G-120, dated December 12, 1975. Subsequent to the publication of the revision, it was found that both the Comptroller General Decision and the GSA Bulletin pertained to charges for transportation services paid directly to carriers by the Government and not to charges for transportation services paid for by vendors identical to the delivery of supplies. Accordingly, the revision of June 15, 1977, is revoked. In addition, a forthcoming amendment of the Federal Procurement Regulations (41 CFR Chapter 1) will provide arrangements whereby vendors may include shipping charges in their invoices. Therefore, it is considered appropriate to delete the text of Subpart 15-19.3, Contract Delivery Terms, in its entirety.

It is the general policy of the EPA to invite comments regarding the development of proposed rules; however, this action cancels an improper interpretation of a Comptroller General Decision and GSA Bulletin and no purpose would be served by inviting comments.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).)

Dated: September 29, 1977.

DOUGLAS M. COSTLE,
Administrator,
Environmental Protection Agency.

1. The Table of Contents for Subpart 15-19.3 is revised to delete the captions for §§ 15-19.302, 15-19.303, and 15-19.305, and to reserve the sections as follows:

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1279]

PARTS 1080—CONTRACT FORWARDERS—MOTOR COMMON CARRIERS

Freight Forwarders of Export Traffic Authorized To Operate to Any Available Atlantic or Gulf Coast Port in the United States and To Any Port in Dominion of Canada

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Service Order No. 1279).

SUMMARY: Because of a labor dispute at Atlantic and Gulf ports, freight forwarders of export freight are unable to operate in the ports designated by their

operating permits. Service Order No. 1279 authorizes these freight forwarders to operate through any available Atlantic or Gulf port or through any available Canadian port.

DATES: Effective 12:01 a.m., October 3, 1977. Expires 11:59 p.m., October 15, 1977.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7840, telex 89-2742.

SUPPLEMENTARY INFORMATION: The Order is printed in full below.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 3rd day of October 1977.

Because of a strike by the International Longshoremen's Association at certain Atlantic and Gulf ports in the United States, freight forwarders of export traffic are unable to operate via the ports they are authorized to serve, thus causing great economic loss to shippers and serious disruption of foreign trade. Certain of these freight forwarders are able to operate through other ports on the Atlantic and Gulf Coasts of the United States or in the Dominion of Canada if authorized to use such ports. Temporary use of these other ports by these freight forwarders will reduce the economic loss and the disruption of foreign trade caused by this strike.

In the opinion of the Commission, an emergency exists requiring immediate action in the interest of the public and good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

§ 1080.1279 Service Order No. 1279.

(a) Freight forwarders of export traffic authorized to operate to any available Atlantic or Gulf Coast Port in the United States and to any Port in Dominion of Canada. Freight forwarders of export traffic authorized to operate at certain ports on the Atlantic and Gulf Coasts of the United States which are effectively closed by the strike of the International Longshoremen's Association, are authorized to operate via any open Atlantic or Gulf port, or via any port in the Dominion of Canada insofar as the movement is in the United States.

(b) It is further ordered, That each freight forwarder rerouting traffic as authorized by this order via ports not authorized in its operating permit shall promptly print and file with the Commission tariffs showing its rates and charges for the service authorized herein.

(c) Rules and Regulations Suspended. The operation of all rules, regulations, or tariff provisions is suspended insofar as they conflict with the provisions of this order.

(d) Effective date. This order shall become effective 12:01 a.m., October 3, 1977.

RULES AND REGULATIONS

(e) Expiration date. This order shall expire at 11:59 p.m., October 15, 1977, unless otherwise modified, changed, or suspended by order of this Commission. (49 U.S.C. 1 (15 and 16), 17(2) and 420.)

It is further ordered, That copies of this order shall be served upon all freight forwarders; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board members Joel E. Burns, Robert S. Turkington and John R. Michael.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01]

SUBCHAPTER D—TARIFFS AND SCHEDULES

[Ex Parte No. MC-97]

PART 1310—FREIGHT RATE TARIFFS AND CLASSIFICATIONS OF MOTOR COMMON CARRIERS

Investigation into Practices of Motor Common Carriers of Property on Residential and Redelivered Shipments

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: This document incorporates into Part 1310, regulations regarding tariff practices of motor common carriers with respect to pickup and delivery of freight shipments to and from private residences, apartments, etc. These regulations were adopted in the proceeding in Docket No. 35867, (42 FR 44236) and are effective on October 5, 1977. Regulations concerning the same types of tariffs are already incorporated into Part 1307, Subpart B. However, the regulations in Part 1307, Subpart B will be superseded by the new regulations in Part 1310 in two years. In order to permit an orderly transition, carriers will be allowed to file tariffs under either the old or the new regulations during the first year.

EFFECTIVE DATE: The final rule became effective October 5, 1977.

FOR FURTHER INFORMATION CONTACT:

William P. Geisenkotter, Chief, Section of Tariffs, Bureau of Traffic, Interstate Commerce Commission, Washington, D.C. 10423 (202-275-7739).

SUPPLEMENTARY INFORMATION: The Commission began this proceeding by notice of proposed rulemaking and order of September 4, 1975 (40 FR 43038). At issue was the legality of various charges assessed by motor common carriers in addition to their line-haul rates on shipments to and from, for example, private residences, camps, apartment houses, churches, country clubs,

and farms and the legality of redelivery charges to the same kinds of locations where no notice is given to the receiver of an impending delivery. It was proposed that a new rule generally forbidding these charges be added to 49 CFR 1307, Subpart B. The rule was adopted and became effective August 14, 1977. The report is printed at 353 I.C.C. 689.

The regulations in Subpart B of Part 1307 govern the construction, filing, and posting of freight tariffs of motor common carriers and will be superseded by the regulations published in Part 1310. The regulations in Part 1310 were adopted in the proceeding in Docket No. 35867, Regulations, Construction, Filing, and Posting of Tariffs, 352 I.C.C. 36 and 355 I.C.C. 95 (42 FR 44236) and bear an effective date of October 5, 1977. To permit an orderly transition, carriers may file under either the old or new regulations during the first year.

It is therefore necessary to publish without change in Part 1310 the rule adopted in the proceeding in Ex Parte No. MC-97 to continue its effectiveness for tariffs filed under that part and to continue its effectiveness after the regulations in Subpart B of Part 1307 have been revoked.

This action is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

Accordingly, Part 1310 of Title 49 of the Code of Federal Regulations is amended by adding a new § 1310.15(e) reading as follows:

§ 1310.15 Terminal and special services—charges and allowances (rule 15).

(e) Assessment of charges on shipments originating at or destined to private residences and other types of premises. (1) Tariffs of for-hire motor common carriers shall not provide for the application of rates or the imposition of charges, by whatever means, for movements to or from, for example, private residences, apartments, churches, schools, camps, and other such locations, which differ from otherwise applicable rates from or to other locations such as businesses, warehouses, and other generally recognized commercial locations.

(2) Before attempting delivery to residences and other related types of premises such as those described in subparagraph (1) of this paragraph, the carrier must reach agreement with the consignee or consignor regarding the date and time (approximate) of such delivery. This arrangement for delivery may be accomplished through a notation by the consignor on the bill of lading, or by oral or written arrangement between the carrier and the consignee. In any case, some mutually agreed-upon arrangement for delivery must be made before tender of delivery is initially attempted.

(3) If the carrier complies with the regulation described in subparagraph (2) of this paragraph, and, through the fault of the consignee, is unable to ten-

der delivery as scheduled, a reasonable charge to cover the service described in subparagraph (2) of this paragraph and additional costs of the renitification, arrangement, and redelivery may be assessed. The requirements of subparagraph (2) of this paragraph regarding prior arrangement for tender of delivery are similarly applicable when redelivery is necessary.

Issued at Washington, D.C., September 29, 1977.

H. G. HOMME, JR.,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 20—MIGRATORY BIRD HUNTING

Late Seasons, Bag Limits, and Possession of Certain Migratory Game Birds in the United States; Correction

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Correction of final rule.

SUMMARY: This document corrects typographical errors in the seasons and bag limits for migratory bird hunting in Michigan, published by the Service on September 29, 1977.

EFFECTIVE DATE: October 7, 1977.

FOR FURTHER INFORMATION CONTACT:

John P. Rogers, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C., telephone 202-343-8827.

SUPPLEMENTARY INFORMATION: The amendments in this document correct typographical errors in the amendment to § 20.105(d) of Department of the Interior's regulations as published in the FEDERAL REGISTER at 42 FR 51587 on September 29, 1977 (FR Doc. 77-26723). This document was authorized by John P. Rogers, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C., telephone 202-343-8827.

50 CFR Part 20 is amended by revising § 20.105(d) as follows:

In the table for the Mississippi Flyway at page 51594, the portion pertaining to geese in Michigan that reads:

Geese, including no more than 1 Canada or 2 white-fronted or 1 of each.	5
North zone (zone 1)	Oct. 1 to Nov. 14
South zone:	Oct. 12 to Nov. 30
(Zone 2)	Oct. 1 to Nov. 30
(Zone 3)	Oct. 12 to Nov. 30
Including no more than:	
Canada geese	1
White-fronted geese	2
Canada and white-fronted geese combined	3
Snow (including blue) geese	5

is corrected to read:

Geese, including no more than 1 Canada or 2 white-fronted or 1 of each.	5
North zone (zone 1)	Oct. 1 to Nov. 14
South zone:	Oct. 1 to Nov. 30
(Zone 2)	Oct. 1 to Nov. 30
(Zone 3)	Oct. 12 to Nov. 30

ECONOMIC IMPACT REVIEW: The Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: October 4, 1977.

ROBERT S. COOK,
Acting Director, United States
Fish and Wildlife Service.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Energy

NOTE:—This document originally appeared at page 54205 in the FEDERAL REGISTER for October 5. It is reprinted in this issue to meet the assigned day-of-the-week publication schedule.

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment excepts from the competitive service under Schedule C fourteen policy making Executive Level V positions of Staff Officer who are to be used in various executive positions during the organization phase of the establishment of the Department of Energy and who will be assigned to more specific and definitively titled positions when the initial organizational phase of the establishment of the Department is completed.

EFFECTIVE DATE: October 5, 1977.

FOR FURTHER INFORMATION ON POSITION AUTHORITY CONTACT:

John W. McKee, Civil Service Commission, (202-632-4625).

FOR FURTHER INFORMATION ON POSITION CONTENT CONTACT:

Lloyd W. Grable, Director, Transition Personnel Office, Department of Energy, (202-376-4210).

Accordingly, 5 CFR 213.3331(a) (5) is added as set out below:

§ 213.3331 Department of Energy.

- (a) Office of the Secretary.
(5) Fourteen Staff Officers.

[6325-01]

PART 591—ALLOWANCES AND DIFFERENTIALS

Nonforeign Area Cost of Living Allowances

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: Revised cost of living allowance rates are published for Puerto Rico, the Virgin Islands, and Alaska (except Juneau) as a part of the Commission's annual review. Two allowance areas have been established for Puerto Rico: "San Juan Metropolitan Area" and "Outside San Juan". Results of a separate survey for Juneau will be announced later. Data supplied by agencies on rental costs of units under their control have been incorporated into the Federal housing indexes.

EFFECTIVE DATE: For Puerto Rico and the Virgin Islands, the effective date for the new allowance rates is the first pay period that begins on or after August 28, 1977.

For Alaska, the effective date for the new allowance rates is the first pay period that begins on or after September 25, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Carney, Civil Service Commission, 1900 E Street NW., Washington, D.C. 202-632-5595.

SUPPLEMENTARY INFORMATION: The Commission has completed its review of the cost of living allowances that are paid to eligible employees in Puerto Rico, the Virgin Islands, and Alaska.

Based on the survey findings, the Commission has decided to establish two allowance areas within the Commonwealth of Puerto Rico. One area will consist of the San Juan Standard Metropolitan Statistical Area and the allowance rates for that area will apply to all eligible employees whose official duty stations are within this Standard Metropolitan Statistical Area. The second area is identified as "Outside San Juan" and applies to eligible employees whose duty stations are outside the San Juan Area.

The results of the 1976 annual review for the State of Alaska do not include the Juneau area. It was necessary to conduct a separate survey of Juneau and as a result, the annual review findings for that location will be announced at a later date. Until that time, the 1975 index and allowance rate for Juneau will remain in effect.

There has been a procedural change initiated in collecting housing cost data on Federal housing units which has affected some Alaskan indexes. The Commission has requested agencies with these units under their control to provide cost data directly to the Commission. The change will increase the in-

formation available on Federal housing units.

As a result of this change, the rates for employees occupying Federal housing in Anchorage decreased significantly. As these downward adjustments stem from a procedural change and because they exceed five percentage points, the allowance rates will be reduced gradually. Downward adjustments will be in 2.5 percentage point increments each six months following the initial adjustment until the authorized allowance rate is reached.

This will result in adjustments as shown in the following example:

	Current allowance rate (percent)	New authorized rate (percent)
Local retail/Federal housing	25.0	17.5
Interim rates	22.5	20.0
	20.0	17.5

1 Sept. 25, 1977.
2 Apr. 1, 1978.
3 Oct. 1, 1978.

This change in procedure also resulted in an increase for the Commissary/PX/Federal Housing category in Fairbanks. The interim rates will no longer apply and the phase-down period for this category is terminated as of September 25, 1977.

Accordingly, 5 CFR 591, Appendix A of Subpart B, the tables for Puerto Rico, the Virgin Islands and Alaska except the Juneau Area are amended as set out below:

APPENDIX A OF SUBPART B, PLACES AND RATES AT WHICH ALLOWANCES SHALL BE PAID

Allowance category	1976 Index	Authorized allowance rate (percent)
Commonwealth of Puerto Rico		
San Juan Area: 1		
Local retail/private housing	113.4	12.5
Local retail/Federal housing	109.1	10.0
Commissary/PX/private housing	104.4	0
Commissary/PX/Federal housing	100.1	0
Commissary/PX/military housing	79.8	0
Outside San Juan Area:		
Local retail/private housing	105.4	5.0
Local retail/Federal housing	112.1	12.5
Commissary/PX/private housing	97.1	0
Commissary/PX/Federal housing	103.8	0
Commissary/PX/military housing	77.4	0
Virgin Islands		
St. Croix:		
Local retail/private housing	107.0	7.5
Local retail/Federal housing	97.3	0
Commissary/PX/private housing	(0)	0
Commissary/PX/Federal housing	84.3	0
Local retail/military housing		
St. Thomas and St. John:		
Local retail/private housing	108.6	7.5
Local retail/Federal housing	98.5	0
Commissary/PX/private housing	(0)	0
Commissary/PX/Federal housing	84.5	0
Local retail/military housing		

State of Alaska 4

City of Anchorage and 50-mile radius:		
Local retail/private housing	129.2	25.0
Local retail/Federal housing	116.9	17.5
Commissary/PX/private housing	117.6	17.5
Commissary/PX/Federal housing	105.3	5.0
Commissary/PX/military housing	86.2	0
City of Fairbanks and 50-mile radius:		
Local retail/private housing	146.3	25.0
Local retail/Federal housing	140.3	25.0
Commissary/PX/private housing	123.7	25.0
Commissary/PX/Federal housing	123.8	25.0
Commissary/PX/military housing	90.8	0
All other locations within Alaska, all employees	134.7	25.0

1 The "San Juan Area" is defined as the San Juan Standard Metropolitan Statistical Area. This area has been defined by the Office of Management and Budget to consist of the municipalities of Canowas, Lofra, Toca, Baja, Bayamon, Guaynabo, Carolina, Trujillo Alto, San Juan, and all localities included therein. Employees whose duty stations are located in this area will receive cost of living allowances based on the rates authorized for the "San Juan" area. All other employees will receive cost of living allowances based on the rates authorized for the "Outside San Juan" area.

2 For allowance areas in Puerto Rico, the Commissary/PX rates will apply to those employees who have such purchasing privileges and whose duty stations are located within a 50-mile radius by road from a major commissary/PX facility. Currently the only facilities in Puerto Rico which qualify as "major" are Fort Buchanan and Roosevelt Roads. All employees whose duty stations are outside this 50-mile radius will receive an allowance based on the appropriate local retail rate.

3 Where an index is "not applicable", the appropriate local retail index and rate apply depending on type of housing occupied.

4 The results of the 1976 annual review for the State of Alaska do not include the Juneau area. It was necessary to conduct a separate survey of Juneau and as a result, the annual review findings for that location will be announced at a later date. Until that time, the 1975 index and allowance rate for Juneau will remain in effect.

(5 U.S.C. 5941; E.O. 10,000 3 CFR 1943-1948 Comp., p. 792.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant
to the Commissioners.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 114; Lemon Reg. 113, Amt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action establishes the quantity of California-Arizona lemons that may be shipped to the fresh market during the period October 9-15, 1977, and increases the quantity of such lemons that may be so shipped during the period October 2-8, 1977. Such action is needed to provide for orderly marketing of fresh lemons for the periods specified due to the marketing situation confronting the lemon industry.

DATES: The regulation becomes effective October 9, 1977 and the amendment is effective for the period October 2-8, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, (202-447-3545).

SUPPLEMENTARY INFORMATION:

Findings. Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under this marketing order, and upon other information, it is found that the limitation of handling of lemons, as hereafter provided, will tend to effectuate the declared policy of the act.

The committee met on October 4, 1977, to consider supply and market conditions and other factors affecting the need for regulation, and recommended quantities of lemons deemed advisable to be handled during the specified weeks. The committee reports the demand for lemons is good on 140's and larger, easier on 165's and smaller.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation and amendment are based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting, and the amendment relieves restrictions on the handling of lemons. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 910.414 Lemon Regulation 314.

Order. (a) The quantity of lemons grown in California and Arizona which may be handled during the period October 9, 1977, through October 15, 1977, is established at 205,000 cartons.

(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.

§ 910.413 [Amended]

The provisions of paragraph (a) in § 910.413 Lemon Regulation 113 (42 FR 53593) is amended to read as follows: "The quantity of lemons grown in California and Arizona which may be handled during the period October 2, 1977, through October 8, 1977, is established at 240,000 cartons."

(Secs. 1-19, 48 Stat. 31, as amended; (7 U.S.C. 601-674).)

Dated: October 6, 1977.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc 77-29744 Filed 10-6-77, 11 32 am]

[3410-02]

[Avocado Reg. 19, Amend. 2]

PART 915—AVOCADOS GROWN IN SOUTH FLORIDA

Maturity Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Amendment to final rule.

SUMMARY: This amendment revises the maturity requirements for Booth 8 and Choquette varieties of avocados. Booth 8 avocados are maturing at lower minimum weights or smaller diameters and Choquette avocados are maturing about two weeks earlier than they currently can be shipped. Recently completed maturity studies on these avocados indicate they will be mature at the specified dates, minimum weights, or diameters. The maturity requirements are necessary because weight or diameter and picking dates are indices used at harvest to assure that avocados are mature and will ripen satisfactorily after picking.

EFFECTIVE DATE: October 3, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader (202-447-3545).

SUPPLEMENTARY INFORMATION: Findings. (1) Pursuant to the marketing agreement, and Order No. 915, both as amended (7 CFR Part 915), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Avocado Administrative Committee, established under the marketing order, and upon other available information, it is found that the maturity requirements for the handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication in the Federal Register (5 U.S.C. 553) in that the time intervening between the dates when information became available upon which this amend-

ment is based and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of the specified varieties of avocados.

Order. (1) The provisions of subparagraphs (a) (2) and (7) of § 915.319 (Avocado Regulation 19; 42 FR 27210 May 27, 1977) are amended by revising in Table I the dates applicable to the

Variety	Date	Minimum weight or diameter	Date	Minimum weight or diameter	Date	Minimum weight or diameter	Date
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Choquette	Oct. 3, 1977	24 oz. 1 1/8 in.	Oct. 17, 1977	26 oz. 3 3/8 in.	Oct. 31, 1977	16 oz. 3 3/8 in.	Nov. 14, 1977

(7) No handler shall handle (i) prior to September 12, 1977, any Booth 8 variety avocados, (ii) during the period September 12, 1977, through October 2, 1977, any Booth 8 variety avocados unless the individual fruit in each lot of such avocados weighs at least 16 ounces, or is at least 3 3/8 inches in diameter, or (iii) during the period October 3, 1977, through October 16, 1977, any Booth 8 variety avocados unless the individual fruit in each lot of such avocados weighs at least 12 ounces, or is at least 3 3/8 inches in diameter, or (iv) during the period October 17, 1977, through November 13, 1977, any Booth 8 variety avocados unless the individual fruit in each lot of such avocados weighs at least 10 ounces, or is at least 3 1/8 inches in diameter.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: September 30, 1977, to become effective October 3, 1977.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1435—SUGAR

Subpart—Price Support Payment Program for 1977-Crop Sugarbeets and Sugarcane

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to set forth the terms and conditions under which prices to domestic producers of 1977-crop sugarbeets and sugarcane will be supported, as announced September 15, 1977. Prices will be supported at average levels estimated to be equivalent to 52.5 percent of the parity prices for the commodities as of July 1977. Price

support for sugarbeets and sugarcane will be made through payments by the Commodity Credit Corporation (CCC) to sugar processors in an amount by which the national average market price received by processors (computed on a raw sugar price equivalent basis) is less than 13.5 cents per pound. Payments will be made upon the condition that processors pay producers no less than the applicable support price for the unprocessed commodities. Eligible processors will receive payments on the quantity of refined beet sugar or raw cane sugar marketed from the 1977 crop on or after the effective date of this rule.

§ 915.319 Avocado Regulation 19.

- (a)
(2)

support for sugarbeets and sugarcane will be made through payments by the Commodity Credit Corporation (CCC) to sugar processors in an amount by which the national average market price received by processors (computed on a raw sugar price equivalent basis) is less than 13.5 cents per pound. Payments will be made upon the condition that processors pay producers no less than the applicable support price for the unprocessed commodities. Eligible processors will receive payments on the quantity of refined beet sugar or raw cane sugar marketed from the 1977 crop on or after the effective date of this rule.

EFFECTIVE DATE: September 15, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert R. Stansberry, Jr., ASCS (202-447-7561 or 202-447-3517), P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: One June 14, 1977, a notice of proposed rulemaking was published in the Federal Register (42 FR 30409) announcing that the Secretary of Agriculture was considering the institution of a program to support prices in the marketplace for sugarbeet and sugarcane producers through payments made to sugar processors. A similar notice was also issued in a USDA press release. The proposal would have established a level of support of not more than 13.5 cents per pound, raw sugar equivalent, but would have limited payments to 2 cents per pound of sugar. Processors would have been required to pay producers the full amount of the support payments received, after deduction of actual administrative expenses incurred in fulfilling the program requirements. Subsequent to the date of this original proposal, the Secretary reaffirmed the Administration's commitment to assure domestic sugar producers a sugar price of 13.5 cents per pound. This announcement, in effect, lifted the 2-cent limitation placed on price support payments.

Comments were invited on the proposal and interested persons were given until July 14, 1977, to express their views. To afford additional time for

comment, the original comment period was first extended to August 1 and then to August 15 by issuance of USDA press releases. Notices of the two extensions were published in the Federal Register on July 22 (42 FR 37576) and August 9 (42 FR 40216), respectively.

The Department received nearly 200 written comments from consumers, corn sweetener processors, producers and processors in the domestic sugar-producing areas (the sugarbeet area and the sugarcane areas of Florida, Hawaii, Louisiana, Texas, and Puerto Rico), and various organizations representing or supporting these groups. About 40 respondents were opposed to any type of a subsidy program for the sugar industry. Most of the other respondents supported the Department's proposal to undertake a program which would assist sugarbeet and sugarcane producers and processors through the present period of low sugar prices, but very few supported the program as originally proposed. Many respondents recommended that the support payments not be limited, that the support level of 13.5 cents per pound of sugar be increased, and that processors be permitted to share in the program benefits. Others recommended that the support mechanism be through a restriction of sugar imports rather than through Government payments. Many of the various sugar processors and organizations representing sugarbeet and sugarcane producers which responded to the invitation for comments made substantive recommendations for improving the proposed program even though they were not in full support of the proposal.

Because of legal objections to the proposed payments program raised by several persons during the course of the comment period, the Secretary requested an opinion from the Deputy Attorney General at the U.S. Department of Justice as to whether the proposed program was authorized under section 301 of the Agricultural Act of 1949, as amended. On August 19, the Secretary released the opinion of the Deputy Attorney General in which it was concluded that the proposed program was unauthorized since there would be no distinction in substance between it and a program of direct payments to producers which, he held was not authorized under the Act.

The program has been modified to remove the limitation on the amount of payment which will be made and to provide that payments to the processors will be made only on the condition that processors pay producers not less than the announced level of price support. The Department of Justice has concluded that such a program would be authorized by Section 301 of the Agricultural Act of 1949, as amended.

All comments received were considered in connection with this final rule. Changes have been incorporated which meet most of the major objections to the program as originally proposed.

After giving careful consideration to the arguments of those opposing any type

of price support payment program, it has again been determined that it is in the best interest of the American people to institute such a program to help maintain a viable domestic sugar industry. The industry has been placed in even greater jeopardy since the original proposal to institute a program was made. Prices for raw sugar in the domestic market averaged only about 10.5 cents per pound during the period June through August, whereas the average price during the first five months of 1977 was 11.5 cents. In view of the fact that prices are considerably below the costs of production for even the most efficient producers and processors of sugar crops, it is believed that the institution of this program is essential to the economic well-being of our domestic sugar industry.

A substantial portion of the 1977 crop of sugarbeets and sugarcane is presently being harvested. In view of the time which will be required to implement the price support program for sugar provided for in the Food and Agriculture Act of 1977 (Pub. L. 95-113, effective October 1, 1977), it is essential that the announced program be placed in operation immediately to remain in effect until superseded by such program. Accordingly, it is hereby determined that compliance with any further notice of proposed rulemaking, public procedure, and 30-day effective date requirements of 5 U.S.C. 553 is impracticable and contrary to the public interest. An economic impact statement will be available by contacting John Stovall, Room 350, GHI Bldg., USDA, 20250.

Accordingly, Chapter XIV of Title 7 of the Code of Federal Regulations is amended by adding a new Part 1435—Sugar, to read as follows:

Subpart—Price Support Payment Program for 1977—Crop Sugarbeets and Sugarcane

Sec.	General.
1435.1	Administration.
1435.2	Definitions.
1435.3	Price support levels.
1435.4	Method of support.
1435.5	Eligibility for payment.
1435.6	Cooperative refiners.
1435.7	Computation of national average market price.
1435.8	Subterfuge.
1435.9	Setoffs and assignments.
1435.10	Appeals.
1435.11	Records and inspection thereof.
1435.12	False certifications.
1435.13	Forms.

AUTHORITY: The provisions of this subpart are issued under secs. 301-303 and 401 et seq. of the Agricultural Act of 1949, as amended (7 U.S.C. 1447 et seq., 1421 et seq.).

§ 1435.1 General.

This subpart sets forth the policies, procedures, and requirements governing price support for 1977-crop sugarbeets and sugarcane by the Commodity Credit Corporation (referred to in this subpart as "CCC"). The program shall remain in effect until all 1977-crop sugar has been marketed or another price support program for the 1977 crop supersedes this program.

§ 1435.2 Administration.

The program will be carried out by the Agricultural Stabilization and Conservation Service of the U.S. Department of Agriculture (referred to in this subpart as "ASCS") under the general supervision and direction of the Executive Vice President, CCC.

§ 1435.3 Definitions.

(a) "1977 crop" means sugarbeets and sugarcane, the substantial portion of which is harvested during the following periods:

Sugar producing area	Harvesting period
Sugarbeets:	
All States, excluding California and Arizona.	Sept.-Nov. 1977.
California, excluding southern area.	July 1977-June 1978.
Southern California.	Mar.-Aug. 1978.
Arizona, lowland area.	Apr.-Aug. 1978.
Arizona, upland area.	Sept. 1977-Jan. 1978.
Sugarcane:	
Florida	Oct. 1977-May 1978.
Louisiana	Oct. 1977-Jan. 1978.
Texas	Oct. 1977-May 1978.
Hawaii	Calendar year 1977.
Puerto Rico	Dec. 1977-July 1978.

¹ Southern California includes the counties of Imperial, San Diego, Riverside, Orange, San Bernardino, and that part of Los Angeles lying south of the San Gabriel Mountains.

(b) "Producer" means the owner of a portion or all of the sugarbeets or sugarcane, including share rent landowners, at the time of harvest and delivery to the processor.

(c) "Processor" means a person who processes sugarbeets into refined sugar or sugarcane into raw sugar.

(d) "Quantity of sugar marketed" means the pounds of refined beet sugar or cane sugar, raw value, marketed from the 1977 crop during the marketing period as provided herein. Refined beet sugar or raw cane sugar shall be deemed to have been marketed when delivered to the purchaser or to a carrier for delivery to the purchaser or when title otherwise passes to the purchaser or when sugar has been contracted and committed for future delivery, but only to the extent that gross proceeds are accounted to the seller; *Provided*, That where raw cane sugar processors market their sugar through a cooperatively-owned refiner, marketing shall not be deemed to have occurred until a sale of refined sugar is made by the cooperative.

(e) "Marketing period" means the period September 15, 1977, forward until all 1977 crop sugar has been marketed.

(f) "Gross proceeds" means (1) total receipts from the sales of refined beet sugar, F.O.B. factory, including price differentials for sugar sold in other than bulk form, less all allowances and discounts, and before any freight adjustment; or (2) total receipts from the sales of cane sugar, raw value, F.O.B. factory, less all allowances and discounts, and

before any insurance or freight adjustments.

(g) "Raw sugar price equivalent" means the percentage relationship of the average gross proceeds for refined beet sugar to the average gross proceeds for the sugar, raw value.

(h) "National average market price" means the price of sugar, raw value, computed by dividing gross proceeds, on a raw sugar price equivalent basis, received by all processors by the quantity of sugar, raw value, marketed by all processors during the marketing period.

(i) "Raw value" of any quantity of sugar means its equivalent in terms of ordinary commercial raw sugar testing ninety-six degrees by the polariscope.

(j) "Sugarbeets of average quality" means sugarbeets containing 15.44 percent sucrose.

(k) "Sugarcane of average quality" means (1) for Florida, sugarcane containing 14.01 percent sucrose in normal juice; and (2) for Louisiana, sugarcane containing 12.69 percent sucrose in normal juice of 78.18 percent purity.

(l) "Secretary" means the Secretary of Agriculture or an official who has been designated to act on his behalf.

§ 1435.4 Price support levels.

(a) Prices to domestic producers of sugarbeets and sugarcane will be supported during the 1977 crop at average levels estimated to be equivalent to 52.5 percent of the parity prices for sugarbeets and sugarcane as of July 1977.

(b)(1) For producers of sugarbeets, the general support price will be \$22.84 per net ton of sugarbeets of average quality.

(2) For producers of sugarcane in Florida, the general support price will be \$13.37 per net ton of sugarcane of average quality.

(3) For producers of sugarcane in Louisiana, the general support price will be \$15.90 per net ton of sugarcane of average quality.

(4) For producers of sugarcane in Texas, the general support price per net ton of sugarcane will be the amount determined by multiplying 8.10 cents times the average pounds of cane sugar, raw value, recovered per ton from the sugarcane delivered to the processor by all producers, as adjusted by the processor to reflect the quality of the juice (normal juice sucrose and normal juice purity) extracted from the individual producer's sugarcane.

(5) For producers of sugarcane in Hawaii, the general support price per net ton of sugarcane where the delivery point is at the mill will be the amount determined by multiplying 8.91 cents times the total pounds of cane sugar, raw value, recovered per ton from the sugarcane delivered to the processor by the individual producer.

(6) For producers of sugarcane in Puerto Rico, the general support price per net ton of sugarcane will be determined in accordance with the provisions of Puerto Rico Law No. 426—also known as the Puerto Rico Sugar Law—and the

rules issued thereunder by the Sugar Board of Puerto Rico:

Provided, however, That for any producing area where the specified support price is based on sugarbeets or sugarcane of average quality, that price may be adjusted for sugarbeets or sugarcane of non-average quality on the method agreed upon by the producer and processor, subject to prior approval of the Executive Vice President, CCC, or his designee.

(c) Nothing in paragraph (b) of this section shall be construed as prohibiting normal and traditional customs or practices agreed upon between the producer and processor with respect to the marketing of sugarbeets and sugarcane or the products processed therefrom. Any such custom or practice which would cause any reduction in the specified support price must be reported in writing by the processor to, and approved by, the Executive Vice President, CCC.

§ 1435.5 Method of support.

(a) *General.* The support to domestic producers of 1977-crop sugarbeets and sugarcane will be made available in accordance with the provisions of this subpart by means of payments to processors.

(b) *Coverage.* Payments will be made on refined beet sugar and cane sugar, raw value, marketed from the 1977 crop during the marketing period. Sugar of the 1977 crop shall be identified by the processor on the basis of his normal and traditional method of accounting, i.e., the "first-in first-out" rule or the "last-in first-out" rule. No change from the normal and traditional method of accounting shall be made by the processor.

(c) *Rate of payment.* The rate of payment for the marketing period will be the amount by which the national average market price received by processors for sugar marketed in that period is less than 13.5 cents per pound. No payment will be made if the national average market price received by processors is equal to or greater than 13.5 cents per pound.

(d) *Timing of payment.* Payment to processors will be made by CCC as soon as the information submitted in accordance with § 1435.6(d) is compiled, the national average market price is determined, and the CCC sight drafts are prepared.

§ 1435.6 Eligibility for payment.

Before any payment can be approved under this subpart, the following requirements must be met:

(a) Processor shall certify that producers will be paid no less than the applicable support price in accordance with § 1435.4. In the event that the contractual agreement, or normal and traditional method of settlement, between the processor and producer would require a payment greater than the support price, the processor shall be obligated to make such payment over and above the support price to the producer. The processor shall not be obligated to pay the producer any amount greater than the support price if the contractual agreement or

normal and traditional method of settlement would require a payment of an amount which is less than the support price.

(b) Processor shall submit a report no later than October 20, 1977, showing the quantity of sugar marketed and the gross proceeds received therefrom during the 12-month period July 1, 1976, through June 30, 1977.

(c) Processor shall submit a report no later than October 20, 1977, showing (1) the quantity of refined beet sugar or cane sugar, raw value, in inventory at the beginning of the 1977 crop harvest and (2) the quantity of 1977-crop sugar, if any, in inventory as of September 15, 1977.

(d) Processor shall submit a report, within 15 days after the end of the marketing period, showing the quantity of sugar marketed on or after September 15, 1977, from the 1977 crop and the gross proceeds received therefrom.

§ 1435.7 Cooperative refiners.

For the purposes of computing "gross proceeds" as used herein, a facility which refines raw cane sugar that is cooperatively owned by its raw cane sugar processors shall be allowed to deduct up to 8 percent from gross proceeds to the cooperative-member processors to reflect that portion of returns which can be attributed to their investment in the refining facility. Net non-patronage income shall also be excluded in determining gross proceeds.

§ 1435.8 Computation of national average market price.

(a) The quantity of sugar marketed and the gross proceeds received therefrom during the 12-month period ending June 30, 1977, as submitted by processors in accordance with § 1435.6(b), will provide the basis for converting gross proceeds received for refined beet sugar to a raw sugar price equivalent basis, except that those processors in Louisiana who are also refiners of raw cane sugar or specialty sugars will be omitted in the calculation of the national average market price. The percentage by which the average market price received for refined beet sugar exceeds the average market price received for cane sugar, raw value, will be computed.

(b) The determination of the national average market price for the marketing period will be computed on the basis of information received from processors on the quantity of sugar marketed and the gross proceeds received therefrom during the marketing period as provided in accordance with § 1435.6(d). The computation will be as follows: (1) The percentage determined in accordance with paragraph (a) of this section will be used to reduce the gross proceeds received for refined beet sugar to a raw sugar price equivalent basis; (2) the gross proceeds received for refined beet sugar, after conversion to a raw sugar price equivalent basis, will be added to the gross proceeds received for cane sugar, raw value; (3) the total quantity

of refined beet sugar marketed will be converted to a raw value by multiplying the quantity by 1.07; and (4) the total gross proceeds will be divided by the total quantity of sugar, raw value, marketed to obtain the national average market price.

§ 1435.9 Subterfuge.

The processor shall not reduce returns to the producer below those determined in accordance with the requirements of this subpart through any subterfuge or device whatsoever.

§ 1435.10 Setoffs and assignments.

(a) *Processor indebtedness.* The regulations issued by the Secretary governing setoffs and withholding, Part 13 of this title, shall be applicable to the program.

(b) *Assignments.* Payments may be assigned only to the Farmers Home Administration in accordance with the regulations in Part 709 of this title.

§ 1435.11 Appeals.

A producer or processor may obtain reconsideration and review of determinations made under this subpart in accordance with the regulations in Part 780 of this title.

§ 1435.12 Records and inspection thereof.

ASCS shall reserve the right to have access to the premises of the processor, in order to inspect, examine, and make copies of the books, records, accounts, and other written data used in furnishing reports required by this subpart.

§ 1435.13 False certifications.

Any false certification which is made for the purpose of enabling a processor to obtain any payment to which he is not entitled, will subject the processor making such certification to liability under applicable Federal civil and criminal statutes.

§ 1435.14 Forms.

Processors shall submit the reports required by this subpart on Form SU-1, "Sugar Processor Certifications," to the Executive Vice President, CCC.

NOTE.—The ASCS, to meet the requirements of the National Environmental Policy Act (Pub. L. 91-190, 42 U.S.C. 4321 et seq.), has developed an environmental assessment on the program and has determined that the proposed action would not constitute a major Federal action significantly affecting the human environment.

NOTE.—It is hereby certified that the economic effects of this action have been carefully evaluated in accordance with Executive Order 11921 and OMB Circular A-107.

Signed at Washington, D.C. on October 4, 1977.

BOB BERGLAND,
Secretary.

PART 1446—PEANUTS

Subpart—1977 Crop Peanut Warehouse Storage Loan Supplement

AGENCY: Commodity Credit Corporation, U.S. Department of Agriculture.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to set forth (1) the national average level of support, (2) support values by type, (3) kernel value for each percent sound mature and sound split kernels for each type, (4) the support price for each percent of other kernels, (5) the value of loose shelled kernels, (6) the damaged kernel, sound split kernel and foreign material discounts, (7) location adjustments, and (8) marketing procedure for peanuts containing *Aspergillus flavus* mold. This final rule is needed to make price support available to producers on 1977-crop peanuts.

EFFECTIVE DATE: Effective for all 1977 crop peanuts marketed during the 1977 peanut marketing year.

FOR FURTHER INFORMATION CONTACT:

Dallas R. Smith (ASCS) (202-447-7405).

SUPPLEMENTARY INFORMATION: The present regulations, to which these changes are made were published in the FEDERAL REGISTER on July 15, 1974 (39 FR 25949) and are entitled "General Regulations Governing 1974 and Subsequent Crop Peanut Warehouse Storage Loans". The new regulations are a 1977 crop supplement to the general regulations and include operating provisions necessary to carry out the program.

The historical objective of price support differentials has been to offer to eligible producers a price support level by type and quality that is representative of the market value of that type and quality of peanut. In addition, the support level for each type and quality is required by law to be established at levels which will provide an average support on all types at not less than the minimum national average support level.

In recent years, the national average price support has risen dramatically and has determined the market value. The Department has attempted to set support levels for each type in order that they can be marketed, processed, and utilized on equal terms.

This requires that the Department review annually the relationship of the various types of peanuts, taking into consideration the views and opinions of producers, shellers, manufacturers, and consumers. The "uniform kernel pricing" concept, which was in effect for the years 1971-1975, was agreed upon by industry

leaders and the Department after such a review. The sound mature kernel (SMK) value for Virginias was 3.9 cents higher than Runners and Spanish—which were equal. The introduction of a new variety of Virginia type in the early 1960's started an increase in the production of the Virginia type peanut from 384,000 to 533,000 tons, without any corresponding increases in use. This resulted in a substantial increase in surplus stocks of Virginia type by 1970.

The "uniform kernel pricing" concept solved the problem of surpluses of Virginia type; it provided that each type be marketed, processed, and utilized on equal terms. However, in 1971, a new variety of the Runner type peanut was introduced with yield and kernel characteristics that altered the relationship of the various types, as had the new Virginia variety earlier. Runners soon came into surplus supply. This indicated that another change in price support was necessary.

On May 17, 1977, a notice of proposed rulemaking entitled "Determination of Price Support Levels by Type of Peanuts" was published in the FEDERAL REGISTER (42 FR 25329). This notice announced that the Department was preparing to make determinations and issue regulations concerning a loan and purchase program for the 1977 crop of peanuts; invited the public to submit written comments; and scheduled a public meeting for June 9 to receive oral comments. The Secretary in a press release on May 13 appealed to the industry to come to this meeting with a unified position to aid the Department in making the final price determination.

The written comment period ended July 5. There were 33 responses, eleven from manufacturers of peanut products; six from shellers; five from farmer groups; three each from sheller associations and cooperative marketing associations; two from farmers; and one each from a State Department of Agriculture, a consultant, and a State Commodity Commission.

Commentators from the Southeast area proposed that the sound mature kernel (SMK) value per percent of the Runner type be lowered in relation to the Virginia and Spanish type. Commentators from the Virginia-Carolina and Southwest areas proposed that the SMK values per percent for Runner and Spanish types be the same, and that the SMK values for Virginia type be 3.9 cents per percent higher.

Other comments concerned continued contracting with grower associations by CCC, requiring separate inspection certificates for each trailer load of peanuts, and requiring that each load of farmer stock peanuts be weighed before inspection.

The public meeting was held on June 9, at which time industry representatives indicated that no unified industry posi-

tion could be reached. The previous conflicting positions were strictly adhered to by the representatives from the respective production areas.

The Southeastern area representatives recommended differential levels equivalent to a 5 percent increase in SMK values on Virginia and a 2½ percent increase in SMK values on Spanish over the SMK value for the Runner type peanut. This recommendation carried a high risk of loss to CCC because of the possibility of forcing Virginia and Spanish into surplus and also causing substantial damage to market relationships that had developed over a long period of time.

The Southwest and Virginia-Carolina areas maintained their position in support of the "uniform kernel pricing" concept, although for different reasons. Their recommendation was to establish the support level for sound mature kernels using the "uniform kernel pricing" method.

As a result of litigation involving the 1976 crop peanut differentials the Department did not use "uniform kernel pricing" for that crop. However, in order to restore the equitable relationship in effect when "uniform kernel pricing" formula was first introduced in 1971, some change from 1975 crop differentials was again necessary in 1977.

Therefore, a moderate change from 1975 is being adopted for the 1977 crop of peanuts. The differentials being adopted are the SMK value of Virginias, 2 percent, and Spanish, one-half percent, above the SMK value of Runners. The Department has relied on monthly price quotations between shellers and manufacturers for selected grades of the different types as indications that the 2 percent and one-half percent differentials would again assure that each type would be marketed, processed and utilized on equal terms.

For the 1977 crop of farmers stock peanuts, §§ 1446.8 through 1446.13 of Title 7 and the title of the subpart are hereby amended to read as provided below. The material previously appearing in §§ 1446.8 through 1446.13 shall remain in full force and effect as to the crops to which it is applicable.

Subpart—1977 Crop Peanuts Warehouse Storage Loan Supplement

Sec. 1446.8	Associations through which producers may obtain price support.
1446.9	Applicability.
1446.10	National average support value.
1446.11	Average support value by type.
1446.12	Calculation of support values.
1446.13	Peanuts containing mold.

AUTHORITY: Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); secs. 101, 401, 63 Stat. 1051, as amended (7 U.S.C. 1441, 1421).

Subpart—1977 Crop Peanuts Warehouse Storage Loan Supplement

§ 1446.8 Association through which producer may obtain price support.

Eligible producers may obtain price support by means of warehouse storage loans on eligible 1977 crop farmers stock peanuts through, in the Southeastern

area, GFA Peanut Association, Camilla, Ga.; Southwestern area, Southwestern Peanut Growers' Association, Gorman, Tex.; and Virginia-Carolina area, Peanut Growers Cooperative Marketing Association, Franklin, Va.

§ 1446.9 Applicability.

The support prices specified in this subpart apply to 1977 crop farmers stock peanuts in bulk or in bags, net weight basis, eligible for price support advances under the General Regulations.

§ 1446.10 National average support value.

The national average support value for 1977 crop peanuts is \$430.50 per ton.

§ 1446.11 Average support values by type.

The support values by type per average grade ton of 1977 crop peanuts are:

Type:	Per ton
Virginia	\$429.62
Runner	433.09
Spanish	417.05
Valencia, in the Southwest area suitable for cleaning or roasting	429.62

The price for all Valencia type peanuts in the Southeast and Virginia-Carolina areas and those in the Southwest area which are not suitable for cleaning and roasting will be the same as for Spanish type peanuts in the same area.

§ 1446.12 Calculation of support values.

The support value per ton for 1977 crop peanuts of a particular type and quality shall be calculated on the basis of the following rates, premiums, and discounts (with no value being assigned to damaged kernels), except that the minimum support value for any lot of eligible peanuts of any type shall be 8 cents per pound of kernels in the lot:

(a) *Kernel value per net ton excluding loose shelled kernels.* (1) Price for each percent of sound mature and sound split kernels shall be:

Type:	Per ton
Virginia	\$6.158
Runner	6.037
Spanish	6.067
Valencia:	
Southwest area—suitable for cleaning and roasting	6.537
Southwest area—not suitable for cleaning and roasting	6.067
Areas other than Southwest	6.067

(2) Price for each percent of other kernels:

	Per ton
All types-----	\$1.40

(3) Premium for each 1 percent extra large kernels in Virginia type peanuts shall be 45 cents, except that no premium shall be applicable to any lot of such peanuts containing more than 4 percent damaged kernels.

(b) *Value of loose shelled kernels per pound.*

	Per pound
All types.....	\$0.

(c) *Foreign material discount.* The discount for each full 1 percent foreign material in excess of 4 percent and not over 10 percent shall be \$1 per ton.

(d) *Sound split kernel discount.* For all types of peanuts, the discount per ton for sound split kernels shall be as follows:

Peanuts containing sound split kernels of:	Discount
1 through 4 pct.	None
5 pct.	\$1.00
6 pct.	1.60

Plus 80 cents for each percent of sound split kernels in excess of 6 percent.

(e) *Damaged kernel discount.* For all types of peanuts, the discount per ton for damaged kernels shall be as follows:

Peanuts containing damaged kernels of:	Discount
1 pct.	None
2 pct.	\$3.40
3 pct.	7.00
4 pct.	11.00
5 pct.	25.00
6 pct.	40.00
7 pct.	60.00
8-9 pct.	80.00
10 pct and over	100.00

(f) *Price adjustment for peanuts sampled with other than a pneumatic sampler.* The support price for Virginia type peanuts sampled with other than a pneumatic sampler shall be reduced by \$0.10 per percent sound mature and sound split kernels.

(g) *Mixed type discount.* Individual lots of farmer stock peanuts containing mixtures of two or more types in which there is less than 90 percent of any one type will be supported at a rate which is \$10 per ton less than the support price applicable to the type in the mixture having the lowest support price.

(h) *Location adjustments to support prices.* Farmers stock peanuts delivered to the association for price support advances in the States specified, where peanuts are not customarily shelled or crushed, shall be discounted as follows:

	Per ton
(1) Arizona	\$25
(2) Arkansas	10
(3) California	33
(4) Louisiana	7
(5) Mississippi	10
(6) Missouri	10
(7) Tennessee	25

(i) *Virginia type peanuts.* Virginia type peanuts, to receive peanut price support as Virginia type, must contain 40 percent or more "fancy" size peanuts, as determined by a presizer with the rollers set at 3¼ inch space. Virginia type peanuts so determined to contain less than 40 percent "fancy" size peanuts will be supported (but not classed) as though they were runner type.

(j) *Deduction for storage, handling and inspection.* For all types of peanuts, a deduction of \$20 per net ton will be made from the price support value to cover cost of storage, handling and inspection.

§ 1446.13 Peanuts containing mold.

(a) *Background.* Peanuts, as they are marketed, are inspected by the Federal-

State Inspection Service for visible *Aspergillus flavus* mold, a mold known to produce toxins. As provided in § 1446.7 (7), peanuts containing such mold are not eligible for price support. It is essential that stocks of peanuts which are sold for commercial purposes remain free from contamination by peanuts containing *Aspergillus flavus* mold. The adverse effect on the market for peanuts which would result from seizure or other Governmental action with respect to contaminated peanuts is readily apparent. The associations designated in § 1446.8 and parties to the Peanut Marketing Agreement are subject to strict limitations upon their marketing of peanuts which contain such mold. Therefore, as a condition to his eligibility for price support, the producer shall dispose of any lot of peanuts found by the Federal-State Inspection Service to have visible *Aspergillus flavus* mold therein referred to as "any affected lot" in the manner prescribed in paragraph (b) of this section.

(b) *Disposition of affected peanuts.* The producer shall either (1) at the point of first inspection, sell any affected lot to a signer of the Peanut Marketing Agreement or turn it over to the Association for marketing on his behalf, or (2) reclean any affected lot, or have it recleaned, for the purpose of removing loose shelled kernels and foreign material. If the producer elects to reclean the affected lot, or to have it recleaned, he will be given a copy of the Inspection Certificate and Sales Memorandum, Form MQ-94, which will show that visible mold was found. The producer shall return such copy, along with the affected lot it represents, to an inspector for a second inspection by the close of business on the next workday following the initial inspection. If visible mold is, upon second inspection, again found in the lot, the producer shall, at the point of second inspection, either sell the affected lot to a signer of the Peanut Marketing Agreement or turn it over to the Association for marketing on his behalf.

(c) *Liquidated damages.* In view of the circumstances set forth in paragraph (a) of this section, CCC may incur substantial damages to its program to support the price of peanuts if peanuts containing *Aspergillus flavus* mold are disposed of other than in accordance with the provisions of paragraph (b) of this section. The amount of such damages is difficult, if not impossible, to ascertain exactly. Therefore, the producer shall, with respect to any lot of peanuts ineligible for price support pursuant to § 1446.7(7) which is placed under price support, or any lot of peanuts which is placed under price support by a producer after he has disposed of any affected lot other than in the manner prescribed in paragraph (b) of this section, pay to CCC as liquidated damages and not as a penalty, seven cents (\$0.07) per net weight pound of such peanuts. The provisions of § 1446.4(b) relating to the producer's liability (aside from liability under criminal and civil frauds statutes) shall not be applicable to such peanuts.

Signed at Washington, D.C., on September 30, 1977.

RAY FITZGERALD,
Executive Vice President,
Commodity Credit Corporation.

CHAPTER XXVIII—FOOD SAFETY AND QUALITY SERVICE STANDARDS, INSPECTION, MARKETING, PRACTICES, DEPARTMENT OF AGRICULTURE

PART 2852—PROCESSED FRUITS, VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—Regulations Governing Inspection and Certification of Processed Fruits and Vegetables

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Final rule.

SUMMARY: This document adjusts the rates charged for inspection services to reflect recently announced Federal Employees' salary increase.

EFFECTIVE DATE: October 9, 1977.

FOR FURTHER INFORMATION CONTACT:

E. C. Williams, Chief, Processed Products Branch, Fruit and Vegetable Quality Division, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202-447-4693).

SUPPLEMENTARY INFORMATION: The Agricultural Marketing Act of 1946 authorizes official inspection and certification of processed fruits, vegetables, processed products thereof, and certain other processed food products. Such inspection and certification is voluntary and is made available upon request of financially interested parties and upon payment of a fee. The Act requires such fees to be reasonable and, as nearly as possible, to cover the cost of rendering the service.

The rising costs of maintaining the inspection service has made it necessary to adjust inspection fees. These adjustments will compensate for 1977 increases in Government employee salaries as authorized by Congress, as well as increased personnel benefits resulting therefrom.

Accordingly, Sections 2852.42 and 2852.52—schedule of fees and charges for inspection services on a contract basis—are being revised to recover the increased costs.

Pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., as amended; 7 U.S.C. 1621-1627), §§ 2852.42 and 2852.52(c) (1) and (2); and (d) (1) are hereby amended to read as follows:

§ 2852.42 Schedule of fees.

Unless otherwise provided in a written agreement between the applicant and the Administrator, the fee for any inspection service performed under the

regulations in this part, including analyses specified in Section 2852.47, shall be at the rate of \$19.75 per hour plus an additional \$5.00 per hour for all scheduled overtime hours.

§ 2852.52 Charges for inspection service on a contract basis.

(c) Charges for year-round in-plant inspection service on a contract basis will be billed to the applicant at least once each 28 days for all hours worked with a minimum of 40 hours per week, holiday pay and night differential for each inspector assigned to perform the inspection services in accordance with the following schedules:

(1) For personnel assigned on a year-round basis:

Each inspector, \$15.30 per hour.

(2) For personnel assigned on less than a year-round basis:

Each inspector, \$17.50 per hour.

Each subordinate inspector on the same shift with an inspector, \$12.95 per hour.

(d) Charges for less than year-round in-plant inspection services on a contract basis will be billed to the applicant at least once each 28 days for all hours with a minimum of 40 hours per week, holiday pay and night differential for each inspector assigned to perform the inspection services in accordance with the following schedules:

(1) Each inspector, \$22.00 per hour.

Notice of proposed rulemaking, public procedure thereon, and the postponement of the effective time of this action later than October 9, 1977, (5 U.S.C. 553), are impracticable, unnecessary, and contrary to the public interest in that (1) the Agricultural Marketing Act of 1946 provides that the fees charged shall be reasonable and, as nearly as possible, cover the cost of the service rendered, (2) the increases in fee rates set forth herein are necessary to more nearly cover such cost including, but not limited to, Federal employee salary adjustments, and (3) additional time is not required by the user of the inspection service to comply with the amendment.

(Secs. 203, 205, 60 Stat. 1087, as amended, 1090, as amended, (7 U.S.C. 1622, 1624).)

Dated to become effective at 12:01 a.m., October 9, 1977.

NOTE.—The Food Safety and Quality Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: September 29, 1977.

ROBERT ANGILOTTI,
Administrator, Food
Safety and Quality Service.

[FR Doc. 77-29506 Filed 10-6-77; 8:45 am]

[3410-37]

PART 2851—FRESH FRUITS, VEGETABLES, AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

Subpart—United States Standards for Grades of Potatoes for Chipping¹

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Final rule.

SUMMARY: This rule represents new voluntary U.S. Standards for Grades of Potatoes for Chipping which were developed at the request of industry and are intended to provide a basis for developing more uniform trading practices.

EFFECTIVE DATE: January 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank J. McNeal, Fresh Products Branch, Fruit and Vegetable Quality Division, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250 (202-447-2185).

SUPPLEMENTARY INFORMATION: Potatoes, a major farm crop, are grown commercially in every State in the country. Recently published figures indicate that the farm value is in excess of a billion dollars and that potatoes contribute significantly to the national economy. The production and marketing of this crop is a highly competitive and specialized business that has to contend with the persistent problem of relatively inelastic demand and variable supply. Currently, in excess of fifty percent of the production of potatoes is used in the manufacture of processed products. Approximately ten percent is used in the manufacture of potato chips.

The production of potatoes for chipping purposes requires special production and handling measures not commonly experienced in the production and marketing of potatoes for fresh consumption. Often relatively long distances separate the producer and the manufacturer which may bring about product changes or deterioration. This is compounded in many cases by the special conditioning required that could substantially affect the chipping quality of the potatoes. In addition to the inherent industry problems, contractual arrangements lacking in uniform trading standards have been the subject of much discussion and disagreement on the part of concerned parties. As a result of these discussions, it was recognized by the industry that uniform trading standards

¹ Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act, or with applicable State Laws and regulations.

could play a substantial part in promoting a more orderly basis for doing business.

Chip manufacturers have for years purchased potatoes on the basis of the U.S. Standards for Grades of Potatoes either U.S. No. 1, a percentage of U.S. No. 1 quality or U.S. Commercial grade, plus size, specific gravity and "satisfactory chipping quality" requirements. This latter requirement has been very controversial.

In 1973 a Joint Liaison Committee consisting of members of the National Potato Council and Potato Chip Institute International, hereinafter referred to as the Joint-Committee, met to develop a uniform potato purchasing format for use in grower-chipper contracts.

In March of 1974, after a year of discussions, the Joint-Committee formally requested the U.S. Department of Agriculture to conduct investigations leading to the development of U.S. Standards for Grades of Potatoes for Chipping. Department Standardization Specialists met with the Joint-Committee and presented a "Plan of Action" to be taken by the Department in developing the new standards using the Committee's glossary of terms and tolerances whenever possible.

In July 1974 a comprehensive report from a Departmental study team, initiated by the Secretary of Agriculture, titled "Report of the Potato Processing Study Group" was released. This report recommended that the Department work with growers, processors, and researchers to develop acceptable grade standards, testing procedures, and methods for arbitrating disagreements regarding potatoes delivered under chip contracts.

In December 1974 a study draft was widely distributed to individuals, groups and organizations of potato growers and chip manufacturers with the period of comment to end June 30, 1975. Potato Chip Institute International, in order to adequately inform its membership about the proposed grade standards, requested that a revised edition of the study draft be issued with a period of comment ending June 30, 1976. Their request was acknowledged and a revised study draft consolidating comments and recommendations from growers and chippers was issued and a comprehensive instructional program was initiated.

Departmental personnel explained the study draft proposal at four regional meetings, annual meetings of National and State potato organizations and NPC-PCII co-sponsored grower-chipper seminars held throughout the country. At their annual meeting, the Potato Chip/ Snack Food Association (formerly Potato Chip Institute International) voted unanimously to oppose the revised study draft. During this time many producers' bargaining committees and chippers incorporated parts of the proposal in their contracts. The Department has inspected some shipments on the basis of the proposal.

On August 6, 1976 a notice of proposed rulemaking was published in the *Federal Register* (41 FR 32896), regarding the issuance of U.S. Standards for Grades of Potatoes for Chipping, under Chapter I, Part 51 which has been changed to Chapter XXVIII, Part 2851 by a rule effective June 27, 1977, establishing a new Chapter for the Food Safety and Quality Service in the Code of Federal Regulations. Interested persons were given until February 1, 1977, to submit written data, views, or arguments regarding the proposed standards. Following publication, copies were widely distributed to individuals and to groups and organizations of potato growers, shippers, brokers, consumers, and processors.

Departmental representatives again discussed and explained the proposed standards at the annual meetings of the National Potato Council, Michigan Potato Commission, Rhode Island Potato Growers, New York Empire State Potato Club, and with many other organizations made up of growers, shippers, brokers, and processors. Also, information concerning the proposal was carried in newspapers and trade publications. In all instances it was pointed out that use of U.S. grade standards and official grading services is voluntary.

During the period for comment more than 560 letters of comment were received in response to the proposal. Nearly two-thirds of the comments received expressed approval of the proposal to establish grade standards. Most of these were from growers expressing a variety of reasons for having standards, including use by industry as a reference point; to serve as a stabilizing factor; to help decrease late payments; to discourage processors from rejecting lots; to improve the over-all marketing of potatoes; to provide a uniform basis for settling claims; and to serve as a basis for drawing up delivery contracts. Most of the favorable comments concur with previous findings and recommendations that grade standards be developed.

Other favorable comments mentioned optional positive color determination, an objective method of determining defects, increased tolerances more in line with present contract requirements, and no increase of waste to inflate cost to consumers.

Potato chip manufacturers, in general, expressed complete disapproval of the proposal to establish grade standards. In their opinion, use of the standards could become mandatory, the proposed standards represent a new and unnecessary regulation, they would create substantial and costly confusion within the industry and would involve government interference in private industry. Some growers commented that they were satisfied with current contractual arrangements with chippers and saw no need for any mandatory regulations.

The foregoing objections are believed to be lacking in substance. These grade standards are not a regulation nor would they become mandatory. They are issued under authority of the Agricultural Marketing Act of 1946, which provides for the issuance of U.S. grades to designate different levels of quality for the voluntary use of producers, buyers, and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such service.

These grade standards would apply to many varieties of potatoes produced under widely varying soil and climatic conditions at different seasons of the year and would provide a basis for developing a sound and satisfactory purchasing system. The standards would provide uniform objective methods for determining product quality.

The fresh produce industry has recognized that the first step required to eliminate confusion and bring about more efficient and orderly marketing is to have uniform trading standards. As a result, the Department in cooperation with industry has developed, over 50 years, grade standards covering some 82 fresh commodities.

The Department recognizes the complexity of the situation and it is inevitable that there will be differences of opinion among growers and chip manufacturers over the necessity of establishing grade standards; however, it is the responsibility of the Department to provide voluntary grade standards which it believes could be useful to the industry and consumers.

Final issuance of the grade standards was, in part, delayed in an attempt to develop, in cooperation with industry, a five plate color chart which was referenced in the proposal. As it was not possible to resolve differences of opinion in the choice of specific fry colors, the reference to the visual color chart is deleted from Section 2851-4578 "Optional Test For Fry Color" subparagraph (b) (1). However, the index for fry color determination by means of photoelectric color meters has been retained. Only minor adjustments are made in the numerical indices in addition to the establishment of a, unless otherwise specified, minimum readout fry color index.

Changes in the text from the published proposal are: (1) deletion of references to the five-color chip chart; (2) establishment of a, unless otherwise specified, minimum fry color readout values; (3) lowering of each Agtron Index numerical value range by 5 points and elimination of value overlap; and (4) when visual determination of color is requested, not more than 10 percent of the slices may be darker than a specified fry color.

After consideration of all relevant matters presented by interested persons, and since these grade standards are not a regulation and would not become mandatory, the following United States Standards for Grades of Potatoes for Chipping are hereby promulgated pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621-1627).

ant to the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621-1627).

2851.4576 U.S. No. 2 Potatoes for Chipping.

2851.4577 Size.

OPTIONAL TESTS FOR SPECIFIC GRAVITY AND FRY COLOR

2851.4578 Optional tests for specific gravity and fry color.

APPLICATION OF STANDARDS

2851.4579 Application of Standards.

SAMPLES FOR GRADE AND SIZE DETERMINATIONS

2851.4580 Samples for grade and size determination.

DEFINITIONS

2851.4581 Similar varietal characteristics.

2851.4582 Firm.

2851.4583 Fairly firm.

2851.4584 Fairly clean.

2851.4585 Seriously damaged by dirt.

2851.4586 Fairly well shaped.

2851.4587 Seriously misshapen.

2851.4588 Soft rot or wet breakdown.

2851.4589 Sprouts.

2851.4590 Foreign or extraneous material.

2851.4591 Damage.

2851.4592 Serious damage.

2851.4593 External defects.

2851.4594 Internal defects.

AUTHORITY: Agricultural Marketing Act of 1946 Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

GRADES

§ 2851.4575 U.S. No. 1 Potatoes for Chipping.

"U.S. No. 1 Potatoes for Chipping" consists of potatoes which meet the following requirements:

(a) Basic requirements: (1) similar varietal characteristics; (2) firm; (3) fairly clean; (4) fairly well shaped.

(b) Free from: (1) freezing; (2) blackheart; (3) late blight tuber rot; (4) southern bacterial wilt; (5) bacterial ring rot; (6) nuts of nut sedge; (7) tuber moth injury; (8) soft rot and wet breakdown.

(c) Free from damage by any other cause.

(d) Size. Not less than 1 1/4 inches (47.7 mm) in diameter, unless otherwise specified. See § 2851.4577.

(e) For tolerances see § 2851.4579.

§ 2851.4576 U.S. No. 2 Potatoes for Chipping.

"U.S. No. 2 Potatoes for Chipping" consists of potatoes which meet the following requirements:

(a) Basic requirements: (1) similar varietal characteristics; (2) fairly firm; (3) not seriously damaged by dirt; (4) not seriously misshapen.

(b) Free from: (1) freezing; (2) blackheart; (3) late blight tuber rot; (4) southern bacterial wilt; (5) bacterial ring rot; (6) nuts of nut sedge; (7) tuber moth injury; (8) soft rot and wet breakdown.

(c) Free from serious damage by any other cause.

(d) Size. Not less than 1 1/4 inches (44.5 mm) in diameter, unless otherwise specified. See § 2851.4577.

(e) For tolerances see § 2851.4579.

SIZE

§ 2851.4577 Size.

(a) The minimum size, maximum size or range in size may be specified in connection with the grade in terms of diameter or weight of the potato, or in accordance with one of the size classifications given in the following table:

TABLE I

Size classification	Minimum diameter ¹	Maximum diameter ¹ or weight ²
A ³	1 1/4 in (47.7 mm) ..	16 oz (453.6g).
B.....	1 1/2 in (38.1 mm) ..	2 1/4 in (57.2 mm).
Small.....	1 3/4 in (44.5 mm) ..	2 1/2 in (63.5 mm).

¹ Diameter means the size designation in terms of inches or 8ths of an inch indicating the greatest dimension at right angles to the longitudinal axis, without regard to the position of the stem end.

² Weight means the size designation in terms of whole ounces indicating the minimum weight of the potato. For example, a potato having a designation of 10 oz (283.50 g) is one which weighs at least 10 oz (283.50 g) but less than 11 oz (311.85 g).

³ In addition to the minimum size specified, a lot of potatoes designated as size A shall contain at least 40 pct of potatoes which are 2 1/2 in (63.5 mm) in diameter or larger or 6 oz (170.10 g) in weight or larger.

OPTIONAL TESTS FOR SPECIFIC GRAVITY AND FRY COLOR

§ 2851.4578 Optional tests for Specific gravity and fry color.¹

Tests to determine specific gravity and fry color shall be made in accordance with the procedures set forth in this section. The potatoes used for such determinations shall be taken at random from a composite sample drawn from containers throughout a load, or a comparable sample from a bulk load or storage bin.

(a) *Optional test for specific gravity.* Specific gravity shall be determined by either hydrometer, or by calculation from the weights of the sample in air and in water, with equipment which has been tested and calibrated to give accurate results. The reading obtained from each specific gravity test shall be corrected for temperature variations as prescribed by Table II of this section. The specific gravity for any lot of potatoes shall be the average of at least 3 such corrected readings on separate tests from the composite sample.

(1) *Temperature correction.* The pulp temperature of the potatoes and the temperature of water shall be recorded immediately before testing and the specific gravity reading corrected as indicated in the following table:

¹ Whenever proper testing equipment is not available for official use at point of inspection or at the local field office of the Fresh Fruit and Vegetable Inspection Service, optional testing for specific gravity or fry color shall be performed by the Inspection Service at one of the following USDA Fresh Inspection Offices: Room 2052, S. Building, Washington, D.C. 20250; Room 1160, 610 South Canal St., Chicago, Ill. 60607 or, Appraisers Building, Room 739, 630 Sansome St., San Francisco, Calif. 94111.

RULES AND REGULATIONS

TABLE II.—Correction factors for specific gravity of potatoes¹
(Corrected to zero of 50° F tuber temperature and 50° F water temperature)

Tuber temperature	Water temperature (degrees Fahrenheit)									
	35°	40°	45°	50°	55°	60°	65°	70°	75°	80°
35°	-0.0021	-0.0020	-0.0018	-0.0015	-0.0010	-0.0003	-0.0002	-0.0003	-0.0007	-0.0006

45°	-0.0013	-0.0012	-0.0010	-0.0007	-0.0002	0.0000	0.0000	-0.0001	-0.0005	-0.0004
50°	-0.0009	-0.0008	-0.0006	-0.0003	0.0000	0.0000	0.0000	-0.0001	-0.0005	-0.0004
55°	-0.0005	-0.0004	-0.0002	0.0000	0.0000	0.0000	0.0000	-0.0001	-0.0005	-0.0004
60°	-0.0001	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	-0.0001	-0.0005	-0.0004
65°	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	-0.0001	-0.0005	-0.0004
70°	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	-0.0001	-0.0005	-0.0004
75°	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	-0.0001	-0.0005	-0.0004
80°	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	-0.0001	-0.0005	-0.0004

¹ To apply correction factor, change actual specific gravity reading by adding or subtracting the appropriate factor according to the plus or minus sign.

(b) *Optional test for fry color.* The test to determine compliance with a specified fry color is made by frying potato slices 0.05 inch (1.3 mm) thick from the center portion of the potato sliced longitudinally in an approved oil with a starting temperature of 365 F (185° C) for not less than one minute 40 seconds. A minimum of 40 slices shall be used for color evaluation. Unless otherwise specified, the color index of the composite sample of fried chips shall be not less than a reading of 25 on a USDA approved photoelectric colorimeter (Agtron M-30A or M-300 A) or it may be based on one or more of the color designations with corresponding colorimeter indices (Agtron M-30A or M-300 A) specified in Table III. Photoelectric equipment (Agtron M-30A or M-300 A) shall be calibrated at 0 and 90 using M-00 and M-90 calibration discs on the red mode.¹

TABLE III

Color designations:	Agtron index range
1.....	65 and higher.
2.....	55 to 64.
3.....	45 to 54.
4.....	35 to 44.
5.....	25 to 34.

APPLICATION OF STANDARDS

§ 2851.4579 Application of Standards.

In the application of these standards to determine the percentage of the lot which meets the requirements of the grades, tolerances shall not apply.

(a) *Tolerances.* When a lot of potatoes is required to meet one of the grades, the following tolerances, by weight, are provided as specified:

(1) *For defects.* 15 percent for potatoes in any lot which fail to meet the

¹ Fry color determinations may be made using other approved electronic color meters (which have been properly calibrated and standardized) which would give readings that could be mathematically converted to Agtron numerical index values shown in Table III.

requirements of the grade: *Provided*, That included in this tolerance not more than the following percentages shall be allowed for the defects listed:

(i) 5 percent internal defects;
(ii) 10 percent external defects, including not more than 3 percent for potatoes which are affected by freezing, Blackheart, Late Blight Tuber Rot, Southern Bacterial Wilt, Bacterial Ring Rot, nuts of nut sedge, Tuber Moth injury, soft rot or wet breakdown, including therein not more than 1 percent for potatoes which are frozen or affected by soft rot or wet breakdown.

(2) *For offsize:* (i) *Undersize:* 3 percent when the minimum size specified is less than 2 1/4 inches (57.2 mm) in diameter or less than 6 ounces (170.10 g) in weight; and 5 percent when the minimum size specified is 2 1/4 inches (57.2 mm) or more in diameter or 6 ounces (170.10 g) or more in weight.

(ii) *Over-size:* 10 percent.
(3) *For Off-color—Visual determination:* (i) Unless otherwise specified, when a lot of potatoes is required to meet a specified visual color, not more than 10 percent of the slices tested may be darker than the specified color.

SAMPLES FOR GRADE AND SIZE DETERMINATION

§ 2851.4580 Samples for grade and size determination.

Individual samples shall consist of 25 pounds (11.34 kg). The number of individual samples drawn for grade or size determination will vary with the size of the lot.

DEFINITIONS

§ 2851.4581 Similar varietal characteristics.

"Similar varietal characteristics" means that the potatoes in any lot have the same general shape, color, character of skin and color of flesh.

§ 2851.4582 Firm.

"Firm" means the individual potato is not shriveled or wrinkled over more than 15 percent of the surface.

§ 2851.4583 Fairly firm.

"Fairly firm" means that the individual potato is not soft or flabby or excessively shriveled over more than 25 percent of the surface.

§ 2851.4584 Fairly clean.

"Fairly clean" means that the individual potato is not caked with dirt over more than 5 percent of the surface or not more than 1/3 of the surface is affected by smearing or staining.

§ 2851.4585 Seriously damaged by dirt.

"Seriously damaged by dirt" means that more than 25 percent of the surface of the individual potato is affected by caked dirt or more than 2/3 of the surface is affected by smearing or staining.

§ 2851.4586 Fairly well shaped.

"Fairly well shaped" means that the individual potato is not ridged, lumpy, dumbbell-shaped, materially affected by second growth or otherwise misshapen.

§ 2851.4587 Seriously misshapen.

"Seriously misshapen" means that the individual potato is seriously dumbbell-shaped, ridged, lumpy or seriously affected by second growth or otherwise seriously misshapen.

§ 2851.4588 Soft rot or wet breakdown.

"Soft rot or wet breakdown" means any soft, mushy or leaky condition of the tissue such as leak, slimy soft rot, wet breakdown, or wet type Fusarium Tuber Rot.

§ 2851.4589 Sprouts.

"Sprouts" means any sprout more than 1 inch (25.4 mm) in length attached to the potato.

§ 2851.4590 Foreign or extraneous material.

"Foreign or extraneous material" means rocks, loose or chunks of dirt, vines, stems, trash and other material including detached sprouts.

§ 2851.4591 Damage.

"Damage" means any defect or combination of defects other than those listed in Tables IV and V, which cannot be removed without a loss of more than 5 percent of the total weight of the potato.

§ 2851.4592 Serious damage.

"Serious damage" means any defect or combination of defects other than those listed in Tables IV and V, which cannot be removed without a loss of more than 10 percent of the total weight of the potato.

§ 2851.4593 External defects.

"External defects" are defects which can be detected externally. However, cutting may be required to determine the extent of the injury. Some external defects are listed in Table V.

RULES AND REGULATIONS

TABLE IV.—External defects

Defect	Damage	Serious damage ¹
Air cracks.....	Removal causes loss of more than 5 pct of total weight of potato.	Removal causes loss of more than 10 pct of total weight of potato.
Bruises.....	Do.....	Do.....
Flea beetle injury.....	Do.....	Do.....
Scab, pitted.....	Do.....	Do.....
Sunburn, greening, wind-burn or Silver Scurf.....	Do.....	Do.....
Pressure bruise discoloration.....	Do.....	Do.....
Wireworm, grass grub and other insects.....	Do.....	Do.....
Dry rot.....	Do.....	Do.....
Growth cracks.....	The length of the crack or aggregate lengths of 2 or more cracks exceed 2/3 the length of the potato or the maximum depth exceeds the maximum width of the cracks.	The length of the crack or aggregate lengths of 2 or more cracks equals the length of the potato or the maximum depth exceeds the maximum width of the cracks.
Rhizoctonia light.....	More than 50 pct of surface affected.	More than 75 pct of surface affected.
External surface discoloration.....	Do.....	Do.....
Scab, surface.....	Do.....	Do.....
Cuts (slab, knife).....	Cuts aggregating more than 1 in in diameter (25.4 mm) on a potato 2 1/2 in (63.5 mm) in diameter or 6 oz (170.10 g) in weight and correspondingly smaller and larger cuts on smaller and larger potatoes.	Cuts aggregating more than 1 1/2 in (38.1 mm) in diameter on a potato 2 1/2 in (63.5 mm) in diameter or 6 oz (170.10 g) in weight and correspondingly smaller and larger cuts on smaller and larger potatoes.
Dirt.....	More than 5 pct of the surface is affected by caked dirt or more than 1/3 of the surface is affected by staining or smearing.	More than 25 pct of the surface is affected by caked dirt or 2/3 of the surface is affected by staining or smearing.
Rhizoctonia, caked.....	More than 25 pct of surface affected.	More than 50 pct of surface affected.
Sprouts.....	More than 10 pct of the potatoes have any sprout more than 1 in (25.4 mm) in length.	Do.....

¹ The following defects are considered serious damage when present in any degree: freezing; blackheart; late blight tuber rot; southern bacterial wilt; bacterial ring rot; nuts of nut sedge; tuber moth injury; soft rot; and wet breakdown.

§ 2851.4594 Internal defects.

"Internal defects" are defects which cannot be detected without cutting the potato. Some internal defects are listed in Table V.

TABLE V.—Internal defects

Defect	Damage	Serious damage
Hollow heart.....	Cracks aggregating 1/4 in (9.6 mm) in width or exceeds 1/4 the length of the largest diameter of the potato.	Cracks aggregating 1/2 in (12.7 mm) in width or exceeds 1/2 the length of the largest diameter of the potato.
Ingrown sprouts.....	Removal causes a loss of more than 5 pct of the total weight of the potato.	Removal causes a loss of more than 10 pct of the total weight of the potato.
Vascular discoloration.....	Do.....	Do.....
Internal discoloration.....	More than the equivalent of 3 scattered light brown spots 1/4 in (3.2 mm) in diameter in a potato 2 1/2 in (63.5 mm) in diameter or 6 oz (170.10 g) in weight, or correspondingly lesser or greater amounts in smaller or larger potatoes.	More than the equivalent of 6 scattered light brown spots 1/4 in (3.2 mm) in diameter in a potato 2 1/2 in (63.5 mm) in diameter or 6 oz (170.10 g) in weight, or correspondingly lesser or greater amounts in smaller or larger potatoes.

The United States Standards for Grades of Potatoes for Chipping contained in the subpart shall become effective January 1, 1978.

Note.—The Food Safety and Quality Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB A-107.

Dated: October 3, 1977.

ROBERT ANGELOTTI, Ph. D.,
Administrator.

Agricultural Marketing Service

[7 CFR Part 931]

HANDLING OF FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Notice of Proposed Rulemaking With Respect to Expenses and Fixing of Rate of Assessment for the 1977-78 Fiscal Period and Carryover of Unexpended Funds

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule

SUMMARY: This notice invites written comments on proposed expenses of \$27,425 and a rate of assessment of \$0.01 per standard western pear box for the functioning of the Northwest Fresh Bartlett Pear Marketing Committee for the 1977-78 fiscal period. The committee administers locally a Federal marketing order program regulating the handling of Bartlett pears grown in Oregon and Washington. The proposal would enable the committee to collect assessments from first handlers on all assessable Bartlett pears handled and to use the resulting funds for its expenses.

DATES: Comments must be received on or before October 21, 1977. Proposed effective dates July 1, 1977, through June 30, 1978.

ADDRESSES: Send two copies of comments to the Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250. Comments will be made available for public inspection at the Hearing Clerk's office during business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-3315.

SUPPLEMENTARY INFORMATION: Consideration is being given to the following proposals submitted by the Northwest Fresh Bartlett Pear Marketing Committee, established under the marketing agreement and Order No. 931 (7 CFR Part 931), regulating the handling of fresh Bartlett pears grown in Oregon and Washington, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), as the agency to administer the terms and provisions thereof:

(1) That expenses that are reasonable and likely to be incurred by the Northwest Fresh Bartlett Pear Marketing Committee, during the period July 1,

1977, through June 30, 1978, will amount to \$27,425.

(2) That the rate of assessment for such period, payable by each handler in accordance with § 931.41 be fixed at \$0.01 per standard western pear box of pears, or an equivalent quantity of pears in other containers or in bulk.

(3) That assessments in excess of expenses incurred during the fiscal period ended June 30, 1977, be carried over as reserve in accordance with the provisions of § 931.42.

Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the terms in the marketing agreement and order.

Dated: September 30, 1977.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[3410-05]

COMMODITY CREDIT CORPORATION

[7 CFR Part 1425]

COOPERATIVE MARKETING ASSOCIATIONS

Eligibility Requirements for Price Support
AGENCY: Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: The Commodity Credit Corporation (CCC) is considering an amendment to the Cooperative Marketing Associations Eligibility Requirements for price support which would specify 15 days as the period of time in which an approved cooperative must distribute to its members proceeds received through CCC price support loans and purchases. The proposed amendment is needed for the purpose of clarification.

DATE: In order to be considered, comments must be received on or before November 7, 1977.

ADDRESSES: Send comments to Chief, Cooperative Staff, PSL Division, ASCS, U.S. Department of Agriculture, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Charlie B. Robbins, 202-447-4634.

SUPPLEMENTARY INFORMATION: The Commodity Credit Corporation is soliciting comments on this proposal. All

written comments will be available for public inspection at the office of the Chief, Cooperative Staff, PSL Division during regular business hours (7 CFR 1.27(b)).

PROPOSED RULE

It is proposed to amend § 1425.14(a) of Part 1425 to read as follows:

§ 1425.11 Distribution of proceeds.

(a) **CCC Loans and Purchases.** If price support is obtained on any part of the commodity in a pool through CCC loans or purchases, the proceeds therefrom shall be distributed to members participating in such pool on the basis of the quantity and quality of the commodity delivered by each member less any authorized charges for services performed by and/or paid for by the cooperative which are necessary to condition the commodity or otherwise make the commodity eligible for price support. Such proceeds shall be distributed within a period of 15 days from the date of receipt from CCC. However, if the cooperative has distributed initial advances to members in the eligible pool at the time it acquires the commodity and which advances equal not less than such proceeds, less authorized charges, a further distribution shall not be required.

Signed at Washington, D.C. on September 30, 1977.

RAY FITZGERALD,
Executive Vice President,
Commodity Credit Corporation.

[6714-01]

FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR PART 338]

FAIR HOUSING

Fair Housing Advertising, Poster, and Recordkeeping Requirements

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Proposed rules.

SUMMARY: The Federal Deposit Insurance Corporation proposes to promulgate new regulations which would: (1) establish a data collection and analysis system for monitoring insured State nonmember bank compliance with the Federal fair housing laws and (2) incorporate an amended version of the advertising and poster requirements contained in the FDIC's policy statement on

fair housing entitled "Nondiscrimination in Real Estate Loan Activities." The proposed regulations are intended to provide a basis for a more effective FDIC fair housing enforcement program.

DATE: Comments must be received on or before: November 7, 1977.

ADDRESS: Interested persons are invited to submit written data, views or arguments regarding the proposed regulations to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, D.C. 20429. All written comments will be made available for public inspection at this address.

FOR FURTHER INFORMATION CONTACT:

Jerry L. Langley, Attorney, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, D.C. 20429 (202-389-4237).

SUPPLEMENTARY INFORMATION:

The Federal Deposit Insurance Corporation has the responsibility to require and enforce insured State nonmember bank compliance with the Fair Housing Act (42 U.S.C. § 3601, et seq.) and the Equal Credit Opportunity Act (15 U.S.C. § 1691, et seq.). The Fair Housing Act and the Equal Credit Opportunity Act make it unlawful to deny or discriminate in the fixing of the terms of a loan made for the purpose of purchasing, constructing, improving or maintaining a dwelling because of the race, color, religion, sex, or national origin of the loan applicant, any person associated with the applicant in connection with the loan, or the present or prospective owner, lessees, tenants, or occupants of the dwelling or dwellings in relation to which the loan is made. The Equal Credit Opportunity Act also makes it unlawful to discriminate against an applicant in any aspect of a loan transaction for the purpose of purchasing, constructing, improving, repairing, or maintaining a dwelling (1) on the basis of marital status or age (provided the applicant has the capacity to contract); (2) because all or part of the applicant's income derives from a public assistance program; or (3) because the applicant has in good faith exercised any right under the Consumer Credit Protection Act (15 U.S.C. 1601 note).

Under the proposed data collection and analysis system, FDIC examiners would collect samples of data pertaining to mortgage loan applications and inquiries at each insured State nonmember bank. The data collected would include information as to race and sex voluntarily supplied by mortgage loan applicants and persons inquiring about mortgage loans, as well as other information routinely supplied on mortgage loan application forms. This information would be forwarded to Washington, D.C. for analysis. The analysis of the collected

data would not in itself conclusively establish either the existence or nonexistence of discrimination. Rather, if the analysis were to indicate the possible existence of discriminatory lending practices, a thorough investigation would be made. If unlawful discrimination were found and appropriate corrective measures could not be obtained on a voluntary basis, the FDIC's Board of Directors would take necessary corrective action, such as the issuance of a cease and desist order pursuant to section 8(b) of the Federal Deposit Insurance Act (12 U.S.C. § 1818(b)).

The advertising and poster requirements contained in the FDIC's fair housing policy statement which are incorporated in the proposed regulations have been amended to include the word "sex" as a prohibited basis for discriminating under the Fair Housing Act, as amended.

Accordingly, the Board of Directors of the Federal Deposit Insurance Corporation proposes to add 12 CFR Part 338 to its rules and regulations as set forth below.

PART 338—FAIR HOUSING

Sec. 338.1 Definitions.
338.2 Nondiscriminatory advertising.
338.3 Equal Housing Poster.
338.4 Recordkeeping requirements
338.5 Mortgage lending of a controlled entity.

AUTHORITY: Sec. 2, Pub. L. 86-671, 74 Stat. 547, 12 U.S.C. 1817; sec. 202, Pub. L. 89-695, 80 Stat. 1046, 12 U.S.C. 1818; sec. 9, Pub. L. 796, 64 Stat. 881, 12 U.S.C. 1819; sec. 203, Pub. L. 93-495, 88 Stat. 1521, as amended by sec. 2, Pub. L. 94-239, 90 Stat. 251, 15 U.S.C. 1691, et seq.; 40 F.R. 4930, 12 CFR 202; 37 F.R. 3429, 24 CFR 110.

§ 338.1 Definitions.

(a) "Applicant" means a natural person who makes a written, or an oral in-person, request for a home loan.

(b) "Application" means a written, or an oral in-person, request by a natural person for a home loan.

(c) "Bank" means an insured State nonmember bank as defined in section 3 of the Federal Deposit Insurance Act.

(d) "Controlled entity" means a corporation, partnership, association, or other business entity with respect to which the bank possesses, directly or indirectly, the power to direct or cause the direction of management and policies, whether through the ownership of voting securities, by contract, or otherwise.

(e) "Dwelling" means any building, structure, or portion thereof (including a mobile home) which is occupied as, or designed or intended for occupancy as, a residence by one or more natural persons and any vacant land which is offered for sale or lease for the construction or location thereon of any such building, structure or portion thereof.

(f) "Home mortgage loan" means any extension of credit relating to the purchase or construction of a dwelling which is or will be comprised of one to four residential units, at least one of which the applicant intends to occupy as a principal residence, and which secures or will secure the extension of credit.

(g) "Home improvement loan" means any extension of credit relating to the improvement, repair or maintenance of a dwelling comprised of one to four residential units, at least one of which the applicant intends to occupy as a principal residence.

(h) "Home loan" means a home mortgage loan or home improvement loan.

(i) "Inquirer" means a natural person who makes a written, or an oral in-person request for information about the terms of a home loan, but who does not make application for such a loan.

§ 338.2 Nondiscriminatory advertising.

Any bank which directly or through third parties engages in any form of advertising of loans for the purpose of purchasing, constructing, improving, repairing, or maintaining a dwelling shall prominently indicate in such advertisements, in a manner appropriate to the advertising media and format utilized, that the bank makes such loans without regard to race, color, religion, sex, or national origin. With respect to written advertisements, this requirement may be satisfied by including in the advertisement a facsimile of the logotype contained in the Equal Housing Lender Poster prescribed in section 338.3(b). No advertisements shall contain any words, symbols, models or other forms of communication which express, imply, or suggest a discriminatory preference or policy of exclusion in violation of the provisions of the Fair Housing Act or the Equal Credit Opportunity Act.

§ 338.3 Equal Housing Lender Poster.

(a) Each bank engaged in extending loans for the purpose of purchasing, constructing, improving, repairing, or maintaining a dwelling shall conspicuously display an Equal Housing Lender Poster in any public lobby or area of each floor where deposits are received or where such loans are made, in a manner clearly visible to the general public entering such area. The Equal Housing Lender Poster shall contain the text prescribed in paragraph (b) of this section and shall be at least 11 by 14 inches in size.

(b) The text of the Equal Housing Lender Poster shall be as follows:

We Do Business in Accordance With the
Federal Fair Housing Law

IT IS ILLEGAL, BECAUSE OF RACE, COLOR,
RELIGION, SEX, OR NATIONAL ORIGIN TO:

- ☐ Deny a loan for the purpose of purchasing, constructing, improving, repairing or maintaining a dwelling or
- ☐ Discriminate in fixing the amount, interest rate, duration, application procedures or other terms or conditions of such a loan.

IF YOU BELIEVE YOU HAVE BEEN DISCRIMINATED
AGAINST UNDER THIS LAW, YOU MAY SEND A COMPLAINT TO:

Assistant Secretary for Fair Housing and Equal Opportunity
Department of Housing & Urban Development
Washington, D.C. 20410
or

The Office of Bank Customer Affairs
Federal Deposit Insurance Corporation
Washington, D.C. 20429

IT IS ALSO ILLEGAL UNDER THE EQUAL CREDIT OPPORTUNITY
ACT TO DISCRIMINATE IN EXTENDING CREDIT:

- ☐ On the basis of race, color, religion, national origin, sex, marital status, or age (providing the applicant has the legal capacity to enter a binding contract)
- ☐ Because income is from public assistance
- ☐ Because a right was exercised under the Consumer Credit Protection Act.

IF YOU BELIEVE YOU HAVE BEEN DISCRIMINATED
AGAINST UNDER THIS LAW, YOU MAY SEND A COMPLAINT TO THE
FEDERAL DEPOSIT INSURANCE CORPORATION AT THE ADDRESS ABOVE
OR ANY FDIC REGIONAL OFFICE

§ 338.4 Recordkeeping requirements.

(a) *Records Required.* (1) Any bank which receives an inquiry from a natural person concerning a home loan shall request the following information regarding the inquirer:

- (i) Name.
- (ii) Address.
- (iii) Race/national origin, using the categories American Indian or Alaskan Native; Asian or Pacific Islander; Black; White; Hispanic; Other (Specify).
- (iv) Sex.
- (v) Location (street address, city, state, and Zip Code) of property being purchased, constructed, improved or maintained.

A sample format for recording the information is provided in Part I of Form A in paragraph (d) of this section.

¹ These records are required for the purpose of monitoring compliance and may not be used for the purpose of extending or denying credit or fixing credit terms where prohibited by law.

(2) Any bank which receives an application for a home mortgage loan shall request, as a part of each application, the information required in paragraph a(1) of this section and the following additional information:

(i) *Characteristics of Applicants.* (Should be requested of both applicants and co-applicants.)

(A) *Marital Status.* (Use the categories married, unmarried, and separated.)

(B) *Age.*

(C) *Employment.*

(1) Number of years employed in current occupation.

(2) Self-employed—Yes or No.

(3) Years on present job (Number of continuous years employed by the current employer. For self-employed persons, the number of continuous years self-employed. If a person is not employed, record as zero years).

(D) *Income.* (1) Base Salary Income (Enter only normal monthly base salary or wages. For self-employed persons,

enter average or normal monthly income.)

(2) Other Income (Average per month). (Enter estimated other monthly income. If received on a regular basis include, by so stating, overtime pay, bonuses, commissions, dividends, interest, rental income, income from part-time employment, and alimony, separate maintenance and child-support payments. Information on the last three sources should not be included or considered unless the applicant desires.)

(E) *Number of Dependents.* (Each dependent should be counted only once. The applicant and any co-applicant(s) should be excluded.)

(F) *Total Assets.* (1) Liquid assets—(Include all cash and other items which are readily convertible to cash (e.g., checking, savings and time deposit accounts at banks, savings and loan associations, credit unions, or similar institutions, stocks and bonds for which there is a ready market, and the cash surrender value of any life insurance policies).)

(2) Assets which will be disposed of in connection with the purchase of property associated with the application.

(3) All other assets.

(G) *Total Debt.* (Exclude any indebtedness which will be incurred from the application.)

(1) Debts which will be satisfied from the refinancing of the subject property or from the assets disposed of for the purchase of the property associated with this application.

(2) All other outstanding debts.

(H) *Total Monthly Debt Payments.* (Exclude any payments which will be associated with the application.)

(1) Payments associated with obligations which will be satisfied from the sale of assets or from the proceeds of the subject loan.

(2) Payments associated with obligations which will be satisfied within six (6) months of the date of this application.

(3) All other debt payments.

(I) *Customer(s) of Bank—Yes or no.*

(ii) *Characteristics of Subject Property—(A) Approximate Age of Dwelling (years). (B) Purchase Price. (C) Street Address, City, State, Zip Code Census Tract (if located in a SMSA). (D) Number of Residential Units.*

(iii) *Characteristic of Loan Request.* (This item should include information applicable to the terms granted or the terms which were considered as being appropriate at the last contact between the applicant(s) and institution if other action was taken. Where verified information is not available—e.g., with respect to insurance or tax rates—a best estimate should be recorded and so indicated by an asterisk (*).)

(A) *Purpose of Loan.* (1) Purchase of existing dwelling. (2) Refinancing of existing home mortgage loan. (3) Purchase of vacant land to construct a dwelling. (4) Construction loan.

(i) interim.

(ii) permanent.

(5) Purchase of mobile home.

(B) *Annual Percentage Rate (APR).*

(C) *Closing Costs (excluding down-payment).* (1) Total to both purchaser and seller.

(D) *Years to Maturity.* (For short-term, renewable mortgages or those with some other provision for varying rates, a brief explanation of the provisions should be appended to the application form.)

(E) *Amount of Loan.*

(F) *Insurance Status.* (1) Conventional; (2) VA; (3) FHA; (4) Private Mortgage Insurance; (5) Other (specify).

(G) *Monthly Payment.* (1) Principal and Interest; (2) Taxes; (3) Hazard Insurance. (Not applicable for purchase of unimproved land).

(H) *Value of Land (Construction loan only).*

The bank shall have the information recorded either on the application form or on a separate form which is maintained with the application file. A sample format for recording the information on a separate form is provided in Part II of Form A in paragraph (d) of this section.

(3) Any bank which receives an application for a home improvement loan shall request, as a part of each application, the information requested in subparagraph a(1) of this section and the following information:

(i) *Characteristics of Applicant(s)* (To be required of both applicant(s) and co-applicant(s).)

(A) *Marital Status* (Use the categories married, unmarried, and separated.)

(B) *Age.*

(C) *Employment.* (1) Number of years employed in current occupation. (2) Self-employed—yes or no. (3) Years on present job (Number of continuous years employed by current employer. For self-employed persons, the number of continuous years self-employed. If a person is not employed, record as zero years.)

(D) *Income—(1) Base Salary Income* (Enter only normal monthly, base salary or wages. For self-employed persons enter average or normal monthly income.)

(2) *Other Income* (Average per month). (Enter estimated other monthly income. If received on a regular basis include, by so stating, overtime pay, bonuses, commissions, dividends, interest, rental income, income from part-time employment, and alimony, separate maintenance and child-support payments. Information on the last three sources should not be included or considered unless the applicant desires.)

(E) *Number of Dependents.* (Each dependent should be accounted only once. The applicant and any co-applicant(s) should be excluded.)

(F) *Total Monthly Debt Payments.* (Exclude any payments which will be associated with the application.)

(1) Payments associated with obligations which will be satisfied from the sale of assets or from the proceeds of the subject loan.

(2) All other debt payments.

(G) *Customer of Bank—yes or no.*

(ii) *Characteristics of Subject Property—(A) Approximate Age of Dwelling.*

(B) *Approximate Current Market Value.*

(C) *Street address, City, State and Zip Code Census Tract (if located in SMSA).*

(D) *Number of Residential Units.*

(iii) *Characteristics of Loan Request* (This item should include information applicable to the terms granted or to the terms which are considered as being appropriate at the last contact between the applicant(s) and institution if other action was taken.)

(A) *Annual Percentage Rate (APR).*

(B) *Closing Costs (if any).*

(C) *Years to Maturity.*

(D) *Amount of Loan.*

(E) *Insurance Status.* (1) Non-Insured (2) Insured

(F) *Monthly Payment.*

A sample format for recording the information is provided in Part III of Form A in paragraph (d) of this section.

(4) A bank collecting the data specified in paragraph a (2) and (3) of this section will be considered to be in compliance with the requirements of section 202.13 of Regulation B of the Board of Governors of the Federal Reserve System (12 U.S.C. § 202.13).

(5) Each bank shall keep a log-sheet on its home loan applications and inquiries by bank offices. The log-sheet shall contain the information reflected in Sample Form B in paragraph (d). Each bank shall make the log-sheets from all of its offices available to FDIC examiners upon request at one location. The bank shall also make available to FDIC examiners upon request the information collected and retained under paragraphs a (2) and (3) of this section with respect to specific home loan applications and inquiries identified by the examiners on the log-sheets.

(b) *Disclosure to Applicant or Inquirer.*

The bank shall advise an applicant or inquirer that (1) the information in Part I of Form A regarding race, national origin, and sex is being requested for the purpose of enabling the Federal Deposit Insurance Corporation to monitor compliance with the Federal Fair Housing and Equal Credit Opportunity Acts, (2) the Acts prohibit creditors from discriminating against applicants or inquirers on these bases, (3) the submission of the information in Part I is voluntary, (4) the bank encourages the applicant or inquirer to provide the information, and (5) the information regarding race/national origin and sex cannot be used to deny a loan request. If the applicant or inquirer chooses not to provide any part of the information, the bank shall have this fact noted (preferably by the applicant or inquirer) on the form used for recording Part I information, and

PROPOSED RULES

shall record as much of the information as possible from observation of the applicant or inquirer.

(c) Record Retention. Each bank shall retain the records required by this section for 25 months after the bank notifies

an applicant of action taken on an application or after the date of receipt of an inquiry. The Federal Deposit Insurance Corporation may by written notice extend the retention period.

(d) Sample Forms.

[21 CFR Part 800]

[Docket No. 77N-0218]

MEDICAL DEVICES

Proposed Administrative Detention Procedures

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The agency is proposing procedures to enable its officers or employees to order medical devices that appear to be adulterated or misbranded to be held and not moved, without permission, for up to 30 days. The proposed procedures are required by section 304(g) of the act, which was added to the statute by the Medical Device Amendments of 1976. The purpose of these procedures, termed "administrative detention," is to protect the public from exposure to devices that violate the Federal Food, Drug, and Cosmetic Act (the act) during the time it takes the agency to determine if the devices are adulterated or misbranded and to process any proposed legal action.

DATES: Comments by December 6, 1977.

ADDRESS: Written comments to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Bert L. Schrivener, Bureau of Medical Devices (HFK-116), Food and Drug Administration, Department of Health, Education, and Welfare, 8757 Georgia Ave., Silver Spring, Md. 20910 (301-427-7304).

SUPPLEMENTARY INFORMATION: The Medical Device Amendments of 1976 (Pub. L. 94-295) (the amendments) became law on May 28, 1976, and amended the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 et seq., 21 U.S.C. 321 et seq.) to provide the Food and Drug Administration (FDA) with, among other things, administrative detention authority for those devices believed to be adulterated or misbranded under the act.

This proposal would amend Title 21 of the Code of Federal Regulations by establishing a new Part 800 consisting of § 800.55 Administrative detention. Under the proposal, detention orders must be approved by FDA district directors and may, under prescribed procedures, be appealed to regional Food and Drug directors.

Under 21 CFR 5.1, authority of the Secretary of Health, Education, and Welfare under the act has been redelegated to the Commissioner of Food and Drugs. In the FEDERAL REGISTER of August 2, 1977 (42 FR 39100) the Commissioner published notice of further redelegations of authority under section 304(g) of the act needed to implement the procedures proposed in this notice.

The proposed effective date of the final regulation is 30 days after the date of publication in the FEDERAL REGISTER.

STATUTORY BACKGROUND

Section 304(g) of the act (21 U.S.C. 334(g)) authorizes FDA officers or employees conducting inspections under section 704 of the act to detain devices they suspect are adulterated or misbranded (as these terms are used in sections 501 and 502 of the act). Section 304(g) also requires that regulations be developed to prescribe procedures for detention. The period of time during which a device may be detained is to be a reasonable period that may not exceed 20 days unless it is determined by the Commissioner that a period of detention greater than 20 days is required to institute a seizure action or an injunction, in which case he may authorize a detention period not to exceed 30 days. A detention order may require that detained devices be labeled or marked during the detention period. Section 304(g) of the act further provides that any person entitled to claim a device if it were seized may appeal an administrative detention to the Commissioner, who must offer opportunity for an informal hearing (as defined in section 201(y) of the act) and confirm or revoke the detention within 5 days of the hearing.

Section 304(g) also provides that detained devices may not be moved until released by FDA or the detention expires, whichever occurs first. However, the act does permit a device subject to a deten-

tion order to be moved in accordance with regulations prescribed by FDA and, if not in final form for shipment, at the discretion of the manufacturer of the device for the purpose of completing the work required to put it in such form.

Section 301(r) of the act makes the violation of an administrative detention order a prohibited act subjecting the person to fine or imprisonment as provided in section 303 of the act. Section 301(r) prohibits the movement of devices under administrative detention or the removal or alteration of any label or mark required by the order to identify the device as detained.

LEGISLATIVE HISTORY

Prior to the enactment of the amendments, FDA had no authority to order the detention of devices that it believed violated the act. Although a court can prevent shipment of such devices by means of an injunction under section 302 or a seizure under section 304 of the act, the public has often been exposed to adulterated or misbranded devices during the period between the discovery of a suspected violation and completion of the processing of legal papers needed to take legal action. Since it had no administrative detention authority, FDA often had to rely on the cooperation of manufacturers, distributors, and dealers to voluntarily withhold from the market the remainder of the devices from which FDA had taken samples because of a suspected violation of the act until FDA could evaluate the sampled devices and determine whether a violation had occurred, and prepare to take legal action. After these steps were completed and a U.S. marshal was sent to seize the devices, the devices often had been distributed. Certain state officials who possess embargo authority have cooperated with FDA to prevent distribution of suspect devices until FDA could determine if a violation had occurred and take legal action.

In 1972 the General Accounting Office analyzed 91 seizure actions of products in violation of the act and reported that, on an average, only 69 percent of the total supply of a product identified for seizure was actually removed from the market; the remaining 31 percent was sold or otherwise disposed of before legal action was effected. ("Lack of Authority Limits Consumer Protection: Problems in Identifying and Removing From the Market Products Which Violate the Law", GAO Report No. B-164031-2, September 14, 1972.)

Other detention authorities have been delegated to FDA under the Federal Meat Inspection Act (Pub. L. 90-201), the Poultry Products Inspection Act (Pub. L. 90-492), and the Egg Products Inspection Act (Pub. L. 91-597) (see 21 CFR 5.1(a)(11)-(13)). These authorities allow detention of meat, poultry, and egg products that may be adulterated or misbranded under the act.

The Food and Drug Administration regards the administrative detention regulation for devices to be the initial legal authority granted by Congress to FDA in

this area. This regulation may be revised if similar authority is enacted for other FDA regulated products, as proposed in bills submitted in past sessions of Congress, and if changes are required in the agency's administrative detention procedures promulgated for devices.

DISCUSSION OF PROPOSED REGULATION

The following is a brief discussion of each provision in the proposed regulation. The regulation refers to "devices" in the plural rather than the singular because the Commissioner expects that administrative detention orders will usually involve a number of individual units of the same device or different types of device products.

Proposed § 800.55(a) describes the objective of administrative detention, which is to prevent distribution or sale of devices suspected of being in violation of the act. This allows FDA time to determine whether legal action is necessary and to initiate court action if indicated. To accomplish this objective, FDA officers or employees, after securing proper approval, will be authorized to order that devices suspected of being adulterated or misbranded not be distributed.

Proposed § 800.55(b) sets forth criteria for determining the circumstances under which administrative detention will be used. The product that is the subject of the detention must be a device, as defined under section 201(h) of the act, and the FDA officer or employee making an inspection under section 704 of the act must have reason to believe that the device is adulterated or misbranded.

Proposed § 800.55(c) sets forth the period of administrative detention, that is, the length of time devices may be detained. This period of time shall be a reasonable period that may not exceed 20 days unless it is determined that a greater period is required to either seize the devices or institute injunction proceedings, in which case a detention period not to exceed 30 days may be authorized by the FDA district director in whose district the devices are located. As indicated in proposed § 800.55(c), FDA district offices are listed in 21 CFR 5.115. The period of detention may be extended under proposed § 800.55(g) (6) if the person entitled to claim the detained devices, if seized, requests delay in the holding of a hearing. In these cases, the detention may continue until the date of the FDA decision on the appeal of the detention, if later than the period otherwise applicable to the detention under a detention order.

Proposed § 800.55(c) also authorizes an FDA officer or employee who is authorized to issue detention orders to issue orders releasing detained devices from detention before the expiration of the detention period. Internal FDA procedures will assure appropriate supervisory approval of the issuance of orders to release detained devices before the expiration of a detention period.

Proposed § 800.55(d) provides for the issuance of the detention order to the owner, operator, or agent in charge (who

could be the president of the firm, a plant manager, or a similar person who has custody of the device) at the site the device is located. The order must be in writing and signed by the FDA officer or employee authorized to perform inspections under section 704 of the act who has reason to believe that the devices are adulterated or misbranded. The Commissioner notes that such officers or employees carry credentials indicating their authority to perform inspections. Before any inspection under section 704, the officer or employee presents these credentials and a written notice to the owner, operator, or agent in charge of the establishment. This paragraph also requires that a copy of the detention order be provided to the owner of the devices if that person is different from the owner, operator, or agent in charge, and if his identity can be readily ascertained.

Proposed § 800.55(d) also requires that since devices may be detained in a vehicle, or other carrier, which are considered to be establishments under section 704 of the act, the shipper of record and the owner of the vehicle or other carrier, if readily ascertainable, shall be provided with a copy of the detention order.

Proposed § 800.55(d) describes information that must be included in the detention order: identification of the detained devices, the detention order number assigned by FDA, the date and hour of the detention order, the period of the detention, and a notice of opportunity to appeal the detention to the FDA district director named in the order and to request a regulatory hearing in accordance with 21 CFR Part 16. Part 16 sets forth procedures for FDA regulatory hearings, i.e., informal adjudicatory hearings, and includes provisions on the initiation of proceedings, designation of presiding officers, and the conduct of these hearings.

Proposed § 800.55(e) identifies the official, namely, the FDA district director in whose district the devices are located, as the person who can approve an administrative detention order. The Commissioner believes this is consistent with the House Committee report on the amendments which expressed the desire that individuals designated to approve detention orders hold responsible positions to assure that devices are not detained except when necessary. It was recommended that FDA district directors be designated to approve such orders (House Report No. 94-853 at 47).

The Commissioner adopts this recommendation because the district director, as the head of each FDA field office, bears ultimate responsibility for all activities of the district office. Thus, it is appropriate that the district director be given the responsibility of approving detention orders. In addition, the delegation to FDA district directors of authority to approve detention orders is consistent with other authorities delegated to them. The authority of an FDA district director to approve detentions and take other action under this section may be exercised by any official who, in the absence of the

FDA district director, is designated as the acting FDA district director.

Prior approval of detention orders is required in all cases. Generally, the approval must be written. However, the proposed regulation provides that in those situations where it is not possible for the officer or employee to obtain advance written approval of the detention order, prior oral approval of such detention order shall be obtained and shall be confirmed later in writing. Prior oral approval could occur where the FDA officer or employee authorized to make inspections unexpectedly encounters devices which appear to be adulterated or misbranded at a location distant from the FDA district office.

Proposed § 800.55(f) authorizes detention orders to include requirements that detained devices be labeled or marked and specifies the information to be included on official FDA labels or tags affixed to the detained devices. The Commissioner intends that the FDA officer or employee who issues the detention order be the one to supervise compliance with proposed § 800.55(f). Any requirement that devices be labeled or marked shall continue during any appeal under proposed § 800.55(g).

Proposed § 800.55(g) describes the procedure for the appeal of a detention order. It is proposed that such an appeal be submitted in writing to the FDA district director who approved the detention and that the person making such an appeal demonstrate his ownership or proprietary interest in the detained devices if they are located at a place other than an establishment owned or operated by the appellant.

The Commissioner believes that field office handling of detentions and appeals of detentions is essential because of the need for rapid decisions on these matters. Thus, the FDA official who decides any appeal of, and presides over any regulatory hearing on, a detention order shall be a regional food and drug director, i.e., a director of an FDA regional office listed in 21 CFR 5.115. Usually, the official designated to handle the appeal and preside over a hearing shall be the regional food and drug director of the region where the devices are held. In some cases, however, the presiding officer might be a regional food and drug director from another region when the director who would normally preside is absent or is not permitted under 21 CFR 16.40 to handle the appeal because he also serves as the FDA district director who approved the detention or has otherwise participated in the situation which resulted in the detention order.

Appeals are required to be filed within 5 days of receipt of the detention order. If a regulatory hearing is requested, FDA ordinarily will hold the hearing within 5 days after an appeal is filed. However, recognizing that circumstances may arise where a potential claimant desires more time to prepare for a hearing, the Commissioner is proposing to permit requests for the hearing to be held at a

date later than 5 days after the filing of an appeal. If such a request is made, the period within which the responsible FDA official must decide the appeal and the period of the detention may be extended until 5 days after the conclusion of the hearing, if later than the time period otherwise applicable to the detention.

Proposed § 800.55(h) implements section 304(g)(2)(B) of the act which provides for the movement of devices under detention. The Commissioner recognizes that there may be instances when a firm may wish to move the detained devices to a different location for the purpose of segregating the articles, to complete manufacturing of devices that are in-process, to prevent interference with other operations of the firm, or to bring the devices into compliance with the act. Such movements must be approved in accordance with proposed § 800.55(h).

Proposed § 800.55(i) requires that certain establishments subject to FDA inspection have, or establish, and maintain manufacturing and other records relating to how the detained devices may have become adulterated or misbranded, records on the distribution of the detained devices both before and after the detention (e.g., to assure traceability where the detention period has expired before seizure was accomplished or any injunctive relief was given), records on the correlation of detained in-process devices that are permitted to be put in finished form to the finished devices, and records of any changes in, or processing of, the devices permitted under the detention order. Records required to be maintained must be provided to FDA on request, including requests by authorized FDA inspectors under section 704(e) of the act. The Commissioner intends that the records required to be maintained under proposed § 800.55(i) be kept in a convenient manner and at a convenient location to facilitate inspection. As required by sections 704(e) and 519 of the act, FDA requests for access to required records shall be made at reasonable times, shall specify the purpose of the request and, to the fullest extent practicable, specify the records to which access is required. Records required to be maintained under this paragraph shall be maintained for 2 years after the detention order or such other period as FDA directs.

REFERENCES

Background data and information on which the Commissioner relies in proposing this regulation have been placed on file for public review in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857. These documents are:

(1) House Report No. 94-853, Medical Device Amendments, February 29, 1976 (Committee on Interstate and Foreign Commerce).

(2) "Lack of Authority Limits Consumer Protection: Problems in Identifying and Removing from the Market Products Which Violate the Law," GAO

Report No. B-164031(2), September 14, 1972.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 304, 519, 701, 52 Stat. 1044-1045 as amended, 1055-1056 as amended, 90 Stat. 564-565 (21 U.S.C. 334, 3601, 371)) and under authority delegated to him (21 CFR 5.1), the Commissioner proposes that Title 21 of the Code of Federal Regulations be amended by adding to Subchapter H of Chapter I a new Part 800 consisting at this time of Subpart C, § 800.55, to read as follows:

PART 800—GENERAL

Subpart A-B [Reserved]

Subpart C—Administrative Practices and Procedures

Sec. 800.55 Administrative detention.

AUTHORITY: Secs. 304, 519, 701, 52 Stat. 1044-1045 as amended, 1055-1056 as amended, 90 Stat. 564-565 (21 U.S.C. 334, 3601, 371).

Subpart A-B [Reserved]

Subpart C—Administrative Practices and Procedures

§ 800.55 Administrative detention.

(a) *General.* This section sets forth the procedures to be followed by the Food and Drug Administration in detention of devices believed to be adulterated or misbranded. Administrative detention is intended to protect the public by preventing distribution of those devices, encountered during inspections, that may violate the act until the Food and Drug Administration has had time to consider what course of action it should take concerning the devices and to initiate action, if appropriate.

(b) *Criteria for ordering detention.* Administrative detention of devices may be ordered in accordance with this section when an authorized officer or employee of the Food and Drug Administration, during an inspection under section 704 of the act, has reason to believe that a product which is a device, as defined in section 201(h) of the act, is adulterated or misbranded.

(c) *Period of detention.* The administrative detention shall be for a reasonable period that may not exceed 20 days after the detention order was given, unless the Food and Drug Administration district director (i.e., the director of a Food and Drug Administration district office listed in § 5.115 of this chapter) in whose district the devices are located determines that a greater period is required to either seize the devices or to institute injunction proceedings, in which case he may authorize a detention period not to exceed 30 days. The detention period may also be extended under paragraph (g)(6) of this section. An officer or employee of the Food and Drug Administration authorized to issue a detention order may issue an order releasing detained devices before the expiration of the detention period.

(d) *Issuance of detention order.* (1) The detention order shall be in writing, signed by the officer or employee authorized to perform inspections under sec-

tion 704 of the act who has reason to believe that the devices are adulterated or misbranded, and issued to the owner, operator, or agent in charge at the place the devices are located. If the owner of the devices that are being detained is different from the owner, operator, or agent in charge at the place the devices are located, a copy of the detention order shall be provided to such owner if his identity can be readily ascertained.

(2) If detention of devices in a vehicle or other carrier is ordered, a copy of the detention order shall be provided to the shipper of record and the owner of the vehicle or other carrier, if readily ascertainable.

(3) The detention order shall contain the following information: identification of the detained device, the detention order number, the date and hour of the detention order, the period of the detention, and a notice of opportunity for any person who would be entitled to claim the devices, if seized, to appeal the detention to the Food and Drug Administration district director named in the order and to request a regulatory hearing in accordance with Part 16 of this chapter.

(e) *Approval of detention order.* Prior to issuance, a detention order shall be approved by the Food and Drug Administration district director in whose district the devices are located. If prior written approval is not feasible, prior oral approval shall be obtained and confirmed later in writing.

(f) *Labeling or marking of a detained device.* When an administrative detention order is issued under paragraph (d) of this section and the officer or employee issuing the order determines that it is necessary to mark or label the device to identify it as detained, the order shall include a requirement to this effect. If such a requirement is ordered, official FDA labels or tags with the following information shall be affixed to the detained devices by the officer or employee issuing the order:

(1) A statement that the devices are detained by the United States Government in accordance with 21 U.S.C. 334 (g) (section 304(g) of the Federal Food, Drug, and Cosmetic Act).

(2) A statement that the devices shall not be moved, used, or tampered with in any manner, by any person, until released by an authorized officer or employee of the Food and Drug Administration or until the detention period applicable to the device expires, whichever occurs first.

(3) A statement that the unauthorized movement of devices in violation of a detention order or the removal or alteration of any label or mark required by the order is prohibited and is punishable, upon conviction, by fine or imprisonment under 21 U.S.C. 333 (section 303 of the Federal Food, Drug, and Cosmetic Act).

(4) The detention order number, the date and hour of the detention order, the period of the detention order, and the name of the officer or employee who issued the detention order.

(g) *Appeal of a detention order.* This paragraph prescribes the procedure for an appeal of a detention order issued under paragraph (d) of this section.

(1) Any appeal of a detention order, by a person who would be entitled to claim the devices, if seized, shall be submitted in writing to the Food and Drug Administration district director named in the order. Any appeal shall be filed within 5 days of receipt of a detention order. If the appeal includes a request for a regulatory hearing, the appellant shall either indicate that a hearing is desired within 5 days after the appeal is filed or request that the hearing be held at a later date.

(2) An appeal of a detention order shall state the ownership or proprietary interest the appellant has in the detained devices, including documents showing that the appellant would have the authority to claim the devices, if seized, when the detained devices are located at a place other than an establishment owned or operated by the appellant.

(3) Any regulatory hearing on an appeal of a detention order shall be informal and conducted with Part 16 of this chapter.

(4) The presiding officer of a regulatory hearing on an appeal of a detention order, who shall also decide the appeal, shall be a regional food and drug director (i.e., a director of a regional office listed in § 5.115 of this chapter) who is permitted by § 16.40 of this chapter to preside over the hearing.

(5) If the appellant requests a regulatory hearing and indicates the hearing is desired to be held within 5 days after the appeal is filed, the presiding officer shall, within 5 days, hold the hearing and render a decision confirming or revoking the detention.

(6) If the appellant requests a regulatory hearing and indicates that the hearing is desired to be held at a date later than within 5 days after the appeal is filed, the presiding officer shall hold the hearing at a date agreed upon by the appellant and the Food and Drug Administration and shall decide whether to confirm or revoke the detention by the date that is 5 days after the conclusion of the hearing. The detention shall continue until the date of the decision, if later than the time period otherwise applicable to the detention under the order.

(7) If the appellant appeals the detention order but does not request a regulatory hearing, the presiding officer shall render a decision on the appeal confirming or revoking the detention within 5 days after the filing of the appeal.

(8) If the presiding officer revokes a detention order, the devices shall be released.

(h) *Movement of detained devices.* (1) Except as provided in this paragraph, devices subject to a detention order shall not be moved by any person from the place at which they are ordered detained or further processed until released by the Food and Drug Administration or until expiration of the detention period, whichever occurs first.

(2) Devices subject to a detention order may be moved within the establishment to a designated location therein if approved by the officer or employee issuing the detention order or other responsible official of the Food and Drug Administration district office. Devices subject to a detention order may be moved from the establishment where the detention occurs only if this movement is approved in writing by the Food and Drug Administration district director who approved the detention order. The Food and Drug Administration may approve the movement of detained devices:

(i) to prevent interference with an establishment's operations or, (ii) if the manufacturer wishes to perform further work on in-process devices, to put them in finished form or, (iii) to bring them into compliance. If the Food and Drug Administration approves the movement of detained devices, the person authorized to move the devices shall notify the official who approved the movement of the new location of the detained devices.

(3) Unless otherwise permitted by the official who approved the movement of devices under this paragraph (h), any labels or tags required under paragraph (f) of this section shall accompany the devices after movement and remain with the devices when completed until released by the Food and Drug Administration or expiration of the detention period, whichever occurs first.

(4) Although the Food and Drug Administration may permit the completion of in-process devices when the requirements of this section are met, it may nevertheless determine that the completed devices are adulterated or misbranded and take regulatory action against the completed devices and responsible individuals, or request that the completed devices be destroyed or otherwise brought into compliance with the act under the Food and Drug Administration's supervision.

(i) *Recordkeeping requirements.* After a detention order under paragraph (d) of this section has been issued, the owner, operator, or agent in charge of any factory, warehouse, establishment, or consulting laboratory where devices are manufactured, processed, packed, or held shall have, or establish, and maintain adequate manufacturing and other records relating to how the detained devices may have become adulterated or misbranded, records on the distribution of the devices both before and after the detention order, records on the correlation of any in-process detained devices that are permitted to be put in finished form under paragraph (h) of this section to the completed devices, and records of many changes in, or processing of, the devices permitted under the detention order. Such records shall be provided to the Food and Drug Administration on request. Any request for access to a record under this paragraph shall be made at a reasonable time, shall state the reason or purpose for the request, and shall identify to the fullest extent practicable the information or

type of information sought in the records to which access is requested. Records required under this paragraph shall be maintained for 2 years after the detention order or for such other period as the Food and Drug Administration directs.

Interested persons may, on or before December 6, 1977, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

The Food and Drug Administration has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107. A copy of the inflation impact assessment is on file with the Hearing Clerk, Food and Drug Administration.

Dated: September 29, 1977.

JOSEPH P. HYLE,
Associate Commissioner for
Compliance.

NATIONAL GUIDELINES FOR HEALTH PLANNING Correction

In FR Doc 77-27493 appearing at page 48501 in the issue of Friday, September 23, 1977 (Part 11 of that issue), the words, "Advanced Notice of Proposed Rulemaking" should be removed from the cover page and the heading should read as set forth above.

[6712-01]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 2]

[Docket No. 21371]

REQUIRING A DESCRIPTION OF MEASUREMENT FACILITIES USED IN THE EQUIPMENT AUTHORIZATION PROGRAM AND TO MAKE OTHER CHANGES

Extension of Comment Period

AGENCY: Federal Communications Commission.

ACTION: Extension of time.

SUMMARY: An extension of time to file comments and reply comments has been

requested in Docket No. 21371 relating to the requirement for a description of measurement facilities used in the equipment authorization program and making other changes. Because of the importance of this proceeding to both the manufacturers and consumers, the Commission has granted the request. No objections have been received.

DATES: Comments must be received by December 12, 1977, and Reply Comments must be received by December 22, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Leslie A. Wall, RF Devices and Experimental Office of Chief Engineer, (202-632-7095).

ORDER EXTENDING TIME TO FILE COMMENTS

Adopted: September 27, 1977.

Released: September 30, 1977.

In the matter of amendment of Part 2 to require a description of measurement facilities used in the equipment authorization program and to make other changes, Docket No. 21371, (42 FR 45342).

1. On September 6, 1977, the Commission released a Notice of Proposed Rulemaking in the above entitled matter (42 FR 45342, Sept. 9, 1977). The Consumer Electronics Group of the Electronic Industries Association (EIA/CEG) which represents all the major domestic manufacturers of television receivers and several Japanese companies which have manufacturing facilities in the United States, has requested a 60-day extension of time within which to file comments in this matter.

2. EIA/CEG states that this proceeding, which affects a broad range of radio-frequency devices, will require considerable study. In addition EIA/CEG believes that it will be necessary for them to submit a written inquiry to the Commission for clarification of the meaning of several of the proposed rules before their comments can be prepared. Also, their technical experts who will be required to prepare comments in this matter are currently involved in the preparation of comments in four other pending Commission dockets.

3. Because of the technical nature of this proceeding; the need for clarification of several of the proposals; the importance of this proceeding to both the manufacturers and consumers; and, the Commission's desire to have the most definitive responses possible, an extension of time to December 12, 1977, for filing Comments and December 22, 1977, for filing Reply Comments is hereby ordered pursuant to the authority granted by § 0.241(d) of the Commission rules.

RAYMOND E. SPENCE,
Chief Engineer.

[47 CFR Part 13]

[Docket No. 20817]

RADIO OPERATOR LICENSING PROGRAM Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Extension of time.

SUMMARY: FCC has been asked to extend the time for filing comments in Docket No. 20817 relating to the radio operator licensing program. This order grants an extension.

DATES: Comments must be received on or before January 3, 1978, and Reply Comments must be received on or before January 31, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Vernon P. Wilson, Field Operations Bureau, (202-632-7240).

SUPPLEMENTARY INFORMATION: ORDER EXTENDING TIME TO FILE COMMENTS AND REPLY COMMENTS

In the matter of an inquiry relating to the Commission's Radio Operator Licensing Program, Docket No. 20817.

Adopted: September 27, 1977.

Released: September 28, 1977.

1. The Commission has before it a Petition to Extend the Time for Filing Comments in Docket 20817¹ in the above captioned matter submitted by the National Association of Broadcasters, representing 2486 AM stations, 1814 FM stations, and 548 television stations.

2. The petitioner states that this proceeding, the first total review of operator licensing requirements since the adoption of the Communications Act of 1934, has engendered a significant amount of interest in view of the potential impact any new rules or policies may have on the broadcast industry and requests an extension of time to enable a complete review by its Operator Licensing Subcommittee and Engineering Committee.

3. In view of the importance and complexity of this proceeding and a desire that the final determination be based on the most complete record possible, it appears that an extension of time is warranted.

4. Accordingly, under authority delegated by § 0.311 of the Commission's rules: *It is ordered*, That the time for the filing of comments in Docket 20817

¹ Notice of Proposed Rulemaking, FCC 77-528, 42 FR 40929, August 12, 1977.

is extended until January 3, 1978 and for reply comments until January 31, 1978.

C. PHYLL HORNE,
Chief, Field Operations Bureau.

[Docket No. 18109; RM-1122; FCC 77-669]

AUTOMATIC AND SELF-MONITORED FM BROADCAST TRANSMITTERS

Memorandum Opinion and Order re Inquiry Concerning Installation and Use

AGENCY: Federal Communications Commission.

ACTION: Memorandum Opinion and Order.

SUMMARY: This action incorporates into Docket 20403 the issues raised in a 1967 petition for automatic FM transmitting equipment to the extent that they have not already been granted in Docket 20403, and it terminates Docket 18109.

DATES: Non-applicable.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

James J. Gross, Broadcast Bureau, (202-632-7792).

SUPPLEMENTARY INFORMATION: In the matter of amendment of Part 73 of the Commission's rules to provide for the installation and use of automatic and self-monitored FM broadcast transmitters (Docket No. 18109, RM-1122). Memorandum opinion and order (Proceeding terminated).

Adopted: September 21, 1977.

Released: September 30, 1977.

1. On March 15, 1967, Collins Radio Company of Dallas, Texas, filed a petition for rule making to permit the use of automatic and self monitoring transmitter equipment for FM broadcast stations that resulted in a Notice of Inquiry, 33 FR 5274 (April 2, 1968).¹

2. The Commission determined that the comments obtained and the record developed in response to this Inquiry was inadequate for proper resolution of the issues presented, and a new Notice of Inquiry, in Docket No. 20403, 52 F.C.C. 2d 610 (1975), was adopted which looked toward developing rules for automatic transmission systems for AM, FM and television stations. The new Docket No. 20403 Inquiry expanded the scope of this proceeding and incorporated the comments and record of Docket 18109 for

¹ See also 42 FR 14889, October 4, 1968.
² Chairman Wiley not participating.

further consideration. See 52 F.C.C. 2d at para. 3.

3. A First Report and Order, 62 F.C.C. 2d 372 (1976), was adopted in Docket 20403 which encompassed and resolved the Collins proposals and the Notice of Inquiry in Docket 18109, with the exception of two suggestions by Collins regarding automatic distortion detection and an automatic Emergency Broadcast System. Docket 20403 has not been terminated, and the Collins suggestions not resolved by the First Report and Order will be considered in the next phase of Docket 20403.

4. Accordingly, *it is ordered*, That to the extent the petition for rule making of Collins Radio Company has not already been granted in Docket 20403, it is hereby incorporated into that proceeding.

5. *It is further ordered*, That Docket No. 18109 is terminated.

FEDERAL COMMUNICATIONS
COMMISSION,
VINCENT J. MULLINS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1008]

[Ex Parte No. 342]

MOTOR CARRIERS AND FREIGHT FORWARDERS

Procedures Governing the Processing, Investigation, and Disposition of Overcharge, Duplicate Payment, or Overcollection Claims

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission proposes to consider the propriety of the practices of motor carriers and freight forwarders in the processing and disposition of claims of overcharge, duplicate payment, and overcollection for the transportation of household goods, and to determine if new rules are necessary to govern the processing of such claims in a more efficient and expeditious manner.

DATES: Notice of intent to participate (an original and one copy) shall be filed on or before October 17, 1977. The dates for submission of written comments and replies will be established by subsequent notice.

ADDRESS: All written submissions shall be sent to:

Office of Proceedings, Interstate Commerce Commission, Room 5342, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT:

Martin E. Foley, Director, Bureau of Traffic, Interstate Commerce Commission, 202-275-7348.

SUPPLEMENTARY INFORMATION: This rulemaking proceeding is instituted upon our own motion to consider the propriety of the practices of the Nation's motor common carriers of property and freight forwarders in the processing of overcharge duplicate payment, and overcollection (the latter only in connection with household goods carriers) claims, and to determine if new rules are necessary to govern the processing of such claims in a more expeditious manner.

This Commission has received and continues to receive numerous complaints from shippers, receivers, and their representatives respecting the practices of motor carriers and freight forwarders in the processing of overcharge, duplicate payment, and overcollection claims. Essentially, the complaints indicate: (1) That the motor carriers and forwarders fail to acknowledge such claims, and (2) when such claims are acknowledged, the motor carriers or forwarders delay the processing of such claims for long periods of time.

These practices not only frustrate the affected member of the public, but place on this Commission an additional administrative burden which rightfully belongs with the motor carriers and forwarders. The fact that this Commission has continued to receive substantial numbers of these complaints over the past several years seems to indicate that motor carriers and forwarders have done nothing to alleviate this problem or otherwise to improve their practices and procedures for processing claims of this nature. Similar problems related to practices and procedures for processing loss and damage claims have been alleviated by the Commission's adoption of regulations in *Ex Parte No. 263*, "Rules, Regulations and Practices of Regulated Carriers With Respect to the Processing of Loss and Damage Claims," 340 I.C.C. 515, decided February 3, 1972.

It is, therefore, both desirable and necessary at this time to institute an investigation concerning the practices of motor carriers and freight forwarders as they relate to the processing of overcharge, duplicate payment, and overcollection claims. Our investigation, among other things, shall include a determination of the propriety of adopting the proposed regulations set forth in this notice, as well as whether this Commission should take any further action as the facts developed in this investigation may justify or require.

As the proposed rules have little impact, if any, on carrier operations, this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

Oral hearing does not appear necessary at this time, and none is contemplated, unless a need therefor should later appear. Anyone wishing to present views and evidence, either in support of or in opposition to the action proposed in this notice, may do so by submitting for consideration written statement of fact, views, and arguments on the subjects mentioned above or any other subjects pertaining to the proceeding. All

motor common carriers of property and freight forwarders operating in interstate or foreign commerce subject to the Interstate Commerce Act are made respondents to this proceeding, and the Bureau of Investigations and Enforcement of this Commission is authorized and directed to participate in this proceeding.

Respondents and parties interested in presenting their views and evidence, or in otherwise participating in this proceeding, shall be required by the order entered concurrently herewith to notify this Commission by filing with the Office of Proceedings, Room 5342, Interstate Commerce Commission, Washington, D.C. 20423, on or before October 17, 1977, the original and one copy of a declaration of intent to participate. The Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties to this proceeding, upon whom copies of all statements must be filed. At the time of service of this service list the Commission will fix a time within which initial statement and replies must be filed.

This notice of proposed rulemaking is issued pursuant to sections 553 and 559 of the Administrative Procedure Act (5 U.S.C. 553 and 559) and sections 204(a) (6), 204a, 208(a), 216(b), 217(b), 404 (a), 405(c), 406a, 410(e), and 417 (a) of the Interstate Commerce Act. Notification of the initiation of this proceeding will be provided to the general public by the mailing of a copy of this notice to the Governor of every State, to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation and to various consumers groups, by depositing a copy of this notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy to the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

It is ordered: A proceeding is instituted to consider adoption of the proposed rules.

Decided September 29, 1977.

By the Commission.

H. C. HOMME, Jr.,
Acting Secretary.

PART 1008—PROCEDURES GOVERNING THE PROCESSING, INVESTIGATION, AND DISPOSITION OF OVERCHARGE, DUPLICATE PAYMENT, OR OVERCOLLECTION CLAIMS

Sec.	Applicability of regulations.
1008.1	Definition of terms.
1008.2	Processing of claims.
1008.3	Documentation of claims.
1008.4	Acknowledgment of claims.
1008.5	Investigation of claims.
1008.6	Disposition of claims.
1008.7	Maintenance of claim register and files.
1008.8	Indemnity agreement.
1008.9	Disposition of overcharges, duplicate payments, or overcollections without claim.
1008.10	

AUTHORITY: Secs. 553, 559, Administrative Procedure Act (5 U.S.C. 553, 559); Secs. 204 (a) (6), 204a, 208(a), 216(b), 217(b), 404(a), 405(c), 406a, 410(e), 417(a), Interstate Commerce Act.

§ 1008.1 Applicability of regulations.

The regulations set forth in this part shall govern the processing, investigation, and disposition of claims for overcharge, duplicate payment for the transportation of property, or overcollection for the transportation of household goods, in interstate or foreign commerce, by motor carrier and freight forwarder (hereinafter called carrier), subject to Parts II and IV of the Interstate Commerce Act.

§ 1008.2 Definition of terms.

(a) **Overcharge.** The term "overcharge" refers to overcharges as defined in Sections 204a(6) and 406a(6) of the Interstate Commerce Act. The term "overcharge" does not encompass non-disputed duplicate payments as defined in paragraph (b) of this section or non-disputed overcollections as defined in paragraph (c) of this section.

(b) **Duplicate payment.** The term "duplicate payment" refers to two or more payments, made in the exact amount of the published freight charges, for transporting the same shipment, where there is no dispute regarding the applicability of such charges, or the quality or quantity of the service performed. Duplicate payments are not "overcharges" or "overcollections" as defined in paragraphs (a) or (c) of this section.

(c) **Overcollection.** The term "overcollection" refers to receipt by a household goods carrier of a payment(s) in excess of transportation and/or accessorial charges applicable to a particular shipment(s) of household goods, as defined in Part 1056 of this chapter, under tariffs lawfully on file with the Commission, when there exists no dispute regarding the applicability of the charges. Where a dispute does exist between the parties, the collection of excess amounts shall be considered and treated as an "overcharge" as defined in paragraph (a) of this section.

§ 1008.3 Processing of claims.

(a) A claim for overcharge, duplicate payment, or overcollection shall not be processed unless filed in writing, as provided in § 1008.4, within the applicable time limits. The carrier that collected the transportation charges shall be responsible for the handling of a claim. If a claim is filed with a carrier other than the carrier that collected the transportation charges, such carrier shall transmit the claim to the carrier that collected the transportation charges within 15 days after receipt thereof and so notify the claimant. The carrier with which the claim was initially filed shall enter the claim in its claims register as provided in § 1008.5. The carrier that collected the transportation charges shall acknowledge the claim within the time limit named in § 1008.5.

(b) Claims presented in accordance with the provisions of this section should be accompanied by information sufficient to allow the carriers to conduct an investigation, and pay or decline, the claim within the time limitation set forth in § 1008.7. A separate claim shall be submitted for each shipment, except that more than one shipment may be included in one claim, if the overcharge resulted from the same circumstances.

§ 1008.4 Documentation of claims.

(a) Each claim for the recovery of overcharges shall provide, as a minimum, the following information:

- (1) The name of the claimant;
- (2) The file number assigned by claimant to its claim;
- (3) The date the claim was submitted to the carrier;
- (4) The article shipped and its weight, volume, or measurement;
- (5) The date of shipment;
- (6) The names of the consignor and consignee;
- (7) The origin, destination, and route of the shipment;
- (8) The bill of lading number and date;
- (9) The carrier's freight bill (Pro) number(s);
- (10) The rate, classification or commodity description, and/or weight upon which charges were paid;
- (11) The rate, classification or commodity description, and/or weight claimed to have been applicable;
- (12) Complete tariff authority for the rate, classification, or commodity description claimed; and
- (13) The amount of the overcharge sought to be recovered.

(b) All overcharge claims shall be accompanied, except as otherwise provided herein, by the original paid freight bill at the time the claim is presented to the carrier. If the claimant is unable to produce the original paid freight bill, a certified copy shall be considered proof of payment of the freight charges and entitlement to any overcharges. If claimant submits a certified copy of the paid freight bill, an indemnity agreement as set forth in § 1008.9 shall also be executed and presented with the claim.

(c) Other transportation papers or documents should be submitted with the overcharge claim at the time it is presented to the carrier, if information provided by them is necessary to the carrier's investigation and disposition of the claim. These additional documents may include:

- (1) The original bill of lading or a certified copy;
- (2) The original invoice or a certified copy;
- (3) The weight certificate or a certified copy;
- (4) Sales brochures, advertising matter, or excerpts from catalogues; and
- (5) Any other documents, paper, or information which is believed by the

claimant to substantiate the basis for its claim.

(d) Claims for duplicate payment of transportation charges and overcollection of charges on movement of household goods need only be accompanied by paid freight bill(s), and, in the case of overcollection, certified copy of means of payment, for example, certified check, money order, etc.

§ 1008.5 Acknowledgment of claims.

(a) Each carrier shall, upon receipt in writing of a proper claim in the form described in these regulations, acknowledge the receipt of the claim in writing to the claimant, within thirty (30) days after the date of receipt, unless the carrier shall have paid or declined the claim in writing within thirty (30) days after the date of receipt.

(b) In the event the carrier investigating the claim requires information in addition to that provided by § 1008.4, the request for additional information must be in writing and must be transmitted to the claimant not later than fifteen (15) days from the date of receipt of the claim.

§ 1008.6 Investigation of claims.

Upon receipt of a claim, the carrier that collected the transportation charges shall promptly initiate an investigation and establish a file, as required by § 1008.8, or if a claim has not been filed, and an overcharge, duplicate payment, or overcollection is discovered by the carrier, the latter shall promptly initiate an investigation and establish a file as though a claim had been filed. See § 1008.10.

§ 1008.7 Disposition of claims.

(a) Each carrier which collected the transportation charges, and which receives a written claim, shall pay, decline, or otherwise make settlement of the claim as its investigation may warrant, in writing to the claimant, within 60 days after receipt of the claim by the carrier: *Provided, however,* That, if the claim cannot be processed and disposed of within 60 days, the carrier shall at that time and at the expiration of each succeeding 30-day period the claim remains pending, advise the claimant in writing of the current status of the claim and the reason for the delay in making a final disposition. The carrier shall keep a copy of this advice to the claimant in its claim file. If the carrier declines payment of the claim, or otherwise makes settlement in an amount different from that sought, the carrier shall notify the claimant, in writing, the reason(s) for its action citing tariff authority or other pertinent information developed as a result of its investigation.

(b) If the claim was initially filed with a carrier other than the carrier collecting the transportation charges, the carrier processing the claim shall notify the first carrier of its disposition of the claim so that carrier may complete the entry in its claim register. See § 1008.8.

§ 1008.8 Maintenance of claim register and file.

(a) Each carrier shall maintain a claims register which shall contain the following information:

- (1) Claim number assigned by the carrier (see paragraph (b) of this section);
- (2) Name of claimant;
- (3) Date of shipment;
- (4) Date claim received;
- (5) Date of acknowledgment;
- (6) Date of request, if any, for additional information;
- (7) Disposition of claim (declined, paid or paid in part); and
- (8) Date of disposition.

(b) Each carrier shall at the time a claim is received create a separate file and assign it a successive claim file number and note that number on all documents filed in support of the claim and all records and correspondence with respect to the claim, including written acknowledgment of receipt and, if in its possession, the shipping orders and delivery receipt, if any, covering the shipment involved. At the time a claim is received the carrier shall record the date of receipt on the face of the claim document, and the date of receipt shall also appear in the carriers' written acknowledgment of receipt to claimant.

§ 1008.9 Indemnity agreement.

When claimant cannot furnish original documents as required by § 1008.4, and, instead furnishes certified copies of such documents, the claimant shall enter into an agreement indemnifying the carrier for subsequent duplicate claims which may be filed and supported by the original documents.

§ 1008.10 Disposition of overcharges, duplicate payment, or overcollection not supported by claims.

If any carrier discovers, through routine auditing or otherwise, that an overcharge, duplicate payment, or overcollection exists for any paid transportation charge, which has not been supported by a claim, that overcharge, duplicate payment, or overcollection must be entered in the claims register as if a claim had been filed. When a carrier which was party to the movement, but did not collect the transportation charges, discovers that an overcharge, duplicate payment, or overcollection claim has been made, that carrier shall enter the overcharge, duplicate payment, or overcollection in its claims register and immediately notify in writing the carrier obli-

gated under this section to investigate the matter. In the case of such overcharge, duplicate payment, or overcollection, the carrier which collected the charges must make a prompt refund to that person who paid the transportation charges, or the person that made duplicate payment, but in no event may the carrier retain such overcharge, duplicate payment, or overcollection for a period beyond thirty (30) days from the date of discovery.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 32]

HUNTING

San Bernard National Wildlife Refuge, Texas

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: Notice is hereby given that it is proposed to add San Bernard National Wildlife Refuge, Texas to the list of refuge areas open for the hunting of migratory game birds. The Director has determined that this action is compatible with the major purposes for which this refuge was established and that there is public demand for additional recreational opportunity. He has also determined that the action is compatible with the principles of sound wildlife management and will otherwise be in the public interest. Hunting, subject to annual special regulations, will provide additional public recreational opportunity.

DATES: Comments must be received on or before October 31, 1977.

ADDRESS: Comments may be addressed to the Director (FWS/RF), U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Ralph H. Town, Division of National Wildlife Refuges, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (202-343-4305).

SUPPLEMENTARY INFORMATION: Ralph H. Town is also the primary author of this proposed rule. As a general rule, most areas within the National Wildlife System are closed to hunting

until officially opened by regulation. The Director may open refuge areas to public hunting upon a determination that such use is compatible with the major purposes for which such areas were established, that it would be in accordance with provisions of all laws applicable to the area, will be compatible with the principles of sound wildlife management and will otherwise be in the public interest. It is the purpose of this rulemaking to allow the hunting of migratory game birds on San Bernard National Wildlife Refuge, Texas.

Pursuant to the requirements of § 102 (2) (C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332 (2) (C), an environmental assessment has been prepared on this proposal, which is available for public inspection and copying at Room 2340, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240, or by mail, addressing the Director at the address given above. A determination will be made prior to the time of final rulemaking as to whether this is a major Federal action significantly affecting the quality of the human environment.

The policy of the Department of the Interior is, whenever practical to afford the public an opportunity to participate in the rulemaking process. Therefore, interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to the address given above. All relevant comments received will be considered by the Director prior to the issuance of final rulemaking.

NOTE:—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Accordingly, it is proposed to amend 50 CFR 32 by the addition of San Bernard National Wildlife Refuge as follows:

§ 32.11 List of open areas; migratory game birds.

TEXAS

SAN BERNARD NATIONAL WILDLIFE REFUGE

Dated: October 3, 1977.

LYNN A. GREENWALT,
Director, U.S. Fish and
Wildlife Service.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

[Amtd. 1]

SALES OF CERTAIN COMMODITIES

Monthly Sales List (Period June 1, 1977, Through May 31, 1978), Interest Rates, and Peanuts

The CCC Monthly Sales List for the period June 1, 1977, through May 31, 1978, published at 42 FR 40945 (Aug. 12, 1977) is amended as follows:

1. The last sentence of Section 1(b) entitled "General" is revised to read as follows: "Interest at 9 percent will be charged for delinquent payments on all sales."

2. Section 1(c) entitled "General" is revised to read as follows:

(c) The pricing provisions in the CCC Monthly Sales List in effect at time of sale shall be applicable to sales of all commodities. Grain sales are made on-track with immediate delivery; in-store for delivery as soon as possible; or FOB origin for delivery as soon as possible subject to availability of transportation.

In the case of sales FOB buyers conveyance, carrying charges for the account of the buyer will accrue as specified in the contract. Sales for delivery other than immediate or as soon as possible will be made only pursuant to terms specified in special provisions.

3. The provisions of Section 32 entitled "Peanuts, Farmers Stock-Restricted Crushing and Domestic Use Oil (Segregation 1 and 2 Lots)" published at 42 FR 40946 (Aug. 12, 1977) are deleted.

(Sec. 4, 62 Stat. 1070, as amended (15 U.S.C. 714b); sec. 407, 63 Stat. 1955, as amended (7 U.S.C. 1427).)

Effective date: August 31, 1977, 2:20 p.m. (EST).

Signed at Washington, D.C., on September 27, 1977.

RAY FITZGERALD,
Executive Vice President,
Commodity Credit Corporation.

Food Safety and Quality Service

U.S. STANDARDS FOR GRADES OF CANNED APPLES AND FOR GRADES OF FROZEN APPLES

Availability of Drafts for Study, Review and Comment in Preparation for Proposed Revision

Take notice that the Fruit and Vegetable Quality Division of the Food Safety

and Quality Service, U.S. Department of Agriculture, has study drafts available for review and comment in its consideration of proposed revisions to the U.S. Standards for Grades of Canned Apples and for Grades of Frozen Apples.

Comments, suggestions, recommendations and requests for single copies of the two study drafts will be welcome until April 1, 1978, and should be sent to:

Chief, Processed Products Branch, Fruit and Vegetable Quality Division, FSQS, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated: October 3, 1977.

ROBERT ANGELOTTI,
Administrator.

Forest Service

HUSTON PARK LAND MANAGEMENT PLAN FOR THE MEDICINE BOW NATIONAL FOREST

Notice of Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Huston Park Land Management Plan for the Medicine Bow National Forest. The Forest Service report number is USDA-FS-R2-FES(Adm) FY-77-02.

The environmental statement concerns a proposed action to implement a revised land management plan for the 63,560 acre Huston Park of the South Hayden planning unit area.

The draft environmental statement was transmitted to CEQ on December 17, 1976.

This final environmental statement was transmitted to CEQ on September 29, 1977.

Copies are available for inspection during regular working hours at the following locations:

USDA—Forest Service, So. Agriculture Bldg., Room 3230, 12th St. and Independence Ave., SW., Washington, D.C. 20250.

USDA—Forest Service, 11177 West 8th Avenue, P.O. Box 25127, Denver, Colo. 80225.

USDA—Forest Service, Medicine Bow National Forest, 605 Skyline Drive, Laramie, Wyo. 82070.

A limited number of single copies are available upon request to Craig W. Rupp, Regional Forester, USDA—Forest Service, 11177 West 8th Avenue, P.O. Box 25127, Denver, Colo. 80225.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

EINAR L. ROGET,
Acting Deputy Chief.

SEPTEMBER 29, 1977.

[3410-11]

TIMBER MANAGEMENT PLAN, HIAWATHA NATIONAL FOREST

Notice of Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement on the Timber Management Plan for the Hiawatha National Forest, USDA-FS-R9-DES(ADM)-77-08.

The environmental statement concerns a proposed plan for managing the timber resource on the Hiawatha National Forest for the period June 1977 through June 1987. The Hiawatha National Forest is located in Alger, Delta, Schoolcraft, Chippewa, and Mackinac Counties, Mich.

This draft environmental statement was transmitted to CEQ on September 22, 1977.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3231, 12th St. and Independence Ave., SW., Washington, D.C. 20250.

USDA, Forest Service, Eastern Region, 633 West Wisconsin Avenue, Milwaukee, WI 53203.

USDA, Forest Service, Hiawatha National Forest, 2727 N. Lincoln Rd., Escanaba, Mich. 49829.

A limited number of single copies are available upon request to Forest Supervisor, Hiawatha National Forest, 2727 N. Lincoln Rd., Escanaba, Mich. 49829.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Written comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Written comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Hiawatha National Forest, 2727 N. Lincoln Rd., Escanaba, Michigan 49829. Comments must be received by December 30, 1977, in order to be considered in the preparation of the final environmental statement.

JAMES H. FREEMAN,
Director, Planning,
Programming and Budgeting.

[6320-01]

CIVIL AERONAUTICS BOARD

[Docket Nos. 29093; Order 77-9-136]

BRANIFF AIRWAYS, INC. ET AL.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 30th day of September 1977.

There are pending before the Board applications by Braniff Airways, Continental Air Lines and Eastern Air Lines for improved authority between Portland, Oregon, and Seattle-Tacoma, Washington, on the one hand, and Miami, Ft. Lauderdale, Tampa and St. Petersburg/Clearwater, Fla., and Atlanta, Ga., on the other hand.¹ The carriers were prompted to file these applications by the Board's opinion in the "Miami-Los Angeles Competitive Nonstop Case," Order 76-3-93, March 15, 1976. In that decision we awarded nonstop Miami-Los Angeles authority to Western Air Lines and permitted Western, over objections, to combine (or "tack") that award with its nonstop Los Angeles-Portland/Seattle authority to operate one-stop Miami/Ft. Lauderdale-Pacific Northwest service. Western did, in fact, inaugurate one-stop Miami-Seattle DC-10 service on August 1, 1976. We expressly recognized in our opinion that it might be inequitable to decline to restrict Western's operations without entertaining requests by other carriers for relief from single-plane restrictions:

In short, we cannot find that a restriction on Western's ability to tack . . . is required by either legal considerations or the public interest. However, the Board is not insensitive to the elements of equity in Braniff's argument, and accordingly has decided that it would be receptive to applications by Braniff and/or the other carriers whose Miami-Seattle/Portland authority had heretofore been restricted (Continental and Eastern) for relaxation of those restrictions (Order 76-3-93, at 31-32).

In our Order on Reconsideration, Order 76-6-120, June 16, 1976 at 17, we reiterated our position and elaborated upon our rationale and assumptions.

The particulars of the pending applications are as follows: Braniff requests deletion of section (b) of condition (17) of its certificate for Route 9 which prohibits single-plane service between Miami/Ft. Lauderdale and Tampa/St.

See footnotes at end of article.

NOTICES

Petersburg/Clearwater and Portland and Seattle on flights over segment 10 which serve Dallas/Ft. Worth.² Continental seeks deletion of section (d) of condition (8) of its certificate for Route 29 which contains an outright prohibition against single-plane service in the Miami/Ft. Lauderdale-Seattle/Portland markets. If the restrictions were removed, Continental could offer one-stop Miami/Ft. Lauderdale-Seattle/Portland service via Houston.³ Finally, Eastern requests modification of section (a) of condition (10) of its certificate for Route 10 to remove Atlanta, Miami, Ft. Lauderdale, Tampa and St. Petersburg/Clearwater from the list of points which may not receive single-plane service to Portland or Seattle. The carrier would then be able to offer one-stop service via St. Louis.⁴

Each of the three applications was accomplished by a motion for an order to show cause. The carriers allege generally that their restrictions were imposed a number of years ago and that the rationale for retaining them no longer exists. They point to the Board's policy of removing trunkline operating restrictions in the absence of an affirmative showing that they should be retained and they cite the Board's statements in "Miami-Los Angeles" as the predicate for granting their applications by non-hearing procedures.

Answers in support of Braniff's and Eastern's applications were submitted by the Tampa Bay Area Parties. Eastern answered the Braniff and Continental applications stating that it does not object as long as its own application is granted concurrently. Northwest also filed a pleading styled an "answer . . ." and motion to institute proceeding.⁵ Northwest argues that it already possesses and utilizes single-plane Pacific Northwest-Southeast authority and that it would be "patently illegal" and "inequitable" to grant comparable authority to the three applicants by nonhearing procedures. The carrier notes that the needs of these markets have never been specifically considered in a formal proceeding and suggests that the Board now institute such a case. If, however, the Board wishes to proceed by show cause order, Northwest claims that its certificate should be amended in a similar manner to permit nonstop service in the markets in issue. The Tampa Bay Area Parties and the Washington Parties support the motion to institute a proceeding but the latter argue that the pendency of a proceeding should not deter the Board from granting the improvements sought by Braniff, Continental and Eastern. Eastern opposes the motion claiming that it is a delaying tactic antithetical to the public interest and that Northwest holds no preferred position because its authority was obtained by tacking unrelated segments rather than by implementing specific route authority.

Upon consideration of the pleadings and all the relevant facts, the Board tentatively finds and concludes that the

public convenience and necessity do not require retention of the prohibition against single-plane service by Braniff, Continental and Eastern in the Miami/Tampa/Atlanta-Portland/Seattle markets; and that the motion of Northwest to institute a proceeding should be denied. In support of these ultimate conclusions, we make the following tentative findings.

Although we stated in our "Miami-Los Angeles" opinion that we would be receptive to applications from Braniff, Continental and Eastern for removal of their single-plane restrictions in the Miami/Ft. Lauderdale-Portland/Seattle markets, relief cannot be granted automatically irrespective of the facts. Our award to Western was, of course, based upon an evidentiary hearing record. On the other hand, the Board has stated on a number of prior occasions that the show cause procedure is appropriate as a means of evaluating the need for relief from restrictions which impede efficient and economic operations in situations which do not raise complex and controversial questions of fact, law, or policy, and in which grant of the requested relief will have no more than a minimal impact on competing carriers.⁶ On the basis of the facts now before us, we believe that this is the case with respect to not only the Miami/Fort Lauderdale markets, but also the Tampa/St. Petersburg/Clearwater and Atlanta markets.⁷

From an operating perspective, a single-plane restriction is probably the most onerous type of prohibition, with the possible exception of a closed-door restriction. It not only limits the manner in which a carrier's management schedules through-plane or direct service over its system, but also may artificially preclude valuable service to the public. Therefore, the Board has been reluctant to impose this restriction unless there is an overriding need to protect incumbent carriers or unless it is necessary to keep the scope of a case within manageable proportions. All of the restrictions in issue here derived from procedural decisions in the "Pacific Northwest-Southwest Service Investigations", 46 C.A.B. 652 (1967), and the "Southern Tier Competitive Nonstop Investigation", Order 69-9-111, September 18, 1969. Eastern held nonstop Miami/Tampa-St. Louis authority when "Pacific Northwest-Southwest" was instituted, but the Board imposed a pretrial restriction against taking that authority with any new award purely to limit the scope of the case.⁸ The restrictions on Braniff's and Continental's authority were imposed as a result of complex circumstances related to separate awards in the two major cited cases, which were conducted concurrently.⁹ It is sufficient for present purposes to observe that they were unrelated to any need to protect incumbents in the markets and there were no substantive findings that they were otherwise required by the public convenience and necessity. Consequently, there has been presented a prima facie case for removing these restrictions.

In the Pacific Northwest-Florida markets, the Board has recently found, on the basis of evidentiary records, that there is no affirmative need for single-plane restrictions.¹⁰ It follows that, if there is no affirmative need to restrict newly authorized carriers, then we cannot justify refusing to place incumbents on an equal footing when the incumbents have labored under restrictions adopted for procedural reasons.¹¹ We need not, and do not, find an affirmative public need for competitive one-stop service by four carriers in the Pacific Northwest-Florida markets. It is immaterial whether all of the carriers, in fact, exercise the improved authority proposed to be granted them. Rather, what we do tentatively find is that where the single-plane restrictions previously imposed on Braniff, Continental, and Eastern for procedural reasons in earlier cases have been shown not to be required in the public interest, where the public may benefit from new or additional single-plane service, and where the carriers involved may achieve operating efficiencies, the public convenience and necessity require elimination of these single-plane restrictions.¹²

The Atlanta-Portland/Seattle markets are not "minor" nor has the Board itself found in a formal proceeding that there is no affirmative need for the retention of single-plane restrictions.¹³ If Eastern were granted authority coextensive with Northwest's, the latter might lose some traffic. We tentatively find that the impact will not be substantial. Eastern already offers much more service in the Portland market and accounts for 44 percent of the revenue passenger miles, compared with Northwest's 13 percent. (See Appendix B.) In the Seattle market, Northwest's RPM participation is 48 percent, but Eastern's share is 30 percent despite Northwest's superior authority (one-stop versus two-stop) and stronger intermediate traffic support (Chicago or Minneapolis/St. Paul versus St. Louis and Omaha).¹⁴ Northwest has not submitted an estimate of the diversion it might suffer as a result of Eastern's proposed amendment. If an estimate is submitted in response to this order, we will evaluate it to determine whether the impact of such diversion, either on Northwest's system or in particular markets, is so great as to require us to modify our tentative findings that the public convenience and necessity do not require retention of the restrictions here in issue. See Greenville/Spartanburg-Washington/New York Subpart M Case, Order 77-10-1, October 3, 1977.

Finally, we are not persuaded that Northwest has a stake in these markets that legally or equitably merits protection.¹⁵ First, even with one-stop authority in all markets, Northwest has offered one-stop service on a regular basis only between Seattle and Miami/Ft. Lauderdale and Tampa. Second, Northwest has established what might be termed a relatively dominant stake in only one market, Seattle-Tampa. The majority of the

See footnotes at end of article.

traffic in every market except Seattle-Tampa has moved on Eastern's multi-stop flights or connecting services, which indicates quite clearly that improvements in the quantity of single-plane services are warranted. Last, we are constrained to note that Northwest's contentions of illegality and inequity are completely unsupported by citation to administrative or judicial precedent.

Northwest's request for a formal evidentiary proceeding will be deferred. With the exception of Seattle-Atlanta (53,260 O&D plus connecting passengers), which receives multiple daily one-stop and two-stop service, the Pacific Northwest-Southeast markets are small by any standard; the second largest is Seattle-Miami/Ft. Lauderdale, with only 29,320 O&D plus interline connecting passengers in the year ended June 30, 1976, and all Florida markets together accounted for only 63,360 passengers. This level of traffic is far lower than the levels in markets that have recently been set for hearing. However, outright denial of Northwest's motion at this time is not indicated because we are in the process of reviewing our hearing priority standards. When we have settled upon standards for the future, these markets will be measured against them and a decision will be made on whether or not to institute a proceeding.

We also tentatively find and conclude that the removal of operating restrictions as contemplated here will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969. Braniff, Continental, and Eastern propose to combine existing flights; therefore it is not anticipated that there will be any increase in operations at any airport resulting from the proposed improved authority.¹⁶

Interested persons will be given thirty (30) days following the date of adoption of this order to show cause why the tentative findings and conclusions set forth should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically reciting the tentative findings and conclusions to which objection is taken. Objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why a hearing is considered necessary and what relevant and material facts he would expect to establish through a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and modifying certain conditions in the certificates of public convenience and necessity of Braniff Airways, Inc. for Route 9,

Continental Air Lines, Inc. for Route 29, and Eastern Air Lines, Inc. for Route 10, as follows:

a. *Braniff's condition (17)*: "On flights over segment 10 which serve Dallas-Ft. Worth, Tex., the holder shall not provide single-plane service between New Orleans, La., on the one hand, and Portland, Oreg., Seattle-Tacoma, Wash., Denver, Colo., Wichita, Kans., Oklahoma City, Okla., or Amarillo or Lubbock, Tex., on the other hand."

b. *Continental's condition (8)*: "The holder shall not operate single-plane service (a) over segment 6 between Chicago, Ill., on the one hand, and points south of Kansas City, Mo., on the other hand (other than points on segment 6), (b) between Denver, Colo., on the one hand, and Ft. Worth or Dallas, Tex., on the other hand, and (c) between Los Angeles-Ontario-Long Beach, Calif., on the one hand, and Dallas and Ft. Worth, Tex., on the other hand, except over segment 16."

c. *Eastern's condition (10)*: "The holder shall not provide single-plane service (a) on segment 1, 2, 4, or 5 between Portland, Oreg., or Seattle-Tacoma, Wash., on the one hand, and New York, N.Y., Newark, N.J., Washington, D.C., Baltimore, Md., or Chicago, Ill., on the other, (b) between Columbus, Ga., on the one hand, and Washington, D.C., New York, N.Y., or Newark, N.J. on the other, (c) between Miami, Ft. Lauderdale, Tampa or St. Petersburg-Clearwater, Fla. on the one hand, and Los Angeles-Ontario-Long Beach, Calif., or Houston, Tex., on the other, or (d) between San Juan, P.R. and Los Angeles-Ontario-Long Beach, Calif."

2. Any interested person having objection to the issuance of an order making final the proposed findings or conclusions set forth here shall, within 30 days after the date of service of this order, file with the Board and serve upon all persons listed in paragraph 8, a statement of objections together with a summary of testimony, statistical data, and other evidence relied upon to support the stated objections;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative finding and conclusions set forth here;

5. The respective petitions of Braniff Airways (Docket 29093), Continental Air Lines (Docket 29131) and Eastern Air Lines (Docket 29142) for an order to show cause are granted to the extent indicated above and denied in all other respects;

6. The motion of Northwest Airlines, Inc. in Dockets 29093, 29131, and 29142 to institute a proceeding is deferred.

7. A copy of this order shall be served upon Braniff Airways, Continental Air Lines, Eastern Air Lines, Northwest Airlines, the Tampa Bay Area Parties, and the Washington Parties."

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

FOOTNOTES

¹ Northwest Airlines filed an application on November 24, 1975, in Docket 28540 for Portland/Seattle-Atlanta nonstop authority together with a motion to consolidate the application into the Oklahoma-Denver-Southeast Points Investigation, Docket 20421 et al. By Order 75-12-150, December 30, 1975, the motion was denied and the application was dismissed pursuant to Rule 12(e) of the Rules of Practice. Apparently unaware that its application had been dismissed, Northwest filed an Amendment No. 1 in Docket 28540 on April 26, 1976, to add Tampa/St. Petersburg/Clearwater, Ft. Lauderdale and Miami. Concurrently, the carrier filed a motion to institute a proceeding to hear Docket 28540, as well as the three dockets cited here, and Docket 29047, a Subpart N application by Eastern. An answer was filed on May 5 by the Tampa Bay Area Parties and consolidated answers in all five aforementioned dockets were filed by Eastern and the Washington Parties. However, the mere filing of an amendment does not reinstate a docket that has been previously dismissed. On the other hand, we note that Northwest has recently filed a Subpart N application in Docket 30233 requesting removal of restrictions precluding nonstop operations between Seattle, on the one hand, and Atlanta, Tampa-St. Petersburg-Clearwater, Miami and Fort Lauderdale, on the other. Northwest's various requests for improved Pacific Northwest-Southeast authority (including its motion to institute a proceeding, which is alternatively an answer in the four dockets just noted, and answers relating to it), are considered here, except to the extent that they address matters in Docket 28540.

² By a combination of other restrictions and segmentation, there is no way for Braniff to offer any single-plane service in these markets, regardless of the number of stops. Removal of the restriction would enable Braniff to offer one-stop/Florida-Pacific Northwest service via Dallas/Ft. Worth.

³ By virtue of its recent award in the "Oklahoma-Denver-Southeast Points Investigation," Order 77-4-146, April 29, 1977, Continental may now operate single-plane, one-stop service in the Miami/Ft. Lauderdale/Tampa-Portland/Seattle Markets via Denver. Such service is still prohibited via Houston.

⁴ Eastern may now offer single-plane Miami/Ft. Lauderdale-Pacific Northwest service but its best authority is three-stop via Omaha, St. Louis and a point southeast of St. Louis.

⁵ See note 1, supra.
⁶ Order 73-2-30, February 8, 1973. See also Order 73-7-77, July 16, 1973.

⁷ We recognize that Western was not awarded Tampa or Atlanta authority, so that the requests of Braniff and Eastern, to the extent that they include Tampa and Atlanta, are unrelated to the Miami-Los Angeles decision.

⁸ See Order E-21601, December 21, 1964.
⁹ See Order 69-9-111, at 6-7, and Order 72-1-99, January 28, 1972, for a recitation of these circumstances.

¹⁰ "Miami-Los Angeles," supra p. 2, and "Oklahoma-Denver-Southeast Points," supra n. 3.

¹¹ See our "Oklahoma-Denver-Southeast Points" opinion, at note 15.

¹² We also note, in passing, that Portland-Tampa generated fewer than 20 O&D plus interline connecting passengers per day. (See Appendix A.) Under present Board policy, minor markets such as this "do not present competitive considerations of significant magnitude" and, therefore, relief may be granted by show-cause procedures. Order 76-5-101, May 21, 1976, at 9-10.

¹³ However, in finding that United Air Lines should be awarded nonstop Atlanta-Denver authority in "Oklahoma-Denver-Southeast Points," the Administrative Law Judge concluded, on the basis of the record, that "it would be inconsistent with the public interest to impose restrictions on the new authorizations in this proceeding to prevent one-stop or single-plane service between the Pacific Northwest and Atlanta * * *." I.D. at 22.

¹⁴ For the year ended March 31, 1976, a total of 381,070 on-line local and interline connecting passengers flowed over all segments of Eastern's Atlanta-St. Louis-Omaha-Seattle routing. In comparison, 687,030 such passengers flowed over Northwest's Atlanta-Chicago-Seattle routing and 236,960 over the Atlanta-Minneapolis/St. Paul-Seattle routing. Thus, Northwest theoretically has far greater access to intermediate support traffic although it must be conceded that Northwest faces more competition over its routings than does Eastern. (Source: O&D Survey, Table 10.)

¹⁵ Northwest argues that the Board is legally and equitably obliged to propose to upgrade Northwest's authority to nonstop if we propose to allow the other applicants to provide one-stop service.

¹⁶ Notwithstanding this determination, we point out that each of these applicants should have filed an environmental evaluation pursuant to § 312.12(c) of the Board's regulations. This evaluation could have consisted of responses to the specific requests contained in section 312.12(c)(1), and a statement that the requests in §§ 312.12(c)(2)-(5) are not applicable since no increase in operations is contemplated. This type of evaluation shall be required in future similar situations.

¹⁷ All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

¹⁸ As explained in note 1, supra, Northwest's motion to institute a proceeding as well as all other pleadings filed in Docket 28540 after December 30, 1975, will be removed and the docket will be closed.

¹⁹ Appendices A and B filed as part of the original document.

CIVIL SERVICE COMMISSION

ADVISORY COMMITTEE ON ADMINISTRATIVE LAW JUDGES

Notice of Meeting

In accordance with the Federal Advisory Committee Act, Public Law 92-463, the U.S. Civil Service Commission announces the following meeting:

Name: Advisory Committee on Administrative Law Judges.

Date and time: October 21, 1977, 9:30 A.M.—4:00 P.M.

Place: U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C.

Room: 5323.

Type of meeting: Open.

Contact person: Arthur L. Burnett, Assistant General Counsel, U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C. Telephone: 202-632-5421.

Purpose of committee: To continue its discussion of possible recommendations the Advisory Committee wishes to make

in connection with governmental reorganization plans as they may affect the structure of the Administrative Law Judges system, selection, recruitment, compensation and productivity.

Dated: October 7, 1977.

JAMES C. SPRY,
Executive Assistant
to the Commissioners.

[6325-01]

NATIONAL IPA PROJECT GRANTS

Request for Proposals

The U.S. Civil Service Commission is now accepting proposals from eligible applicants for national IPA program grants to be made for Fiscal Year 1978 (commencing October 1, 1977) pursuant to Section 506(a) of the Intergovernmental Personnel Act (IPA). Under the IPA, the Commission can award grants for up to 50 percent of the costs of approved projects. In addition to State and local general governments, eligible applicants include non-profit organizations which render services to governments, provided the proposed projects involve training State and local officials.

The Commission is interested in:

A. Projects which, on a nationwide basis, would use innovative training ac-

tivities and techniques to assist in the solving of high priority State and local government management problems.

B. Projects which through research, demonstration, or training, would contribute to the resolution of priority State and local personnel management issues such as affirmative action, personnel system development, selection improvement, productivity improvement, and labor management relations.

Projects with potential for the greatest direct impact will be given preference. To be considered for funding, a proposal must contain evidence that the proposed project has been requested by State or local governments.

Proposals proposed should be intergovernmental in nature and involve a substantial national audience. Projects which would be carried out on a local or regional basis, even though wide applicability is intended or projected, should be submitted to the appropriate State IPA office or the regional office of the Commission for consideration.

Proposals will be evaluated according to the following basic criteria:

1. The probable impact of the proposed project on improved central policy making and management capability.
2. The extent of need by and support of the proposed project as expressed by State and local government officials.
3. The extent to which the proposed project would result in newly established or strengthened programs, systems, or activities which would be continued after a period of IPA support.

4. The quality and efficiency of the proposed means by which the project would be executed.

5. The potential for broader use by other jurisdictions and organizations of the results or products of the project.

Grant funds available for competitive award to initiate new efforts in Fiscal Year 1978 will be limited. An estimated \$400,000 of IPA grant funds will be committed to national projects approved under this request. The deadline for receipt of official applications is December 12, 1977.

For further information, application forms and guidelines, please contact: U.S. Civil Service Commission, Bureau of Intergovernmental Personnel Programs, Grants Administration Division, 1900 E. Street, NW., Washington, D.C. 20415, (202-632-6274). Interested parties are encouraged to contact the above office before submitting a formal application.

This notice pertains only to the award of Fiscal Year 1978 IPA grant funds for national programs. For further information about IPA grant funds for specific State and local governments and governments and combinations thereof, contact the appropriate regional office of the U.S. Civil Service Commission, see list below.

ART ADVISORY PANEL

Closed Meeting

Notice is hereby given pursuant to section 10(a)(2) of the Federal Advisory

Committee Act, 5 U.S.C. App. 1 (1977), as amended by Government in the Sunshine Act of 1976, Pub. L. No. 94-409, § 5(c), 90 Stat. 1247, that a closed meeting of the Art Advisory Panel will be held on November 8 and 9, 1977, beginning at 9:30 A.M. in Room 3313, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224.

The agenda will consist of the review and evaluation of the acceptability of market value appraisals of works of art involved in Federal income, estate, or gift tax returns. This will involve the discussion of material in individual tax returns made confidential by the provisions of section 6103 of Title 26 of the United States Code.

A determination as required by section 10(d) of the Federal Advisory Committee Act has been made that these meetings are concerned with matters listed in section 552b(c), (3), (4), (6), and (7) of Title 5 of the United States Code, and that the meetings will not be open to the public.

JEROME KURTZ,
Commissioner.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

THEATRE ADVISORY PANEL MEETING

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the Theatre Advisory Panel to the National Council on the Arts will be held on October 22, 1977, from 9:30 a.m. to 5:15 p.m. and on October 23, 1977, from 9:30 a.m. to 5:30 p.m. in Room 1340 of the Columbia Plaza Building, 2401 E Street NW., Washington, D.C. 20506.

NOTICES

A portion of this meeting will be open to the public on October 22, 1977, from 9:30 a.m. to 11:00 a.m. and 12:00 to 5:15 p.m., and on October 23, 1977, from 9:30 a.m. to 5:30 p.m. The agenda for these sessions will include a discussion of policy.

The remaining sessions of this meeting October 22, 1977 from 11 a.m. to 12 noon are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the *FEDERAL REGISTER* March 17, 1977, these sessions will be closed to the public pursuant to subsections (c) (4), (6), and 9 (B) of section 552(b) of Title 5, United States Code.

For further information with reference to this meeting can be obtained from Mr. Robert M. Sims, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-624-6377.

Dated: September 29, 1977.

DEPARTMENT OF COMMERCE

Bureau of the Census
SPECIAL CENSUSES
Results

The Bureau of the Census conducts a program whereby a local or State government can contract with the Bureau to conduct a special census of population. The content of a special census is ordinarily limited to questions on household relationship, age, race, and sex, although additional items may be included at the request and expense of the sponsor. The enumeration in a special census is conducted under the same concepts which govern the Decennial Census.

Summary results of special censuses are published semiannually in the *Current Population Reports—Series P-28*, prepared by the Bureau of the Census. For each area which has a special census population of 50,000 or more, a separate publication showing data for that area by age, race, and sex is prepared. If the area has census tracts, these data are shown by tracts.

The data shown in the following table are the results of special censuses conducted since December 31, 1976, for which tabulations were completed between September 1, 1977, and September 30, 1977.

Dated: October 3, 1977.

MANUEL D. PLOTKIN,
Director,
Bureau of the Census.

State/place or special area	County	Date of census	Population
Illinois			
Chillicothe City	Peoria	Sept. 11, 1976	5,982
Greenup village	Cumberland	July 18, 1977	1,646

National Oceanic and Atmospheric
Administration
FOREIGN FISHING
Schedule of Fees

AGENCY: National Marine Fisheries Service Department of Commerce.

ACTION: Notice of schedule of fees for foreign fishing.

SUMMARY: This amendment establishes the schedule of fees which will be charged each foreign nation for fishing in calendar year 1978 for fishery resources subject to the jurisdiction of the United States. The criteria for establishing the fees, method of payment of fees, other charges, and the process for applying for refunds also are presented.

EFFECTIVE DATE: January 1, 1978.

ADDRESSES: Questions may be directed to Director, National Marine Fisheries Service, Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT:

Richard Schaefer, Chief, Fisheries Management Operations Division, National Marine Fisheries Service, Washington, D.C. 20235 (202-634-7454).

NATIONAL OCEANIC AND ATMOSPHERIC
ADMINISTRATION
SCHEDULE OF FEESFISHING BY FOREIGN VESSELS IN FISHERIES
OVER WHICH THE UNITED STATES EXERCISES
EXCLUSIVE FISHERY MANAGEMENT
AUTHORITY

On June 15, 1977, the National Marine Fisheries Service (NMFS) published in the *FEDERAL REGISTER* (42 FR 30529) a notice of a proposed fee schedule for calendar year 1978, for fishing by foreign vessels for species of fish over which the United States exercises exclusive fishery management authority, pursuant to Section 204(b)(10) of the Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 et seq.), hereinafter the "Act." The proposed schedule establishes fees which must be paid by the owner or operator of any foreign fishing vessel wishing to fish within the United States Fishery Conservation Zone, or beyond it as authorized by the Act, before actually engaging in any fishing activity.

The notice of June 15, 1977, proposed a permit fee based on the gross registered tonnage for catching and processing vessels, a flat fee for support vessels, and a poundage fee of 3.5 percent of the ex-vessel price of the fish allocated to each nation. The ex-vessel prices for computing fees are taken from "Fisheries of the United States, 1976," a

Department of Commerce, NMFS/NOAA publication, except where otherwise noted.

In consideration of comments received during the public comment period, which closed July 15, 1977, the Director, National Marine Fisheries Service, hereinafter the "Director," hereby issues notice of a fee schedule for the calendar year 1978 for fishing by foreign vessels for species of fish over which the United States exercises exclusive fishery management authority. This fee schedule has been duly established by the Associate Administrator for Marine Resources of the National Oceanic and Atmospheric Administration.

PERTINENT SECTIONS OF THE ACT

Section 201(d) of the Act provides that foreign fishermen may be allowed to fish for " * * * that portion of the optimum yield of such fishery which will not be harvested by vessels of the United States * * * ." Section 204(b)(10) of the Act further provides that reasonable fees shall be paid by the owner or operator of any foreign fishing vessel for which a permit is issued. Fishing vessels are defined by Section 3(11) of the Act to include several types of vessels in addition to those actually engaged in harvesting fish. This includes any vessel " * * * aiding or assisting one or more vessels at sea in the performance of any activity relating to fishing, including, but not limited to, preparation, supply, storage, refrigeration, transportation, or processing * * * ." Section 204(b)(10) of the Act further provides, in part: "In determining the level of such fees, the Secretary may take into account the cost of carrying out the provisions of this Act with respect to foreign fishing, including, but not limited to, the cost of fishery conservation and management, fisheries research, administration, and enforcement."

CRITERIA FOR ESTABLISHING FEE SCHEDULE

The following criteria were considered in developing the fee schedule for foreign fishing:

1. Fees will not be used as a management tool to restrict foreign fishing. Foreign fishing effort will be controlled by management plans and associated regulations.

2. The fees will not be so high as to prevent nations from utilizing the allocated surplus solely because of the fee level. The fees must be reasonable.

3. Fees will recover an appropriate part of the management costs related to foreign fishing.

4. The same rate must apply to all foreign nations and the rate will not change within a given calendar year.

NOTICES

5. Fees will be simple to compute and collect. Fees shall be paid as provided in the Act.

6. Every vessel, by law, must pay a fee and obtain a permit, but the fee may vary with size and function of the vessel.

COMMENTS RECEIVED

Public comments received during the 30 day period after June 15, 1977, centered on the following major issues:

1. Charging fees for valuable non-surplus species (prohibited species) taken as by-catch in directed fisheries: Some commenters have indicated that prohibited species taken as by-catch should be retained and that high fees should be charged for such species. A low probability of survival for most discarded species (except for certain creatures of the Continental Shelf) was given as the main reason for retention, and that waste of the resource should be avoided. Others have proposed no retention, and that no fees should be charged for such by-catch. In their view, the no-retention provision will discourage fishing for prohibited species.

The views of the latter group of commenters are in accord with the provisions of the Act. The Act does not permit retention of prohibited species. Accordingly, the fee schedule adopted provides that a poundage fee will be charged only for those species which may be retained. No fee will be charged for species which may not be retained.

2. The data base for calculating poundage fees: The vast majority of public comments supported the use of 1976 U.S. ex-vessel prices as the appropriate basis for setting poundage fees. Two of the 20 commenters recommended using more current prices. Two foreign countries proposed that for some species not landed by U.S. fishermen, prices should be lower than those which applied in 1977. Since the 1976 U.S. ex-vessel prices represent the latest published annual average prices available, they were retained as the basis of fees for all species where such prices have been established and published. For other species for which no published U.S. prices were available, prices were obtained from either foreign government publications or foreign embassy representatives, and verified as accurate by NMFS whenever possible.

Prices listed in this final fee schedule, compared to the June 15, 1977, proposed prices, vary for only one species, Pacific herring. Prices have also been added for certain species for which no figures were published in the June 15, 1977, proposed schedule. Where appropriate, footnotes have been added to explain the source of data and changes in prices.

3. The level of fees: Three and one-half (3.5) percent of the ex-vessel price of allocated fish was considered an appropriate basis on which to calculate poundage fees by all U.S. reviewers and by one foreign country. One foreign country proposed a reduction to 1.5 percent, and the complete elimination of permit fees. Neither of these proposals

was deemed to satisfy the criteria established for setting a fee schedule; consequently neither was adopted.

The payment of poundage fees either in installments during the fishing year, or in one lump sum after fishing has been concluded, was also proposed. Since the Act requires payment of fees prior to issuance of permits for fishing by foreign vessels, this proposal was not adopted.

FEE SCHEDULE

The fees charged each foreign nation for fishing for fishery resources subject to the exclusive fishery management authority of the United States will be as follows:

1. Permit Fee: (a) A fixed annual fee of \$1.00 per gross registered ton (GRT) will be charged for any vessel engaged in, or attempting to engage in the catching, taking, or harvesting of fish; (b) a fixed annual fee of \$0.50 per GRT will be charged for any vessel engaged in processing fish, but not catching, taking, or harvesting fish, with \$2,500 per vessel the upper limit on this charge; and (c) a fixed annual fee of \$200 per vessel will be charged for any vessel engaged in aiding or assisting one or more vessels at sea in the performance of any activity relating to fishing but not itself catching, taking, harvesting, or processing fish. If a vessel participates in more than one of the above activities, the highest applicable fee will be charged. Permit fees are required to be paid in advance and are not refundable, but, on a case by case basis, the Director may allow a like vessel to be substituted.

2. Poundage Fee: For 1978, a poundage fee of 3.5 percent of the 1976 U.S. ex-vessel price of the fish, when available, will be charged on the actual catch of all fish allocated to each nation, including the bycatch (prohibited species excluded). When U.S. prices are not available, the most applicable foreign ex-vessel price for 1976 will be used.

The poundage fee is required to be paid in advance, and it shall be based on the allocation made to each nation. If the catch is substantially lower than the allocation, an application may be made for a refund as described below.

The following ex-vessel prices to be used for computing fees are based on U.S. commercial landings as published in "Fisheries of the United States, 1976, Current Fishery Statistics No. 7200, National Marine Fisheries Service, April, 1977," except where noted:

Species:	Average ex-vessel Value (per metric ton)
Butterfish	\$622
Cod, Pacific	282
Crab, Tanner (Snow)	441
Flounders, Pacific	387
Hake, Pacific	32
Hake, Red	185
Hake, Silver (Whiting)	184
Herring, Atlantic	87
Herring, Pacific	100
Herring, River (Alewives)	96
Mackerel, Atka	138
Mackerel, Atlantic	259
Mackerel, Jack	110
Other Finfish, Atlantic	334

Species:	Average ex-vessel value (per metric ton)
Other Groundfish, Pacific	*48
Pollock, Alaska	*84
Pacific Ocean Perch	280
Rockfish	298
Sablefish	399
Seamount Groundfish	*172
Snails (meat)	*600
Squid, Atlantic	*414
Squid, Pacific	*55

* Price for roeless herring, which will constitute the foreign harvest. Provided by the Embassy of Japan in Washington, D.C., and validated by NMFS, Division of Data Management and Statistics.

* Source: Suisanbutsu Ryutsu Tokai Geppo (Monthly Statistical Report on Distribution of Fish and Fish Product), Issued by the Ministry of Agriculture and Forestry, Japan.

* Average price from U.S. Atlantic landings of bluefish, cusk, scup, sea trout, sharks, white hake, and wolffish. Source: Division of Data Management and Statistics, NMFS.

* Used for production of fish meal. Price based on U.S. landings of anchovy and Pacific hake.

* Average price in 1976 for dressed frozen fish taken in U.S. waters, landed in Japan, converted to raw fish price (round weight).

* Source: U.S. Fishery Attaché in Tokyo.

* Includes amorheads and alphonisins. Average price in 1976 for dressed frozen fish landed in Japan, converted to raw fish price (round weight). Source: U.S. Fishery Attaché in Tokyo.

* Ex-vessel price provided by the Embassy of Japan.

* Separate prices for Atlantic and Pacific squids are based on raw data used to develop the value for squid in "Fisheries of the United States, 1976." (Division of Data Management and Statistics, NMFS).

The list of prices may be expanded at a later date, if required, to include other species for which the total allowable level of foreign fishing might be determined in the future.

OTHER CHARGES

Foreign nations will be required to reimburse the United States for the total costs of placing observers aboard foreign fishing vessels. All costs associated with the program, including salary, per diem, and transportation of observers, as well as overhead costs, will be included in the determination of this fee. Payment of observer costs will be made upon billing at the end of the calendar year. Procedures and charges for the observers are published in the *FEDERAL REGISTER*, Vol. 42, No. 64, April 4, 1977.

PAYMENT OF FEES AND REFUNDS

Payment of all fees shall be in accordance with the prescribed guidelines as contained herein. Bills for Collection covering fee payments due will be sent by the National Oceanic and Atmospheric Administration to the Department of State, Office of the Deputy Assistant Secretary for Oceans and Fisheries Affairs, for forwarding to the foreign nations after approval of applications and before permits have been issued. Payments should be made as follows:

1. All payments received must be drawn in U.S. dollars, payable at a bank in the United States and be made payable to the U.S. Department of Commerce, NOAA. In addition, payments

from private firms or individuals should be in the form of a certified check.

2. Remittances should be sent to the Director, National Marine Fisheries Service, Attention: F3, Washington, D.C. 20235. To facilitate processing, each remittance should be accompanied by a copy of the applicable Bill for Collection for identification purposes.

Refunds of poundage fees will be made only upon written application to the Director, National Marine Fisheries Service, Attention: F3, Washington, D.C. 20235. Refunds should be requested as follows:

1. The amount involved must be more than \$100.00.
2. The requester must provide an explanation of the difference between the amount of actual catch and the amount of catch authorized, and indicate the reasons for the difference.

NOTE—The National Marine Fisheries Service has determined that this document does not contain a major action requiring preparation of an Economic Impact Analysis under E.O. 11821 and 11949.

Issued at Washington, D.C., and dated October 4, 1977.

JACK W. GEHRINGER,
Deputy Director, National
Marine Fisheries Service.

SOUTH ATLANTIC FISHERY MANAGEMENT COUNCIL Cancellation of Meeting

The meeting of the South Atlantic Fishery Management Council on October 13-14, 1977, at Raleigh, N.C., as published in the FEDERAL REGISTER, Vol. 42, No. 185, page 48364, on Friday, September 23, 1977, has been cancelled. The next Council meeting is scheduled for November 15-17, 1977, at Kissemmee, Fla.

Dated: October 4, 1977.

JACK W. GEHRINGER,
Deputy Director, National
Marine Fisheries Service.

[FR Doc 77 29572 Filed 10 6 77;8:45 am]

[3510-12]

MID-ATLANTIC FISHERY MANAGEMENT COUNCIL

Extension of Council Meeting

Notice is hereby given of an extension of the joint meeting of the New England and Mid-Atlantic Fishery Management Councils scheduled for October 19-20, 1977, at the Northeast Fisheries Center, National Marine Fisheries Service, Woods Hole, Mass. The notice of the meeting was published in the FEDERAL REGISTER on September 20, 1977, Volume 42, No. 128.

The Mid-Atlantic Fishery Management Council will meet separately on October 21, 1977 from 8 a.m. to noon, at the same location.

Proposed agenda: Progress on Fishery Management Plans for Atlantic Mackerel and Squid.

Dated: October 3, 1977.

JACK W. GEHRINGER,
Deputy Director, National
Marine Fisheries Service.

United States Travel Service TRAVEL ADVISORY BOARD Notice of Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that the Travel Advisory Board of the U.S. Department of Commerce will meet on November 7, 1977, at 5:30 p.m., in Room 4830, of the Main Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C. 20230.

Established in July 1968, the Travel Advisory Board consists of senior representatives of 15 U.S. travel industry segments who are appointed by the Secretary of Commerce.

Members advise the Secretary of Commerce and Assistant Secretary of Commerce for Tourism on policies and programs designed to accomplish the purposes of the International Travel Act of 1961, as amended, and the Act of July 19, 1940, as amended. A detailed agenda for the meeting will be published in the FEDERAL REGISTER in advance of the meeting.

A limited number of seats will be available to observers from the public and the press. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available the presentation of oral statements will be allowed.

David Koch, Acting Director of Media Services Division, the United States Travel Service, Room 1860, U.S. Department of Commerce, Washington, D.C. 20230 (telephone 202-377-4613) will respond to public requests for information about the meeting.

FABIAN CHAVEZ, Jr.,
Assistant Secretary for Tourism,
U.S. Department of Commerce.

[6330-01]

COMMISSION ON FINE ARTS MEETINGS

The Board of Architectural Consultants for Old Georgetown will meet in open session on the following dates to discuss various projects affecting the appearance of Georgetown Historic District in Washington, D.C. These projects are submitted by the D.C. Government under Pub. L. 808:

October 19, 1977.
November 2, 1977.
November 16, 1977.
November 30, 1977.
December 14, 1977.
December 28, 1977.

The meetings will be held at the Commission of Fine Arts Offices, 708 Jackson Place NW., Washington, D.C., at 9:30 a.m.

Inquiries regarding the agenda and requests to submit written or oral statements should be addressed to Charles H. Atherton, Secretary, Commission of Fine Arts, at the above address.

Dated in Washington, D.C. October 3, 1977.

CHARLES H. ATHERTON,
Secretary.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1977

Proposed Deletion

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed deletion from procurement list.

SUMMARY: The Committee has received a proposal to delete from Procurement List 1977 a service provided by workshops for the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: November 11, 1977.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703 537-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

It is proposed to delete the following service from Procurement List 1977, November 18, 1976 (41 FR 50975):

SIC 0782

Grounds Maintenance, Edwards Air Force Base, Calif. For the following locations: Chapel Building No. 6447 and Housing Area 'D'.

E. R. ALLEY, Jr.,
Acting Executive Director.

[FR Doc 77 29516 Filed 10-6-77;8:45 am]

[6820-33]

PROCUREMENT LIST 1977

Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The Committee has received proposals to add to Procurement List 1977 commodities to be produced by and a service to be provided by workshops for the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: November 11, 1977.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street N., Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C.W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77. If the Committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodities and service listed below from workshops for the blind or other severely handicapped. It is proposed to add the following commodities and service to Procurement List 1977, November 18, 1976 (41 FR 50975):

Class 8354

Flag, Signal, Vehicle Danger Red, 8345-00-260-2724.

Class 8465

Bag, Sleeping, Firefighter's, 8465-00-081-0798. Change the portion the workshop would provide from the requirements for GSA Regions 9 and 10 to an annual quantity of 100,000 each.

Class 9905

Sign, Plastic (U.S. Property), 9905 00 559-2971.

SIC 0782

Grounds Maintenance, Edwards Air Force Base, California. For the following buildings: 1200, 1220, 1400, 2650, 2660, 2800, 3940, and P-1.

E. R. ALLEY, Jr.,
Acting Executive Director.

[FR Doc 77-29517 Filed 10-6-77;8:45 am]

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS List of Statements Received

The following is a list of environmental impact statements received by the Council on Environmental Quality from September 26, to Sept. 30, 1977. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (November 21, 1977) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environ-

mental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Mr. Errett Deck, Coordinator, Environmental Quality Activities, U. S. Department of Agriculture, Room 307A, Washington, D.C. 20250, (202-447-6827).

FOREST SERVICE

Draft

Herbicide Use, USDA Eastern Region, September 27: This statement outlines guidelines and policies affecting the use of herbicides on National Forest System lands in the Eastern Region of the Forest Service, USDA. This includes National Forest System land located in the States of Illinois, Indiana, Maine, Michigan, Minnesota, Missouri, New Hampshire, New York, Ohio, Pennsylvania, Vermont, West Virginia, and Wisconsin. It is estimated that approximately 45,000 acres of the 11,250,000 acres of National Forest land in the Eastern Region will be involved annually in chemical vegetation control activities. (ELR Order No. 71200.)

Rogue River National Forest Timber plan, Oregon, California, September 26: The proposed action is to implement a revised 10-year Timber Management Plan for the Rogue River National Forest. The existing Plan was approved in 1962 and has since become obsolete. This statement deals with the intensity and type of timber management on those lands which have been classified as commercial forest land available for timber production by the Land Management Planning process. The Rogue River National Forest includes portions of Douglas, Jackson, Josephine, and Klamath Counties in Oregon and Siskiyou County in California. (ELR Order No. 71194.)

RURAL ELECTRIFICATION ADMINISTRATION

Draft

Antelope Valley Station, 455 MW; Mercer County, N. Dak., September 28: Proposed is the use of REA guaranteed loan funds to finance the proposed new Antelope Valley Station (two 455 MW (nameplate) rating lignite-fired steam electric generating units). Makeup water will be pumped through a pipeline from Lake Sakakawea. The primary fuel is planned to come from nearby new lignite mines. Two new 26 mile, 345 kV transmission lines will be constructed to interconnect the proposed plant with the substation at Basin's Leland Olds Plant in Oliver County, North Dakota, and will cross Mercer County. Adverse effects include release of oxides of nitrogen and sulphur, as well as small quantities of particulate matter. (ELR Order No. 71205.)

SOIL CONSERVATION SERVICE

Draft

Black Creek Watershed, Holmes County, Miss., September 26: This statement proposes a project for watershed protection, flood prevention, and drainage in the southwestern part of the delta area of Holmes County, Mississippi. The planned works of improvement include conservation land treatment, 37.4 miles of channel work with appurtenant structures for grade control (pipe overfall), four water level control structures (to preserve 86 acres of wetlands), and four grade stabilization structures. Floodwater and drainage damages will be reduced on 17,750 acres of agricultural lands that have severe water problems. Agricultural production will be lost or decreased on 570 acres of land. (ELR Order No. 71196.)

Swift Creek Watershed, Pitt, Beaufort, Craven Counties, N.C., September 26: Proposed is a watershed project for Pitt, Beaufort, and Craven Counties, North Carolina. The project proposes land treatment over the watershed supplemented by 185 miles of

stream channel modifications, 42 sediment traps, and 25 fish holes. All work is to be done on man-made or previously modified channels. Adverse effects include the displacement of wildlife on laterals and temporary damage to fishery resources. Approximately 335 acres of bottom land forest and 30 percent of loafing and roosting areas will be lost. (ELR Order No. 71191.)

Robinson Creek Watershed, Lincoln County, Okla., September 27: Proposed is the Robinson Creek Watershed Plan, which provides for watershed protection, flood prevention, municipal water supply, and recreation. The planned works of improvement include conservation land treatment supplemented by 10 floodwater retarding structures and one multi-purpose structure designed to retard flood flows, and provide a recreation water supply with attendant recreational facilities. Adverse effects include increase in noise, dust, erosion, and stream turbidity during the construction process. About 450 acres of land devoted to sediment pools, dams, and spillways will be removed from agricultural production. (ELR Order 71199.)

Final

Dynne Creek Watershed Plan, Cleburne County, Ala., September 27: Proposed is the Dynne Creek Watershed Plan for watershed protection, flood prevention, municipal and industrial (M&I) water supply, and water-based recreation. Conservation land treatment practices are planned to provide watershed protection; two single-purpose structures and one multipurpose structure will provide M&I and recreational water storage. Basic recreational facilities are also planned at structure No. 4. Loss of 161 acres of wildlife habitat and the clearing of 47 acres of flood plain forest land will result from project installation. Comments made by: USDA, COE, HEW, HUD, DOI, EPA and State and local agencies. (ELR Order No. 71201.)

DEPARTMENT OF DEFENSE ARMY

Contact: George A. Cunney, Jr., Acting Chief, Environmental Office, Office of the Assistant Chief of Engineers, Department of the Army, Room 1E676, Pentagon, Washington, D.C. 20310. (202 694-4269).

Final

Chemical Agent Identification Set Disposal, Colorado, September 26: Proposed is the disposal of Chemical Agent Identification sets. The plan entails movement of the 21,500 obsolete sets out of 30 storage sites to Rocky Mountain Arsenal, Colorado, for disposal. The two phases are 1) movement of 1,500 sets from 18 sites to support the pilot test phase and, 2) movement of the remaining 20,000 sets from 16 storage sites. No adverse impacts are anticipated. Comments made by: EPA and State and local agencies. (ELR Order No. 71190.)

Supplement

Chemical Agent Disposal, Rocky Mountain (S-1) Colorado, September 29: The final statement for the disposal of chemical agent identification sets addressed the movement of about 1500 sets from military storage sites to Rocky Mountain Arsenal, Colorado. Included in the movement were 51 K951 852 sets stored at the Marine Corps Base, Quantico. The balance of 20,000 sets were to be moved to Rock Mountain Arsenal for disposal during a second movement phase. Included in the latter were 256 sets at the St. Jullen's Creek Annex, Yorktown, Va. The purpose of this addendum is to include the additional 256 sets at the Marine Corps Base, Quantico, in the first movement phase. (ELR Order No. 71219.)

Contact: Dr. C. Grant Ash, Office of Environmental Policy Department, Attn: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Ave. SW., Washington, D.C. 20314 (202-693-6795).

Draft

Bolles Harbor, Michigan, Maintenance Operations, Michigan, September 29: The proposed Federal action includes maintenance dredging of the Bolles Harbor navigation channels and maintaining the Federal structures, including revetments and jetty. Maintenance dredging would be required approximately every 2 to 3 years to insure continuance of adequate depths for recreational and commercial fishing vessels using the La Plaisance Creek. Materials dredged from the unpolluted portion of the navigation channel will be placed at the 2600' x 2600' open water disposal site located in Lake Erie, approximately 4 1/4 miles from the entrance light at the creek mouth. No long term effects are expected. (Detroit District.) (ELR Order No. 71211.)

West Harbor Recreational Navigation Improvement, Ohio, September 29: The proposed plan entails recreational navigation improvements for small craft at West Harbor, Ohio, consisting of breakwater construction and channel dredging. Breakwater construction would occur in Lake Erie at the mouth of the natural channel entrance to the harbor. Dredging would be performed to provide a deepened channel for recreational craft extending from offshore in Lake Erie through the natural channel and into the harbor. Adverse effects include a temporary degradation of the aquatic environment due to construction and the loss of some benthic organisms. (Detroit District.) (ELR Order No. 71214.)

Sequin Bay Small Boat Basin, Permit, Washington, September 28: Proposed is the approval of a permit application by the Port of Port Angeles to dredge and fill an intertidal landsite at Pitship Point on the west shore of Sequin Bay, Washington, to develop a small boat haven with wet moorage for 535 boats, dry storage for 134 boats, and launching facilities. Adverse effects include construction-related pollution, the removal and partial destruction of existing bottom flora and fauna in 23.1 acres of intertidal and subtidal lands, potential degradation of project area water quality and possible decertification of nearby shellfish beds. (Seattle District.) (ELR Order No. 71204.)

Final

Twin Valley Lake—Wild Rice River (2), September 29: This Final EIS is an addendum to a Final EIS originally filed with CEQ in 1975, on the proposed Twin Valley Lake Project. At that time, however, several unresolved issues existed between the Corps of Engineers and the U.S. Fish and Wildlife Service (FWS), the U.S. Environmental Protection Agency (EPA), the Minnesota Department of Natural Resources (DNR) and the Minnesota Pollution Control Agency (MPCA). This Final is intended to inform the public of the issues involved, coordination which has occurred, and agreements which have been reached during the period February 1975 to May 1976. The text of the original Final EIS has not been changed. (ELR order No. 71215.)

Portsmouth Refinery and Terminal, Virginia, September 30: The Hampton Roads Energy Company proposes to construct a refinery and marine terminal for the handling and production of petroleum products. The complex would produce daily a combined total of more than 7 million gallons of gasoline, jet fuel, fuel oil, butane, propane and other related products. Adverse impacts in-

clude loss of vegetation, animal habitat, trees, cropland on the site and possible indirect impacts on small nearby creeks. A total of 470 acres will be acquired for the project. (Norfolk District.) Comments made by: DOT, DOC, EPA, DOI, USDA, HEW, AHP, State and local agencies, and concerned groups and individuals. (ELR order No. 71220.)

ENERGY RESEARCH AND DEVELOPMENT ADMIN.

Contact: Mr. W. Herbert Pennington, Office of NEPA Coordination, Energy Research and Development Administration, E-201, ERDA, Washington, D.C. 20545 (301-353-4241).

Draft

Coal R.D. & D. Program, September 29: This statement assesses the potential; generic impacts of the construction and operation of a U.S. based coal conversion and utilization industry based on technologies under development in ERDA's Coal Research, Development, and Demonstration Program. The furtherance of the technologies within the Program would encourage the development of a coal conversion and combustion industry in the future. This EIS examines the impact of the production, and conversion (to liquid or gaseous fuels) or combustion of between 1.6 and 5.9 billion tons of coal at some future time. (ELR order No. 71212.)

Rocky Flats Plant Site, Jefferson County, Colo., September 28: This statement assesses the potential cumulative environmental impacts associated with current site activities and plant operation at Rocky Mountain Plant Site in Golden, Colo. Activities at the plant include plutonium processing and waste treatment, fabrication of uranium, beryllium, and stainless steel components for weapons, and other production-related research. The statement addresses public concern which has resulted from past releases of plutonium to the environment and the potential adverse effects from any possible future releases. (ELR order No. 71193.)

Final

Nevada Test Site Testing Activities, Nye County, Nev., September 29: This statement considers underground nuclear detonation with yields of one megaton or less, along with the preparations necessary for such detonations at the Nevada Test Site (NTS). The testing activities considered also include other continuing and intermittent activities, both nuclear and nonnuclear, which can best be conducted in the remote and controlled area of the NTS. Provision is also made for the study of geologic formations at the NTS for possible use in the ERDA program for management of commercially generated high-level radioactive wastes. Comments made by: USDA, HEW, DOI, STAT, DOT, AHP, EPA, NRC, and State agencies. (ELR order No. 71206.)

Portsmouth Gaseous Diffusion Plant Expansion, Pike County, Ohio, September 29: Proposed is the design and construction of an add-on gaseous diffusion plant at the Portsmouth Gaseous Diffusion Plant in Piquette, Ohio. Construction and operation of the 8.75 million separate work unit/year plant will be on land already owned by ERDA. The major impact associated with operation of the expansion facilities will be related to the offsite production of 3900 megawatts of electrical power including reserves required to support the add-on plant. Offsite land use will amount to about 25,000 acres over a 30-year period. Other adverse effects include the use of about 19.8 Mgd in water for cooling purposes. Comments made by: HEW, DOC, USDA, DOT, AHP, TVA, NRC, EPA, State and local agencies, and concerned groups and individuals. (ELR order No. 71207.)

Intermediate Level Radioactive Waste Management—Oak Ridge, Roane County, Tenn., September 30: The proposed action is the selection of a preferred technique for the management of intermediate level radioactive liquid waste (ILW) and the construction and operation of a facility to implement the technique at the Oak Ridge National Laboratory (ORNL) in Roane County, Tenn. Current ERDA activities at ORNL annually generate about 2 million gallons of ILW which is evaporated to reduce the volume. Three alternative management techniques are assessed: hydrofracture, shale-cement fixation, and glass fixation. The overall impact of any of the techniques would be expected to be beneficial, since each would remove large volumes of radioactive waste from existing storage facilities. Comments made by: USDA, DOC, HEW, DOI, DLAB, DOT, EPA, NSF, NRC, TVA, State and local agencies, and concerned groups and individuals. (ELR order No. 71221.)

Final

Safety Research Experiment Facilities, Idaho Laboratory, Idaho, September 30: This statement was prepared in support of ERDA's proposal for legislative authorization and appropriations for the Safety Research Experiment Facilities (SAREF) Project. The purpose of the proposed project is to modify some existing facilities and provide a new test facility at the Idaho National Engineering Laboratory for conducting fast breeder reactor (FBR) safety experiments. The proposed facilities provide for the in-reactor testing of large bundles of prototypical FBR fuel elements under a wide variety of conditions. Comments made by: USDA, HEW, DOI, DOT, AHP, EPA, FPC, NSF, NRC, State agencies, and one concerned individual. (ELR No. 71228.)

High Performance Fuel Laboratory, Hanford Reservation, Benton County, Washington, September 30: Proposed are the design and construction of a High Performance Fuel Laboratory (HPFL) at the ERDA Hanford Reservation in Richland, Wash. The HPFL will provide a pilot scale facility to support the liquid metal fast breeder reactor program. It will be used to develop and demonstrate safe and economic manufacturing processes for fuels comprising oxides of plutonium and uranium. The construction and operation of the HPFL facility will result in the irretrievable commitment of only moderate amounts of materials and supplies. Comments made by: USDA, HEW, DOI, AHP, EPA, State agencies, and concerned groups and individuals. (ELR No. 71277.)

Savannah River Plant, Waste Management, Aiken and Barnwell Counties, S.C., September 30: This statement assesses the environmental impact of continuing the ERDA's waste management operations at the Savannah River Plant (SRP), and approximately 300 sq. mile site, in South Carolina. Current operations consist of the treatment and storage or disposal of both radioactive and nonradioactive solid, liquid, gaseous and thermal effluents from nuclear reactors operated for the production of materials used in the U.S. defense effort, fuel reprocessing plants, and support facilities. Radiation exposure from potential accident situations is evaluated. Comments made by: USDA, DOC, HEW, DOI, EPA, FPC, NRC, State and local agencies, and concerned groups and individuals. (ELR No. 71225.)

Idaho National Engineering Laboratory, Waste Management, Idaho, September 30: This statement presents a summary description of the waste management operation at the Idaho National Engineering Laboratory, (INEL) and proposes the continuance of these operations. Described in the statement are (1) a description of the separate

operational and support areas; (2) information related to each waste system; (3) an analysis of the impact upon the environment from the radiological and non-radiological releases; and (4) the alternatives available to the ongoing INEL waste management program. Approximately 210 acres of desert land are committed to waste storage activities. Only minor effects to terrestrial or aquatic life have been observed. Comments made by: USDA, DOC, HEW, DOI, DOT, EPA, NSF, NRC, State agencies, and concerned groups and individuals. (ELR No. 71226.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Please refer to the separate notice published by EPA in this issue of the FEDERAL REGISTER for the appropriate EPA contact.

Final

Jacksonville Wastewater Treatment System, Jackson County, Ore., September 29: Proposed is the construction of a wastewater disposal system for the City of Jacksonville, Jackson County, Ore. Various alternatives for the 1,300-acre city include a hookup by Jacksonville to the Bear Creek Valley Sanitary Authority, local treatment and use of reclaimed water by the U.S. Forest Service, and aerated lagoons with adjacent agricultural use. Adverse effects will vary according to the alternative selected. (Region X.) Comments made by: HEW, AHP, DOI, USDA, EPA, COE, State and local agencies, and concerned groups and individuals. (ELR order No. 71203.)

FEDERAL ENERGY ADMINISTRATION

Contact: Mr. Robert Stern, Director, Office of Environmental Programs, Federal Energy Administration, New Post Office Building, Room 7119, 12th and Pennsylvania Avenue NW, Washington, D.C. 20461 (202-566-9760).

Final

Naphtha Allocation-SNG Production, Indiana Gas, Marion County, Ind., September 30: Proposed is an allocation of naphtha feedstock of approximately 3.8 million barrels per year to the Indiana Gas Company for operation of its proposed synthetic natural gas (SNG) plant in Pike Township, a rural suburb of Indianapolis, Indiana. The allocation would enable construction of the plant with a completion date projected for late 1979. With an expected SNG output of 20,820,000 Mcf per year this plant will provide approximately 20% of the total gas supply available to Indiana Gas when in operation. Twenty-five acres of open fields and woods will be committed to industrial use. Comments made by: EPA, USDA, HEW, DOI, COE, FPC, and concerned groups. (ELR order No. 71222.)

Kleer Mine, SPR, Van Zandt County, Tex., September 30: This statement involves the implementation of the Strategic Petroleum Reserve, Title I, Part B, of the Energy Policy and Conservation Act of 1975 (Pub. L. 94-163). The Reserve will store 150 million barrels of oil by December of 1978 in the Early Storage Reserve (ESR), and 500 million barrels by 1982 under the entire program. The candidate site discussed would be part of the ESR and would involve storage of 30 million barrels of oil in a conventional salt mine located in Grand Saline, Tex. The storage of oil at Kleer Mine would be implemented at an existing underground salt mine presently owned and operated by the Morton Salt Co. Comments made by: AHP, USDA, DOD, DOT, TREAS, EPA, NRC, and State agencies and concerned groups. (ELR order No. 71224.)

FEDERAL POWER COMMISSION

Contact: Dr. Jack M. Heinemann, advisor on Environmental Quality, Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426 (202-275-4791).

Final

Santee-Cooper Project No. 199, S.C., several counties, South Carolina, September 26: Proposed is the granting of a new license for the continued operation of South Carolina Public Service Authority's constructed Santee-Cooper Project No. 199, located on the Santee and Cooper Rivers in Berkeley, Calhoun, Clarendon, Orangeburg, and Sumter Counties, S.C. The project consists of 97,274 acre Lake Marion impounded by Santee Dam on the Santee River, a 7.5 mile long Diverston Canal connecting Lake Marion to Lake Moultrie, and adjacent 55,394 acre reservoir impounded by Pinopolis Dam and several dikes, a 4-mile long Zabrabe Canal discharging into the Cooper River, and two hydroelectric generating facilities with a total capacity of 134,535 kW. Comments made by: DOI, HEW, DOC, COE, USDA, EPA, and State agencies. (ELR order No. 71192.)

DEPARTMENT OF HUD

Contact: Richard H. Broun, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 7th Street NW., Washington, D.C. 20410 (202-755-6308).

Draft

I-95 Route 40 Growth Corridor—New Castle County, Del., September 30: The proposed action is for the Department of Housing and Urban Development to accept the New Castle County 1985 General Comprehensive Plan and to accept future HUD project applications within the I-95/Route 40 growth Corridor for Processing without applying the automatic 500-unit EIS threshold if they are in compliance with the Plan and this EIS. The 18.5 mile "growth Corridor" would provide living accommodations for approximately 40,000 people by the year 1995. Adverse effects include the loss of approximately 1,500 acres of forested land and 5,000 acres of prime and productive farmland, and increased air and water pollution. (ELR No. 71229.)

Piney Ridge Village, Carroll County, Md., September 29: This statement contains a proposal for mortgage insurance for the Piney Ridge Village in Carroll County, Md. The site of the proposed Piney Ridge Village Planned Unit Development is 450 acres comprising most of the southwestern quadrant of the major intersection of State Route 26 and Route 32. Development will include construction of 1,665 dwelling units, and community centers. Land has been reserved for development of public open space and school areas. Adverse effects include increases in air pollution and community noise levels, and increased storm water runoff. (ELR order No. 71218.)

Final

The Village Development, Butte County, Calif., September 29: The statement proposes the development of "The Village", a 237-acre mixed use housing project in Chico, Calif. The development will include dwelling units and 47.8 acres of commercial development, and is located south of Little Chico Creek and East of Highway 99E. Adverse impacts will be land use transition from crop production to an urbanized milieu, loss of open space and watershed, degradation of air quality, and loss of wildlife. Comments made by: EPA, AHP, USDA, HEW, and FPC. (ELR order No. 71216.)

Merced, Atwater, and Castle AFB-Assessment, Merced County, Calif., September 29: Proposed is the application of HUD noise standards to the Merced, Atwater, and Castle Air Force Base environs in Merced County, Calif. This action involves the consideration of major areas acceptable for HUD programs, including mortgage insurance. Potential adverse impacts are the loss of open space and agricultural land and the potential under-use of infrastructure. Comments made by: DOT, COE, VA, USDA, DOI, FPC, DOD, HEW, AHP, and State and local agencies. (ELR order No. 71217.)

Mission Bend Subdivision, Harris and Fort Bend Counties, Tex., September 29: Proposed is the acceptance of an application by Fox & Jacobs, Inc. for approval of the Mission Bend Subdivision for home mortgage insurance purposes. The development plan includes the construction of 588 single family units on 134 acres. The average FHA insured house proposed for Mission Bend will have approximately 1,700 sq. ft. and will contain, on the average, 3.5 bedrooms. Adverse impacts include disruption or destruction of plant and animal communities on the site, conversion of agricultural land to residential use, and increases in air and noise pollution. Comments made by: AHP, DOT, EPA, COE, USDA, DOI, State agencies, and interest groups. (ELR order No. 71198.)

Hunters Glen Subdivision, Fort Bend County, Tex., September 29: Proposed is the development of Hunters Glen Subdivision, Missouri City, Tex., under the HUD/FHA mortgage program. The 493-acre subdivision would include 3,038 single- and multi-family units, a 10-acre site for a sewage treatment plant, a large drainage easement, and an area designated for possible commercial use. Adverse effects include loss of agricultural and grazing land and increased demand for fossil fuels through heavy dependence on the automobile for transportation. Comments made by: EPA, DOI, USDA, COE, AHP, and State and local agencies. (ELR order No. 71209.)

Section 104(h)

The following are Community Development Block Grant statements prepared and circulated directly by applicants pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD.)

Final

Pine Bluff, Ark., West Side Sewer, Jefferson County, Ark., September 27: Proposed is the installation of a sanitary sewer system to serve several hundred acres of the southwest section of the city of Pine Bluff in Enumeration Districts 49, 50, 128, 129, and 130. Adverse effects resulting from project implementation include clearing of woodlands, erosion and siltation, cuts through street paving, traffic disruption, and economic impact on business. Comments made by: (ELR Order No. 71202.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street SW., Washington, D.C. 20590 (202-426-4357).

FEDERAL HIGHWAY ADMINISTRATION

Draft

Southwest Loop Thoroughfare, N.C. 18 to U.S. 321, Caldwell County, N.C., September 27: The proposed project consists of constructing approximately 4.5 miles of multi-lane highway from N.C. 18 Business to U.S. 321 in the city of Lenoir, Caldwell County.

Several combinations of cross-section types are being considered for various segments of this project including five lane, four lane divided by 1 16-foot median, and four lane divided by a 36 to 44-foot median. Adverse effects include the destruction of approximately 125 to 150 acres of wildlife habitat, the possible rechannelization of a portion of a stream, and the relocation of between 31 and 43 families and between 2 and 4 businesses. (Region 4.) (ELR Order No. 71197.)

Ohio State Route 2 Relocation, South Huron, Erie County, Ohio, September 29: The proposed action is the improvement and relocation of a 6.06 mile length of State Route 2 in Erie County, Ohio. The proposed 4-lane, limited access highway will bypass through traffic around the City of Huron. Beginning on previously improved S.R. 2 east of Rye Beach Road Interchange, the proposed highway will extend south then east on an average right of way width of 300 feet and connect with improved S.R. 2 east of S.R. 61. Adverse effects include the removal of 185 acres of cropland from production, and a reduction in wildlife habitat due to the commitment of 61 acres of woods and brush and 15.6 acres of Lake Erie's estuarine marsh to the highway. (Region 5.) (ELR Order No. 71213.)

Burlington Southern Connector—1-189 to Battery Street, Chittenden County, Vt., September 29: Proposed is the construction of approximately 2.5 miles of highway known as the Southern Connector, in the City of Burlington, Vt., commencing at the interchange of 1-189 with Shelburne Street (U.S. 7) and extending westerly and northerly to the intersection of Battery and King Streets in the Burlington Central Business District. The proposed highway is to have a 50-foot, curb-to-curb, four-lane travel way. Sidewalks will be provided through sections of existing location. Right-of-way acquisition will vary depending on the alternate chosen; both alternates will displace 15 families. (Region 1.) (ELR order No. 71210.)

Final

Nebraska Hwy 133 (90th Street), Omaha, Douglas County, Nebr., September 26: The project consists of the improvement of Nebraska Highway 133 (90th Street) from Burt Street to Maple, a distance of 1.3 miles, and a second segment from Maple to the junction of N-133 and N-38, a distance of 1.9 miles. The project will displace three residences, and will require the acquisition of 6 acres of land. Comments made by: DOT, DOD, COE, USDA, EPA, DOI, State and local agencies, and interest groups. (ELR order No. 71195.)

SR 82 and SR 97 Connection, Union Gap, Yakima County, Wash., September 29: The proposed project consists of a 1.9 mile connection via a loop type interchange between existing SR 82 and SR 97 south of the City of Union Gap in central Washington State. The improvement would also add an additional two lanes to a short segment of rural two lane roadway which joins a four lane segment. The proposed roadway would consist of a four lane asphalt concrete roadway with 10' asphalt concrete shoulder and a 16' median with median barrier. Adverse effects include removal of 31 acres of wildlife habitat and displacement of one family residence. Comments made by: COE, EPA, DOI, USDA, 2 DOC, 2 HUD, and State and local agencies. (ELR order No. 71208.)

U.S. COAST GUARD

Draft

Station Creek Bridge—St. Phillips Island (2), Beaufort County, S.C., September 30: This revised draft proposes the issuance of a

permit approving the location and plans for a fixed bridge over Station Creek, mile 2.6, between St. Helena and St. Phillips Islands near Beaufort, S.C. Casually related to that permit is the development of St. Phillips Island for residential purposes. Implementation of the project will alter a presently undeveloped barrier island for residential use, increase the population of Beaufort County by about 7 percent, and alter 5.7 acres of marsh and 460 acres of forest. (ELR order No. 71223.)

NICHOLAS C. YOST,
Acting General Counsel.

Office of the Secretary

DEFENSE INTELLIGENCE SCHOOL BOARD OF VISITORS

Notice of Partially Closed Meeting

Pursuant to the provisions of Sub-Section (d) Section 10 of Pub. L. 92-463, as amended by Section 5 of Pub. L. 94-409, notice is hereby given that a partially closed meeting of the Defense Intelligence School Board of Visitors will be held on-site at the School in Washington, D.C., on 9-11 November 1977.

Morning sessions on 9, 10, and 11 November 1977 will be devoted to the discussion of classified information as defined in Section 552 b(7)(C), Title 5 of the U.S. Code and will therefore be closed to the public. Subject matter will be concerned with specialized instructional requirements and related curriculum content.

MAURICE W. ROCHE,
Director, Correspondence and
Directives OASD (Comptrol-
ler).

ENVIRONMENTAL PROTECTION AGENCY

[FRL 802-8; OPP-42043B]

MINNESOTA

Extension of Contingency Approval of State Plan for Certification of Pesticide Applicators

In accordance with the provisions of Section 4(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136 et seq.), and 40 CFR 171, the Governor of the State of Minnesota submitted a State Plan for the Certification of Commercial and Private Applicators of Restricted Use Pesticides to the Environmental Protection Agency (EPA) for approval on a contingency basis. Contingent approval was requested pending promulgation of implementing regulations. On May 4, 1977, the Regional Administrator, EPA, Region V, approved the Plan on a contingency basis. Con-

tingent approval was granted until October 21, 1977. Notice of the approval was published in the FEDERAL REGISTER on May 23, 1977 (42 FR 26241).

The Minnesota Pesticide Control Law was passed by the Minnesota Legislature on March 19, 1976. Implementing regulations are expected to be completed shortly as the Department of Agriculture proposes to hold public hearings during October or early November. As a result, the State of Minnesota has requested an extension of the Minnesota contingency approval pending final implementation of regulations.

The Agency finds that there is good cause for approving the request and as such has granted Minnesota an extension, effective through December 31, 1977.

Dated: September 28, 1977.

GEORGE R. ALEXANDER, JR.,
Regional Administrator, Region V.

PESTICIDE PRODUCTS CONTAINING NEW ACTIVE INGREDIENTS

Receipt of Applications to Register

Applications have been submitted to the Environmental Protection Agency (EPA) to register pesticide products containing new active ingredients which have not been included in any previously registered pesticide products. Notice of receipt of these applications is made in accordance with section 3(c)(4) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) (40 CFR 162.6 (b)(6)) and does not indicate a decision by the Agency on the applications.

Any Federal Agency or other interested persons are invited to submit written comments on any applications to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Rm. 401, East Tower, 401 M St. SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. The comments must be received on or before November 7, 1977, and should bear a notation indicating the EPA File Symbol number of the application to which the comments pertain. Comments received within the specified time period will be considered before a final decision is made with respect to the pending applications. Comments received after the specified time period will be considered only to the extent possible without delaying processing of the application. Notice of approval or denial of the applications to register pesticide products listed will be announced in the FEDERAL REGISTER. The labels furnished by each applicant as well as all written comments filed will be available for public inspection in the office of the Federal

Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: October 3, 1977.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

APPLICATIONS RECEIVED

EPA File Symbol 3125-GRO. Chemagro Agricultural Division, Mobay Chemical Corp., Box 4913, Kansas City, Mo. 64120. BAYLETON TECHNICAL. Active Ingredients: 1-(4-chlorophenoxy)-3,3-dimethyl-1-(1H-1,2,4-triazol-1-yl)-2-butanone 92%. Application proposes that this product be classified for general use as a fungicide in the formulation of economic poison. PM21 (202-426-2454).

EPA File Symbol 3125-GEN. Chemagro Agricultural Division, Mobay Chemical Corp. BAYLETON 50% WETTABLE POWDER. Active Ingredients: 1-(4-chlorophenoxy)-3,3-dimethyl-1-(1H-1,2,4-triazol-1-yl)-2-butanone 50%. Application proposes that this product be classified for general use as a fungicide for control of azalea petal blight. PN (202-426-2454).

EPA File Symbol 3125-GRIL Chemagro Agricultural Division, Mobay Chemical Corp. BAYLETON 25% WETTABLE POWDER. Active Ingredients: 1-(4-chlorophenoxy)-3,3-dimethyl-1-(1H-1,2,4-triazol-1-yl)-2-butanone 25%. Application proposes that this product be classified for general use as a fungicide for control of azalea petal blight. PM21 (202-426-2454).

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

PRIVATE TITLE VII LITIGATION

Impact of Commission's New Investigative Procedures

Notice is hereby given that the decision of the Equal Employment Opportunity Commission ordinarily to limit investigations of charges of employment discrimination to allegations of violations which directly affect the charging party (see Statement of Eleanor Holmes Nor-

ton, Chair, EEOC, 42 FR 42034) is based on the necessity of allocating limited Commission resources. Accordingly, the fact of a narrow commission investigation does not reflect the scope of the Commission investigation which might reasonably have grown out of a charge. Therefore the decision to limit investigations is not intended to, and should not, affect the charging party's right to seek relief in a private suit for all discriminatory practices like or related to those alleged in the charge which might have been uncovered if the Commission had sufficient resources to investigate all charges more extensively. See *McBride v. Delta Airlines*, 551 F.2d 113 (6th Cir. 1977).

A Commission finding of no reasonable cause to believe that discrimination in violation of Title VII has occurred reflects a judgment that the evidence obtained in the Commission's investigation of the charge does not preponderate in favor of a conclusion that there is reasonable cause to believe that there is a violation of the Title. A Commission finding of no reasonable cause is based upon, and limited to, the evidence obtained in the Commission's investigation.

Dated: October 4, 1977.

ELEANOR HOLMES NORTON,
Chair, Equal Employment
Opportunity Commission.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 21338-21341; File Nos. BPH-9471, etc.]

SPRINGFIELD ADVERTISING CO. ET AL. Designating Applications for Consolidated Hearing on Stated Issues

MEMORANDUM OPINION AND ORDER

Adopted: September 29, 1977.

Released: October 3, 1977.

In re applications of Springfield Advertising Co., Springfield, Ill., Docket No. 21338, File No. BPH-9471, Req: 98.7 MHz, Channel No. 254; 50 kW (H&V); 460 feet (H&V); Group 76 Inc., Springfield, Ill., Docket No. 21339, File No. BPH-9587, Req: 98.7 MHz, Channel No. 254; 50 kW (H&V); 470 feet (H&V); Midwest Broadcasting Co., Springfield, Ill., Docket No. 21340, File No. BPH-9632, Req: 98.7 MHz, Channel No. 254; 50 kW (H&V); 470 feet (H&V); Edward G. Pree, Marlin D. Coleman, James H. Donnewald, Cecil A. Partee, d.b.a. Lincoln-Douglas Communications, a Joint Venture, Springfield, Ill., Docket No. 21341, File No. BPH-9638, Req: 98.7 MHz, Channel No. 254; 50 kW (H&V); 440 feet (H&V); for construction permit.

1. The Commission, by the Chief, Broadcast Bureau, has before it for consideration the above-captioned applications of Springfield Advertising Co.; Group 76 Inc.; Midwest Broadcasting

Co.; and, Edward G. Pree, Marlin D. Coleman, James H. Donnewald, and Cecil A. Partee, d.b.a. Lincoln-Douglas Communications, a Joint Venture, all seeking a construction permit for a new FM broadcast station to serve Springfield, Ill. Because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding.

2. Accordingly, it is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine which of the proposals would, on a comparative basis, best serve the public interest.

2. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

3. It is further ordered, That to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person, or by attorney, shall, within twenty (20) days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

4. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

FEDERAL COMMUNICATIONS
COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc. 77-29532 Filed 10-6-77; 8:45 am]

[6740-02]

FEDERAL POWER COMMISSION

[Project No. 814, et al]

EXPIRATION OF LICENSES

So that the Congress may have an adequate opportunity to decide whether upon the expiration of the licenses, to take over the projects under Section 14 of the Federal Power Act, as amended (16 U.S.C. 807), and that the Licensees for the projects and others may have adequate notice and opportunity to file timely application for new licenses under Section 15 of the Act, as amended (16 U.S.C. 808), public notice is hereby given that the license issued for the designated and described projects on the appended tables will expire on the dates specified.

KENNETH F. PLUMB,
Secretary.

TABLE 1.—*Projects for which licenses will expire between Jan. 1, 1978 and Dec. 31, 1983, inclusive, which are subject to relicensing or takeover¹*

License expiration date	Licensee	Project No.	State	County or town	Stream	Installation (kilowatts)	Facilities under license	Period of license (years)
Aug. 31, 1979	Utah Power & Light Co.	811	Utah	Beaver	Beaver River and tributaries	3,000	Dam, reservoir, powerhouse	50

[6740-02]

[Docket No. ER77-617]

APPALACHIAN POWER CO.
Changes in Rates and Charges

SEPTEMBER 30, 1977.

Take notice that Appalachian Power Co. (Applicant) on September 27, 1977, tendered for filing Modification No. 7 dated August 1, 1977, to the Interconnection Agreement dated February 28, 1949, under Appalachian and Duke Power Co., designated Appalachian's Rate Schedule FPC No. 18.

Appalachian indicates that section 1 of Modification No. 7 provides for an increase in the Demand Charge for Short Term Power from \$0.50 to \$0.60 per kilowatt per week and section 3 provides for an increase in the Demand Charge for

Limited Term Power from \$2.75 to \$3.25 per kilowatt per month. Appalachian also indicates that Section 2 of Modification No. 7 provides for an increase in the transmission charge for third party Short Term Power transactions from \$0.125 per kilowatt per week to \$0.15 per kilowatt per week and Section 4 provides for an increase in the transmission charge for third party Limited Term transactions from \$0.55 per kilowatt per month to \$0.65 per kilowatt per month.

Appalachian requests waiver of the Commission's notice requirements to allow for an effective date of August 1, 1977.

Appalachian states that since the use of Short Term and Limited Term Power cannot be accurately estimated, it is impossible to estimate the increase in revenues resulting from the proposed changes. Appalachian indicates that the

Exhibit which is included with the filing of this modification demonstrates that the increase in revenues which would have resulted had the changes been in effect during the twelve-month period ending September 1977, would have been \$16,666.67 (i.e., from \$54,838.90 to \$71,505.57) for purchases.

According to Appalachian copies of the filing were served upon Duke Power Co., the Public Service Commission of West Virginia, the Virginia State Corporation Commission, the North Carolina Utilities Commission, and the South Carolina Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice

and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. RI77-8]

BOB M. LLOYD

Order Granting Special Relief

SEPTEMBER 30, 1977.

Bob M. Lloyd (Lloyd), a small producer (Docket No. CS74-296, issued May 3, 1974) filed a petition for special relief pursuant to § 2.76 of the Commission's General Policy and Interpretations (18 CFR 2.76) on November 8, 1976, for the sale of gas from the Hatch 1, 1-2, and 1-34 wells, Richland Field, Richland Parish, La., to Mid-Louisiana Gas Co. (Mid-Louisiana). This petition was noticed November 24, 1976, at 41 FR 51873. There were no interventions.

Lloyd is currently receiving 35 cents/Mcf and requested a rate of \$1.36/Mcf in its petition. However, its renegotiated contract allows any rate up to a maximum of 85 cents/Mcf. Lloyd did not propose any additional development, but claims that the present rate results in an economic loss to him. Consistent with prior Commission precedent, Staff prepared a cost study utilizing only "out-of-pocket" costs and determined (see Appendix A) that the new contract rate of 85 cents/Mcf is cost-justified. Staff estimates that there are 87,144 Mcf of gas reserves here involved with a delivery life estimated at 8.67 years.

Staff reviewed the applicant's 1975 and 1976 operating costs and found the 1976 costs to be suitable as a base year. The total production expense of \$62,148 was determined by applying a 5 percent inflation factor for the first five years to the 1976 base year cost of \$5,800.

Staff employed these costs along with the 70,805 Mcf of gas representing the applicant's 81.25 percent net working interest in reserves, based on Staff's reserves estimate, in a traditional cost study. The result of this study, attached as Appendix A, indicates that a total rate of 85 cents is cost supported.

We agree that this case is covered by the provisions of special relief in Section 2.56(b) of the Commission's General Policy and Interpretations (18 CFR 2.56(b)) and not by 18 CFR 2.76 because no new investment is proposed. Therefore, we will allow Lloyd to recover only his "out-of-pocket" expense, regulatory expense, and production tax minus liquid revenue credit.

After our review of the costs to be incurred and the reserves to be recovered,

we conclude that it is in the public interest to grant Lloyd a special relief rate of 85 cents per Mcf at 15.025 psia for the sale of the subject gas effective the date this order is issued.

The Commission orders: (A) Bob M. Lloyd's petition for special relief is granted to the extent of authorizing Lloyd to collect a total rate of 85 cents per Mcf at 15.025 psia for the sale of the subject gas effective on the date of issuance of this order.

(B) The special relief rate authorized in Ordering Paragraph (A) shall not become effective as provided therein unless Lloyd files within 30 days of the issuance of this order, a notice in Docket No. CS74-296, of Independent Producer Rate Change detailing the authorized special relief rate.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ER76-533]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Order Approving Settlement Agreement

SEPTEMBER 30, 1977.

On March 1, 1976, Central Vermont Public Service Corp. submitted for filing in the above docket proposed changes in rates to nine non-affiliated and one affiliated customer providing for increased charges of \$926,668 for the 1976 test year. By order issued March 31, 1976, the Commission suspended Central Vermont's proposed increase for five months to become effective September 1, 1976, subject to refund.

Settlement negotiations between Central Vermont and its customers resulted

in a settlement agreement which was executed by all parties with the exception of Allied Power & Light Co. (Allied).¹ In substance, the settlement provided for (1) reduction in the demand ratchet from 90 percent to 85 percent of the maximum demand metered during the preceding winter months (November through March) and (2) a moratorium providing that no rate change be tendered for filing having an effective date prior to September 1, 1977.

The settlement also provided that no change would be made in the demand or energy rates from the original filing. These proposals were supported by a cost of service which utilized a weighted average coincidental peak formula to allocate production power supply demand related costs, Central Vermont's single annual peak excluding wheeling loads to allocate Central Vermont's payment to others for transmission service (Account 565) and Central Vermont's single annual peak including wheeling loads to allocate the balance of the transmission power supply demand related costs.

The proposed settlement was certified to the Commission by the Administrative Law Judge on August 11, 1976, with comments due on or before September 10, 1976. On September 10, 1976, Staff submitted comments indicating that, although it had not participated in the negotiations leading to the proposed settlement, its subsequent analysis indicated that the proposed agreement provided a reasonable resolution of the subject proceeding.

On September 13, 1976, Allied submitted a protest to the proposed settlement. Allied questioned the appropriateness of the formula² utilized by Central Vermont in allocating production power supply demand related costs, and also questioned the basis of the proposed 85 percent demand ratchet. Central Vermont responded to Allied's objection, stating that it believed its demand allocation and its ratchet provision are just and reasonable.

On September 29, 1976, Staff submitted supplementary comments indicating that it had reevaluated Central Vermont's proposed settlement, and could no longer support the proposal as proffered. For settlement analysis purposes, Staff employed the so-called Nepool formula for allocation of production demand costs, but utilized the average of the 12 monthly coincident peaks for allocating all transmission power supply demand related costs. This further analysis indicated that the proposed rates could produce excess revenues and Staff recommended that a hearing be scheduled.

¹ Allied similarly declined to enter into Central Vermont's R-3 settlement but did not oppose it. The Commission approved that settlement on April 5, 1976, in Docket No. E-9040.

² Under a Nepool formula an average is taken of the maximum peak (weighted 70 percent) and the average of the twelve monthly coincident peaks (weighted 30 percent).

uled with respect to the issue of the proper allocation basis for transmission demand related costs.

On November 4, 1976, Central Vermont submitted an answer to Staff's supplemental comments, stating that the bulk of the discrepancy between Staff and company revenue requirement determinations is not the result of the different transmission demand allocators per se, but rather the result of Staff's treatment of Account 565 transmission expense.

The company stated that Staff had improperly allocated a portion of such expenses to Central Vermont's wheeling customers. Such costs are said to be incurred solely for the purpose of transmitting capacity purchases utilized to meet Central Vermont's firm load, and they should therefore be borne at the production power supply level. As part of its November 4, answering comments, Central Vermont offered for settlement purposes to reduce its rates to its non-affiliated customers by \$9,541 annually. The settlement rates as amended would reduce the originally filed rates from \$1,840,310 to \$1,780,894 for the non-affiliated customers and from \$4,126,218 to \$4,075,500 for the affiliated customers. Central Vermont states that such reduction reflects its use of the 70.30 weighted average coincidental peak allocation for both production and transmission demand related costs. Also in its November 4, answering comments Central Vermont requested that if the settlement is not approved for all customers that it be approved for the nine signatory customers (all customers are signatories except Allied).

On January 7, 1977, an informal conference was convened for purposes of further discussion. Notice of the conference was issued on December 27, 1976. Allied, who protested the settlement, did not attend the conference nor did it offer any additional comments.

On May 18, 1977, Staff submitted additional supplemental comments on the settlement proposal. Staff now supports the settlement proposal.

The only negative comments received on this settlement were filed by Allied. Allied has never petitioned for intervention in this case. When this settlement was noticed Allied neither appeared at the conference nor did it file comments on the revised settlement. Allied objects to the ratchet clause and to the use of the Nepoch 70-30 formula for determining demand related costs.

The 85 percent ratchet in the settlement is a reduction from the 90 percent ratchet proposed by Central Vermont. The use of the Nepoch formula for determining demand related costs was previously approved by this Commission in Central Vermont's last rate proceeding. Its use here does not bind the Commission to perpetual acceptance of this formula. It merely accepts it for settlement purposes. We note that since Allied filed its letter, the settlement rates have been reduced by an additional \$9,541 as a result of subsequent settlement conferences that Allied did not attend.

We believe that the settlement agreement should be approved. Staff's analysis indicates that the settlement will result in a rate of return which does not exceed 9.83 percent, including a 13.08 percent return on common equity, for each customer class.

The Commission finds: The settlement agreement certified to the Commission on August 11, 1976, and as modified on November 4, should be approved.

The Commission orders: (A) The settlement agreement certified on August 11, 1976, as modified, is hereby approved.

(B) Within thirty days after the date of this order Central Vermont shall file substitute tariff sheets consistent with this order and the amended settlement agreement.

(C) Within thirty days of the Commission's approval of Applicant's substitute tariff sheets, Applicant shall refund to its customers all amounts, if any, collected in excess of those which would have been payable under the rates and charges approved in this proceeding, together with interest at a rate of nine percent per annum from the date of payment to Applicant to the date of refund.

(D) Within fifteen days after refunds have been made Central Vermont shall file with the Commission a compliance report showing monthly billing determinants and revenues under prior, present, and adjudicated rates; monthly adjudicated rate increase, monthly rate refund, and the monthly interest computation, together with a summary of such information for the total refund period. A copy of such report shall also be furnished to each state commission within whose jurisdiction the wholesale customers distribute and sell electric energy at retail.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-29480 Filed 10-6-77; 8:45 am]

[6740-02]

[Docket No. CP74-98]

EL PASO NATURAL GAS CO.

Informal Conference

SEPTEMBER 30, 1977.

Take notice that on October 13, 1977, at 12 p.m., an informal conference of all interested persons will be convened concerning the above-captioned matter. The conference will be held at the offices of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., 20426.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance will not be deemed to authorize intervention.

All parties will be expected to appear fully prepared to discuss (1) the issues presented by the United States Court of Appeals for the District of Columbia Cir-

cuit remanding *Southern Union Gas Company v. Federal Power Commission, et al.*, (No. 75-1600, Decided June 18, 1976), (2) the Notice Prescribing Procedures for the Submission of Comments Regarding Issues Presented by Court Remand issued January 18, 1977, (3) the comments filed in response to said notice, and (4) all parties will, additionally, be expected to comment on any procedural matters and make commitments with respect to the issues and any offers of settlement or stipulations discussed at the conference.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP76-464]

EQUITABLE GAS CO.

Amendment to Application

SEPTEMBER 30, 1977.

Take notice that on September 22, 1977, Equitable Gas Company (Applicant), 429 Boulevard of the Allies, Pittsburgh, Pennsylvania 15219, filed in Docket No. CP76-464 an amendment to its application filed in said docket pursuant to Section 7 of the Natural Gas Act so as to provide for certain modifications in its requests for the renewal and replacement of certain transmission lines in Greene and Washington Counties, Pennsylvania, and in Monongalia County, West Virginia; and the abandonment of certain minor sections of its transmission facilities located in these counties, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Applicant indicates that on August 2, 1976, it filed an application in the instant docket requesting authorization to renew and replace certain transmission lines in Greene and Washington Counties, Pennsylvania, and in Monongalia County, West Virginia. Applicant further indicates that it also requested authorization to abandon certain minor sections of its transmission facilities located in those counties. It is stated that the purpose of Applicant's application was to achieve compliance with Department of Transportation Regulations, to provide it with a more efficient transmission system, reduce maintenance costs, maintain delivery capacity, and improve reliability and safety. Applicant states that as an incident to grant of its application, the facilities and service to a small number of its direct customers would be abandoned.

Applicant indicates that on July 29, 1977, it filed an application in the instant docket requesting temporary authorization to renew 7.5 miles of its pipeline included in its August 2, 1976 application, and that pursuant to the Commission's letter order of September 13, 1977, Applicant received such temporary authorization.

By this amendment Applicant proposes: (1) to modify its request so that

its Transmission Lines Numbers H-102, H-106, and H-117 (presently having a diameter of 16-inch and a maximum allowable operating pressure of 225 pounds) be renewed with 16-inch (instead of 20-inch) pipeline with a maximum allowable operating pressure of 1,000 pounds.

(2) To modify Applicant's requests so that: (a) 4.0 miles (instead of 4.6 miles) of its Transmission Lines Number H-117, be renewed from Orndorff to the proposed Columbia Gas Transmission Corporation's connection at Waynesburg, Pennsylvania; (6 of a mile of Applicant's Line Number H-117 need not be renewed since it would not be carrying high pressure gas); and

(b) 13.6 miles (instead of 16.2 miles) of its Transmission Line Number H-11 be renewed. This decrease is due to a revision based on more current surveys.

Applicant states that the effect of modifications 2(a) plus 2(b) is to alter the total length from 35.1 miles to 31.9 miles of the transmission lines for which renewal authority is sought.

(3) To withdraw Applicant's request that its Transmission Lines Numbers H-103 and H-116 be abandoned. It is now contemplated that these lines would remain in service. The effect of this request is to alter the total length of transmission line to be abandoned from 36.5 miles to 30.5 miles and the total length of older, mechanically joined pipeline which can be eliminated from 71.6 miles to 62.4 miles.

Applicant further states that as part of its application herein is the request for authorization to abandon facilities and service to 24 of its direct customers. With regard to these 24 customers, Equitable has formulated a plan which would assure the delivery of either natural gas service or alternative fuels, it is said. Applicant indicates that as a result of its plan, these 24 customers would continue to receive fuel to meet their full requirements.

Applicant indicates that the total cost of this project is estimated to be \$9,216,000 and would be financed initially from cash on hand generated from operations, together with supplemental funds borrowed under short-term bank credit agreements.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before October 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). A protest filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party or to participate as a party to any hearing therein must file a petition to intervene in accordance with the Commission's

Rules. All persons who have heretofore filed need not file again.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket Nos. CI76-758 and CI77-15; Docket No. CI77-616]

GETTY OIL CO. AND CITIES SERVICE CO.

Findings and Order After Statutory Hearing Issuing Certificates of Public Convenience and Necessity

SEPTEMBER 30, 1977.

On September 10, 1976,¹ and October 8, 1976,² Getty Oil Company (Getty) filed in Docket Nos. CI76-758 and CI77-15, respectively, requesting issuance of permanent certificates authorizing sales from Block A-133, Brazos Area, Offshore Texas (Federal Domain), to Transco Gas Supply Company (Supply).³ Cities Service Company (Cities) requests issuance of a permanent certificate in Docket No. CI77-616 authorizing sales from the same block to Supply. Each Applicant indicates a willingness to accept a certificate conditioned to the national rate.

Transcontinental Gas Pipe Line Corporation (Transco) filed in Docket No. CP77-382 for a certificate authorizing it to construct and operate facilities to attach the subject reserves.

Each related contract permits the producer to reserve and exclude a specified percentage of the volumes of gas well gas delivered each day after the reservation is exercised and provides the reservation will not be effective for any purpose until the buyer is authorized to transport and/or exchange seller's reserved gas. Getty's contracts permit it to reserve up to 33 1/3 percent of the gas while Cities' contract permits it to reserve up to 33 percent of the gas.

Each related contract contains impermissible pricing provisions. Consistent with past Commission action in similar situations, § 154.93 of the Regulations will be waived when accepting the rate schedules for filing.

Cities stated its sale qualifies for the proposed rate since the wells were commenced after December 31, 1974, and the waiver of contingent escalations required by § 2.56a(d) of the Rules was filed. In Docket No. CI76-758, Getty filed the waiver required by Section 2.56a(i) but did not demonstrate the applicability of the proposed rate. In Docket No. CI77-15, Getty did not file the waiver required by Section 2.56a(i) but stated the sale qualifies for the proposed rate since the

¹ Supplemented on 9-15-76 and 9-20-76.

² Application originally filed by Skelly Oil Company; however, on 4-13-77, Getty requested its name be substituted for Skelly's.

³ Supplemented on 12-6-76.

⁴ Supply resells all gas it purchases to Transcontinental Gas Pipe Line Corporation pursuant to authorization issued in Docket No. CP76-3.

wells were all spudded after January 1, 1975. Each Applicant qualifies for the gathering allowance prescribed in Opinion No. 770-A, § 2.56a(d) (7) since the gas will be delivered on an offshore platform.

After due notice by publication in the FEDERAL REGISTER, no protests or interventions have been filed in Docket No. CI77-15. On October 27, 1976, the Public Service Commission of the State of New York (PSCNY) filed a notice of intervention and a request for a hearing in Docket No. CI76-758. However, on November 15, 1976, PSCNY filed a letter stating it does not oppose issuance of a certificate at the national rate. Thus, no hearing is required.

At a hearing held on September 21, 1977, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and petitions and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record.

The Commission finds: (1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore be a "natural-gas company" within the meaning of the Natural Gas Act upon the commencement of service under the authorization hereinafter granted.

(2) The sale of natural gas hereinbefore described, as more fully described in the application in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sale by Applicant, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations of the Commission.

(4) The sale of natural gas by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity; and a certificate therefor should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the FPC gas rate schedule related to the authorization hereinafter granted should be accepted for filing to be effective on the date of initial delivery.

The Commission orders: (A) Permanent certificates are issued to Getty in Docket Nos. CI76-758 and CI77-15 and a permanent certificate is issued to Cities in Docket No. CI77-616 subject to Opin-

ion No. 770, as amended, and any further orders issued thereunder and conditioned to the lesser of the contract rate or the national rate for sales from wells commenced on or after January 1, 1975.

(B) Section 154.93 of the Commission's Regulations is hereby waived to permit filing of the contract which contain impermissible pricing provisions. The granting of such waiver, however, does not constitute approval of such provisions and any rate increase based on said pricing provisions to the extent it is inconsistent with the provisions of § 154.93 of the Commission's Regulations is subject to rejection.

(C) This order does not authorize Transco to transport and/or exchange Cities' or Getty's reserved gas and Transco is hereby advised that it will be necessary to file for and receive specific Commission authorization to transport and/or exchange Cities' or Getty's reserved gas.

(D) Getty and Cities are advised that if a pipeline is authorized to transport and/or exchange their reserved gas, a concomitant filing under section 7(b) will not be required for that percentage of their reserved gas which is authorized to be transported and/or exchanged.

(E) Getty and Cities are advised that issuance of the certificates and acceptance of the rate schedules do not constitute approval of their contractual reservations of gas. Such reservations may be exercised only upon prior approval of the Commission upon appropriate application or applications specifying the facts surrounding the proposed exercise of the reservations, including (but not by way of limitation) specification of volumetric demands, transportation arrangements, and end uses, so that a determination can be made by the Commission as to whether or not the proposal is in the public interest.

(F) Getty and Cities are advised that if a pipeline company is not authorized to transport or exchange their reserved gas, they must continue sales until they apply for and obtain section 7(b) abandonment authorization.

(G) Getty and Cities are required to submit, at least 30 days prior to the proposed effective date of any proposed exercise of their gas reservations, a rate schedule supplement notifying the Commission that they have elected to reserve gas and setting forth the conditions and details of the contemplated action.

(H) The related rate filings are accepted to be effective on the date of initial delivery and are designated as follows:

Description	Designation
Contract Aug. 10, 1976	Getty Oil Company, FPC Gas Rate Schedule No. 412.
Contract Sept. 14, 1976	Getty Oil Company, FPC Gas Rate Schedule No. 413.
Certificate of Merger Jan. 26, 1977	Supplement No. 1 to FPC Gas Rate Schedule No. 413.
Contract Aug. 10, 1976	FPC Gas Rate

Description	Designation
Preambles and Resolutions Apr 14, 1977	Schedule No. 413.
	Cities Service Company, FPC Gas Rate Schedule No. 450.
	Supplement No. 1 to FPC Gas Rate Schedule No. 450.

Applicants shall advise the Commission in writing of the date of initial delivery within 10 days therefrom.

(I) Within 30 days from the dates of initial delivery, Applicants shall submit three copies of a revised billing statement which clearly reflects the components of the authorized rates in Ordering Paragraph (A) above in the event the previously filed billing statements do not reflect the national rate in effect when deliveries commence.

(J) PSCNY is permitted to intervene in Docket No. C176-758 subject to the rules and regulations of the Commission; *Provided, however*, That participation by such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further*, That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in these proceedings.

(K) The grant of the certificates issued in Ordering Paragraph (A) above shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's Regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against Applicant. Further, our action in this proceeding shall not foreclose or prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. The grant of the certificates aforesaid for service to the particular customer involved does not imply approval of all of the terms of the contract, particularly as to cessation of the service upon termination of said contract as provided by section 7(b) of the Natural Gas Act. The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificate.

(L) The certificates of public convenience and necessity issued herein authorize the sales by Applicants of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the application.

(M) Pursuant to Order No. 539-B, *Order Clarifying Prior Orders And*

Amending Section 157 Of The Commission's Regulations Under The Natural Gas Act, Docket No. RM76-8 (issued July 30, 1976), the Commission's Regulations were amended to include new Section 157.41, which requires the following language be inserted as a condition in all certificates of public convenience and necessity issued on or after July 30, 1976:

All persons making jurisdictional sales pursuant to the authority granted by this certificate are hereby given notice that the contractual obligations between the buyer and the seller are incorporated into the certificate obligations, and that the certificate is further conditioned to require that the seller shall observe the standard of a prudent operator to develop and maintain deliverability from reserves dedicated hereunder.

(N) Getty is required to submit, within 30 days from the date of initial delivery, the written waiver required by § 2.56a(4) of the Rules in Docket No. C177-15 and a statement demonstrating the applicability of the authorized rate in Docket No. C176-758.

(O) Each Applicant is advised that the authorized rate cannot be changed without an appropriate filing under Section 154.94 of the Commission's Regulations.

(P) Getty is required to submit, within 30 days from the date of this order, three copies of dated copies of page 1 of the September 14, 1976, contract.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-29483 Filed 10-6 77; 8:45 am]

[6740-02]

[Docket No. ER77-532]

GULF POWER CO.

Order Accepting for Filing and Suspending Proposed Rates and Establishing Procedures

SEPTEMBER 30, 1977.

On July 29, 1977, Gulf Power Co. (Gulf) filed with the Commission revisions to the Company's wholesale tariff, amounting to a request for an additional \$1,860,427 above the revenues requested in Docket No. E-8911, Gulf's previous filing. Revisions in certain terms and conditions of the tariff are also sought. This proposed filing is also \$2.3 million above the increase authorized by the Administrative Law Judge in Docket No. E-8911. No final Commission decision in that docket has been rendered.

Notice of the proposed filing was issued on August 9, 1977, with comments, protests, and petitions to intervene due on or before August 19, 1977. A "Petition to Intervene, Protest and Motion to Reject or (to the Extent Not Rejected) for a Five Month Suspension of, and a Hearing on, Gulf Power Co.'s Tendered Filing of Rate Increases and Other Tariff Changes" was filed on August 18, 1977, by certain electric cooperatives (Co-

operatives). Subsequently, on August 19, 1977, the Florida Public Utilities Co. (FPU), a wholesale customer of Gulf, also filed a Petition to Intervene.

All Petitioners seeking intervention assert that their respective interests could not be represented adequately by other participants. AEC, although not a wholesale customer, claims it could be adversely affected by Gulf's proposed rate increase by virtue of pooling arrangements among AEC members and various cooperative customers of Gulf. Gulf does not oppose intervention.

Gulf filed its timely response to these petitions on September 2, 1977. A discussion of the various arguments presented follows below.

Cooperatives have filed an extensive petition seeking intervention and outright rejection of Gulf's filing or alternatively partial rejection of the filing and a five month suspension of its effective date. Cooperatives contentions are basically as follows:

(1) Gulf's proposed revisions to the increased capacity requirements and termination clauses are patently unlawful; they are unduly restrictive and violate the policies underlying the antitrust laws. These revisions merit outright rejection;

(2) Gulf's proposed rate of return is so excessive as to warrant outright rejection;

(3) Gulf's tendered filing contains numerous other significant deficiencies further warranting outright rejection. Among the deficiencies alleged, Cooperatives state that: (i) Gulf's Period I data is stale; (ii) Gulf's proposed Environmental Protection Cost Adjustment Clause is improper; (iii) Gulf has included excessive AFUDC in its rate base and cost of service; (iv) an improper demand allocation method was used; (v) transmission facilities have been misclassified; (vi) Gulf's wholesale rates raise the issue of price squeeze, etc.

FPU asserts in its petition that, as a wholesale customer of Gulf, it has legal and economic interests in this matter which may be adversely affected by a final order in this proceeding.

Our review indicates that Cooperatives and FPU are interested parties within the meaning of § 1.8 of the Rules of Practice and Procedure and that sufficient justification exists for permitting their intervention in Docket No. ER77-532. As to the Cooperatives' requests for rejection of Gulf's filing, those requests must be denied for the reasons stated herein.

It is well established that rejection of a party's filing is appropriate in certain

¹ The Petition was filed on behalf of the Alabama Electric Cooperative (AEC) as well as four distribution cooperative customers of Gulf, identified as:

- (1) Gulf Coast Electric Cooperative, Inc.,
- (2) Choctawhatchee Electric Cooperative, Inc.,
- (3) West Florida Electric Cooperative Association, Inc.,
- (4) Escambia River Electric Cooperative, Inc.,

limited circumstances. "It should mark the clear case of a filing that patently is either deficient in form or a substantive nullity." *Municipal Light Boards of Reading and Wakefield, Massachusetts v. FPC*, 450 F. 2d 1341, 1345 (D.C. Cir., 1971).

We have examined Gulf's filing and find no basis for rejection. Gulf's proposed Environmental Protection Cost Adjustment Clause requires cost support as well as justification for inclusion in Gulf's tariff. Gulf's Period I data conforms with our filing regulations and is not stale. Such matters as the Company's proposed rate of return, its AFUDC calculations, its demand allocation methods, etc., are factual questions that are appropriately resolved by a formal hearing, where conflicting contentions can be presented for resolution by the Commission.

The Cooperatives request for rejection of Paragraphs 9 and 9A of Gulf's proposed tariff, dealing with certain increased capacity requirements and termination clauses must also be denied. The Cooperatives allege that "Gulf Power's position in the Northwestern Florida wholesale power supply market is one of overwhelming monopoly." Petition, p. 9. Cooperatives allege that Gulf has in the past refused to wheel SLPA power to distribution cooperatives and has denied Alabama Electric Cooperative members certain coordination benefits. Cooperatives conclude that Gulf seeks its monopoly position "through its proposed termination clause provisions." Petition, p. 10. They contend that the above mentioned tariff provisions unreasonably restrict Cooperative's bulk power supply options.

Gulf, on the other hand, disputes that such a market as defined by Cooperatives exists and states that "the Company does not have a monopoly position respecting wholesale power supply." Response, p. 9. It further asserts that tariff provisions may be justified on the basis of the structure of the industry, safety and business reasons, etc.

Clearly, there are a number of opposing contentions. The existence of anticompetitive effects is not necessarily obvious on the face of a contract or tariff provision and such an issue cannot be dealt with summarily at this time. Whether an anticompetitive requirements provision or exclusive dealing arrangement exists, as alleged by Cooperatives, depends upon the resolution of a number of questions that require exploration through hearing procedures. The pleadings as noted raise many such questions.

Cooperatives have raised the question of price squeeze and have also requested a five month suspension of Gulf's proposed rate increase. The Company denies price squeeze and requests no more than the minimum suspension.² We have

² On August 29, 1977, Gulf filed a letter with the Commission pointing out that its rate increase application was submitted on the last business day before the Commission

examined the various motions as well as Gulf's filing. Our review indicates that the proposed increase in rates and charges has not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Based on this review of the filing and the various pleadings we will accept for filing (as previously discussed) the proposed increased rates and suspend their effective date for one month, i.e., to November 1, 1977, at which time they will become effective subject to refund.

The Commission finds: (1) The intervention by Cooperatives and EPU may be in the public interest and should be granted.

(2) Cooperatives motion to reject or in the alternative to reject in part and suspend for five months should be denied.

(3) Good cause exists to establish "price squeeze" procedures to effectuate the Commission's policy announced in Order No. 563.

(4) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the proposed increased rates and charges tendered by Gulf on July 29, 1977, establishing procedures for that hearing, and that the proposed increased rates and charges be accepted for filing, suspended, and the use thereof deferred, all as hereinafter ordered.

The Commission orders: (A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Federal Power Act, particularly sections 205, 206, 301, 303, and 309 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the Regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held concerning the justness and reasonableness of the rates proposed by Gulf in this proceeding.

(B) Pending such hearing and decision thereon, the proposed increased rates and charges filed by Gulf on July 29, 1977, are hereby accepted for filing, suspended and the use thereof deferred until November 1, 1977, when they shall become effective, subject to refund.

(C) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before January 16, 1978.

(D) A Presiding Administrative Law Judge to be determined by the Chief Administrative Law Judge for that purpose shall preside at a prehearing conference in this proceeding to be held on January 31, 1978, at 10 a.m. (ET) in a hearing room of the Federal Power Commission, 825 North Capitol Street NE, Washington, D.C. 20426. Said Law Judge is authorized to establish all procedural dates and to rule upon all motions (except

issued Order 569. Gulf suggests that had it filed one business day later, the Company could have requested that its new rates become effective within 30 days rather than 60 days. This argument has been considered.

NOTICES

petitions to intervene, motions to consolidate and sever, and motions to dismiss, as provided for in the Commission's Rules of Practice and Procedure.

E) Cooperative and FPU are hereby permitted to intervene in these proceedings. *Provided, however,* That participation of such intervenors shall be limited to matters set forth in the petition to intervene; *And provided further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(F) The Administrative Law Judge shall convene a prehearing conference within 15 days from the date of this order for the purpose of hearing the intervenors' request for data required to present its case, including a prima facie showing, on the price squeeze issue. Gulf shall also be required to respond to the discovery requests authorized by the Administrative Law Judge within 30 days and the intervenors shall file their case-in-chief on the price squeeze issue within 30 days after Gulf's response.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ER77-623]

IOWA ELECTRIC LIGHT & POWER CO.
Initial Rate Schedule

SEPTEMBER 30, 1977.

Take notice that Iowa Electric Light & Power Co. (Iowa Electric) on September 28, 1977, tendered for filing a wholesale electric service agreement with the City of Anita, Iowa. Iowa Electric indicates the proposed Agreement provides that Iowa Electric will provide to the City of Anita any electric service in excess of the electric service currently being provided by the United States Department of the Interior, Bureau of Reclamation. Iowa Electric also indicates that the cost of the proposed electric service will be equal to the current rate set forth in Iowa Electric's currently effective RES-1 Rate Schedule which was approved by Commission order issued on December 15, 1976, in Docket No. ER76-206. Iowa further indicates that the only facilities installed to fulfill Iowa Electric's commitments under the Wholesale Electric Service Agreement were certain metering facilities. Iowa Electric requests waiver of the Commission's notice requirements to permit the Agreement to become effective on October 1, 1977.

Iowa Electric states that copies of the above filing have been served upon the City of Anita and the Iowa State Commerce Commission.

Any person desiring to be heard or to protest said application should file a pe-

tition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI77-132]

JOHN H. HURBROUGH, ET AL.
Petition for Special Relief

SEPTEMBER 30, 1977.

Take notice that on September 13, 1977, John H. Hurbrough, et al. (Petitioner), 3901 Westheimer, Suite 354, Houston, Tex. 77027, in Docket No. RI77-132, filed a petition for special relief pursuant to § 2.76 of the Commission's General Policy and Interpretations (18 CFR 2.76). Petitioner requests an increase in rate to \$2.10 per Mcf for natural gas sales to United Gas Pipeline Co. from the J. C. Beard Lease, J. C. Beard No. 1 well, Boggy Creek Field, Anderson County, Tex. Petitioner states that the requested increase is necessary in order to continue producing from the subject well.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. RI77-134]

LEACH BROTHERS, INC.
Petition for Special Relief

SEPTEMBER 30, 1977.

Take notice that on September 20, 1977, Leach Brothers, Inc. (Petitioner),

13601 Preston Road, Suite 714-E, Dallas, Tex. 75240, in Docket No. RI77-134 filed a petition for special relief pursuant to § 2.76 of the Commission's General Policy and Interpretations (18 CFR 2.76). Petitioner requests an increase in rate from 34.8199 cents per Mcf to \$1.75 per Mcf for natural gas sales to United Gas Pipeline Co. from the T. N. Mauritz No. 1 well and the T. N. Mauritz No. 2 well, North Laward Field, Jackson County, Tex. Petitioner states that production and lease operation can no longer be continued at the present rate.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedures (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ER77-621]

MONTAUP ELECTRIC CO.
Tariff Filing

SEPTEMBER 30, 1977.

Take notice that Montaup Electric Co. (Montaup), on September 28, 1977, tendered for filing an agreement dated September 1, 1977, under which Montaup assigns to the Middleborough (Massachusetts) Municipal Gas and Electric Department a portion, 2.5 MW, of Montaup's entitlement to New Brunswick Power under the Second Supplement to the New Brunswick Participation Agreement dated as of December 1, 1977. Montaup indicates that the assignment by Montaup to Middleborough is for the period November 1, 1977, through October 31, 1981. Montaup further indicates that under the assignment, Middleborough agrees to make all payments and discharge all obligations, duties, and liabilities with respect to the assigned power. Montaup has also filed a service agreement under which Montaup proposes to transmit the assigned power across its system to Middleborough under Montaup's generally applicable transmission tariff. Montaup has requested that the assignment and the related transmission agreement be allowed to become effective as of November 1, 1977.

According to Montaup copies of this filing were served upon Middleborough Municipal Gas and Electric Department and the Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-622]

MONTAUP ELECTRIC CO.
Proposed Contract Amendment

SEPTEMBER 30, 1977.

Take notice that Montaup Electric Co. (Montaup), on September 28, 1977, tendered for filing a letter agreement between itself and the Middleborough (Massachusetts) Municipal Gas and Electric Department effecting certain changes in its FPC Rate Schedule No. 40 and Supplement No. 1 thereto. Montaup indicates that the chief purpose of the filing is to extend the term of the current agreement under which Middleborough purchases Somerset No. 6 unit power from Montaup through the year 1981. Montaup requests that the letter agreement be allowed to become effective as of November 1, 1977.

According to Montaup copies of the filing were served upon Middleborough Municipal Gas and Electric Department and the Massachusetts Department of Public Utilities.

Any person desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Project No. 2251]

NEW ENGLAND FISH CO.
Issuance of Annual License(s)

SEPTEMBER 30, 1977.

New England Fish Company is the Licensee for the San Juan Lake and Creek Project No. 2251, located on Evans Island, Alaska. By letter of September 23, 1977, Licensee requested that its license be renewed.

The license for Project No. 2251 was issued effective May 8, 1959, for a period ending October 7, 1977. In order to authorize the continued operation and maintenance of the project, it is appropriate and in the public interest to issue an annual license to New England Fish Company.

Take notice that an annual license is issued to New England Fish Company for the period October 8, 1977, to October 7, 1978, or until Federal takeover, or until the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the San Juan Lake and Creek Project No. 2251 subject to the terms and conditions of the original license. Take further notice that if Federal takeover or issuance of a new license does not take place on or before October 7, 1978, a new annual license will be issued each year thereafter, effective October 8 of each year, until such time as Federal takeover takes place or a new license is issued, without further notice being given by the Commission.

[6740-02]

[Docket No. RP76-52, et al.]

NORTHERN NATURAL GAS CO.

Order Denying Motion for Establishment of Interim Curtailment Plan

SEPTEMBER 30, 1977.

On August 30, 1977, The Brick People, et al., filed a motion requesting the Commission to issue an order establishing an interim curtailment plan for Northern Natural Gas Company (Northern), pending final Commission action on Northern's permanent curtailment plan. The Brick People et al. specifically request the Commission to place interruptible process, plant protection, and feedstock requirements without alternative fuel capability with similar firm requirements. These interruptible volumes are currently in Priority 3 while similar firm volumes are in Priority 2(b). Northern, Northern Distributors Group (NDG), Northern Municipal Defense Group (MDG), and Commission Staff filed responses to The Brick People's motion.

The Brick People state that the Commission has the responsibility of monitoring and altering curtailment plans when necessary. In this proceeding, the Brick People argue that without the requested modification, interruptible process, plant protection and feedstock users will suffer irreparable harm. Finally, the Brick People argue that abolishment of the firm-interruptible distinction is consistent with Commission precedent.

Northern, NDG, MDG, and Commission Staff oppose the Brick People's motion. All parties argue that the Brick People have failed to show the resultant "irreparable harm" if this motion is denied. Specifically, it is argued that they have not stated that any member of the "interruptible" category will be forced to slow down operations if Northern curtails Priority 3 as projected. The parties opposing the motion assert that this is just another motion which "attempts to take this contested case and resolve one or more of its issues without full hearing and evidentiary consideration." (NDG Answer at 2).

After careful consideration of the arguments of all of the parties, we must deny the Brick People's motion for implementation of an interim curtailment

¹ NDG consists of Interstate Power Co., Iowa Electric Light and Power Co., Iowa Illinois Gas and Electric Co., Iowa Power and Light Co., Iowa Public Service Co., Iowa Southern Utilities Co., Metropolitan Utilities District of Omaha, Minnesota Gas Co., North Central Public Service Co., and Northern States Power Co.

² MDG consists of the Cities of Brooklyn, Cascade, Coon Rapids, Emmetsburg, Gilmore City, Graettinger, Harlan, Hawarden, Mankato, Manning, Osage, Preston, Remsen, Rolfe, Sac City, Sanborn, Sioux Center, West Bend, Whittemore, and Woodbine, Iowa.

plan. The Brick People stated in their motion that "[i]n virtually every fully adjudicated curtailment proceeding to date in which a final Commission order has been issued, the Commission has concluded, based upon the record in that proceeding, that similar end-uses should be treated in a similar fashion" (Brick People's Motion at 4). We agree with this conclusion; however, we note that the key phrases in the above quote are "fully adjudicated curtailment proceeding in which a final Commission order has been issued" and "based upon the record in that proceeding." The Commission, after review of the entire record in this proceeding may conclude to abolish the firm-interruptible distinction; however, these decisions have been made on a case by case basis and no substantial reasons have been given to vary from this procedure. The Brick People have failed to demonstrate that these users will be irreparably harmed without immediate action. Furthermore, if curtailments are such that an emergency exists for these customers, their alternative is to file for these customers, their alternative is to file for extraordinary relief from Northern's effective curtailment plan.

The Commission finds and orders: The motion filed by the Brick People et al. on August 30, 1977, for imposition of an interim curtailment plan is hereby denied.

By the Commission.

KENNETH F. PLUMB,
Secretary.

Order Granting Special Relief

SEPTEMBER 30, 1977.

On July 11, 1977, Sun Gas Co., a Division of Sun Oil Co., Delaware (Sun) filed a petition for special relief pursuant to

Section 2.76 of the Commission's General Policy and Interpretations (18 CFR 2.76) for the sale of natural gas to Valley Gas Transmission, Inc. (Valley) from the Hidalgo Willacy Unit, South Elsa Field, Hidalgo County, Tex.

Sun, a large producer, is making this sale under its contract with Valley dated February 20, 1961, on file as Sun's FPC Gas Rate Schedule No. 213 in Docket No. CI61-1710. Sun is currently receiving a base rate of 29.50 cents per Mcf at 14.73 psia for this gas. Sun proposes to replace a single stage compressor with a two-stage compressor in order to increase the production rate. Consequently, Sun requests that the Commission authorize it to collect a base rate of 45.46 cents per Mcf at 14.73 psia. By letter dated May 6, 1977, Valley agreed to pay Sun whatever rate is approved by the Commission.

Notice of the petition was issued August 3, 1977, and no protests or interventions have been filed to date, the period for filing protests or interventions having ended on August 26, 1977.

Sun's proposed rate is within the criteria set out in Order No. 551. Specifically, the proposed additional investment will result in less than \$50,000 additional revenue (\$38,533), the additional investment to be made is in excess of 25 percent of the estimated additional revenue, and the total rate requested is less than 50 cents per Mcf, exclusive of production or severance taxes, at 14.73 psia.

Based on the Commission Staff's evaluation of data submitted by Sun in conformance with the criteria set out in Order No. 551, the proposed total rate is cost justified and in the public interest. Accordingly, we find that the instant petition is consistent with the purposes of Section 2.76 and that such petition sets forth an adequate economic justification for the relief sought.

The Commission orders: (A) Sun's petition for special relief is hereby granted.

(B) Sun is authorized to collect a base rate of 45.46 cents per Mcf at 14.73 psia for gas sold to Valley from the Hidalgo Willacy Unit, South Elsa Field, Hidalgo County, Tex., effective on the date of issuance of this order or on the date of completion of the proposed work, whichever is later. This authorization is contingent upon Sun's filing within 30 days of the effective date set forth above a statement, signed by Valley, that the proposed work has been performed to Valley's satisfaction.

(C) The special relief authorized in Ordering Paragraph (B) shall not become effective as provided therein unless Sun files within 30 days of the issuance of this order a contractual amendment authorizing the rate granted herein.

(D) Sun's independent producer rate change filing is hereby accepted as Supplement No. 28 to Sun's Rate Schedule No. 213 with an effective date as provided in Ordering Paragraph (B).

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket Nos. E-9556, IT-5026, E-6723, E-6192 and E-6109]

CENTRAL POWER & LIGHT CO. AND COMISION FEDERAL DE ELECTRICIDAD DIVISION GOLFO NORTE

Order Authorizing Export of Electric Energy, Terminating Outstanding Orders Authorizing Export of Electric Energy, Amending Presidential Permit, and Revoking Outstanding Presidential Permit

SEPTEMBER 30, 1977.

On April 15, 1976, several filings were made in the above-captioned cases. Since these filings all deal with related issues, they will be considered in connection with one another in this order.

(1) In Docket No. E-9556, Central Power & Light Company (CPL) and Comision Federal de Electricidad Division Golfo Norte (CFE) filed a joint application for authority to export electrical energy to Mexico.

(2) In Docket Nos. IT-5026 and E-6723, CPL & CFE filed a joint application for termination of outstanding orders authorizing the exportation of electrical energy to Mexico.

(3) In Docket No. E-6192, CFE has filed an application to reflect a change in ownership of facilities, and

(4) In Docket No. E-6109, CFE has filed an application for the revocation of a permit to reflect the removal of facilities covered by permit.

The subject filings reflect the growth of the CFE electric system from a number of isolated systems supplied by CPL to an integrated system with its own bulk power supply; and the interconnected operation of CPL with the CFE system to exchange off-peak power and energy.

Central Power and Light Company for many years supplied electric energy to small privately owned electric systems in Mexico. These systems have been taken over by Comision Federal de Electricidad Division Golfo Norte, an agency of the Federal Government of Mexico, which has been constructing integrated electric systems within that country to supply its customers from its own bulk power resources. CFE and CPL have agreed to exchange off-peak power and energy over 138 kV interconnections which were constructed primarily to supply loads in Mexico.

E-9556 is a request for authorization to export electric power and energy to Mexico in accordance with an agreement which provides for the interchange of off-peak power and energy. (This part of the application has been assigned Docket No. E-9556.) The letter agreement has the following provisions:

1. The normal maximum interchange demand limit will be 50 megawatts, if and when available upon request and when available upon request and by proper approval of the sending system dispatcher. This maximum demand limit may be exceeded only by mutual agreement of the dispatchers, depending on conditions in effect at the time required.

2. All kilowatt-hours interchanged on a 1.0 to 1.0 basis will be those kilowatt-hours received or transmitted during any day of the year for CPL peak hours between 8:00 a.m. and 6:00 p.m. and for CFE peak hours

between 6:00 p.m. and 10:00 p.m. All other hours (10:00 p.m. to 8:00 a.m.) will be considered off-peak for both parties.

3. The interchange account will be operated in such a manner that the account will become zero at least once during each calendar year. In order for this to be accomplished, it may be necessary for CFE to return energy owed CPL during the CPL off-peak hours of 10:00 p.m. to 8:00 a.m. This energy may be returned at a ratio of 1.4 kilowatt-hours to CPL for each 1.0 kilowatt-hours received by CFE.

4. Interchange power and energy will be made available for either party when and if available on a 1.0 to 1.0 or 1.4 to 1.0 basis as set out above except when the sending party's generating expenses are other than normal. At such off-normal times, the ratio for returning interchange power and energy will be specifically negotiated between the system dispatchers at the time of each request.

In Docket Nos. IT-5026 and E-6723, CFE and CPL have joint authority to export electric energy. In Docket No. IT-5026, the authorization is for an amount not to exceed 45,000,000 kWh annually, at a rate not to exceed 7,500 kW. In Docket No. E-6723 the authorization is for an amount not to exceed 233,000,000 kilowatt hours annually at a rate not to exceed 45,000 kW. Applicants submit that since the new operating agreement provides that the net energy balance will be zero at least once every year, the limitations are no longer appropriate and request that they be revoked, and that transmission of electric power and energy as contemplated by the agreement be authorized.

Servicios Electricos de Piedras Negras hold two Presidential Permits in Docket Nos. E-6192 and E-6109. CFE has taken over this small electric system and requests that the Permit in Docket No. E-6192 be amended to reflect this change. CFE also requests that the Permit in Docket No. E-6109 be revoked since the facilities have been removed.

Pursuant to section 202(e) of the Federal Power Act relating to the export of electric energy from the United States, this Commission "shall issue such order upon application unless, after opportunity for hearing it finds that the proposed transmission would impair the sufficiency of electric supply within the United States or would impede or tend to impede the coordination in the public interest of facilities subject to the jurisdiction of the Commission." Federal Power Act, § 202(e).

In Docket No. E-9556, the provisions of the present agreement limit the transfer of power to an "if and when available" basis thus permitting the dispatcher to use only capacity surplus to his own system requirements. The diversity exchange should result in less use of higher cost peaking capacity with attendant lower costs of energy. Exchanges of higher than normal cost energy as may be negotiated under the agreement may provide some measure of emergency assistance. Since the CPL and Mexican systems are parallel electrically along the border, there can be local exchanges and enhancement of reliability in that area.

Since the exchange of energy will be on a kWh basis, and from capacity surplus to the suppliers needs, a limit to the amount of electric energy to be exported and the rate in kW of export does not appear to be necessary. Also, the systems will be required to file annual reports on the transactions which can be used to monitor such exports.

Although Docket No. E-9556 relates only to the application for permission to export electrical energy, the proposed transactions thereunder are in the nature of exchanges to be arranged whenever such an exchange results in benefits to both parties. Such exports will result in economy in operation to CPL and will improve electrical reliability for its system.

The Commission finds: 1. In Docket No. E-9556, good cause exists to accept for filing as an Export Rate Schedule the letter agreement under which the parties now operate.

2. In Docket No. E-9556, the equal exchange of diversity power as contemplated in the Letter Agreement will not impair the sufficiency of electric supply within the United States, or impede or tend to impede the coordination in the public interest of facilities subject to the jurisdiction of the Commission.

3. In Docket No. E-9556, good cause exists to authorize CFE and CPL to transmit electric energy to Mexico in accordance with the instant application and Exhibit A to the Application (Letter Agreement) over facilities covered by Presidential Permit, Docket No. E-6192, Permit, Docket No. E-8057, and over facilities of International Boundary and Water Commission at Falcon Dam.

4. Good cause exists to require CFE and CPL to report annually the energy transactions authorized in Docket No. E-9556.

5. Good cause exists to terminate the authorizations to transmit electric energy to Mexico in Docket Nos. IT-5026 and E-6723.

6. Good cause exists to remove the Presidential Permit in Docket No. E-6109 to reflect removal of the facilities.

7. Good cause exists to amend the Presidential Permit in Docket No. E-6192 to reflect the present ownership of the electric facilities by CFE.

The Commission orders: (A) In Docket No. E-9556, the letter agreement designated Exhibit A is accepted for filing an Export Rate Schedule.

(B) In Docket No. E-9556, CFE and CPL are authorized to transmit electric energy to Mexico in accordance with the instant application and Exhibit A over facilities covered by Presidential Permits, Docket No. E-6192 and E-8057, and over facilities of International Boundary and Water Commission at Falcon Dam.

(C) In Docket No. E-9556, CFE and CPL are directed to report annually the energy transactions authorized in Docket No. E-9556.

¹ Exhibit A to the Application.

(D) In Docket Nos. IT-5026 and E-6723, the authorizations to transmit electric energy to Mexico are hereby terminated.

(E) In Docket No. E-6109, the Presidential Permit issued is hereby revoked.

(F) In Docket No. E-6192, the Secretary is directed to amend the Presidential Permit to reflect the present ownership of the electric facilities by CFE.

By the Commission. Chairman CURTIS voted present.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP77-640]

COLORADO INTERSTATE GAS CO.

Application

SEPTEMBER 30, 1977

Take notice that on September 26, 1977, Colorado Interstate Gas Co. (Applicant), P.O. Box 1087, Colorado Springs, Colo. 80944, filed in Docket No. CP77-640 an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(c) of the regulations thereunder (18 CFR 157.7(c)) for a certificate of public convenience and necessity authorizing the construction, during the 12-month period beginning January 1, 1978, and operation of facilities to make miscellaneous rearrangements on its system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in making miscellaneous rearrangements which would not result in any material change in the service presently rendered by Applicant.

Applicant states that the total cost of the proposed facilities would not exceed \$300,000, which cost would be financed from current funds on hand, funds from operations, short-term borrowings, or long-term financing.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Fed-

eral Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein. If the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-29542 Filed 10-6-77; 8:45 am]

[6740-02]

[Docket No. CP77-637]

COLUMBIA GAS TRANSMISSION CORP.

Application

SEPTEMBER 30, 1977.

Take notice that on September 26, 1977, Columbia Gas Transmission Corp. (Applicant), 1700 MacCorkle Avenue SE., Charleston, W. Va. 25314, filed in Docket No. CP77-637 an application pursuant to section 7(c) of the Natural Gas Act and § 2.79 of the Commission's general policy and interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation of up to 232 Mcf of natural gas per day for Rea Magnet Wire Co., Inc. (Rea), for 2 years, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant requests authorization to transport gas for Rea, which volumes would be received by Applicant into its Lines A-75 and A-80 in Warren County, Ohio, at an existing point of delivery from Texas Gas Transmission Corp. (TGT). Applicant indicates that it would redeliver the subject gas for the account of Rea at an existing point of delivery located in Walkers Creek District, Rockbridge County, Va., to Columbia Gas of Virginia, Inc. (Columbia Virginia), who would in turn deliver the gas to Rea's facility located in Buena Vista, Va.

It is stated that Rea operates a magnet wire manufacturing facility at Buena Vista, Va., and that the gas proposed to be transported is process gas which would be used to a reduced atmosphere in an annealing process, to provide an uncontaminated supply in the application of enamel layers to bare magnet wire and to heat fresh air for the air make-up heaters which are necessary in the enameling process. Applicant states that Rea has been advised by Columbia Virginia that it can expect a curtailment of its nonsubstitutable load of

approximately 70 percent of its base allocation for the 1977-78 winter period.

It is indicated that Rea, et al., has contracted with PAR Oil Corp., et al., (PAR) to purchase a daily quantity of 3,920 Mcf of natural gas of which amount 254 Mcf per day would be for use at Rea's Buena Vista plant. The subject gas would be produced from PAR's oil and gas leasehold interests located in Claiborne Parish, La. It is said, Applicant states that it would pay PAR \$2.05 per Mcf plus Btu adjustment if appropriate for the gas. Applicant further states that it would not be required to construct any additional facilities to perform the proposed transportation service.

Applicant indicates that its charge for this service would be its average system-wide unit storage and transmission costs exclusive of oil company-use and unaccounted-for gas, which is 22.21 cents per Mcf, and that it would retain for company-use and unaccounted-for gas a percentage of the total volumes received for the account of Rea, which percentage is currently 3.1 percent.

It is indicated that the gas proposed herein to be transported has never been sold in interstate commerce. It is further indicated that the gas proposed to be transported is subject to diversion to Applicant on a temporary basis in emergency periods when, in Applicant's sole judgment, such gas is required for the protection of Priority 1 requirements on its system. Gas so diverted would be paid back as soon as practicable after the emergency period, it is indicated.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required,

further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-29543 Filed 10-6-77; 8:45 am]

[6740-02]

[Docket No. CP77-629]

CUMBERLAND VALLEY PIPE LINE CO.

Application for Exemption

SEPTEMBER 30, 1977.

Take notice that on September 22, 1977, Cumberland Valley Pipe Line Co. (Applicant), P.O. Box 247, Wichita, Kans. 67201, filed in Docket No. CP77-629 an application pursuant to section 1(c) of the Natural Gas Act for exemption from the Natural Gas Act and the regulations of the Commission thereunder, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it maintains and operates a gas transmission pipeline system located wholly within the Commonwealth of Kentucky, running from the city gates of Middlesboro, Ky., thence to the cities of Pineville, Barbourville, and Williamsburg, Ky., with an additional pipeline which connects to the foregoing line at a point between Pineville and Barbourville and thence runs north to a point near Manchester, Ky.

Applicant further states that it purchases natural gas from Columbia Gas Transmission Corporation within the Commonwealth of Kentucky at a connection with Columbia's pipeline at the terminal point of Applicant's line near Manchester, Ky., and that the volumes purchased during any year vary, depending upon weather and other factors, but approximate in recent years 900,000 Mcf of gas. All other gas transported by Applicant is purchased from wells located in the Stoney Fork, Kettle Island, Flat Lick, Artemus, North Williamsburg, South Williamsburg, and Woodbine Fields in Kentucky, it is said.

Applicant indicates that all of the gas purchased and transported by it, including that purchased from Columbia Gas Transmission Corp., is sold at wholesale to Gas Service Co., Inc., a Kentucky corporation, which distributes and sells the same at retail to its customers in the above cities of Middlesboro, Pineville, Barbourville, and Williamsburg, Ky., and in some instances, to its customers along the pipeline of Applicant. Applicant states that all of such gas is consumed within the boundaries of Kentucky.

The Public Service Commission of Kentucky certified on September 16, 1977, that it has and is exercising jurisdiction over the rates, service and facilities of Applicant it is stated.

As indicated above, Applicant states that it is engaged in the purchase, transportation, and sale of natural gas wholly within the Commonwealth of Kentucky, and requests that the Commission declare its exemption from the provisions of the Natural Gas Act and the orders, rules, and regulations of the Commission thereunder.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. R177-20]

DORFMAN PRODUCTION CO., OPERATOR

Order Granting Petition for Special Relief

SEPTEMBER 30, 1977.

On December 27, 1976, Dorfman Production Co., Operator (Dorfman) filed a petition for special relief pursuant to § 2.76 and § 2.56(b) of the Commission's General Policy and Interpretations for sales of gas from the Willow Springs Field, Gregg County, Tex., to United Gas Pipeline Co. and Texas Eastern Transmission Corp. Dorfman is selling the gas under its small producer certificate issued in Docket No. CS72-406 on January 11, 1972. Dorfman's petition covers fifteen working interest owners.

The wells covered by this petition have been producing for approximately 25 years and are considered "stripper" gas wells. Production is from the Henderson, Rodessa, Pettit, and Travis peak formations at depths from 6,700 to 7,700 feet. Dorfman proposes to invest \$335,000 to rework 7 of the 10 wells covered by its petition. Staff estimates that an additional 1,621,000 Mcf of gas can be produced from these wells over the remaining life of 8.25 years. Dorfman does not

Dorfman filed an amendment to its petition on June 23, 1977, requesting withdrawal of said petition with respect to 9 of the 19 wells involved. By that amendment Dorfman also sought to collect rates ranging from \$4.498 per Mcf to \$1.2234 per Mcf at 14.65 psia, as set forth in Appendix A hereto. Dorfman is currently collecting a rate of approximately \$4.40 per Mcf. Previously, Dorfman had filed additional data on February 16, 1977, and March 25, 1977, in response to Staff inquiries.

*See Appendix C, attached hereto.

propose to do any work on the other three wells.

Notice of Dorfman's petition was issued on January 13, 1977, and appeared in the FEDERAL REGISTER on January 24, 1977, at 42 FR 4197. Notice of Dorfman's amended petition was issued on July 21, 1977, and appeared in the FEDERAL REGISTER on July 29, 1977, at 42 FR 38633. No petitions to intervene have been filed.

Staff has reviewed the cost information supplied by Dorfman and has determined that the proposed rates are cost justified. These rates were calculated on an "out-of-pocket" expenses basis by Staff for those three wells which will not be reworked by Dorfman. Upon consideration of the data submitted and Staff's analysis thereof, we conclude that Dorfman's petition should be granted.

The Commission finds: The petition for special relief filed by Dorfman in Docket No. R177-20 should be approved.

The Commission orders: (A) For the above-stated reasons, the petition for special relief filed by Dorfman in Docket No. R177-20 is hereby granted. Dorfman is authorized to collect from its purchasers the total rates of 14.65 psia set forth in Appendix A hereto.

(B) The rates authorized in Ordering Paragraph (A) above for the Harrison No. 2, Harrison No. 3, McWhorter No. 1, McWhorter No. 2, Stevens No. 2, Toler No. 3, and Hayes No. 1 wells are effective as of the dates of completion of the proposed remedial work or the date of issuance of this order (whichever is later), provided Dorfman files within 30 days of said effective dates statements signed by its purchasers that the remedial work has been completed to their satisfaction.

(C) The rates authorized in Ordering Paragraph (A) above for the Duncan No. 1, Hayes No. 2, and the Thrasher No. 2 wells are effective as of the date the issuance of this order.

(D) Within 30 days hereof Dorfman shall file copies of its contract amendments with its purchasers authorizing the rates granted therein.

(E) Dorfman shall file in Docket No. CS72-406 within 30 days hereof a notice of rate change to the levels authorized in Ordering Paragraph (A) above.

By the Commission,

KENNETH F. PLUMB,
Secretary.

[Docket No. R177-122]

FREEPORT OIL CO.

Application for Amendment of Certificate Application and Petition for Special Relief

SEPTEMBER 30, 1977.

Take notice that on July 29, 1977, Freeport Oil Co. (Freeport), P.O. Box 3038, Midland, Tex. 79701, filed an amendment and supplement to an application for certificate of public convenience and necessity previously filed by Freeport on June 16, 1977, in Docket No. C177-571 (noticed by the Commission on September 2, 1977, 42 FR 45714, September 12, 1977) and a petition for special relief pursuant to Section 2.56a(g) of the Commission's General Policy and Interpretations.

In its June 16 application, Freeport seeks to sell natural gas to Mississippi River Transmission Corp. (Mississippi) from eleven existing wells and acreage in Mills Ranch Field, Wheeler County, Tex., pursuant to a contract with Mississippi dated May 18, 1977. Although this was stated to be initial sale, the gas involved is presently being sold to Mississippi under a limited term certificate issued by the Commission on October 31, 1974, in Docket No. C174-78 (52 FPC 1141). That certificate authorized the sale for a period of three years from its date of issuance at a rate of 56 cents per Mcf, subject to Btu adjustment and a one cent annual escalator. The proposed

price for the new sale is 181.311 cents per Mcf plus Btu and tax adjustment. Estimated sales volumes are 730,290 Mcf per month. On August 11, 1977, Mississippi filed a petition to intervene in Docket No. C177-571 in support of the application.

The instant filing is an amendment to Freeport's June 16 application to seek special relief allowing the 181.311 cents per Mcf rate its seeks.

Any person desiring to be heard or to make any protest with reference to said amendment and petition should on or before October 14, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this ap-

plication if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Mississippi's petition to intervene in Docket No. C177-571 is deemed to be a petition to intervene in this proceeding also.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ER77-533]

LOUISIANA POWER & LIGHT CO.

Order Rejecting Section 205 Filing, Amending Prior Order, Establishing Section 206(A) Proceedings, Granting Intervention and Establishing Price Squeeze Procedures

SEPTEMBER 30, 1977.

On July 29, 1977 Louisiana Power and Light Co. (LP&L) tendered for filing proposed increased rates and charges for jurisdictional sales to four rural electric cooperatives and four municipal electric customers. The filing would increase the Company's revenues by \$4,377,951 (\$3.46¢) for the 12-month period ending August 31, 1978.

The Cities of Winnfield, Vidalia, and Jonesville, La. (hereinafter referred to as Cities) jointly filed a petition to intervene and a motion to reject the filing as violative of the Mobile-Sierra doctrine, inter alia. On August 26, 1977, the Commission issued an order in this proceeding which deferred ruling on Cities' motion to reject LP&L's filing pursuant to Section 205 of the Federal Power Act. LP&L's rates were suspended for two months and provisionally accepted subject to our determination of the fixed-rate contract issue.

The Cities' allegation that the contracts are fixed rate contracts within the meaning of Mobile-Sierra doctrine was underpinned by their interpretation of the following provision which was part

* See Appendix A for Description of order issued August 26, 1977.

* *United Gas Pipeline Co. v. Mobile Gas Service Corp.*, 350 U.S. 332 (1956); and *F.P.C. v. Sierra Pacific Power Co.*, 350 U.S. 348 (1956).

* The Commission also in the order issued August 26, 1977 granted intervention and established price squeeze procedures pursuant to our policy announced in Order No. 563.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

of the printed form contract drafted by LP&L.⁴

The terms and conditions of this Agreement and the Rate Schedule are subject to amendment or alteration as a result of and in accordance with a valid applicable order of any governmental regulatory authority having jurisdiction hereof.⁴

In its answer filed August 23, 1977, LP&L argues that it has reserved in its contracts with each of the Cities the right to make a unilateral rate change in accord with section 205 of the Act. Alternatively, the Company argues that if the Company is prohibited from filing pursuant to section 205, it should be allowed to implement the requested increase upon issuance of a final Commission order determining just and reasonable rates.

The Commission sua sponte examined the individual contracts between LP&L and the town of Minden, Cajun Electric Power Cooperative, Inc., (hereinafter referred to as Cajun),⁴ Dixie Electric Membership Corp., Pointe Coupee Electric Membership Corp. and Washington-St. Tammany Electric Cooperative, Inc. (hereinafter referred to collectively as Cooperatives).

The provision in question in each of the contracts between the Company and Cajun and the Company and the Cooperatives is the same and reads as follows:

The terms and conditions of the Agreement and the Rate Schedule are subject to approval or acceptance for filing by any governmental regulatory authority having jurisdiction hereof and to amendment or alteration as a result of and in accordance with a valid applicable order of any such governmental regulatory authority.

Both contract provisions as set forth above reveal that a change in rate is to be made only when ordered by the appropriate regulatory authority. Since the parties provided for a change in rate only by order issued by a regulatory authority, it is clear they did not contemplate a unilateral filing pursuant to Section 205 of the Act. This interpretation is entirely consistent with our interpretation.

⁴ The Cities cite a number of cases as authority for their request that the Commission reject LP&L's filing with respect to the Cities. *FPC v. Sierra Pacific Power Company*, 350 U.S. 348 (1956); *United Gas Pipe Line Co. v. Mobile Gas Service Corp.*, 350 U.S. 332, 343 (1956); *Same Rayburn Dam Electric Cooperative v. FPC*, 515 F.2d 988, 1003 (CA-DC, 1975); and *Anderson Power & Light of the City of Anderson, Indiana v. FPC*, 482 F.2d 490, 499, 501 (CA-DC, 1973).

⁵ This provision was in each of the contracts between LP&L and the cities of Winnfield, Vidalia, Jonesville and Minden.

⁶ Cajun is the wholesale power supplier for Beauregard Electric Cooperative, Inc., Bossier Rural Electric Membership Corporation, Claiborne Electric Cooperative, Inc., Concordia Electric Cooperative, Inc., Jefferson Davis Electric Cooperative, Inc., Northeast Louisiana Power Cooperative, Inc., South Louisiana Electric Membership Corporation, Teche Electric Cooperative, Inc., and Valley Electric Membership Corporation.

tation of similar contract provisions in prior cases.⁷

We also have interpreted similar clauses to mean that the contracts contemplate a rate changeable in a specific manner such as may be instituted under section 206 of the Act. We stated in *Indiana and Michigan Electric Co.*, Docket No. E-7740 that:⁸

We would note that the procedures under such a Section 206 proceeding would not entail meeting the heavy burden of proof associated with the *Mobile-Sierra* decisions. As all parties concede, these contracts clearly contemplate that the Commission may order a change in rates; that is, the rates are not fixed for the term of the contract, only the manner in which such a change may be effected is contractually established. Accordingly, our examination of I&M's proposed rates would still be on a basis of our cost-plus-fair return standard. Cf. *Southern California Edison Co.*, Docket No. E-8176, order issued September 21, 1973. [Emphasis supplied.]

LP&L appears to have bargained for and obtained a contractual authorization for a section 206(a) rate proceeding with its just and reasonable standard of proof.⁹

In our order issued August 26, 1977, we raised the question as to whether the fuel adjustment rider (supplement No. 1 of the contract) would alter the contractual relationship between the parties set forth in the contract. The clause in question grants both the Company and the customer the right to request a lawful change in the rate.¹⁰ This contractual right is limited to changes in the fuel adjustment rider. Accordingly, the fuel adjustment rider filed by the Company does not alter the underlying contractual

⁷ We determined that such language as "authorized" or "ordered" prohibits a section 205 filing in *Kansas Power and Light Company*, Docket No. ER76-39, order issued December 22, 1975. We stated:

We do not believe the word "authorized" contemplates a unilateral filing which may be made effective merely by Commission acceptance but rather that it contemplates a rate fixed by the Commission. We have consistently held that similar phrases such as "approved" [citation omitted] and "ordered" [citation omitted] . . . "by the Commission" do not support unilateral filings by the company. We find therefore, as did the Court in *Mobile*, that the parties to the contracts in question consented only to those changes finally authorized or ordered by the appropriate Commission, and clearly did not contemplate unilateral filings as permitted by Section 205.

⁸ *Indiana and Michigan Electric Company*, Docket No. E-7740, order issued June 3, 1974. Also see, *Detroit Edison Company*, Docket No. ER77264, order issued June 30, 1977.

⁹ See, *Public-Service Company of New Mexico*, Docket No. E-9454, order issued July 31, 1975.

¹⁰ The fuel adjustment rider was filed as Supplement No. 1 to the contracts and reads as follows: *Service hereunder is subject to the orders of regulatory bodies having jurisdiction and either the Company or Customers may request lawful change in rate or contract in accordance with such jurisdiction.* (emphasis supplied)

arrangement of the parties as heretofore discussed.

We shall institute a section 206(a) proceeding to examine the just and reasonable rate for LP&L's service to the four municipal customers, Cajun and the Cooperatives. All changes will be prospective in application. LP&L's filing as to these customers shall represent its case-in-chief in these section 206(a) proceedings.

On August 23, 1977 Cajun and Cooperatives jointly filed a protest, petition to intervene in this proceeding, a motion to reject the filing and a motion to suspend the proposed rates for the maximum statutory period. The motion to reject was predicated on the averment that the rates were neither just nor reasonable on its face because of the magnitude of the proposed increase. Cajun and Cooperatives also raise a price squeeze allegation in their filing.

On September 1, 1977, LP&L filed an answer to Cajun and Cooperatives joint petition. The Company argues that Cajun and Cooperatives did not allege any grounds for rejecting its filing under the Commission Regulations nor did they allege any grounds for suspending its rate application for the maximum five month period. The company further states that it disputes the contention that there is any "price squeeze" between its retail and wholesale rates. We find that good cause exists to grant Cajun's and Cooperatives' joint petition to intervene. To conform with our Order No. 563, we shall allow Cajun and Cooperatives to fully participate in price-squeeze procedures as established in our order issued August 26, 1977 in this docket.

The Commission finds: (1) Good cause exists to reject LP&L's filing under section 205 of the Federal Power Act and to terminate the proceeding heretofore initiated under that section of the Act, as hereinafter ordered.

(2) Good cause exists to institute an investigation under section 206 of the Act to determine just and reasonable rates to be charged to Cities, Cajun, and Cooperatives.

(3) Good cause exists to accept Cajun and Cooperatives' joint petition to intervene.

(4) Good cause exists to allow joint petitioners—Cajun and Cooperatives—to fully participate in the price squeeze procedures established in order issued August 26, 1977 in Docket No. ER77-533, in this proceeding.

The Commission orders: (A) LP&L's rate filing pursuant to section 205 of the Act is hereby rejected.

(B) Ordering paragraphs (A) and (B) in the order issued August 26, 1977 in this proceeding are hereby deleted.

(C) Pursuant to the authority of the Federal Power Act, particularly section 206 thereof, and the Commission's rules and regulations, and the regulations under the Federal Power Act, an investigation is ordered to determine the just and reasonable rates to be charged to Cities, Cajun, and Cooperatives. Said investiga-

tion is to be based on LP&L's filing of July 29, 1977, and LP&L shall have the burden of proof in establishing the justness and reasonableness of its July 29 filing.

(D) Joint petitioners—Cajun and Cooperatives—are hereby permitted to intervene in Docket No. ER77-533 subject to the Rules and Regulations of the Commission; *Provided, however*, That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further*, That the admission of such intervenor shall not be construed as recognition by the Commission that they might be aggrieved because of any Commission order entered in this proceeding.

(E) In Docket No. ER77-533, the Administrative Law Judge shall convene a prehearing conference within 15 days from the date of this order for the purpose of hearing the petitioners' request for data required to present their case, including a *prima facie* showing, on the price squeeze issue. Also, the Company shall be required to respond to the discovery requests authorized by the Administrative Law Judge within 30 days, and the petitioners shall file their case-in-chief on the price squeeze issue within 30 days after the Company's response.

(F) The Secretary shall cause prompt publication of the Order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP75-33]

MOUNTAIN FUEL SUPPLY CO. Petition To Amend

SEPTEMBER 30, 1977.

Take notice that on September 22, 1977, Mountain Fuel Supply Company (Petitioner), 180 East First South, Salt Lake City, Utah 84139, filed in Docket No. CP75-33 a petition to amend the Commission's order of August 20, 1975, issued in the instant docket (54 FPC ----) pursuant to section 7(c) of the Natural Gas Act so as to provide for an increase in the maximum allowable gas inventory in the Chalk Creek Storage Field in Summit County, Utah, and the allowable withdrawal deliverability; and to permit the installation of the necessary facilities to effectuate these operations, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner indicates that pursuant to the Commission's order of August 20, 1975, it was authorized to operate facilities for the injection and withdrawal of natural gas at the Chalk Creek Storage Field. Petitioner indicates that in the initial decision, issued March 27, 1975 and ultimately confirmed by the Com-

mission on August 20, 1975, two limitations were placed on Petitioner's operation of the Chalk Creek Field: (1) Withdrawals were limited to 52,531 Mcf per day at 14.73 psia, (2) Maximum gas inventory in the Kelvin S and S-1 sands of the Chalk Creek Storage Field was limited to 1,800,000 Mcf of gas at 14.73 psia. Petitioner states that both of these limitations need to be raised.

Petitioner indicates that the Chalk Creek Field is a complex storage reservoir, the mechanics of which are not fully understood. Several theories have been advanced to explain its peculiar operating characteristics but as yet it has not been possible to test any of them, it is said. Petitioner states that intensive studies are under way to determine its most promising future course of action to define the physical extent and optimum operational capabilities of this storage reservoir. It is indicated that in spite of its complexity Chalk Creek is becoming increasingly critical to Petitioner's operations because of its location and high deliverability characteristics, and Petitioner's other storage reservoirs cannot substitute for Chalk Creek because Coalville (CP75-215), which is still under development at this point in time, lacks the necessary deliverability and Leroy (CP73-43), which is considerably removed from Petitioner's principal market area, is needed for base load requirements. Petitioner states that in the absence of Chalk Creek, with its short term high deliverability, Leroy would have to be maintained at maximum pressure until late in the heating season and that this would limit Petitioner's use of Leroy and would jeopardize or restrict the possibility of emergency deliveries to other companies. Thus, the limitations ordered by the Commission pose a threat to current and future Chalk Creek operations, it is asserted.

The Chalk Creek reservoir is a very valuable peak shaving facility of both hourly and daily load equation because of its high deliverability rate and close proximity to the major portion of Petitioner's service area, it is said. It is stated that the over 50,000 Mcf per day rate comes from a single well (Government No. 1 MFS Co.), and unfortunately, the volume of gas immediately accessible to this well completed in the Kelvin "S" sand is relatively small and this high rate can be maintained for only two or three days. Some gas migrates from the "S" sand to the "S-1" sand about 400 feet above it, and such gas is periodically withdrawn from the Government No. 3 well and delivered to the transmission pipeline or reinjected into Government No. 1, it is said. It is stated that all other wells are for observation only.

Petitioner indicates that in order to maintain the required working gas volume, it has found it necessary to inject more gas than it withdraws. It is stated that while the volume of working gas has remained fairly uniform, the volume of cushion gas has increased more or less steadily until on June 30, 1977 it amounted to 1,748,464 Mcf (14.73

psia). Thus with the current volumetric limitation of 1,800,000 Mcf on gas inventory, there is practically no working gas available, it is said. Petitioner states that the reasons for this gradual increase in cushion gas inventory have not yet been determined, although there is not any apparent leakage from the reservoir to surface. Petitioner further states that it is now time to start filling Chalk Creek for the 1977-78 season storage operations, but Petitioner needs authorization to inject gas beyond the 1,800,000 Mcf limitation before such injection operations can be effectively commenced. Furthermore, the 50,000 Mcf per day limitation on deliverability makes no provision for simultaneous withdrawal from the Government No. 1 and No. 3 wells, it is indicated.

Accordingly, Petitioner asserts that in order to provide a reasonable operating margin for working gas and deliverability during the next two years, Petitioner requests that the limitation on the maximum inventory be increased to 3,000,000 Mcf and that the deliverability limitation be increased to 70,000 Mcf per day. Applicant also requests authorization to replace the 4-inch pipeline to the No. 3 well with a 6-inch pipeline. Additional metering and control facilities would also be needed and an additional dehydration unit at the No. 3 well would be required, it is said. The cost of these facilities would amount to about \$159,000, it is indicated.

Petitioner asserts that the above facilities and operating parameters would solve its short term problem with the Chalk Creek storage reservoir. Petitioner states that the long term problem must await the conclusion of the current Chalk Creek reservoir studies with their recommendations. Petitioner further states that it is anticipated that additional geological, seismic and drilling work would be required to determine the precise operating characteristics of this structure and the reasons for the large cushion gas requirement.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practices and Procedures (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary

[6740-02]

[Docket No. R177-68]

MULLINS & PRICHARD**Order Granting Special Relief**

SEPTEMBER 30, 1977.

On May 2, 1977 Mullins & Prichard (Petitioners) filed a petition for special relief pursuant to Section 2.76 of the Commission's Statements of General Policy and Interpretations (18 CFR 2.76), for the sale of gas to Trunkline Gas Company (Trunkline) from The Citrus Land Co., Inc. Well No. 1-A, located in Section 2-T18S-R11E, Shell Island Pass Field, St. Mary Parish, Louisiana. Petitioners request the rate for the subject gas from the currently applicable 30.0908 cents per Mcf plus 7 cents per Mcf tax reimbursement, to a rate of \$1.20 per Mcf plus 7 cents per Mcf tax reimbursement. Trunkline filed a petition to intervene on May 24, 1977, but stated no position with regard to the merits of the petition. On August 5, 1977 petitioners amended their petition to seek a rate of \$1.10 per Mcf plus any applicable severance tax. The amended petition was noticed by the Commission on August 19, 1977, with interventions or protests due September 12, 1977. No protests or petitions to intervene have been filed.

Petitioners are currently making the 1968, pursuant to a small producer certificate issued in Docket No. C169-152. On file in Docket No. C169-152. On April 21, 1977 Petitioners and Trunkline executed an amendment to their contract authorizing a rate of \$1.20 per Mcf exclusive of applicable Louisiana severance taxes.

Petitioners state that in order to prevent premature abandonment it will be necessary to rework the well and install a compressor.

Petitioners estimate the investment necessary to rework the well to be \$379,665 and the purchase and installation cost of the compressor to be \$129,699. Thus Petitioners' proposed investment is \$509,364. Petitioners calculate their current investment at \$96,500. Based on its analysis of data submitted, Staff accepts Petitioners' current and proposed investment. Petitioners estimate annual production expense of \$53,268. Staff accepts this estimate, and applies a five per cent inflation factor in projecting total estimated production expenses of \$383,372.

NOTICES

Petitioners have requested a rate exclusive of state severance tax in anticipation of a change in the method of computing such tax. Staff estimates that there are 1,099,987 Mcf of gas remaining to be recovered over 6.166 years, and concludes that 916,619 Mcf are attributable to Petitioners' 83.33% net working interest.

Staff has used the above costs along with 916,619 Mcf of reserves in a traditional cost study using the modified Btu method to allocate costs between gas and liquids. The results of this analysis indicate that \$1.10 per Mcf exclusive of severance tax will be required to allow Petitioners to recover their costs, including a 15 percent rate of return over a 6.166 year life. Staff therefore concludes that the requested rate appears to be cost supported.

Upon consideration of the date submitted by Petitioners and Staff's analysis thereof, we conclude that the proposed rate is justified.

The Commission orders: (A) The petition of Mullins and Prichard for special relief is granted.

(B) Mullins & Prichard are authorized to collect a rate of \$1.10 per Mcf at 15.025 psia including adjustments, plus state severance tax for the sale of gas sold to Trunkline from the Citrus Land Co., Inc. Well No. 1-A, Section 2-T18S-R11E, Shell Island Pass Field, St. Mary Parish, Louisiana, effective on the date of issuance of this order or on the date of completion of the proposed work, whichever occur later. This authorization is contingent upon Mullins & Prichard's filing within 30 days of the effective date set forth above a statement signed by Trunkline that the proposed work has been completed to Trunkline's satisfaction.

(C) Mullins & Prichard shall file a Notice of Independent Producer Rate Change in Docket No. CS72-194 within 30 days of the issuance of this order.

(D) Mullins & Prichard shall file a Notice of Independent Producer Rate Change in Docket No. CS72-194 reflecting any change in rate resulting from any change in the existing Louisiana severance tax within 30 days of the enactment of any such change.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-566]

NEW ENGLAND POWER CO.

Order Accepting for Filing and Suspending Revised Tariff Sheets, Providing for Hearing, Establishing Procedures and Granting Intervention

SEPTEMBER 30, 1977.

On August 26, 1977, as amended on August 31, 1977, New England Power Co. (NEPCO) tendered for filing revised supplements to its FPC Electric Service Tariff Number 1. The tariff provisions contain the terms and conditions for continuation of contract demand (CD) service after October 31, 1981. The currently effective provisions regarding CD Service expire in accordance with their own terms on October 31, 1981. NEPCO requests an effective date of not later than October 1, 1977.

In support of its filing NEPCO states that the current tariff authorizes the Company, at any time after October 15, 1976, to file a revised CD tariff to cover CD Service commencing November 1, 1981. NEPCO states that the principal

provision contained in the revised Terms and Conditions governing CD Service, is the provision that permits the Company's CD customers to continue to reduce their primary power takings from NEPCO after 1981.

Similarly, as stated by NEPCO, in accordance with its policy of attempting to manage its load so as not to require additional generating capacity with its attendant cost, NEPCO reserves the right to reduce the amount of primary power which it will provide to the Customer, lacking a similar reduction on the Customer's part. Both NEPCO and Customers are limited to an orderly guideline of twenty percent per year.

NEPCO states that it is necessary that the tariff provisions become effective not later than October 1, 1977, in order that both Customers and the Company may comply with the notice provisions contained in the revised tariff. Customers must notify the Company by October 1, 1977 of their desires with respect to CD Service for the power year commencing November 1, 1981. For subsequent power years, a five year and one month notice provision applies. The Company must notify Customers by October 31, 1977 of its intent (if any) to reduce CD takings for the power year commencing November 1, 1981. A five year notice provision applies to the Company in regard to subsequent power years. No rates are being submitted in the instant filing.

Notice of the filing was issued on September 6, 1977, with protests or petitions to intervene due on or before September 12, 1977. On September 12, 1977, the NEPCO Customer Rate Committee and the Unaffiliated Resale Customers (Cus-

tomers) filed a protest, petition to intervene and request for five month suspension of tariff supplements. In support of their petition Customers state that they are essentially the only entities taking service under the CD Tariff and that their existing purchases from NEPCO under the tariff are substantial. In support of the five month suspension Customers state that the substantial advance notice of purchases under this tariff to commence after November 1, 1981, is not justified, that it cannot be substantiated because the Company currently has substantial reserve capacity and that the present state of the construction program would not justify the advance notice requested. The Committee and Customers claim they must be afforded adequate time to evaluate power supply alternatives to the CD rate and that the notice requested by NEPCO would deter such evaluations. Customers claim that the notice provision could have anticompetitive effects since it might oblige the Customers to forfeit alternative power supply arrangements to meet the revised notice requirement.

On September 16, 1977, NEPCO filed a response to the protest and request for suspension. NEPCO states that the questions raised are clearly appropriate for hearing and, therefore, does not oppose a one day suspension, but vigorously opposes the request for a five month suspension period. NEPCO submits that (1) the long lead time inherent in present day construction of generating facilities makes its notice provision eminently reasonable, and (2) that intervenors' difficulties are no different from the difficulties of others engaged in the power supply business and constitute no ground for suspension. NEPCO states that if this filing is suspended for more than one day, NEPCO will have been precluded from implementing its initial four year notice provisions.

On September 21, 1977, Customers filed an answer to NEPCO's response and a supplement to their protest, petition and request for five months suspension. Customers now ask that the Commission reject NEPCO's application as a section 205 filing, and accept it, to become effective in such fashion as is ultimately found to be just and reasonable, after hearing. Customers raise issues as to the sufficiency of the information submitted by NEPCO, and submit that NEPCO should not be allowed to require Customers to make projections of need now, in advance of necessary additional information, and in a manner which is inconsistent with the operation of NEPOOL.

The Commission's review of all pleadings in this case indicates that the proposed tariff supplements have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Timely resolution of the issues in these filings is necessary, in order to give the Company and the Customers adequate opportunity for the future planning of power supply. We be-

lieve that the best assurance of a timely determination on NEPCO's instant filing lies in an expedited proceeding under section 205 of the Federal Power Act. Accordingly, the Commission shall accept for filing the proposed tariff supplements and suspend them for five months. In order to assure a determination on the issues raised by Customers prior to the date the tariff supplements will go into effect, we shall establish a hearing schedule to conclude the proceedings within the five month suspension period.

The Commission finds: (1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the revised supplements to its FPC Electric Service Tariff Number 1 tendered by NEPCO on August 31, 1977, establishing procedures for that hearing, and that the revised supplements be accepted for filing, suspended, and the use thereof deferred, all as hereinafter ordered.

(2) The participation in this proceeding of Customers may be in the public interest.

(3) Good cause exists to establish expedited hearing procedures in this proceeding.

The Commission orders: (A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Federal Power Act, particularly sections 205, 206, 301, 307, 308, and 309 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the Regulations Under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held concerning the justness and reasonableness of the revised tariff provisions proposed by NEPCO in this proceeding.

(B) Pending such hearing and decision thereon, the proposed tariff revisions filed by NEPCO on August 31, 1977, and identified in Appendix A attached hereto, are hereby accepted for filing, suspended and the use thereof deferred until March 1, 1978, when they shall become effective.

(C) Customers are hereby permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission: *Provided, however, That* participation of intervenors shall be limited to the matters affecting asserted rights and interests specifically set forth in the petition to intervene; and *Provided, further, That* the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved by any orders entered in this proceeding.

(D) NEPCO shall file its case-in-chief in this proceeding on or before October 21, 1977. Intervenor and staff shall file their testimony, if any, on or before November 18, 1977. Rebuttal testimony shall be filed on or before December 2, 1977.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that pur-

pose (See, Delegation of Authority, 18 CFR 3.5(d)), shall convene a hearing in this proceeding on December 6, 1977 at 10 a.m. (ET) in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

(F) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to section 1.18 of the Commission's rules of practice and procedure.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-158]

NORTH PENN GAS CO.

Order Approving Settlement Agreement

SEPTEMBER 30, 1977.

On May 9, 1977, North Penn Gas Company (North Penn) submitted a proposed settlement agreement in resolution of all issues in this proceeding, accompanied by a motion requesting Commission approval.¹ The New York Public Service Commission (PSNY) reserved the right to oppose or to comment on certain aspects of the agreement. On May 13, 1977, presiding Administrative Law Judge Graham W. McGowan certified the record to the Commission. The Stipulation and Agreement results in an annual increase in revenues of W. McGowan certified to this Commission the record containing the agreement. North Penn's evidence and Staff's top sheet on all issues in the proceeding. The Stipulation and Agreement results in an annual increase in revenues of \$951,605 based on the 12 month period ending May 31, 1976, as adjusted through February 28, 1977, for known and measurable changes. This represents a decrease of \$388,185 from the annual revenues initially claimed by North Penn.

¹ The settlement reflects an agreement reached by the parties of record, namely, North Penn, Conning Natural Gas Corporation, New York State Electric and Gas Corporation, PSNY, and the Commission Staff.

The settlement total cost of service is \$36,451,056. For the reasons stated herein, the Commission will approve the settlement agreement as certified to the Commission.

On September 30, 1976, North Penn tendered for filing proposed changes to its FPC Gas Tariff, First Revised Volume No. 1, to be effective November 1, 1976.² The proposed changes in rates would increase annual revenues from jurisdictional sales and service by \$1,339,790 based on data for the 12 month period ending May 31, 1976, as adjusted for known and measurable changes through February 28, 1977.

By order issued October 29, 1976, the Commission suspended the proposed increase in rates for five months until April 1, 1977, directed the Commission Staff to prepare and serve top sheets on all parties for settlement purposes on or before February 1, 1977 (subsequently extended to March 1, 1977), and directed the Administrative Law Judge to convene a settlement conference after service of the top sheets. Pursuant to the order of Administrative Law Judge McGowan, a prehearing conference was convened on March 17, 1977.

Informal settlement conferences held on March 17 and May 2, 1977 culminated in the filing of a settlement agreement on May 9, 1977. The Commission's Secretary issued a notice of the certification of the agreement, and allowed interested parties to comment on the settlement agreement on or before July 15, 1977. Staff filed comments in support of the settlement agreement. In its timely comments to the Commission, PSNY opposed the 13.35 percent rate of return on common equity and 10.45 percent overall rate of return allowed by the settlement agreement. PSNY contends that this return level is excessive and "is outside the zone of reasonableness for a company with as thick an equity ratio (44.64 percent) as North Penn."³ PSNY advocates a rate of return on equity of 12.75 percent. North Penn filed comments in response to PSNY's arguments on July 15, 1977.

The record before us is a limited one, comprised only of North Penn's initial filing, the settlement agreement, and the official stenographer's report of the settlement conferences before Judge McGowan. Neither Staff nor any other parties to the proceeding introduced any testimony or exhibits in evidence.

North Penn's witness Joseph F. Brennan presented a detailed analysis of historical market data, current circumstances and trends by which the immediate future of the market can be projected.⁴ Mr. Brennan calculated North Penn's capital structure, estimated at June 30, 1977, as follows:

² Thirty-Fourth Revised Sheet No. PGA-1.

³ Comments of PSNY, at 2.

⁴ Item C by Reference, Statement P, Testimony and Exhibits of Joseph F. Brennan.

	Amount	Ratio (percent)	Cost rate (percent)	Weighted cost (percent)
Long term debt.....	\$14,340	52.2	8.24	4.30
Common equity.....	13,139	47.8	15 to 15.5	7.17 to 7.41
Total.....	27,479	100.0		11.47 to 11.71, use 11.6

North Penn states that "In order to keep the controversial issues to a minimum and thereby to enhance the prospect of expedited resolution of the proceeding" the company based its proposed rate increase on the following capital structure and costs:

	Ratio (percent)	Cost rate (percent)	Weighted cost (percent)
Long term debt.....	52.2	8.04	4.20
Common equity.....	47.8	13.71	6.55
Total.....			10.75

For purposes of settlement, North Penn presented a capital structure as of May 31, 1976, and a rate of return agreed to by all parties, including Staff, with the exception of PSNY:

	Amount	Ratio (percent)	Cost rate (percent)	Weighted cost (percent)
Long term debt.....	\$14,925	55.36	8.11	4.49
Common equity.....	12,637	44.64	13.35	5.96
Total.....	26,562	100.00		10.45

PSNY raises two arguments to support its recommendation of a 12.75% rate of return on common equity. PSNY first argues that the settlement rate of return on common equity, which is "agreed to by Staff is out of line in comparison to rates of return recommended by the Commission Staff on similar capital structures."⁵ PSNY cites Staff's recommendation of an 11.8 percent rate of return on equity in *Natural Gas Pipeline Company of America*, Docket No. RP74-96. In Opinion No. 762, issued on May 21, 1976 in that proceeding, the Commission found a return of 13.5 percent on common equity was reasonable.⁶ PSNY also relies upon Staff's recommendation of twelve percent return on equity for *Tennessee Gas Pipeline Company* (Tennessee) in Docket Nos. RP75-13, RP75-113 and RP76-137.⁷ The Commission allowed Tennessee 13.75 percent rate of return

⁵ Ibid., testimony at 38-39, exhibit (JFB-1), schedules 10, 11, and 19.

⁶ North Penn's Reply Comments, at 3.

⁷ Exhibit (JFB-1), schedule 10; statement P-2 of North Penn's filing.

⁸ Stipulation and agreement, app. B.

⁹ Comments of PSNY, at 1.

¹⁰ Natural's capital structure consisted of 54.14 percent long term debt, 9.48 percent preferred stock, and 36.38 percent common equity.

¹¹ Comments of PSNY, at 1, footnote 1, in which PSNY refers to Tennessee as "Tennessee Natural Gas Company."

on common equity in the most recent Commission opinion determining just and reasonable rates for Tennessee.¹²

Even if the capital structures of Natural and Tennessee were similar to that of North Penn (and the data presented here shows they are not similar), the Commission notes that North Penn differs from the Natural and Tennessee systems in several respects. Natural and Tennessee are much larger pipelines, drawing revenues of \$929,000,000 and \$1,495,000,000, respectively, in 1976, as compared to North Penn's revenues of \$36,000,000.¹³ North Penn's facilities consist mainly of storage, with little production of its own.¹⁴ North Penn is dependent upon its storage to supply fluctuating requirements of its customers, whereas Natural and Tennessee operate long-line pipelines. North Penn therefore faces the risk of not accurately forecasting its storage requirements and thereby failing to obtain the maximum efficient use of its storage. Furthermore, Natural and Tennessee are both subsidiaries of larger, more diversified companies.

The Commission finds PSNY's first argument comparing the settlement to other recent Staff rate of return recommendations to be inadequate in attempting to justify its recommendation of a 12.75 percent return on equity for North Penn.

PSNY further argues that a 13.35 percent rate of return on equity is outside the zone of reasonableness for a small company such as North Penn, with a thick equity ratio of 44.64 percent. As noted by North Penn in its comments to PSNY's remarks,¹⁵ the thickness of the equity component in a capital structure is only one of many factors to be considered in assessing the risks which an investor incurs in purchasing a utility's

¹² *Tennessee Gas Pipeline Company*, Docket Nos. 73-113, Opinion No. 769 issued on July 9, 1976. Tennessee's capital structure was comprised of 51.05 percent debt, 11.86 percent preferred stock, and 37.09 percent common equity.

¹³ FPC Form 2 for Natural, Tennessee, and North Penn for the year 1976. Data for Tennessee are taken from the Form 2 for Tennessee, Inc.

¹⁴ Statements G and I of North Penn's filing. North Penn refers to its higher degree of risk resulting from its storage and production operations, as compared to the flexibility of operations afforded pipelines with large transmission facilities. North Penn's facilities are comprised of 0.7 percent production, 67.0 percent storage, and 32.3 percent transmission. (North Penn's Reply Comments, at 2.)

¹⁵ North Penn's Reply Comments, at 2.

common stock.¹⁶ In consideration of the risk factors outlined by North Penn's witness Brennan, the company states that there are "important offsetting factors to the relative equity in its capitalization."¹⁷

The settlement agreement filed by North Penn reflects compromises negotiated by parties interested in these proceedings, including Staff. The rate of return on common equity is merely one aspect of the agreement taken as a whole. In its brief comments, PSNY fails to provide record support for its position but only seeks to compare North Penn's return on common equity with Staff's recommended rate of return on common equity for Natural and Tennessee in other proceedings before the Commission. Not only is this comparison inappropriate for the reasons above but it fails to recognize that settlements involve give-and-take compromises on particular issues by the parties so as to achieve an overall result which is just and reasonable. Further, the Commission agrees with North Penn that comparisons based on common equity ratios alone are insufficient.

Based upon a review of the record in this proceeding including the settlement itself and the pleadings, evidence, and comments submitted in support thereof, the Commission finds that the proposed settlement, taken as a whole, represents a reasonable resolution of the issues in this proceeding in the public interest and that the settlement agreement should accordingly be approved and adopted, as hereinafter ordered.

The Commission finds: (1) The Applicant, North Penn Gas Company, is a "natural gas company" subject to the provisions of the Natural Gas Act, and the sales of natural gas subject to the order which follows as a part of this decision are sales of natural gas in interstate commerce for resale subject to the jurisdiction of the Commission.

(2) It is necessary and proper in the administration of the Natural Gas Act to accept the proposed Stipulation and Agreement tendered in these proceedings.

(3) Applicant's rates, which have been in effect in this docket subject to refund, have not been shown to be just and reasonable or otherwise lawful under the provisions of the Natural Gas Act in the respects noted above, and Applicant should therefore be required to file tariff sheets reflecting just and reasonable rates as necessary to conform to this order.

¹⁶ See, for example, *Pacific Gas Transmission Company*, Docket No. RP75-57, Opinion No. 811 issued on July 8, 1977, mimeo at 4, and *Consolidated Gas Supply Corporation*, Docket Nos. RP73-107, RP74-90, and RP75-91, Order Granting in Part and Denying in Part Application for Rehearing, issued August 29, 1977.

¹⁷ North Penn's Reply Comments, at 2.

The Commission orders: (A) The Stipulation and Agreement certified to the Commission in this proceeding is hereby accepted.

(B) Within 15 days of the issuance of this order, North Penn shall file revised tariff sheets in accordance with the terms of the settlement agreement and of this order.

(C) Within 30 days from the date of this order, North Penn shall file revised tariff sheets together with interest at the rate of 9 percent per annum, pursuant to the terms of the settlement. Within 15 days thereafter North Penn shall submit a compliance report of such refunds to the Commission. A copy of such report shall also be furnished to each state commission within whose jurisdiction the wholesale customers distribute and sell natural gas at retail.

(D) This order, to the extent that it approves the settlement of issues agreed to by all parties herein, is without prejudice to any finding or orders which have been made or which will hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its staff, or any party or person affected by this order, in any proceeding now pending or hereafter instituted by or against North Penn or any person or party.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc 77 29540 Filed 10-6 77:8:45 am]

[6740-02]

[Docket No. CP70-7 (Phase II)]

SOUTHERN NATURAL GAS CO. Petition To Amend

SEPTEMBER 30, 1977.

Take notice that on September 26, 1977, Southern Natural Gas Company (Petitioner), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP70-7 a petition to amend the Commission's order of October 29, 1969, as amended, issued in the instant docket (42 FPC 944), pursuant to section 7 of the Natural Gas Act so as to provide for an increase in Petitioner's contract demand sales of natural gas to Atlanta Gas Light Company (Atlanta) to 739,550 Mcf per day, the delivery of such additional gas at the delivery point formerly used to serve the City of Jackson, Georgia, and to permit the abandonment of Petitioner's sales of natural gas to the City of Jackson, Georgia, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner indicates that pursuant to the Commission's order of October 29, 1969, it was authorized, inter alia, to sell and deliver to Atlanta contract demand volumes aggregating 737,500 Mcf. and

that it was also authorized to sell and deliver to the City of Jackson, Georgia, a contract demand of 2,050 Mcf.

It is indicated that Atlanta has purchased from the City of Jackson the gas system of the City of Jackson and as part of such purchase the gas contract demand of the City of Jackson of 2,050 Mcf of natural gas per day as assigned to Atlanta.

It is indicated that Atlanta has requested that Petitioner amend the currently effective service agreement between the two parties to include therein a new delivery point with a contract demand of 2,050 Mcf at the City of Jackson to reflect Atlanta's assumption of the City of Jackson's service agreement. It is indicated that the new delivery point with 2,050 Mcf of contract demand would be offset by the elimination of service to the City of Jackson.

Accordingly Petitioner requests authorization to sell to Atlanta an additional contract demand of 2,050 Mcf per day, that it be authorized to deliver this gas to Atlanta at the delivery point formerly utilized by the City of Jackson, and that it be permitted to abandon sales and deliveries to the City of Jackson.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 21, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

SEPTEMBER 30, 1977.

Take notice that on September 23, 1977, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP77-630 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas from additional sources for Public Service Electric and Gas Company (Public Service), and existing resale customer of Applicant served under Rate Schedule CD-3, construction and

operation of metering and regulating facilities to effectuate such transportation service, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is indicated that Applicant is presently transporting on an interruptible basis for Public Service quantities of natural gas that Public Service purchases from its production affiliate Energy Development Corporation (EDC) in the Colorado Delta Field, Brazos Area, offshore Matagorda County, Texas. Such transportation takes place pursuant to an agreement between Applicant and Public Service dated September 14, 1973, as amended.

Applicant indicates that EDC now has production in the Spring Ridge Field, Caddo Parish, Louisiana and the East Deer Islands Field, Terrebonne Parish, Louisiana which would be sold to Public Service, and which Applicant proposes to transport for Public Service pursuant to the September 14, 1973 agreement, as amended, as further amended by an agreement between Applicant and Public Service dated June 6, 1977. Applicant states that Public Service would arrange to have the gas from the Spring Ridge Field delivered to Texas Gas Transmission Corporation (Texas Gas) for subsequent transportation to Applicant at a mutually agreeable existing authorized point of exchange between Texas Gas and Applicant. It is stated that Public Service would further arrange for gas from the East Deer Island Field to be delivered to a mutually agreeable point on Applicant's Southeast Louisiana Gathering System in Terrebonne Parish, Louisiana, as that applicant would redeliver the transportation quantities, less 4.4 percent for compressor fuel and line loss make-up, to existing points of delivery to Public Service in New Jersey.

To effectuate such transportation from the East Deer Island Field, Applicant would construct metering and regulating facilities at a total estimated cost of \$97,000, and Public Service would reimburse Applicant for the actual cost of the facilities installed, it is indicated.

Applicant states that it would provide the proposed transportation services under its Rate Schedule X-71, which currently provides a rate of 31.5 cents per dekatherm (dt) equivalent transported.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 14, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate

as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP77-639]

TRUNKLINE GAS CO. Application

SEPTEMBER 30, 1977.

Take notice that on September 26, 1977, Trunkline Gas Company (Applicant), P.O. Box 1642, Houston, Tex. 77001, filed in Docket No. CP77-639 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 700 Mcf of natural gas per day for South Jersey Exploration Company (South Jersey), who is acting as agent for eight existing customers of Transcontinental Gas Pipe Line Corporation (Transco), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is indicated that the eight customers of (Transco) which South Jersey is acting as agent for are as follows:

Piedmont Exploration Company, Inc.
Eastern Shore Natural Gas Co.
Tar Heel Energy Corp.
Delmarva Energy Corp.
Rockingham Exploration Co.
U.C.G. Finance Corp.
South Jersey Gas Co.
NCG Exploration Corp.

Applicant requests authorization to transport gas for South Jersey acting as agent for the proposed eight customers, pursuant to an agreement dated August 2, 1977, between Applicant and South Jersey. Applicant states that the gas would be produced from the South Tomball Field in Harris County, Tex., approximately 3/4 mile from Applicant's pipeline, that Applicant would receive the gas at a point on its 31-B-100 pipe-

line, located in Harris County, Texas, and would redeliver the gas to Transco at an existing interconnection near the tailgate of the Cow Island Processing Plant of Mobil Oil Corporation in Vermilion, Parish, Louisiana. The term of the proposed transportation is 10 years and thereafter on an annual basis unless cancelled on six months' written notice by either party, it is said.

Applicant indicates that it would construct certain facilities required to receive and measure the gas at the point of receipt, and that South Jersey would reimburse it for the full cost of the construction.

Applicant further indicated that it would be paid a monthly charge of \$840.00 for the transportation, which charge is subject to increase or decrease pursuant to Applicant's rate proceedings. Such monthly charge would be adjusted upward or downward by 3.96 cents per Mcf for any day in which Applicant accepts more than or is unable to accept 700 Mcf, respectively, it is said. Applicant states that it would retain 1 percent of the volumes of fuel so transported for fuel usage.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 14, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 77F-0284]

BETZ LABORATORIES, INC.

Notice of Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: Betz Laboratories, Inc. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of a certain copolymer in the manufacture of paper and paperboard for food-contact use.

FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204 (202-472-5690).

SUPPLEMENTARY INFORMATION: Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b) (5), 72 Stat. 1786 (21 U.S.C. 348(b) (5))), notice is given that a petition (FAP 6B3202) has been filed by Betz Laboratories, Inc., Somerton Rd., Trevo, Pa. 19047, proposing that § 176.170 Components and paper and paperboard in contact with aqueous and fatty foods (21 CFR 176.170) be amended to provide for the safe use of diethyl (2-hydroxyethyl) methylammonium methyl sulfate, acrylate, polymer with acrylamide as a retention and drainage aid employed prior to the sheet-forming operation in the manufacture of paper and paperboard for food-contact use.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact analysis report may be seen in the office of the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, between the hours of 9 a.m., and 4 p.m., Monday through Friday.

Dated: September 29, 1977.

HOWARD R. ROBERTS,
Acting Director, Bureau of Foods.

[Docket No. 75N-0223; DESI 597, 3265, 4681]

CERTAIN ANTICHOLINERGIC DRUGS IN CONTROLLED-RELEASE DOSAGE FORM

Withdrawal of Approval of New Drug Applications

AGENCY: Food and Drug Administration.

NOTICES

ACTION: Notice.

SUMMARY: This notice withdraws approval of the new drug applications for certain anticholinergic drug products in controlled-release form on the basis of lack of substantial evidence of effectiveness. The drug products have been used in the treatment of various gastrointestinal disorders (for example, ulcers).

EFFECTIVE DATE: October 17, 1977.

ADDRESS: Requests for opinion of the applicability of this notice to a specific product should be identified with the appropriate DESI number and directed to: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Ronald L. Wilson, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857 (301-443-3650).

SUPPLEMENTARY INFORMATION: In a notice published in the FEDERAL REGISTER of November 11, 1975 (40 FR 52651), the Director of the Bureau of Drugs offered an opportunity for hearing on a proposal to issue an order withdrawing approval of the new drug applications for certain anticholinergic drugs in controlled-release dosage form, based upon lack of substantial evidence of effectiveness. The conclusion of lack of effectiveness for the controlled-release products was based upon the lack of any data demonstrating a prolonged duration of effect as compared with the products in conventional dosage form. The notice was not directed to related or similar products that are not in controlled-release dosage form. Such products were eligible to remain on the market provided their sponsors agreed to conduct the studies necessary to determine effectiveness in accordance with another notice published in the FEDERAL REGISTER of November 11, 1975 (40 FR 52644). Since the holders of the new drug applications described below did not contest the proposed action, approval of the new drug applications is now being withdrawn.

DESI 597

Bentyl Repeat Action Tablets with Phenobarbital containing dicyclomine hydrochloride and phenobarbital; Merrell-National Laboratories, Division of Richardson-Merrell, Inc., 110 E. Amity Rd., Cincinnati, Ohio 45215 (NDA 9-311).

Tral with Phenobarbital Gradumets (controlled-release tablets) containing hexocyclium methylsulfate and phenobarbital; Abbott Laboratories, Abbott Park, 14th and Sheridan Rd., North Chicago, Ill. 60064 (NDA 11-200).

DESI 3265

Tral Gradumets (controlled-release tablets) containing hexocyclium meth-

ylsulfate; Abbott Laboratories (NDA 11-200).

DESI 4681

Prantal Repetabs (controlled-release tablets) containing diphemanyl methylsulfate; Schering Corp., Galloping Hill Rd., Kenilworth, N.J. 07033 (NDA 8-638).

The notice of opportunity for hearing also included Scopalamine Methyl Bromide Prolongsules (NDA 10-404) containing methscopolamine bromide, previously marketed by Richlyn Laboratories Inc., 3725 Castor Ave., Philadelphia, Pa. 19124. As stated in the notice, approval of that NDA had previously been withdrawn on the ground of failure to submit required reports under section 505(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(j)). The purpose of including Scopalamine Methyl Bromide Prolongsules in the November 11, 1975, notice was to state the conclusion that this drug in a controlled-release dosage form lacks substantial evidence of effectiveness for its various labeled indications and to offer interested persons the opportunity to request a hearing concerning all issues relating to the legal status of identical, related, or similar drugs.

All drug products that are identical, related, or similar to the drugs named above, are not being studied for effectiveness under the conditions specified in the November 11, 1975, notice (40 FR 52644), and are not the subject of an approved new drug application are covered by the new drug applications reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the Division of Drug Labeling Compliance (address given above).

Also named in the November 11, 1975 notice were the following new drug applications:

DESI 597

Pathilon with Phenobarbital Sequels (controlled-release capsules) containing trihexethyl chloride and phenobarbital; Lederle Laboratories, Division American Cyanamid Co., P.O. Box 500, Pearl River, N.Y. 10965 (NDA 11-940).

DESI 3625

Pathilon Sustained Release Capsules containing trihexethyl chloride; Lederle Laboratories (NDA 11-889).

The holder of these two new drug applications and the sponsors of the related products named below have submitted requests for a hearing and data concerning their drug products. The requests for hearing and data are under review.

DESI 597

Donnatal Extentabs containing hyoscyamine sulfate, atropine sulfate, hyoscyne hydrobromide, and phenobarbital; A. H. Robins Co., Inc., 1407 Cummings Dr., Richmond, Va. 23220 (no NDA).

DESI 4681

Prydon Spansules containing belladonna alkaloids; Smith Kline & French

Laboratories, 1500 Spring Garden St., Philadelphia, Pa. 19101 (no NDA).

Marketing of those drug products for which hearing requests are under review may continue pending a ruling on the requests.

No other person filed a written appearance of election as provided for by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Drug under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under authority delegated to him (21 CFR 5.82), finds that on the basis of new information before him with respect to the drug products, evaluated together with the evidence available to him when the applications were approved, there is a lack of substantial evidence that the above listed drug products will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

Therefore, pursuant to the foregoing finding, approval of new drug applications Nos. 9-311, 11-200, and 8-638 and all amendments and supplements applying thereto, is withdrawn effective October 17, 1977.

Shipment in interstate commerce of the above products or of any identical related, or similar product that is not the subject of an approved new drug application, except for the ones described above that may continue to be marketed pending rulings on the requests for a hearing, will then be unlawful.

Dated: September 28, 1977.

RICHARD A. TERSELEC,

Acting Director, Bureau of Drugs.

[FR Doc 77-29182 Filed 10-6-77; 8:45 am]

[4110-03]

[Docket No. 76N-0465; DESI 64]

CERTAIN BARBITURATE-ANALGESIC COMBINATION DRUG FOR ORAL USE

Withdrawal of Approval of New Drug Application

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice withdraws approval of the new drug application for a certain barbiturate-analgesic combination drug product. The product has been used for relief of pain in various conditions.

DATES: Effective October 17, 1977.

ADDRESS: Requests for an opinion of the applicability of this notice to a specific drug product should be directed to the Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Ronald L. Wilson, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857 (301-443-3650).

SUPPLEMENTARY INFORMATION: In a notice (DESI 64, Docket No. FDC-D-574 (now Docket No. 76N-0465)) published in the FEDERAL REGISTER of October 12, 1973 (38 FR 28312), the Commissioner of Food and Drugs offered the opportunity for a hearing on a proposal to issue an order withdrawing approval of the new drug application for the drug product described below. The basis of the proposed action was the lack of substantial evidence that the product is effective for its labeled indications.

NDA 8-734; Algonson Tablets containing sodium butabarbital 7.5 mg and acetaminophen 300 mg; formerly marketed by McNeil Laboratories, Inc., Camp Hill Rd., Fort Washington, Pa. 19034.

By letter of November 3, 1973, McNeil Laboratories elected not to avail itself of the opportunity for a hearing with respect to Algonson Tablets because of the possibly suboptimal dose of sodium butabarbital contained in the combination product.

All drug products that are identical to Algonson as well as products similar or related to it that contain 7.5 milligrams or less of sodium butabarbital or an equivalent amount of other barbiturate (since such an amount is regarded as inadequate in any such product), are covered by the new drug application reviewed and are subject to this notice. Other analgesic/barbiturate combination products containing in excess 7.5 milligrams of sodium butabarbital or an equivalent amount of other barbiturate will be dealt with in a future FEDERAL REGISTER notice. Any person who wishes to determine whether a specific product is covered by this notice should write the Division of Drug Labeling Compliance (address given above).

In response to the October 12, 1973 notice, requests for a hearing were submitted for the following related drug products:

1. Butigetic Tablets containing butabarbital sodium, acetaminophen, phenacetin, and caffeine; McNeil Laboratories, Inc., Camp Hill Rd., Fort Washington, Pa. 19034.

2. Fiorinal Tablets and Capsules containing butalbital, caffeine, aspirin, and phenacetin; Sandoz Pharmaceuticals, Route 10, Hanover, N.J. 07936.

3. Indogesic Tablets containing acetaminophen, salicylamide, and butabarbital; Century Pharmaceuticals, Inc., 4553 Allisonville Rd., Indianapolis, Ind. 46205.

4. Phenaphen Tablets and Capsules containing aspirin, phenacetin, and phenobarbital; A. H. Robins Co., Inc., 1407 Cummings Dr., Richmond, Va. 23220.

These drug products are not affected by this notice and will be the subject of a future FEDERAL REGISTER notice.

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053,

NOTICES

as amended (21 U.S.C. 355)), and under authority delegated to him (21 CFR 5.82), finds that on the basis of new information before him with respect to the drug product, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug product will have the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Therefore, pursuant to the foregoing finding, approval of new drug application No. 8-734 and all amendments and supplements applying thereto, is withdrawn effective October 17, 1977.

Shipment in interstate commerce of Algonson or of any identical product, or of any similar or related product containing 7.5 milligrams or less of sodium butabarbital or equivalent amount of another barbiturate, not the subject of an approved new drug application, will then be unlawful.

Dated: September 29, 1977.

RICHARD A. TERSELEC,

Acting Director,

Bureau of Drugs.

[Docket No. 75N 0186; DESI 597]

CERTAIN COMBINATION DRUGS CONTAINING AN ANTICHOLINERGIC WITH A BARBITURATE

Withdrawal of Approval of New Drug Applications

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice withdraws approval of new drug applications and pertinent parts of new drug applications pertaining to certain combination drugs containing an anticholinergic with a barbiturate, on the basis of lack of substantial evidence of effectiveness. The drug products have been used in the treatment of the various gastrointestinal disorders (for example, ulcers).

EFFECTIVE DATE: October 17, 1977.

ADDRESS: Requests for opinion of the applicability of this notice to a specific product should be identified with the reference number DESI 597 and directed to the Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Ronald L. Wilson, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857 (301-443-3650).

SUPPLEMENTARY INFORMATION: In a notice published in the FEDERAL REGISTER of November 11, 1975 (40 FR 52653),

the Director of the Bureau of Drugs offered an opportunity for hearing on a proposal to issue an order withdrawing approval of the new drug applications (NDA's) described below. Since the NDA holder who requested a hearing on the proposal later withdrew his request, and no other NDA holder contested the proposal, approval of those NDA's, or pertinent parts of them, is now being withdrawn. As stated in that notice, a basis for the proposed action was that, as formulated, each dosage unit of the products described below, except Pamine-PB Drops (Pediatric), contains what is regarded as an inadequate amount of the barbiturate. Although the barbiturate content in Pamine-PB Drops (Pediatric) is not regarded as inadequate, the drug product was included in the November 11, 1975 notice since the holder of the new drug application had informed the Food and Drug Administration that additional studies would not be undertaken to determine effectiveness of the product as a fixed combination. The notice was not directed to related or similar products that contain an adequate amount of barbiturate. Such products were eligible to remain on the market provided their sponsors agreed to conduct the studies necessary to determine effectiveness in accordance with another notice published in the FEDERAL REGISTER of November 11, 1975 (40 FR 52644).

1. That part of NDA 8-919 pertaining to Co-Elorine 25 Pulvules containing tri-cyclamol hydrochloride 25 mg and amobarbital 8 mg; Eli Lilly and Co., P.O. Box 618, Indianapolis, Ind. 46206.

2. That part of NDA 13-430 pertaining to Valpin-PB Tablets containing anisotropine methylbromide 10 mg and phenobarbital 8 mg; Endo Laboratories, Inc., 1000 Stewart Ave., Garden City, Long Island, N.Y. 11533.

3. NDA 13-431: Valpin-PB Elixir containing anisotropine methylbromide 10 mg per 5 cc and phenobarbital 8 mg per 5 cc; Endo Laboratories.

4. That part of NDA 8-942 pertaining to Pamine-PB Half-Strength Tablets containing methscopolamine bromide 1.25 mg, and phenobarbital 8 mg; The Upjohn Co., 7171 Portage Rd., Kalamazoo, Mich. 49002.

5. NDA 9-260; Pamine-PB Drops (Pediatric) containing methscopolamine bromide 0.5 mg per cc and phenobarbital 20 mg per cc; The Upjohn Co.

6. NDA 9-261; Pamine-PB Elixir and Paminal Elixir containing methscopolamine bromide 1.25 mg per 5 cc and phenobarbital 8 mg per 5 cc; The Upjohn Co.

All drug products that are identical, related, or similar to a drug product named above and are not being studied for effectiveness under the conditions specified in the FEDERAL REGISTER of November 11, 1975 (40 FR 52644) and not the subject of an approved new drug application, are covered by the new drug applications reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice

should write to the Division of Drug Labeling Compliance at the address given above.

In response to the November 11, 1975 notice of opportunity for hearing, Endo Laboratories submitted a request for a hearing on the original Valpin-PB Tablets and Elixir formulations, but subsequently withdrew its request by letter of January 19, 1976. The firm has supplemented its new drug application (NDA 13-430) to revise the formulation and labeling of the original Valpin-PB Tablets, and this notice does not apply to that part of NDA 13-430 pertaining to the reformulated Valpin-PB Tablets (Valpin 50-PB). No other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under the authority delegated to him (21 CFR 5.82), finds that, on the basis of new information before him with respect to the drug products, evaluated together with the evidence available to him when the applications were approved, there is a lack of substantial evidence that the drug products will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

Therefore, pursuant to the foregoing finding, approval of new drug applications 8-919, 13-430, 13-431, 8-942, 9-260, and 9-261 (or those parts of the applications providing for the drug products named above), and all amendments and supplements applying thereto, is withdrawn effective October 17, 1977. This notice does not apply to that part of NDA 13-430 pertaining to the reformulated Valpin 50-PB Tablets.

Shipment in interstate commerce of the above products or of any identical, related, or similar product (as qualified above), not the subject of an approved new drug application, will then be unlawful.

Dated: September 28, 1977.

RICHARD A. TERSELIC,
Acting Director,
Bureau of Drugs.

[FR Doc. 77-29183 Filed 10-6-77; 8:45 am]

[4110-03]

[Docket No. 76N-0056; DESI 1626]

CERTAIN COMBINATION PREPARATIONS CONTAINING XANTHINE DERIVATIVES

Withdrawal of Approval of New Drug Applications

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice withdraws approval of new drug applications and per-

manent parts of new drug applications pertaining to certain combination preparations containing xanthine derivatives. The basis for the withdrawal is lack of substantial evidence of effectiveness. The products have been used in the treatment of bronchospastic disorders.

EFFECTIVE DATE: October 17, 1977.

ADDRESS: Requests for opinion of the applicability of this notice to a specific product should be identified with the reference number DESI 1626 and directed to: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Ronald L. Wilson, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857 (301-443-3650).

SUPPLEMENTARY INFORMATION: In a notice published in the FEDERAL REGISTER of April 9, 1976 (41 FR 15051), the Director of the Bureau of Drugs offered an opportunity for hearing on a proposal to issue an order withdrawing approval of the new drug applications described below. Since the holders of the new drug applications did not contest the proposal, approval of the new drug applications or pertinent parts thereof is now being withdrawn. Combination drug products containing up to 2 grains of a xanthine derivative, ephedrine, and not more than 8 milligrams of phenobarbital are not affected by this notice; they were the subject of another notice published in the FEDERAL REGISTER of April 9, 1976 (41 FR 15053).

NDA 3-832, Aminophyllin with Phenobarbital Tablets containing aminophylline (3 gr) and phenobarbital (1/4 gr); G. D. Searle & Co., P.O. Box 5110, Chicago, Ill. 60680.

That part of NDA 6-333 pertaining to Synophylate with Phenobarbital Tablets containing theophylline sodium glycinate (325 mg) and phenobarbital (16 mg); The Central Pharmaceutical Co., 116-128 E. Third St., Seymour, Ind. 47274.

That part of NDA 6-158 pertaining to Theophyllinate with Racephedrine and Phenobarbital Tablets containing theophylline sodium glycinate (5 gr), phenobarbital (1/4 gr), and racephedrine hydrochloride (1/8 gr); Brayten Pharmaceutical Co., 1715 W. 38th St., Chattanooga, Tenn. 37409.

NDA 6-359; Nethaphyl Regular Strength Capsules containing ambuphylline (120 mg), etafedrine hydrochloride (50 mg), and phenobarbital (15 mg) and Nethaphyl Half Strength Capsules containing ambuphylline (60 mg), etafedrine hydrochloride (25 mg), and phenobarbital (8 mg); Merrell-National Laboratories, Division of Richardson-Merrell, Inc., 110 E. Amity Rd., Cincinnati, Ohio 45215.

NDA 4-084, Aminophylline, Ephedrine & Phenobarbital Tablets containing aminophylline (1 1/2 gr), ephedrine sulfate (3/4 gr), and phenobarbital (1/4 gr); Kremers-Urban Co., 5600 W. County Line Rd., P.O. Box 2038, Milwaukee, Wis. 53201.

That part of NDA 6-374 pertaining to Gynazan Tablets containing theophylline sodium glycinate (5 gr), racephedrine hy-

drochloride (1/4 gr), and phenobarbital (1/4 gr), and Gynazan Tablets containing theophylline sodium glycinate (5 gr) and phenobarbital (1/4 gr); First Texas Pharmaceuticals, Inc., 1810 N. Lamar St., P.O. Box 5026, Dallas, Tex. 75222.

That part of NDA 9-268 pertaining to Cholelyl with Phenobarbital Tablets containing oxtriphylline (200 mg) and phenobarbital (15 mg); Nepera Laboratories, Division of Warner-Lambert Pharmaceutical Co., 201 Tabor Rd., Morris Plains, N.J. 07950.

NDA 3-523; Asminyl Tablets (2 products) containing theophylline sodium salicylate (3 gr), sodium phenobarbital (1/4 and 1/2 gr), and ephedrine sulfate (1/2 gr); Cole Pharmaceutical Co., Inc.

All drug products that are identical, related, or similar to the drug products named above and are not the subject of an approved new drug application are covered by the new drug applications reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific drug product is covered by this notice should write to the Division of Drug Labeling Compliance at the address given above.

The following drugs were reviewed by the National Academy of Sciences-National Research Council, Drug Efficacy Study Group. Although the drugs were never actually approved in the NDA's listed below, they were associated with the NDA numbers in the submission to the Academy. They are regarded as related drugs (21 CFR 310.6) and are subject to this notice.

Cholorace Tablets containing oxtriphylline (200 mg), racephedrine hydrochloride (20 mg), and pentobarbital (27.5 mg); Warner-Chilcott Laboratories, Division of Warner-Lambert Pharmaceutical Co., 210 Tabor Rd., Morris Plains, N.J. 07950 (associated with NDA 10-888).

Aminophylline (1 1/2 gr) with Phenobarbital (1/4 gr) Tablets; Cole Pharmaceutical Co., Inc., 3721 Laclede Ave., St. Louis, Mo. 63108 (associated with NDA 4-096).

Asminyl Siosol Pink Tablets containing theophylline (2 gr), sodium phenobarbital (1/2 gr), and ephedrine sulfate (1/2 gr); Cole Pharmaceutical Co., Inc. (associated with NDA 3-523).

Asminyl Liquid, each 5 milliliters containing theophylline sodium salicylate (4 1/2 gr), sodium butabarbital (1/8 gr), and ephedrine sulfate (1/2 gr); Cole Pharmaceutical Co., Inc. (associated with NDA 3-523).

Arteminyl Tablets containing theophylline (2 gr), isoproterenol hydrochloride (in coating) (10 mg), sodium phenobarbital (1/4 gr), and ephedrine sulfate (1/2 gr); Cole Pharmaceutical Co., Inc. (associated with NDA 3-523).

Theoglycinate with Phenobarbital Tablets containing theophylline sodium glycinate (5 gr) and phenobarbital (1/4 gr); Brayten Pharmaceutical Co. (associated with NDA 6-158).

The sponsors of the related products named below have requested hearings concerning their drug products. The requests for hearing are under review.

Amesec Enseals and Pulvules containing aminophylline, ephedrine hydrochloride, and amobarbital; Eli Lilly and Company, Box 618, Indianapolis, Ind. 46206 (no NDA).

Aminophylline and Amytal Pulvules containing aminophylline and amobarbital; Eli Lilly and Company (no NDA).

Dainite Tablets containing aminophylline, pentobarbital sodium, ephedrine hydrochloride, dried aluminum hydroxide gel, and

benzocaine; Mallinckrodt Pharmaceuticals, Division of Mallinckrodt Inc., 2nd and Mallinckrodt St., St. Louis, Mo. 63147 (no NDA).

Dainite-KI Tablets containing aminophylline, phenobarbital, ephedrine hydrochloride, potassium iodide, dried aluminum hydroxide gel, and benzocaine; Mallinckrodt Pharmaceuticals (no NDA).

Lufyllin-EPG Tablets and Elixir containing ephedrine hydrochloride, dyphylline, phenobarbital, and guaifenesin; Mallinckrodt Pharmaceuticals (no NDA).

Luftodil Tablets containing phenobarbital, theophylline, ephedrine hydrochloride, and guaifenesin; Mallinckrodt Pharmaceuticals (no NDA).

Quadrinal Tablets containing ephedrine hydrochloride, phenobarbital, theophylline calcium salicylate, and potassium iodide; Knoll Pharmaceutical Company, 30 North Jefferson Rd., Whippany, N.J. 07981 (no NDA).

Quibron Plus Capsules and Elixir containing ephedrine hydrochloride, theophylline, butabarbital, and guaifenesin; Mead Johnson Laboratories, Division Mead Johnson and Company, 2404 Pennsylvania St., Evansville, Ind. 47721 (no NDA).

Marketing of those drug products for which hearing requests are under review may continue pending a ruling on the requests.

No other person filed a written appearance of election as provided for by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under authority delegated to him (21 CFR 5.82), finds that on the basis of new information before him with respect to the drug products, evaluated together with the evidence available to him when applications were approved, there is a lack of substantial evidence that the above listed drug products will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

Therefore, pursuant to the foregoing finding, approval of new drug applications numbers 3-832, 6-333, 6-158, 6-359, 4-084, 6-374, 9-268, and 3-523 (or those parts of the applications providing for the drug products named above) and all amendments and supplements applying thereto, is withdrawn effective October 17, 1977.

Shipment in interstate commerce of the above products or of any identical, related, or similar prescription product, not the subject of an approved new drug application, except for the ones described above that may continue to be marketed because of a hearing request or an exemption, will then be unlawful.

Dated: September 30, 1977.

RICHARD A. TERSELIC,
Acting Director,
Bureau of Drugs.

[4110-03]

[Docket Nos. 76N-0377, 76N-0356; DESI Nos. 7661, 1543]

CERTAIN DRUGS CONTAINING FLUOX- MESTERONE AND ETHINYL ESTRADIOL; DIETHYLSTILBESTROL AND METHYL- TESTOSTERONE; CHLOROTRIANISENE AND METHYLTESTOSTERONE; OR TESTOSTERONE ENANTHATE AND ESTRADIOL VALERATE; AND CERTAIN ESTRO- GEN-CONTAINING DRUGS FOR ORAL OR PARENTERAL USE

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing; Amendment

AGENCY: Food and Drug Administration.

ACTION: Amended notice.

SUMMARY: This notice amends DESI notices 7661 and 1543, that were published in the FEDERAL REGISTER of September 29, 1976, to resolve inconsistencies in the statements of conditions for approval and marketing injectable drug products containing estradiol valerate in a sterile oleaginous solution.

DATE: Effective October 7, 1977.

FOR FURTHER INFORMATION CONTACT:

Herbert Gerstenzang, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, (301-443-3650).

SUPPLEMENTARY INFORMATION: DESI notices 7661 and 1543 were published in the FEDERAL REGISTER of September 29, 1976 (41 FR 43112 and 43114). In the statement of conditions for marketing the affected products, both notices require any current holder of a new drug application (NDA) for an injectable preparation containing estradiol valerate sterile oleaginous solution to submit a supplement with full manufacturing information. Inadvertently, however, they contained inconsistent requirements for new applicants: DESI 7661 requires a new applicant to submit an abbreviated new drug application (ANDA), whereas DESI 1543 requires a new applicant to submit a full NDA.

DESI 7661, in paragraph 3, *Marketing status*, refers to conjugated estrogen preparations in DESI 7661.

The Food and Drug Administration concludes that the inconsistency should be resolved by amending the marketing status sections of both notices to require a new applicant for an injectable product containing estradiol valerate sterile oleaginous solution to submit an ANDA with full manufacturing information, and to delete from DESI 7661 the erroneous reference to conjugated estrogen preparations. Accordingly, the September 29, 1976 notices are amended as follows:

1. DESI 7661 is amended on page 43113 by revising paragraph B.3.a.(i) to delete

reference to conjugated estrogen preparations, and by revising paragraph B.3.c. to read as follows:

c. Approval of an abbreviated new drug application must be obtained prior to marketing any such product. The abbreviated application shall contain the information specified in 21 CFR 314.1(f), except that applications for products containing testosterone enanthate and estradiol valerate in a sterile oleaginous solution shall include full manufacturing information as required by Items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of the new drug application form FD-356H (21 CFR 314.1(c)). Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

2. DESI 1543 is amended on page 43116 by deleting paragraphs B.3.c and d and inserting the following:

c. Approval of an abbreviated new drug application must be obtained prior to marketing any such product. The abbreviated application shall contain the information specified in 21 CFR 314.1(f), except that applications for conjugated estrogens and for estradiol valerate sterile oleaginous solution shall include full manufacturing information as required by Items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of the new drug application form FD-356H (21 CFR 314.1(c)). Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

This notice is issued under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Director, Bureau of Drugs (21 CFR 5.82).

Dated: September 29, 1977.

RICHARD A. TERSELIC,
Acting Director,
Bureau of Drugs.

[4110-03]

[Docket No. 76N-0339; DESI 10598]

COMBINATION DRUG CONTAINING DOX- YLAMINE SUCCINATE AND PRYDOL- XINE HYDROCHLORIDE

Drugs for Human Use; Drug Efficacy Study Implementation

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice states the conditions for marketing the combination drug product containing doxylamine succinate 10 milligrams and pyridoxine hydrochloride 10 milligrams for the indication for which it is regarded as effective, and allows for the submission of abbreviated new drug applications.

DATE: Supplements to approved new drug applications due on or before December 6, 1977.

ADDRESSES: Communications forwarded in response to this notice should be identified with the reference number DESI 10598, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

Supplements (Identify with NDA number): Division of Neuropharmacological Drug Products (HFD-120), Room 10E-34, Bureau of Drugs.

Original abbreviated new drug applications or supplements thereto (Identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Requests for opinion of the applicability of this notice to a specific product: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD-501), Bureau of Drugs.

FOR FURTHER INFORMATION CONTACT:

Herbert Gerstenzang, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, (301-443-3650).

SUPPLEMENTARY INFORMATION: In a notice (DESI 10598) published in the FEDERAL REGISTER of January 28, 1977 (42 FR 5422), the Director of the Bureau of Drugs announced the agency's conclusion that the following combination product is effective for nausea and vomiting of pregnancy.

NDA 10-598: that part pertaining to Bendectin Tablets containing doxylamine succinate 10 milligrams and pyridoxine hydrochloride 10 milligrams; Merrell-National Laboratories, Inc., 110 East Amity Rd., Cincinnati, Ohio 45215.

Merrell-National Laboratories had supplemented its new drug application to provide for the reformulated Bendectin Tablets described above. This product was approved on November 9, 1976, through the supplemental new drug application procedures. Based on all data and information available, the Director concludes that abbreviated new drug applications are acceptable for such a product as stated below.

Bendectin Tablets, as a three-ingredient combination product containing dicyclamine hydrochloride, doxylamine succinate and pyridoxine hydrochloride, was previously concluded to lack substantial evidence of effectiveness, and a notice withdrawing its approval was published in the FEDERAL REGISTER of July 29, 1977 (42 FR 38643).

The notice that follows pertains only to the combination product containing doxylamine succinate 10 milligrams and pyridoxine hydrochloride 10 milligrams.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise

the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder of the new drug application specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical to the drug product named above. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion on the applicability of this notice to a specific drug product he manufactures or distributes that may be identical to the drug product named in this notice by writing to the Division of Drug Labeling Compliance (address given above).

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug is effective for the indication in the labeling conditions below.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug is in tablet form suitable for oral administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The indication is as follows: For nausea and vomiting of pregnancy.

3. *Marketing status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before December 6, 1977, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H (21 CFR 314.1 (c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502,

505, 52 Stat. 1050-1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.70)).

Dated: September 29, 1977.

RICHARD A. TERSELCIC,
Acting Director,
Bureau of Drugs.

[FR Doc. 77-29185 Filed 10-6-77; 8:45 am]

[4110-03]

[Docket No. 76N-0202, DESI 8614]

COMBINATION DRUG PRODUCTS CONTAINING ASPIRIN, ACETAMINOPHEN, PHENOBARBITAL, AND BELLADONNA ALKALOIDS, WITH AND WITHOUT CODEINE

Withdrawal of Approval of New Drug Application

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice withdraws approval of the new drug application for certain combination products containing aspirin, acetaminophen, phenobarbital, and belladonna alkaloids, with and without codeine on the grounds of lack of substantial evidence of effectiveness. The drug products, which have been used as analgesics, are no longer marketed.

DATE: Effective October 17, 1977.

ADDRESSES: Requests for opinion of the applicability of this notice to a specific product should be identified with the reference number DESI 8614 and directed to: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Herbert Gerstenzang, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, (301-443-3650).

SUPPLEMENTARY INFORMATION: In a notice (DESI 8614; Docket No. 76N-0202) published in the FEDERAL REGISTER of July 6, 1976 (41 FR 27769), the Director of the Bureau of Drugs offered an opportunity for a hearing on his proposal to issue an order withdrawing approval of the following drug products:

NDA 8-614: Anadol Tablets containing aspirin 3½ gr, acetaminophen 2½ gr, phenobarbital ¼ gr, hyoscyamine sulfate 0.0004 gr, scopolamine hydrobromide 0.00008 gr, and atropine sulfate 0.00002 gr; and Anadol with Codeine Tablets containing aspirin 3½ gr, acetaminophen 2½ gr, phenobarbital ¼ gr, hyoscyamine sulfate 0.0004 gr, scopolamine hydrobromide 0.00008 gr, atropine sulfate 0.00002 gr, and codeine phosphate ¼ gr, or ½ gr; Bard-Petersburg, Inc., Division of Bard Pharmaceuticals, Inc., 99-101 Saw Mill River Rd., Yonkers, N.Y.

10701. (The July 6, 1976, notice incorrectly stated that Bard-Petersburg, Inc., is a Division of The Purdue Frederick Co.)

The basis of the proposed action was the lack of substantial evidence that the products are effective for their labeled indications. Bard-Petersburg, Inc., which became the holder of the new drug application through acquisition of another firm, stated that they have never manufactured or marketed these products. The proposed action was not contested and approval of the products is now being withdrawn.

All drug products that are identical, related, or similar to a drug named above, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write the Division of Drug Labeling Compliance (address given above).

Neither the holder of the new drug application nor any other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under authority delegated to him (21 CFR 5.82), finds that on the basis of new information before him with respect to the drug products, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug products will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

Therefore, pursuant to the foregoing finding, approval of new drug application No. 8-614, and all amendments and supplements applying thereto, is withdrawn effective October 17, 1977.

Shipment in interstate commerce of the above listed products or of any identical, related, or similar products, not the subject of an approved new drug application, will then be unlawful.

Dated: September 29, 1977.

RICHARD TERSELCIC,
Acting Director,
Bureau of Drugs.

[4110-03]

[Docket No. 77F-0304]

GENERAL ELECTRIC CO.

Notice of Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The General Electric Co. has filed a petition (FAP 6B3237) propos-

ing that the food additive regulations concerning catalysts and cross-linking agents for epoxy resins be amended to include the morpholine salt of para-toluene sulfonic acid as a catalyst for epoxy resins.

FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C., 20204, (202-472-5690).

SUPPLEMENTARY INFORMATION: Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b) (5), 72 Stat. 1786 (21 U.S.C. 348(b) (5))), notice is given that a petition (FAP 6B3237) has been filed by General Electric Co., 305 Eastern Ave., Chelsea, Mass. 02150, proposing that § 175.300 Resinous and polymeric coatings (21 CFR 175.300) be amended by including the Morpholine salt of para-toluene sulfonic acid as a catalyst for epoxy resins.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 28, 1977.

HOWARD R. ROBERTS,
Acting Director,
Bureau of Foods.

[Docket No. 77N-0079; DESI 552]

HEPARIN SODIUM

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice offers an opportunity for a hearing on certain indications previously stated to lack substantial evidence of effectiveness for heparin sodium. It announces the conditions for marketing the drug for the indications for which it continues to be regarded as effective, allowing for the submission of abbreviated new drug applications. It further sets forth a revised Indications and Dosage and Administration section to include provisions for an additional low-dose prophylactic use.

DATES: Hearing requests due on or before November 7, 1977, supplements to approved new drug applications due on or before December 6, 1977.

ADDRESSES: Communications forwarded in response to this notice should be identified with the reference number DESI 552, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

Supplements (Identify with NDA number): Division of Cardio-Renal Drug Products (HFD-110), Rm. 16B-30, Bureau of Drugs.

Original abbreviated new drug applications and supplements thereto (Identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Requests for Hearing (Identify with Docket number appearing in the heading of this notice): Hearing Clerk, Food and Drug Administration (HFC-20), Rm. 4-65.

Requests for the report of the National Academy of Sciences-National Research Council: Public Records and Document Center (HFC-18), Rm. 4-62.

Requests for opinion of the applicability of this notice to a specific product: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs.

Requests for labeling guidelines: Division of Cardio-Renal Drug Products (HFD-110), Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD-501), Bureau of Drugs.

FOR FURTHER INFORMATION CONTACT:

William R. Durbin, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857 (301-443-3650).

SUPPLEMENTARY INFORMATION: In a notice (DESI 552) published in the FEDERAL REGISTER of October 24, 1970 (35 FR 16608), the Food and Drug Administration announced its conclusions concerning the drug products described below as follows: (1) Effective for prophylaxis and treatment of venous thrombosis and its extension; for prophylaxis and treatment of pulmonary embolism; in atrial fibrillation with embolization; for diagnosis and treatment of chronic consumptive coagulopathies (coagulation consumption coagulopathy); as an anticoagulant in blood transfusions and in blood samples for laboratory purposes; for prevention of clotting in arterial and heart surgery; and for prevention of cerebral thrombosis in the evolving stroke; (2) probably effective for prophylaxis and treatment of peripheral arterial embolism; for prevention of recurrent arterial embolism; as an adjunct in the treatment of coronary occlusion with myocardial infarction; and for arterial occlusion due to embolism; (3) lacking substantial evidence of effectiveness for use in the treatment of cerebral thrombosis and for the reduction of thrombotic complications of asthma; and (4) possibly effective for other labeled indications.

A followup notice published in the FEDERAL REGISTER of January 12, 1972 (37 FR 492) reclassified to effective the probably effective indication and the possibly effective indication "as an anticoagulant in extracorporeal circulation and dialysis procedures." The other possibly effective indications were reclassified to lacking substantial evidence of effectiveness. No opportunity for a hearing was offered at that time for those indications. The holders of the new drug applications had previously deleted all less-than-effective indications from the labeling of the drug products.

The notice that follows does not pertain to the indications stated in the October 24, 1970, notice to lack substantial evidence of effectiveness. An opportunity for hearing was given in that notice for those indications. A hearing was not requested and they are no longer allowable in labeling. Any such product labeled for those indications is subject to regulatory action.

1. NDA 0-552; Liqueamin Sodium Aqueous Solution; Organon, Inc., 357 Mount Pleasant Ave., West Orange, N.J. 07052.
2. NDA 0-552; Liqueamin Sodium "200" in Gelatin Menstruum; Organon, Inc.
3. NDA 3-895; Heparin Sodium Injection; Lederle Laboratories, Division American Cyanamid Co., Pearl River, N.Y. 10965.
4. NDA 4-570; Heparin Sodium Sterile Solution; The Upjohn Co., 7171 Portage Rd., Kalamazoo, Mich. 49002.
5. NDA 5-264; Panheprin; Abbott Laboratories, 14th and Sheridan Rd., North Chicago, Ill. 60064.
6. NDA 5-521; Heparin Sodium Injection; Eli Lilly & Co., P.O. Box 618, Indianapolis, Ind. 46206.

Accordingly, the October 24, 1970, notice is amended to read as follows:

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Division of Drug Labeling Compliance at the address given above.

A. **Effectiveness classification.** The Food and Drug Administration has reviewed all available evidence and concludes that the drugs are effective for the indications in the labeling conditions below. The drug products lack substantial evidence of effectiveness for all other labeled indications.

B. **Conditions for approval and marketing.** The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. **Form of drug.** Heparin sodium preparations are in a sterile aqueous or gelatin solution form suitable for parenteral administration.

2. **Labeling conditions.** (a) The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

(b) The drug products are labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. Labeling guidelines for the drugs are available from the Food and Drug Administration on request (address given above). The indications are as follows:

Heparin sodium injection is indicated for anticoagulant therapy in prophylaxis and treatment of venous thrombosis and its extension; in low-dose regimen for prevention of postoperative deep venous thrombosis and pulmonary embolism in patients undergoing major abdomino-thoracic surgery who are at risk of developing thromboembolic disease (see Dosage and Administration section); for prophylaxis and treatment of pulmonary embolism; in atrial fibrillation with embolization; for diagnosis and treatment of acute and chronic consumptive coagulopathies (disseminated intravascular coagulation); for prevention of clotting in arterial and cardiac surgery; and for the prevention of cerebral thrombosis in evolving stroke.

Heparin sodium is indicated as an adjunct in treatment of coronary occlusion with acute myocardial infarction, and in prophylaxis and treatment of peripheral arterial embolism.

Heparin sodium may also be employed as an anticoagulant in blood transfusions, extracorporeal circulation, dialysis procedures, and in blood samples for laboratory purposes.

Method of administration	Frequency	Recommended dose (based on 150-lb (68 kg) patient)
1. By deep subcutaneous (intrafat) injection.	Initial dose	5,000 units by intravenous injection followed by 10,000-20,000 units of a concentrated solution subcutaneously.
	Every 8 hr. Or every 12 hr.	8,000-10,000 units of a concentrated solution.
	Initial dose	15,000-20,000 units of a concentrated solution.
	Every 4 to 6 hr.	10,000 units either undiluted or in 50-100 p.p.t. isotonic sodium chloride injection.
	Initial dose	5,000-10,000 units, either undiluted or in 50-100 p.p.t. isotonic sodium chloride injection.
	Continuous	20,000-40,000 units in 1,000 ml of isotonic sodium chloride solution for infusion per day.

1. **By deep subcutaneous (intrafat) injection.** After an initial I.V. injection of 5,000 units, inject 10,000 to 20,000 units of a concentrated heparin sodium solution subcutaneously, followed by 8,000 to 10,000 units of a concentrated solution subcutaneously every 8 hours, or 15,000 to 20,000 units of a concentrated solution every 12 hours. A different site should be used for each injection to prevent the development of a massive hematoma.

2. **By intermittent intravenous injection.** 10,000 units initially, then 5,000 to 10,000

Dosage and administration are as follows: Heparin sodium is not effective by oral administration and should be given by deep subcutaneous (intrafat, i.e. above iliac crest or into the abdominal fat layer) injection, by intermittent intravenous injection, or intravenous infusion. The intramuscular route of administration should be avoided because of the frequent occurrence of hematoma at the injection site.

The dosage of heparin sodium should be adjusted according to the patient's coagulation test results, which, during the first day of treatment, should be determined just prior to each injection. (There is usually no need to monitor the effect of low-dose heparin in patients with normal coagulation parameters.) Dosage is considered adequate when the whole blood clotting time is elevated approximately 2.5 to 3 times the control value.

When heparin sodium is administered by continuous intravenous infusion, coagulation tests should be performed approximately every four hours during the early stages of therapy. When it is administered intermittently by intravenous or deep subcutaneous (intrafat) injection, coagulation tests should be performed before each injection during the early stages of treatment and daily thereafter.

When an oral anticoagulant of the coumadin or similar type is administered with heparin sodium, coagulation tests and prothrombin activity should be determined at the start of therapy. For immediate anticoagulant effect, administer heparin sodium in the usual therapeutic dosage. When the results of the initial prothrombin determination are known, administer the first dose of an oral anticoagulant in the usual initial amount. Thereafter, perform a coagulation test and determine the prothrombin activity at appropriate intervals. A period of at least 5 hours after the last intravenous dose and 24 hours after the last subcutaneous (intrafat) dose of heparin sodium should elapse before blood is drawn if a valid prothrombin time is to be obtained. When the oral anticoagulant shows full effect and prothrombin activity is in the desired therapeutic range, heparin sodium may be discontinued and therapy continued with the oral anticoagulant.

Therapeutic anticoagulant effect with full-dose heparin: Although dosage must be adjusted for the individual patient according to the results of suitable laboratory tests, the following dosage schedules may be used as guidelines:

units every 4 to 6 hours. These amounts may be given either undiluted or diluted with 50 to 100 milliliters of isotonic sodium chloride injection.

3. **By continuous intravenous infusion.** After an initial I.V. injection of 5,000 units of heparin sodium, add 20,000 to 40,000 units to 1,000 milliliters of isotonic sodium chloride solution for infusion. For most patients, the rate of flow should be adjusted to deliver approximately 20,000 to 40,000 units in 24 hours.

Surgery of the heart and blood vessels: Patients undergoing total body perfusion for open heart surgery should receive an initial dose of not less than 150 units of heparin sodium per kilogram of body weight. Frequently a dose of 300 units of heparin sodium per kilogram of body weight is used for procedures estimated to last less than 60 minutes; or 400 units per kilogram for those estimated to last longer than 60 minutes.

Low-dose prophylaxis of postoperative thromboembolism: A number of well-controlled clinical trials have demonstrated that low-dose heparin prophylaxis, given just prior to and after surgery, will reduce the incidence of postoperative deep vein thrombosis in the legs, as measured by the I-125 fibrinogen technique and venography, and of clinical pulmonary embolism. The most widely used dosage has been 5,000 units 2 hours before surgery and 5,000 units every 8 to 12 hours thereafter for 7 days or until the patient is fully ambulatory; whichever is longer. The heparin is given by deep subcutaneous injection in the arm or abdomen with a fine needle (25-26 gauge) to minimize tissue trauma. A concentrated solution of heparin sodium is recommended. Such prophylaxis should be reserved for patients over 40 undergoing major surgery. Patients with bleeding disorders, those having neurosurgery, spinal anesthesia, eye surgery, or potentially sanguinous operations should be excluded, as well as patients receiving oral anticoagulants or platelet-active drugs (see Warnings in complete package insert). The value of such prophylaxis in hip surgery has not been established. The possibility of increased bleeding during surgery or postoperatively should be borne in mind. If such bleeding occurs, discontinuance of heparin and neutralization with protamine sulfate is advisable. If clinical evidence of thromboembolism develops despite low-dose prophylaxis, full therapeutic doses of anticoagulants should be given unless contraindicated. All patients should be screened prior to heparinization to rule out bleeding disorders, and monitoring should be performed with appropriate coagulation tests just prior to surgery. Coagulation test values should be normal or only slightly elevated. There is usually no need for daily monitoring of the effect of low-dose heparin in patients with normal coagulation parameters.

3. **Marketing status.** (a) Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before December 6, 1977, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application for FD-356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

(b) Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

C. **Notice of opportunity for hearing.** On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111 (a) (5), demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug

product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before November 7, 1977, a written notice of appearance and request for hearing, and (2) on or before December 6, 1977, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk between the hours of 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-1053, as amended (21 U.S.C. 352, 355)) and under the au-

thority delegated to the Director of the Bureau of Drugs (21 CFR 5.82).

Dated: September 29, 1977.

RICHARD A. TERSELIC,
Acting Director, Bureau of Drugs.
[FR Doc. 77-29306 Filed 10-6-77; 8:45 am]

[4110-03]

[Docket No. 76N-0209; DESI 10070]

PANCREATIC DORNASE

Withdrawal of Approval of New Drug Application

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice withdraws approval of the new drug application for pancreatic dornase on the basis of lack of substantial evidence of effectiveness. The drug has been used for reducing viscosity of pulmonary secretions in bronchopulmonary infections.

EFFECTIVE DATE: October 17, 1977.

ADDRESS: Requests for opinion of the applicability of this notice to a specific product should be identified with the reference number DESI 10070 and directed to: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Herbert Gerstenzang, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857 (301-443-3650).

SUPPLEMENTARY INFORMATION: In a notice (DESI 10070) published in the FEDERAL REGISTER of May 27, 1977 (42 FR 27299), the Director of the Bureau of Drugs offered an opportunity for hearing on a proposal to issue an order withdrawing approval of the following drug product, based upon the lack of substantial evidence of effectiveness.

NDA 10-070; Dornavac Powder containing pancreatic dornase for inhalation or irrigation; Merck Sharp & Dohme, Division of Merck & Co., Inc., West Point, PA 19486.

All drug products that are identical, related, or similar to the drug named above and are not the subject of an approved new drug application are covered by the new drug application reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the Division of Drug Labeling Compliance (address given above).

Neither the holder of the new drug application nor any other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under the authority delegated to him (21 CFR 5.82), finds that, on the basis of new information before him with respect to the drug product, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug product will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Therefore pursuant to the foregoing finding, approval of new drug application 10-070, and all amendments and supplements applying thereto, is withdrawn effective October 17, 1977.

Shipment in interstate commerce of the above product or of any identical, related, or similar product that is not the subject of an approved new drug application will then be unlawful.

Dated: September 29, 1977.

RICHARD A. TERSELIC,
Acting Director, Bureau of Drugs.
[FR Doc. 77-29311 Filed 10-6-77; 8:45 am]

[4110-03]

[Docket No. 77N-0238]

PROPOSED MODEL VENDING OF FOOD AND BEVERAGES ORDINANCE

Notice of Availability

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Commissioner of Food and Drugs is making available for comment a proposed revision of the Model Vending of Food and Beverages Ordinance. The purpose of the ordinance is to provide the vending industry with sanitary standards and the State and local governments with a comprehensive model law.

DATE: Comments by January 5, 1977.

ADDRESS: Written comments to the Hearing Clerk (HFC-20), Room 4-65, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

A. Sidney Davis, Bureau of Foods (HFF-220), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204 (202-245-1511).

SUPPLEMENTARY INFORMATION: As the vending of foods expanded in the 1940's and early 1950's, the need for a uniform ordinance was recognized by both State and local regulatory agencies and the vending industry.

In 1954, the Public Health Service, with the assistance of industry, began work on a uniform ordinance and, in

1957, published the first vending ordinance to be recommended nationally for adoption by all regulatory agencies.

By the mid 1960's, technology and the advances in operations achieved by the vending industry necessitated a revision of the 1957 recommended ordinance and code. Published in 1965, this revision was titled "The Vending of Food and Beverages, A Sanitation Ordinance and Code, 1965 Recommendations of the Public Health Service." The greatest attribute of this ordinance and code has been the provision of uniform guidelines for manufacturers and operators.

The 1965 vending ordinance and code revision has been adopted by at least 25 States, 64 municipalities, and 3 military departments.

In June 1969, the responsibility to provide assistance to State and local regulatory agencies in the establishment and maintenance of food sanitation programs was transferred to the Food and Drug Administration (21 CFR 5.1) from another unit of the Public Health Service.

During the 12 years since the 1965 vending ordinance and code revision was published, there have been many changes in vending machine design, industry practices, and products vended. For example, bulk milk machines have been phased out, pre-mix soft drink machines are being phased out, post-mix drink machines are being manufactured free of copper tubing and microwave ovens have reduced the use of heated perishable food machines.

Therefore, the Commissioner of Food and Drugs, recognizing the need for an updated vending ordinance which will provide State and local regulatory agencies with a comprehensive model law, has determined that a revision of the 1965 vending ordinance is necessary.

The Food and Drug Administration has received and incorporated in this proposal suggestions from State regulatory agencies, industry representatives, and a testing laboratory.

Copies of these proposed revisions are being distributed to the Federal, State, and industry groups who will most directly affected to provide an opportunity for their comments.

Other persons interested in obtaining copies of the proposed revisions should write to the Bureau of Foods (HFF-220), Food and Drug Administration, 200 C Street, SW., Washington, D.C. 20204. A copy is also on display in the office of the Hearing Clerk.

Interested persons may, on or before January 5, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday. All submissions will be considered

prior to finalization of the revised model ordinance.

Dated: September 22, 1977.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Compliance.

SLEEPING BEAR DUNES NATIONAL LAKESHORE, MICHIGAN

Establishment

Notice is given, pursuant to section 2 of the Act of October 21, 1970 (84 Stat. 1075) that there has been acquired within the boundaries of Sleeping Bear National Lakeshore an acreage, including all land required to be donated by the State of Michigan, which is efficiently administrable for the purposes of said Act, and therefore the Lakeshore is hereby established.

As established, the Lakeshore comprises the area within the boundaries delineated on a map entitled "A proposed Sleeping Bear Dunes National Lakeshore Boundary Map," dated May 1969, and numbered NL-SBD-91,000, which map is on file in the Office of the Superintendent of the Lakeshore and in the Offices of the National Park Service, Department of the Interior, Washington, D.C.

Dated: October 21, 1977.

ROBERT HERBST,
Assistant Secretary
of the Interior.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

LABOR RESEARCH ADVISORY COUNCIL COMMITTEES

Meetings and Agenda

The regular fall meetings of committees of the Labor Research Advisory Council will be held on October 25, 26, and 27 in Room 4454, General Accounting Office Building, 441 G Street NW., Washington, D.C.

The Labor Research Advisory Council and its committees advise the Bureau of Labor Statistics with respect to technical matters associated with the Bureau's programs. Membership consists of union research directors and staff members.

The schedule and agenda of the meetings are as follows:

TUESDAY, OCTOBER 25

9:30 A.M.—COMMITTEE ON PRICES AND LIVING CONDITIONS

1. Family Budgets—Status Report.
2. Consumer Price Index Revision Status Report.
3. Industrial Price (Wholesale Price) Revision—Ruggles Report.
4. International Price Program—Status Report.
5. Cost of Living Research Project—Summary of Findings.

WEDNESDAY, OCTOBER 26

9:30 A.M.—COMMITTEE ON WAGES AND INDUSTRIAL RELATIONS

1. Work in Progress.
2. Report of the LRAC subcommittee on long-range program planning.
3. Status of program proposals for Fiscal Year 1979.

1:30 P.M.—COMMITTEE ON FOREIGN LABOR AND TRADE

Status reports on work in the following areas:

1. International comparisons of employment and unemployment.
2. Manufacturing productivity and labor cost comparisons.
3. Trade Statistics Monitoring System.

THURSDAY, OCTOBER 27

9:30 A.M.—COMMITTEE ON MANPOWER AND EMPLOYMENT

1. Local Area Unemployment Statistics.
2. Job Vacancies.
3. National Occupational Information Coordinating Committee (NOICC).
4. Collection of weekly earnings in the Current Population Survey.
5. Information on the labor force activity of individuals as members of families (person-family relationships).
6. Modifications in the definition of "household head."

1:30 P.M.—COMMITTEE ON PRODUCTIVITY, TECHNOLOGY AND GROWTH

1. The role of the National Academy of Science's Productivity Measurement Review Committee.
2. Discussion of production functions and implications for productivity measures.
3. Results of the BLS 1990 economic growth projections.

The meetings are open. It is suggested that persons planning to attend as observers contact Joseph P. Goldberg, Executive Secretary, Labor Research Advisory Council on (Area Code 202) 523-1247.

Signed at Washington, D.C. this 29th day of September 1977.

JULIUS SHISKIN,
Commissioner of Labor Statistics.

[FR Doc. 77-29559 Filed 10-6-77; 8:45 am]

[4510-30]

Employment and Training Administration EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Notice of Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 U.S.C. 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with

particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any

Applications received during the week ending Sept. 30, 1977

Name of applicant	Location of enterprise	Principal product or activity
Emmett's Valley Health Care Facility, Inc.	Lansford, Md.	Nursing home.
Edgcomb Steel & Aluminum Corp.	Cumberland County, N.J.	Iron and steel products.
Edgcomb Steel Corp.	Edgcomb, N.J.	Manufacturing of steel forgings, quality billets and bars.
Edgcomb Manufacturing Corp.	Edgcomb, N.J.	Manufacturing of garden plows, lawn mowers, and hand trucks.
Edgcomb Components Inc.	Edgcomb, N.J.	Machine shop work and electric designing.
Edgcomb Capital Partnerships	Edgcomb, N.J.	Restaurant.
AAA Wood Products, Inc.	Abbeville, Ala.	Sawmill.
J. B. Truck Stop & Restaurant	Smithfield, N.C.	Truck stop and restaurant.
Deery Plywood Corp.	Aberdeen, N.C.	Manufacturing hardwood plywood furniture parts.
Edgcomb Mfg. Inc.	Edgcomb, N.J.	Manufacturing of commercial car parts.
The Edgcomb Corp.	Edgcomb, N.J.	Sales of grain, fertilizer and chemicals.
Yoder Truck & Manufacturing Co. Inc.	Edgcomb, N.J.	Manufacturing of automatic brake actuators.
Edgcomb Properties Inc.	Edgcomb, N.J.	Sale of timeshare condominiums and operation of supper club.
Edgcomb Hollow Publishers, Inc.	Edgcomb, N.J.	Produce and publish newspaper and magazines.
Lindsay Downs, Inc.	Edgcomb, N.J.	Quarter-horse race track.
Edgcomb Coal Co.	Edgcomb, N.J.	Strip mining of bituminous coal.
Edgcomb Fertilizer Inc.	Edgcomb, N.J.	Production of dry and liquid fertilizer.
Edgcomb Lumber Co.	Edgcomb, N.J.	Manufacturing of dimension lumber.

Employment and Training Administration FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Ending of Federal Supplemental Benefit Period in California

This notice announces the ending of the Federal Supplemental Benefit Period in the State of California, effective on October 8, 1977.

BACKGROUND

The Emergency Unemployment Compensation Act of 1974 (Pub. L. 93-572, enacted December 31, 1974) created a temporary program of supplementary unemployment benefits (referred to as Federal Supplemental Benefits) for unemployed individuals who have exhausted their rights to regular and extended benefits under State and Federal unemployment compensation laws. Federal Supplemental Benefits are payable during a Federal Supplemental Benefit Period in a State which has entered into an Agreement under the Act with the United States Secretary of Labor. A Federal Supplemental Benefit Period is triggered on in a State when un-

employment in the State or in the State and the nation reaches the high levels set in the Act. During a Federal Supplemental Benefit Period the maximum amount of Federal Supplemental Benefits which are payable to eligible individuals is up to 13 weeks. A Federal Supplemental Benefit Period commenced in the State of California on January 5, 1975.

The Act also provides that a Federal Supplemental Benefit Period in a State will trigger off when the rate of insured unemployment in the State averages less than 5.0 percent over a period of thirteen consecutive calendar weeks. The benefit period actually terminates at the end of the third week after the week for which there is an "off" indicator, if the benefit period will have been in effect for a minimum duration of 13 weeks.

DETERMINATION OF "OFF" INDICATOR

The employment security agency of the State of California has determined under the Act and 20 CFR 618.19(b) (published in the FEDERAL REGISTER on March 23, 1976, at 41 FR 12151, 12157) that the average rate of insured unemployment in the State for the period consisting of the week ending on September 17, 1977, and the immediately preceding twelve weeks, was less than 5.0 percent.

Therefore, I have determined in accordance with the Act and 20 CFR 618.19(b), and as authorized by the Secretary of Labor's Order 4-75, dated April 16, 1975 (published in the FEDERAL REGISTER on April 28, 1975, at 40 FR 18515), that there was a Federal Supplemental Benefit "off" indicator in the State of California for the week ending September 17, 1977, and that the Federal Supplemental Benefit Period in that State terminates on October 8, 1977.

INFORMATION FOR CLAIMANTS

Any individual to whom Federal Supplemental Benefits or Federal-State Extended Benefits were payable in the State (whether or not any payment actually was made), for any portion of the last week of the Federal Supplemental Benefit Period, will have an additional eligibility period beginning immediately following the end of the Federal Supplemental Benefit Period. During the additional eligibility period the individual will be entitled to Federal Supplemental Benefits to the same extent as if the Federal Supplemental Benefit Period continued to be in effect. The additional eligibility period will have a duration of 13 weeks, unless it is terminated sooner by reason of the beginning of a new Federal Supplemental Benefit Period in the State.

Individuals currently filing claims for Federal Supplemental Benefits will receive written notices from the California Employment Development Department of the end of the Federal Supplemental Benefit Period in that State and its effect on their entitlement to Federal Supplemental Benefits. The notice to any individual who will have an additional eligibility period following the Federal Supplemental Benefit Period will include information concerning potential entitlement to Federal Supplemental Benefits during the additional eligibility period.

Persons who wish information about their rights to Federal Supplemental Benefits in the State of California should contact the nearest Human Relations Agency of the California Employment Development Department in their locality.

Signed at Washington, D.C., on October 3, 1977.

ERNEST G. GREEN,
Assistant Secretary for
Employment and Training.

[TA-W-2224]

EDGCOMB STEEL & ALUMINUM CORP. Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2224: Investigation regarding certi-

fication of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on July 25, 1977 in response to a worker petition received on July 22, 1977 which was filed by the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America and unorganized white collar employees on behalf of workers and former workers engaged in the distribution and processing of metals at Edgcomb Steel and Aluminum Corp., Hillside, N.J.

The notice of investigation was published in the FEDERAL REGISTER on August 9, 1977 (42 FR 40286). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Edgcomb Steel and Aluminum Corp. and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important, but not necessarily more important than any other cause.

If any of the above criteria is not satisfied, a negative determination must be made.

Edgcomb Steel and Aluminum Corp. is a distributor and processor of steel and aluminum. Edgcomb purchases coils from steel producers, slits or levels the steel to customer specification, and sells the processed steel to their customers. All employees were engaged in employment related to the processing (slitting and leveling), shipping and distribution of steel and aluminum, and performed no production functions.

Edgcomb Steel and Aluminum Corp. does not produce an article within the meaning of Section 222(3) of the Act and this Department has already determined that the performance of services are not covered by the adjustment assistance program. See Notice of Determination in *Pan American World Airways, Incorporated* (TA-W-153, 40 FR 54639). Edgcomb Steel and Aluminum performed a service, the processing, shipping, and distribution of steel and aluminum.

CONCLUSION

After careful review of the issues, I have determined that services of the kind provided by Edgcomb Steel and Aluminum Corp., Hillside, N.J. are not "articles" within the meaning of Section 222 (3) of the Trade Act of 1974. The petition for trade adjustment assistance is, therefore, denied.

Signed at Washington, D.C. this 12th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1915]

SHAEFFER TAILORING CO., INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1915: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 28, 1977, in response to a worker petition received on March 24, 1977, which was filed by the Amalgamated Clothing and Textile Workers Union on behalf of workers and former workers producing men's suits and sportcoats at Shaeffer Tailoring Co., Inc., Cincinnati, Ohio.

The Notice of investigation was published in the FEDERAL REGISTER on April 12, 1977 (42 FR 19178). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Shaeffer Tailoring Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed im-

portantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

Shaeffer Tailoring Co., Inc., was founded as a family operation in 1925. The company became incorporated in 1954. Shaeffer Tailoring produced men's suits and sportcoats. The company closed in December 1976.

Production and sales by Shaeffer Tailoring Co., Inc., increased 27 percent and 1 percent, respectively, in 1976 from 1975. Compared to the same quarter of the previous year, production increased 30 percent during the second quarter of 1976, 46 percent during the third quarter of 1976, and 50 percent during the fourth quarter of 1976.

Employment of all workers at Shaeffer Tailoring Co. increased 10 percent in 1976 from 1975. Compared to the same quarter of the previous year, employment increased 13 percent during the second quarter of 1976, 20 percent during the third quarter of 1976, and 22 percent during the fourth quarter of 1976. No layoffs occurred at Shaeffer Tailoring in 1976 prior to the closing of the company in December 1976.

Shaeffer Tailoring Co. shifted production from a moderately-priced line of suits and sportcoats in 1975 to a lower-priced line in 1976. The majority of Shaeffer's customers in 1975 consisted of small independent tailoring shops and stores. During 1976 the majority of Shaeffer's sales went to one large retail department store.

Customers surveyed who decreased purchases from Shaeffer Tailoring in 1976 from 1975 did not purchase imported men's suits and sportcoats during the same period. Purchases by the major retail store accounted for more than 70 percent of total sales by Shaeffer Tailoring in 1976. This major customer increased purchases from Shaeffer Tailoring in 1976 from 1975.

The quantity of production at Shaeffer Tailoring increased more than the value of sales in 1976 due to the reduced number of steps involved in the production of the lower-priced suits and sportcoats. After approximately one year of production in this new product line, officials at Shaeffer Tailoring Co. determined that they would not be able to profitably manufacture a lower-priced product without a proportionate decrease in unit labor cost. Shaeffer Tailoring Co. closed in December 1976 after company and union officials failed to reach agreement concerning employee wage rates. The large retail department store for whom Shaeffer was producing the lower-priced product shifted its purchases to another domestic producer—not to imports.

CONCLUSION

It is therefore concluded that imports of articles like or directly competitive with men's suits and sportcoats produced at Shaeffer Tailoring Co., Inc., Cincinnati,

nati. Ohio, did not contribute importantly to the closing of the firm.
Signed at Washington, D.C., this 28th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration and Planning.

Office of the Secretary

STATE OF NEW HAMPSHIRE DEPARTMENT OF EMPLOYMENT SECURITY

Hearing

This notice announces an opportunity for hearing for the Department of Employment Security of the State of New Hampshire on the question of whether the State of New Hampshire has fulfilled its commitments under an agreement with the Secretary of Labor as described in section 239 of the Trade Act of 1974. On the basis of the proceedings in this matter, it will be decided whether there shall be a reduction of 15 percent in the tax credits allowable to New Hampshire employers pursuant to section 3302 of the Internal Revenue Code of 1954 for taxable year 1977.

Now, therefore, pursuant to section 3302(c)(3) of the Internal Revenue Code of 1954, and section 91.63(c) of Title 29, Code of Federal Regulations, notice is hereby given that a hearing will be held beginning at 10 o'clock in the morning on October 13, 1977, in Courtroom 13, Third Floor, United States Courthouse and Post Office Building, Post Office Square, Boston, Mass. 02109, on the question stated above.

RULES OF PROCEDURE

The proceedings on the question stated above will be conducted in accordance with the following rules:

- (1) An Administrative Law Judge will be designated by the Chief Administrative Law Judge, U.S. Department of Labor, to preside over the hearing and perform the functions required by these rules.
- (2) The parties of record shall be the New Hampshire Department of Employment Security, and the U.S. Department of Labor.
- (3) Any State employment security agency, individual worker, or employer, or any organization or association of workers, employers, or the public, having an interest in these proceedings, may be permitted by the presiding Administrative Law Judge to participate in these proceedings. Participation by any such interested person shall be limited to the presentation of oral argument as provided in paragraph (10) below and to the submission of a brief as provided in paragraph (11) below. Any State employment security agency, person, organization, or association described above, may apply for permission to participate in these proceedings as an interested person, by filing in the office of the Chief Administrative Law Judge, U.S. Department of Labor, Room 720, Vanguard Building, 1111 20th Street NW., Washington, D.C. 20036, prior to the date of the hearing, a written or telegraphic request setting forth the applicant's name and address and the name and address of any person or group who will represent the applicant. The presiding Administrative Law Judge shall

rule on all applications and inform the applicants and the parties of his rulings.

(4) The hearing will be conducted in an informal but orderly and expeditious manner. The presiding Administrative Law Judge will regulate all matters pertaining to the course and conduct of the proceedings.

(5) The representative of the U.S. Department of Labor will make an opening statement as to the nature of the hearing and the matters in issue. The representative of the New Hampshire Department of Employment Security then will be offered an opportunity to make an opening statement.

(6) The parties of record shall have the opportunity to present oral and documentary evidence, and cross-examine witnesses, with the U.S. Department of Labor proceeding first. Technical rules of evidence shall not apply. The presiding Administrative Law Judge will rule upon offers of proof and the admissibility of evidence, and receive all relevant evidence. He may exclude irrelevant, immaterial, or unduly repetitious evidence, and may examine witnesses. All written statements, charts, tabulations, and similar data offered in evidence at the hearing shall, upon a showing satisfactory to the presiding Administrative Law Judge of their authenticity, relevancy, and materiality, be received in evidence.

(7) During the hearing the presiding Administrative Law Judge may require the production and introduction of further evidence upon any matter. After the hearing is closed, no further evidence shall be taken except at the direction of the Secretary of Labor, unless provision has been made at the hearing for the later receipt of such evidence for the record.

(8) The proceedings at the hearing shall be recorded verbatim. Copies of the transcript of the record of hearing may be obtained by the parties of record and any interested person permitted to participate in the proceedings at cost.

(9) When any document is received in evidence, one additional copy thereof shall be submitted to the presiding Administrative Law Judge.

(10) At the conclusion of the receipt of evidence, the presiding Administrative Law Judge shall hear oral argument presented by the parties of record and interested persons permitted to participate in the proceedings. Oral arguments shall be in the following order: Opening argument for the U.S. Department of Labor, unless waived; opening argument for the New Hampshire Department of Employment Security, unless waived; argument of each of the interested persons who wishes to present oral argument, in such order as the presiding Administrative Law Judge shall determine; closing argument for the New Hampshire Department of Employment Security, unless waived; and closing argument for the U.S. Department of Labor, unless waived. Oral argument by an interested person shall not be longer than 15 minutes. All oral arguments shall be transcribed and made a part of the record.

(11) The parties of record and any interested person permitted to participate in these proceedings shall be permitted to file a brief on the matters in issue. Briefs shall be filed with the presiding Administrative Law Judge (at the address stated in paragraph (3) above) not later than 5 days after the date of the hearing. Parties of record shall submit one copy with the original of any brief filed, and proof of service, and shall serve a copy on the other party of record. Interested persons shall submit one copy with the original of any brief filed, and proof of service, and shall serve a copy on each of the parties of record.

(12) Within seven days after the time has expired for the filing of briefs, the presiding

Administrative Law Judge shall prepare a proposed recommended decision. Copies of the proposed recommended decision shall be mailed to the parties of record who may within 14 days after such decision was mailed to them, file with the presiding Administrative Law Judge, in an original and one copy, a statement in writing setting forth any exceptions they may have to the proposed recommended decision, and proof of service. A copy of any statement filed by a party of record shall be served on the other party of record.

(13) The presiding Administrative Law Judge, with due consideration of the exceptions filed by the parties of record in accordance with paragraph (12) above, shall prepare a recommended decision within five days after the time has expired for filing exceptions. He shall promptly certify to the Secretary of Labor his recommended decision and the entire record of the proceedings, and forward a copy of his certification and recommended decision to each party of record.

(14) Following the certification to him in accordance with paragraph (13) above, the Secretary of Labor shall render his decision in the matter, in writing, and shall cause the parties of record and the interested parties permitted to participate in the proceedings to be notified thereof.

(15) Briefs and other papers filed with the presiding Administrative Law Judge under these rules shall be deemed to be filed on the date they are received in the office of the presiding Administrative Law Judge. If the last day of a time limit for filing briefs or other papers falls on a Saturday, Sunday, or a Federal legal holiday, the time limit shall be extended to the next official business day. Briefs and other papers filed with the presiding Administrative Law Judge shall be accepted subject to timely filing and sufficient proof of service upon the parties as required by these rules.

Signed at Washington, D.C., on October 5, 1977.

RAY MARSHALL,
Secretary of Labor.

NATIONAL SCIENCE FOUNDATION
ADVISORY COMMITTEE FOR CHEMISTRY
Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Chemistry.

Date and time: October 27 and 28, 1977, 9 a.m. to 5 p.m. each day.

Place: Room 543, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of meeting: Part open.

Contact person: Dr. Richard S. Nicholson, Division Director for Chemistry, Room 340, National Science Foundation, Washington, D.C., telephone 202-632-4262.

Purpose of committee: To provide advice and recommendations concerning support for research in chemistry.

Agenda: October 27, 1977, 9 a.m. to 5 p.m.—Closed. Review of grant and decli-

nation proposal jackets involving requests for support for major items of instrumentation.

October 28, 1977, 9 a.m. to 5 p.m.—Open. Discussion of topics of concern to the Division of Chemistry and Advisory Committee including the status of the National Resource for Computation in Chemistry (NRCC), grant longevity, support for instrumentation, the new Directorate for Science and Engineering Applications, and the Division's budget for fiscal year 1978.

Reason for closing: The Committee will be reviewing grants and declination jackets which contain the names of applicant institutions and principal investigators and privileged information contained in declined proposals. This session will also include a review of the peer review documentation pertaining to applicants. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Authority to close meeting: This determination was made by the Acting Director, NSF, on October 3, 1977, pursuant to provisions of section 10(d) of Pub. L. 92-463.

M. REBECCA WINKLER,
Acting Committee
Management Officer.

[FR Doc 77-29568 Filed 10-6-77; 8:45 am]

[7555-01]

ADVISORY COMMITTEE FOR RESEARCH
APPLICATIONS POLICY
Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Research Applications Policy.

Date: October 26 and 27, 1977.
Place: Metropolitan Hotel, 1143 New Hampshire Avenue NW., Washington, D.C.

Type of meeting: Part open: Open sessions—October 26, 9 a.m. to 4 p.m.; October 27, 9 a.m. to 4 p.m. Closed session—October 26, 4 p.m. to 5 p.m.

Contact person: Ms. Darleen F. Morano, Executive Secretary, Advisory Committee for Research Applications Policy, Room 537, National Science Foundation, Washington, D.C. 20550, telephone 202-632-7424.

Summary minutes: May be obtained from the Committee Management Coordinator, Division of Personnel and Management, Room 248, National Science Foundation, Washington, D.C. 20550.

Purpose of committee: To provide recommendations concerning the reorganization of the NSF Research Applications Directorate.

Agenda: October 26, 1977, 9 a.m. to 4 p.m.—Open session. 9—Introductory remarks. 9:30—Presentation, discussion of draft on the final report from the Science Applications Task Force (SATF). 12—Recess. 1—NSF Director's recommendation to the NSB on the findings of the SATF.

October 26, 1977, 4 p.m. to 5 p.m.—Closed session. 4—Fiscal year 1979 budget plans. 5—Adjourn.

October 27, 1977, 9 a.m. to 4 p.m.—Open session. 9—Proposed organizational rationale and objectives. 9:30—Discussion of problem focused research applications. 10:30—Discussion of applied research. 11:30—Discussion of problem oriented basic research. 12:30—Recess. 1:30—Discussion of problem definitions. 4—Adjourn.

Reason for closing: The fiscal year 1979 budget plans for the proposed Science and Engineering Applications Directorate will be presented to the Advisory Committee. The premature disclosure of the figures contained in the budget presentation could significantly frustrate the confidential submission of the fiscal year 1979 budget to the President for its transmission to Congress.

Authority to close meeting: The Director, NSF, made a written determination, in accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended, that this portion of the meeting was within exemption 9(b) of the Government in the Sunshine Act, 5 U.S.C. 552b(c).

M. REBECCA WINKLER,
Acting Committee
Management Officer.

OCTOBER 4, 1977.

[7555-01]

SUBCOMMITTEE ON GEOGRAPHY AND
REGIONAL SCIENCE OF THE ADVISORY
COMMITTEE FOR SOCIAL SCIENCES
Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation announces the following meeting:

Name: Subcommittee on Geography and Regional Science of the Advisory Committee for Social Sciences.

Date and time: October 27 and 28, 1977, 9 a.m. to 5 p.m. each day.
Place: Room 536, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of meeting: Part open.
Contact person: Ms. Patricia McWethy, Associate Program Director, Geography and Regional Science Program, Room 312, National Science Foundation, Washington, D.C. 20550, telephone 202-634-6683.

Purpose of subcommittee: To provide advice and recommendations concerning support for research in geography and regional science.

Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.
October 28, 1977, 9 a.m. to 12 noon—Open portion. To discuss current and new areas of geographic and regional science research and to discuss funding needs for both research programs.

Reason for closing: The proposals being reviewed include information of a

proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,
Acting Committee
Management Officer.

SUBCOMMITTEE TO REVIEW THE
THEORETICAL PHYSICS PROGRAM

Meeting

In accordance with Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Physics Subcommittee to Review the Theoretical Physics Program.

Date and time: October 26 and 27, 1977, 9 a.m. to 5 p.m. each day.

Place: Room 340, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of meeting: Closed.

Contact person: Dr. Marcel Bardon, Acting Division Director for Physics, Room 341, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4310.

Purpose of subcommittee: To provide program oversight concerning NSF support for research in theoretical physics.

Agenda: To review NSF theoretical physics program documentation as part of the program oversight function.

Reason for closing: The meeting will deal with a review of grants and declarations in which the team will review materials containing the names of applicant institutions and principal investigators and privileged information from the files pertaining to the proposals. The meeting will also include a review of the peer review documentations pertaining to applicants. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Authority to close meeting: This determination was made by the Acting Director, NSF, on October 3, 1977, pursuant to provisions of section 10(d) of Pub. L. 92-463.

M. REBECCA WINKLER,
Acting Committee
Management Officer.

SECURITIES AND EXCHANGE
COMMISSION

NATIONAL MARKET ADVISORY BOARD

Meeting

This is to give notice, pursuant to Section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. 1 10(a), that the National Market Advisory Board will conduct open meetings on October 17 and 18, November 14 and 15, and December 12 and 13, 1977, in Room 776, 500 North Capitol Street, Washington, D.C. Initial notice of the October meeting was published in the FEDERAL REGISTER on September 1, 1977.

The summarized agenda for the November and December meetings will be published in the FEDERAL REGISTER at a later date. The summarized agenda for the October meeting is as follows:

1. Discussion of one or more Board letters to the Commission regarding:
 - a. Trading rules to be considered in connection with the proposed removal of off-board trading restrictions.
 - b. Initial principal facilities of a national market system.
 - c. Governance or administration of a national market system.
2. Discussion of such other matters as may be properly brought before the Board.

Further information may be obtained by writing Martin L. Budd, Executive Director, National Market Advisory Board Staff, Securities and Exchange Commission, Washington, D.C. 20549.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9951 (812-3839)]

AETNA VARIABLE ANNUITY LIFE INSURANCE CO. AND VARIABLE ANNUITY ACCOUNT C OF AETNA VARIABLE ANNUITY LIFE INSURANCE CO.

Notice of Application

Notice is hereby given that Aetna Variable Annuity Life Insurance Co. ("AVAR"), a Connecticut stock life insurance company, and Aetna Variable Annuity Life Insurance Co., 151 Farmington Avenue, Hartford, CT 06156 Separate Account C ("Account C"), a separate account of AVAR registered under the Investment Company Act of 1940 ("Act") as a unit investment trust (hereinafter collectively referred to as "Applicants"), filed an application on July 14, 1975, and amendments thereto on February 1, 1977, and August 30, 1977, pursuant to Section 6(c) of the Act for an order exempting Applicants from the provisions of Sections 22(e), 27(c)(1) and 27(d) of the Act to the extent necessary to permit compliance by Applicants with certain provisions of the Education Code of the State of Texas. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Account C is a separate account established by AVAR, a registered broker-dealer under the Securities Exchange Act of 1934 and a wholly-owned subsidiary of Aetna Life and Casualty Co. All amounts allocated to Account C are invested in shares of Aetna Variable Fund, Inc. ("Fund") or Aetna Variable Encore Fund, Inc. ("Encore Fund"), both open-end management investment companies registered under the Act. AVAR acts as investment adviser to both the Fund and Encore Fund. Also, AVAR is the depositor of Account C. Among the variable annuity contracts offered by AVAR are Retirement Planning Variable Annuity Contracts (the "Contracts"). The Contracts participate in Account C and are designed to fund the benefits provided by annuity purchase plans adopted by public school systems and

certain tax-exempt organizations for their employees and qualifying for tax-deferred treatment under Section 403(b) of the Internal Revenue Code of 1954, as amended.

In 1967, the State of Texas directed the governing boards of all Texas institutions of higher education to make available to certain employees an Optional Retirement Program ("Program"), codified as Subchapter G of Chapter 51 of the Texas Education Code. The statute provides as the funding media for the Program fixed or variable annuity contracts purchased from any insurance or annuity company qualified to do business in Texas. In 1973, the Texas legislature made two amendments in the Program legislation, which amendments became effective on June 14, 1973. The statutory definition of the Program was amended to provide that the benefits of such annuities are to be available only upon termination of employment in the Texas public institutions of higher education, retirement, death or total disability of the participant. The other amendment added a new Section 51.358 to Subchapter G which also provides that the benefits of such annuities will be available only if the participant dies, terminates his employment due to total disability, accepts retirement, or terminates employment in the Texas public institutions of higher education.

Because of uncertainty regarding the effect of these amendments, the University of Texas System ("System") requested the opinion of the Attorney General of Texas with respect to several questions concerning such amendments. The Attorney General rendered an opinion dated February 18, 1975, in response to the System's letter. The Attorney General interpreted Section 51.358 to prohibit provisions in a variable annuity contract issued in connection with the Program on or after June 14, 1973, which provide for making available the redemption value of such contract prior to the occurrence of one of the conditions specified in the statute, i.e., termination of employment, retirement, death or total disability. Moreover, the opinion further stated that the prohibitions of Section 51.358 were impliedly in effect upon the establishment of the Program (in 1967) and that notwithstanding any language which may be contained in existing contracts, a participant in the Program has never had the right to redeem his annuity contract otherwise than in accordance with the limitations described above. The opinion did not affect the right of a participant to transfer the redemption value of his annuity contract from one carrier to another; accordingly, the granting of the relief requested in the application would not affect such right.

SECTION 27(c)(1), 22(e) AND 27(d)

Section 27(c)(1) of the Act makes it unlawful for any registered investment company issuing periodic payment plan certificates, or for any depositor of or

underwriter for such company, to sell any such certificate unless such certificate is a redeemable security. Section 2(a)(32) of the Act defines "redeemable security" to mean any security under the terms of which the holder upon its presentation to the issuer or to a person designated by the issuer is entitled to receive approximately his proportionate share of the issuer's current net assets, or the cash equivalent thereof.

Section 22(e) of the Act provides that no registered investment company shall suspend the right of redemption or postpone the date of payment or satisfaction upon redemption of any redeemable security in accordance with its terms for more than seven days after the tender of such security to the company or its agent designated for that purpose for redemption except in certain prescribed circumstances.

Section 27(d) of the Act makes it unlawful for any registered investment company issuing periodic payment plan certificates, or for any depositor of or underwriter for such company, to sell any such certificate unless the certificate provides that the holder thereof may surrender the certificate at any time within the first eighteen months after the issuance of the certificate and receive in payment thereof, in cash, the sum of (1) the value of his account, and (2) an amount, from such underwriter or depositor, equal to that part of the excess paid for sales loading which is over 15 per centum of the gross payments made by the certificate holder.

Applicants request exemptions from the provisions of Sections 22(e), 27(c)(1) and 27(d) of the Act to the extent necessary to permit compliance with Section 51.358 as it pertains to (i) redemption values under Contracts issued to participants in the Program subsequent to the date of such exemptive order and (ii) redemption values under Contracts issued prior thereto but attributable to payments made subsequent to the date of such order.

Applicants assert that if such exemptions are not granted, persons participating in the Program effectively will be denied an opportunity to select as a funding medium for their retirement benefits one of two funding media (the other being fixed annuity contracts) specifically provided in the Texas statute for such purpose. Additionally, participants will be unable to obtain the State's matching contributions for the purchase of an equity-based retirement vehicle. In this respect, the Attorney General's opinion indicated that these matching contributions will encourage participation in the retirement plan but that unrestricted withdrawals prior to retirement might be detrimental to an effective retirement vehicle. In view of the foregoing, Applicants assert that the Commission should grant the requested exemptions because: (1) the limited restriction on redemption would be voluntarily assumed by participants, i.e.,

eligible employees are not required to participate in the Program; (2) the restrictions were not formulated nor suggested by Applicants; and (3) participants' relinquishment of the full right of redemption is a reasonable requirement in exchange for the benefits bestowed by the matching contributions of the State of Texas.

Applicants will ensure that appropriate disclosure is made to persons who consider participation in the Program, informing them of the restriction on the availability of redemption values under Contracts to be issued to them. This disclosure will take the form of an appropriate reference in each Prospectus to the restrictions on redemption of those Contracts, as well as requiring each participant, as a part of the determination that the sale of these Contracts is suitable for that participant, to sign a statement indicating that he/she is aware that these restrictions will be placed on his/her Contract when it is issued. In addition, Applicants will review all sales literature that is to be used in conjunction with the sales of these contracts for the existence of material representations that are inconsistent with the restrictions to be placed on these contracts and will instruct the salespeople involved in soliciting in this market specifically to bring this restriction to the attention of the potential participants.

Section 6(c) authorizes the Commission to exempt any person, security or transaction or any class or classes of persons, securities or transactions, from the provisions of the Act and Rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than October 25, 1977, at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following October 25, 1977, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing

(if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority:

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9949 (812-478)]

BANKERS SECURITY LIFE INSURANCE
SOCIETY ET AL.

Notice of Filing of Application

SEPTEMBER 28, 1977.

Notice is hereby given that Bankers Security Life Insurance Society ("Bankers Security"), a New York stock life insurance company and Bankers Security Variable Annuity Fund A ("Separate Account A"), Bankers Security Variable Annuity Fund B ("Separate Account B"), Bankers Security Variable Annuity Fund C ("Separate Account C"), Bankers Security Variable Annuity Fund D ("Separate Account D"), Bankers Security Variable Annuity Fund E ("Separate Account E"), Bankers Security Variable Annuity Fund F ("Separate Account F"), and Bankers Security Variable Annuity Fund G ("Separate Account G"), unit investment trusts registered under the Investment Company Act of 1940 ("Act"), Oppenheimer Fund, Inc., Oppenheimer A.I.M. Fund, Inc., Oppenheimer Time Fund, Inc., Oppenheimer Income Fund of Boston, Inc., Oppenheimer Special Fund, Inc., Oppenheimer Monetary Bridge, Inc., Oppenheimer Option Income Fund, Inc. ("Option Fund") and Oppenheimer Tax-Free Bond Fund, Inc. (hereinafter sometimes referred to as the "Funds"), diversified open-end investment companies registered under the Act, and Oppenheimer Systematic Capital Accumulation Program ("OSCAP"), Oppenheimer Time Fund Systematic Capital Accumulation Program ("TIMECAP"), and Oppenheimer A.I.M. Fund Systematic Capital Accumulation Program ("AIMCAP"), unit investment trusts registered under the Act (hereinafter collectively referred to as "Applicants"), filed an application on August 22, 1977, and Amendment No. 1 thereto on September 28, 1977, pursuant to section 11 of the Act for an amended order approving certain offers of exchange, and pursuant to section 6(c) of the Act for an amended order of exemption from section 27(a)(3) and Rule 27a-2 thereunder, sections 27(d), 27(e), 27(f), and Rules 27e-1 and 27f-1 thereunder, section 26(a) and section 27(c)(2). All interested persons are referred to the Application on file with the Commission for a statement of the representations therein which are summarized below.

Previously, by application dated October 3, 1975, and amendments thereto, the Applicants, with the exception of the recently formed Separate Account G, the Oppenheimer Option Income Fund, Inc.,

and the Oppenheimer Tax-Free Bond Fund, Inc., applied for an order approving the certain offers of exchange described in the application and for exemptions from the above-named sections and rules.

On February 17, 1976, a notice was issued of the filing of said application Investment Company Act Release No. 9160 and an order was issued on March 19, 1976, granting the relief requested in the application Investment Company Act Release No. 9212.

The purpose of this application is to amend the aforementioned Order solely to add Separate Account G, the Oppenheimer Option Income Fund, Inc., and the Oppenheimer Tax-Free Bond Fund, Inc., as participants in the offers of exchange in order that these new Applicants may receive the benefits of exemptions previously granted to the other described applicants. There is no additional relief requested.

Separate Account G was established by Bankers Security Life Insurance Society on July 7, 1977, and is included in the unit investment trust which now consists of Separate Accounts D, E, and F. The assets of Separate Account G are to be invested at net asset value in shares of the Oppenheimer Option Income Fund, Inc.

Shareholders purchasing shares of the Option Fund in its initial offering may, at any time after the shares have been registered in the investor's name, exchange their Option Fund shares for shares in any of the following Oppenheimer Funds: Oppenheimer Fund, Inc., Oppenheimer A.I.M. Fund, Inc., Oppenheimer Time Fund, Inc., Oppenheimer Income Fund of Boston, Inc., Oppenheimer Special Fund, Inc., Oppenheimer Monetary Bridge, Inc., and Oppenheimer Tax-Free Bond Fund, Inc.

The exchanges are on the basis of relative net asset value per share at the time of the exchange without sales charge. A fee of \$5 is charged for handling each exchange. Six months after the commencement of the continuous offering of the Option Fund shares, shares of each of the other Oppenheimer funds other than Oppenheimer Monetary Bridge, Inc., and Oppenheimer Tax-Free Bond Fund, Inc., may be exchanged for shares of the Option Fund on the same terms as set forth above for the exchange of shares of Option Fund for the shares of the other Oppenheimer Funds. Shares of Oppenheimer Monetary Bridge, Inc., or Oppenheimer Tax-Free Bond Fund, Inc., acquired in exchange for shares of the Option Fund or one of the other Oppenheimer Funds or acquired through the reinvestment of dividends or distributions may also be exchanged at net asset value for shares of the Option Fund on the same basis as set forth above.

SECTION 11

Section 11(a) makes it unlawful for any registered open-end investment company or principal underwriter therefor to make an offer to the holder of a secu-

rity of such company or of any other open-end investment company to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged unless the terms of the offer have first been submitted to and approved by the Commission. Section 11(c) of the Act provides that, irrespective of the basis of exchange, the provisions of section 11(a) shall be applicable to any type of offer of exchange of the securities of registered unit investment trusts for the securities of any other investment company.

Applicants propose to amend the Order set forth in Investment Company Act Release No. 9212 by offering certain additional exchange privileges as follows:

First exchange right. Bankers Security and Separate Account G propose to offer participations in Separate Account G through non-qualified, immediate or deferred individual single payment variable annuity contracts to: (i) all shareholders of Oppenheimer Option Income Fund, Inc., Oppenheimer Fund, Inc., Oppenheimer A.I.M. Fund, Inc., Oppenheimer Time Fund, Inc., and Oppenheimer Income Fund of Boston, Inc. (hereinafter collectively referred to as the "Funds") and individually as a "Fund"; and (ii) planholders of OSCAP, TIMECAP, and AIMCAP, registered unit investment trusts (collectively referred to as "Oppenheimer Unit Trusts") in exchange for shares of the Funds held directly, and indirectly in the case of the Oppenheimer Unit Trusts. Such exchange would take place on the following basis:

Regarding a shareholder of a Fund, the exchange would be initiated by written request of a shareholder and delivery of any issued share certificates to the Transfer Agent. In the order, there was a requirement that a shareholder hold his shares for a period of at least 90 days prior to exchange. The Applicants seek to amend the Order by deleting the 90 day holding period because administratively the Applicants no longer deem such a holding period to be necessary.

The exchange would be accomplished by the redemption of the Fund shares at net asset value next determined after receipt of the request for exchange and the reinvestment of the proceeds without a sales charge in accumulation units of Separate Account G at a value next determined after receipt of the assets for purchase of an individual variable annuity contract. If a deferred variable annuity is purchased, a deduction of 0.25 percent would be made as a premium for the minimum death benefit. Except for this minimum death benefit premium, no fee is charged for this exchange. Any prior charge which was specified in the original application has been waived on all exchanges.

Any holder of (A) a single payment plan issued by any of the Oppenheimer Unit Trusts, or (B) a systematic plan of TIMECAP, or (C) a systematic plan

issued by any of the other Oppenheimer Unit Trusts who had held his plan for at least 18 months, may exchange his plan for an individual variable annuity certificate. The exchange would be initiated by the written request of the plan holder and delivery of the plan certificate to the agent of the custodian of the plan. The exchange would be accomplished by terminating the plan, redeeming the Fund shares held under that plan at the net asset value next determined after receipt of the request for exchange and reinvesting the proceeds without a sales charge in accumulation units of Separate Account G at their value next determined after such receipt. For a deferred variable annuity, there would be a deduction of 0.25 percent of such proceeds as a premium for the minimum death benefit. For the reason noted above, the reference to the 90 day holding period for (A) and (B) are deleted. The \$5 exchange fee previously imposed has also been waived for all future exchanges.

Applicants assert that the purpose of the First Exchange Right is to permit a shareholder or planholder who desires to carry on his investment in an investment medium managed by Oppenheimer pursuant to a variable annuity contract rather than directly or through his Plan to do so without paying a sales charge.

Applicants contend that no charges should be imposed on an exchange of securities issued by the Funds or an Oppenheimer Unit Trust for variable annuity contracts issued by Separate Account G because, except on the sale of securities issued by the Oppenheimer Monetary Bridge Fund and the Oppenheimer Tax-Free Bond Fund, sales charges have already been assessed. In addition, shareholders and certificateholders of the Funds and the Oppenheimer Unit Trusts already are familiar with the managers of the investment company which serves as the underlying investment medium of Separate Account G. As a result, any selling effort in connection with the transfer will be reduced.

Second exchange right. Applicants propose to permit, without imposition of a sales load, exchange of deferred variable annuity contracts issued by Separate Accounts D, E, F, and G and sold by Bankers Security, on the basis of the accumulated values thereof, for other deferred variable annuity contracts sold by Bankers Security of the same type and class.

Non-tax-qualified contracts will be issued by Separate Accounts D, E, F, and G. Thus, a contract owner holding a contract under Separate Account D would have the option of exchanging his contract, without additional sales load, for a contract issued by Separate Accounts E, F, or G on the basis of the net asset values of each Separate Account. Because Separate Accounts A, B, and C are tax-qualified accounts, transfers from one of these accounts can only be made to another of these tax-qualified Separate Accounts. Similarly, because Separate Accounts D, E, F, and G are

non-tax-qualified, transfers from one of these accounts can only be made to another of these non-tax-qualified Separate Accounts.

With respect to the Second Exchange Right, Applicants contend that such exchange right is consistent with the protection of variable annuity contract owners or participants and the purposes clearly intended by the policy and provisions of the Act. The only purpose of exercising this exchange provision is to provide such contract owners and participants the right to obtain a contract which invests in shares of an investment company which operates under investment objectives more closely aligned with such contract owner's or participant's financial needs. This provides such contract owner or participant with greater flexibility in planning for his financial future.

SECTION 27(a)(3) AND RULE 27a-2

Section 27(a)(3) of the Act provides that no registered investment company issuing periodic payment plan certificates and no depositor of or underwriter for such company may sell any such certificate if the amount of sales load deducted from any one of the first twelve monthly payments exceeds proportionately the amount deducted from any other such payment, or if the amount deducted from any subsequent payment exceeds proportionately the amount deducted from any other subsequent payment. Rule 27a-2 under the Act exempts a registered separate account, and any depositor of or underwriter for such account, from section 27(a)(3) if the proportionate amount of sales load deducted from any payment during the contract period does not exceed the proportionate amount deducted from any prior payment during the contract period.

Applicants state that where a no-load transfer from one Separate Account to another Separate Account takes effect, there will be a subsequent continuation of periodic payments subject to the sales load deductions. Accordingly, Applicants request an exemption from section 27(a)(3) and Rule 27a-2 thereunder to the extent necessary to permit such practice.

Applicants state that deductions will have already been made against past purchase payments and that the transfer from one Separate Account to another will be based on net accumulated values thereof, after these deductions were made. Applying net accumulated values from one Separate Account to another will not involve additional sales activities as to require imposition of an additional sales charge an allowing no-load transfers in the manner proposed will avoid an unnecessary imposition of charges. Applicants further state that granting the requested exemption will not conflict with the purpose of section 27(a)(3) which was to curb abuses associated with front-end load arrangements on mutual fund contractual plans by, in part, lessening the possible loss which could be incurred upon early termination

of such a plan. Since the deductions for sales expenses under the Contracts do not involve the kind of front-end load arrangement at which section 27(a)(3) is directed, Applicants submit that the deductions cannot lead to the abuses intended to be curbed by section 27(a)(3). Applicants state further that the circumstances in which charges for sales and administrative expenses are applicable will be fully disclosed so that it is unlikely that any person will be misled or confused.

SECTION 27(d), 27(e), 27(f), AND 27e-1 AND 27f-1

Under sections 27(d), 27(e), and 27(f) of the Act, as here relevant, the holder of certain periodic payment certificates is given, respectively: (1) the right to surrender the certificate at any time within the first 18 months after its issuance and to receive, in cash, the value of his account and an amount equal to that part of the excess paid for sales loading which is over 15 percent of the gross payments made by the certificate holder; (2) the right to be informed in writing, in the event that he has missed a certain number of payments, required to be made pursuant to the plan, that he may surrender his certificate and receive the aforementioned payments; and (3) the right, within forty-five days after the mailing of notice of the charges to be deducted from the projected payments on the certificate and his right of withdrawal, to exercise such right of withdrawal by surrendering his certificate and receive the value of his account and the difference between the gross payments made and the net amount invested.

Applicants represent that under the terms of the First Exchange Right, exchanges would not be permitted until after the expiration of the time in which a Planholder could withdraw and receive a refund under his old plan. Applicants contend that while an exchange would, in form, involve the issuance of a new plan, in substance the exchange would result in a continuation of the original plan with a new underlying investment medium. Applicants submit that the protection of investors and the purposes of section 27 do not require that an exchanging planholder, who no longer has any refund or withdrawal rights under his old plan, have such rights with respect to his new plan.

Applicants further request that exemptions be granted from the provisions of Rules 27e-1 and 27f-1. Rule 27e-1 sets forth requirements for notices to be mailed to certain purchasers of periodic payment plan certificates sold subject to section 27(d) and Rule 27f-1 sets forth requirements for the notice of the right of withdrawal required to be mailed to periodic payment plan certificate holders and exempts from section 27(f) certain periodic payment plan certificates. If exemptions from the provisions of sections 27(d), 27(e), and 27(f) are granted, Applicants assert that exemptions from the

provisions of Rules 27e-1 and 27f-1 would be appropriate since these Rules are designed only to implement provisions of these sections.

SECTIONS 26(a) AND 27(c)(2)

Sections 26(a) and 27(c)(2), as here pertinent, provide in substance that a registered unit investment trust and any depositor of and underwriter for such trust are prohibited from selling periodic payment plan certificates unless the proceeds of all payments, other than amounts deducted for sales load, are deposited with a qualified bank as trustee or custodian and held under an indenture or agreement containing specified provisions. Such agreement must provide, in part, that (i) the custodian bank shall have possession of all the property of the unit investment trust and shall segregate and hold the same in trust; (ii) the custodian bank shall not resign until either the unit investment trust has been liquidated or a successor custodian has been appointed; (iii) the custodian may collect fees from the income, and if necessary, from the corpus of the trust for services performed and for reimbursement of expenses incurred; and (iv) that no payment to the depositor or principal underwriter shall be allowed the custodian bank as an expense, except a fee, not exceeding such reasonable amount as the Commission may prescribe, as compensation for performing bookkeeping and other administrative services normally performed by the custodian.

Applicants have requested an exemption pursuant to section 6(c) of the Act from sections 26(a) and 27(c)(2) of the Act to allow Bankers Security to be the custodian of the assets for Separate Account G; such assets will be held in the safekeeping of the Bank of Commerce in New York. The portion of the purchase payments under the Contracts allocated to the Separate Account G will be invested in shares of the Option Fund which is available as the underlying investment medium for the Separate Account. These shares will be issued under an open account arrangement without the use of stock certificates. Their ownership will be shown on the books and records of the underlying Option Fund and Separate Account G.

Bankers Security is subject to extensive supervision and control by the New York Insurance Department. Such control and supervision, Applicants contend, provide assurance against misfeasance and afford the essential protection of trusteeship. Under New York law, Bankers Security may not abrogate its obligations under the Contracts.

Under the foregoing circumstances, the Applicants contend that the dangers against which sections 26(a) and 27(c)(2) are directed are not present in this situation and an exemption therefrom is requested.

Applicants consent to the exemptions requested herein from sections 26(a) and 27(c)(2) being made subject to the following conditions: (1) that the charges

File No. 81-287]

LAKELANDS RACING ASSOCIATION, INC.

Notice of an Order for Hearing on
Application for Exemption

August 25, 1977.

Notice is hereby given that Lakelands Racing Association, Inc. (the "Applicant") has filed an application pursuant to Section 12(h) of the Securities Exchange Act of 1934, as amended (the "Act"), for an order exempting the Applicant from the provisions of Section 12(g) of the Act.

Section 12(g) of the Act requires the registration of the securities of every issuer which is engaged in interstate commerce or in a business affecting interstate commerce, or whose securities are traded by use of the mails or any means or instrumentality of interstate commerce, and on the last day of the fiscal year has total assets exceeding \$1 million and a class of equity securities held of record by 500 or more persons. Registration is terminated 90 days after the issuer files a certification with the Commission that the number of holders of the registered class of securities is fewer than 300 persons.

Section 12(h) empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the registration, periodic reporting, proxy solicitation and other requirements of the Act, if the Commission finds by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer, or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The application states in part:

1. The Applicant is a Pennsylvania corporation with total assets as of October 31, 1976, its fiscal year end, of \$5,127,914. It has 524 shareholders of its Class A non-voting common stock and 25 shareholders of its Class B voting common stock. Of the Class B shareholders, 22 also hold Class A shares.

2. There has been no significant trading in the stock for the past several years.

3. Financial information is provided to shareholders and available from the State Horse Racing Commission.

4. The preparation and filing of a registration statement under Section 12(g) and compliance with the reporting and proxy solicitation requirements of the Act would significantly increase the expenses of the company.

It is ordered, Pursuant to Section 12(h) of the Securities Exchange Act of 1934, as amended, that a hearing on the application of Lakelands Racing Association, Inc. for an exemption from the provisions of Section 12(g) of that Act be held November 16, 1977, at 10 a.m., at the offices of the Securities and Ex-

change Commission, 1100 L Street NW., Room 2416, Washington, D.C. An Administrative Law Judge will be designated to preside at the hearing. Any person desiring to be heard is directed to file with the Secretary of the Commission his request as provided for by Rule 9(c) of the Commission's Rules of Practice, setting forth any issues of fact or law which he desires to controvert and/or setting forth any additional issues which he feels should be considered.

The Division of Corporation Finance advises that it has made a preliminary examination of the application and that, on the basis thereof, the following matters and questions are to be presented for consideration in this proceeding:

1. Whether the number of public investors and the amount of trading interest, actual or potential, in the Applicant's securities justify the requested exemption;

2. Whether information which is or may be available to investors concerning the Applicant is adequate to justify the requested exemption; and

3. Whether representations by the Applicant provide adequate investor protection to justify the requested exemption; and

4. Generally, whether the requested exemption is consistent with the public interest and with the protection of investors.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this Notice and Order by certified mail to Lakelands Racing Association, Inc., and its attorneys and that notice to all other persons be given by publication of this Notice and Order in the FEDERAL REGISTER, and that a general release of this Commission in respect to this Notice and Order be distributed to the press.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule changes are as follows:

The proposed rule changes are new Midwest Clearing Corp. ("MCC") and Midwest Securities Trust Co. ("MSTC") pricing schedules that eliminate inter-face charges and make other changes that are designed to reduce the costs of those firms who choose to settle their trades in MCC/MSTC. Other changes in the pricing schedules include the following:

(1) Reduction of the Third Party Depository Delivery Instruction ("DDI") from \$1.25 to \$0.70.

(2) Increase in the Interactivity charges from \$0.50 to \$0.70.

(3) Reduction in the charges to those firms (Correspondent Marketplace and RIO-in trades) who submit compared trades by tape from \$0.50 to \$0.35.

(4) An increase in the morning deposit charges to \$0.70 from \$0.60. There will be no increase in afternoon deposits.

(5) An increase in Depository Delivery Instructions from \$0.65 to \$0.70.

(6) An increase in the Street and Demand Withdrawals to \$2.50 and \$2, respectively.

(7) A reduction in the Correspondent Receipt and Payment Service in New York from \$10 to \$5.

(8) A new fee of \$5 for each Reorganization item handled by MSTC.

(9) An increase in the monthly basic account in the Midwest Clearing Corp.

from \$40 to \$100 with the elimination of out of town distribution charges for Midwest Clearing Corp. and Midwest Securities Trust Co. combined, from \$50 to zero dollars.

The proposed rule changes represent an equitable allocation of reasonable dues, fees, and other charges among participants in MCC/MSTC. The increase in street and demand withdrawals arose as a result of their very labor intensive nature. Also, the new \$5 reorganization fee reflects the labor intensive nature of this service.

The proposed rule changes were presented to the MST System Advisory Board at a meeting and the consensus of the Board was favorable to these changes.

The Midwest Clearing Corp. and the Midwest Securities Trust Co. believe that no burdens have been placed on competition.

The foregoing proposed rule changes have become effective, pursuant to Section 19(b)(3)(A) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule changes, the Commission may summarily abrogate such rule changes if it appears to the Commission that such action is necessary or appropriate in the public interest for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filings with respect to the foregoing and of all written submissions will be made available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filings will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organizations. All submissions should refer to the file numbers referenced above and should be submitted on or before October 28, 1977.

For the Commission by the Division of Market Regulations, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 27, 1977.

[Rel. No. 14009 (SR-MSE-77-20)]

MIDWEST STOCK EXCHANGE, INC.
Order Approving Proposed Rule Change

SEPTEMBER 30, 1977.

On June 27, 1977, the Midwest Stock Exchange, Inc., 120 South LaSalle Street, Chicago, Ill. 60603 ("MSE"), filed with the Commission, pursuant to section

19(b) of the Securities Exchange Act of 1934, and Rule 19b-4 thereunder, copies of a proposed rule change. The purpose of the proposed rule change is to prescribe the circumstances under which the registration of an odd-lot dealer may be suspended or terminated. On September 12, 1977, the MSE submitted an amendment to the proposed rule change to provide odd-lot dealers the opportunity to apply to the Commission for a stay of any summary suspension imposed pursuant to the proposed rule.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 13728 (July 8, 1977)) and by publication in the FEDERAL REGISTER (42 FR 36575 (July 15, 1977)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6 and the rules and regulations thereunder.

It is therefore ordered. Pursuant to section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on June 27, 1977, be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc 77 29524 Filed 10-6-77; 8:45 am]

[8010-01]

[Rel. No. 14008 (SR-MSE-77-16)]

MIDWEST STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

SEPTEMBER 30, 1977.

On May 23, 1977, the Midwest Stock Exchange, Inc. ("MSE"), 120 South LaSalle Street, Chicago, Ill. 60603, filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934, and Rule 19b-4 thereunder, copies of a proposed rule change. The purpose of the proposed rule change is to define the authority of the President of the Exchange and members of the Committee on Floor Procedure in matters concerning apparent violations of Exchange Rules or the Federal securities laws by specialists, co-specialists or relief specialists. On September 12, 1977, the MSE submitted an amendment to the proposed rule change to provide specialists, co-specialists and relief specialists the opportunity to apply to the Commission for a stay of any summary suspension imposed pursuant to the proposed rule.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 13576 (May 27, 1977)) and by publica-

tion in the FEDERAL REGISTER (42 FR 29133 (June 7, 1977)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6 and the rules and regulations thereunder.

It is therefore ordered. Pursuant to section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on May 23, 1977, be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc 77 29523 Filed 10-6-77; 8:45 am]

[8010-01]

[Rel. No. 14007 (SR-MSE-77-23)]

MIDWEST STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

SEPTEMBER 30, 1977.

On July 11, 1977, the Midwest Stock Exchange, Inc. ("MSE"), 120 South LaSalle Street, Chicago, Ill. 60603, filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act"), and Rule 19b-4 thereunder, copies of a proposed rule change. The proposed rule change provides procedures relating to the suspension or termination of the registration of "special registrants" for unsatisfactory performance of their responsibilities as defined in the Federal securities laws and the rules and policies of the MSE.

Notice of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 13755 (July 15, 1977)) and by a statement of the terms of substance in the FEDERAL REGISTER (42 FR 33031 (July 26, 1977)).

On August 22, 1977, the MSE filed an amendment to the subject rule proposal which designated section 6(b) as the basis under the Act for the proposed rule change. Notice of filing of the amendment was given by publication of a Commission Release (Securities Exchange Act Release No. 13894 (August 26, 1977)) and is expected to be made in the FEDERAL REGISTER during the week of October 3, 1977.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6 and the rules and regulations thereunder.

Further, the Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of the amendment thereto. The Commission finds approval at this time to be in the

public interest and for the protection of investors because: (1) the procedures which are the subject of the proposed rule change are necessary to implement other MSE proposals (SR-MSE-77-16 and 20) which were approved by the Commission today and will better enable the MSE to enforce compliance by "special registrants" with the Federal securities laws and MSE rules and policies, and (2) the substance of the rule proposal was published for public comment more than thirty days prior to the date of this order and the amendment thereto relates only to the basis under the Act for the proposed rule change.

It is therefore ordered. Pursuant to section 19(b)(2) of the Act, that the proposed rule change referenced above be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

[Rel. No. 14005 (File No. SR-NASD-77-14)]

Order Approving Proposed Rule Change

SEPTEMBER 29, 1977.

On August 23, 1977, the National Association of Securities Dealers, Inc. ("NASD"), 1735 K Street NW., Washington, D.C. 20006, filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b-4 thereunder, copies of a proposal (the "Proposal") to refund, on a pro-rata basis, \$1,000,000 to NASDAQ subscribers. The refund, which arises from a revision of the previously approved rate level for fiscal year 1977 (ending September 30, 1977), will be made by NASDAQ, Inc., a wholly-owned subsidiary of the NASD which owns and operates the NASDAQ system, and will be payable to NASDAQ Level 1, 2, and 3 subscribers based on NASDAQ billings for that fiscal year.

Notice of the Proposal, together with the terms of substance thereof, was given by publication of a Commission Release (Securities Exchange Act Release No. 13896, August 26, 1977) and by publication in the FEDERAL REGISTER (42 FR 44859, September 7, 1977).

The Commission finds that the Proposal is consistent with the requirements of the Act and the applicable rules and regulations thereunder, and, in particular, the requirements of Section 15A of the Act and the rules and regulations thereunder. In making that finding, the Commission has relied on the NASD's representation that it and NASDAQ, Inc., expect to have sufficient assets, independent of the amount included in the refund, to meet reasonably foreseeable expenses in connection with possible modifications or expansion of the

NASDAQ system and fulfillment of self-regulatory obligations. Further, the Commission finds good cause for approving the Proposal prior to the thirtieth day after publication of notice of filing thereof. Such approval would facilitate prompt payment of the refund.

It is therefore ordered. Pursuant to Section 19(b)(2) of the Act, that the Proposal be, and it hereby is, approved.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc 77 29526 Filed 10-6-77; 8:45 am]

[8010-01]

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

[Rel. No. 14004 (File No. SR-NASD-77-12)]

Order Approving Proposed Rule Change

SEPTEMBER 29, 1977.

On August 24, 1977, the National Association of Securities Dealers, Inc. ("NASD"), 1735 K Street NW., Washington, D.C. 20006, filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b-4 thereunder, copies of a proposed rule change (the "Proposal") to codify the authority of the NASD Board of Governors, subject to Commission approval, to refund NASDAQ charges to subscribers.

Notice of the Proposal, together with the terms of substance thereof, was given by publication of a Commission Release (Securities Exchange Act Release No. 13895, August 26, 1977) and by publication in the FEDERAL REGISTER (42 FR 44858, September 7, 1977).

The Commission finds that the Proposal is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the NASD, and, in particular, the requirements of Section 15A of the Act and the rules and regulations thereunder. Further, the Commission finds good cause for approving the Proposal prior to the thirtieth day after the date of publication of notice of filing thereof. Such approval is a prerequisite to Commission approval of a related submission (File No. SR-NASD-77-14) in which the NASD proposed to make a specific refund to NASDAQ Level 1, 2, and 3 subscribers based on NASDAQ billings for the fiscal year ending September 30, 1977.

It is therefore ordered. Pursuant to Section 19(b)(2) of the Act, that the Proposal be, and it hereby is, approved.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

PHILADELPHIA STOCK EXCHANGE, INC.

Notice of Application for Unlisted Trading Privileges and of Opportunity for Hearing

SEPTEMBER 29, 1977.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the security of the company as set forth below, which security is listed and registered on one or more other national securities exchanges:

Ranger Oil (Canada) Ltd., Common Stock, No Par Value, File No. 7-4999.

Upon receipt of a request, on or before October 15, 1977 from any interested person, the Commission will determine whether the application with respect to the company named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to the particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Rel. No. 14006 (SR-PHLX-77-13)]

PHILADELPHIA STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

SEPTEMBER 30, 1977.

On September 16, 1977, the Philadelphia Stock Exchange, Inc. ("PHLX"), 17th Street and Stock Exchange Place, Philadelphia, Pennsylvania 19103 filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change to amend PHLX Rule 1010 to provide that the Exchange may apply to the Commission for permission to strike from listing and registration any option series or class which is not exclusively traded on the PHLX if the Exchange determines that such action is in the interest of maintaining a fair and orderly market or for the protection of investors.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act ("SEA") Release No. 13994, September 26, 1977) and by publication in the FEDERAL REGISTER (42 FR 51687, September 29, 1977).

The Commission finds that the proposed rule change is consistent with the

requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6 and the rules and regulations thereunder.

The rule proposal is substantively identical to the Pacific Stock Exchange Incorporated ("PSE") proposal respecting delisting of non-exclusively listed options which the Commission previously approved (File No. SR-PSE-76-37). The PSE has applied this rule on several occasions to delist non-exclusively listed options and the Commission is not aware of any problems in connection with such application. Since the PSE rule was previously published for comment with no comments received thereon, and since no issues are presented by the PHLX proposal which the Commission did not consider in connection with the PSE proposal, the Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change referenced above be, and it hereby is approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

File No. 24NY-8038]

RISERS' VENTURE MANAGEMENT CO., INC.

Order Temporarily Suspending Exemption,
Statement of Reasons Therefor, and
Notice of Opportunity for Hearing

I

AUGUST 30, 1977.

Risers' Venture Management Co., Inc. ("Risers" or "issuer") 10 East 45th Street, New York, N.Y. is a Delaware corporation located at 10 East 45th Street, New York, New York. It was organized on April 11, 1974, primarily to engage in the business of providing venture management consulting services.

On August 16, 1976, Risers' filed a Notification pursuant to Regulation A in connection with a proposed offering of 100,000 shares of its \$.01 par value common stock at \$5.00 per share. The offering was to be conducted on a "best efforts" basis by the issuer through its officers and directors without the aid of an underwriter, for an offering period of up to 120 days initially. In the event that at least 25% of the shares offered are sold within that time, the offering would

¹ File No. SR-PSE-76-37 was published for comment as SEA Release No. 13058, December 10, 1976; 41 FR 3236, January 17, 1977.

be continued for a maximum of nine months; otherwise, all funds would be returned to subscribers. No commencement date for the offering has been established.

II

The Commission, on the basis of information reported to it by its staff, has reasonable cause to believe that:

A. The Notification, offering circular and sales literature filed by Risers' contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made in light of the circumstances under which they were made, not misleading in the following respects:

1. The failure to disclose in the Notification and offering circular the issuance by an affiliate of unregistered convertible debt securities in violation of Section 5(a) of the Act;

2. The failure to disclose in the offering circular the possible adverse impact of such offering by its affiliate on the issuer's control of the affiliate;

3. The failure to disclose in the offering circular the default by such affiliate in the payments required by the terms of such securities;

4. The unqualified statement in the offering circular that an affiliate's profit for a certain period was \$172,525.82 when \$150,000 of such figure represents extraordinary income;

5. The statement in the issuer's sales literature that a certain company is a "Risers' Company," which gives the misleading impression that such company was affiliated with Risers' when, in fact, it was not.

B. The terms and conditions of Regulation A have not been met by Risers' in that the issuer has omitted and misrepresented certain material facts in its Notification and offering circular and in that it has failed to amend its Notification and offering circular to disclose its delinquency in meeting obligations undertaken in connection with a rescission offer.

C. The offering, if made, would be in violation of Section 17 of the Securities Act of 1933, as amended.

III

It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended.

It is ordered, pursuant to Rule 261(a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption of the issuer under Regulation A be, and hereby is, temporarily suspended;

It is further ordered, pursuant to Rule 7 of the Commission's Rules of Practice, that the issuer file an answer to the allegations contained in this order within thirty days of the entry thereof;

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission

will, or at any time upon its own motion may, set the matter down for a hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for the said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

DEPARTMENT OF STATE

[Public Notice CM-7/116]

ADVISORY COMMITTEE ON INTERNATIONAL INTELLECTUAL PROPERTY

Notice of Meeting

The International Industrial Property Panel of the Department of State's Advisory Committee on International Intellectual Property will meet in open session on October 25, 1977, at the Department of State in Conference Room 1408 from 9:30 a.m. to 1 p.m.

The purpose of this open meeting will be to discuss the following topics:

1. The proposed revision of the Paris Industrial Property Convention;
2. The UNCTAD Committee of Experts on Industrial Property;
3. The UNCTAD Code of Conduct on Transfer of Technology.

The public attending may, as time permits and subject to the instructions of the Chairman, participate in the discussions or may submit their views in writing to the Chairman prior to or at the meeting for later consideration by the Committee.

Members of the public who plan to attend the meeting will be admitted up to the limits of the conference room's capacity. Entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. Members of the general public who plan to attend the meeting are requested to provide their name, affiliation, and address to Mr. L. Stuart Allan, Office of Business Practices, Department of State, telephone 202-632-3491, prior to October 21, 1977. All non-government attendees at the meeting should use the C Street entrance to the building.

Dated: September 28, 1977.

L. STUART ALLAN,
Economic/Commercial Officer.

INTERSTATE COMMERCE COMMISSION

[Notice No. 493]

ASSIGNMENT OF HEARINGS

OCTOBER 4, 1977.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC-F 13140, Marty's Express, Inc.—Purchase—Krusse Trucking Co., and MC 39249, Marty's Express, Inc., now assigned October 3, 1977, at Philadelphia, Pa., is cancelled, application dismissed.

MC 141804 (Sub-No. 43), Western Express, Division of Interstate Rental, Inc., and MC 141804 (Sub-No. 46), Western Express, Division of Interstate Rental, Inc., now assigned November 4, 1977, at Columbus, Ohio, is postponed indefinitely.

MC-F-13129, Kaw Transport Co.—Control—Royal Transport, Inc., now being assigned January 30, 1978 (1 week), at Kansas City, Mo., in a hearing room to be later designated.

CORRECTION¹

MC 142957 (Sub 1), Network Transportation Systems, Inc., now being assigned January 31, 1978 (1 day), at New York, N.Y., in a hearing room to be later designated.

H. G. HOMME, JR.,
Acting Secretary.

FOURTH SECTION APPLICATION FOR RELIEF

OCTOBER 4, 1977.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before October 25, 1977.

FSA No. 43441—Joint Rail-Water Container Rates—Portuguese Line. Filed by Portuguese Line (No. 1), for itself and interested rail carriers. Rates on general commodities, from rail terminals at U.S. Pacific Coast ports, to ports and terminals in Europe.

¹ This notice corrects the hearing date.

MC 114632 (Sub 107), Apple Lines, Inc., now being assigned January 26, 1978 (2 days), at Kansas City, Mo., in a hearing room to be later designated.

MC 113678 (Sub 650), Curtis, Inc., now being assigned January 24, 1978 (2 days), at Kansas City, Mo., in a hearing room to be later designated.

MC 114457 (Sub-No. 285), Dart Transit Co., now assigned October 12, 1977, at Chicago, Ill., will be held in Room 204A, Everett McKinley Dirksen Building, 219 S. Dearborn Street.

MC 123407 (Sub-No. 348), Sawyer Transport, Inc., now assigned October 13, 1977, at Chicago, Ill., will be held in Room 3255A, 230 South Dearborn Street.

MC 720 (Sub-No. 23), Bird Trucking Co., Inc., now assigned October 14, 1977, at Chicago, Ill., will be held in Room 204A, Everett McKinley Dirksen Building, 219 S. Dearborn Street.

MC-F-12274, Takin Bros. Freight Line, Inc.—Purchase (Portion)—Chl-Fil, Inc., now assigned October 17, 1977, at Chicago, Ill., will be held in Room 204A, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 720 (Sub-No. 31), Bird Trucking Co., Inc., now assigned October 20, 1977, at Chicago, Ill., will be held in Room 2119, 219 South Dearborn Street, instead of Court Room 704, Federal Building, 610 South Canal Street.

MC 138144 (Sub-No. 20), Fred Olson Co., Inc., now assigned October 18, 1977, at Chicago, Ill., will be held in Room 2119, 219 South Dearborn Street, instead of Court Room 704, Federal Building, 610 South Canal Street.

MC 112989 (Sub 47), West Coast Truck Lines, Inc., now being assigned January 16, 1978 (1 week), at Salem, Oreg., in a hearing room to be later designated.

MC 93235 (Sub 10), Indiana Trucking, Inc., now assigned October 17, 1977, at Chicago, Ill., in Court Room 704, Federal Building, 610 South Canal Street, is being transferred to Room 3610, 230 South Dearborn Street.

MC 134286 (Sub-No. 26), Illinois Express, Inc.; MC 140024 (Sub-No. 73), J. B. Montgomery, Inc.; and MC 115826 (Sub-No. 268), W. J. Digby, Inc., now being assigned November 14, 1977 (1 week), for hearing in Denver, Colo., in a hearing room to be later designated.

H. G. HOMME, JR.,
Acting Secretary.

[Notice No. 494]

ASSIGNMENT OF HEARINGS

OCTOBER 4, 1977.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

Grounds for relief—Water competition.

Tariff—Portuguese Line tariff No. 1, I.C.C. No. 1, P.M.C. No. 15.

Rates are published to become effective on November 1, 1977.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

IRREGULAR ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

SEPTEMBER 30, 1977.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before October 17, 1977. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 2607 (Sub-No. E84), filed June 4, 1974. Applicant: BERRY VAN LINES, 747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in New York, to points in Kent and Queen Annes Counties, Md. The purpose of this filing is to eliminate the gateway of points in Caroline County, Md.

No. MC 2607 (Sub-No. E87), filed June 4, 1974. Applicant: BERRY VAN LINES, 747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in New York, to points in Cecil County, Md. The purpose of this filing is to eliminate the gateway of points in Caroline County, Md.

No. MC 2607 (Sub-No. E89), filed June 4, 1974. Applicant: BERRY VAN LINES,

747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in New York, to points in Kent and Sussex Counties, Del. The purpose of this filing is to eliminate the gateway of points in Caroline County, Md.

No. MC 2607 (Sub-No. E90), filed June 4, 1974. Applicant: BERRY VAN LINES, 747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in New Jersey on and north of a line beginning at the New Jersey-Pennsylvania State line, thence along New Jersey Highway 57 to junction New Jersey Highway 24, thence along New Jersey Highway 24 to Morristown, N.J., thence along New Jersey Highway 510 to Newark, N.J., thence along U.S. Highway 1 to the Hudson River, to points in Cecil County, Md. The purpose of this filing is to eliminate the gateway of points in Caroline County, Md.

No. MC 2607 (Sub-No. E93), filed June 4, 1974. Applicant: BERRY VAN LINES, 747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in New Jersey on and north of a line beginning at Trenton, N.J., thence along U.S. Highway 206 to junction New Jersey Highway 524, thence along New Jersey Highway 524 to junction New Jersey Highway 539, thence along New Jersey Highway 539 to junction New Jersey Highway 530, thence along New Jersey Highway 530 to the Atlantic Ocean, to points in Kent County, Md. The purpose of this filing is to eliminate the gateways of points in Caroline County, Md.

No. MC 2607 (Sub-No. E101), filed June 4, 1974. Applicant: BERRY VAN LINES, 747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in Kent and Sussex Counties, Del., to points in Rhode Island. The purpose of this filing is to eliminate the gateway of points in Caroline County, Md.

No. MC 2607 (Sub-No. E102), filed June 4, 1974. Applicant: BERRY VAN

LINES, 747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in Kent and Sussex Counties, Del., to points in New York. The purpose of this filing is to eliminate the gateway of points in Caroline County, Md.

No. MC 2607 (Sub-No. E121), filed June 4, 1974. Applicant: BERRY VAN LINES, 747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in Pennsylvania, to points in Queen Annes County, Md. The purpose of this filing is to eliminate the gateway of points in Caroline County, Md.

No. MC 2607 (Sub-No. E122), filed June 4, 1974. Applicant: BERRY VAN LINES, 747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in Pennsylvania on, north and west of a line beginning at the Maryland-Pennsylvania State line, thence along U.S. Highway 15 to Harrisburg, Pa., thence along U.S. Highway 22 to the New Jersey-Pennsylvania State line, to points in Kent County, Md. The purpose of this filing is to eliminate the gateway of points in Caroline County, Md.

No. MC 2607 (Sub-No. E123), filed June 4, 1974. Applicant: BERRY VAN LINES, 747 North Dupont Highway, Dover, Del. 19901. Applicant's representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned or preserved foodstuffs* (except commodities in bulk), from points in Pennsylvania, to points in Kent and Sussex Counties, Del. The purpose of this filing is to eliminate the gateway of points in Caroline County, Md.

No. MC 60014 (Sub-No. E147), filed June 4, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: William J. Rorison (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, which by reason of size or weight, require the use of special equipment, from points in Pennsylvania to points in Kentucky, Alabama, and those in Tennessee

on and west of a line beginning at the Tennessee-Virginia State line and extending along Tennessee Highway 63 to junction U.S. Highway 25W, thence along U.S. Highway 25W to junction Tennessee Highway 95, thence along Tennessee Highway 95 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction Tennessee Highway 30, thence along Tennessee Highway 30 to junction U.S. Highway 411, thence along U.S. Highway 411 to the Tennessee-Georgia State line. The purpose of this filing is to eliminate the gateway of Wheeling, W. Va.

No. MC 60014 (Sub-No. E148), filed June 4, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: William J. Rorison (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, by reason of their size or weight, require the use of special equipment, between those points in Illinois on and north of Interstate Highway 80, on the one hand, and, on the other, those points in Virginia on and east of a line beginning at the West Virginia-Virginia State line and extending along Virginia Highway 311 to junction Interstate Highway 81, to junction Virginia Highway 693, thence along Virginia Highway 693 to junction Virginia Highway 100, thence along Virginia Highway 100 to junction U.S. Highway 52, thence along U.S. Highway 52 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateways of Columbiana, Cuyahoga, Mahoning, Summit, and Trumbull Counties, Ohio, and Brooke, Hancock, Marshall, and Ohio Counties, W. Va.

No. MC 60014 (Sub-No. E311), filed June 4, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: William J. Rorison (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, by reason of their size or weight, require the use of special equipment or handling, between points in Indiana, on the one hand, and, on the other, points in New Hampshire, Rhode Island, those points in Massachusetts within 35 miles of Boston, and those points in Connecticut on and east of a line beginning at the Massachusetts-Connecticut State line extending along Connecticut State Highway 83 to junction Connecticut Highway 190, thence along Connecticut Highway 190 to junction Connecticut Highway 32, thence along Connecticut Highway 32 to Long Island Sound. The purpose of this filing is to eliminate the gateway of Columbiana, Cuyahoga, Mahoning, Summit, and Trumbull Counties, Ohio, points in Pennsylvania on and west of a line extending from the Pennsylvania-Maryland State line north along unnumbered highway to York, Pa., thence along Interstate Highway 83 (formerly U.S. Highway 111) to Harrisburg, thence

north along Pennsylvania Highway 147 (formerly portion Pennsylvania Highway 14) to junction U.S. Highway 220, thence along U.S. Highway 220 to junction U.S. Highway 15; thence along U.S. Highway 15 to Trout Run, thence along U.S. Highway 15 to the Pennsylvania-New York State line; New York; and points in Massachusetts within 35 miles of Boston.

No. MC 60014 (Sub-No. E312), filed June 4, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: William J. Rorison (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, requiring special equipment, restricted so that, or provided that, the loading or unloading which necessitate the special equipment, is performed by the consignor or consignee, or both, between points in Pennsylvania, on the one hand, and, on the other, those points in Massachusetts on and east of a line beginning at the Connecticut-Massachusetts State line and extending along U.S. Highway 5 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction Massachusetts Highway 32, thence along Massachusetts Highway 32 to junction U.S. Highway 202, thence along U.S. Highway 202 to the Massachusetts-New Hampshire State line. The purpose of this filing is to eliminate the gateway of points in New York within 10 miles of Greenwich, Conn.

No. MC 106603 (Sub-No. E57), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such roofing and roofing materials* as are building contractors' materials, from those points in Illinois on, south, east, and north of a line beginning at the Illinois-Indiana State line and extending west on Illinois Highway 114 to junction Illinois Highway 17, thence westerly to junction Interstate Highway 57, thence south on Interstate Highway 57 to junction U.S. Highway 36, thence westerly on U.S. Highway 36 to junction U.S. Highway 51, thence southerly along U.S. Highway 51 to junction U.S. Highway 50, thence easterly on U.S. Highway 50 to junction Interstate Highway 57, thence northerly on Interstate Highway 57 to junction Interstate Highway 70, thence on Interstate Highway 70 to the Illinois-Indiana State line, to those points in Ohio on and north of a line beginning at the Ohio-Indiana State line and extending east along Interstate Highway 80 to junction U.S. Highway 20, thence easterly on U.S. Highway 20 to junction Ohio Highway 18, thence easterly on Ohio Highway 18 to junction Interstate Highway 77, thence southerly on Interstate Highway 77 to junction U.S. Highway 224, thence easterly on U.S. Highway 224 to junction Ohio Highway 14A, thence southeasterly on Ohio Highway 14A to junction Ohio Highway 45, thence southeasterly on Ohio Highway 45 to the Ohio-Pennsylvania State line, to those points in Illinois on, south, east, and north of a line beginning at the Illinois-Indiana State line and extending west on Illinois Highway 114 to junction Illinois Highway 17, thence westerly to junction Interstate Highway 57, thence south on Interstate Highway 57 to junction U.S. Highway 36, thence westerly on U.S. Highway 36 to junction U.S. Highway 51, thence southerly on U.S.

thence southeasterly on Ohio Highway 45 to the Ohio-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Whiting, Ind.

No. MC 106603 (Sub-No. E58), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, 200 Colrain Street SW., Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Roofing and roofing materials* from points in Illinois on, south, east, and north of a line beginning at the Illinois-Indiana State line extending west on Interstate Highway 70 to junction Interstate Highway 57, thence southerly on Interstate Highway 57 to junction U.S. Highway 50, thence easterly on U.S. Highway 50 to the Illinois-Indiana State line, to points in Ohio on and east of a line beginning at Lake Erie extending southeasterly on U.S. Highway 422 to the Ohio-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Whiting, Ind. (2) *Insulated brick siding*, from those points in Illinois on, south, east, and north of a line beginning at the Illinois-Indiana State line extending west on Interstate Highway 70 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Illinois-Indiana State line, to those points in Ohio on and east of a line beginning at Lake Erie and extending southeasterly on U.S. Highway 422 to the Ohio-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Lowell, Ind.

No. MC 106603 (Sub-No. E59), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Roofing and roofing materials*, (1) from those points in Ohio on and north of a line beginning at the Ohio-Indiana State line and extending along east Interstate Highway 80 to junction U.S. Highway 20, thence easterly on U.S. Highway 20 to junction Ohio Highway 18, thence easterly along Ohio Highway 18 to junction Interstate Highway 77, thence southerly on Interstate Highway 77 to junction U.S. Highway 224, thence easterly on U.S. Highway 224 to junction Ohio Highway 14A, thence southeasterly on Ohio Highway 14A to junction Ohio Highway 45, thence southeasterly on Ohio Highway 45 to the Ohio-Pennsylvania State line, to those points in Illinois on, south, east, and north of a line beginning at the Illinois-Indiana State line and extending west on Illinois Highway 114 to junction Illinois Highway 17, thence westerly to junction Interstate Highway 57, thence south on Interstate Highway 57 to junction U.S. Highway 36, thence westerly on U.S. Highway 36 to junction U.S. Highway 51, thence southerly on U.S.

Highway 51 to junction U.S. Highway 50, thence easterly on U.S. Highway 50 to junction Interstate Highway 57, thence northerly on Interstate Highway 57 to junction Interstate Highway 70, thence on Interstate Highway 70 to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of Whiting, Ind. (2) *Insulated brick siding*, from those points in Ohio on and north of a line beginning at the Ohio-Indiana State line and extending east along Interstate Highway 80 to junction U.S. Highway 20, thence easterly on U.S. Highway 20 to junction Ohio Highway 18, thence easterly on Ohio Highway 18 to junction Interstate Highway 77, thence southerly on Interstate Highway 77 to junction U.S. Highway 224, thence easterly on U.S. Highway 224 to junction Ohio Highway 14A, thence southeasterly along Ohio Highway 14A to junction Ohio Highway 45, thence southeasterly on Ohio Highway 45 to the Ohio-Pennsylvania State line, to those points in Illinois on, south, east, and north of a line beginning at the Illinois-Indiana State line and extending along Illinois Highway 114 to junction Illinois Highway 17, thence westerly to junction Interstate Highway 57, thence south on Interstate Highway 57 to junction U.S. Highway 36, thence westerly on U.S. Highway 36 to junction U.S. Highway 51, thence southerly on U.S. Highway 51 to junction U.S. Highway 50, thence easterly on U.S. Highway 50 to junction Interstate Highway 57, thence northerly on Interstate Highway 57 to junction Interstate Highway 70, thence on Interstate Highway 70 to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of Lowell, Ind.

No. MC 107002 (Sub-No. E19), filed May 31, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: Harold D. Miller, Jr., P.O. Box 22567, Jackson, Miss. 39205. Authority to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (a) *Petroleum and petroleum products*, as described in Appendix XIII of the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (except liquefied petroleum gases), in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line, and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49, thence along U.S. Highway 49 to junction U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12, thence along Mississippi Highway 12 to junction Mississippi Highway 19 to the Mississippi-Alabama State line, to points in Arkansas. The purpose of this filing is to eliminate the gateway of Crupp, Miss.; Friars Point, Miss.; Greenville, Miss.; Rogerslacy, Miss.; Union County, Miss.; thence Shelby County, Tenn.; and Washington County, Miss.

(b) *Petroleum products*, in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line, and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49 to U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12 to junction Mississippi Highway 19 to the Mississippi-Alabama State line, to points in Florida. The purpose of this filing is to eliminate the gateway of Mobile, Ala.

(c) *Petroleum products*, in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49 to U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12 to junction Mississippi Highway 19 to the Mississippi-Alabama State line, to points in Georgia. The purpose of this filing is to eliminate the gateways of Mobile and Tuscaloosa, Ala. (d) *Petroleum products and petroleum*, as described in Appendix XIII of the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except asphalt) in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line, and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49 to U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12, to junction Mississippi Highway 19, to the Mississippi-Alabama State line, to points in Illinois and Indiana. The purpose of this filing is to eliminate the gateway of Washington County, Miss.

(e) *Petroleum and petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line, and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49 to U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12 to junction Mississippi Highway 19 to the Mississippi-Alabama State line, to points in Kentucky. The purpose of this filing is to eliminate the gateways of Lynn Park, Ala., and Washington County, Miss.

(f) *Petroleum and petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line, and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49, thence

along U.S. Highway 49 to junction U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12, to junction Mississippi Highway 19 to the Mississippi-Alabama State line, to points in Louisiana. The purpose of this filing is to eliminate the gateways of Adams County, Pike County, Vicksburg and Lumberton, Miss. (g) *Petroleum and petroleum products*, in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49 to U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12 to junction Mississippi Highway 19 to the Mississippi-Alabama State line, to points in North Carolina and South Carolina. The purpose of this filing is to eliminate the gateway of Tuscaloosa, Ala. (h) *Petroleum and petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except asphalt), in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49 to U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12 to junction Mississippi Highway 19 to the Mississippi-Alabama State line, to points in Ohio and Oklahoma. The purpose of this filing is to eliminate the gateway of Washington County, Miss.

(i) *Petroleum and Petroleum products*, as described in Appendix XIII of the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49 to U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12 to junction Mississippi Highway 19 to the Mississippi-Alabama State line, to points in Tennessee. The purpose of this filing is to eliminate the gateways of Washington County, Miss.; Rogerslacy, Miss.; Crupp, Miss.; Friars Point, Miss.; thence the site of the pipeline terminal of the Oklahoma-Mississippi River Products Line, Inc., near West Memphis, Ark.; Cordova, Ala.; and Tuscaloosa, Ala. (j) *Petroleum products*, in bulk, in tank vehicles, from points in Mississippi on and east and south of a line beginning at the Louisiana-Mississippi State line, and extending along Mississippi Highway 27 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 49 to U.S. Highway 49-E, thence along U.S. Highway 49-E to junction Mississippi Highway 12 to junction Mississippi Highway

19 to the Mississippi-Alabama State line, to points in Texas. The purpose of this filing is to eliminate the gateways of Harrison County, Miss., and Natchez, Miss. Restriction: Restricted to transportation of commodities described in Appendix XIII, 61 M.C.C. 209 to points in Arkansas, Illinois, Indiana, Missouri, Ohio, and Oklahoma, and against the transportation of Asphalt to points in Illinois, Indiana, Missouri, Ohio, and Oklahoma and liquefied petroleum gases to points in Arkansas.

No. MC 126632 (Sub-No. E1), filed June 4, 1974. Applicant: AVION FREIGHTWAYS, INC., Box 2508, Kansas City, Mo. 64142. Applicant's representative: H. B. Foster (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Feed* (except in bulk) from the plantsite of Protein Blenders, Inc., near Iowa City, Iowa, to points in the Chicago, Ill., commercial zone. (Chicago, Ill.) (2) *Feed* (except in bulk), (A) from points in Kansas to points in Illinois in and north of Henderson, Warren, Knox, Peoria, Woosford, Livingston and Kankakee Counties, Ill. (54) *General commodities* (except those of unusual value, Classes A and B explosives, alcoholic beverages, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), from points in Cook County, Ill., and points within 50 miles of Chicago, Ill., to points in Iowa within 40 miles of Lowden, Iowa. The purpose of this filing is to eliminate the gateway of Willow Springs, Ill. (in the Chicago, Ill., commercial zone). (55) *Livestock* from

points within 50 miles of Chicago, Ill., to points in Nebraska. The purpose of this filing is to eliminate the gateways of Western Springs, Ill. (in Chicago, Ill., commercial zone), and Owa City, Iowa (within 40 miles of Lowden, Iowa.).

(56) *Livestock* (a) from points in Kankakee and Grundy Counties, Ill., within 50 miles of Chicago, Ill., to points in Missouri in and north and west of Jackson, Clay, Clinton, DeKalb, Gentry and Worth Counties, (b) from points in Will and Kendall Counties, within 50 miles of Chicago, Ill., to points in Missouri in and north and west of Schuyler, Adair, Sullivan, Linn, Chariton, Saline, Pettis, Benton, St. Clair, Cedar, Barton, Jasper, Newton and McDonald Counties, (c) from points in DeKalb, and Kane Counties, Ill., within 50 miles of Chicago, Ill., to points in Missouri in and north and west of Clark, Knox, Shelby, Macon, Randolph, Boone, Cole, Miller, Camden, Dallas, Greene, Christian and Stone Counties, (d) from points in and north of Boone, McHenry, Cook, and Dupage Counties, Ill., within 50 miles of Chicago, Ill., to points in Missouri in and north and west of Ralls, Audrain, Callaway, Osage, Maries, Pulaski, Le Clede, Wright, Douglas and Howell Counties. The purpose of this filing is to eliminate the gateways of Western Springs, Ill. (Chicago, Ill., commercial zone) and Muscatine, Iowa (within 40 miles of Lowden, Iowa, and within 35 miles of Iowa City, Iowa). (57) *Livestock* from points in Illinois within 50 miles of Chicago, Ill., to Kansas City, Kans., and its commercial zone. The purpose of this filing is to eliminate the gateways of Chicago, Ill., and Iowa City, Iowa. (58) *Culvert pipe* (except commodities in bulk, Classes A and B explosives, commodities requiring special equipment), (a) from points in and south of Cook, DuPage, Will, Kendall, and La Salle Counties, Ill., within 50 miles of Chicago, Ill., to points in Minnesota on and south of a line beginning at the Minnesota-Wisconsin State line and extending along U.S. Highway 12 to the Minnesota-South Dakota State line, (b) from points in Kane County, Ill., within 50 miles of Chicago, Ill., to points in Minnesota on and south of U.S. Highway 12 and in and west of Hennepin, Scott, Rice, Steele, Dodge, and Mower Counties, (c) from points in Lake and DeKalb Counties, within 50 miles of Chicago, Ill., to points in Minnesota on and south of U.S. Highway 12 and in and west of Big Stone, Lac Qui Parle, Yellow Medicine, Redwood, Cottonwood and Jackson Counties. The purpose of this filing is to eliminate the gateways of Western Springs, Ill. (the Chicago, Ill., commercial zone) and Clinton, Iowa. (59) *Culvert pipe* (except commodities in bulk, Classes A and B explosives, commodities requiring special equipment, and those injurious or contaminating to other lading), from points in DuPage, Cook, Will, Kankakee and Grundy Counties, Ill., within 50 miles of Chicago, Ill., to points in and west of Bayfield, Sawyer, Washburn, Barron, Dunn, Pepin, Buffalo, Trempealeau, La Crosse, Vernon, Crawford, and Grant Counties, Wis. The pur-

pose of this filing is to eliminate the gateways of Western Springs, Ill. (in Chicago commercial zone), and Clinton, Iowa.

(60) *Petroleum and Petroleum Products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in containers, from points in Illinois within 50 miles of Chicago, Ill., to points in North Dakota and South Dakota. The purpose of this filing is to eliminate the gateway of Berwyn, Ill. (in Chicago commercial zone). (61) *Building and roofing material* (except in bulk, commodities requiring special equipment), from points in the Chicago, Ill., commercial zone, to points in Iowa. The purpose of this filing is to eliminate the gateway of Lockport, Ill. (62) *Culvert pipe*, from Lockport, Ill., to points in Minnesota on and south of a line beginning at the Minnesota-Wisconsin State line and extending along US Highway 12 to the Minnesota-South Dakota State line. (63) *Culvert pipe*, from Lockport, Ill., to points in and west of Iron, Price, Rusk, Chippawa, Eau Claire, Trempealeau, La Crosse, Vernon, Crawford, and Grant Counties, Wis. The purpose of this filing is to eliminate the gateway of Clinton, Iowa, in parts 62 and 63. (64) *Empty packages and containers*, except commodities in bulk, Classes A and B explosives, household goods as defined by the Commission, and commodities requiring special equipment), from points in North Dakota and South Dakota, to points in the Chicago, Ill., commercial zone. (65) *Empty packages and containers* (except commodities in bulk, Classes A and B explosives, household goods as defined by the Commission, and commodities requiring special equipment), from points in North Dakota and South Dakota, to points in Illinois within 50 miles of Chicago, Ill. The purpose of this filing is to eliminate the gateway of Berwyn, Ill. (in Chicago commercial zone), in parts 64 and 65.

By the Commission.

H. GORDON HOME,
Acting Secretary.

1

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

TIME AND DATE: 9:30 a.m. (Eastern Time), Tuesday, October 11, 1977.

PLACE: Chairman's Conference Room, No. 5240, on the fifth floor of the Columbia Plaza Office Building, 2401 E Street NW., Washington, D.C. 20506.

STATUS: Part of the meeting will be open to the public, and part will be closed to the public.

MATTERS-TO BE CONSIDERED:

Part open to the public:

Freedom of Information Act Appeal No. 77-8-FOIA-160, concerning a request by the National Steelworkers Rank and File Committee for the 1974 and 1977 Employment Survey (EEO-1) reports of the nine major steel companies who are parties to the steel industry consent decree.

Part closed to the public:

Briefing on litigation matters, closed to the public under Sec. 1612.13(a)(3) of the Commission's regulations (42 FR 13830, March 14, 1977).

NOTE.—Any matter not discussed or concluded may be carried over to a later meeting.

CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretariat, at 202-634-6748.

This Notice Issued October 4, 1977.

[S-1520-77 Filed 10-4-77; 12:11 pm]

[6210-01]

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

TIME AND DATE: 10 a.m., Wednesday, October 12, 1977. The closed portion of the meeting will commence at the conclusion of the open discussion.

PLACE: 20th Street and Constitution Avenue, NW., Washington, D.C. 20551.

STATUS: Part of the meeting will be open; part will be closed.

MATTERS TO BE CONSIDERED:

Open portion:

1. Policy statement concerning procedures for the early filing of retention applications or divestiture plans by bank holding companies with limited grandfather privileges.

2. Proposed amendment to Subpart C of Regulation J (Collection of Checks and Other Items by Federal Reserve Banks), to be published for comment, proposing a regulatory framework for financial depository institutions using Federal Reserve automated clearing house facilities.

3. Report to the Federal Deposit Insurance Corporation regarding the competitive factors involved in the proposed merger of Bank of Oglethorpe, Oglethorpe, Georgia, with The Citizens Bank of Montezuma, Montezuma, Georgia.

4. Any agenda items carried forward from a previously announced meeting.

Closed portion:

1. Federal Reserve Bank and Branch director appointments.

2. Personnel appointments within the Board's staff.

3. Any agenda items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board, (202-152-3204).

Dated: October 4, 1977.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[S-1521-77 Filed 10-4-77; 4:54 pm]

[6320-01]

3

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., October 6, 1977.

PLACE: Room 1027, 1825 Connecticut Avenue, NW., Washington, D.C. 20428.

SUBJECT: Notices of deletion of item from the October 6, 1977 meeting agenda.

18. Docket 26368 et al., Petition for reconsideration of Board decision (Order 77-8-89) to review initial decision approving settlement of Part 252 violations

in Eastern Air Lines, Inc., Enforcement Proceeding (Memo No. 7357-A, OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, The Secretary, (202-673-5068).

SUPPLEMENTARY INFORMATION: Agency business requires that item 18 on the October 6, 1977 agenda, the petition for reconsideration of Board decision (Order 77-8-89) to review initial decision approving settlement of Part 252 violations in *Eastern Air Lines Enforcement Proceeding*, Docket 26368 et al., be deleted from the agenda so that this item may be considered at the same time the Board considers that final regulation amending Part 252 "Provision of Designated 'No Smoking' Areas Aboard Aircraft Operated by Certificated Air Carriers." Accordingly, the following Members have voted that agency business requires the deletion of item 18 from the October 6, 1977 meeting and that no earlier announcement of this deletion was possible:

Chairman Alfred E. Kahn
Vice Chairman Richard J. O'Melia
Member G. Joseph Minetti
Member Lee R. West
Member Elizabeth E. Bailey

[S-1522-77 Filed 10-4-77; 4:54 pm]

[6320-01]

4

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., October 6, 1977.

PLACE: Room 1027, 1825 Connecticut Ave., NW., Washington, D.C. 20428.

SUBJECT: Notice of Addition of Items to the October 6, 1977 meeting agenda: 1a. Docket 31363, Passenger Fares filed by Pan American, Trans World Airlines, British Airlines, et al. and the President's September 26, 1977 letter regarding them (OGC, OCA, OEA, BFR, BOR, BOE, BIA). 1b. Dockets 31317, 31313, 31325, 31176, 31048, 31092, and 31452, Charter liberalization, including emergency relief (OGC, OCA, OEA, BFR, BOR, BOE, BIA).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, The Secretary, (202-673-5068).

SUPPLEMENTARY INFORMATION: Because of the President's September 26,

1977 decision regarding the passenger fares filed by Pan American, Trans World Airlines, British Airways, et al. in Docket 31363, the following Members voted at the September 30, 1977 Board meeting that agency business requires the addition of these two items to the Board's October 6, 1977 meeting agenda on less than seven days' notice and that no earlier announcement of the additions was possible:

Chairman Alfred E. Kahn
Vice Chairman Richard T. O'Melia
Member G. Joseph Minetti
Member Lee R. West
Member Elizabeth E. Bailey

[S-1523-77 Filed 10-4-77; 4:54 pm]

[6320-01]

5

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., October 6, 1977.

PLACE: Room 1027, 1825 Connecticut Ave., NW., Washington, D.C. 20428.

Notice of Addition of item to the October 6, 1977 meeting agenda.

SUBJECT: 3a. Docket 31261, Request by Pan American to hold discussions on U.S./U.K. cargo rates (BFR, BIA).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, The Secretary, (202-673-5068).

SUPPLEMENTARY INFORMATION: At its September 16, 1977 meeting following the oral argument on British Airways' contract cargo rates, the Board decided to suspend the rates to insure that the U.S. carriers would be able to offer effective competitive responses if the contract rates are permitted to take effect. On August 9, 1977, Pan American filed a petition for renewed authority to engage in intercarrier discussions on U.S./U.K. cargo matters. Consideration of this request as soon as possible will enable the carriers to seek an early resolution to the matter. Accordingly, the following Members have voted that agency business requires the addition of this item to the October 6, 1977 agenda and that no earlier announcement of this addition was possible:

Chairman Alfred E. Kahn
Vice Chairman Richard J. O'Melia
Member G. Joseph Minetti
Member Lee R. West
Member Elizabeth E. Bailey

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 722]

1978 UPLAND COTTON PROGRAM

Proposed Determinations Regarding National Program Acreage, Program Allocation Factor, Set-Aside, Additional Diversion, and Limitation on Planted Acreage

AGENCY: Agricultural Stabilization and Conservation Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Secretary of Agriculture proposes to make the following determinations with respect to the 1978 crop of upland cotton: a. Established (target) price; b. National program acreage; c. Program allocation factor; d. Whether there should be a set-aside requirement and, if so, the extent of such requirement; e. Whether there should be a limitation on planted acreage and, if so, the extent of such limitation; f. Whether there should be a provision for additional diversion and, if so, the extent of such diversion and the payment therefor. The above determinations are required to be made by the Secretary in accordance with provisions of the Agricultural Act of 1949, as amended by the Food and Agriculture Act of 1977. The effect of these determinations is to determine for the 1978 crop of upland cotton the established price, national program acreage, program allocation factor, whether there should be a set aside, additional diversion or limitation on planted acreage, the extent of any such set aside, diversion or limitation and the payment for any additional diversion. This notice invites written comments on these proposed determinations.

DATES: Comments must be received on or before October 21, 1977.

ADDRESSES: Mail comments to Director, Production Adjustment Division, ASCS, U.S. Department of Agriculture, Room 3630, South Building, P.O. Box 2415, Washington, D.C. 20013. Comments will be made available for public inspection at the office of the Director during regular business hours (8:15 a.m. to 4:45 p.m.).

FOR FURTHER INFORMATION CONTACT:

Charles V. Cunningham (ASCS), (202-447-5953).

SUPPLEMENTARY INFORMATION: The Food and Agriculture Act of 1977, effective October 1, 1977, (Pub. L. 95-113) added a new subsection (f) to section 103 of the Agricultural Act of 1949, as amended. The following determinations with respect to the 1978 crop of upland cotton are to be made pursuant to this new subsection:

a. *Established (target) price.* Section 103(f)(4) provides that the established price for the 1978 crop shall be the established price for the 1977 crop (47.80

cents per pound) adjusted to reflect any change in the average adjusted cost of production for the two crop years 1976 and 1977 from the average adjusted cost of production for the two crop years 1975 and 1976. The adjusted costs of production for each of such years shall be determined by the Secretary on the basis of such information as he finds necessary and appropriate and shall be limited to (1) variable costs, (2) machinery ownership costs, and (3) general farm overhead costs, allocated to the crops involved on the basis of the proportion of the value of the total production derived from each crop. In no event, however, shall the established price for the 1978 crop be less than 52 cents per pound.

b. *National program acreage.* Section 103(f)(7) requires the Secretary to announce a national program acreage for the 1978 crop by December 15, 1977. Such national program acreage may, however, be subsequently revised for purposes of determining the allocation factor if the Secretary determines it necessary based on the latest information. Any revision shall be announced as soon as it has been made. The national program acreage shall be the number of harvested acres the Secretary determines, based on the estimated weighted national average of the farm program yields for the 1978 crop, will produce the estimated quantity (less imports) that will be utilized domestically and for export during the 1978-79 marketing year (which begins August 1, 1978). The Secretary may make such adjustment in the national program acreage as he determines necessary, taking into consideration the estimated carryover supply, to provide for an adequate but not excessive total supply of cotton for the 1978-79 marketing year. In no event, however, shall the national program acreage be less than 10 million acres.

c. *Program allocation factor.* Section 103(f)(8) requires the Secretary to determine a program allocation factor for the 1978 crop. The allocation factor (not to exceed 100 percent) shall be determined by dividing the national program acreage for the 1978 crop by the estimated harvested acreage for such crop.

d. *Whether there should be a set-aside requirement and, if so, the extent of such requirement.* Section 103(f)(11)(A) requires the Secretary to provide for a set-aside of cropland if he determines that the total supply of upland cotton will, in the absence of such a set-aside, likely be excessive, taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. If a set-aside of cropland is in effect, then as a condition of eligibility for loans, purchases, and payments on upland cotton, producers must set aside and devote to conservation uses an acreage of cropland equal to such percentage of the acreage of upland cotton planted for harvest during the 1978 crop year as the Secretary determines (not to exceed 28 percent).

e. *Whether the acreage planted to upland cotton should be limited and, if so,*

the extent of such limitation. Section 103(f)(11)(A), also provides that the Secretary may limit the acreage planted to upland cotton and requires that any such limitations be applied on a uniform basis to all cotton producing farms. Producers on a farm who knowingly plant cotton in excess of the permitted cotton acreage for the farm shall be ineligible for cotton loans or payments on that farm.

f. *Whether there should be a provision for additional diversion and, if so, the extent of such diversion and the payment therefor.* Section 103(f)(11)(B) provides that the Secretary may make land diversion payments to producers of upland cotton, whether or not a set-aside for upland cotton is in effect, if he determines that such payments are necessary to assist in adjusting the total national acreage of upland cotton to desirable goals. Such land diversion payments shall be made to producers on a farm who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under such contracts may be determined through the submission of bids for such contracts by producers or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary is required to limit the total acreage to be diverted under agreements in any county or local community so as not to adversely affect the economy of the county or local community.

Signed at Washington, D.C., on October 3, 1977.

RAY FITZGERALD,
Administrator, Agricultural
Stabilization and Conservation
Service.

Commodity Credit Corporation

[7 CFR Part 1427]

COTTON

Proposed Determinations Regarding 1978-Crop Loan and Payment Programs

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: The Secretary of Agriculture proposes to make the following determinations with respect to the 1978 crops of upland cotton and extra long staple cotton (referred to as "ELS cotton"): a. Loan level for upland lint cotton; b. Loan level and payment rate for ELS lint cotton; c. Specifications for bale packaging materials; d. Whether a seed cotton loan program should be offered and, if so, the loan levels for such seed cotton. The above determinations are

authorized by the Agricultural Act of 1949, as amended, and the Commodity Credit Corporation Charter Act, as amended. The effect of these determinations is to determine, for the 1978 crops, the loan level for upland cotton, the loan level and payment rate for ELS cotton, the specifications for bale packaging materials, and whether a seed cotton loan program should be offered and the loan levels for seed cotton if a program is offered. This notice invites written comments on these proposed determinations.

DATES: Comments must be received on or before October 21, 1977.

ADDRESSES: Mail comments to Director, Production Adjustment Division, ASCS, U.S. Department of Agriculture, Room 3630, South Building, P.O. Box 2415, Washington, D.C. 20013.

Comments will be made available for public inspection at the office of the Director during regular business hours (8:15 a.m. to 4:45 p.m.).

FOR FURTHER INFORMATION CONTACT:

Charles V. Cunningham (ASCS), (202-447-5953).

SUPPLEMENTARY INFORMATION: The following determinations with respect to the 1978 crop are to be made pursuant to the Agricultural Act of 1949 (63 Stat. 1051, 7 U.S.C. 1421), as amended by the Food and Agriculture Act of 1977 (Pub. L. 95-113) (hereinafter referred to as the "Act"):

a. *Loan level for upland lint cotton.* Section 103(f)(1) of the Act requires the Secretary to determine and announce the loan level for the 1978-crop by November 1, 1977, and provides that such loan level shall not thereafter be changed. Such loan level must reflect for Strict Low Middling 1 $\frac{1}{8}$ inch upland cotton (micro-naire 3.5 through 4.9), at average location in the United States the smaller of (1) 85 percent of the average price

(weighted by market and month) of such quality of cotton as quoted in the designated United States spot markets during the four year period ending July 31, 1977, or (2) 90 percent of the average, for the first two full weeks of October 1977, of the five lowest priced growths of the growths quoted for Strict Middling 1 $\frac{1}{8}$ inch cotton, C.I.F. Northern Europe (adjusted downward by the average difference during the period April 15, 1977 through October 15, 1977 between such average Northern Europe price quotation for such quality of cotton and the market quotations in the designated United States spot markets for Strict Low Middling 1 $\frac{1}{8}$ inch cotton (micro-naire 3.5 through 4.9)).

b. *Loan level and payment rate for ELS lint cotton.* Section 101 (f) of the Act requires that price support shall be made available to cooperators for the 1968 and each subsequent crop of ELS cotton, if producers have not disapproved marketing quotas therefor, through loans at a level which is not less than 50 percent or more than 100 percent in excess of the loan level established for Strict Low Middling 1 $\frac{1}{8}$ inch upland cotton of such crop at average location in the United States (except that such loan level for ELS cotton shall in no event be less than 35 cents per pound). Section 101 (f) also provides for price support payments at a rate which, together with the loan level established for such crop, shall be not less than 65 percent or more than 90 percent of the parity price for ELS cotton as of the month in which the payment rate provided for is announced. Section 401 of the Act requires that, in determining the level of support in excess of the minimum level prescribed for ELS cotton, consideration shall be given to the supply of the commodity in relation to the demand therefor, the price levels at which other commodities are being supported, the availability of funds, the perishability of the commodity, the importance of the commodity to agricul-

ture and the national economy, the ability to dispose of stocks acquired through a price support operation, the need for offsetting temporary losses of export markets, and the ability and willingness of producers to keep supplies in line with demand.

c. *Specifications for bale packaging materials.* The specifications for bale packaging materials used for cotton tendered to Commodity Credit Corporation under its cotton loan program are being reviewed for 1978. The latest revision of the bale packaging specifications was published in the FEDERAL REGISTER on June 10, 1977 (42 FR 29849). Consideration will be given to amending the specifications as recommended by the Cotton Industry Bale Packaging Committee.

The following determinations are to be made pursuant to Section 5(a) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c):

a. *Whether a seed cotton loan program should be offered.* The Department is not required to offer a seed cotton loan program. However, such a program—providing for recourse-type loans—was instituted by Commodity Credit Corporation for 1971-crop seed cotton and has been renewed each crop year since. The program is being reviewed to determine whether it should be continued for 1978.

b. *Loan levels for seed cotton if program offered.* Consideration is being given to the levels at which loans should be made available for seed cotton under the 1978 program.

Signed at Washington, D.C., on October 3, 1977.

RAY FITZGERALD,
Administrator, Agricultural Sta-
bilization and Conservation
Service and Executive Vice
President, Commodity Credit
Corporation.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL
PROTECTION AGENCY

SUBCHAPTER D—WATER PROGRAMS

[FRL 769-4]

PART 133—SECONDARY TREATMENT
INFORMATIONSuspended Solids Limitations for
Wastewater Treatment PondsAGENCY: Environmental Protection
Agency.

ACTION: Final rule.

SUMMARY: This rule amends the Secondary Treatment Information regulation to allow less stringent suspended solids limitations for wastewater treatment ponds. The amendment is based on the fact that properly designed and operated wastewater treatment ponds are a form of secondary treatment which may not be capable of achieving the suspended solids limitations contained in the Secondary Treatment Information regulation without supplemental treatment processes for removal of suspended solids (primarily algae).

EFFECTIVE DATE: November 7, 1977.

FOR FURTHER INFORMATION CONTACT:

Alan Hais, Municipal Construction Division (WH-547), Office of Water Program Operations, Environmental Protection Agency, Washington, D.C. 20460 (202-426-8976).

SUPPLEMENTARY INFORMATION: On September 2, 1976, notice was published in the FEDERAL REGISTER that the Environmental Protection Agency was proposing the amendment of the Secondary Treatment Information regulation (41 FR 37222). The Secondary Treatment Information regulation contains effluent limitations in terms of biochemical oxygen demand, suspended solids and pH which must be achieved by municipal wastewater treatment plants (publicly owned treatment works) in accordance with section 301(b)(1)(B) of the Federal Water Pollution Control Act Amendments of 1972 (FWPCA). The Secondary Treatment Information regulation was promulgated pursuant to section 304(d)(1) of the FWPCA on August 17, 1973 (38 FR 22298), and amended for deletion of the fecal coliform bacteria limitations and clarification of the pH requirement on July 26, 1976 (41 FR 30786).

Fifty-five (55) of the sixty (60) comments received in response to the proposed amendment supported adjusting the suspended solids limitations for wastewater treatment ponds. The final amendment is substantially the same as proposed, with the only significant change noted below. A number of the commenters, while agreeing in principle with the proposal, requested clarification on certain points. The responses to these and the other major comments are also discussed below.

DISCUSSION OF MAJOR COMMENTS

MAXIMUM FACILITY DESIGN CAPACITY

The proposed amendment (§ 133.103(c) (special considerations) indicated, in part, that the suspended solids limitations could be adjusted for wastewater treatment ponds with a maximum facility design capacity of one million gallons per day (mgd) or less. This provision was included because the Agency believes that the supplemental treatment methods, which are often needed to achieve the suspended solids limitations of § 133.102(b) with wastewater treatment ponds, unavoidably add to the complexity of designs and may strain the operational capabilities of small communities where the vast majority of wastewater treatment ponds are used. The one million gallons per day maximum facility design capacity was based on a population of 10,000 and an average wastewater flow of 100 gallons per capita per day. A number of comments were received which indicated specific instances where wastewater flows to wastewater treatment ponds in communities of 10,000 population or less exceed one mgd. In recognition of the fact that there may be valid reasons for wastewater flows to exceed 100 gallons per capita per day, the final rule has been changed to indicate that the suspended limitations may be adjusted for wastewater treatment ponds with a maximum facility design capacity of two mgd or less.

A number of comments were also received which requested a clarification of the term "maximum facilities design capacity." As the term implies, it is the flow rate which is used as the design basis for sizing wastewater treatment facilities. In most instances design capacities are expressed in terms of annual average flows, even though there may be seasonal variations in flow rates which obviously must be accounted for in the sizing of treatment facilities.

APPLICABILITY OF THE REGULATION

A number of comments questioned whether the suspended solids requirements for privately or Federally owned ponds treating sanitary wastewater could be adjusted as a result of the change to 40 CFR 133. It is clear that section 304(d)(1) of the FWPCA requires promulgation of standards directly applicable to publicly owned treatment works only and therefore 40 CFR 133 is not directly applicable to private or Federal wastewater treatment ponds. However, EPA has authority under section 402 of the Act to issue permits where no effluent limitation standards have been promulgated and to fashion conditions on a case-by-case basis premised on EPA's best technical judgment. In fashioning such conditions, EPA may consider any available information. Accordingly, the provisions of § 133.103(c) may be considered as guidance in conjunction with other information in determining individual NPDES permit requirements for privately and Federally owned sewage treatment plants which are not

subject to effluent limitation guidelines proposed or promulgated under sections 301, 304, and 306 of the FWPCA.

COMMENTS WHICH DID NOT SUPPORT
THE RULE CHANGE

One commenter stated that the amendment is not consistent with the FWPCA because section 304(d) contemplates secondary treatment limitations that do not vary for different treatment processes. Two of the comments which objected to the rule change indicated that the amendment is not needed because technology is available to enable small communities to comply with the existing requirements of 40 CFR 133. Two comments also stated an objection to the amendment on the grounds that some small communities already comply or are in the process of complying with the original requirements.

The legislative history of the FWPCA indicates that secondary treatment may be considered to represent a range of removals (H. Rep. 92-911, p. 101, Leg. Hist. p. 788). Based on this concept of range, there are different subcategories of treatment technologies within the broad category of secondary treatment. In this instance which is clearly supported by historical, technical and economic data, EPA is exercising its authority to define secondary treatment through categorization. Wastewater treatment ponds, without supplemental suspended solids removal processes, have traditionally been considered a form of secondary treatment for small communities. Moreover, wastewater treatment ponds have been extensively used by small communities in such applications primarily because of their low cost and operational simplicity.

As stated in the preamble to the proposed rulemaking, methods for removing excessive suspended solids (algae) from wastewater treatment pond effluents have been developed but have not been widely demonstrated in all climatic regions of the country. The Agency was faced with the fact that there was a lack of confidence both in the capabilities of conventional pond systems and in the use of supplementary devices which would effectively rule out the continued use of wastewater treatment ponds to achieve the secondary treatment requirements in many sections of the country. The Environmental Protection Agency believes that wastewater treatment ponds play a vital role in the Nation's water pollution control strategy and that, because of their advantages of simplicity, low cost and minimal energy requirements, ponds should be retained as an option for smaller communities. The Agency also recognizes that suspended solids due to live algae in pond effluents have fundamentally and substantially different characteristics than sewage solids or solids from other treatment processes. It is for these reasons the final rulemaking is being adopted substantially as proposed. Viewed in other terms, adoption of the amendment for ponds will result in

significant economic benefits, particularly for small communities. It is estimated that the projected savings in capital construction costs alone will be in excess of one billion dollars nationwide.

In promulgating this amendment to 40 CFR 133 for small wastewater treatment ponds, however, the Environmental Protection Agency does not intend to imply that supplemental treatment devices such as rock filters or intermittent sand filters are not acceptable methods for upgrading pond performance. In many instances where ponds presently do not meet discharge requirements pursuant to specific quality standards, upgrading can be economically accomplished while generally preserving the basic concept of simplified operation. The Agency strongly believes that any large scale approach to replace ponds with mechanical plants would be ill-advised because the previously mentioned advantages of ponds for small communities must be sacrificed.

RELATIONSHIP TO INDUSTRIAL EFFLUENT
LIMITATIONS

Comments were received which supported the position that less stringent suspended solids limitations should also be applied to industrial wastewater treatment ponds. Section 304(d)(1) of the FWPCA requires that EPA "publish information . . . on the degree of effluent reduction attainable through application of secondary treatment." The factors to be considered in setting effluent limitations for industrial discharges pursuant to section 304(b) of the FWPCA are distinct from the section 304(d)(1) criteria. In consideration of these statutory differences, EPA clearly has authority to establish different effluent limitations for municipal and industrial discharges with regard to the control of one or more pollutant parameters.

ADJUSTMENT OF THE BIOCHEMICAL OXYGEN
DEMAND (BOD) LIMITATIONS FOR PONDS

A number of comments suggested that an adjustment of the BOD limitations of 40 CFR 133 should also be allowed for wastewater treatment ponds. An equal number of commenters supported the position that the suspended solids limitation of 40 CFR 133 is the only parameter that properly designed and operated ponds cannot meet.

While there is not an extensive amount of routine monitoring data available to precisely define wastewater treatment pond performance, the majority of the State Agencies with responsibilities in this area expressed the belief during the development of the amendment that wastewater treatment ponds are generally capable of meeting the BOD requirements of 40 CFR 133.102. The Agency believes that adoption of the amendment, as proposed, will effectively ensure the continued acceptability of wastewater treatment as a secondary treatment process. It is important to recognize, however, that many of these facilities will still have to be

upgraded to meet the BOD limitations of 40 CFR 133, which remain unchanged.

THE USE OF SUSPENDED SOLIDS AS A
REGULATORY PARAMETER FOR WASTEWATER
TREATMENT PONDS

Comments received from four State Agencies indicated that suspended solids limitations should be eliminated entirely as a regulatory parameter for wastewater treatment ponds. The Environmental Protection Agency recognizes that, because suspended solids limitations set in accordance with § 133.103(c) are to be based on a sampling of ponds which meet the BOD requirements of 40 CFR 133, BOD removal capability will be the major factor used in determining the adequacy of wastewater treatment pond designs. However, the statutory history of the FWPCA has been interpreted to require that standards for publicly owned treatment works include limitations on both BOD and suspended solids. Furthermore, EPA considers suspended solids to be a pollutant parameter for which regulatory control is important.

AVAILABILITY OF SUSPENDED SOLIDS
MONITORING DATA

Several comments were received which supported the view that there is insufficient suspended solids monitoring data available to reliably establish alternative limitations for ponds in accordance with § 133.103(c). A number of other commenters provided actual monitoring data or indicated that such data is currently available. During the period of time since the amendment was proposed, the EPA Regional Offices have been requested to begin compiling data which could be used to establish suspended solids limitations for ponds in accordance with § 133.103(c). Efforts to date have indicated that sufficient data is available. Furthermore, preliminary determinations have demonstrated a reasonable degree of consistency nationwide.

REQUESTS FOR CLARIFICATION

Comments were received which requested clarification of the following aspects of the rule change:

(1) What types of wastewater treatment ponds are covered by § 133.102(c)? As indicated in § 133.102(c), adjustment of the suspended solids limitations may be made in cases where waste stabilization ponds are the sole process used for secondary treatment. Determination of the types of facilities to which § 133.103(c) can be applied will be in accordance with the terminology section of the EPA technical bulletin, "Wastewater Treatment Ponds" (EPA 430/9-74-011). Specifically included are photosynthetic and aerated ponds. The amendment is not applicable to polishing or holding ponds which are preceded by other biological or physical/chemical treatment processes capable of secondary treatment.

(2) Do the provisions of § 133.103(c) apply to new facilities? Yes, the sus-

pended solids limitations for new wastewater treatment ponds can be set in accordance with the provisions of § 133.103(c). It must be recognized, however, design standards for new wastewater treatment ponds may be more stringent than those used in the determination of "best waste stabilization pond technology" in cases where the States or the EPA Regional Offices determine that such design standards are important for the overall reliability of new pond systems in that area.

(3) Does the amendment apply to the criteria for best practicable waste treatment technology? Yes, the criteria for best practicable waste treatment technology contained in Alternative Waste Management Techniques for Best Practicable Waste Treatment (EPA 430/9-75-013, October 1975), states that "publicly owned treatment works employing treatment and discharge into navigable waters shall, as a minimum, achieve the degree of treatment attainable by the application of secondary treatment as defined in 40 CFR 133." Unless specific revisions to the best practicable waste treatment criteria are published, or other applicable regulations are promulgated, the standards contained in 40 CFR 133, including the provisions of this amendment, will continue as the minimum requirements for treatment and discharge alternatives.

(4) Will specific guidance on implementation of the rule change be issued? As indicated previously, the EPA Regional Offices have been working on preliminary determinations for establishment of suspended solids limitations for wastewater treatment ponds in accordance with the proposed provisions of § 133.103(c). In most cases these efforts have been coordinated with the appropriate State Agencies. Draft guidance on procedures for actual implementation of the rule change has been circulated to the Regional Offices and will be finalized upon adoption of the amendment.

In consideration of the foregoing, Part 133 of Chapter I of Title 40 of the Code of Federal Regulations is amended as set forth below (section 304(d)(1) and 301(b)(1)(B) of the Federal Water Pollution Control Act Amendments of 1972 (33 U.S.C. 1342, 1345 and 1361)).

Dated: September 28, 1977.

DOUGLAS M. COSTLE,
Administrator.

1. Section 133.103 is amended by adding paragraph (c) as follows:

§ 133.103 Special considerations.

(c) The Regional Administrator (or, if appropriate, the State subject to EPA approval) is authorized to adjust the minimum levels of effluent quality set forth in paragraphs (b)(1), (b)(2), and (b)(3) of § 133.102 for treatment works subject to this part, to conform to the suspended solids concentrations achievable with best waste stabilization pond technology, provided that: (1) waste stabilization ponds are the sole process used

RULES AND REGULATIONS

for secondary treatment; (2) the maximum facility design capacity is two million gallons per day or less; and (3) operation and maintenance data indicate that the requirements of paragraphs (b) (1), (b) (2), and (b) (3) of § 133.102 cannot be achieved. The term "best waste stabilization pond technology" means a suspended solids value, determined by the Regional Administrator (or, if appropriate, the State Director subject to EPA approval), which is equal to the effluent concentration achieved 90 percent of the time within a State or appropriate contiguous geographical area by waste stabilization ponds that are achieving the levels of effluent quality established for biochemical oxygen demand in § 133.102(a).

OFFICE OF MANAGEMENT AND BUDGET

DEFERRALS OF FISCAL YEAR 1978 FUNDS

TO THE CONGRESS OF THE UNITED STATES:

In accordance with the Impoundment Control Act of 1974, I herewith report 42 deferrals of fiscal year 1978 funds totaling \$1480.6 million. The deferrals are primarily routine in nature and do not, in most cases, affect program levels.

The details of each deferral are contained in the attached reports.

The White House, October 3, 1977.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

Summary of Proposed Deferrals
(in thousands of dollars)

Defer- ral #	Item	Budget Authority	Defer- ral #	Item	Budget Authority
D78-1	Department of Agriculture: Foreign Agricultural Service Salaries and expenses (special foreign currency program).....	988	D78-20	Department of Justice: Federal Prison System Buildings and facilities.....	42,245

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

Deferral No. D78-2

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency U.S. Department of Agriculture Bureau Agricultural Stabilization and Conservation Service	New budget authority (P.L. _____) Other budgetary resources 39,800,000
Appropriation title & symbol Commodity Credit Corporation Administrative Expenses, 1978 1/ 1284336	Total budgetary resources 39,800,000
	Amount to be deferred: Part of year \$ 2,871,000 Entire year
OMB identification code: 12-4336-0-3-351	Legal authority (in addition to sec. 1013): <input checked="" type="checkbox"/> Antideficiency Act <input checked="" type="checkbox"/> Other P.L. 95-97
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other
Type of account or fund: <input checked="" type="checkbox"/> Annual <input type="checkbox"/> Multiple-year (expiration date) <input type="checkbox"/> No-year	

JUSTIFICATION:

The Agriculture and Related Agencies Appropriation Act, 1978 (P.L. 95-97), provides that not less than 7 percent of the total authorization for administrative expenses of the Commodity Credit Corporation shall be placed in reserve and used only in such amounts and at such times as may be necessary to carry out program operations.

ESTIMATED EFFECTS:

This deferral will have no programmatic impact and its economic and budgetary impact will be negligible.

OUTLAY EFFECTS:

There is no outlay effect resulting from this deferral.

1/ This account was the subject of a similar deferral during FY 1977.

Deferral No. D78-1

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency U.S. Department of Agriculture Bureau Agricultural Service Foreign	New budget authority (P.L. _____) Other budgetary resources 1,742,928
Appropriation title & symbol Salaries and expenses (Special Foreign Currency Program) 1/ 12X2901	Total budgetary resources 1,742,928
	Amount to be deferred: Part of year \$ 987,928 Entire year
OMB identification code: 12-2901-0-1-352	Legal authority (in addition to sec. 1013): <input checked="" type="checkbox"/> Antideficiency Act <input type="checkbox"/> Other
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other
Type of account or fund: <input type="checkbox"/> Annual <input type="checkbox"/> Multiple-year (expiration date) <input checked="" type="checkbox"/> No-year	

Justification

Title I, Sec. 104 of P.L. 480, the Agricultural Trade Development and Assistance Act of 1954 authorizes the use of foreign currencies (acquired from the sale of U.S. farm products under Title I) to carry out programs for developing new markets for U.S. agricultural commodities. The funds appropriated are used to purchase excess foreign currencies necessary to carry out the program. The funds are available until expended, and the unused balance is carried over into the next year. The amount of funds used each year is dependent upon the availability of the U.S.-owned currencies and the availability of worthwhile market development projects in the foreign countries. Current indications are that no more than \$755,000 of the reserved balances brought forward can be utilized effectively in FY 1978. This deferral action is taken under provisions of the Antideficiency Act (31 U.S.C. 665) that authorize the establishment of reserves for contingencies.

Estimated Effects

No programmatic or budgetary impact results from this deferral action. Since the funds are used to purchase currencies already owned by the U.S., any outlays shown under this account would be offset by the receipt of a like amount in another account.

Outlay Effects

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ This account was the subject of a similar deferral during FY 1977.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

NOTICES

Justification

Purchasers of National Forest timber deposit the estimated cost to the Forest Service of disposing of brush and other debris resulting from their cutting operations pursuant to 16 USC 490. The amounts becoming available in the current year are estimated and the related disposal operations are planned for the following year. Efficient program planning and accomplishment is facilitated by operating a stable program well within the amount available in any one year for this purpose. An apportionment of \$34.3 million has been requested by the Forest Service for this program in the current fiscal year compared with \$33.0 million in 1977 and \$32.0 million in 1976. The current fiscal year reserve of \$31.3 million was established pursuant to the Antideficiency Act (31 USC 665) as a reserve for contingencies compared with reserves of \$22.3 million in 1977 and \$25.1 million in 1976.

Disposal operations related to deposits made during certain periods of the year cannot be initiated until weather conditions permit. Thus, seasonal factors frequently require deferring use of deposits until the following fiscal year.

1/ This account was the subject of a similar deferral during FY 1977.

Justification

Royalties collected under licenses for use of the characters "Smoky Bear" and "Woody Owl" are permanently appropriated and utilized for furthering the nationwide forest fire prevention campaign and promoting the wise use of the environment as provided by the Act of May 23, 1952 (16 USC 711), and for Woodway Owl, (31 USC 488b-3-6). The total budgetary resources available in this program for fiscal year 1978 consist of \$145,665 in estimated receipts carried forward to fiscal year 1978 from fiscal year 1977 and \$321,000 in receipts anticipated for fiscal year 1978. Receipts with routine financial management practices maintained over the years, \$140,665 of the total budgetary resources available has been reserved. The reserve is justified on two grounds: (1) the reserve contributes to a consistent stable program level from year-to-year which, in turn, promotes more efficient operations; (2) the reserve contributes to a consistent stable program level from year-to-year which, in turn, promotes more efficient operations. For fiscal year 1978 program being funded, in part, from reserved balances carried forward from fiscal year 1977, the program is partially funded by the estimated receipts being deferred in fiscal year 1978; and (2) reservation of funds is required to avoid the possibility of a violation of the Antideficiency Act (31 USC 665, (a), (b), (h)). A violation of the sections cited could occur if all the estimates of receipts now deferred were made available and obligated while estimated receipts were not fully realized.

This reserve action is taken under provisions of the Antideficiency Act that authorize the establishment of reserves for contingencies (31 USC 665(c) (2)).

1/ This account was the subject of a similar deferral during FY 1977.

Estimated Effects

The funds made available are sufficient to carry out 1978 program objectives. If the deferred funds were made available for use and obligated in 1978, the 1979 program level would be below that conducted in the current year because some portion of 1978 receipts normally carried forward into the next fiscal year would not be available.

Release of deferred funds would necessitate development of a plan for an expanded 1978 program.

Outlay Effect

No effect on outlays results from this deferral action.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

---	---	--	---

Justification:
 Public Law 95-29, the Economic Stimulus Appropriations, 1977, authorized \$15 million for administration of the Local Public Works program to remain available until September 30, 1979. Of the \$11 million deferred from FY 1977, \$7 million is to be used in 1978 and the remaining \$4 million is to be used in 1979. These funds are being deferred to assure prudent financial management of the Local Public Works program in subsequent years. The funds could not be used effectively during the current year even if made available for obligation.

Estimated Effects:

The effect of deferring \$4 million beyond the current fiscal year will be to ensure that adequate funds will remain available to effectively administer the Local Public Works program and to provide funds for program evaluation.

Outlay Effect:

There is no outlay effect since the funds would not be used if made available.

1/ This account was the subject of a similar deferral during FY 1977.

These funds were appropriated under the Trade Expansion Act of 1962 which has been superseded by the Trade Act of 1974. The remaining balance in this account is being used only for the care and preservation of collateral and honoring guarantees made in prior years. The \$3.9 million being deferred will provide for continued care and protection of collateral in future years and provide a contingency for protection of the government's investment through the purchase of senior liens. These amounts could not be used effectively if made available for obligation.

Estimated Effects:

The effect of deferring \$3.9 million beyond 1978 will be to insure that adequate funds are available to cover costs of protecting collateral and to honor guarantees made under the Trade Expansion Act of 1962.

Outlay Effect:

There is no outlay effect of this deferral.

---	---	---	---

Justification:
 This part-of-year deferral of funds will delay initiation of construction of a fishery research vessel for the National Oceanic and Atmospheric Administration (NOAA) from the first quarter of 1978 to the third quarter of 1978. The proposed deferral is in the ship support services activity in the amount of \$3,750,000. These funds were originally appropriated in 1977 but deferred for the entire year because the expenditure of funds was not actually needed at that time to provide additional ship-days to conduct fisheries activities. This FY 1978 deferral will permit further review by the Administration of the overall NOAA ship requirements for fiscal years 1979 and 1980.

Estimated Effects:

The proposed deferral will result in the delay in construction of a Class IV fisheries research vessel for a half year. This will delay the estimated delivery date from February 1979 to August 1979. During the period construction is delayed, resource surveys in the Northwest Atlantic will continue to be conducted through existing NOAA and charter vessels and there should be no adverse impact on fisheries activities.

1/ This account was the subject of a similar deferral during FY 1977.

Outlay Effect (estimated in millions of dollars)

Comparison with President's 1978 Budget:
 1. Budget outlay estimate for 1978: \$607.1
 2. Outlay savings, if any, included in the budget outlay estimate: -0-
 Current Outlay Estimates for 1978:
 3. Without deferral: 607.1
 4. With deferral: 605.1
 5. Current outlay savings (line 3 minus line 4): 2.0
 Outlay Savings for 1979: -2.0

Type of account or fund: <input type="checkbox"/> Annual <input checked="" type="checkbox"/> Multiple-year September 30, 1980 (expiration date) <input type="checkbox"/> No-year		

Justification:

This fund was established pursuant to the Fish and Wildlife Act of 1956, as amended (16 U.S.C. 742c). Its purpose is to provide funds for loans to segments of the fishing industry unable to obtain commercial loans on reasonable terms for financing the cost of purchasing, constructing, equipping, maintaining, repairing or operating new or used fishing vessels or gear.

In 1965, the Act was amended to require the National Oceanic and Atmospheric Administration (NOAA) to pay interest to the Treasury on the difference between the available funds and the cash balance at the end of the year. The current program covers the 1978 interest liability of \$575,000 and provides \$20,000 for care and preservation of collateral throughout the year. Of the total budgetary resources in the fund, only these amounts are presently planned for expenditure in 1978 to support the estimated program requirements.

On February 20, 1973, the Administrator of NOAA declared a moratorium on accepting further loan applications effective March 1, 1973, due to a level of loans outstanding and loan applications pending which exceeded the Fund's capital. Additionally, the General Accounting Office concluded in a report issued February 22, 1973, that loans made from the Fisheries Loan Fund (1) allowed the continued use of inefficient vessels rather than improving vessels and equipment for more efficient and profitable fishing, and (2) maintained or added vessels to segments of the fishing industry which were considered to have excess, but not necessarily efficient harvesting capacity. GAO

Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Type of budget authority: <input type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input checked="" type="checkbox"/> Other 7 U.S.C. 612c	
Type of account or fund: <input type="checkbox"/> Annual <input checked="" type="checkbox"/> Multiple-year (expiration date) <input checked="" type="checkbox"/> No-year		

Justification:

An amount equal to 30% of the gross receipts from custom duties on fishery products is appropriated for fishery products research and assessment, and American fisheries resource management and development. These funds supplement the funds appropriated to National Oceanic and Atmospheric Administration for the same purposes under the Operations, research, and facilities appropriation.

The amount being deferred, \$5,428,873, represents the excess amount of receipts over the cost of currently planned program activities in FY 1978. Because no plans have been developed for use of these funds, they are requested for deferral at this time. The deferred funds are being reserved in accordance with the Antideficiency Act (31 U.S.C. 665). These funds could not be used effectively even if made available for obligation.

Estimated effects:

This deferral has no effect on the program as currently planned for FY 1978.

Outlay Effect:

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ This account was the subject of a similar deferral during FY 1977.

D78-9

recommended that the Secretary of Commerce develop criteria for evaluating vessel efficiency and priorities for directing these program funds.

The Department has determined that legislative clarification of the Act is needed to establish criteria for directing the Fund. Draft legislation is being prepared. This reserve is in accordance with the Antideficiency Act (31 U.S.C. 665). The funds could not be used effectively until there is clarification of legislative intent.

Estimated Effects:

Under the existing laws and regulations the proposed deferral has no effect on the Fisheries Loan Fund activities as planned for FY 1978.

Outlay Effect:

No outlay effect results from this deferral action.

Deferral No: D78-10

DEFERRAL OF BUDGET AUTHORITY
 Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of Commerce Bureau National Oceanic and Atmospheric Administration Appropriation title & symbol	New budget authority (P.L.) Other budgetary resources Total budgetary resources	\$ 908,626 908,626
Fishermen's Guaranty Fund 1/ 13X4318	Amount to be deferred: Part of year Entire year	\$ 715,926
OMB identification code: 13-4318-0-3-403	Legal authority (in addition to sec. 1013): <input checked="" type="checkbox"/> Antideficiency Act	
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Type of budget authority: <input type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input checked="" type="checkbox"/> Other 82 Stat. 729	
Type of account or fund: <input type="checkbox"/> Annual <input checked="" type="checkbox"/> Multiple-year (expiration date) <input type="checkbox"/> No-year		

Justification:

The Fishermen's Protective Act of 1967, as amended, provides compensation of vessel owners and crews for financial losses resulting from the seizure of United States fishing vessels by foreign governments on the high seas or on the basis of foreign rights or claims to territorial waters not recognized by the United States. Capital for this fund beginning in FY 1978 is derived from fees paid by vessel owners at rates established by the Secretary of Commerce.

The current program will finance the administrative expenses of this fund and payment of all anticipated claims leaving \$715,926 that can be deferred to cover any future seizures and subsequent claims. This reserve is in accordance with the Antideficiency Act. These funds could not be used even if made available for obligation.

Estimated Effects:

Deferral of these funds will have no effect on the Fishermen's Guaranty Fund program as currently planned for FY 1978.

Outlay Effect:

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ This account was the subject of a similar deferral during FY 1977.

	97X0700	97-0701-0-1-051	\$438,438,904

Justification

The above amounts in the listed no-year appropriations are currently deferred under provisions of the Antideficiency Act (31 U.S.C. 665) which authorizes the establishment of reserves for contingencies.

1/ None of these funds are deferred.
2/ These accounts were the subject of a similar deferral during FY 1977.

NOTICES

Due to the long period of time required to construct facilities, the Congress makes appropriations for this purpose available until expended. The above funds are deferred due to administrative delays, which prevent the object class not being completed and incomplete construction of projects with either other Federal agencies or local government agencies. Funds will be apportioned for individual projects throughout the year upon completion of project design and/or coordination.

Estimated FY 78:

These deferrals have no programmatic or budgetary effect because the funds could not be obligated at this time, even if they were made available.

Outlay Effect:

There is no outlay effect resulting from this deferral since the funds could not be used if made available.

Wildlife Conservation, etc., Military Reservations, Navy	17X5095	17X5095
Wildlife Conservation, etc., Military Reservations, Air Force	57X5095	57X5095
		\$458,399

Justification

These are permanent appropriations. The budgetary resources consist of anticipated receipts and unobligated balances generated from hunting and fishing fees collected on military reservations, pursuant to 16 U.S.C. 670. They may be used only in accordance with the purpose of the law—to carry out a program of natural resource conservation.

Since appropriations have been made for all known program requirements, prudent financial management requires the deferral of the balance of the funds, which could not be used effectively during the current year even if made available for obligation. These funds are being deferred under the provisions of the Antideficiency Act (31 U.S.C. 665). Full apportionment is not requested by the Services because (1) installations may be accumulating funds over a period of time to fund a major project, and (2) there is a seasonal relationship between the collection of fees and their subsequent expenditure. Most of the fees are collected during the winter and spring months, while most of the program work is performed during the summer and fall months. This necessitates that funds collected in a prior year be deferred in order to be available to finance the program during the summer and fall months. Additional amounts will be apportioned if program requirements are identified.

1/ These accounts were the subject of a similar deferral during FY 1977.

ESTIMATED EFFECTS

These deferrals have no programmatic or budgetary effect because the funds could not be obligated if made available.

OUTLAY EFFECT

There is no outlay effect of this deferral because the funds could not be used if made available.

JUSTIFICATION
 The amount shown as deferred results from adjustments of prior year obligations of education activity construction grants. As projects are completed the estimated obligations are adjusted to reflect actual experience. No new funds have been appropriated for this program since 1969, and there are no program plans to utilize the funds. It is possible that such funds may be needed to cover obligation adjustments.

ESTIMATED EFFECTS
 This action has no program effect, since it includes only funds that were recovered in prior years and not needed for current funding.

OUTLAY EFFECTS
 There is no outlay effect of this deferral because the funds would not be used if made available.

1/ This account was the subject of a similar deferral during FY 1977.

NOTICES

Funds provided under the limitation on construction of the Social Security Administration (SSA) remain available until expended in recognition of the long lead time between the provision of funds and their use in carrying out authorized construction projects. A total of \$13,865,200 is to be deferred for FY 1978. The amounts involved fall into two categories as discussed below.

District Office Projects

A balance of \$19,100,000 remains from funds appropriated since 1965 for district office construction projects. Of this amount, \$5,750,000 is planned for obligation in FY 1978 and \$13,350,000 is being deferred for obligation in subsequent years.

SSA has developed, with GSA and HEW, a new program for construction of district offices which will shorten the time required to construct by using pre-designed buildings. GSA has almost completed the prototype designs and site selection activities will begin for five offices in 1978. SSA will obligate about \$750,000 in 1978 for these offices. The remaining 1978 funds will be used to expand previously constructed district offices. The deferred funds will be needed in subsequent years to construct the five offices started in 1978, complete expansion of offices, and select sites and construct additional offices.

1/ This account was the subject of a similar deferral during FY 1977.

2

Funds for Headquarters Construction

In 1977, the Congress approved the use of \$2.1 million previously authorized for district office construction for use in the headquarters construction activity. This amount was to cover General Services Administration (GSA) project management costs through completion in 1979 of the two headquarters buildings—the computer building in Woodlawn and the Metro West building in downtown Baltimore. These buildings are being constructed under the purchase contract method, but purchase contract funds do not cover project management. Normally such costs are paid from GSA's Federal Buildings Fund and recovered by GSA through the Standard Level User Charges (SLUC). Since the Congress has indicated that SSA should pay only actual costs—not SLUC, SSA is billed directly for these charges. In FY 1978, \$606,800 will be obligated. The \$515,200 deferred will be obligated in FY 1979 as construction of the buildings continues.

Estimated Effects:

The funds intended to be apportioned for obligation in FY 1978 will permit SSA to carry out its authorized construction program in an orderly manner. No currently planned construction would be delayed by this deferral.

Outlay Effect:

There is no outlay effect of this deferral because the funds could not be used if made available.

NOTICES

The Interior and Related Agencies Appropriation Act for 1978 includes an indefinite no-year appropriation equivalent to 25 percent of timber sale receipts from revested Oregon and California Railroad grant lands. The appropriated receipts provide for management, development, and protection of Federal Oregon and California grant lands including the construction and maintenance of roads. Because the appropriation is based on receipts collected in the same fiscal period and the receipts are based on the timber harvested, the total amount which will be available for obligation can only be estimated. Not only may actual receipts vary from estimates, but receipts for the last two months of the fiscal period are not known in time to make programmatic adjustments to offset a possible shortfall between estimated and actual amounts. Deferral is planned to cushion fluctuating receipt levels. This deferral is taken pursuant to the Antideficiency Act (31 U.S.C. 665).

Receipts for FY 1977 are now estimated at \$225 million with an estimated unobligated balance of \$26,400,000 carried forward into FY 1978. New budget authority available in 1978 under terms of the appropriation is estimated to equal \$45,000,000. Total resources for this program equal \$71,400,000. The FY 1978 obligation program of \$40,200,000 is consistent with the FY 1978 President's Budget and results in a deferral of \$31,200,000.

1/ Estimated. The appropriation is for "an amount equivalent to 25 percent of the aggregate of all receipts during the current fiscal year from the revested Oregon and California Railroad grant lands."

2/ This account was the subject of a similar deferral during FY 1977.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

Deferral No: D78-16
DEFERRAL OF BUDGET AUTHORITY
 Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of the Interior Bureau	New budget authority (16 USC 4601, P.L. 95-74)	\$630,000,000
Appropriation title & symbol Land and Water Conservation Fund 1/ 14X5005	Other budgetary resources	126,382,000
	Total budgetary resources	756,382,000
	Amount to be deferred:	\$
	Part of year	
	Entire year	30,000,000
OMB identification code: 14-5005-0-2-303	Legal authority (in addition to sec. 1013): <input checked="" type="checkbox"/> Antideficiency Act	
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Other	
Type of account or fund: <input checked="" type="checkbox"/> Annual (The deferred funds have a one year availability) <input type="checkbox"/> Multiple-year (expiration date) <input checked="" type="checkbox"/> No-year	Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input checked="" type="checkbox"/> Contract authority <input type="checkbox"/> Other	

Justification: Under the law (16 USC 4601 (10a)), \$30 million of contract authority becomes available each fiscal year to the Land and Water Conservation Fund in addition to the \$600 million appropriation enacted for FY 1978. The authority is made available by the Congress specifically as an "Antideficiency Act" measure in purchasing authorized Federal recreation land (P.L. 90-401, Senate Report 90-1071, to accompany S.1401). This authority was last used in 1969 and 1970. Thus, the contract authority is spent in fiscal years 1971-1977. The funds will be utilized in the future, as in the past, on a special case basis for emergency situations consistent with our understanding of congressional intent.

In accordance with provisions of the Antideficiency Act (31 USC 665), the \$30 million has been deferred. This contract authority lapses at the end of each fiscal year in which it is not used. An equal amount becomes available at the beginning of the next fiscal year.

The other funds in this account are the FY 1978 appropriation and estimated prior-year balances of direct appropriations that have been made available for obligation.

Estimated Effects:

This reserve for contingencies has no fiscal, economic or budgetary effect in the current year. The funds would be made available and obligated only in unforeseeable circumstances.

1/ This account was the subject of a similar deferral during FY 1977.

Estimated Effects:

There will be no programmatic impact in FY 1978.

Outlay Effect:

There is no outlay effect of this deferral.

NOTICES

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

DEFERRAL OF BUDGET AUTHORITY
 Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of the Interior Bureau Geological Survey	New budget authority (P.L. _____)	\$
Appropriation title & symbol Payments from Proceeds, Sale of Water, Mineral Leasing Act of 1920, Sec. 40(d) 1/ 14X5662	Other budgetary resources (est.)	34,000
	Total budgetary resources	34,000
	Amount to be deferred:	\$
	Part of year	
	Entire year	34,000

Type of account or fund: <input type="checkbox"/> Annual <input type="checkbox"/> Multiple-year (expiration date) <input checked="" type="checkbox"/> No-year	Type of budget authority: <input type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input checked="" type="checkbox"/> Other—permanent, indefinite, special	

Justification

Section 40(d) of the Mineral Leasing Act of 1920 (30 U.S.C. 229(a)) provides that when lessees or operators drilling for oil or gas on public lands strike water, water wells may be developed by the Department from the proceeds from sale of water from existing wells. Receipts have been accruing to this permanent account at the rate of about \$1,500 per year. At the start of fiscal year 1965, the account had an unobligated balance of \$16,000. It is estimated that by the start of fiscal year 1978 the unobligated balance will be \$34,000. None of these receipts have been obligated over the past ten years and none are planned for obligation in fiscal year 1978 because the total available is too small to be put to practical use for the purpose designated by law. Deferral is planned because funds could not be used effectively during the current period even if made available for obligation. This reserve action is taken pursuant to the Antideficiency Act [31 U.S.C. 665 (c)].

Estimated Effects

There will be no programmatic or outlay impact in fiscal year 1978 since the receipts will continue to accrue but will remain unobligated until such time as an amount is available which can be used for effective purposes.

Outlay Effect

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ This account was the subject of a similar deferral during FY 1977.

Outlay Effect:

There is no outlay effect of this deferral because the funds would not be used if made available.

Deferral No: D78-18

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of the Interior	New budget authority (P.L. 93-344)	\$ 110,444,000
Bureau Office of Territorial Affairs	Other budgetary resources	24,000,000
Appropriation title & symbol	Total budgetary resources	134,444,000
Drainage of Anthracite Mines 1/	Amount to be deferred:	
14X0956	Part of year	\$ 12,000,000
	Entire year	
OMB identification code: 14-9911-0-1-306	Legal authority (in addition to sec. 1013):	
Grant program <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Antideficiency Act	
Type of account or fund: <input checked="" type="checkbox"/> Annual <input type="checkbox"/> Multiple-year (expiration date)	<input checked="" type="checkbox"/> Matching grant provision of Other P.L. 94-219, 469 Stat 460	
Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other		

Justification: Funds totaling \$200,000 have been apportioned for this account to match funds anticipated to be made available by the Commonwealth of Pennsylvania for water monitoring stations and for sealing and other public health and safety projects. The remaining unobligated balance is being deferred because the Commonwealth of Pennsylvania is not expected to provide further matched funding during the year.

Estimated Effects: No FY 78 program impact will result from this deferral. A change in the matching provision of the original legislation would be required if the Congress desired to make available the funds currently being deferred. These funds are anticipated to be deferred through September 30, 1978.

Outlay Effect: There is no outlay effect of this deferral because the funds could not be used if made available.

1/ This account was the subject of a similar deferral during FY 1977.

NOTICES

Justification: The FY 1978 Department of the Interior appropriation act provided \$12,000,000 in construction funds for an airport in the Kosrae District of the Trust Territory of the Pacific Islands. As no transportation needs survey has been done for the Kosrae District, the Administration is not convinced that the \$17,000,000 airport that this appropriation would initiate is necessary or cost effective in meeting the needs of this District (with a population of 4,000). The Office of Management and Budget has requested the Department of the Interior to evaluate the District's transportation needs and to propose alternative airport designs to meet those needs at reduced costs, if such reductions are feasible and cost effective. Until the evaluation is completed, the \$12,000,000 will be deferred.

Estimated Effects: This deferral will delay the advertising of the airport construction contract for a period of three to six months.

Outlay Effect: If the full \$17,000,000 airport is funded and constructed an estimate of \$1,000,000 in outlays would be shifted from 1978 to 1979 as a result of this deferral. Outlays would be reduced by an undetermined additional amount if a lower cost facility is ultimately chosen.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

Deferral No: D78-40

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency Interstate Commerce Commission	New budget authority (P.L. 93-344)	\$ 14,610,000
Bureau	Other budgetary resources	14,610,000
Appropriation title & symbol	Total budgetary resources	14,610,000
Directed Rail Service 1/	Amount to be deferred:	
30X0103	Part of year	\$ 13,700,000
	Entire year	
OMB identification code: 30-0103-0-1-404	Legal authority (in addition to sec. 1013):	
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input checked="" type="checkbox"/> Antideficiency Act	
Type of account or fund: <input type="checkbox"/> Annual <input checked="" type="checkbox"/> Multiple-year (expiration date)	<input type="checkbox"/> Other	
Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other		

Justification: The directed rail service program provides subsidy funds to maintain rail service for up to eight months over the lines of any carrier not able to provide service due to bankruptcy or other reasons. The funds to be deferred would be used for continuation of Rock Island Rail Service (or other railroads). Subsidy funds are payable 90 days following completion of the service; therefore, the funds are not expected to be needed at this time since the Rock Island remains operational. (Section 1 (16)(b) of the Interstate Commerce Act.)

Estimated Effects:

There will be no programmatic, fiscal, budgetary or economic impact since the budget authority may only be utilized at the direction of the Commission when rail carriers discontinue service. No such discontinuations are anticipated at this time, but should the need arise, there would be a lead time of 11 months prior to required outlay of these funds. This budget authority was sought on a contingency basis to allow the Commission to enter into subsidy obligations when and if necessary.

Outlay Effect:

There is no outlay effect of this deferral because the funds are not expected to be needed.

1/ This account was the subject of a similar deferral during FY 1977.

NOTICES

<input type="checkbox"/> Annual	<input checked="" type="checkbox"/> Appropriation	
<input type="checkbox"/> Multiple-year (expiration date)	<input type="checkbox"/> Contract authority	
<input checked="" type="checkbox"/> No-year	<input type="checkbox"/> Other	

Coverage	Total Budgetary Resources	Amount Deferred
Civil Supersonic Aircraft Development		
Termination.....	\$80,344	\$80,344
Civil Supersonic Aircraft Development....	53,949	53,949
Total.....	\$134,293	\$134,293

Justification
 This account finances the termination of the supersonic transport development program. The total cost of settlement of contractor claims and closeouts, airline refunds, completion of specifically designated technology programs, and necessary governmental administrative costs incidental to these activities is included. These funds were appropriated in the Department of Transportation and Related Agencies Appropriation Acts of 1971 and 1972. Because of the difficulty in ending such a complex and massive undertaking, termination has taken a number of years. Settlement is being accomplished as quickly as possible consistent with the legitimate claims of the contractors and the protection of government interests.

Estimated Effects
 This deferral action has no programmatic or budgetary effect.

Outlay Effect
 There is no outlay effect of this deferral because the funds would not be used if made available.

1/ This account was the subject of a similar deferral during FY 1977.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

D78-41

2

It is now estimated that the 1978 beginning-of-year unobligated balance for this account, plus anticipated recoveries and reimbursements from other agencies, will amount to \$3,756,000, or \$1,058,000 more than the sum estimated in the 1978 Budget. The additional unobligated balances were realized primarily from program reductions in India and added recovery of prior year obligations. Other resource adjustments will further reduce requirements in 1978 by \$95,000, resulting in a total program of \$9,660,000. Since total availabilities of \$10,813,000 in this account for 1978 exceed program requirements by \$1,153,000, that amount has been deferred for the entire year. These funds will be available for use in 1979, reducing the need for new appropriations in 1979 accordingly. These funds are being reserved in accordance with the Antideficiency Act (31 U.S.C. 665).

Estimated Effects

None. The amount deferred could not be obligated before fiscal year 1979.

Outlay Effect

There is no outlay effect of this deferral, because the funds would not be obligated if made available.

<input type="checkbox"/> Multiple-year (expiration date)	<input checked="" type="checkbox"/> Appropriation	
<input checked="" type="checkbox"/> No-year	<input type="checkbox"/> Contract authority	
	<input type="checkbox"/> Other	

Justification
 This appropriation finances planning, acquisition of sites, and construction of new penal and correctional facilities as well as construction, remodeling, and equipping of necessary buildings and facilities at existing penal and correctional institutions. Projects are undertaken to reduce overcrowding, close old and antiquated penitentiaries, and provide a safe and humane environment for staff and inmates. These funds were appropriated in the Department of State, Justice, and Labor, Due to the time required for planning, site acquisition, design efforts, and selection of contractors, it is not possible to complete the construction, renovation, and rehabilitation associated with these projects during FY 1978. This deferral is consistent with the congressional intent to provide no-year funding for the total cost of these projects and is taken under provisions of the Antideficiency Act (31 U.S.C. 665).

Estimated Effects

The amount deferred could not be economically used, if made available, in fiscal year 1978, because of the planned and phased procurement, construction and installation cycle.

Outlay Effect

In FY 1978 there is no outlay effect of this deferral.

1/ This account was the subject of a deferral during FY 1977.

Estimated Effects:

This deferral action is consistent with normal operation for this program. The amount deferred could not be economically used if made available in FY 1978 because of the planned multi-year procurement, construction, and installation cycle.

Outlay Effect:

There is no outlay effect of this deferral because the funds could not be used if made available.

Justification:

This appropriation finances construction of major improvements and expansion of facilities at Washington National and Dulles International Airports. Projects are undertaken to insure capability of these airports to adequately, safely, and efficiently meet air travel needs of the public and to promote development of aviation. These funds were appropriated in the Department of Transportation and Related Agencies Appropriation Act of 1978 and in previous years. Due to the time required for engineering studies, design efforts, and the selection of the engineering consulting firms, it is not possible to complete the construction effort associated with these projects during FY 1978. This deferral is consistent with the Congressional intent to provide multi-year funding for total costs of these projects and is taken under provisions of the Antideficiency Act (31 U.S.C. 665).

Estimated Effects:

The amount deferred could not be economically used, if made available, in fiscal year 1978, because of the planned multi-year procurement, construction, and installation cycle.

Outlay Effect:

There is no outlay effect of this deferral.

- 1/ The account was the subject of a deferral during FY 1977.
 2/ None of these funds are deferred.

NOTICES

(In thousands of dollars)

Origin of contract authority	1974	1975	1976	TQ	1977	1978	Total
1973 Highway Act:							
Trust Fund	10,000	25,000	25,000				60,000
General Fund	10,000	10,000	10,000				30,000
1976 Highway Act:							
Trust Fund				6,250	25,000	25,000	56,250
TOTALS	20,000	35,000	35,000	6,250	25,000	25,000	146,250
Trust Fund	(10,000)	(25,000)	(25,000)	(6,250)	(25,000)	(25,000)	(116,250)
General Fund	(10,000)	(10,000)	(10,000)				(30,000)

In fiscal year 1976, \$90,000,000, the full amount of contract authority available at that time, was apportioned for use and allocated to the States (with the exception of a \$10 million for discretionary reserve).^{4/} However, as of September 30, 1977, it is estimated that the States will have obligated only \$21,370,000 (\$10,747,000 Trust Fund and \$10,623,000 General Fund).

A deferral of \$74,880,000 of contract authority is proposed for several reasons:

- State plans for fiscal year 1978 indicate that no more than \$50,000,000 (\$30,623,000 Trust Fund and \$19,377,000 General Fund) will be obligated, falling short of the total amount available by \$74,880,000 (Trust Fund).
- This \$74,880,000 is clearly not needed at this time and should be deferred.
- The \$50,000,000 obligation level is considered adequate for this program.

Estimated Effects:

This deferral will have no programmatic effect. Current plans indicate that the amount deferred would not be obligated by the States this fiscal year.

Outlay Effect:

There is no outlay effect of this deferral because the funds would not be expected to be used if made available.

^{4/} Some States may be unable to obligate, in a timely fashion, all funds allocated to them. Therefore, if DOT allocated the entire \$90 million among the States, some of the funds might lapse. The DOT discretionary authority was established to provide the States with funds to obligate, which would make the entire program in obligating their allocated funds (and, thereby, reducing the risk of a funding lapse).

Type of account or fund: <input type="checkbox"/> Annual 697/98107 Sept. 30, 1978 2/ <input checked="" type="checkbox"/> Multiple-year 698/08107 Sept. 30, 1980 (expiration date)	Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other	

Justification:

Funds from this account are used to procure specific Congressionally approved facilities and equipment for the expansion and modernization of the national airway system. Projects financed from this account include construction of buildings and purchase of equipment for new or improved air traffic control towers, automation of the en route airway control system and improvement in the navigational and landing aid systems. These funds were appropriated in the Department of Transportation and Related Agencies Appropriation Acts of 1978 and prior years. The estimated total cost for each project is included in the budget submission and appropriation for the year in which it is requested. Because of the lengthy procurement and construction time for interrelated new facilities and complex equipment systems, it is not possible to obligate all funds necessary to complete each project in the year funds are appropriated. Therefore, it is necessary to apportion funds so that sufficient resources will be available in future periods to complete these projects. This deferral action is consistent with the Congressional intent to provide multi-year funding for the total costs of these projects and is taken under provisions of the Antideficiency Act (31 U.S.C. 665) which authorize the establishment of reserves for contingencies.

- 1/ This account was the subject of a similar deferral during FY 1977.
 2/ None of these funds are deferred.

JUSTIFICATION

The National Scenic and Recreation Highway (Great River Road) was authorized by the Federal-Aid Highway Act of 1973 for the purpose of constructing a two-lane scenic highway in the ten States bordering the Mississippi River. The Great River Road spans over 2,000 miles. The contract authority provided for this program is liquidated through both the Highway Trust Fund and the General Fund. A total of \$146,250,000 in contract authority has been made available through fiscal year 1978 for the program. Of this total, \$90,000,000 was made available in the Federal-Aid Highway Act of 1973, and \$56,250,000 was made available in the Federal-Aid Highway Act of 1976. The Highway Trust Fund Share of the \$146,250,000 total is \$116,250,000 (\$74,880,000 of this amount to be deferred), with the balance of \$30,000,000 constituting the General Fund Share. The following table displays the origin of the \$146,250,000 in contract authority provided through 1978.

- 1/ This amount is the portion of "Trust Fund Share of Other Highway Programs" made available for the Great River Road. Total funds available to the "Trust Fund Share of Other Highway Programs" is \$137,937,896.
 2/ This account was the subject of a similar deferral during FY 1977. While each portion of contract authority is available for four years, the cash to liquidate the contract authority is available until expended.
 3/ None of these funds are deferred.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

Outlay Effect (Estimated in millions of dollars):

Comparison with President's FY 1978 Budget:
 1. Budget outlay estimate for FY 1978..... \$6,813.9
 2. Outlay savings, if any, included in the budget outlay estimate..... -0-
 Current Outlay Estimates for FY 1978:
 3. Without deferral..... 46.0 3/
 4. With deferral..... 10.6
 5. Current outlay savings (line 3 - line 4)..... 35.4
 Outlay savings for FY 1979..... -17.7
 Outlay savings for FY 1980..... -17.7

- 3/ Does not include outlays from the regular 1978 general revenue sharing appropriation which had not been enacted at the time this report was prepared.

Deferral No: D78-26

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of the Treasury	New budget authority (P.L. 94-369)	\$ 180,311,000
Bureau Office of the Secretary	Other budgetary resources	180,311,000
Appropriation title & symbol Antirecession Financial Assistance Fund 1/ 207/80108	Total budgetary resources	180,311,000
	Amount to be deferred:	
	Part of year	\$ 8,184,000
	Entire year	
OMB identification code: 20-0108-0-1-852	Legal authority (in addition to sec. 1013):	
	<input checked="" type="checkbox"/> Antideficiency Act	
Grant program <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Other	P.L. 94-369, P.L. 95-30
Type of account or fund:	Type of budget authority:	
<input type="checkbox"/> Annual	<input checked="" type="checkbox"/> Appropriation	
<input checked="" type="checkbox"/> Multiple-year September 30, 1978	<input type="checkbox"/> Contract authority	
<input type="checkbox"/> No-year	Other	

JUSTIFICATION

This deferral represents that remaining portion of the transition quarter and FY 1977 appropriation which the Secretary of the Treasury must hold in reserve to meet valid claims from State and local governments that past antirecession financial assistance payments to them were too small. Because the total amount appropriated for all governments is fixed, the alternative to such a reserve is recurring recomputations of entitlements of 22,930 governments for prior entitlement periods. Accordingly, the Office of Revenue Sharing has withheld from obligation an amount equal to one-half of one percent of the amounts appropriated for the transition quarter and FY 1977.

This cumulative unobligated reserve, totaling \$8.2 million, is available to the Secretary of the Treasury to satisfy legitimate claims against the fund for prior entitlement periods. The unobligated amount retained in the fund will be reduced whenever the Secretary determines that a lesser amount is adequate to meet foreseeable liabilities against the fund. This reduction will be made by paying the additional amount to recipients as part of a regular distribution of other funds provided for this program.

Estimated Effect:
 This action will postpone distribution of the amount of the reserve until necessary adjustments and corrections have been identified. It will also avoid substantial confusion and complexities in the administration of the program. The entire amount of this reserve is expected to be paid out before the end of fiscal 1978.

- 1/ This account was the subject of a similar deferral during FY 1977.

Deferral No: D78-29

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of the Treasury	New budget authority (P.L. 95-161)	\$ 5,729,883

<input type="checkbox"/> Annual	<input checked="" type="checkbox"/> Appropriation	
<input checked="" type="checkbox"/> Multiple-year (expiration date)	<input type="checkbox"/> Contract authority	
<input type="checkbox"/> No-year	Other	

JUSTIFICATION

This appropriation provides for construction of buildings and acquisition of new furnishings and equipment for new mint facilities. Currently, construction of new mint facilities is being delayed until the proposed changes to the U.S. coinage system are resolved, a delay which has caused the need for a new mint, and the authorizing legislation to construct new mint facilities is enacted. The Bureau of the Mint has instructed the General Services Administration to defer any construction expenditures until these issues are resolved.

Estimated Effects:

This action will delay the construction program pending authorization to construct a new mint.

Outlay Effect: (estimated in millions of dollars)

Comparison with President's 1978 Budget:
 1. Budget outlay estimate for 1978..... .05
 2. Outlay savings, if any, included in the budget outlay estimate.. 0
 Current outlay estimate for 1978
 3. Without deferral..... .05
 4. With deferral..... .05
 5. Current outlay savings (line 3-line 4)..... .05 1/
 Outlay savings for 1979..... 0

- 1/ These outlays will be made once the issues delaying construction are resolved. Therefore, there are no permanent outlay savings related to this deferral.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

Deferral No: D78-31
 DEFERRAL OF BUDGET AUTHORITY
 Report Pursuant to Section 1013 of P.L. 93-344

Agency Bureau	Research and Development Administration Bureau	New budget authority (P.L. 95-96 and 95-74)	\$5,107,933,000
		Other budgetary resources	1,935,840,000
		Total budgetary resources	7,043,773,000

(Plenum Fill Experiment)			
OMB identification code:	89-0100-0-1-999		
Legal authority (in addition to sec. 1013):	Antideficiency Act		
Grant program	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		
Type of account or fund:			
<input type="checkbox"/> Annual			
<input type="checkbox"/> Multiple-year (expiration date)			
<input checked="" type="checkbox"/> No-year			
Type of budget authority:			
<input type="checkbox"/> Appropriation			
<input type="checkbox"/> Contract authority			
<input type="checkbox"/> Other			

Justification

It has been determined that the Plenum Fill project, an experimental fission reactor research facility, is not needed as part of the overall energy program. The deferred funds were provided for this experiment in prior years. The deferral is planned to be maintained while the desirability of future funding for related experiments is studied during the 1979 budget review process. Depending on the outcome of the review, the funds will either be proposed for reprogramming or rescission.

Estimated Effect

Since there has been no activity on this project since FY 1976, this deferral action has no effect on current program plans.

Outlay Effect

There is no outlay effect resulting from this deferral.

1/ This account is the subject of another deferral, D78-30.

2/ This account, although not this project, was the subject of deferrals during FY 1977.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

<input type="checkbox"/> Annual			
<input type="checkbox"/> Multiple-year (expiration date)			
<input checked="" type="checkbox"/> No-year			
Type of budget authority:			
<input type="checkbox"/> Appropriation			
<input type="checkbox"/> Contract authority			
<input type="checkbox"/> Other			

Justification

The Secretary of the Treasury must hold in reserve an amount to meet valid claims from State and local governments that past general revenue sharing payments to them were too small. Because the total amount appropriated for all governments is fixed, the alternative to such a reserve is recurring recomputations of entitlements of 39,170 governments for prior entitlement periods. Accordingly, the Office of Revenue Sharing withheld from obligation an amount equal to one-half of one percent of the amounts appropriated for each entitlement period through FY 1975. In addition, one-half of one percent of the \$4,991,111 appropriation for general revenue sharing in the Economic Stimulus Appropriations Act, 1977 (Public Law 95-29) was also withheld from obligation.

This cumulative unobligated reserve is available to the Secretary of the Treasury to satisfy legitimate claims against the Trust Fund for prior entitlement periods. The unobligated amount of \$46 million retained in the Trust Fund will be reduced whenever the Secretary determines the amount is adequate to meet foreseeable liabilities against the Trust Funds. The reduction will be made by paying the additional amount to recipients as part of a regular distribution of other funds provided for this program.

Estimated Effect

This action will postpone distribution of the amount of the reserve until necessary adjustments and corrections have been identified. It will also avoid substantial confusion and complexities in the administration of the program.

1/ This account is the subject of another deferral, D78-28.

2/ This account was the subject of a similar deferral during FY 1977.

 Deferral No: D78-28

Type of account or fund:			
<input type="checkbox"/> Annual			
<input type="checkbox"/> Multiple-year (expiration date)			
<input checked="" type="checkbox"/> No-year			
Type of budget authority:			
<input type="checkbox"/> Appropriation			
<input type="checkbox"/> Contract authority			
<input type="checkbox"/> Other			

Justification

The State and Local Government Fiscal Assistance Trust Fund is the vehicle for disbursement of general revenue sharing funds. Scheduled payments to State and local governments are made on a quarterly basis. This deferral represents payments which have been withheld from various governments involved in annexations or disincorporations and for reasons of noncompliance with the requirements of the State and Local Fiscal Assistance Act, as amended.

Estimated Effect

The release of these funds is contingent upon adherence by the various governments to the compliance regulations, and determinations as to which higher level of government is eligible to receive those funds withheld because of annexations and disincorporations.

Outlay Effect

There is no outlay effect of this deferral because the funds will be made available this fiscal year.

1/ This account is the subject of another deferral, D78-27.

2/ This account was the subject of a similar deferral during FY 1977.

3/ Outlays only. The outlays being deferred were obligated in fiscal year 1977 and, therefore, are not reflected in the total budgetary resources available for obligation in fiscal year 1978.

 Deferral No: D78-33

<input checked="" type="checkbox"/> No-year			
Type of budget authority:			
<input checked="" type="checkbox"/> Appropriation			
<input type="checkbox"/> Contract authority			
<input type="checkbox"/> Other			

Justification

The amount deferred was appropriated in the Public Works for Water and Power Development and Energy Research Appropriation Act, 1978, for the Fusion Material Test Facility project. The Administration has not yet fully reviewed the role of this project in the context of the overall fusion program nor the construction plans and cost estimates for this specific facility. Such a review is being conducted as part of the 1979 budget review process. The deferral is planned to be in effect until the review is completed.

Estimated effect

This deferral action is being taken to allow for normal program reviews which must be accomplished before funds are obligated for the facility. The deferral will have no adverse effect on current plans for the project.

Outlay effect

There is no outlay effect resulting from this deferral since it will be maintained for only a short period of time.

1/ This account is the subject of other deferrals, D78-32, D78-34,

D78-35, and D78-36.

2/ This account, although not this project, was the subject of deferrals during FY 1977.

Deferral No: D78-30
 DEFERRAL OF BUDGET AUTHORITY
 Report Pursuant to Section 1013 of P.L. 93-344

Agency Energy Research and Development Administration Bureau	New budget authority (P.L. 95-56 and 95-74) Other budgetary resources	\$1,107,933,000 1,935,840,000
Appropriation title & symbol Operating expenses 1/2/ 89 X 0100 (Gas Cooled Reactors)	Total budgetary resources	7,043,773,000
Amount to be deferred: Part of year Entire year		\$ 15,000,000
OMB identification code: 89-0100-0-1-999	Legal authority (in addition to sec. 1013): <input type="checkbox"/> Antideficiency Act	
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other	
Multiple-year (expiration date) <input checked="" type="checkbox"/> No-year		

Justification
 These funds are part of a larger amount appropriated in the Public Works for Water and Power Development and Energy Research Appropriation Act, 1978, for the Gas Cooled Reactor program. Since detailed program plans and financial arrangements with private sector participants in the Gas Cooled Reactor program have not yet been developed and coordinated, this budget authority, totaling \$15,000,000, is deferred. This deferral will provide the time required to assure that these funds are utilized in an effective and efficient manner.

Estimated Effect
 The planning and necessary administrative coordination is not expected to take more than a few weeks. This delay is not expected to affect the Gas Cooled Reactor program significantly.

Outlay Effect
 No outlay effect is expected from this deferral, since it will be in effect for only a short time.

1/ This account is the subject of another deferral, D78-31.
 2/ This account, although not this project, was the subject of deferrals during FY 1977.

NOTICES

Justification
 The amount deferred was appropriated in the Public Works for Water and Power Development and Energy Research Appropriation Act, 1978, for the Intersecting Storage Ring Accelerator project. The Administration has not yet fully reviewed the role of this project in the context of the overall high energy physics program nor the construction plans and cost estimates for this specific facility. Such a review is being conducted as part of the 1979 Budget review process. The deferral is planned to be in effect until the review is completed.

Estimated effect

This deferral action is being taken to allow for normal program reviews which must be accomplished before funds are obligated for the facility. The deferral will have no adverse effect on current plans for the project.

Deferral No: D78-37
 DEFERRAL OF BUDGET AUTHORITY
 Report Pursuant to Section 1013 of P.L. 93-344

Agency General Services Administration Bureau	New budget authority (P.L. 95-56 and 95-74) Other budgetary resources	\$ 2,110,000 2,110,000
Appropriation title & symbol Rare Silver Dollar Program 1/ 47X0101	Total budgetary resources	2,110,000
Amount to be deferred: Part of year Entire year		\$ 1,710,000
OMB identification code: 47-0701-0-1-999	Legal authority (in addition to sec. 1013): <input checked="" type="checkbox"/> Antideficiency Act	
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other	
Multiple-year (expiration date) <input checked="" type="checkbox"/> No-year		

Justification
 This deferral action is taken under the provisions of the Antideficiency Act (31 U.S.C. 655), which authorizes the establishment of reserves for contingencies. Funds were appropriated in 1972 and 1973, without fiscal year limitation, for operating costs for disposal of rare silver dollars. To date, roughly \$60.4 million (gross receipts) of silver dollars have been sold, with approximately \$26.5 million still available for sale. However, current sales procedures severely restrict the amount of remaining coins which may be sold under the existing appropriation. The contingency of \$1,710,000 reflects revised disposal plans suspending all coin sales until legislation is passed revising current sales methods. Sales using past procedures are no longer deemed economically feasible, and consideration is being given to the effects of alternative terms and conditions on future Government sales of the coins as well as on the coin market in general.

Estimated Effects

The deferral of funds for operating expenses will have no adverse effect on the silver dollar sales program since current sales procedures have limited the amount of marketable coins. New legislation has been proposed to provide revised sales methods.

1/ This account was the subject of a similar deferral during FY 1977.

Deferral No: D78-32
 DEFERRAL OF BUDGET AUTHORITY
 Report Pursuant to Section 1013 of P.L. 93-344

Agency Energy Research and Development Administration Bureau	New budget authority (P.L. 95-56 and 95-74) Other budgetary resources	\$1,692,819,000 65,960,000
Appropriation title & symbol Plant and Capital Equipment 1/2/ 89 X 0103 (Clean Boiler Fuel from Coal Project)	Total budgetary resources	1,758,779,000
Amount to be deferred: Part of year Entire year		\$ 46,660,000
OMB identification code: 89-0103-0-1-999	Legal authority (in addition to sec. 1013): <input type="checkbox"/> Antideficiency Act	
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other	
Multiple-year (expiration date) <input checked="" type="checkbox"/> No-year		

Justification
 The amount deferred is made up of unobligated balances appropriated for 1977 and prior years for the Clean Boiler Fuel from Coal Project (Coalcon). These balances are not required for obligation in FY 1978 due to technical difficulties which prevent further work on the project. These funds will be held in reserve pending a decision on reprogramming options. Funds not needed for reprogramming to other activities will be proposed for reacquisition in FY 1978.

Estimated Effect

There are no programmatic or budgetary effects resulting from the deferral. Funds are not now planned to be obligated because the project is undergoing a technical review.

Outlay Effect

Since technical difficulties with the project prevent the use of these funds, no outlay savings are attributable to this deferral action.

1/ This account is the subject of other deferrals, D78-33, D78-34, D78-35, and D78-36.
 2/ This account was the subject of a similar deferral during FY 1977.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

	Amount to be deferred: <u>\$ 11,300.00</u> Part of year _____ Entire year _____
	Legal authority (in addition to sec. 1013): <input type="checkbox"/> Antideficiency Act <input type="checkbox"/> Other _____ Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other _____

Justification

The Administration believes that project 76-5-b, 14 MEV intense Neutron Source, Los Alamos Scientific Laboratory, New Mexico, is not needed as part of its Magnetic Fusion Energy Program. The Administration's proposed FY 1978 authorization bill for the Energy Research and Development Administration (ERDA) includes a provision to eliminate the existing authorization for appropriations for this project. Pending final congressional action, the ERDA FY 1978 authorization bill will provide for the continuing project use of additional funds while the authorization bill is being considered.

Estimated effects

The project is currently in the architectural engineering phase. This deferral will have no effect on these activities. The effect of the deferral on total project costs and the project completion date cannot be determined pending resolution of project funding; the authorized funding is insufficient to complete the project and no funds have been appropriated for FY 1978.

Outlay effect

Outlay effects resulting from the deferral cannot now be gauged since they are dependent upon the time required for enactment of the FY 1978 ERDA Authorization Act.

Subject to the subject of other deferrals, D78-32, D78-33, D78-35,

and D78-36. The account was the subject of a similar deferral during FY 1977.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

Agency Energy Research and Development Administration		New budget authority (P.L. 95-96 and 95-74)	\$1,692,819,000

Justification: Public Law 91-289, approved June 24, 1970, authorizes the Foreign Claims Settlement Commission to adjudicate and attempt to pay the claims of American military and civilian personnel who were killed during the Vietnam conflict, or their survivors. Pending claims are paid during the Vietnam conflict, or the appropriate military services must determine the individual's POW status and, in the case of claims by survivors of missing persons where evidence of captivity exists, it also must determine the date of death. Such determinations have been delayed pending the results of efforts to account for missing United States servicemen. On August 16, 1977, however, it was announced that status review of servicemen still listed as prisoners of war or missing action would be resumed.

A total of \$16,565,000 was appropriated during 1971, 1972, and 1973 for the Vietnam POW claims program to remain available until expended. The Commission now has certified \$5,377,000 for the payment of claims. Of the \$11,188,000 remaining available, \$450,000—the amount estimated to be necessary to pay prisoner of war claims resulting from new status determinations anticipated in 1978—has been apportioned for 1978 and \$10,738,000 has been reserved. This deferral of 1978 budgetary resources is necessary to achieve the most economical use of appropriations (31 U.S.C. 665(c)(1)) and to provide for contingencies after 1978 (31 U.S.C. 665(c)(2)).

Estimated Effects No savings result from the deferral, since claims cannot be

Estimated Effects. No savings result from the deferral, since claims cannot be adjudicated or certified for payment by the Commission until final status determinations are made by the military services.

Outlay Effect No effect on outlays results from this deferral action.

⁷ This account was the subject of a similar deferral during FY 1977.

JUSTIFICATION

The United States Information Agency is authorized by the United States Information and Educational Exchange Act of 1948, as amended (22 U.S.C. 1431 et seq.), Reorganization Plan No. 8 of 1953, the Mutual Education and Cultural Exchange Act of 1961 (22 U.S.C. 2451 et seq.), and Executive Order No. 11034 of June 25, 1962, as amended, to carry out international information activities abroad by the dissemination of information about the United States, its people, and its policies.

The Foreign Relations Authorization Act, Fiscal Year 1978 (P.L. 95-105, approved August 17, 1977) authorized to be appropriated for fiscal year 1978, \$269,286,000 for "Salaries and expenses" and "Salaries and expenses (special foreign currency program)" for USA. The Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriation Act, 1978, (P.L. 95-86, approved August 2, 1977) appropriated \$7,057,000 to remain available until expended, for the "Salaries and expenses (special foreign currency program)" account. The account is used for payment of USA local program expenses in U.S.-owned foreign currencies in those countries where the Department of the Treasury determines that the supply of currencies is in excess of the normal requirements of the U.S. Government. In fiscal year 1978 the "excess" currency countries are: Burma, Guinea, India, Pakistan, and Egypt. It was estimated in the 1978 Budget that additional budgetary resources of \$2,698,000 would be available for 1978 from prior year unobligated balances brought forward, recovery of prior year obligations, and anticipated reimbursements from other agencies. Thus, total obligations of \$9,755,000 were planned for 1978 in the 1978 Budget.

1/ This account was the subject of a similar deferral during FY 1977.

Grant program	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Type of budget authority:	<input checked="" type="checkbox"/> Appropriation
Type of account or fund:	<input type="checkbox"/> Annual <input type="checkbox"/> Multiple-year (expiration date)		<input type="checkbox"/> Contract authority
	<input checked="" type="checkbox"/> No-year		<input type="checkbox"/> Other

JUSTIFICATION

Funds were appropriated in Public Law 94-252 to be used by the U.S. Railway Association to purchase securities of the Consolidated Rail Corporation (Conrail) pursuant to the Regional Rail Reorganization Act, as amended. Although appropriated, these funds are not required at this time to support the rehabilitation program and working capital needs of Conrail. The amount deferred is not expected to be needed during the current fiscal year. These funds are being reserved in accordance with the Antideficiency Act (31 U.S.C. 665).

Estimated Effects:

This deferral action has no effect on the program as currently planned in FY 1978.

Outlays Effects:

There is no outlay effect for this deferral since, under present projections, funds would not be used if made available.

1/ This account was the subject of a similar deferral during FY 1977.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

Deferral No: D78-40

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 95-344

Agency Interstate Commerce Commission	New budget authority (P.L. _____)	\$ 14,610,000
Bureau	Other budgetary resources	14,610,000
Appropriation title & symbol	Total budgetary resources	14,610,000
Directed Rail Service 1/ 30X0103	Amount to be deferred:	\$
	Part of year	
	Entire year	13,700,000
OMB identification code: 30-0103-0-1-404	Legal authority (in addition to sec. 1013): <input checked="" type="checkbox"/> Antideficiency Act	
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Other	
Type of account or fund: <input type="checkbox"/> Annual <input type="checkbox"/> Multiple-year (expiration date) <input checked="" type="checkbox"/> No-year	Type of budget authority: <input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other	

Justification:

The directed rail service program provides subsidy funds to maintain rail service for up to eight months over the lines of any carrier not able to provide service due to bankruptcy or other reasons. The funds to be deferred would be used for continuation of Rock Island Rail Service (or other railroad). Subsidy funds are payable 90 days following completion of the service; therefore, the funds are not expected to be needed at this time since the Rock Island remains operational. (Section 1 (16)(b) of the Interstate Commerce Act.)

Estimated Effects:

There will be no programmatic, fiscal, budgetary or economic impact since the budget authority may only be utilized at the direction of the Commission when rail carriers discontinue service. No such discontinuations are anticipated at this time, but should the need arise, there would be a lead time of 11 months prior to required outlay of these funds. This budget authority was sought on a contingency basis to allow the Commission to enter into subsidy obligations when and if necessary.

Outlay Effect:

There is no outlay effect of this deferral because the funds are not expected to be needed.

1/ This account was the subject of a similar deferral during FY 1977.

NOTICES

It is now estimated that the 1978 beginning-of-year unobligated balance for this account, plus anticipated recoveries and reimbursements from other agencies, will amount to \$3,756,000, or \$1,058,000 more than the sum estimated in the 1978 Budget. The additional unobligated balances were realized primarily from program reductions in India and added recovery of prior year obligations. Other resource adjustments will further reduce requirements in 1978 by \$95,000, resulting in a total program of \$9,660,000. Since total availabilities of \$10,813,000 in this account for 1978 exceed program requirements by \$1,153,000, that amount has been deferred for the entire year. These funds will be available for use in 1979, reducing the need for new appropriations in 1979 accordingly.

These funds are being reserved in accordance with the Antideficiency Act (31 U.S.C. 665).

Estimated Effects:

None. The amount deferred could not be obligated before fiscal year 1979.

Outlay Effect:

There is no outlay effect of this deferral, because the funds would not be obligated if made available.

TRUCK DRIVERS (Cont'd)

(AREA 1)

Renewah, Bonner, Boundary, Clearwater, Idaho County (North of the 46th Parallel), Kootenai, Latah, Lewis, Nez Perce, Shoshone Counties

Group 1: Buggy Mobile and similar; Bulk Cement Tanker; Oil Tank Driver; Power operated Sweeper; Semi-trailer, Low Bed, Truck and Trailer; Straddle Carrier (Ross, Hyster and similar); Trucks, Mixers and Trucks hauling concrete (3 yds. and under); Trucks, side, end and bottom dump (under 6 yds.); Water Tank Truck (1,801 to 4,000 gallons)

Group 4: Auto Crane - 2,000 lbs. capacity; Bulk Cement Spreader; Dumper (6 yds. and under); Flaherty Spreader, Box Driver; Flat Bed Truck (using power take off); Fork Lift (over 3,000 lbs.); Oil Distributor Driver (road, bootperson, leverperson helper); Rubber-tired Tunnel Jumbo; Scissor Truck; Slurry Truck Driver; Transit Mixers and Trucks hauling concrete (over 3 yds. to 6 yds.); Water Tank Truck (4,001 to 6,000 gallons); Wrecker and Tow Trucks

Group 5: Low Boy (under 50 tons); Service Greaser; Tireperson No. 2; Truck, side, end and bottom dump (over 6 yds. to 12 yds.)

Group 6: A-Frame (Swedish Crane, Iowa 3,000, Hydrolift); Water Tank Truck (over 6,001 to 8,000 gallons)

Group 7: Dumper (over 6 yds.); Transit Mixers and Trucks hauling concrete (6 yds. to 10 yds.); Trucks, side, end and bottom dump (over 12 yds. including 20 yds.)

Group 8: Low Boy (over 50 tons); Water Tank Truck (8,001 to 10,000 gallons)

Group 9: Transit Mixers and Trucks hauling concrete, (10 yds. to 15 yds.); Trucks, side, end and bottom dump (over 20 yds. including 30 yds.); Water Tank Trucks (10,001 to 12,000 gallons)

Group 10: Mechanic, field

Group 11: Tournarocker, D.W.'s and similar, with 2 or 4 wheel power tractor with trailer, gallonage or yardage scale, which is greater; Transit Mixers and Trucks hauling concrete (15 yds. to 40 yds.); Trucks, side, end and bottom dump (over 30 yds. to 40 yds.); Water Tank Truck (12,001 to 14,000 gallons)

Group 12: Transit Mixers and Trucks hauling concrete (over 20 yds.); Trucks, side, end and bottom dump (over 40 yds. to 50 yds.)

Group 13: Truck, side, end and bottom dump (over 50 yds. to 100 yds.)

Group 14: Helicopter Pilot hauling employees or material; Trucks, side, end and bottom dump (over 100 yds.)

TRUCK DRIVERS (Cont'd)

(AREA 2)

Remaining Counties and Idaho County (South of the 46th Parallel)

Group 1: Leverman loading at Bunkers; Pilot Car or Escort Driver

Group 2: Flat Bed - 2 axle and pickup hauling materials; Water Tank Truck (1,800 gallons and under); Fork Lift (3,000 and under)

Group 3: Flat Bed - 3 axle; Fuel Truck (1,000 gallons and under); Greaser; Tireman; Serviceman; Buggy; Man Haul (Shuttle Truck or Bus)

Group 4: Transit Mix Truck - 3 yds. and under; Truck Helpers; Slurry or concrete pumping Truck

Group 5: Flat Bed using power takeoff; Water Tank Truck (over 1,800 to 4,000 gallons); Semi-trailer - Low Boy - up to 96,000 lbs. GVW; Bulk Cement Tanker - up to 96,000 lbs. GVW; Fork Lift - over 3,000 lbs. (Bull Lift, Hydro Lift); Ross, Hyster and similar straddle equipment; "A" Frame Truck (Swedish Crane, Iowa 3,000, Hydro-lift)

Remaining Counties and Idaho County (South of the 46th Parallel)

Group 6: Transit Mix Truck, over 3 yds. - 6 yds.

Group 7: Water Tank Truck - (over 4,000 gallons); Fuel Truck - over 1,000 gallons; Distributor or Spreader Truck

Group 8: Transit Mix Truck - over 6 yds. - 8 yds.; Dumpsters; Field Tireman; Serviceman

Group 9: Transit Mix Truck - over 8 yds. to 10 yds.; Snow Plow (truck mounted)

Group 10: Low Boy - 96,000 lbs. GVW and over; Bulk Cement Tanker - 96,000 lbs. GVW and over

Group 11: Transit Mix Truck - over 10 yds.

Group 12: Tournarocker and similar equipment

Group 13: Truck - side, end and bottom dump

Class A: 6 yds. and under

Class B: Over 6 yds. - including 12 yds.

Class C: Over 12 yds. - including 20 yds.

Class D: Over 20 yds. - including 30 yds.

Class E: Over 30 yds. - including 40 yds.

Class F: Over 40 yds. - including 50 yds.

Class G: Over 50 yds. - including 75 yds.

Class H: Over 75 yds. - including 100 yds.

Class I: Over 100 yds.

Group 14: Truck Mechanic

SUPERSEDEAS DECISION

STATE: Massachusetts

DECISION NO.: MA77-3069

COUNTY: Middlesex

DATE: Date of Publication

Supersedes Decision No. MA76-2102, dated September 3, 1976 in 41 FR 37479.

DESCRIPTION OF WORK: Building construction (including residential), heavy and highway construction and marine construction.

GROUP 6

GROUP 7

GROUP 8

GROUP 9

GROUP 10

GROUP 11

GROUP 12

GROUP 13

GROUP 14

GROUP 15

GROUP 16

GROUP 1 - Helicopter pilot/engineer.

GROUP 2 - Autograde-combination subgrader base MTL spreader & base trimmer (CHI & similar type); autograde slip form paver (CHI & similar types); back hoe (all types); including all combination hoe loaders; central power plants (all types); concrete paving machines; cranes (all types), including overhead & straddle travelling type; cranes/gentry; derricks - land or floating (building & heavy construction rate only); drillmaster, quarry master (down the hole drill); draglines; elevator graders; engines, large diesel (1625 HP) and staging pump; front end loaders (5 yds & over); gradalls; grader, tago; helicopters co-pilot and communication engineer; Jacks, screw air hydraulic power operated unit or console type (not hand Jack or pile load test type); locomotive (large); mucking machines; pavers (21E and over); paver, resinous. Broymill; pavement and concrete breaker (i.e. superhammer); pavement breaker truck mounted; piledriver; scooper (loader and shovel) Koehring; shovels; treechopper with boom; trench machines.

GROUP 3 - Pump, staging.

GROUP 4 - A-frame, boom attachment on loaders; boring & drilling machines; brush chopper, chipper & shredder; cableways; carryalls; cherry pickers - 6 tons & under (over 6 tons - crane rate applies); concrete pump; concrete pump system, pumpcrete, squeezeconcrete & similar types; conveyors, 125' & over; econobiles (hilo, lull, hystor similar type equipment); forklifts; front end loaders (2 yds but less than 5 yds); groove cutting machines (ride or type); heater planet; hoist (Chicago Boom); Pans. LeTourneau, DM's. Ukes, pumpcrete-unit type; pumpcrete machines, squeezeconcrete & concrete pumping; scrapers-LeTourneau. DM's Ukes; side booms; squeezeconcrete; "straddle" carrier, Ross and similar types; winch trucks (hoisting).

GROUP 5 - Aerial platform (used as hoist); hoists all types except Chicago Boom type (building & heavy construction rate only); elevator or house cars (building and heavy construction rate only); roof hoists.

GROUP 6 - Asphalt spreaders; bridge deck finisher; grader, finish only; rollers-blacktop.

GROUP 7 - Asphalt curbing machine; asphalt plant engineer; autograde tube finisher & texturing machine (CHI & similar types); autograde concrete machine (CHI & similar types); autograde curb trimmer & sidewalk shoulder, slipform (CHI & similar types); barbending machines (power); batchers, batching plant & crusher on site; belt conveyer or systems; boilers and steam machines (building & heavy construction rate only); boom type skimmer machines (building & heavy construction rate only); car dumpers (railroad); compressor and blower type units; concrete breaking machines; concrete finishing machines; concrete saws & cutters (ride on type); concrete spreaders-netzel, reonatic & similar types; concrete vibrators (highway, road, street & sewer construction rate only); conveyors, under 125 ft.; crushing machines; ditching machine, small (ditch witch or similar); drill motor (duties include dust collector); dope pots (mechanical with or without pump); dumpsters; fine grade machine (large type); front end loaders (1 yd & over but less than 2 yds) - highway, road, street & sewer construction rate only; front end loaders (under 2 yds) - building and heavy construction rates only; generators; giraffe graders; graders and motor patrol; gummite machines (excluding nozzle); hammer vibratory (in conjunction with generator); hoppers; hopper doors (power operated); loaders (motorized) - building & heavy construction rate only; laddervator; lights, portable generating light plants; locomotive (dinky type); mechanic; mixers, portable paving mixers; motor patrols & graders; pavers (under 21E); pavement breakers - small, self-propelled ride on type (also maintains compact or hydraulic unit); pipe bending machine (power); pitch pump; plaster pump (regardless of size) - building & heavy construction rate only; plate hole digger; rod bending machines (power); scales, power; seaman; pulverizing mixer; silos; skimmer machines (boom type) - highway, road, street & sewer construction rate only; steam jennies and boilers; steel cutting machines, services & maintains; vibrating plants (used in conjunction with unloading); welder and repair mechanic.

FEDERAL REGISTER, VOL. 42, NO. 195—FRIDAY, OCTOBER 7, 1977

GROUP 8 - Compressors (2 or 3 within a total distance of 100' constitutes a battery) - building & heavy construction rate only; welding machines, gas or electric converters of any type - (2 or 3 in battery) - building and heavy construction rates only; welding system, multiple (rectifier transformer type) - building & heavy construction rate only.

GROUP 9 - Brooms & sweepers; bulldozer, D5 and over; fireman; sprinkler and water pump trucks (used on job site or in conjunction with jobsite); stone spreaders; sweepers & brooms; tractors, D8 & over; water and sprinkler trucks (used on job site or in conjunction with job site); Field Engineer: Party chief.

GROUP 10 - Compressors (2 or 3 within a total distance of 100' constitutes a battery) - highway, road, street and sewer construction rate only.

GROUP 11 - Front end loaders (under 1 yd.) - highway, road, street & sewer construction rate only.

GROUP 12 - Bulldozer under D5; rollers - grade fill or stone base; tractors, under D8.

GROUP 13 - Compressor (single); heaters (Nelson or other type including propane, natural gas or flow type units); pumps (4 inch suction & over including submersible pumps); pumps (2 of less than 4 inch suction including submersible pumps); pumps, diesel engine & hydraulic (immature of power) - highway, road, street & sewer construction rate only; temporary heating plant (Nelson or other type, including propane, natural gas or flow type units); welding machines, gas or electric converters of any type - single (building & heavy construction rate only); welding machines, gas or electric converters of any type (2 or 3 in battery) - highway, road, street & sewer construction rate only; wellpoint systems (including installation and maintenance).

GROUP 14 - Concrete spreaders, (small type) conveyer or loaders (not including elevator graders) - highway, road, street & sewer construction rate only; farm tractors (highway, road, street & sewer construction rate only); fertilizing equipment; fine grade machine (small type) - highway, road, street and sewer construction rate only; form line graders (small type) - highway, road, street & sewer construction rate only; grease, gas, fuel and oil supply trucks; mixers, concrete small (highway, road, street and sewer construction rate only); mucking equipment; road finishing machines (small type) - highway, road, street and sewer construction rate only; seeding equipment; tamping machines, vibrating self-propelled; welding machines, gas or electric converters of any type-single (highway, road, street and sewer construction rate only).

GROUP 15 - Assistant engineer/oiler; mechanics helper; tire repair and maintenance; field engineer; transit/instrument man.

GROUP 16 - Field engineer; rodman/chairman.

GROUP 3 - Drivers on straight 3-Axle Materials: Trucks & Floats.

GROUP 4 - Drivers on all Euclid Type Vehicles: Euclids, International Harvesters, Wabcos, Caterpillar, Koehring, Tractors & Wagons, Dumpsters, Straight, Bottom, Rear & Side Dumps, Carryalls & Scrapers (not self loading-leading over the top), Water Sprinkler Trailers, Water Palls & similar types of Vehicles; Drivers on Tractors & Trailer type vehicles: Flat, Floats, 1-Beams, Low Beds, Water Sprinkler, Bituminous Transit Mix, Road Oil, Fuel, Bottom Dump Hopper, Rear Dump, Office, Shanty, Epoxy, Asphalt, Agitator Mixer, Mulching, Stringer, Seeding, Fertilizing Pole, Spread, Bituminous Distributor, Water Palls (entire unit) (Tractor Trailer), Reel Trailer, and similar types of vehicles.

GROUP 5 - Winch Trailers Drivers

DECISION NO. NJ77-3092

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day;
E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

- Employer contributes \$8.00 per day per employee to an Annuity Fund.
- Holidays: A through F; plus Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day & Armistice Day.
- Employees with 6 months of service but less than 5 years of service receive 2 weeks vacation; 5 or more years of service receive 3 weeks vacation.
- Employees with 6 months of service but less than 5 years of service receive 2 weeks vacation; 5 years but less than 15 years of service receive 3 weeks; 15 or more years of service receive 4 weeks.
- Holidays: A through F; plus Washington's Birthday, Good Friday and Christmas Eve, providing the employee has worked 45 full days for the employer during 120 calendar days immediately prior to the holiday, and the employee works his regularly scheduled work days immediately preceding and following the holiday.
- Holiday: St. Patrick's Day.
- Holidays: A through F; plus Washington's Birthday, Presidential Election Day and Veterans' Day providing the employee works any of the 3 days in the 5 days preceding the holiday and the first work day after the recognized holiday.
- Employer contribution of 3% based on the basic hourly rate plus health & welfare plus pension plus vacation fringes.
- Holidays: A through F; plus Lincoln's Birthday, Washington's Birthday, Good Friday, General Election Day, Columbus Day and Veterans' Day provided the employee has been assigned to work or "shapes" one day of the calendar week during which the holiday falls.
- Employees working or receiving pay for 80 days within a year receive one week's vacation (48 hours); 126 days receive two weeks vacation (96 hours); 145 days receive 15 days (120 hours); 15 years seniority and 145 days receive 4 weeks vacation (160 hours).
- Employer contribution of \$116.00 per month per employee to Health & Welfare Funds.
- Holidays: A through F, plus Armistice Day and Washington's Birthday.

SUPERSEDES DECISION

STATE: Tennessee
 DECISION NUMBER: TN77-1129
 DATE: Date of Publication
 SUPERSEDES DECISION NO.: TN77-1080 dated July 22, 1977 in 42 FR 17764
 DESCRIPTION OF WORK: Building Construction (does not include single family homes and garden type apartments or less), and Heavy Construction.

*Counties: Hamilton (Building and Heavy Construction); Marion, Polk & Rhea (Building Construction ONLY).

PAID HOLIDAYS WHERE APPLICABLE:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day; G-Washington's Birthday; H-Good Friday; J-Christmas Eve.

FOOTNOTES:

- Holidays: A through F.
- Employer contributes 4% of regular hourly rate to vacation pay credit for employer who has worked in business more than 5 years, and 2% for employee who has worked less than 5 years.
- Employee who has worked more than 1, but less than 5 years, 2% of gross wages; 5 years or more, 4% of gross wages.
- Holidays, A through J, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regularly scheduled work days immediately preceding and following the holiday.
- \$21.50 per week for each employee.
- Paid Holiday: D-Provided employee has been on payroll for (2) two weeks prior to the holiday and works the regular scheduled work days immediately preceding & following the holiday.
- \$18.00 per week for each employee.

COMMODITY FUTURES TRADING COMMISSION

PRIVACY ACT OF 1974

Systems of Records; Annual Publication

Action. Publication of annual notice of the existence and character of each system of records it maintains which contains information about individuals and proposed new routine use.

Summary. The purpose of this notice is to announce the existence and character of the systems of records of the Commodity Futures Trading Commission as required by the Privacy Act of 1974, Pub. L. 93-579, 5 U.S.C. 552a.

Pursuant to 5 U.S.C. 552a(f), the Commission, on September 4, 1975, promulgated rules relating to records maintained by the Commission concerning individuals [40 FR 41056]. The rules, as amended, [17 CFR Part 146] deal with an individual's right to know what information the Commission has in its files concerning him, his right to have access to these records, his right to petition the Commission to have inaccurate or incomplete records amended or corrected, and his right not to have personal information disseminated to unauthorized persons. [1]

Under 5 U.S.C. 552a(e)(4), the Commission is required to publish annually a notice of the existence and character of each system of records it maintains which contains information about individuals. This notice implements this requirement and, when read together with the Commission's rules, will provide individuals with the information they need fully to exercise their rights under the Privacy Act.

In addition, 5 U.S.C. 552a(e)(11) requires each agency to publish in the Federal Register notice of any new use of the information contained in a system of records and to provide an opportunity for interested persons to submit written data, views or arguments to the agency concerning such use. The Commission is proposing adoption of an additional routine use in a number of systems of records which will authorize the Commission to disclose personal information to national securities exchanges and national securities associations registered with the Securities and Exchange Commission, for use in meeting the responsibilities assigned to these organizations under the Securities Exchange Act of 1934, 15 U.S.C. 78a, et seq. In many cases the securities and commodity futures business are closely related, with firms operating in both areas, and personnel transferring from one area to the other. The Commission has previously listed as a routine use disclosure to contract markets designated by the Commission if the disclosure is expected to assist the contract market in carrying out its self-regulatory responsibilities under the Commodity Exchange Act. This routine use is now being expanded to encompass the securities-related organizations. See routine use (3) listed under the General statement of routine uses set forth below.

Comments on the Commission's proposal should be submitted to: Office of the Secretary, Commodity Futures Trading Commission, 2033 K Street NW, Washington, D.C. 20581.

by November 7, 1977. Unless notice to the contrary is published in the Federal Register, the amendment to the third routine use proposed by the Commission will become effective thirty days after the date that this notice is published in the Federal Register (November 7, 1977).

The Commission in publishing its system notices this year has established two new systems of records: CFTC-28, Exchange Disciplinary Action File, and CFTC-29, Customer Reparations Complaints. The complete text of these systems is contained in this notice.

Content of System Notices

Each system notice contains the following information:

1. The name of the system;
2. The categories of individuals on whom records are maintained in the system;
3. The categories of records maintained in the system;
4. Each routine use of the records contained in the system, including the categories of users and the purpose of each use;
5. The policies and practices of the agency regarding storage, retrievability, access controls, retention, and disposal of the records.

[1] The full text of the Commission's rules implementing the Privacy Act should be consulted for a detailed description of the procedures to be followed.

6. The title and business address of the agency official who is responsible for the system of records;

7. The agency procedures by which an individual can find out whether the system of records contains a record pertaining to him;

8. The agency procedures by which an individual can find out how he may gain access to any record pertaining to him contained in the system of records, and how he can contest the content of the records; and

9. The categories of sources of records in the system. [2]

The Location of Systems of Records

The first and sixth items described above call for the address of the Commission Office involved. The Commission maintains offices in the following locations:

2033 K Street, NW,
Washington, D.C. 20581
Telephone: (202) 254-8630.

233 South Wacker Drive
46th Floor
Chicago, Illinois 60606

4901 Main Street
Room 208
Kansas City, Missouri 64112

One World Trade Center
Suite 4747
New York, New York 1004

Two Embarcadero Center
Suite 700
San Francisco, California 94111

510 Grain Exchange Building
Minneapolis, Minnesota 55415

Where multiple locations are involved in a system notice, rather than listing each address the notice merely identifies the offices and refers to this introductory section for each address. In the system notice, the Washington office is referred to as the "principal office," the Chicago, Kansas City and New York offices as the "regional offices," and all offices collectively are described as "all CFTC offices."

In many cases records within a system will not all be available at each of the offices listed in the system notice. For example, investigation files are basically maintained in the office where the investigation is being conducted, but certain information may be maintained in other offices as well. Similarly, many but not necessarily all employee records are maintained in the particular office where the employee works. In addition, the Commission's computer is physically located in Chicago, although information in computer printout form may be available in any office.

Of course, it will be the Commission's responsibility, unless otherwise specified in the system notice, to determine where the particular records being sought are located. However, if the individual seeking the records in fact knows the location, it would be helpful to the Commission if he would indicate that location.

Scope and Content of Systems of Records

The Privacy Act applies to personal information about individuals; it does not apply to the extent that the individual is acting in an entrepreneurial capacity. Since the Commission's responsibilities pertain to the regulation of business entities or to individuals who are acting in a business capacity, much of the information contained in the Commission's records does not come within the purview of the Privacy Act.

On the other hand, personal information subject to the provisions of the Privacy Act may sometimes be found in a system of records that might appear to relate solely to commercial matters. For example, the system of records entitled "registration of futures commis-

[2] Two systems of records, one relating to investigatory material compiled for law enforcement purposes and the other relating to confidential information obtained during employee background investigations, have been exempted from the Commission's rules from certain requirements of the Privacy Act, as authorized under the Privacy Act, 5 U.S.C. 552a(K). Among the requirements from which these systems have been exempted is the requirement that the information listed under items (7), (8), and (9) above, be furnished.

sion merchants" [3] contains essentially business information. However, the application for registration contains a few items of personal information concerning key personnel of the registrant firm. Since the capability exists through the Commission's computer to retrieve information from this system of records not only by use of the name of the futures commission merchant but also by the use of the name of these individuals this information is within the purview of the Privacy Act. [4]

Such a capability would generally not exist, however, in a Commission staff investigation of the activities of the futures commission merchant. Thus, if the investigation were opened under the name of the futures commission merchant, information would be retrievable only under that name. Accordingly, information about principals of a firm under investigation which might be developed during the investigation would generally not be retrievable by the name of the individual, and the provisions of the Privacy Act would not apply.

General Statement of Routine Uses

A principal purpose of the Privacy Act is to restrict the unauthorized dissemination of personal information concerning the individual. In this connection, the Privacy Act and the Commission's rules prohibit all dissemination except for specific purposes. [5]

The Act and the rules specifically provide that disclosure may be made with the consent of the individual to whom the record pertains. Disclosure may also be made to those officers and employees of the Commission who need the record in the performance of their duties. In addition, disclosures are authorized if they are made pursuant to the terms of the Freedom of Information Act, 5 U.S.C. 552.

In addition, the Privacy Act and the Commission's rules permit disclosure of individual records if it is for a "routine use," which is defined as a use of a record which is compatible with the purpose for which it was collected. The system notice for each system of records is required to list each of these routine uses.

Many of the routine uses of Commission records are applicable to a number of systems. These include the following:

1. The information in the system may be used by the Commission in any administrative proceeding before the Commission, in any injunctive action authorized under the Commodity Exchange Act or in any other action or proceeding in which the Commission or any member of the Commission or its staff participates as a party or the Commission participates as amicus curiae, and may be disclosed in response to a subpoena issued in the course of a proceeding to which the Commission is not a party.

2. The information may be given to the Justice Department, the Securities and Exchange Commission, the United States Postal Service, and the Internal Revenue Service, the Department of Agriculture, the Civil Service Commission and to other federal, state or local law enforcement or regulatory agencies for use in meeting responsibilities assigned to them under the law, or made available to any member of Congress who is acting in his capacity as a member of Congress.

3. The information may be given to any board of trade designated as a contract market by the Commission if the Commission has reason to believe this will assist the contract market in carrying out its responsibilities under the Commodity Exchange Act, 7 U.S.C. 1, et seq., and to any national securities exchange or national securities association registered with the Securities and Exchange Commission, to assist those organizations in carrying out their self-regulatory responsibilities under the Securities Exchange Act of 1934, 15 U.S.C. 78a, et seq.

4. At the discretion of the Commission staff, the information may be given or shown to anyone during the course of a Commission investigation if the staff has reason to believe that the person to whom it is disclosed may have further information about the matters discussed therein, and those matters appear relevant to the subject of the investigation.

5. The information may be included in a public report issued by the Commission following an investigation, to the extent that this is authorized under Section 8 of the Commodity Exchange Act, 7

[3] A futures commission merchant is someone engaged in soliciting or in accepting orders for the purchase or sale of commodity futures in the manner defined in section 2(a) of the Commodity Exchange Act, 7 U.S.C. 2.

[4] See definition of system of records in footnote 1.

[5] Individuals should refer to the full text of the Privacy Act, 5 U.S.C. 552a(b) and to the Commission's rules for a complete list of authorized disclosures. Only those arising most frequently have been mentioned herein.

U.S.C. 12, section 8 authorizes publication of such reports but contains restrictions on the publication of certain types of sensitive business information developed during an investigation. In certain contexts some of this information might be considered personal in nature.

6. The information may be disclosed to a federal agency in response to its request in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the information may be relevant to the requesting agency's decision on the matter.

7. The information may be disclosed to a prospective employer in response to its request in connection with the hiring or retention of an employee, to the extent that the information is believed to be relevant to the prospective employer's decision in the matter.

8. The information may be disclosed to any person, pursuant to section 12(a) of the Commodity Exchange Act, 7 U.S.C. 16(a), when disclosure will further the policies of that Act or of other provisions of law. Section 12(a) authorizes the Commission to cooperate with various other government authorities or with "any person."

To avoid unnecessary repetition of these routine uses, where they are generally applicable the system notice refers the reader to the above description. Unless otherwise indicated, where the system notice contains a reference to the foregoing routine uses all of the eight routine uses listed above apply to that system.

System Notices

The Commission's system of records are set forth below. For further information contact:

Privacy Unit
Commodity Futures Trading Commission
2033 K Street NW
Washington, D.C. 20581

CFTC-1

System name: Complaint Register and Complaint Indices—CFTC

System location: Records in this system are maintained in the Commission's principal office and in each of the regional offices. Addresses and telephone numbers of these offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: a. Persons alleged to have violated or suspected of having violated the Commodity Exchange Act or the rules and regulations adopted thereunder.

b. Persons lodging complaints with the Commission.

Categories of records in the system: The records in this system include:

a. The complaint register, a summary of complaints received from the public concerning an individual (or business entity) as well as a summary of leads as to possible areas of violation which were developed from other sources. A complaint number is assigned to each case and the record is filed according to that number. The register also, among other matters, names the individual complained about, his employer, the name of the complainant, the type of complaint, the date received, the disposition, the date closed and the investigator assigned.

b. The complaint index, which contains a summary of the same information as the complaint register, but is maintained alphabetically by the name of the person who is the subject of the complaint.

c. The complaint index, which contains a summary of the same information as the complaint register but is maintained alphabetically by the name of the complainant.

Authority for maintenance of system: Section 8 of the Commodity Exchange Act, 7 U.S.C. 12.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are, set forth in the introduction to these system notices under the caption "general statement of routine uses."

Storage: Paper records in file folders, in looseleaf binders, or on index cards.

Retrievability: Information in the register is retrievable by assigned complaint number. This is cross-indexed to the individual's name through the complaint index and complainant index.

I

Safeguards: Records are located in secured rooms or on secured premises with access limited to those whose official duties require access. In appropriate cases the records are maintained in lockable file cabinets.

Retention and Disposal: The index is maintained indefinitely. The register is maintained on the premises for 5 years, then in the Federal Records Center for 5 years before being destroyed.

System manager(s) and address: The Director of the Division of Enforcement in the Commission's principal office and the Regional Director of each of the regional offices. Addresses of these offices are set forth in the introduction of these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: Persons submitting complaints to the Commission, other miscellaneous sources including customers, other law enforcement and regulatory agencies, commodity exchanges, various trade sources, and items generated internally by the Commission staff.

CFTC—2

System name: Correspondence Files—CFTC

System location: These records are maintained in the Commission's principal offices at 2033 K Street, NW., Washington, D.C. 20581.

Categories of individuals: Persons corresponding with the Commission, directly or through attorneys or other representatives. Persons discussed in correspondence to or from the Commission.

Categories of records in the system: This system contains incoming and outgoing correspondence and indices of correspondence, and certain internal reports and memoranda related to the correspondence.

This system does not include all Commission correspondence, but only those records which are part of a general correspondence file maintained by the office involved. It does not include correspondence indexed by subject matter, by date or by assigned number, unless there is a cross indexing capability by individual name. It does, however, include correspondence files maintained by the Office of Public Information relating to requests by individuals under the Freedom of Information Act and the Privacy Act.

CFTC—3

System name: Docket Files—CFTC

System location: The records are maintained in the Office of Hearings and Appeals in the Commission's principal offices at 2033 K Street, NW., Washington, D.C. 20581.

Categories of individuals: Parties and other persons involved in any CFTC proceeding.

Categories of records in the system: The records in this system include all pleadings, motions, applications, stipulations, affidavits, transcripts and documents introduced as evidence, briefs, orders, findings, opinions, and other matters which are part of the record of an administrative proceeding. They also contain related correspondence and indices.

Authority for maintenance of system: The Commission is authorized or required to conduct hearings under several provisions of the Commodity Exchange Act. The maintenance of these files is a necessary concomitant for the conduct of orderly hearings. See also 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These are public records, except to the extent the Commission or the assigned hearing officer determines they may be treated as non-public consistent with the provisions of the Freedom of Information Act and that for good cause they should be treated as non-public. Non-public portions

may be used for any purpose specifically authorized by the hearing officer who ordered non-public treatment or by the Commission.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: These records are filed by the docket number and cross-indexed by the respondent's name, and his attorney's name.

Safeguards: The information in these files is in most cases a matter of public record. Those items which the Commission or the hearing officer has directed be kept non-public are segregated and precautions are taken to assure that access is restricted only to authorized personnel.

Retention and Disposal: These records are maintained in the files of the Commission indefinitely.

System manager(s) and address: Chief Administrative Law Judge, Office of Hearing and Appeals, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 252-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: Commission staff members; opposing parties and their attorneys; witnesses in the proceeding; and other miscellaneous sources.

CFTC—4

System name: Employee Leave, Time and Attendance—CFTC

System location: These records are maintained by all CFTC offices at the addresses set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: All CFTC employees.

Categories of records in the system: This system includes various records reflecting a breakdown of time and attendance of CFTC employees, and a record of leave status.

Authority for maintenance of system: 5 U.S.C. 6301-6323; 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: a. In response to legitimate requests, this information may be provided to other federal agencies for the purpose of hiring or retaining employees, and may be provided to other prospective employers, to the extent that the information is relevant to the prospective employer's decision in the matter.

b. The information may be provided to the Justice Department or other federal agencies or used by the Commission in connection with any investigation, or administrative or legal proceeding involving any violation of any federal law or regulation thereunder.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders or on index cards.

Retrievability: By the name of the employee or by the employee number, cross-indexed by name.

Safeguards: The records are maintained in locked cabinets.

Retention and Disposal: Records for current employees are maintained for three years; the final record of former employees is maintained for ten years, then destroyed.

System manager(s) and address: For employees of the Commission's principal office records are maintained by the Budget Officer. For regional office employees, records are maintained by the administrative officer in each of the regional offices. Addresses of these offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 252-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The individual on whom the record is maintained.

CFTC—5

System name: Employee Personnel Records—CFTC

System location: These records are maintained in the principal office and in each of the regional offices. Addresses and telephone numbers of these offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: All CFTC employees.

Categories of records in the system: Miscellaneous records relating to personnel matters. Information maintained at the local level includes among other matters: a. the service record, containing the employee's name, birth date, social security number, veterans preference, tenure group, service computation date, insurance information, retirement, current residence and phone number, marital status, and emergency phone number; b. other unofficial files including the employment application and related employment papers, copies of Government ID cards such as motor vehicle operator's license, applications for bond withholding, tax withholding and records of other withholdings such as life insurance and health benefits.

The records maintained in the principal office for all employees include: a. forms required and records maintained under the Commission's rules of conduct; b. pre-employment inquiries not included within "exempted employee background investigation materials;" c. various summary materials received in computer printout form from the National Finance Center—U.S. Department of Agriculture based on information provided by the Commission from its personnel records; d. card indices reflecting various information contained in other personnel records.

The official personnel records maintained by the Commission are described in the system notices published by the Civil Service Commission, and are not included within this system.

Authority for maintenance of system: 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: a. In response to legitimate requests, this information may be provided to other federal agencies for the purpose of hiring or retaining employees, and may be provided to other prospective employers, to the extent that the information is relevant to the prospective employer's decision in the matter. b. the information may be provided to the Justice Department, the Civil Service Commission or other federal agencies or used by the Commission in connection with any investigation, or administrative or legal proceeding involving any violation of federal law or regulation thereunder.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders and on index cards.

Retrievability: By the name of the employee.

Safeguards: The records are maintained in lockable cabinets.

Retention and Disposal: The records are maintained in the current file until the employee is terminated or separated, retained for 2 years thereafter, and then destroyed.

System manager(s) and address: The Personnel Officer of the Commission is the system manager for all records maintained in the Commission's principal office. The system manager for records maintained in the regional offices is the administrative officer in each regional office. Addresses of these offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their

inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: Individual on whom the record is maintained; personnel office records; and other miscellaneous sources.

CFTC—6

System name: Employee Travel Records—CFTC

System location: These records are maintained by all CFTC offices at the addresses set forth in the introduction to these systems notices under the caption "location of systems of records."

Categories of individuals: Any Commission member or employee or any member of an Advisory Committee who travels on official business for the Commission.

Categories of records in the system: Contains the name, address, destination, itinerary, mode and purpose of travel, dates, expenses, amounts advanced, amounts claimed, amounts reimbursed. Includes travel authorizations, travel vouchers, copies of government transportation requests, receipts and other records.

Authority for maintenance of system: Budget and Accounting Act of 1921, 31 U.S.C. 1 et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information may be provided to the Justice Department or other federal agencies or used by the Commission in connection with any investigation, or administrative or legal proceeding involving any violation of federal law or regulation thereunder.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By the name of the employee; by employee number.

Safeguards: The records are maintained in lockable cabinets.

Retention and Disposal: Records are maintained for three years and then destroyed.

System manager(s) and address: For employees in the Commission's principal office the records are maintained by the Budget Officer. For other employees, records are maintained by the administrative officer in each regional office. Addresses of these offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The individual on whom the record is maintained.

CFTC—7

System name: Employee Records maintained by the National Finance Center/USDA—CFTC.

System location: National Finance Center, U.S. Department of Agriculture, New Orleans, Louisiana 70160.

Categories of individuals: All CFTC employees.

Categories of records in the system: The National Finance Center is used by the Commission to provide data processing capability for various personnel, payroll and accounting related matters. The records in the system include:

a. General records relating to the employee including information from the notification of personnel action (Form 350 and 350A) prepared and submitted by the CFTC, and other related sources. The information includes the name, social security or other employee number, birth date, veteran's preference, tenure, leave group, insurance coverage, retirement coverage, type of employ-

ment, date service commenced and ended, grade and step, base salary, duty station, various computation dates, leave codes and status, employing office and other miscellaneous information.

b. Various payroll related information for CFTC employees, including payroll and leave data for each employee relating to rate and amount of pay, leave, and hours worked, and leave balances, tax and retirement deductions, life insurance and health insurance deductions, savings allotments, savings bond and charity deductions, mailing addresses and home addresses. This includes copies of the CFTC time and attendance reports as well as authorizations relating to deductions.

c. Travel vouchers and related material.

Authority for maintenance of system: 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information from these records is transmitted to the U.S. Treasury to effect reimbursement of travel expenses and issuance of paychecks, as well as distribution of pay to other sources according to employee instructions. Appropriate information from these records is also forwarded to taxing authorities and others receiving proceeds from the employee's pay.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders; magnetic tape.

Retrievability: Indexed by social security number or equivalent employee number and by name of employee.

Safeguards: Protection is afforded by limiting access to the offices where the records are maintained. Certain records are kept in lockable file cabinets.

Retention and Disposal: Records are maintained indefinitely on tape; paper records are sent to the Federal Records Center after an appropriate period.

System manager(s) and address: Director, National Finance Center, U.S. Department of Agriculture, Office of Management and Finance, New Orleans, Louisiana 70160.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: Records furnished by the CFTC.

CFTC—8

System name: Employment Applications—CFTC

System location: These records are maintained in the Commission's principal offices at 2033 K Street, NW., Washington, D.C. 20581.

Categories of individuals: Applicant for positions with the CFTC.

Categories of records in the system: Contains the application form (SF-171) and/or the resume of the person applying.

Authority for maintenance of system: 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information about these records is used in making inquiries concerning the qualifications of the applicant.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Indexed by the name of the applicant; cross-indexed by interest.

Safeguards: These records are maintained in a locked file cabinet.

Retention and Disposal: Applications are maintained two years, then destroyed.

System manager(s) and address: Personnel Officer, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The individual on whom the record is maintained.

CFTC—9

System name: Exempted Employee Background Investigation Material—CFTC.

System location: These records are maintained in the Personnel Office of the Commission's principal offices at 2033 K Street, NW., Washington, D.C. 20581.

Categories of individuals: Employees and prospective employees of CFTC.

Categories of records in the system: The records in this system contain investigatory material compiled for the purpose of determining suitability, eligibility, or qualifications for employment with the CFTC which were obtained under an express promise that the identity of the source would be held in confidence, or which were obtained prior to September 28, 1975, under an implied promise of confidentiality.

Authority for maintenance of system: 44 U.S.C. 3101; 5 U.S.C. 552a(k)(5).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses" except that general routine use number (3) is not applicable. Disclosure pursuant to the other routine uses may be subject to the consent of the person furnishing the information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By the name of the employee.

Safeguards: The records are maintained in lockable cabinets in secured offices or in secured buildings.

Retention and Disposal: These records are maintained for 3 years, then destroyed.

System manager(s) and address: Personnel Officer, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581.

Systems exempted from certain provisions of the Act: The records in this system have been exempted by the Commission from certain provisions of the Privacy Act, 5 U.S.C. 552a(k)(5), and the Commission's rules promulgated thereunder, 17 C.F.R. 146.12. These records are exempt from the notification procedures and record access procedures and record contest procedures set forth in the system notices of other record systems, and from the requirement that the sources of records in the system be described.

CFTC—10

System name: Exempted Investigatory Records—CFTC

System location: These records are maintained in the Commission's principal offices and in each of the regional offices. The address and telephone number of each of these offices is set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: a. Individuals whom the staff of the Commission has reason to believe have violated, are violating, or are about to violate the Commodity Exchange Act and the rules, regulations and orders promulgated thereunder.

b. Individuals whom the staff of the Commission has reason to believe may have information concerning violations of the Commodity Exchange Act and the rules, regulations and orders promulgated thereunder.

c. Individuals involved in investigations authorized by the Commission concerning the activities of members of the Commission or its employees based upon formal complaint or otherwise.

d. Individuals filing Form 4 R (registration as an associated person) or Form 94 (biographical information questionnaire) in connection with an application for registration with the Commission.

Categories of records in the system: The records in this system consist of investigatory materials compiled for law enforcement purposes whose disclosure the Commission staff has determined could impair the effectiveness and orderly conduct of the Commission's regulatory and enforcement program, or compromise Commission investigations. This exemption could include all or any part of the records developed during the investigation or inquiry.

Authority for maintenance of system: Section 8 of the Commodity Exchange Act, 7 U.S.C. 12; 44 U.S.C. 3101; 5 U.S.C. 552a(k)(2).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses" except that general routine use number (5) is not applicable.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: The records are maintained by assigned case number or by the title of the case. Cases filed by number are cross-indexed by case title.

Safeguards: In addition to normal office and building security, certain of those records are maintained in locked file cabinets. All employers are aware of the sensitive nature of the information gathered during investigations.

Retention and Disposal: The records are maintained in this system until it is determined that exemption is no longer necessary. They are then returned to the appropriate non-exempt system.

System manager(s) and address: Director of the Office of Enforcement, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581.

Systems exempted from certain provisions of the Act: The records in this system have been exempted by the Commission from certain provisions of the Privacy Act of 1974 pursuant to the terms of the Privacy Act, 5 U.S.C. 552a(k)(2) and the Commission's rules promulgated thereunder, 17 CFR 146.12. These records are exempt from the notification procedures, record access procedures and record contest procedures set forth in the system notices of other record systems.

CFTC—11

System name: Fitness Files—CFTC

System location: These files are maintained in the Commission's regional offices, at the addresses set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: Applicants for and registrants as: (1) floor brokers; (2) general partners, sole proprietors, officers, major stockholders, directors, branch office managers, and agents of futures commission merchants; (3) partners, sole proprietors, officers, directors of and persons performing similar functions for commodity trading advisors; (4) partners, sole proprietors, officers, directors, and persons performing similar functions for commodity pool operators.

Categories of records in the system: Contains various information pertaining to the fitness of the above-described persons to engage in business subject to the Commission's jurisdiction. The system includes the biographical information questionnaire (form 94) received from applicants and registrants as part of the registration process (see the system notices for the various types of registration under the Commodity Exchange Act.) It also includes correspondence between the Commission and the applicant, the commodity exchanges, other government agencies and other persons relating to the individual's fitness. In addition, certain ancillary records, such as card indices, are maintained summarizing the status and result of fitness checks.

Authority for maintenance of system: Sections 8a(2)(B) and 4n(1) of the Commodity Exchange Act, 7 U.S.C. 12a(2)(B) and 7 U.S.C. 6n(1).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

ble to this system of records are set forth in the introduction to these uses under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders and on index cards.

Retrievability: By name of the individual.

Safeguards: Protection of records is afforded by general office security measures. Records are located in secured rooms or on secured premises with access limited to those whose official duties require access. In appropriate cases the records are maintained to lockable file cabinets.

Retention and Disposal: Primary records are maintained permanently on the premises as long as the individual is registered or is associated with a registrant in one of the capacities specified in the previous description of the category of individuals. These records are updated periodically. Other records are maintained on the premises for five years, then held in the Federal Records Center for five years before being destroyed.

System manager(s) and address: The Regional Director of the region where the records are located. Addresses of these offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The individual on whom the record is maintained, his employer, commodity and stock exchanges, other government agencies, and other persons with relevant information concerning an individual's fitness.

CFTC—12

System name: Fitness Investigations—CFTC

System location: These records are located in the Division of Trading and Markets in the Commission's principal offices at 2033 K Street, NW., Washington, D.C. 20581.

Categories of individuals: Applicants for and registrants as: (1) partners, sole proprietors, officers, directors, major stockholders, branch office managers and agents of futures commission merchants; (2) associated persons of futures commission merchants or their agents; (3) floor brokers; (4) partners, sole proprietors, officers, directors, and persons performing similar functions for commodity trading advisors; (5) partners, sole proprietors, officers, directors, persons performing similar functions for commodity pool operators.

Categories of records in the system: Contains various information pertaining to the fitness of the above-described persons to engage in business subject to the Commission's jurisdiction. The file includes the application for registration as an associated person (Form 4-R) or the biographical information questionnaire (Form 94). It also includes correspondence, reports and memoranda reflecting information developed from various sources outside the agency. This system contains records reflecting a somewhat more in-depth investigation than does the regional office inquiry included in the "Fitness Files" and "Registration and Fitness of Associated Persons" systems of records.

Authority for maintenance of system: Section 8a(2)(B) of the Commodity Exchange Act, 7 U.S.C. 12a(2)(B).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By the name of the individual.

Safeguards: Records are maintained in locked cabinets. Further protection is afforded by limiting access to the office where the record is maintained to those whose official duties require access.

Retention and Disposal: The records are maintained on the premises for 5 years, then held in the Federal Records Center for 5 years before being destroyed.

System manager(s) and address: Director, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The individual on whom the record is maintained, his employer, federal, state and local regulatory and law enforcement agencies, commodity and stock exchanges, National Association of Security Dealers, and other miscellaneous sources.

CFTC—13

System name: Interpretation Files—OGC—CFTC

System location: These files are maintained in the Office of the General Counsel, 2033 K Street, NW., Washington, D.C. 20581.

Categories of individuals: Persons who have requested the Office of the General Counsel to provide them with its interpretation of provisions of the Commodity Exchange Act or various rules and regulations adopted by the Commission. The requests may have been made directly by the individual, or through his attorney or other representative.

Categories of records in the system: This file contains the interpretation letters furnished, the request for an interpretation, and any related internal memoranda and supporting documents.

Authority for maintenance of system: Section 2(a)(4) of the Commodity Exchange Act, 7 U.S.C. 4a(c); 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: a. Interpretation letters and the related requests for interpretation which discuss matters of general applicability may be made public and may be published by the Commission, or the Commission may otherwise make information public concerning matters raised therein. However, portions of such letters or information will be deleted or omitted to the extent necessary to prevent a clearly unwarranted invasion of personal privacy or to the extent they otherwise contain material considered nonpublic under the Freedom of Information Act and the Commission's rules implementing that Act.

b. Information in these files may be used as a reference in responding to later inquiries from the same party or in following up on earlier correspondence involving the same persons.

c. Other routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: The records are maintained under the name of the futures commission merchant, floor well as the attorney's own experience and information developed from other sources.

CFTC—14

System name: Investigation Files—CFTC

System location: These records are maintained in the Commission's principal office and in the regional offices. Files concerning pending investigations may be located in other Commission offices when the investigation is being conducted by those offices. Addresses of Commission offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: a. Individuals whom the staff of the Commission has reason to believe have violated, are violating, or are about to violate the Commodity Exchange Act and the rules, regulations, and orders promulgated thereunder, or the rules and regulations of any board of trade designated as a contract market.

b. Individuals whom the staff of the Commission has reason to believe may have information concerning violations of the Commodity Exchange Act and the rules, regulations, and orders promulgated thereunder, or the rules and regulations of any board of trade designated as a contract market.

c. Individuals involved in investigations authorized by the Commission concerning the activities of members of the Commission or its employees based upon formal complaint or otherwise.

Categories of records in the system: Contains anything obtained during the course of an investigation, including data from Commission reporting forms, account statements and other trading records, exchange records, bank records and credit information, business records, reports of interviews, transcripts of testimony, exhibits to transcripts, affidavits, statements by witnesses, contracts and agreements. Also contains internal memoranda, reports of investigation, subpoenas, warning letters, stipulations of compliance, correspondence and other miscellaneous matters. The nature of the personal information contained in these files varies according to what is considered relevant to the attorney assigned to the case based on the circumstances of the particular case under investigation. For example, the file may contain personal background information about the individual involved, his education and employment history, information on prior violations, and a wide variety of financial information, as well as detailed examination of the individual's activities during the period in question.

Authority for maintenance of system: Section 8 of the Commodity Exchange Act, 7 U.S.C. 12; 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction of these system notices under the caption "general statement of routine uses." In addition, information concerning traders and their activities may be disclosed and made public by the Commission to the extent permitted by law when deemed appropriate to further the practices and policies of the Commodity Exchange Act. Furthermore, information collected during the investigation may be included in a public report to be issued by the Commission following an investigation, to the extent that this is authorized under Section 8 of the Commodity Exchange Act, 7 U.S.C. 12.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed by assigned case number, cross referenced to case name. Except where the name of the individual is included in the case name, information about individuals involved in the investigation is not retrievable by name.

Safeguards: In addition to normal office and building security, certain of these records are maintained in locked file cabinets. All employees are aware of the sensitive nature of the information gathered during investigations.

Retention and Disposal: Regional office records are maintained on the premises for 5 years, then sent to the Federal Records Center for 5 years, before being destroyed. The records in the Office of the General Counsel are generally maintained until the investigation is closed and any action arising therefrom has been completed, including all review at the appellate level. Thereafter, certain basic information may be retained and sent to the Federal Records Center, while the remaining information is either returned to the person from whom it was obtained or destroyed.

System manager(s) and address: The General Counsel and the Director of the Division of Enforcement in the Commission's principal office. The Regional Director of the Region where the investigation is being conducted. Addresses of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their

inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: a. Reporting forms and other information filed with the Commission; b. boards of trade; c. futures commission merchants, commodity trading advisors, commodity pool operators, floor brokers; d. federal, state and local regulatory and law enforcement agencies; e. banks, credit organizations and other institutions, pursuant to subpoena or otherwise; f. corporations, pursuant to subpoena or otherwise; g. individuals having knowledge of the facts, pursuant to subpoena or otherwise; h. attorneys; i. publications; j. courts; and k. other miscellaneous sources.

CFTC—15

System name: Large Trader Report Files—CFTC

System location: Copies of original reports and related correspondence are maintained in the CFTC office where they are filed. See further description below. Ancillary records and information in computer printout form may be located in some or all CFTC offices. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of records in the system: 1. Reports filed by the individual holding the reportable position:

a. Statements of Reporting Trader (CFTC Form 40). Contains information described in Part 18 of the Commission's rules and regulations, including the name, address, number, and principal occupation of the reporting trader, the kind of commodity futures account, and information about his business associates.

b. Large trader reporting form (Series 03 Form). Contains information described in Part 18 of the Commission's rules and regulations, including the trader's identifying number, his previous open contracts, his trades and deliveries that day, his open contracts at the end of the day, and his classification as to speculation or hedging.

c. Large trader reporting form (Series 04 Form). Contains information described in Part 19 of the Commission's rules and regulations, to be filed by merchants, processors and dealers in certain commodities who hold positions equal to federally imposed speculative position limits in those commodities on any futures market with the exception that CFTC 304 reports for cotton are required to be filed when the trader's position equals to 50 contract reporting level, rather than at a level equal to the federal speculative position. Includes trader's identifying number, stocks owned, unfilled fixed price sale commitments. These reports are filed in the CFTC office in the city where the reporting trader is located. If there is no CFTC office in that city, the reports are filed according to specific instructions of the CFTC.

Categories of records in the system: 2. Reports to be filed by futures commission merchants and foreign brokers.

a. Identification of "Special Accounts" (CFTC Form 102). Contains material described in Part 17 of the Commission's rules and regulations. Includes the name, address, and occupation of a customer whose accounts have reached the reporting level.

Also includes the account number which the futures commission merchant uses to identify this customer on the firm's 01 report (see next paragraph), and whether the customer has control or manages accounts of other traders.

b. Large trader reporting from (Series 01 Form). Contains material described in Part 17 of the Commission's rules and regulations, for each "special account." Shows customer account number and reportable position held in each commodity future. These reports are filed in the CFTC office in the city where the contract market involved is located. If there is no CFTC office in that city, they are filed in the office where the CFTC instructs that they be filed.

Categories of records in the system: 3. Computer records prepared from information on the forms described in items (1) and (2) above. The computer system is located in Chicago. Printouts may be located in some or all of the Commission's offices and suboffices.

Categories of records in the system: 4. Correspondence and memoranda of telephone conversation between the Commission and the individual or between the Commission and other agencies dealing with matters of official business concerning the individual.

Categories of records in the system: 5. Other miscellaneous information, including intra-agency correspondence and memoranda

concerning the individual and documents relating to official actions taken by the Commission against the individual.

Authority for maintenance of system: Sections 4g, 4i, and 8 of the Commodity Exchange Act, 7 U.S.C. 6g, 6i and 12.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information concerning traders and their activities may be disclosed and made public by the Commission to the extent permitted by law when deemed appropriate to further the practices and policies of the Commodity Exchange Act. Other routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders, computer records in computer memory and in computer printout form.

Retrievability: Form 40, Form 102, correspondence and other miscellaneous information are maintained directly under the name of the reporting trader. The Series 01, 03, and 04 forms are maintained by identifying code number. However, information from these forms is included in the computer and retrievable by individual name from the computer.

Safeguards: Protection of records is afforded by general office security measures, with recent trading reports stored in lockable file cabinets. Access is limited to those whose official duties require access.

Retention and Disposal: CFTC Form 40, CFTC Form 102, correspondence, memoranda, etc. are retained on the premises until the account has been inactive for 10 years and then destroyed. Form 01, 03 and 04 reports are maintained for 2 years on the premises and then held at the Federal Records Center for 3 years before being destroyed. The computer file is maintained for 10 years for Form 01, 03 and 04 reports. The computer memory on other items of information is maintained indefinitely.

System manager(s) and address: The regional Director of the region where the records are located. Addresses of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630. The individual should include the code number assigned to him by the Commission for filing such reports, the name of the futures commission merchant through whom he trades, and the time period for which information is sought.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The individual on whom the record is maintained and futures commission merchants through whom the individual trades. Correspondence and memoranda prepared by the Commission or its staff. Correspondence from firms, agencies, or individuals requested to provide information on the individual.

CFTC—16

System name: Litigation Files—CFTC

System location: Files in this system of records are maintained in the Commission's principal office and in the regional offices. For pending litigation, files may also be located in other offices participating in the litigation. Addresses and telephone numbers of CFTC offices are set forth in the introduction to the system notices under the caption "location of systems of records."

Categories of individuals: Persons or firms against whom the Commission has issued a complaint based on violations of the Commodity Exchange Act or the rules and regulations promulgated thereunder.

Categories of records in the system: The file contains copies of various papers filed by or with the Commission or the courts in connection with administrative proceedings or injunctive actions brought by the Commission. It includes, as a minimum, a copy of the complaint and the final decision and order, and may contain other documents as well.

Authority for maintenance of system: The maintenance of these files is necessary to the orderly and effective conduct of various litigation authorized under the Commodity Exchange Act and other Federal statutes. See e.g., Section 6c of the Commodity Exchange Act, 7 U.S.C. 13a-1, authorizing injunctive actions, and various provisions in that Act authorizing administrative actions.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information in these files is generally a matter of public record and may be disclosed without restriction. In other cases the routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in folders or binders.

Retrievability: Administrative proceedings are maintained by docket number, cross-indexed by the name of the individual or firm named as respondent, and by the section of the Commodity Exchange Act which has been violated. Other actions are filed alphabetically by the caption of the case.

Safeguards: Protection of non-public records is afforded by general office security measures. Records are located in secured rooms or on secured premises with access limited to those whose official duties require access.

Retention and Disposal: These files are maintained indefinitely, although when the action is completed they are usually reduced to only the complaint and the final decision and order.

System manager(s) and address: These records are maintained by the Director of the Division of Enforcement at the Commission's principal office and by the Regional Director for the region where the records are located. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The information is generally obtained from the parties or their attorneys, or from the Commission's Office of Hearings and Appeals or the relevant court.

CFTC-17

System name: Litigation Files—OGC—CFTC

System location: Files in this system are maintained in the Office of the General Counsel in the Commission's principal office at 2033 K Street, NW., Washington, D.C. 20581.

Categories of individuals: Parties involved in litigation with the Commission or litigation in which the Commission has an interest including, but not limited to:

- administrative proceedings before the Commission;
- injunctive actions brought by the Commission;
- other federal courts cases to which the Commission is a party;
- litigation in which the Commission is participating as amicus curiae;
- other cases involving issues of concern to the Commission, including those brought by other law enforcement and regulatory agencies and those brought by private parties.

Categories of records in the system: These files consist primarily of papers comprising or included in the record of the case and briefs and correspondence related to that action. There may be included also other documents pertaining to the matter being litigated, including internal memoranda.

Authority for maintenance of system: The Commodity Exchange Act, 7 U.S.C. 1 et seq. entrusts the Commission with broad regulatory responsibilities over commodity futures transactions. In this connection, the Commission is authorized to bring both administrative proceedings and injunctive actions where there appear to have been violations of the Act. Furthermore, to effectuate the purposes

of the Act, it is necessary that the Commission staff be familiar with developments in other actions brought by others which have implications in the commodity law areas.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information in these files is generally a matter of public record and may be disclosed without restriction. In other cases the routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Cases are classified according to type, i.e., administrative proceedings, injunctive actions brought by the Commission, and other litigation. Within those classifications, actions are filed by caption of the case.

Safeguards: Protection of non-public records is afforded by general office security measures. Records are located in secured rooms or on secured premises with access limited to those whose official duties require access.

Retention and Disposal: The record is maintained until the action is completed, including final review at the appellate level. Thereafter, a skeletal record of pleadings, briefs, findings and opinions and other particularly relevant papers may be maintained indefinitely. Other materials are generally destroyed except insofar as a copy of some of the documents may be kept in the office's "precedent files" for use in later legal research or preparation of filings in other matters.

System manager(s) and address: General Counsel, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The information is generally obtained from the court or regulatory authority before whom the action is pending or from the attorneys for one of the parties named in the action, although it may on occasion come from other sources.

CFTC-18

System name: Logbook on Speculative Limit Violations—CFTC

System location: Records in this system are located in the Commission's regional offices in Chicago and New York. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: Individuals who have exceeded speculative limits in a particular fiscal year.

Categories of records in the system: This record consists of a listing, by year, of the violations of speculative limits imposed by the Commission and the exchanges. It includes the trader's assigned code number, the commodity involved, the name of the trader, the type of violation, the date of violation, the date the violation ceased, and the action taken. Copies of warning letters and replies pertaining to the violations listed are maintained with the logbook.

Authority for maintenance of system: Sections 4(i) and 8 of the Commodity Exchange Act, 7 U.S.C. 6i and 7 U.S.C. 12.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Listed by fiscal year, and within each year may be retrieved by the name of the violator.

CFTC-20

System name: Registration of Commodity Pool Operators—CFTC

System location: The primary files are maintained in the New York office. All CFTC offices have summary information in computer printout form. Addresses and telephone numbers of these offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: Partners, sole proprietors, officers, directors and persons performing similar functions for a commodity pool operator.

Categories of records in the system: Contains various information pertaining to registration as a commodity pool operator. The New York office maintains the application for registration (Form 60R) and supplements, as well as all correspondence between the individual and the agency relating to registration. A computer system is maintained by the Chicago office. The computer memory consists of name, firm affiliations, title, date of birth, place of birth, social security number, fitness and address of each individual engaged as partner, sole proprietor, officer, and director and persons performing similar functions. Computer printouts prepared quarterly list all individuals so engaged. This printout, as well as non-confidential portions of the application for registration, are considered public records and available to any person for inspection and copying.

Authority for maintenance of system: Section 4n(1) of the Commodity Exchange Act, 7 U.S.C. 6n(1).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in manual form in file folders, in computer memory, and in computer printout form.

Retrievability: The application, correspondence and other primary records are filed by the name of the commodity pool operator. The computer records are maintained by the name of the individual officer, partner, proprietor, etc. The computer serves as a cross-index by the name of the individual to the relevant commodity trading advisor file.

Safeguards: Protection of non-public records is afforded by general office security measures. Records are located in secured rooms or on secured premises with access limited to those whose official duties require access. In appropriate cases the records are maintained in lockable file cabinets.

Retention and Disposal: Applications and correspondence are maintained on the premises for 3 years from the end of calendar year, then held in Federal Records Center for 7 years before being destroyed. The computer memory is maintained permanently on the premises and updated periodically as long as the individual remains associated with a registered commodity pool operator. The printouts are maintained on the premises for six months and destroyed.

System manager(s) and address: The Regional Director of the region where the records are located. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The application is submitted by the commodity pool operator. Correspondence is generally prepared either by the Commission or its staff or by the commodity pool operator or its representative. The computer record is prepared from the application, and from the biographical information questionnaire (Form 94), and other information in the fitness files (see "Fitness Files" system of records).

CFTC-19

System name: Petitions and Rulings

System location: These records are maintained in the Office of Hearings and Appeals in the Commission's principal office located at 2033 K Street, NW., Washington, D.C. 20581.

Categories of individuals: All persons named in an Application for Institution of a Proceeding before the CFTC or its predecessors.

Categories of records in the system: This system contains the application and supporting documentation of the person submitting the application.

Authority for maintenance of system: The maintenance of these records is ancillary to the Commission's authority to institute administrative proceedings. See also 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: The records in this system are maintained by the number and caption assigned to the application. Generally, the caption will be the name of a firm, organization, or person against whom the applicant complains.

Safeguards: Protection against unauthorized disclosure is afforded by limiting access to the office where the record is maintained.

Retention and Disposal: The files are retained indefinitely.

System manager(s) and address: Chief Administrative Law Judge, Office of Hearings and Appeals, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: Persons submitting an Application for Institution of a Proceeding.

CFTC—21

System name: Registration of Commodity Trading Advisors—CFTC

System location: Primary files are maintained in the New York office. All CFTC offices have summary information on computer printouts. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: Partners, sole proprietors, officers, directors and persons performing similar functions for a commodity trading advisor.

Categories of records in the system: Contains various information pertaining to registration as a commodity trading advisor. The New York office maintains the application for registration (Form 50R) and supplements, as well as all correspondence between the commodity trading advisor and the Commission relating to registration. A computer system is maintained by the Chicago office. The computer memory consists of name, firm affiliations, title, date of birth, place of birth, social security number, fitness, and address of each individual engaged as partner, sole proprietor, officer, and director and persons performing similar functions. Computer printouts prepared quarterly list all such individuals so engaged. This printout, as well as non-confidential portions of the application for registration, are considered public records and are available to any person for inspection and copying.

Authority for maintenance of system: Section 4n(1) of the Commodity Exchange Act, 7 U.S.C. 6n(1).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in manual form in file folders, in computer memory, and in computer printout form.

Retrievability: The applications, correspondence and other related matters are filed under the name of the commodity trading advisor. The computer records are maintained in the name of the individual partner, officer, director, etc. The computer serves as a cross-index by the name of the individual to the relevant commodity trading advisor file.

Safeguards: Protection of non-public records is afforded by general office security measures. Records are located in secured rooms or on secured premises with access limited to those whose official duties require access. In appropriate cases the records are maintained in lockable file cabinets.

Retention and Disposal: Applications and correspondence are maintained on the premises for 3 years from the end of the calendar year, then held in Federal Records Center for 7 years before being destroyed. The computer memory is maintained permanently on the premises and updated periodically as long as the individual remains associated with a registered commodity trading advisor. Computer printouts are maintained on the premises for six months and destroyed.

System manager(s) and address: The Regional Director of the region where the primary records and the computer are located. Addresses and telephone numbers of these offices are set forth in these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records.

CFTC—22

System name: Registration of Floor Brokers—CFTC

System location: The primary records are maintained by that regional office which has territorial jurisdiction over the floor broker's place of business. All CFTC offices have summary information in computer printout form. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: Persons who have applied to the Commission for registration as floor brokers.

Categories of records in the system: Contains various information pertaining to registration as a floor broker. The system includes the application for registration (Form 20R), plus supplements and all correspondence between the floor broker and the Commission relating to registration. A computerized system, consisting primarily of information taken from the application is maintained by the Chicago office. The computer memory includes the name, date of birth, place of birth, social security number, fitness, membership affiliations, business address, and residence address of each registered floor broker. Computer printouts, prepared monthly, list the names, business addresses, and membership affiliations of all registered floor brokers. This printout, as well as non-confidential portions of the application for registration are considered public records and available to any person for inspection and copying. In addition certain ancillary records, such as card indexes, are maintained, summarizing information contained in the system regarding each floor broker.

Authority for maintenance of system: Section 4(1) of the Commodity Exchange Act, 7 U.S.C. 6(1).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in manual form in file folders and on index cards, computer memory, and in computer printout form.

Retrievability: By the name of the floor broker.

Safeguards: Protection of non-public records is afforded by general office security measures. Records are located in secured rooms or on secured premises with access limited to those whose official duties require access. In appropriate cases the records are maintained in lockable file cabinets.

Retention and Disposal: Applications for registration and related correspondence are maintained on the premises for 3 years. Records are then held in the Federal Records Center for 7 years and destroyed. The computer memory is maintained permanently on the premises and updated periodically as long as the individual is registered. Printouts and indices are maintained on the premises for 5 years and then in the Federal Records Center for 5 years before being destroyed.

System manager(s) and address: The Regional Director of the region where the records are located. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The application is submitted by the floor broker on whom the record is maintained. The computerized record is prepared from the application, including supplements, and from information contained in other systems of records, including the fitness files (see "Fitness Files" system of records). Correspondence is generally prepared either by the Commission or by the floor broker or his representative.

CFTC—23

System name: Registration of Futures Commission Merchants—CFTC

System location: The primary records are maintained by that regional office which has territorial jurisdiction over the state where the firm's principal office is located, or where the audit is performed. All CFTC offices have summary information in computer printout form. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: Officers, partners, sole proprietors, branch office managers, agents, or 10 per cent stockholders of a futures commission merchant.

Categories of records in the system: Contains various information pertaining to registration as a futures commission merchant. The system includes the application for registration (Form 10R), plus supplements, and all correspondence between the futures commission merchant and the Commission relating to registration. A computerized record is maintained for each individual engaged as an officer, partner, sole proprietor, branch office manager, agent or 10 per cent stockholder of a futures commission merchant, as listed in the application. The computer memory consists of the name, firm affiliation, title, date and place of birth, social security number, fitness, and business address of each individual. Quarterly printouts are prepared listing all individuals currently engaged in the capacities indicated above. This printout, as well as non-confidential portions of the application for registration, are considered public records, and are available to any person for inspection and copying.

Authority for maintenance of system: Section 4f(1) of the Commodity Exchange Act, 7 U.S.C. 6f(1).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in manual form in file folders, in computer memory, and in computer printout form.

Retrievability: Applications, correspondence, and other related matters are filed under the name of the registrant futures commission merchant. Computer records are maintained by the name of the individual officer, partner, shareholder, etc., and serve as a cross-index to the primary registration file.

Safeguards: Protection of non-public records is afforded by general office security measures. Records are located in secured rooms or on secured premises with access limited to those whose official duties require access. In appropriate cases the records are maintained in lockable file cabinets.

Retention and Disposal: Applications for registration and related correspondence are maintained on the premises for three years. Records are then held in the Federal Records Center for seven years and destroyed. The computer memory is maintained permanently on the premises and updated periodically as long as the individual remains associated as a principal with a registered futures commission merchant. Printouts are maintained on the premises for six months and destroyed.

System manager(s) and address: The regional Director of the region where the records are located. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The application is submitted by the futures commission merchant. The computerized record is prepared from the application, including supplements, and from information contained in other systems of records, including the fitness files (see "Fitness Files" system of records). Correspondence is generally prepared by the Commission or by the futures commission merchant or its representatives.

CFTC—24

System name: Registration and Fitness of Associated Persons—CFTC

System location: The primary files are maintained in the Chicago office. All CFTC offices have summary information in computer

printout form. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: Persons who have applied to the Commission for registration as a person associated with a futures commission merchant or with any agent of a futures commission merchant. This includes partners, officers, or employees acting in any capacity which involves the solicitation or acceptance of customers' orders for futures contracts or supervision of individuals so engaged. It also includes anyone occupying a similar status or performing similar functions.

Categories of records in the system: Contains various information pertaining to the applicant's registration as an associated person. The system includes the application for registration (Form 4-R) and supplements, as well as correspondence between the associated person and the Commission. It also includes correspondence relating to the fitness of the individual to be engaged in the business. A computerized record is kept of information concerning each registrant. This includes his name, firm affiliation, date of birth, place of birth, social security number, education, fitness, experience, and home address. Regular computer printouts show the name and firm affiliation of all individuals engaged as associated persons. This printout, as well as non-confidential portions of the application for registration, are considered public records and are available to any person for inspection and copying.

Authority for maintenance of system: Section 4k(2) of the Commodity Exchange Act, 7 U.S.C. 6k(2).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these notices under caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in manual form in file folders, in computer memory, and in computer printout form.

Retrievability: By the name of the associated person. The computer cross-indexes the record to the name of the futures commission merchant with whom the individual is associated.

Safeguards: Protection of non-public records is afforded by general office security measures. Records are located in secured rooms or on secured premises with access limited to those whose official duties require access. In appropriate cases the records are maintained in lockable file cabinets.

Retention and Disposal: Applications and correspondence are maintained on the premises for three years. They are then held in the Federal Records Center for seven years and destroyed. The computer memory is maintained permanently on the premises and updated periodically as long as the individual is registered. Computer printouts are maintained on the premises for five years, then held in the Federal Records Center for five years, and then destroyed.

System manager(s) and address: Regional Director, Commodity Futures Trading Commission, 233 South Wacker Drive, 46th Floor, Chicago, Illinois 60606.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The application is submitted by the associated person. Correspondence may be prepared by the Commission, the associated person, the commodity exchanges, other government agencies, and other persons having knowledge about the individual. The computer record is prepared from the application and supplement, and from information developed during the fitness inquiry.

CFTC—25

System name: Stipulation of Compliance File—CFTC

System location: Records in this system are maintained by the Division of Enforcement in the Commission's principal office and by regional offices. Addresses and telephone numbers of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: Any person or firm who has signed a stipulation of compliance with the Commission.

Categories of records in the system: This system consists of stipulations of compliance and related indices.

Authority for maintenance of system: The obtaining of stipulations of compliance is ancillary to the duties and responsibilities of the Commission to enforce the provisions of the Commodity Exchange Act and the rules and regulations adopted thereunder. See also 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: None. The stipulations of compliance are a matter of public record.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders or three-ring binders.

Retrievability: The records are filed according to a stipulation of compliance number. They are cross-indexed to the name of the person signing the stipulation or on whose behalf the stipulation is signed.

Safeguards: Protection is afforded by general office security measures. Records are located in secured rooms or on secured premises with access limited to those whose official duties require access.

Retention and Disposal: The records are maintained indefinitely on the premises, unless otherwise ordered by the System Manager.

System manager(s) and address: The Director of the Division of Enforcement in the Commission's principal office, and the Regional Director of each of the regional offices. Addresses of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The individual signing the stipulation of compliance.

CFTC-26

System name: Subpoena File—CFTC

System location: Records in this system are maintained in the Commission's New York Regional Office at One World Trade Center, Suite 4747, New York, New York 10048, and in the Chicago Regional Office at 233 South Wacker Drive, 46th Floor, Chicago, Illinois 60606.

Categories of individuals: Individuals who have been subpoenaed by the Commission.

Categories of records in the system: This file contains copies of subpoenas issued to individuals and a covering memorandum explaining the purpose of subpoena. It also contains other memoranda, correspondence, and miscellaneous materials relating to the subpoena.

Authority for maintenance of system: Section 6(b) of the Commodity Exchange Act, 7 U.S.C. 15.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By the name of the person to whom the subpoena was issued.

Safeguards: Protection is afforded by general office security measures. Records are located in secured rooms or in secured premises with access limited to those whose official duties require access.

Retention and Disposal: The records are retained for 5 years, and then destroyed.

System manager(s) and address: Regional Director, Commodity Futures Trading Commission, 233 South Wacker Drive, 46th Floor, Chicago, Illinois 60606. Regional Director, Commodity Futures Trading Commission, One World Trade Center, Suite 4747, New York, New York 10048.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: Subpoenas and related memoranda prepared by the Commission staff. Correspondence between the Commission and the person to whom the subpoena was issued or his attorney or other representative.

CFTC-27

System name: Violation Follow-up Files—CFTC

System location: Records in this system are maintained by the Division of Enforcement in the Commission's principal office and by the regional offices. Addresses of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Categories of individuals: Persons who have had criminal, civil or administrative action take against them, or who have been sent compliance or warning letters regarding violations of the Commodity Exchange Act or the rules and regulations thereunder.

Categories of records in the system: This system of records contains various documentation relating to official actions taken against individuals based on violations of the Commodity Exchange Act and the rules and regulations adopted thereunder. These include:

1. Copies of indictments and records of conviction or other disposition in criminal actions.
2. Decisions and orders in administrative proceedings before the Commission.
3. Warning letters, compliance letters, and stipulations of compliance.
4. permanent and preliminary injunctive and temporary restraining orders based on complaints filed by the Commission.
5. Exchanged findings of violations of the Commodity Exchange Act and rules and regulations adopted thereunder. As part of the system a cross-index of violations is also maintained, listing all administrative and criminal actions instituted against the individual.

Authority for maintenance of system: The maintenance of these records is ancillary to the Commission's responsibility to enforce the provisions of the Commodity Exchange Act. See also 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "general statement of routine uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders and in looseleaf binders.

Retrievability: By the name of the individual violator.

Safeguards: Protection against unauthorized disclosure is afforded by limiting access to the office maintaining the record, to those whose official duties require access.

Retention and Disposal: The records are retained on the premises for 10 years and then destroyed unless otherwise ordered by the System Manager. The index is maintained indefinitely.

System manager(s) and address: The Director of the Division of Enforcement in the Commission's principal office, and the Regional Director of each of the regional offices. Addresses of CFTC offices are set forth in the introduction to these system notices under the caption "location of systems of records."

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: The issuing courts; the parties to the action or their attorneys or their representatives; the exchanges; the official files of the Commission's Office of Hearings and Appeals; the Commission staff, based on results of investigations, audits and any other pertinent action taken.

CFTC-28

System name: Exchange Disciplinary Action File—CFTC

System location: Records in this system are maintained in the Office of Public Information at the Commission's principal office and by the regional offices.

Categories of individuals: Persons who have been suspended, expelled, or disciplined, or denied access to or by an Exchange.

Categories of records in the system: Letters of notification of disciplinary or other adverse action taken by an Exchange which include the name of the person against whom such action was taken, the action taken and the reasons therefor.

Authority for maintenance of system: Section 8c(1)(B) of the Commodity Exchange Act, 7 U.S.C. A12c(1)(B).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information in these files is made public at the discretion of the Commission after a review of the information and a finding that no reason to withhold the information exists. In other cases the routine uses applicable to this system of records are set forth in the introduction to these system notices under the caption "General Statement of Routine Uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Looseleaf binders.

Retrievability: Notices are classified in chronological order according to the Exchange which took the disciplinary or other adverse action which is the subject of the notice.

Safeguards: Protection of non-public records is afforded by general office security measures.

Retention and Disposal: The records are retained indefinitely.

System manager(s) and address: Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their

inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: Exchanges notifying the Commission of disciplinary or other adverse action which they have taken.

CFTC-29

System name: Customer Reparations Complaints—CFTC

System location: These records are located in the Reparations Unit, Division of Enforcement, in the Commission's principal office at 2033 K Street, NW., Washington, D.C. 20581.

Categories of individuals: Individuals filing customer reparations complaints, as well as the firms and individuals named in the complaints.

Categories of records in the system: These files consist of reparations complaints, answers, correspondence, and miscellaneous motions filed with the Reparations Unit.

Authority for maintenance of system: Section 14 of the Commodity Exchange Act, 7 U.S.C. A18.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These records are used in the conduct of the Commission's reparations program. In addition, these records can be used as set forth in the introduction to these system notices under the caption "General Statement of Routine Uses."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Reparations files are maintained by case number and are cross-indexed by the name of the complainant.

Safeguards: The information in these files is a matter of public record. The records are maintained in file boxes or cabinets.

Retention and Disposal: At the present time records are maintained for an indefinite time period. After a case is forwarded to the Office of Hearings and Appeals, however, the records are included in the Commission's docket files and the Reparations Unit only maintains certain case records such as complaints, answers, and decisions and orders.

System manager(s) and address: Supervisor of the Reparations Unit, Division of Enforcement, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581.

Notification procedure: Individuals seeking to determine whether this system of records contains information about them should address their inquiries to the Privacy Unit, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Telephone: (202) 254-8630.

Record access procedures: Individuals seeking access to records about themselves in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Contesting record procedures: Individuals contesting the content of records about themselves contained in this system of records should address their inquiries to the Privacy Unit at the address listed in the notification section above.

Record source categories: Persons filing reparation complaints or answers.

Issued in Washington, D.C. on September 23, 1977, by the Commission.

William T. Bagley,

Chairman, Commodity Futures Trading Commission.

**DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT
OFFICE OF THE SECRETARY
PRIVACY ACT OF 1974**

Systems of Records; Annual Publication

Agency: Department of Housing and Urban Development
Action: Annual Publication of Systems of Records
Summary: This Notice publishes an up-to-date version of the existence and character of the Department's systems of records.
For further information contact:

Mr. Harold Rosenthal
Departmental Privacy Act Officer
Room 3176
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410
(202) 755-5192

Supplementary information: Minor editorial changes have been made in individual notices to clarify and standardize terminology. For example, the term "Privacy Officer" was changed to "Privacy Act Officer." No change in substance was made. The Department has determined that an Environmental Impact Statement is not required with respect to this Notice. A copy of the finding of Inapplicability is available for inspection in the Office of the Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

It is hereby certified that the economic and inflationary impacts of this Notice have been carefully evaluated in accordance with OMB Circular A-107. Accordingly, the Secretary publishes this Notice.

Authority: 5 U.S.C. 552a, 88 Stat. 1896; sec. 7(d) Department of HUD Act (42 U.S.C. 3535 (d)).

Issued at Washington, D.C., September 20, 1977.

Patricia Roberts Harris,
Secretary of Housing and Urban Development.

The last annual compilation of systems of records was published at 41 FR 50600. Additions, deletions and amendments regarding individual systems of records were published at 41 FR 44557 and 42 FR 19406, 21323, 40487, 43455, 45385 continue in effect. This Notice is published in compliance with the requirements of 5 U.S.C. 552a(e)(4) as added by section 3 of the Privacy Act of 1974.

1. General Statement of Routine Uses.

Routine Use—Law Enforcement

In the event that a system of records maintained by this Department to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

Routine Use—Disclosure When Requesting Information

A record from a system of records maintained by this Department may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

Routine Use—Disclosure of Requested Information

A record from a system of records maintained by this Department may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

Routine Use—Disclosure to OMB

The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Routine Use—Disclosure Pursuant to Congressional Inquiry

Disclosures may be made to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

2. Listing of Systems of Records Within Coverage of Act.

HUD/DEPT—1

System name: Accidents, Employees and/or Government Vehicles

System location: Most Department Offices, including the Headquarters Office. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: HUD employees in on-the-job accidents, including accidents involving government-owned vehicles; other individuals who have sustained injury/illness as a result of such accidents.

Categories of records in the system: Details of how accidents occurred and injuries were sustained; property damage incurred.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: the records are used by the Department of Labor when personal injury occurs and/or compensation is involved. GSA uses the records when accidents involve motor vehicles and the repair of those vehicles.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Primarily looseleaf folders; Standard Forms 91, 91A; free text.

Retrievability: Filed by name.

Safeguards: The systems records are kept in lockable file cabinets, desks, and in locked rooms.

Retention and disposal: Procedural disposal follows HUD Handbook General Records Schedule.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A, (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual and supervisor; Federal Government agencies; law enforcement agencies; current or previous employers; accident investigation officers.

HUD/DEPT—2

System name: Accounting Records

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagees; mortgagees; grant/project and loan applicants and recipients; HUD personnel; vendors; brokers; bidders; managers; tenants; individuals within Disaster Assistance Programs; local housing authorities.

Categories of records in the system: Lease and loan collection register; schedules of payments receivable and received; premiums due; claim files and fee billing statements; escrow and Certificates of Deposit files; cash flow and budget control files; earnest money

register; purchase order log; imprest fund; area managers' accounting records; restitution, maintenance and market expenses; distributive shares records; salary; savings bonds; bills of lading; vouchers; invoices; receipts; cancelled checks.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: U.S. Treasury—for disbursements and adjustments thereof; GAO, GSA and local housing authorities—for audit, accounting and financial reference purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Desks; safes; locked file cabinets, central files; bookcases; ledger trays and binders; tables.

Retrievability: By Social Security number; name; case file number; schedule number; audit number; control number; receipt number; voucher number; contract number; address.

Safeguards: Security checks; limited authorization and access; security guards.

Retention and disposal: GSA schedules of retention and disposal; destruction after six months; transfer to either a Federal Records Center or Archives.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A, (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; financial institutions; government agencies; HUD personnel; current and previous employers; private firms and corporations doing business with HUD.

HUD/DEPT—3

System name: Appraisal Review Files

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Fee appraisers on FHA-insured single-family properties, HUD staff appraisers and appraisal supervisors; HUD staff architects and supervisors; builders, contractors, developers, and realtors on urban renewal projects whose data is used by FHA appraisers.

Categories of records in the system: Field review of appraisals by staff and fee appraisers; architectural inspection review; review of urban renewal project appraisals.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on Standard Form 1038, and sometimes free text, stored in binders.

Retrievability: Primarily by name, sometimes by case file.

Safeguards: Primarily kept in lockable file cabinets.

Retention and disposal: Primarily active files, some historical material, 1038 forms destroyed after 2 years.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410.

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Mortgagors of appraised properties; field reviews; correspondents.

HUD/DEPT—4

System name: Appraisals/Appraisers Files

System location: Most HUD area and insuring offices maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Fee appraisers for single family and multifamily properties, single family credit examiners; applicants for positions as fee examiners; builders, contractors, realtors dealing with appraised property; HUD appraisers and certifiers; correspondents; Social Security recipients in FHA-appraised homes.

Categories of records in the system: Roster of fee appraisers, qualifications; fee appraiser applications and certification; financial interest and employment statements; appraiser work records; appraisal fee, date, approving officer; HUD staff certifiers of fee appraisers; correspondence and inquiries on housing appraisals; application for appraisal; comparison valuation data on housing sales; appraisal of property held by Social Security recipients.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to fee appraisers—for voucher preparation; to VA, mortgagors, mortgagees—notice of FHA action, billing; to local government officials—for code enforcement, health and wetlands clearance; to Environmental Protection Agency—for environmental clearance; to Social Security Administration—for research.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders.

Retrievability: Name, case file number (in some cases).

Safeguards: Lockable file cabinets and desks.

Retention and disposal: Primarily active information; also mixed historical and active. Social Security appraisals are historical data. Disposal in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For inquiry about existence of records, contact the Privacy Officer at the appropriate location, in accordance with procedures in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Officer at the appropriate location. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate locations. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; other individuals; financial institutions; firms; federal agencies; non-federal agencies; employers; credit bureaus; law enforcement agencies.

HUD/DEPT—5

System name: Architects and Engineers

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Certified architects and engineers dealing with HUD, both directly and on a consultant basis.

Categories of records in the system: Engineering surveys, engineers' letters of map amendment, engineering reviews, established architectural reports, field reviews and performance ratings, job log files, fee and bond schedules, professional insurance policy records, and general work files.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to General Accounting Office—investigation and annual audit; to the U.S. Forest Service, Bureau of Indian Affairs, Corps of Engineers, HEW, and Farmers Home Administration for reference and information; to builders and other individuals dealing with HUD—for planning and specifications review.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Blueprints and specifications in free text form, on standard forms, or in file folders.

Retrievability: Name, by persons' assigned number, case file number, and indexes.

Safeguards: Files are kept in file cabinets, in desks and on shelves. Access is limited by locks, by security checks, or by authorized individuals.

Retention and disposal: Most files are kept active and up-to-date. Some files are partly current and partly historical. Files are destroyed per regulation or stored at a federal records center one year after last date of commitment.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Individual architect or engineer, professional organization, local housing authorities, government agencies, law enforcement agencies, state boards certifying professional competency.

HUD/DEPT—6

System name: Audits and Financial Reports Files

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Builders; developers, real estate firms; contractors; appraisers; mortgagors; mortgagees; grant/project applicants; individuals in EO and Disaster Assistance files; individuals writing to HUD; HUD personnel; bidders; management firms; project sponsors.

Categories of records in the system: Audit findings and reports; audit control measures; condominium housing and low rent reports.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: local housing authorities—for reference and verification of local finance audits; private developers and builders—for financial verification.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Reports are stored in free text on standard forms in file folders.

Retrievability: By name, case file number or audit number.

Safeguards: Locked file cabinets; desks; safes; central files.

Retention and disposal: Files are periodically reviewed and either destroyed or removed to Federal Records Center.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; current or previous employers; project sponsors; independent and government auditors; credit bureaus and financial institutions; governmental agencies; law enforcement agencies; private individuals; builders; developers; brokers; managers.

HUD/DEPT—7

System name: Board of Contract Appeals Files

System location: Headquarters.

Categories of individuals covered by the system: Contractors, including sole proprietorships and partnerships, who have appealed to the HUD Board of Contract Appeals.

Categories of records in the system: Files contain correspondence, motions, pleadings and official documents relevant to the appeal, including copy of contract and letter of termination.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to private attorneys—to review material on cases where they are providing representation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders.

Retrievability: Each contract appeal is filed in chronological order using a case file number. Cross-index to files exists.

Safeguards: Records filed in lockable file cabinets.

Retention and disposal: After a case has been adjudicated, the relevant file is removed to an inactive file.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. This location is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Contractors; HUD Office of General Counsel.

HUD/DEPT—8

System name: Builder, Contractor and Developer Evaluations—Workmanship Adjustment Records

System location: Most area and insuring offices maintain files of this type. For a complete listing of these, with addresses, see Appendix A.

Categories of individuals covered by the system: Builders and contractors of single-family housing; subdivision developers.

Categories of records in the system: Workmanship adjustment records are based on information provided by inspectors on quality of workmanship, management and attitude of builders, contractors and developers in construction of single-family housing and development of subdivisions. The quality of workmanship is compared to that considered normal. Builder's level of activity is checked.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: individual workmanship ratings may be disseminated to the general public. Inquiries on past experience of builders, contractors and developers provided to the Veterans' Administration and the Farmers Home Administration (in the Department of Agriculture).

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Generally on HUD Standard Forms 2012 (Workmanship Adjustment Record) and 224g (Performance Record, Accelerated Standard Program).

Retrievability: Usually by name of builder, contractor, developer.

Safeguards: Lockable file cabinets.

Retention and disposal: Generally removed from files if builders/contractors are inactive for more than six months. Files on restricted builders are retained.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject and other individuals; Federal and non-federal government agencies; law enforcement agencies; credit bureaus; financial institutions; current and previous employers; corporations or firms; EO counselors and witnesses.

HUD/DEPT-9

System name: Casualty/Hazard Insurance

System location: A few HUD area and insuring offices maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors and mortgagees under single-family insurable programs; HUD certifiers; insurers.

Categories of records in the system: Certification of casualty damage/repairs, certification of unavailability of hazard insurance; referral lists of insurers.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Veterans' Administration for information on veterans' participation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders.

Retrievability: Name; case file.

Safeguards: Stored in lockable file cabinets.

Retention and disposal: Primarily active information, some mixed historical and active. Disposed of in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Mortgagors; subject individuals, rehabilitation contractor.

HUD/DEPT-10

System name: Construction Complaints Files

System location: Almost all area and insuring offices maintain files of this type. For a complete listing with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors, builders, developers, and contractors under HUD programs.

Categories of records in the system: Complaints regarding construction and defects; inspection reports; records of complaint status and disposition; compliance reports; related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to the person or firm complained about—for resolution of the complaint; to IRS—for investigation; to Farmers Home Administration, Veterans Administration; Better Business Bureau and local agencies—for notice of restriction of builders; to state agencies—for investigation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: Name of subject individual; case file number, property location.

Safeguards: Records filed in lockable file cabinets with access limited to authorized personnel.

Retention and disposal: Records are partly current and partly historical; disposal is in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh St., S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subjects and other individuals, current and previous employees, credit bureaus and financial institutions; federal and non-federal agencies.

HUD/DEPT-11

System name: Contractors—Adverse Actions

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Individuals or firms debarred or suspended from participation in HUD programs; corporations, companies or individuals determined to be unsatisfactory risks; suspended, debarred or ineligible grantees; builders of single-family homes whom HUD will not insure; individuals and firms disqualified from doing business with HUD; individuals and firms on the no-business list; mortgagors writing to HUD concerning complaints; builders who fail to adjust valid construction complaints; individuals and firms debarred by executive agencies; dealers and contractors in home improvements and repairs; individuals and firms subject to precautionary measures for practices not consistent with the standards and objectives of the FHA Property Improvement Program; defaulted contractors; developers and contractors who have allegedly not paid prevailing wage rates; individual workers underpaid by a contractor on a HUD project.

Categories of records in the system: Date of action; type of action; termination date and authority under which the action was taken; inspection reports; unsound credit; unsatisfactory past experiences; investigation reports; approvals of mortgages; home improvements to existing single-family homes; evidence of fraudulent or criminal conduct; grand jury indictments and convictions; certifications by builders and subcontractors later found to be in non-compliance; complaints from individuals; precautionary measures.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: VA—to verify acceptability of applications for mortgage insurance; Department of Labor—for review of compliance; urban renewal authorities—to approve contractors on HUD-assisted projects; state labor departments—for review of compliance; state real estate examining boards—to check on builders, contractors, developers and real estate firms with unsatisfactory ratings; Better Business Bureaus—for answering inquiries from consumers; agencies deemed eligible by the Office of Investigation—to acquire information; congressional delegations—to provide information concerning the status of complaints; complainant and his attorney—for review of complaint file for status and information; builder and his attorney—for review of complaint file for status and information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape/disc/drum; computer print-outs; file folders; binders; card files.

Retrievability: Name; case file number; names of individuals cross-indexed with names of known affiliated firms; identification number; type of program.

Safeguards: Records maintained in desks and lockable file cabinets. Access restricted to authorized personnel only.

Retention and disposal: Obsolete records are destroyed or retained in storage area, as space permits.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Information, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; other individuals; current or previous employers; credit bureaus; financial institu-

tions; other corporations or firms; Federal government agencies; non-federal (including foreign, state and local) government agencies; law enforcement agencies.

HUD/DEPT-12

System name: Contractors', Brokers' and Management Agents, Qualifications and Bidders' Lists

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Qualified bidders, current and past contractors to the Department and to mortgagors and housing authorities. Included are builders, architects, repair and maintenance contractors, developers, real estate firms, brokers, management agents, etc. The Headquarters Office file contains additional categories, such as consultants, data processing firms, research organizations, etc.

Categories of records in the system: Qualified bidders in Disaster Assistance are listed in Disaster Assistance Files (see separate notice). Qualifications of individuals/firms interested in bidding on HUD contracts and in being considered for HUD-approved lists of contractors. Headquarters Office files include data on minority and 8(a) status of firms. Business data may be included, such as number of years in business, areas of interest, number of employees, financial status, management experience. Sometimes includes evaluation of past performance.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Office of Inspector General and IRS—for investigative purposes; to mortgage lenders and property sellers—for selection of contractors from an approved list.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Material in binders and file folders. Material frequently presented on Standard Form 129. Cassette tapes used by Headquarters Office.

Retrievability: Filed by firm's/contractor's name.

Safeguards: Material generally filed in lockable file cabinets.

Retention and disposal: Records are discarded when businesses cease to operate or request they be removed from lists. Retrieval also takes place when no new Standard Form 129 is filed upon request. Obsolete records may be sent to Federal Records Center.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals/firms, credit bureaus, financial institutions, surety corporations, other federal agencies.

HUD/DEPT-14

System name: Credit Processing

System location: Most area and insuring offices maintain files of this type. For a complete listing of these, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors, repair contractors, management contractors and other contractors and builders under single-family and multi-family housing programs.

Categories of records in the system: Credit reports, trade references, bank references, factual data reports, balance sheets and other information related to financial reliability.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to GAO—for audits and investigation; to IRS—for investigation; to Mortgagors—for a record of processing activity.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file cabinets.

Retrievability: Filed by name, project name and case file number.

Safeguards: Records filed in lockable metal file cabinets with access limited to authorized personnel.

Retention and disposal: Files are partly historical and partly active; disposal is according to HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; other individuals; current or previous employers; credit bureaus; financial institutions; other corporations or firms; federal and non-federal government agencies.

HUD/DEPT—15

System name: Equal Opportunity-Housing Complaints

System location: Housing discrimination files are located at the office where originated and may also be transferred to associated area and/or regional offices, or the Headquarters Office. For a complete listing of these, with addresses, see Appendix A.

Categories of individuals covered by the system: Individuals filing housing discrimination complaints; individuals, officials, and organizations complained about; managers; grant or project applicants; builders; developers; contractors; appraisers; property owners; mortgagors; candidates for positions; witnesses; attorneys; individuals in disaster and EO files; Title VI, VIII and IX complainants. Does not include files on HUD employee complaints regarding their employment. Notices regarding these inquiries under the Privacy Act are published by the U.S. Civil Service Commission.

Categories of records in the system: Allegations of housing discrimination; names of complainant and persons or organizations complained about; investigation information; details of discrimination cases; compliance reviews; marketing activity; complaints under Titles VI, VIII and IX; conciliation files; correspondence; affidavits; complaint status reports.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to non-federal

EO-concerned agencies, the U.S. Department of Justice (including the FBI), the U.S. Department of Labor (including the Office of Federal Contract Compliance), U.S. Courts, the Veterans Administration, the Farmers' Home Administration, complainants, respondents and attorneys—for investigation, preparing litigation, and monitoring compliance.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records kept in lockable desks and file cabinets and magnetic tape/disc/drum.

Retrievability: Usually retrievable by name of complainant and, in some instances, by case file number.

Safeguards: Manual records are stored in lockable file cabinets; computer facilities are secured and accessible only by authorized personnel, and all files are stored in a secured area. Technical restraints are employed with regard to accessing the computer and data files.

Retention and disposal: HUD handbooks establish procedures for retention and disposition of records. Generally retained for two years, then transferred to Federal Records Centers for an additional five years.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject and other individuals, Federal and non-federal government agencies, law enforcement agencies, credit bureaus, financial institutions, current and previous employers, corporations or firms, EO counselors and witnesses.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a(k)(2), all investigatory material, including conciliation files, in records contained in this System which meet the criteria of these sub-sections is exempted from the notice, access, and contest requirements (under 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4), (G), (H), and (I), and (f)) of the agency regulations in order for the Department's Fair Housing and Equal Opportunity and legal staffs to perform their functions properly.

HUD/DEPT—16

System name: Equal Opportunity Programs—Construction

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Builders; contractors; developers; brokers.

Categories of records in the system: Affirmative action plans; affirmative fair housing marketing plans, applications, and certifications; construction programs; approval letters; pre-construction conference reports; participation records; complaints; compliance reviews; records of consent decrees; monitoring reports; minority contractor lists; related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Department of

Labor, Office of Federal Contract Compliance—for monitoring and investigation; to state and local governments and agencies—for compliance review and investigation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: Name of subject individual; case file number.

Safeguards: Records stored in lockable file cabinets.

Retention and disposal: Files are current and active; disposal is in accordance with HUD handbook procedures.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject and other individuals, firms, federal and non-federal agencies.

HUD/DEPT—17

System name: Experimental Housing Allowance Program—Participant Files

System location: Division of Housing Assistance Research, Assistant Secretary for Policy Development and Research, Headquarters Office.

Categories of individuals covered by the system: Applicants for housing allowances; participants and landlords under Experimental Housing Allowance Program.

Categories of records in the system: Socio-economic, financial and demographic data on EHAP participants.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to EHAP contractors—analysis for research purposes in accordance with program objectives.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Hard copy survey instruments stored in folders, microform, computer printout, punched cards, and magnetic tape/disc.

Retrievability: Manual files by name, social security number, personnel characteristics and case file number. Automated files have been stripped of all personal identifiers and are statistical only.

Safeguards: Access to manual files limited to survey subcontractors. No access to these records by prime contractors and HUD personnel. Records kept in secured areas and vaults.

Retention and disposal: In accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate

location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; current and previous employers.

HUD/DEPT—18

System name: Fellowship Files, Urban Studies

System location: Headquarters.

Categories of individuals covered by the system: Recipients of HUD fellowships in urban studies, and their alternates.

Categories of records in the system: Applications; financial statements; correspondence; policy statements; press releases.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Free text in file folders.

Retrievability: By name of award recipient and alternate.

Safeguards: Files are stored in lockable metal file cabinets.

Retention and disposal: Files are inactive and historical only. There are no established procedures for disposal of these records.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Individual awardees and alternates, educational institutions.

HUD/DEPT—19

System name: Grant and Loan Contracts

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Grant and loan contracts and related documents; status of grants and loans; personal information on grantee personnel; property descriptions; assignment records; grantee reports; related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to GAO and private accountants—for audit purposes; to loan creditors—for loan servicing; to National Science Foundation and research institutes—for evaluation and review of research grant proposals.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders and on magnetic tape.

Retrievability: Name; case file number.

Safeguards: Records are stored in lockable file cabinets; access to automated files is obtained by passwords and coded ID's.

Retention and disposal: Records are primarily active, with some historical material. Disposal in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject and other individuals; financial institutions, firms; federal and non-federal agencies.

HUD/DEPT—20

System name: Homeownership Assistance and Recertification Application (HARAS)

System location: Headquarters

Categories of individuals covered by the system: Participants in Section 235 Homeownership Assistance Program.

Categories of records in the system: Historical profile of participant group.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape/disc/drum.

Retrievability: Name. Application and recertification tables produced quarterly. No output automated system interfaces or terminal inquiry capability.

Safeguards: Computer facilities are secured and accessible only by authorized personnel, and all files are stored in a secured area. Technical restraints are employed with regard to accessing the computer and data files.

Retention and disposal: Records system is active and kept up-to-date.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Applications; recertifications; Single-family Statistical Reporting System.

HUD/DEPT—21

System name: Housing Assistance Applicants

System location: Many HUD regional, area, and insuring offices maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Individual and organizational applicants, builders, individual correspondents; mortgagors and mortgagees.

Categories of records in the system: Applications of those seeking housing grants and the review of those applications. Applicant's name, address and amount of grant. Also includes correspondence and requisitions for advances.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to local communities—in assessing Community Development Block grants.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Lockable file drawers.

Retrievability: Name; case file number.

Safeguards: Access to authorized personnel only.

Retention and disposal: In accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; corporations or firms; federal and non-federal government agencies.

HUD/DEPT—22

System name: Housing Counselling

System location: Many regional, area, insuring and service offices; as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Primarily individual mortgagors and prospective homebuyers seeking advice,

information and assistance regarding housing. Individuals with housing problems.

Categories of records in the system: Dates counseling, summaries of aid furnished to inquirers, correspondence. Sometimes includes certificate of completion of counseling, standard forms or letters, financial data.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: Occasionally used by HUD-approved counseling agencies in providing supportive counseling services such as money management and housekeeping training.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: HUD Forms 9906/9907, stored in file folders.

Retrievability: Always retrievable by name. Occasionally files are in chronological order or can be retrieved by case file number on address of property.

Safeguards: Data maintained in lockable desks and file cabinets. In some cases, files are restricted to use by counsellors.

Retention and disposal: A few records are active and kept up-to-date. Older records are treated according to HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Records usually furnished by subject individual. Occasionally received from other individuals, current or previous employers, credit bureaus, financial institutions, non-federal government agencies, counselling offices, community organizations and mortgage credit examiners.

HUD/DEPT—23

System name: Insured and terminated Single-family cases

System location: Headquarters Office

Categories of individuals covered by the system: Single-family mortgagors.

Categories of records in the system: Sample of single-family home cases for most recent five-year period.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape/disc/drum.

Retrievability: Name; case file number; property address.

Safeguards: Computer facilities are secured and accessible only by authorized personnel, and all files are stored in a secured area. Technical restraints are employed with regard to accessing the computer and data files.

Retention and disposal: Records system is active and kept up-to-date.

System manager(s) and address:

Director

Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; financial institutions; federal government agencies.

HUD/DEPT—24

System name: Investigation Files

System location: Headquarters

Categories of individuals covered by the system: HUD program participants and HUD employees under investigation, including mortgagors, mortgagees, grant and project applicants, builders, developers, real estate firms, contractors and appraisers.

Categories of records in the system: Files contain information concerning investigation of alleged irregularities in connection with HUD programs and include initial complaints filed against subjects alleging violations, reports of investigation, findings of HUD officials and recommendations and disposition to be made.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Department of Labor—for investigative research; as a data source for management information for production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related personnel management functions or manpower studies. Files may also be used to respond to general requests for statistical information (without personal identification of individuals) under the Freedom of Information Act, or to locate specific individuals for personnel research or other personnel management functions.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed by name, investigation file number, case number.

Safeguards: Records are maintained in locked file cabinets or in metal file cabinets in secured rooms or premises with access limited to those whose official duties require access.

Retention and disposal: Records are primarily active, with destruction of some records after three years and some after five years.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; other individuals; current or previous employers; credit bureaus; financial institutions; corporations or firms; law enforcement agencies.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a(k)(2) and (k)(5), all investigatory material in the record which meets the criteria of these sub-sections is exempted from the notice, access, and contest requirements under 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I) and (f) of the agency regulations in order for the Department's legal staff to perform its functions properly.

HUD/DEPT—25

System name: Legal Actions Files

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Litigants; potential and past claimants against the government.

Categories of records in the system: Threatened, pending and past litigation involving HUD as a party; summons; writs; indictments; pleadings; decisions; legal memoranda; litigation reports; depositions; deficiencies on court judgments; notices of levy; settlement negotiations; legal rulings, claims against the government; employee claims.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Justice Department—information for purposes of litigation, and representation of HUD before the courts and performance of all legal work incident thereto; to HEW—for investigation and litigation; to IRS—for investigation, litigation and collection of levies; to Local Housing Authorities—for investigation and litigation; to local governments—for investigation and litigation; to parties to litigation—to provide status and facts in litigation; to private individuals and corporations—to assist co-defendants or to provide documents and information as required by the Federal Rules of Civil Procedure; various uses under the Freedom of Information Act.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file cabinets.

Retrievability: Name; case names; case numbers assigned by courts.

Safeguards: Records maintained in locked and lockable metal file cabinets with access limited to authorized personnel.

Retention and disposal: Files are partly active and partly historical; disposal in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting:

(i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; other individuals; current or previous employers; financial institutions; firms and corporations; Federal government agencies; non-Federal government agencies; and Federal, state, and local courts.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a(k)(2) and (k)(5), all investigatory material in the record which meets the criteria of these sub-sections is exempted from the notice, access, and contest requirements under 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I) and (f) of the agency regulations in order for the Department's legal staff to perform its functions properly.

HUD/DEPT—26

System name: Loan Management Files

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors under single-family; multi-family and college housing projects, mortgagees who service insured mortgages; builders of multi-family projects.

Categories of records in the system: Legal documents; correspondence and other information relating to loan servicing.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to United States Attorney—for eviction purposes on foreclosed properties.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders.

Retrievability: Name; case number.

Safeguards: Files maintained in lockable file cabinets with access limited to authorized personnel.

Retention and disposal: Files are primarily active with periodic removal of inactive files in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; other individuals; credit bureaus; corporations and firms; federal government agencies; non-federal government agencies.

HUD/DEPT—27

System name: Local Housing Mortgage Insurance

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors and mortgagees in FHA-insured single- and multi-family housing; applicants for grant programs; HUD loan management personnel.

Categories of records in the system: Mortgage insurance certifications; special agreements with FHA mortgagors; compliance control cards; listing of areas ineligible for mortgage insurance; advisory information; applicants for mortgage insurance; mortgage data (amount, interest rate, monthly payment, Housing Act section).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders.

Retrievability: Primarily by case file. By name in some cases.

Safeguards: Lockable file cabinets and desks.

Retention and disposal: Primarily active information. Disposed of in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; financial institutions; credit bureaus; other individuals; firms; local and federal government agencies.

HUD/DEPT—28

System name: Property and Mobile Home Improvement and Rehabilitation Loans—Delinquent/Default

System location: Headquarters and most area and insuring offices maintain files of this type. For a complete listing, with addresses, see Appendix A.

Categories of individuals covered by the system: Mobile home, home improvement, and rehabilitation loan debtors; builders and contractors under mobile home, home improvement and rehabilitation programs.

Categories of records in the system: Names, credit applications, and case histories of borrowers; records of payments; financing statements; delinquent and defaulted loan records and account cards; collection and field reports; records of claims and chargeoffs; creditor requests for collection assistance; justifications for closing collection action; related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to GAO—for audit purposes; to private employers and other Federal agencies—for the purpose of collecting government-owned debts; and to the Department of Justice and U.S. Attorney's offices—for collection purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: By name and case file number of individual covered.

Safeguards: Files are stored in lockable file cabinets.

Retention and disposal: Files are partly active and partly historical and are disposed of in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; current and previous employers; credit bureaus; financial institutions; firms; federal and non-federal agencies; law enforcement agencies.

HUD/DEPT—29

System name: Mobile Home, Home Improvement Loans and Rehabilitation Grants and Loans

System location: Most area and insuring offices maintain files of this type. For a complete listing of these, with addresses, see Appendix A.

Categories of individuals covered by the system: Mobile home, home improvement and rehabilitation loan debtors; rehabilitation grantees, builders, dealers and contractors under mobile home, home improvement and rehabilitation loan and grant programs.

Categories of records in the system: Names of borrowers, builders, dealers and contractors; loan and grant applications and eligibility information; loan and grant documents; payment records; registration records; collection records; complaint records; related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to dealers and contractors—for settling complaints; to lenders—for loan servicing; to tax assessors—for assessment of property; to local agencies—for monitoring and carrying out programs.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: By name and case file number of individual covered.

Safeguards: Records stored in lockable file cabinets.

Retention and disposal: Records are primarily active with some historical information; disposal is in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

PRIVACY ACT ISSUANCES

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W. Washington, D.C. 20410.

Record source categories: Financial institutions, subject and other individuals; federal and non-federal agencies; firms, current and previous employers; law enforcement agencies.

HUD/DEPT-31

System name: Mortgage Servicing Files on HUD-Held Properties

System location: All HUD area and insuring offices. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Project sponsors; inspectors; tenants; landlords; local housing authorities; private accountants and auditors; management agents; mortgagee institutions; cooperative members; service contractors and brokers; mortgage assignees and assignors.

Categories of records in the system: Project servicing dockets; management reviews of sponsor qualifications; review of mortgagee defaults and mortgagee foreclosure; individual and organizational case studies; register of home mortgage commitments; mortgage assignments and transfers.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to GNMA and FNMA for financial referral to the Department of Justice; to General Accounting Office for purposes of investigation and potential foreclosures; to local tenant groups and Legal Aid for review of proposed rental increases; to the general public for reference.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Free text; standard forms; computer print-outs; binders and file folders.

Retrievability: By name, case file number, organizational code, project number, chronologically.

Safeguards: Files are kept in desks, file cabinets (locked and unlocked), safes and bookshelves. Access is limited to authorized personnel by locks and limited security checks.

Retention and disposal: Files are mostly active and kept up to date; and are both partly current and partly historical.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Inspectors; financial institutions; subject landlords; tenants; law enforcement agencies; local housing authorities; government agencies; private contractors and managers; private cooperatives and corporations.

HUD/DEPT-32

System name: Mortgages—Delinquent/Default

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors under single- and multi-family housing programs seeking assistance in preventing foreclosures; mortgagors whose mortgages are held by the Secretary; mortgagors whose payments are delinquent; mortgagors complaining about loan servicing; mortgagees servicing defaulted loans; banks lending money; builders, developers and other firms under multi-family housing programs; contractors, developers or lien holders under multi-family programs; builders, developers, real estate firms, contractors, appraisers, other corporations and firms making repair bids; defaulted borrowers; project owners; project managing agents; former owners; tenants; area managers; HUD personnel in area and regional offices.

Categories of records in the system: Foreclosure reports; bankruptcy reports; audit reports; inventory reports; monthly accounting records; credit documents; financial statements; mortgage delinquencies; records of collection efforts on defaulted loans; payment records of mortgagors under Section 234 of the National Housing Act; recertification of Section 235 National Housing Act; recertification violations of Section 235 mortgagors; loan servicing; assistance for mortgagors in lowering payments of helping to make mortgage payments; geographic location of single-family mortgagors in default; project fiscal data; project processing activities that may have led to projects going into default; properties conveyed to HUD; property information supplied by HUD area managers; proposed transfers of physical assets; managing plans; present management capabilities; repair bids; fire inspections; post-closing complaints; congressional inquiries resulting from mortgagor complaints.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to FHA—for insurance investigations; to IRS and GAO—for investigations; to state banking agencies—to aid in processing mortgagor complaints; to state housing and redevelopment agencies—for follow-up servicing; to mortgagees—to check on the status of cases and referrals of complaints; to counseling agencies—for counseling; to Legal Aid—to assist mortgagors.

Storage: Free text; Standard Forms 2068 and 2068S; binders; notebooks; magnetic tapes, drums, and discs.

Retrievability: Name; Social Security number; case file number; name of mortgagee; property address.

Safeguards: Records maintained in desks and lockable file cabinets; access to automated systems is by passwords and code identification cards; access limited to authorized personnel.

Retention and disposal: Obsolete records destroyed or shipped to Federal Records Center in compliance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

54769

information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; other individuals; current or previous employers; credit bureaus; financial institutions; other corporations or firms; Federal Government agencies; non-federal government (including foreign, state and local) agencies; law enforcement agencies.

HUD/DEPT-34

System name: Pay and Leave Records of Employees

System location: All Department offices. For a complete listing of offices, with addresses, see Appendix A.

Categories of individuals covered by the system: HUD employees.

Categories of records in the system: Name, Social Security number and employee number, grade, step and salary; organization, retirement or FICA data as applicable; Federal, state and local tax deductions; regular and optional Government life insurance deduction(s), health insurance deduction and plan or code; cash award data; jury duty data; military leave data; pay differentials; union dues deductions; allotments, by type and amount; financial institution code and employee account number; leave status and data of all types (including annual, compensatory, jury duty, maternity, military, retirement disability, sick, transferred, and without pay); time and attendance records, including leave applications and reports, individual daily time reports, adjustments to time and attendance, overtime reports, supporting data, such as medical certificates, number of regular, overtime, holiday, Sunday and other hours worked; pay period number and ending dates; cost of living allowances; mailing address; coowner and/or beneficiary of bonds, marital status and number of dependents; and "Notification of Personnel Action."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: Transmittal of data to U.S. Treasury to effect issuance of paycheck to employees and distribution of pay according to employee directions for savings bonds, allotments, financial institutions and other authorized purposes. Annual reporting of W-2 statements to Internal Revenue Service, the individual, and taxing authorities of States, the District of Columbia, territories, possessions, and local governments, except Social Security numbers will be reported only to such authorities that have satisfied the requirements set forth in Section 7(a)(2)(B) of the Privacy Act of 1974. To the Civil Service Commission concerning pay, benefits, retirement deductions, and other information necessary for the Commission to carry on its Government-wide personnel functions; to GAO - for audit; to other Federal government agencies - to facilitate employee transfers; and to State agencies - to verify workmen's compensation injury claims.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual, machine-readable and magnetic media.

Retrievability: Name of employee; Social Security Number.

Safeguards: Physical, technical, and administrative security is maintained with all storage equipment and/or rooms locked when not in use. Admittance, when open, is restricted to authorized personnel only. All payroll personnel and computer operators and programmers are instructed and cautioned on the confidentiality of the records. Manual files kept in lockable desks, file cabinets and safes.

Retention and disposal: Retained on site until after GAO audit, then disposed of, or transferred to Federal Records Storage Centers in accordance with fiscal records program approval by GAO, as appropriate, or General Record Schedules of GSA.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with procedures in 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals, supervisors, timekeepers, official personnel records, previous employers, or other Federal government agencies.

HUD/DEPT-35

System name: Personnel Medical Records

System location: In most HUD offices. For a complete list of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: HUD personnel and individuals writing to the Department.

Categories of records in the system: Pre-employment medical records and individual medical records of HUD employees including standard medical forms completed by doctors at time of entrance of duty.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to federal agencies—for review when considering hiring and upon transfer to another agency.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In lockable file cabinets.

Retrievability: By name.

Safeguards: Records kept in locked file cabinet with access by authorized personnel only.

Retention and disposal: Active, kept up-to-date, partly historical. Maintained until retirement, resignation or transfer. Forwarded with official personnel folder when sent out for disposition according to HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Primarily from subject individual.

HUD/DEPT-37

System name: Personnel Travel System

System location: All Department offices maintain employee travel records, and several maintain driver permit application records. For

a complete listing of offices, with addresses, see Appendix A.

Categories of individuals covered by the system: HUD personnel.

Categories of records in the system: All travel records, including vouchers, requests, advances, receipts for requests, orders, applications for Federal vehicles, driver permits, U.S. Government driver's licenses, driver's physical fitness forms, motor pool records, monthly motor vehicle use records, and GSA vehicle mileage reports. Applications for parking space.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Treasury—for payment of vouchers; driver's license information transmitted to Department of Transportation for verification with National Driver Register, vouchers and receipts are available to GAO and GSA for audit purposes and vouchers are verified by private transporters.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Files generally stored on standard Government forms in individual file folders or binders.

Retrievability: Almost always retrievable by name, occasionally by Social Security number, and rarely by numerical or chronological sequence or by organization or vehicle.

Safeguards: Kept in lockable desks or file cabinets.

Retention and disposal: Records are active and kept up-to-date. Files purged in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location; A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual and supervisors.

HUD/DEPT—38

System name: Pre-Construction Plans, Bids and Contracts.

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Bidders; contracting builders; developers; service agents and management dealers; local housing authorities; appraisers; project applicants and recipients.

Categories of records in the system: Building permits, pre-construction analysis files, precautionary files, bid tabulation controls, rotation schedules and reviews, rebid invitations, procurement bidding, contract files, fee schedules, manufactured housing records; interstate land sales; compliance and exemption records; sewage data and street improvements.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to General Accounting Office, IRS, Federal Trade Commission, Securities and Exchange Commission, U.S. Postal Service, Department of Transportation, Department of Labor and various state agencies for purposes of investigations. To financial institutions for reference in assignment of accounts receivable and contract rights. To local builders and contractors—for determination of compliance with local building codes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Free text; standard forms; file folders; binders; cards; books and ledgers.

Retrievability: Name; case file number; project number; organizational code.

Safeguards: Files are maintained in file cabinets, desks, safe and on file shelves. Access is generally limited to authorized persons with keys within security bounds.

Retention and disposal: Most files are active and kept up-to-date; partly current and partly historical; files are disposed of in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Bidders; appraisers; contractors; inspectors; financial institutions; government agencies; law enforcement officials; architectural and engineering professional organizations; project sponsors; developers; dealers and brokers; individuals dealing with HUD.

HUD/DEPT—40

System name: Property Inspection Reports System.

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: HUD inspectors; architects under single-family programs; construction analysts; single-family mortgagors; single-family mortgagors writing complaints.

Categories of records in the system: Record and evaluation of field inspectors' performance; requests for inspections; assignment schedules; builders' workmanship adjustment records; training schedules; latent defect inspections; individual complaints.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to mortgagors—for information on eligibility of property for FHA insurance; to auditors, architects, contractors and project sponsors—for information on inspections and necessary follow-up actions; to FNMA and GNMA—correspondence relating to inspection.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders.

Retrievability: Name of inspector, case file number; project number, program type; subdivision number; ASP number.

Safeguards: Lockable file cabinets; locked desks. Only authorized persons have access. Buildings secured after hours.

Retention and disposal: Some files sent to Records Center after one year; some destroyed when outdated or when case closed; some destroyed in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Financial institutions; FHA architect supervisors; HUD inspectors.

HUD/DEPT—42

System name: Public Housing Rent Subsidy Programs.

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Low-rent housing applicants and recipients; HUD personnel; local housing authorities; mortgagors; mortgagors and financial institutions; realty brokers; construction contractors and builders; area managers; local service contractors.

Categories of records in the system: Section 236 Applications and Recertifications; rent supplement applications/vouchers/schedules; monthly reports of excess collections; subsidized tenant move-out records; requests for reservations; and permission-to-occupy certifications.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to General Accounting Office—for purposes of audit; to IRS—for investigation; to local and state housing authorities—for reference purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Free text; standard forms; computer print-outs; file folders.

Retrievability: Name; case file number according to project; organizational program; building number.

Safeguards: Limited access; locked file cabinets; security checks and limited authorization.

Retention and disposal: Files are active and kept up-to-date; partly current and partly historical. Files are either sent to GSA Federal Records Center for storage or disposed in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; other individuals; current or previous employers; credit bureaus; financial institutions; other corporations or firms; federal government agencies; non-federal government agencies; project and project managers.

HUD/DEPT—43

System name: Real Estate Files.

System location: Many regional areas, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Management brokers appointed to manage HUD-acquired property; management agents for single-family and multi-family projects; real estate brokers who are area managers for HUD-acquired properties; real estate brokers selling repossessed homes for FHA; real estate brokers selling HUD properties; real estate brokers involved in management of HUD-owned single-family and multi-family projects; brokers who have signed non-discrimination statements; builders and contractors under property disposition programs; bidders on property; purchasers of HUD homes with structural defects; potential buyers.

Categories of records in the system: HUD single-family property disposition; real estate activity in urban renewal projects and public housing; management of acquired, insured projects; performance under terms of contract; contractors' qualifications and prior experience; development proceeds; local authority budgets; authorized proclaimers; credit; profit and loss; financial transactions; repairs to property in inventory; property acquisition and disposition; exhibits submitted by developers; information on purchasers of HUD homes with structural defects; information on development of new subdivisions; market needs and available maximum market rent and environment assessment; complaints against real estate brokers.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to IRS—for auditing income tax returns; to insurance companies—to file claims for amounts due; to mortgagors—to review the credit of prospective purchasers; to local public authorities—to check on acquisition, re-use and prices of real estate.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Free text; Standard Form 955b; card file; file folders; binders.

Retrievability: Name; Social Security number; personal characteristics; case file number; contract number; geographic area; identification number.

Safeguards: Desk; lockable file cabinet; safe; central file.

Retention and disposal: Obsolete records are destroyed or sent to storage facility.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate locations. A list of all locations is given in Appendix A.

A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; other individuals; current or previous employers; credit bureaus; financial institutions; other corporations or firms; federal government agencies; non-federal (including foreign, state and local) government agencies.

HUD/DEPT-44

System name: Relocation Assistance

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Displaced persons; relocation claimants and applicants; builders; developers; contractors and appraisers under relocation programs.

Categories of records in the system: Names of relocation claimants; personal and family financial data; relocation needs and problems; claims; documentation and evaluation of claims; recommendations; inquiries and grievances; responses to grievances; audits.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to GAO—for audit purposes; to the Department of Justice—for investigation and prosecution; to local public agencies—for processing, training and monitoring purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: By name and case file number of subject individual.

Safeguards: Stored in lockable file cabinets; access limited to authorized personnel.

Retention and disposal: Files are partly active and partly historical; disposal is in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject and other individuals; current and previous employers; credit bureaus and financial institutions; firms; federal and non-federal agencies; law enforcement agencies.

HUD/DEPT-45

System name: Repair and Maintenance Contractors

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Repair and maintenance contractors; mortgagors whose property is repaired or maintained.

Categories of records in the system: Names of contractors; records of repair and maintenance contracts; successful bidders; amounts of bids; contract price; completion dates; descriptions of property; certifications of repairs completed; letters to proceed; mortgagor personal data; mortgage notes; requests for repair; credit reports; purchase order records; related correspondence.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to IRS—for verification of payments and investigation; mortgages—for mortgage servicing purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: By name and case file number of subject individual.

Safeguards: Records stored in lockable file cabinets.

Retention and disposal: Records are partly current and partly historical; disposal is in accordance with HUD Handbook procedures.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject and other individuals; current and previous employers; credit bureaus; financial institutions; firms; federal and non-federal agencies.

HUD/DEPT-46

System name: Single Family Case Files

System location: Many regional, area, insuring and service offices, as well as the Headquarters Office, maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Mortgagors; mortgagees; builders; developers; contractors; appraisers and real estate firms in connection with single family housing programs of the department.

Categories of records in the system: Files contain standard records used for day-to-day maintenance of single-family mortgage cases, including daily case control, mortgage servicing, payment records, loan recommendations, information concerning borrowers' inability to make payments, cancellations and monies returned. Also, requests for refinancing, income and employment information used in determination of applicant eligibility, insurance documents, sales agreements, conditional and firm commitments, owner requests for appraisals, property descriptions, correspondence and complaints.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Welfare agencies—for fraud investigation; to VA—for coordination with HUD in processing construction complaints. Congressional delegation—providing information concerning status of complaints. Complainants and attorneys representing them—review of complainant file for status and information. Builders and attorneys representing them—review of complainant file for status information.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders and computerized tape, disc and drum.

Retrievability: Filed by name of individual and case file number.

Safeguards: Records maintained in locked and lockable file cabinets with access limited to authorized personnel.

Retention and disposal: Records are primarily active with some historical data. Inactive files are normally disposed after a two-year period.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; current or previous employers; credit bureaus and financial institutions; corporations and firms and federal and non-federal government agencies.

HUD/DEPT-47

System name: Spanish-Speaking Program

System location: Central Office

Categories of individuals covered by the system: Spanish-speaking applicants for employment; Spanish-speaking Equal Opportunity complainants; Spanish-speaking firms and groups.

Categories of records in the system: Equal Opportunity grievances by Hispanics; capability statements of Hispanic firms and groups for contracting and grants; Hispanics seeking employment.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders

Retrievability: Name; personal characteristics.

Safeguards: Files are maintained in locked and lockable file cabinets and desks with access limited to authorized personnel.

Retention and disposal: Files are partly current and partly historical with no special disposal techniques.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; other individuals; corporations or firms; federal government agencies; non-federal government agencies.

HUD/DEPT-48

System name: Subdivision files

System location: Almost all HUD area and insuring offices maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Sponsors; developers and builders of subdivisions; planners, engineers, and architects; mortgagees for single-family housing; builders of single-family and multi-family housing; real estate contractors involved in subdivision processing; developers involved in HPMC subdivision activity; mortgagees, builders, developers, real estate firms, contractors and other individuals who are involved in establishing approved subdivisions; developers of single-family tracts and planned unit developments and condominiums using short-cut processing.

Categories of records in the system: Contracts and notes involving land and lot purchases by builders and developers; financial statements on sponsors; subdivision proposals; status of processing of subdivision proposals; land ownership; information on new applicants; analysis and approval of new subdivisions; HUD-FHA specialist reports from state and area clearing houses; memos from appraisers about conditions of subdivisions; engineering documents; recorded plat covenants; grading and drainage elevations; subdivision feasibility analysis; planned unit development; subdivision improvements; multi-family projects; developer's subdivision plans; trade styles under which sponsors' organization has operated; bid condition approvals; proposed selling prices; zoning regulations; flood, mud, water and sewer hazards; plans and exhibits of subdivisions.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Veterans Administration—for use in determining acceptance under VA programs and for appraisals; to Farmers Home Administration—for use in determining acceptance under FHA programs and for appraisals; Soil Conservation Service—to Members of Congress—for answering inquiries and responding to complaints; mortgagees—for determining application acceptability before submission; to developers, builders, mortgagees, real estate firms, contractors and other individuals—for assisting sponsors in land planning and getting information on the status of processing of specific subdivision proposals; to state agencies—for review; to municipalities—for review; to developers, builders, mortgagees, real estate firms, contractors and other individuals—for assisting sponsors in land planning and getting information on the status of processing of specific subdivision proposals; to state agencies—for review; to municipalities—for review; to developers, builders, mortgage companies and banks—for making financing decisions; to the U.S. Army Corps of Engineers—to make flood plain determinations; to regional planners—for studies.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Standard forms; file binders; card files.

Retrievability: Name; case file number; subdivision name, ASP

PRIVACY ACT ISSUANCES

number of SPO numbers; city name

Safeguards: Records are stored in desks, card files and lockable file cabinets; access restricted to authorized personnel.

Retention and disposal: Obsolete files are destroyed or shipped to the Federal Records Center for storage

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; other individuals; financial institutions; other corporations or firms; federal agencies; non-federal (including foreign, state and local) government agencies; standard forms.

HUD/DEPT-49

System name: Wage Complaints and Compliance

System location: Most HUD area and insuring offices maintain files of this type. For a complete listing of these offices, with addresses, see Appendix A.

Categories of individuals covered by the system: Construction and maintenance employees of builders and contractors working on HUD-assisted projects.

Categories of records in the system: Wage and fringe benefits complaints by employees and unions; Pre-construction conferences; records on labor standards and related acts on federally-assisted projects; wage surveys and payrolls submitted by prime and sub-contractors; wage violation data and Department of Labor wage determinations on site interviews; compliance reports, enforcement reports; certification records.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Department of Labor—for investigation and data compilation; to IRS and state commissions—for investigation; to unions, contractors and mortgage companies—for information and compliance; to attorneys—for litigation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders.

Retrievability: Case file number (project, mortgage, grant, etc.); name; Social Security number; individual's address; employer.

Safeguards: Primarily in lockable metal file cabinets; some in safes.

Retention and disposal: Disposition in accordance with HUD Handbook.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Individual employees and employers; federal and other state agencies; Unions.

HUD/DEPT-51

System name: Standards of Conduct File

System location: Headquarters, Office of General Counsel.

Categories of individuals covered by the system: HUD employees.

Categories of records in the system: Financial statements; statements of employment.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to the Department of Justice, the Federal Bureau of Investigation, and the Internal Revenue Service for purposes of investigation.

Storage: File folders and standard forms.

Retrievability: Name.

Safeguards: Locked file cabinets.

Retention and disposal: Files are active and kept up-to-date; partly current and partly historical.

System manager(s) and address:

Assistant General Counsel for Finance and Administrative Law
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals.

HUD/DEPT-52

System name: Privacy Act Requesters.

System location: Headquarters, Regional, Area, and Insuring Offices maintain files of this type. See Appendix A for a complete listing of these offices.

Categories of individuals covered by the system: Individuals inquiring about existence of records about them, and requesting access to and correction of such records under provisions of the Privacy Act.

Categories of records in the system: Personal identification of requester, nature of request, and disposition of the request by the Department.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

54775

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Storage: In file holders.

Retrievability: Filed by case number and name of individual.

Safeguards: Records maintained in locked and lockable file cabinets with access limited to authorized personnel.

Retention and disposal: Records are primarily active. Inactive files are normally disposed of after a one-year period.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) In relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals.

HUD/HM-1

System name: Housing Management Section 8 Management Information

System location: Headquarters Office.

Categories of individuals covered by the system: Tenants in Section 8 Program.

Categories of records in the system: Tenant characteristics.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape/disc/drum.

Retrievability: Name of tenant. Inquiry capability by HUD management. Output interface with HPMC Section 8 MIS (occupancy characteristics).

Safeguards: Computer facilities are secured and accessible only by authorized personnel, and all files are stored in a secured area. Technical restraints are employed with regard to accessing the computer and data files.

Retention and disposal: Records system is active and kept up-to-date.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing

access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; landlords.

HUD/HM-2

System name: HUD Temporary Housing File

System location: Contact appropriate Regional Offices for locations of field offices. For a complete listing of Regional Offices, see Appendix A.

Categories of individuals covered by the system: The files relate to disaster assistance functions. The files concern: builders, developers, real estate firms and other vendors, such as: mobile homes, furniture and truck rental, utility supplies and towing contractors; grant/project applications for aid (individuals and organizations); equal opportunity; qualified bidders on procurements; HUD personnel and candidates for temporary and permanent positions, some of which are on response cadre; past, present and inactive tenants; candidates for permanent or temporary housing in facilities such as mobile homes, or who withdrew from such housing, victims of natural disaster (fire, flood, tornado) and their case files.

Categories of records in the system: Personal information is contained, such as name, address, sex, Social Security number, telephone number, wages, job location, family income, insurance data (relating to homes) as pertaining to some applicants, and disapproval or approval of applicants for aid or employment. There is general correspondence concerning complaints, plaudits, reinstatement in jobs or housing, requests for disbursement of payments and inquiries from tenants and landlords in regard to aid. Files also include general administrative and fiscal information, including payroll, payment schedules and forms, travel vouchers, time and attendance records, applications, termination notices, individual and family grant programs, damage and relocation information, leases, contracts, disaster cadre registers, listings of emergency repairs given as a result of specific natural disasters, reasons for tenant eviction or denial of aid, sales information on homes after tenant purchase, listings of debarred contractors, and status of dispositions of applicants for housing.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to the FBI—for investigation of possible Small Business Administration loan frauds; to GAO—for the investigation of files and to verify family composition, income and sources of housing plans; to the Small Business Administration—to verify household composition and actual disaster assistance; forwarding of addresses; information concerning contracts, to Local Departments of Public Assistance—for verification of occupancy of victims, their income and relocation; to House of Representatives—specific tenant information is given in response to a Congressional inquiry; to Post Office—in regard to location of individuals; to Departments of Motor Vehicles and State Tax Departments—to find serial number and cost of mobile homes and vehicles; to Local Housing Authorities and departments of community affairs (by state) and the Committee on Economic Opportunity—to determine family compositions, income and sources of income and housing plans concerning relocation; to law enforcement agencies—for relocation information; to Local Housing Authorities and local township police—concerning the forwarding of addresses; to utility companies—in regard to lease dates and forwarding addresses; to Defense Department Investigating Service—concerning mobile home occupancy dates; to county investigating services—to verify address and number of people within households; to local relief and government agencies—information on victims and housing; property ownership; tax rebates; to disaster victims—in regard to disaster assistance and its termination.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

PRIVACY ACT ISSUANCES

Storage: Some files are in free text form, such as notes, memos, ledger cards, printed cards and 3 x 5 cards, as well as daily reports. Other files are on Standard Forms Nos. SF 171, SF 52, SF 50, 491.1 or various certification forms relative to the need for assistance, or computer print-outs (some of which concern summaries of payments). Other forms of storage are file folders and Disaster Management Information Systems. Any computer files are controlled and reported at the Headquarters Office.

Retrievability: Administrative files systems are filed alphabetically and geographically by name and then by case file number. Direct Reimbursement Number, lease number, some are cross-referenced by Social Security number, application number, personal characteristics (e.g., age, marital status, GS level, etc.); subject matter; designated disaster and area; functional assignment cards, accession to record group number. Most correspondence written in free text is filed by title of office and office designation. Some active files are within the program subject file classification method.

Safeguards: Records exist in cardboard boxes, lockable desks, in notebooks in bookcases, in tape-disc libraries, in lockable file cabinets or in central files outside local offices. Records are kept in buildings which are secured after work hours, and most offices are locked when unattended. Confidential files are seen only by authorized personnel (in Regional Emergency Offices). Other files are seen only by personnel authorized to enter offices (whose names are posted on lists) and who are overseen by Disaster Assistance employees. In military installations, the records are maintained in locked areas; only authorized personnel have keys to files or offices. Computer and data files are stored in computer facilities which are secured and accessible only to authorized personnel; all files are stored in a secured area. Technical constraints are employed with regard to access and the methods employed in order to maintain security include the use of unique account codes; file qualifiers; file names; read/write protection keys; site identification codes; run identification codes; and password codes.

Retention and disposal: Some files are active and kept up-to-date, but usually only when an individual is receiving assistance. Other files are inactive and historical only, unless a follow-up on a case is needed within one year after the close-down of the Disaster Field Office. Other files are partly current and partly historical. Some files are permanently retained, others destroyed by shredding according to appropriate schedules concerning disposal authority. When Disaster Field Offices are actively functioning, inactive case files are placed in inactive files. When Disaster Field Offices are inactive, case files are stored at record centers. However, when a Disaster Field Office has been audited and closed out, any pertinent records are shipped to Regional Offices. There is a periodic review of some files, which includes the removal of obsolete information. Once a tenant is terminated or has vacated a temporary residence, his or her records are placed in a "vacate file". Some files are eventually sent to the archives for permanent retention.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the appropriate location. A list of all locations is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Social service and other state and city agencies; subject individuals; current or previous employers; credit

bureaus; financial institutions; corporation or firms; Federal Government agencies; non-Federal Government agencies; law enforcement agencies; Disaster Field Offices; various numbered HUD forms; unnumbered survey forms; authorizations and statements.

HUD/FIA-1

System name: Federal Crime Insurance

System location: Headquarters.

Categories of individuals covered by the system: Federal crime insurance policyholders.

Categories of records in the system: Names of policyholders; addresses of insured premises; type of premises; class of business; annual gross receipts; amounts and types of insurance desired; annual premiums; claims information; record of claim payments; record of premium payments; payments of commissions to agents.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: to Safety Management Institute for billing, verification of coverage, claims adjusting and issuance of policies.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper files in metal cabinets, tape/disc library.

Retrievability: By name and Social Security number of policyholders.

Safeguards: Access limited to authorized personnel.

Retention and disposal: Information partly current and partly historical; no procedures for removal of obsolete information.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individual; police reports (for verification of claims data); servicing companies (for verification of claims data).

HUD/HPMC-1

System name: Housing Production and Mortgage Credit Monitoring System

System location: Headquarters.

Categories of individuals covered by the system: Single-family mortgagors.

Categories of records in the system: Cross-indexes (used to support studies and investigations).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape/disc/drum.

Retrievability: Name; case file number.

Safeguards: Computer facilities are secured and accessible only by authorized personnel, and all files are stored in a secured area. Technical restraints are employed with regard to accessing the computer and data files.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

54777

Retention and disposal: Records system is active and kept up-to-date.

System manager(s) and address:

Director
Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. A list of all locations is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories: Subject individuals; current or previous employers; credit bureaus; financial institutions; corporations; firms; federal government agencies.

HUD/PD&R-1

System name: Urban Homesteading Evaluation Data

System location: Cambridge, Massachusetts.

Categories of individuals covered by the system: Urban homesteaders, other residents of Urban Homesteading Demonstration (UHD) target neighborhoods, and unsuccessful applicants for UHD properties.

Categories of records in the system: Demographic, socioeconomic, housing characteristics, and housing costs.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraphs in prefatory statement. Other routine uses: none.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Survey questionnaires stored in file folders; punch cards, magnetic tape/disc/drum stored in facilities with limited access.

Retrievability: Code number; address.

Safeguards: File folders stored in locked cabinets; machine-readable files stored in secured areas and technical restraints are employed with regard to accessing the computer and machine-readable files. All material accessible only by authorized personnel.

Retention and disposal: Questionnaires are retained for about one month to permit conversion of data into machine-readable format; machine-readable records will be disposed of in approximately three years, early 1980.

System manager(s) and address:

Director, Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street SW.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials by the individual concerned appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Ap-

pendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories: Urban homesteaders, other residents of UHD target neighborhoods, and unsuccessful applicants for UHD properties.

HUD/PD&R-2

System name: Solar Energy Demonstration Survey Files

System location: Headquarters.

Categories of individuals covered by the system: Purchasers and renters of solar heated or cooled housing under the demonstration program; comparative purchasers of conventional heated and cooled housing; prospective purchasers of housing marketed under the demonstration program.

Categories of records in the system: Housing characteristics, reason for moving, utility expenditures, neighborhood characteristics, perception of housing and subdivision, housing costs and financing characteristics, marketing attitudes toward solar energy, operating experience with heating and cooling systems, socioeconomic information.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See Routine Uses paragraph in the prefatory statement. Other routine uses: Real Estate Research Corporation (Chicago, Ill.) for analysis and evaluation of solar energy use and its acceptance by the public.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders and on magnetic tape/disc/drum.

Retrievability: Name; address; code number; and index.

Safeguards: Computer facilities are secured and accessible only to authorized personnel. The name-address index file will be kept in the Department in lockable file cabinets, with access limited to key authorized personnel.

Retention and disposal: Records will be maintained until follow-up interviews have been completed. Records of survey participants will be destroyed as each cycle ends or the participants leave the program. Hard copy questionnaires will be destroyed after they are encoded into machine readable format. All records will be destroyed at the conclusion of the study, scheduled to end in approximately five years.

System manager(s) and address:

Director, Office of Organization and Management Information
Department of Housing and Urban Development
451 Seventh Street, S.W.
Washington, D.C. 20410

Notification procedure: For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the appropriate location, in accordance with 24 CFR Part 16. A list of all locations is given in Appendix A.

Record access procedures: The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. This location is given in Appendix A.

Contesting record procedures: The Department's rules for contesting the contents of records and appealing initial denials by the individual concerned appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A; (ii) in relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Record source categories: Subject individuals.

NSF-1

System name: Employment Inquiries and Background Information

System location: Decentralized—There are numerous separate files maintained by individual NSF Offices: National Science Foundation, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: Individuals inquiring about opportunities for employment at the Foundation who apply resumes, standard form 171's or other background information either on their own or at the request of Foundation personnel. This system covers only information submitted as general background for use in the event vacancies should occur as opposed to formal applications (e.g. SF 171's) with respect to positions for which the Foundation is actively recruiting. In the latter case, applications are filed with the announcement folders and are not a part of this system of records, but the applications may become part of NSF System No. 25 if the applicant does obtain employment with the Foundation.

Categories of records in the system: Records contain letters, resumes, and information contained on SF 171.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: None.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records may be kept as received originally or in some cases index cards with names of persons applying are kept (as at NSF Personnel Office) and the application or letters are returned or destroyed.

Retrievability: Filed alphabetically by last name of individual.

Safeguards: Building employs security guard. Building is locked during non-business hours when guard is not on duty.

Retention and disposal: Varies with offices. In some cases the records are destroyed or returned to individual. In others they are retained for a period of time for future references as vacancies occur.

System manager(s) and address: Head of particular offices maintaining file.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613. The NSF Office of Program of Interest must be specified in any request.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information is received from individual applicants.

NSF-2

System name: Applicants to Committee on the Challenges of Modern Society Fellowship Programme (NATO).

System location: National Science Foundation, Division of Scientific Personnel Improvement, Fellowships and Traineeship—W 478, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: Applicants for above described program.

Categories of records in the system: Application/proposal of applicant.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Sent through State Department to NATO. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by last name of applicant.

Safeguards: Building and room in which records are kept is locked during non-business hours.

Retention and disposal: Records are transferred to NATO. NSF maintains for a limited time, those files on applicants not recommended for award.

System manager(s) and address: Division Director, Scientific Personnel Improvement

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information is received from applicants and references.

Systems exempted from certain provisions of the act: NSF at 45 CFR 613.6 has claimed an exemption as to the disclosure of the identity of references in accordance with 5 USC 552a (k)(5).

NSF-3

System name: Application and account for Advance of Funds (SF 1038)

System location: National Science Foundation, Division of Financial and Administrative Management, Voucher Unit, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: NSF employees (including Consultants)

Categories of records in the system: Record includes individual's name and address, amount requested, and voucher number.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Voucher and Schedule of Payments (SF 1166) to the Department of Treasury.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in 5 x 8 files.

Retrievability: Filed alphabetically by last name of employee.

Safeguards: Building employs security guard. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: Destroyed four years after settlement of advance.

System manager(s) and address: Director, Division of Financial and Administrative Management

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information is received from individual and his office.

NSF-4

System name: Confidential Statement of Employment and Financial Interests

System location: National Science Foundation, Director, Division of Personnel and Management, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: NSF Employees (including Consultants)

Categories of records in the system: Records contain the following information: name, title, employment and financial interest, creditors, interests in real property.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: None, although information is submitted to CSC in the form of statistical reports.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by name of employee.

Safeguards: Building employs security guard. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours. Records are stored in key locked file cabinet.

Retention and disposal: Records are maintained until the separation of the employee and then destroyed.

System manager(s) and address: Director, Division of Personnel and Management

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information is received from individual employees.

NSF-5

System name: Congressional Contact Files

System location: National Science Foundation, Congressional Liaison Branch, Office of Government and Public Programs, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: Members of Congress and Congressional Staff.

Categories of records in the system: Files contain records of phone calls, meetings, letters, and other information related to individual.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: None.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by last name of individuals.

NATIONAL SCIENCE FOUNDATION

51781

Safeguards: Building employs security guard. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: Indefinite.

System manager(s) and address: NSF Congressional Liaison Officer

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: In addition to actual correspondence and communications at meetings, information is obtained from newspapers, magazines and other such public sources.

NSF-6

System name: Doctorate Records File

System location: National Academy of Sciences, 2101 Constitution Avenue, NW, Washington, D.C. 20418.

Categories of individuals covered by the system: Approximately 99 percent of those individuals who have received earned doctorates from United States institutions.

Categories of records in the system: Personal data, education, marital status, post grad plans, sex, citizenship, race, etc.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: 1. Information is given to the institution awarding degree. 2. Certain information (name, year, and field of degree) is given to the institution that awarded degrees and to other organizations for address searches and statistical studies. No other routine uses have been identified although data is given to other organizations without identifying particulars for statistical purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Computer tapes and questionnaires are kept by the NAS.

Retrievability: Alphabetically by last name of individual.

Safeguards: Building employs security guard. Room in which records are kept is locked during non-business hours. Questionnaires in locked cabinets.

Retention and disposal: Destroyed after 75 years.

System manager(s) and address: Division Director, Science Resources Studies

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information obtained from individual.

NSF-7

System name: Earnings and Tax Statement (W-2)

System location: National Science Foundation, Director, Division of Financial and Administrative Management, Payroll Section, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: NSF Employee (including consultants)

Categories of records in the system: Gross Earnings, Federal Tax Withheld, State Tax Withheld, FICA Wager and FICA Tax Withheld, marital status, name, address, and Social Security Number.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Magnetic tape is sent to IRS. A copy is sent to State of Residence and/or other taxing authority.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper record maintained in card file.

Retrievability: Filed alphabetically by last name of employee.

Safeguards: Building employs security guards. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: Destroyed three years after year of issuance.

System manager(s) and address: Director, Division of Financial and Administrative Management

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information obtained through computer payroll system.

NSF-8

System name: Employee Grievance and Appeals File

System location: National Science Foundation, Director, Division of Personnel and Management, 1800 G Street, NW, Washington, D.C. 20550

Categories of individuals covered by the system: NSF Employees

Categories of records in the system: These files contain all records pertaining to grievances filed by NSF employees. A few files on appeals initiated prior to September 9, 1974, are also included in this system, although all appeals are now handled directly by the Civil Service Commission (AS to those later appeals see CSC notice entitled "CSC Appeals, Grievances and Complaints Records").

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: 1. Civil Service Commission has access during routine examinations and audits conducted by it. 2. Information or records may be disclosed to state or Federal Courts in connection with litigation. 3. Information from these files may be used to respond to a request from a member of Congress regarding the status of an appeal, complaint, or grievance if the Congressman is acting on the basis of a request from the individual involved.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by the last name of employee.

Safeguards: Building employs security guards. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: The records are maintained up to two years after the completion of the action and then transferred to the National Personnel Records Center, St. Louis, Missouri. They are destroyed by the Federal Records Center when they are seven years old.

System manager(s) and address: Director, Division of Personnel and Management.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information from the employee, supervisors, hearing examiner, witnesses, and others providing input to the particular case.

NSF-9

System name: Employees Locator Record Card

System location: Records are maintained in two locations: Director, Division of Personnel and Management, and the individual offices to which the employee is assigned. National Science Foundation, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: NSF Employees—present and past.

Categories of records in the system: Records contain name, address, telephone and next of kin of employees.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information used for locating employee for outside callers and for updating NSF and NSA Center telephone directories.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in 5x8 card files.

Retrievability: Filed alphabetically by last name of employee.

Safeguards: Building employs security guard. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: Destroyed two years after separation of employee.

System manager(s) and address: Director, Division of Personnel and Management.

Notification procedure: The NSF Privacy Act officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information received from individual employees.

NSF-10

System name: Employee's Payroll Jacket.

System location: National Science Foundation, Director, Division of Financial and Administrative Management, Payroll Section, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: NSF Employees (including Consultants).

Categories of records in the system: Personnel actions, Federal and State Withholding Certificates, Bond Authorizations, Health Benefits Forms, Life Insurance Forms, Allotment Forms, and other similar items related to an employee's pay and deductions.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

1. Copies of Health Benefits Forms sent to Carrier.

2. Charity Allotment Forms are sent to other agencies upon transfer of employee.

3. Data from some records is used as input data for NSF Payroll System which is described in another notice and the routine uses listed there are also applicable to this record system.

4. To the extent any of these records are duplicative of those described in the notice of official Personnel Folders the routine uses described therein are also applicable.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folder.

Retrievability: Filed alphabetically by last name of employee.

Safeguards: Building employs security guard. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: Destroyed five years after termination of employment.

System manager(s) and address: Director, Division of Financial and Administrative Management.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: NSF Personnel Office and individual employees or consultants.

NSF-11

System name: Equal Employment Opportunity Case File

System location: National Science Foundation, Office of Equal Employment Opportunity, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: NSF employees and applicants for employment with the Foundation.

Categories of records in the system: Records contain the complaint of the individuals, deposition taken and statement from individuals and all records pertaining to complaint. 1. When case is closed a duplicate file goes to the Civil Service Commission. 2. Civil Service Commission has access during routine examinations and audits conducted by it. 3. Information or records may be disclosed to State or Federal courts in connection with litigation. 4. Information from these files may be used to respond to a request from a member of Congress regarding the status of an appeal, complaint, or grievance if the Congressman is acting on the basis of a request from the individual involved.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper record maintained in file folders.

Retrievability: Filed alphabetically by last name of individual.

Safeguards: Building employs security guards. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours. Records are maintained in locked, supreme cabinets.

Retention and disposal: Records are maintained up to two years and then transferred to the National Personnel Records Center, St. Louis, Missouri. They are destroyed by the Federal Records Center when the records are seven years old.

System manager(s) and address: NSF Equal Employment Director.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information is obtained from the individual complainant, supervisors, Hearing Examiners, witnesses and others providing input to the particular case.

NSF-12

System name: Fellowship and Traineeship Filing System.

System location: Records that make up this system are kept in three places, (1) Fellowships and Traineeships Section, Division of Science Manpower Improvement, NSF 5225 Wisconsin Ave., NW, Washington, D.C. (2) National Academy of Sciences, Joseph Henry Building, 2100 Pennsylvania Avenue, NW, Washington, D.C., and (3) National Academy of Sciences, 2101 Constitution Avenue, NW, Washington, D.C.

Categories of individuals covered by the system: Persons applying for and/or receiving fellowships of various types awarded by NSF, and persons receiving traineeships under NSF traineeship grant programs. Note applicants for fellowships from the NATO Committee on the Challenges of Modern Society are covered under a separate system of records described in another system notice, but NATO Senior and Postdoctoral Fellows are included in this system.

Categories of records in the system: Information varies depending on type of fellowship or traineeship. Normally the information includes personal information supplied with the application; reference reports; transcripts and Graduate Record Examination scores to the extent required during the application process; selection process results and administrative data and correspondence accumulating during fellows tenure. There is a cumulative index of all persons applying or receiving NSF and NATO fellowships and NSF Traineeships.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) A list of applicants for certain fellowships is sent to the Educational Testing Service, Princeton, N.J. for annotation of GRE scores and returned to NAS for use in application processing. (2) Information from the system is used and may be merged with other computer files in order to carry out statistical studies for NSF or other Government agencies. The results of such studies are statistical in nature and do not identify individuals. (3) In the case of Faculty Fellowships in Science records go to the American Council for Education for purposes of evaluating applicants. ACE returns the applications to NSF and such records that it does maintain are not kept by the name of the applicant. (4) Copies of the records of persons receiving traineeships will be sent to the institution awarding the traineeship in the event such institution should request a copy (as where it has lost its own copy). (5) Certain information is given to the institution the fellow is attending or planning to attend for purposes of administrative of fellowships, including, its many cases, for payment of stipends. (6) In the case of Fellows receiving stipends directly from the Government, information is transmitted to the Department of Treasury for preparation of check. (7) Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The records kept by the NAS are on computer tapes. All original application materials are kept at NSF. However, microfilms of application materials received prior to 1963 are kept at NAS.

Retrievability: Filed alphabetically by applicant's name.

Safeguards: Building is locked during non-business hours. Records at NSF are kept in rooms that are locked during non-business hours. Records kept at NAS are kept in similar rooms and some records are locked in cabinets.

Retention and disposal: NAS tapes are kept indefinitely. Records at NSF are transferred to the Federal Records Center and destroyed 10 years after completion of Fellowship.

System manager(s) and address: Division Director, Division of Science Manpower Improvement.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613. It would expedite your request if the fellowship or traineeship program about which you are interested was identified in your request. For example, indicate your applied for or received a "Graduate Fellowship" or a "Faculty Fellowship in Science" as opposed to merely saying you want a copy of your fellowship.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information supplied by individuals applying or receiving fellowships or traineeships, references, the Education Testing Service, educational institutions supplying transcripts, and administrative data developed during selection process and award tenure.

Systems exempted from certain provisions of the act: NSF at 45 CFR 613.6 has claimed an exemption as to the disclosure of the identity of references in accordance with 5 USC 552a(k)(5).

NSF-13

System name: Fellowship Payroll

System location: National Science Foundation, Division of Financial and Administrative Management, Payroll Section, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: Fellows under certain NSF Fellowship Programs being paid directly by the Government.

Categories of records in the system: Copies of fellowship award letter, acceptance form, starting certificates, and records of payments of stipends.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Transfer of information to Department of Treasury for preparation of checks.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by last name of Fellow.

Safeguards: Building employs security guards. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: Destroyed four years after cut-off.

System manager(s) and address: Director, Division of Financial and Administrative Management.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information obtained from Fellow through Education Directorate.

NSF-14

System name: Grants to Individuals

System location: This is a decentralized system. With respect to all successful applicants for support, records are kept at the National Science Foundation, Division of Grants and Contracts, 1800 G Street, NW, Washington, D.C. 20550. Separate records are also kept at the various program offices of the Foundation which manage the particular programs involved. These records may cover both successful and unsuccessful applicants.

Categories of individuals covered by the system: Individuals applying for and/or receiving support from the National Science Foundation.

Categories of records in the system: Application for support and NSF grant documents.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Some information is released to Congress in the form of a daily listing of grants.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by last name of awardee.

Safeguards: Building employs guards. Building is locked during non-business hours when guard is not on duty. Rooms in which

records are kept are locked during non-business hours. The Division of Grants and Contracts records are kept in locked power files.

Retention and disposal: Records are transferred to the Federal Records Center two years after close of case; destroyed eleven years after close of case.

System manager(s) and address: Director, Division of Grants and Contracts as to Grant and contract files and head of the particular program involved as to the remainder.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613. In addition, your request should state (1) the type of grant and program involved and (2) whether you were a recipient of an award or an unsuccessful applicant.

Contesting record procedures: See "Notification" above.

Record source categories: Information obtained from individuals and from various NSF offices and programs.

NSF-15

System name: Health Service Medical Records

System location: National Science Foundation, Health Service, 1800 G Street, NW, Washington, D.C. 20550

Categories of individuals covered by the system: Employees of NSF, Secret Service, Office of Telecommunication Policy, ERDA, and Office of Special Representatives for Trade Negotiations.

Categories of records in the system: Medical information from physical examinations or other visits to Health Service.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: None, although records are sometimes given to personal physicians and insurance companies with written approval of employee.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by last name of employee.

Safeguards: Building employs security guard. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: To employee upon separation or with employee's instructions, to Health Service of new place of employment to employee's private physician or retained six years after separation, then transferred to the Federal Records Center.

System manager(s) and address: Director, NSF Health Service.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information received from examining physician, individual, and from other physicians with permission of individual.

NSF-16

System name: Individual Retirement Record (SF2806).

System location: National Science Foundation, Division of Financial and Administrative Management, Payroll Section, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: NSF employees (including some consultants).

Categories of records in the system: Salary, grade, status changes, yearly and year to date retirement deductions.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: 1. Transferred to CSC when employee separates. 2. Copies transferred to CSC once a year after close-out for payroll year.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed by employee's payroll number.

Safeguards: Building employee security guard. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours. Records are in combination lock, fire-proof cabinet.

Retention and disposal: Retained until employee is separated then transferred to CSC.

System manager(s) and address: Director, Division of Financial and Administrative Management.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information obtained from the Personnel Office on Payroll Summaries prepared each two weeks showing year-to-date amounts.

NSF-17

System name: Intergovernmental Personnel Act Assignment Agreements.

System location: National Science Foundation, Division of Grants and Contracts, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: Employees on temporary assignment under the Intergovernmental Personnel Act.

Categories of records in the system: The information in these records is that normally found on the SF 171 and a Personnel Qualification Assignment Agreement.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information necessary for coordination with the institution which the employee is affiliated may be disclosed to such institution.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by last name of employee.

Safeguards: Building employs security guard. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: Transferred to the Federal Records Center and destroyed ten years after separation of employee.

System manager(s) and address: Director, Division of Grants and Contracts

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information is received from the individual and the individual's home institution.

NSF-18

System name: Manpower Management Subsystem.

System location: National Science Foundation, Division of Personnel and Management, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: NSF employees (including consultants).

Categories of records in the system: Individuals personal particular including such items as education, appointment and position information, training and development data, organization and job identification information, committee assignment and salary data, pay change data, carpool information, leave data, deductions from pay.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

1. Records or information may be disclosed to the Civil Service Commission (a) as required by law or civil service rules and regulations, (b) in connection with adjudicatory type activities of the CSC, (c) as part of CSC audits and reviews of NSF personnel procedures and practices, (d) to provide data for the Central Personnel Data File and to provide data to update Federal automated Career Systems (FACS), Executive Inventory File, and security investigations index on new hires, adverse actions, and terminations.

2. Records of information may be disclosed to a Federal Agency, in response to its request, in connection with the hiring or retention of an employee, the letting of a contract, or issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

3. Records or information may be referred, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, state, or local, charged with the responsibility of

investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

4. Records or information may be disclosed to the CSC or other Federal agencies for the purpose of conducting security clearances.

5. Certain information may be transferred to organizations (including Federal agencies) conducting training programs attended by NSF employees as necessary for the administration or conduct of the training.

6. Upon employee's transfer to another Federal agency, records are transferred to the Civil Service Commission or the new agency.

7. Certain records or information may be disclosed or transferred to the Office of Workers' Compensation Programs, Veterans Administration Pension Benefits Program, Social Security Old Age, Survivor and Disability Insurance and Medicare Programs, military retired pay programs, and Federal civilian employee retirement systems other than the Civil Service Retirement System, when requested by that program or system or by the individual covered by this system of records, for use in determining an individual's claim for benefits under such system.

8. Earnings information may be transferred under the Civil Service Retirement System to the Internal Revenue Service as required by the Internal Revenue Code of 1954, as amended.

9. Information necessary to support a claim for life insurance benefits under the Federal Employees' Group Life Insurance Program may be transferred to the Office of Federal Employees' Group Life Insurance, 4 East 24th Street, New York, NY 10010.

10. Information necessary to support a claim of health insurance benefits under the Federal Employees Health Benefits Program may be transferred to a health insurance carrier or plan participating in the program.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained on disc with tape.

Retrievability: Records are retrieved by Social Security Number or Employee Number.

Safeguards: Building employs security guard. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours. A password is necessary to access the computer.

Retention and disposal: Records are maintained until the separation of employee.

System manager(s) and address: Director, Division of Personnel and Management.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information for this system of records is received from the NSF Personnel Office.

NSF-19

System name: Medical Examination Records for Service in Antarctica

System location: Holmes and Narver, Inc., 400 E. Orangethorpe, Anaheim, California 92810

Categories of individuals covered by the system: All civilians entering Antarctica through United States auspices.

Categories of records in the system: Results of medical examination to determine fitness for entering Antarctica.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Copy of record is given to the Force Medical Officer, U.S. Navy Support Force, Antarctica.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by last name of individual.

Safeguards: Kept in locked file.

Retention and disposal: After one year those records of Holmes and Narver employees are transferred to H&N personnel files. System is only two years old and length of retention for records of others has not been determined.

System manager(s) and address: Administrative Manager, Antarctic Field Services, Holmes and Narver, Inc., 400 E. Orangethorpe, Anaheim, California 92801.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information obtained from examining physician and individual.

NSF-20

System name: Minority Applicants for Employment

System location: National Science Foundation, Office of Equal Employment Opportunity, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: Minority applicants seeking employment with the Foundation.

Categories of records in the system: Records contain resume and information contained on SF 171.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information is sometimes disclosed to other Federal agencies requesting minority recruitment assistance in scientific areas.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by last name and discipline.

Safeguards: Building employs security guards. Building is locked during non-business hours when guard is not on duty. Room in which records are kept is locked during non-business hours.

Retention and disposal: Maintained indefinitely.

System manager(s) and address: NSF Equal Employment Director.

Notification procedure: The NSF Privacy Act Officer should be contacted in accordance with procedures found at 45 CFR Part 613.

Record access procedures: See "Notification" above.

Contesting record procedures: See "Notification" above.

Record source categories: Information is received from individual submitting application and information received by the Personnel Office from previous employer of applicant if applicant is considered for employment.

NSF-21

System name: Nominees for and Recipients of the National Medal of Science.

System location: National Science Foundation, Office of the Director, 1800 G Street, NW, Washington, D.C. 20550.

Categories of individuals covered by the system: Persons who have been nominated for or received National Medal of Science.

Categories of records in the system: Biographical information concerning past employment, education, achievements, and other similar personal data.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: None, although biographical information on recipients is released to the White House for presentation of awards. Name and affiliation is released to the press. No information is released on other nominees.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Paper records maintained in file folders.
